Roads: Capital Investment

Mr. Carmichael: To ask the Secretary of State for Transport what the scheduled date for *(a)* start and *(b)* completion of construction is for each scheme in the Highways Agency's Targeted Programme for Improvements. [148147]

Mr. Tom Harris: The following table shows the current forecasted start and completion date for construction for each scheme in the Highways Agency Major Roads Programme, subject to satisfactory completion of statutory processes and availability of funding.

Scheme name	Start of works	Open for traffic	Scheme status
A2 Bean—Cobham Phase 2 Pepperhill-Cobham Improvement	September 2006	December 2008	Construction
A2/A282 Dartford Improvement	August 2006	May 2008	Construction
A11 Fiveways—Thetford Improvement	March 2013	March 2015	Development
M6 Carlisle to Guardsmill Extension	July 2006	December 2008	Construction
A14 Haughley New St—Stowmarket Improvement	June 2007	July 2008	Construction
A3 Hindhead Improvement	January 2007	August 2011	Construction
A38 Dobwalls Bypass	November 2006	September 2008	Construction
A595 Parfon—Lillyhall Improvement	January 2007	October 2008	Construction
A1 Peterborough—Blyth Grade Separated Junction	September 2006	October 2008	Construction
M62 Junction 6 Improvement	April 2007	November 2008	Construction
A46 Newark—Widmerpool Improvement	April 2012	September 2016	Development
A30 Bodmin Indian Queens Improvement	July 2005	July 2007	Construction
A5117/A550 Deeside Park Junctions Improvement	October 2006	October 2008	Construction
A419 Blunsdon Bypass	September 2006	December 2008	Construction
A66 Temple Sowerby and Imp at Winderwath	February 2006	October 2007	Construction
A1 Dishforth to Leeming (A1 Dishforth to Barton) Improvement	March 2008	June 2011	Development
A1 Bramham—Wetherby (Including Wetherby BP) Bypass	April 2007	June 2009	Construction

Scheme name	Start of works	Open for traffic	Scheme status
A1 Leeming to Barton (At Dishforth to Barton) Improvement	March 2008	June 2009	Development
A47 Blofield to North Burlingham Dualling	April 2011	October 2012	Development
A66 Greta Bridge to Stephen Bank Improvement	March 2006	July 2007	Construction
A66 Carkin Moor to Scotch Corner Improvement	March 2006	July 2007	Construction
A66 Long Newton Junction improvement	February 2007	May 2008	Construction

M25 J1b-3 Widening (Section 3)	June 2007	March 2009	Construction
M25 J5-7 Widening (Section 2)	October 2012	September 2014	Development
M25 J 16-23 Widening (Section 1)	January 2009	June 2012	Development
M25 J23-27 Widening (Section 5)	October 2012	June 2015	Development
M25 J27-30 Widening (Section 4)	January 2010	December 2011	Development
A21 Kippings Cross to Lamberhurst Bypass	May 2011	April 2013	Development
A23 Handcross to Warninglid Widening	September 2009	March 2012	Development
A453 Widening (M1 J24 to A52 Nottingham)	July 2009	November 2011	Development
M25 Junction 28/A12 Brook Street Junction Improvement	May 2007	February 2008	Construction
M27 J1 1-J12 Climbing Lanes	January 2008	October 2008	Development
M27J3 To J4 Widening'	January 2008	March 2009	Development
M1 J30 to J31 Widening (SWYMBUS)	July 2011	June 2014	Options
M1 J31 to J32 Widening (SWYMBUS)	January 2007	November 2007	Construction
M1 J32 to J 34 Widening (SWYMBUS)	April 2011	September 2013	Options
M1 J34N to J37 Widening (SWYMBUS)	January 2011	December 2014	Options
M1 J37 to J39 Widening (SWYMBUS)	October 2012	December 2015	Options
M1 J39 to J42 Widening (SWYMBUS)	September 2009	July 2013	Options
M1 J31-32 N/B Collector/ Distributor Widening ISWYMBUS)	July 2014	March 2016	Options
M62 J25 to J27 Widening (SWYMBUS)	June 2009	June 2014	Options
M62 J27 to Jet 28 Widening (SWYMBUS)	June 2009	June 2014	Options

Mr. Carmichael: To ask the Secretary of State for Transport whether the Government are on track to achieve its target of delivering *(a)* 100 new bypasses on trunk and local roads and *(b)* 130 major local road schemes by 2010; and what the (i) construction costs, (ii) scheduled date for start of construction, (iii) expected completion date and (iv) current status as at 1 April 2007 was for each existing scheme. [148149]

Ms Rosie Winterton: The 10 Year Plan published in July 2000 set out very broad indicative figures for the number of bypasses that might be delivered on the trunk and local road network over the 10 year period.

As at 1 April 2007, the Highways Agency had completed 45 major trunk road schemes, 21 of these were bypass schemes. Local highway authorities had completed 43 local major road schemes, 20 of which are bypasses.

I have placed in the Library of the House two tables which provide information on (i) construction costs, (ii) scheduled date for start of construction, (iii) expected completion date and (iv) current status of both Highways Agency and local authority major road schemes which are currently at various stages within the approval process.

Roads: Safety

Mrs. Dunwoody: To ask the Secretary of State for Transport what research she plans to undertake into the under-reporting identified in Road Safety Research Report 69; and if she will make a statement on the inclusion of insurance status in the Stats 19 form. [150757]

Jim Fitzpatrick: The Department and the Office for National Statistics are currently undertaking a project to match individual records from STATS19 with records from hospital admissions resulting from road accidents. The resulting matched database should allow for further investigation into levels of reporting.

Additionally, questions on road accidents were added to the National Travel Survey (NTS) in January 2007. In future, this will provide an independent, non-administrative source, which will help track broad trends. The first data will be available summer 2008.

Changes to the information collected on the STATS 19 personal injury road accident reporting form, including insurance status, will be considered in the next review of STATS19. The findings of the next review will be implemented in 2011.

Mr. Jim Cunningham: To ask the Secretary of State for Transport what recent assessment her Department has made of road safety in the Coventry area. [152338]

Jim Fitzpatrick: No separate assessment of Coventry has been undertaken but Coventry is a partner in the West Midlands Local Transport Plan (LTP), along with each of the metropolitan authorities and Centro. For the period of the first LTP (2001-06) performance for road safety was assessed as "strong". The strategy for road safety for the second LTP (2006-11) was assessed as "excellent". Both assessments were completed in December 2006.

Shipping

Mr. Hancock: To ask the Secretary of State for Transport if she will take steps to *(a)* increase the numbers of (i) British registered merchant ships and (ii) merchant navy officers and *(b)* to increase the size of the UK maritime skills base; and if she will make a statement. [152365]

Jim Fitzpatrick: A new campaign to re-invigorate the UK Register was launched in February 2006 when the then Minister for Shipping (the hon. Member for South Thanet) held a reception for shipowners/operators at the National Maritime Museum in Greenwich with the theme of "Safety through partnership". In addition, a review of the MCA's Marketing Strategy was undertaken during the second half of 2006 and the recommendations from this are now being implemented.

A measure of the success of this campaign is that at the end of March 2007 the number of merchant vessels on the UK Ship Register was 1,459, of which the gross tonnage was in excess of 13 million for the first time in 10 years. (If we include all sea-going vessels over 100 gross tonnes, as in the Department for Transport's published statistics, the number of vessels is over 1,900 and the gross tonnage over 14 million).

The Government are currently engaged with social partners, considering joint proposals from the Chamber of Shipping, RMT and Nautilus UK for stimulating UK and EEA rating and officer training and employment.

Although recruitment is a matter for the shipping companies themselves, a dedicated industry body, the Merchant Navy Training Board (which includes representatives from industry, trade unions and the Government), actively promotes officer training, and the Department for Transport gives financial assistance to training providers through the Support for Maritime Training Scheme (SMarT), for the training of officers and ratings. The support available under SMarT at present amounts to roughly half of the cost of training provided by maritime colleges.

Seafarer training is also a key element of the UK tonnage tax which imposes a minimum training obligation (MTO) on companies entering the scheme. This is to train one officer trainee per year for every 15 officer posts in the company's effective officer complement. The MTO is cumulative and covers each trainee for up to three years.

South West Trains: Fares

Sandra Gidley: To ask the Secretary of State for Transport what discussions she has had with South West Trains on the 20 per cent. fare increase for mid-morning passengers to London from *(a)* Southampton, *(b)* Winchester and *(c)* Dorset. [153630]

Mr. Tom Harris: The Secretary of State has had no discussions with South West Trains regarding the 20 per cent. fare increase for mid-morning passengers to London as these fares are unregulated.

Traffic Accidents

Lynne Featherstone: To ask the Secretary of State for Transport (1) how many road traffic accidents involved commercial coaches in London in each of the last five years; and if she will make a statement; [153550]

(2) how many traffic accidents there were involving *(a)* buses, *(b)* pedestrians and *(c)* cyclists in each London borough in each of the last five years. [153553]

Jim Fitzpatrick: The number of reported personal injury accidents involving buses/coaches, pedestrians and cyclists in each London borough since 2002 are given in the following table.

Commercial coaches are not separately identifiable.

Number of accidents

Road user type	*London borough*	*2002*	*2003*	*2004*	*2005*	*2006*

Transport: Capital Investment

Mr. Carmichael: To ask the Secretary of State for Transport which local authority major transport schemes have departmental approval; whether each scheme has *(a)* full and *(b)* provisional approval; what the scheduled date for (i) start and (ii) completion of construction is, and what the capital cost of each such scheme is estimated to be. [148146]

Ms Rosie Winterton: I have placed a table setting out the information requested for local transport major schemes, costing over £5 million, in the House Library.

Transport: Radioactive Materials

Chris Huhne: To ask the Secretary of State for Transport what assessment she has made of the *(a)* safety and *(b)* security of (i) trains, (ii) aircraft and

(iii) road freight transporting radioactive material; and with whom responsibility lies for conducting the risk assessment for such trains. [151925]

Jim Fitzpatrick: The information requested is as follows.

(a) The safety of the transport of radioactive material is ensured by the use of appropriate packaging and is not dependent on the mode(s) of transport employed. The transport of radioactive material by all modes of transport is governed by the stringent internationally-agreed standards recommended by the International Atomic Energy Agency (IAEA), an agency appointed by the United Nations to oversee all aspects of the peaceful uses of atomic energy worldwide. During the period of over 40 years that the IAEA regulations have been in existence, there has been no instance of death or serious injury to persons, nor significant damage to the environment, from radiological effects caused during the transport of radioactive material worldwide by all modes of transport when properly packaged and transported in conformity with these regulations.

The Radiation Protection Division of the Health Protection Agency, acting under contract to the Department for Transport, carries out periodic assessments of the radiological impact of the transport of radioactive material under normal and abnormal conditions. A list of recent reports can be found on the Department's website at the following location:

http://www.dft.gov.uk/pgr/freight/dgt1/publications/notes/theradiologicalimpactofthetrl178

(b) The security of the transport of radioactive material by road or rail is governed by the security measures introduced by The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment (Amendment) Regulations 2005. These security requirements are based on international agreements. Measures include the need for operators to develop and have in place a detailed security plan which includes a written risk assessment of their operations where radioactive materials are stored in transit. All freight carried by air from UK airports is subject to the requirements of the DFT's National Aviation Security Programme to ensure that it is not being used to commit an act of violence against a civil aviation target, for example by containing an improvised explosive device. Freight on incoming flights remains the responsibility of the country where that aircraft departed from and is similarly covered by a mixture of international regulation and best practice.

The transport of material connected with the civil nuclear fuel cycle (nuclear material) is carried out in accordance with stringent security regulations—the Nuclear Industries Security Regulations 2003 (as amended). These regulations are administered and enforced by the Office for Civil Nuclear Security (OCNS), which regulates the security of nuclear material in transit, by road, rail and sea (including globally, when nuclear material is carried on a UK flagged vessel).

The security of the transport of nuclear material was thoroughly reviewed following the events of September 11 2001, and is regularly reviewed in light of the prevailing threat. OCNS is satisfied that the measures in place to prevent theft or sabotage are adequately robust, and that in the event that a credible threat were detected, appropriate action would be taken.

Under health and safety legislation it is the responsibility of the organisation carrying out any activity to carry out a risk assessment. In the specific case of activities involving radioactive material this is a requirement of the Ionising Radiations Regulations 1999 (1999 No. 3232).

Transport: Sunderland

Mr. Hoban: To ask the Secretary of State for Transport when she received the application for funding the Sunderland Strategic Transport Corridor; how much funding was requested; and when she will make a decision on the application. [152801]

Ms Rosie Winterton: Sunderland city council's major scheme business case for the Sunderland Strategic Transport Corridor, LTP major road scheme, was submitted to the Department in July 2005.

The total estimated cost of the scheme in July 2005 was £69.455 million. The business case has raised a number of issues, including modelling, appraisal and costs which require further clarification. My officials are working closely with the council and once these outstanding issues have been resolved we hope to be in a position to make a decision on whether to grant programme entry for the proposed scheme.

Travel: Pollution Control

Mr. Hancock: To ask the Secretary of State for Transport what the changes have been in her Department's carbon footprint policy in the last three years as a result of *(a)* the fall in the relative price of motoring and *(b)* the increase in travelling by public transport; and if she will make a statement. [153442]

Jim Fitzpatrick: Since undertaking joint responsibility for the Government's public service agreement on climate change in 2004, the Department for Transport has continued to develop policy to reduce the climate change impact of transport. Policies in this area can be summarised as action to:

- improve the fuels that we in the UK consume (eg by reducing their fossil carbon content),
- improve the vehicles we use, for example increasing their efficiency,
- improve the way we travel and the choices we all make, for example encouraging use of more sustainable modes and smarter driving techniques, and
- reduce the Department's own carbon footprint from its operations (as set out in our Sustainable Development Action Plan)

Changes to the relative cost of private motoring compared to public transport costs are taken into account in the Department's transport modelling. Increases in public transport patronage are also forecast and policy decisions are made in the light of factors such as these.

More information about Government policies and the associated evidence are set out in greater detail in various publications, including but not limited to:

Vehicles: Pollution Control

Lynne Featherstone: To ask the Secretary of State for Transport how much funding was allocated to promoting the use of low emission vehicles in each of the last five years. [153548]

Jim Fitzpatrick: Until 2006, funding for the promotion of low emission vehicles was provided to the Energy Saving Trust as part of the TransportEnergy programme, which promoted and provided grants. Funding allocated for the TransportEnergy programme was: 2002-03 £16.446 million, 2003-04 £26.221 million, 2004-05 £20.943 million, 2005-06 £22 million.

In 2005 these funds were reviewed and re-focused. In 2006-07 £9 million was allocated to the Energy Saving Trust transport programmes. £5 million was allocated to the transport elements of the new Act On CO_2 consumer communications campaign, which promotes lower CO_2 cars and driving behaviours. £3.5 million was allocated to the Freight Best Practice and Safe and Fuel Efficient Driving programmes which promote fuel efficient logistics, vehicles and driving behaviour in the haulage industry. Funds were also allocated to support the development of the Renewable Transport Fuels Obligation and feasibility studies, into new programmes such as a green transport accreditation programme for UK businesses.

Lynne Featherstone: To ask the Secretary of State for Transport what steps her Department has taken to promote the use of low emission vehicles in London. [153549]

Ms Rosie Winterton: The Department for Transport is working closely with Transport for London to support the implementation of the Mayor's London Low Emission Zone. The Department also liaises with local authorities via the Low Emissions Strategy forum, which shares knowledge and best practice to help local authorities to improve air quality, including low emission zones.

Lynne Featherstone: To ask the Secretary of State for Transport how many *(a)* low emission cars and *(b)* cars were owned in London in each of the last five years. [153551]

Ms Rosie Winterton: The number of licensed cars, registered to keepers residing in London, in each CO_2 emissions band over the last five years were as follows:

Number of licensed cars at year end

CO_2 emissions	2002	2003	2004	2005	2006
Up to 100g/km	24	30	31	34	26
101-120g/km	3,317	6,299	9,796	14,424	20,997
121-150g/km	72,457	110,644	151,909	193,982	239,528
151-165g/km	76,170	110,562	144,931	182,458	213,926
166-185g/km	70,269	96,435	131,080	164,303	201,450
Over 185 g/km	146,948	214,626	282,909	349,273	407,673
Unavailable[1]	2,104,246	1,941,312	1,802,235	1,657,175	1,485,794
Total	2,473,431	2,479,908	2,522,891	2,561,649	2,569,394

Note:
[1] CO_2 emissions data were not collected for cars registered before 1 March 2001. In addition, emissions data are not available for a small number of cars registered after this date.

Written Answers to Questions

The following answers were received between Friday 27 July and Friday 31 August 2007

FOREIGN AND COMMONWEALTH OFFICE

Bangladesh: Politicians

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations against the arrest of opposition leader Sheikh Hasina in Bangladesh; and if he will make a statement. [152606]

Dr. Howells: We are aware that following her recent arrest, former Prime Minister Sheikh Hasina has been formally charged with extortion by police in Dhaka, and that she remains in detention in a "sub-jail". The case is now within the judicial system of Bangladesh. We trust that, consistent with Bangladesh's international human rights obligations, legal proceedings against Sheikh Hasina will respect the full range of her human rights.

Burma: Human Rights

Mr. Burrowes: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has examined on Burma's human rights record; and if he will make a statement. [153362]

Dr. Howells: We receive regular reports about human rights abuses in Burma, including the statement issued on 29 June by the International Committee of the Red Cross drawing attention to the Burmese regime's persistent violations of international humanitarian law.

We agree that the human rights situation in Burma remains grave. Serious abuses continue to be committed, particularly in areas of armed conflict. The Burmese people do not enjoy the most basic of human rights, including the right to the freedom of speech and association, democracy, good governance and the rule of law.

We continue to work with our European and international partners, as well as through the UN and International Labour Organisation, to press the regime to end the human rights violations and to engage in a genuine process of national reconciliation involving all relevant parties and groups in Burma. On 27 July my hon. Friend the Under-Secretary of State for Foreign and Commonwealth Affairs (Meg Munn), discussed the situation with UN Special Adviser Ibrahim Gambari, within the context of the UN Secretary-General's good offices mandate on Burma.

We take every opportunity to raise human rights issues with the regime and remind them of their obligations to adhere to international human rights law, most recently when our ambassador in Rangoon met the Burmese Deputy Foreign Minister and the Ministers of Planning and Health on 12-13 June.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on newspapers and magazines in the last 12 months. [153046]

Mr. Jim Murphy: The total amount spent on publications for the last financial year, ending March 2007, was £1,410,027.68. This covers expenditure on newspapers, magazines and journals and also includes expenditure on press cuttings. Although it is not possible to identify the expenditure on newspapers and magazines alone without incurring disproportionate cost, the amount spent on publications has fallen significantly over the past 10 years. In the financial years 1997-2001 the average yearly spend on publications was £2,327,661.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on redundancy payments in the last 12 months. [153051]

Dr. Howells: The Foreign and Commonwealth Office did not make any compulsory redundancy payments in the last 12 months. It is our policy to do all we can to avoid compulsory redundancies.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on taxis in the last 12 months. [153042]

Mr. Jim Murphy: The Foreign and Commonwealth Office has two contracts with taxi/minicab firms to provide a 24-hour taxi service for staff in London, and to provide a taxi service between Milton Keynes and Hanslope Park, and taxi services for Hanslope Park-based staff for airport journeys.

The out of hours use of the London taxi contract is primarily for those staff called out for emergency work in the crisis centre or other 'on call' operational activities.

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

The amount spent on taxis for financial year 2006-07 is as follows:

	£
Hanslope Park taxi contract	161,708.19
London taxi contract	443,372.48

Ethiopia: Human Rights

Mr. David Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made to the Ethiopian government on the imprisonment of Professor Me[illegible] Woldermariam. [152716]

Dr. Howells: We have made numerous representations to the Government of Ethiopia over the imprisonment of all opposition political leaders, including Mesfin Woldermariam, including at ministerial level and with EU partners. We urged the Ethiopian government to ensure that the trial for those detained was swift, transparent and fair, and that their individual human rights were respected.

I am delighted that Mesfin Woldermariam was one of those pardoned by the President of Ethiopia and released on 20 July.

Israel: Asylum

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made on behalf of the Eritrean refugees residing in Israel's Al Ramleh Detention Centre who are threatened with expulsion. [152962]

Dr. Howells: My right hon. Friend the Foreign Secretary has made no such representations. As long as Israel acts within its obligations under international refugee law, this matter is for the Israeli Government.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations on behalf of the Eritrean refugees threatened with forcible return from Khartoum. [152963]

Dr. Howells: We have no plans to make representations to the Government of Sudan on behalf of the Eritrean refugees threatened with forcible return from Khartoum.

However, we want refugees to be afforded protection and treated equitably in their countries of refuge according to International Human Rights law. We work towards this objective through our substantial support to the UN High Commissioner for Refugees.

Lebanon: Peace Keeping Operations

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received from the UN monitoring mission in Lebanon on the extent of *(a)* military incursions into Israel from the Lebanese side of the Lebanon/Israel border, *(b)* military manoeuvres by Hezbollah or other armed groups along Lebanon's border with Israel and *(c)* Hezbollah or other Lebanese military activity in the Sheba'a Farms area in the last six months. [153684]

Dr. Howells: The UN Secretary-General reports to the Security Council on a quarterly basis on the implementation of UN Security Council Resolution (UNSCR) 1701. The last two reports, produced in March and June, cover the period of the last six months. The UK continues to support full implementation of UNSCR 1701.

These reports describe several incidents along the Blue Line separating Israel and Lebanon. On 17 June several Katuysha Rockets were fired from Lebanon towards northern Israel, in violation of UNSCR 1701. Two of these rockets landed in the Israeli town of Kiryat Shemona. It is not known who was responsible for this attack.

The Secretary-General's reports also note the activities of militant groups in south Lebanon. Most significantly six Spanish soldiers serving with the UN Interim Force in Lebanon (UNIFIL) were killed by a roadside bomb on 24 June. It is not known who was responsible for this attack. The Secretary-General's report also confirms that there is no evidence of Hezbollah military activity in the UNIFIL area of operations.

We have received no reports from the UN of Hezbollah or Lebanese army activity in the Sheba'a Farms in the last six months.

I have arranged for copies of both of the most recent Secretary-General's reports on UNSCR 1701 to be placed in the Library of the House.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received from the UN monitoring mission in Lebanon on the extent of *(a)* Israeli military overflights across Lebanon's border with Israel, *(b)* other Israeli military manoeuvres along the Lebanon/Israel border and *(c)* Israeli military activity in the Sheba'a Farms area in the last six months. [153685]

Dr. Howells: The UN Secretary-General reports to the Security Council on a quarterly basis on the implementation of UN Security Council Resolution (UNSCR) 1701. The last two reports, produced in March and June, cover the period of the last six months. The UK continues to support full implementation of UNSCR 1701 and is working with the Governments of Lebanon and Israel towards this.

In these reports the Secretary-General reported that Israel has continued regular overflights of Lebanese territory with both manned and unmanned aircraft. The number of these overflights reduced in early 2007, but has risen again recently. These flights occur on an almost daily basis with up to 32 overflights occurring on some days.

The Secretary-General also reported several breaches of the Blue Line that separates Israel and Lebanon. The most serious of these occurred in February when Israeli and Lebanese forces exchanged fire across the Blue Line during an Israeli incursion into Lebanon. Another incursion occurred on 28 May when Israeli vehicles also moved 60 metres into Lebanon. The Israeli Defence Forces (IDF) claim that this incursion was unintentional. Nevertheless there has been some progress on co-operation between the IDF, the UN Interim Force in Lebanon and the Lebanese army through the tripartite mechanism. This co-operation is aimed at minimising breaches of the Blue Line.

The reports do not record in detail instances of IDF activity in the Sheba'a farms area. The IDF did arrest some hunters who had strayed into this area, although they were subsequently released.

I have arranged for copies of the both of the most recent Secretary-General's reports on UNSCR 1701 to be placed in the Library of the House.

Nuclear Non-Proliferation Treaty

Alan Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made with the non-proliferation proposals made

by his predecessor to the Carnegie International Conference in Washington DC on 25 June. [153358]

Dr. Howells: The Government are committed to making farther progress on the non-proliferation proposals set out by my right hon. Friend the then Foreign Secretary (Margaret Beckett) in her speech in Washington on 25 June. Over the past two months British diplomatic missions have brought these proposals to the attention of a wide range of senior contacts and opinion-formers inside and outside government around the world and encouraged media coverage. Planning and preparatory work on a practical delivery strategy through to the Nuclear Non-Proliferation Treaty 2010 Review Conference is being taken forward by officials.

My hon. Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Meg Munn) spoke on these issues in the House on 24 July 2007, *Official Report*, columns 196-201WH.

Russia: Extradition

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* Russian nationals and *(b)* Russian born citizens given British nationality, resident in the United Kingdom, are currently subject to requests for extradition by the Russian Federation; and what responses have been given in each case. [152276]

Meg Hillier: I have been asked to reply.

As a matter of longstanding policy and practice the UK will neither confirm nor deny the existence of any extradition request made or received by this country ahead of arrest pursuant to the extradition request.

Two Russian citizens have been arrested whose extradition has been requested by the Russian Federation and their cases are currently under consideration. Neither of the subjects of the requests has British citizenship. Because the applications are under consideration, no responses have yet been given.

Sudan: Peace Negotiations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implementation of the Eastern Sudan Peace Agreement security protocols. [150942]

Meg Munn: We welcome the stability brought by the East Sudan Peace Agreement (ESPA) of 14 October 2006 between the Government of Sudan and the Eastern Front. We urge both sides to speed up implementation to ensure lasting peace and security in eastern Sudan.

Although some of the deadlines in Appendix A of the ESP A have been missed, implementation is now progressing. The Government of Sudan has appointed Eastern Front representatives as Assistant to the President, Presidential Adviser and Minister of State, who should take up their positions shortly. In June 2006, eight government members of the National Parliament resigned to make way for the Eastern Front Members of Parliament. Eastern Front representatives have also been appointed to state government.

The State of Emergency in eastern Sudan has been lifted and the cease-fire holds. About 3,500 Eritrea-based Eastern Front troops have returned to eastern Sudan since June and registration to integrate 1,200-1,500 Eastern Front troops into the Sudanese armed forces and police is well under way. The UN Development Programme is working closely on this with the Government of Sudan on the disarmament, demobilisation and reintegration of all other Eastern Front troops.

The UK provides funding to the National Multi Donor Trust Fund for Sudan, which funds development activities in eastern Sudan, one of the poorest parts of the country.

INTERNATIONAL DEVELOPMENT

Departments: Disabled

Mr. Harper: To ask the Secretary of State for International Development what proportion of people employed by *(a)* his Department and *(b)* its agencies are disabled. [153597]

Mr. Malik: Declaration of a disability is voluntary.

At the end of June 2007 there were 1,772 Home Civil Service staff employed in DFID. Of these 52 have declared a disability. This represents 2.9 per cent. of the total. Information on disability is published in DFID's Annual Diversity Report 2006-07.

DFID is responsible for 21 appointments to two non departmental public bodies: the Commonwealth Scholarship Commission and the Crown Agents Holding and Realisation Board. None of the appointees consider themselves to have a disability.

Departments: Dismissal

Mr. Dunne: To ask the Secretary of State for International Development pursuant to the answer of 14 June 2007, *Official Report*, column 1246W, on departments: dismissal, what the reasons were for the summary dismissal of the three members of staff without allegations of misconduct or written warnings; and what procedures were followed in those dismissals. [152078]

Mr. Thomas: All three dismissals were on the grounds of poor performance, following the DFID performance appraisal process at that time and in line with the terms of their contracts. In all cases, DFID sought legal advice before the decision to dismiss.

Since 1 October 2004, all our employees are governed by the statutory dismissal, discipline and grievance procedures introduced under the Employment Act (Dispute Resolution) Regulations 2004.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for International Development whether *(a)* his Department and *(b)* its agencies have made payments to Flint Bishop Solicitors since 1997. [151400]

Mr. Thomas: Since 1997, DFID has no record of having made any payments to Flint Bishop Solicitors.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on flowers in the last 12 months. [153118]

Mr. Thomas: Occasionally DFID may incur expenditure on flowers as part of our fees for a conference or event however we cannot disaggregate these costs from total spend without incurring disproportionate cost.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for International Development how many ministerial red boxes the Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150296]

Mr. Malik: Ministerial boxes are used by successive Ministers over many years. Information requested by the hon. Member is available for the year 2006. Two ministerial boxes were purchased directly from Barrow and Gale in 2006. There is no current long term contract in place.

Details of costs are as follows:

	2006
Number of ministerial boxes	2
Total cost	£1,346.55

Departments: Press

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on newspapers and magazines in the last 12 months. [153115]

Mr. Thomas: During the period July 2006 to July 2007 DFID recorded spend of £64,367 on newspapers and magazines. This includes the costs of subscriptions centrally funded in our Headquarters offices. Within DFID, individual departments and overseas offices may on occasion subscribe to relevant publications. To identify all non-centrally funded costs within our current systems would incur disproportionate cost.

Departments: Publications

Mr. Hoban: To ask the Secretary of State for International Development whether his Department's departmental magazine, Developments, is distributed in biodegradable packaging. [153382]

Mr. Thomas: The current stocks of 'polybags' used for posting out individual copies of Developments magazine are not biodegradable. These polybags are ordered in bulk and, at the time of ordering, a biodegradable alternative was ruled out due to high cost and short shelf-life.

The current stock will be used until it runs out and is expected to cover the next one and a half mailings. The next order of 'polybags' will be made with a new supplier who can provide a suitable biodegradable alternative. These will be used to complete the mailing of Developments magazine due out at the end of this year and for all subsequent issues.

Departments: Training

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on staff away days in the last 12 months. [153111]

Mr. Malik: Individual departments within DFID plan and manage development away days and team building exercises for their staff in accordance with their specific needs in the context of business planning, continual professional development and performance improvement. Costs are usually met through delegated divisional or departmental training budgets.

DFID does not separately record its expenditure on staff away days, and therefore is unable to provide the breakdown requested without incurring disproportionate costs.

Mr. Howard Horsley

Mr. Dunne: To ask the Secretary of State for International Development what representations his Department received from Mr. Howard Horsley, former Education Field Office Manager in Ghana, before his dismissal in January 2000 on corruption and misconduct. [152076]

Mr. Thomas: DFID's records show that Mr. Horsley made representations on attempted corruption in a letter of 7 July 1999. Separately, but within the same letter, he raised unrelated concerns on the conduct of a colleague. He later made further non corruption related representations calling for that colleague to be the subject of a disciplinary investigation in correspondence on 14 October and 12 November 1999.

DFID maintained a dialogue with Mr. Horsley throughout the period he was employed in Ghana. In the years since his dismissal Mr. Horsley has put forward a series of concerns which have been reviewed by DFID and independently by Cabinet Secretaries and the National Audit Office. All parties across Whitehall have been satisfied that DFID acted correctly in relation to Mr. Horsley's dismissal and found no evidence of financial impropriety and DFID's position has been upheld.

Republic of Congo: Oil

John Bercow: To ask the Secretary of State for International Development (1) what assessment he has made of the management of oil revenues by public officials in the Republic of Congo (Brazzaville); [149798]

(2) what representations he has received on the management of oil revenues in the Republic of Congo (Brazzaville); [149799]

(3) what representations he has received on the involvement of Denis Christel Sassou-Nguesso in the management of oil revenues in the Republic of Congo (Brazzaville); [149800]

(4) what assessment he has made of the extent of corruption within the Congolese (Brazzaville) oil sector; [149801]

(5) what recent discussions he has had with (*a*) the International Monetary Fund, (*b*) his counterparts at the EU and (*c*) the government of the Republic of Congo (Brazzaville) about management of oil revenues. [149802]

Mr. Thomas: DFID has not made its own assessments of the management of oil revenues or the extent of corruption within the oil sector. It relies on the assessment of the IMF and World Bank, for reasons of efficiency and the avoidance of duplication. Their latest assessment of progress in improving oil sector governance and reducing corruption indicates progress on increasing transparency has been slow. The World Bank is providing technical assistance to ensure that there are no capacity constraints preventing the Congolese authorities from implementing the necessary transparency reforms.

The UK discusses governance issues and the need for increased transparency in the oil sector with the Congolese government in conjunction with European partners and through the World Bank and IMF. The IMF missions to Brazzaville (October 2006 and May 2007) met with the President, Prime Minister, Planning and Finance Ministers, Central Bank Director and other senior officials, representatives of the donor community and civil society. We continue to urge for greater political support for improvements in accountability, and have argued strongly that oil revenue windfalls should be directed to activities which support poverty reduction.

DFID has not received any recent representations on the management of oil revenues in the Republic of Congo, nor of Mr. Sassou-Nguesso's involvement.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Offices: Closures

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will publish the names of the 2,500 post offices likely to be closed under the closure programme. [140703]

Jim Fitzpatrick: I have been asked to reply.

On 17 May my right hon. Friend the Secretary of State announced the Government's response to public consultation on the Post Office network.

Now that the Government have announced their decisions it will be for Post Office Ltd. to strategically develop the network through 50 to 60 local area implementation plans over the next 18 months.

Following initial input from sub-postmasters, Postwatch and local authorities these plans will include closure proposals which will then be put to local consultations ahead of final decisions.

Stuffed Shirt Company: Insolvency

Tim Farron: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will set up an inquiry into the accounts of the Stuffed Shirt Company following its liquidation. [148617]

Mr. McFadden: The only company that has been registered at Companies House with the name The Stuffed Shirt Company Limited was placed in creditors' voluntary liquidation in 1998. In 2001 the company was dissolved which means that it lies outside the scope of the investigation powers exercised by my Department's Companies Investigations Branch. If the hon. Member is referring to a more recent company, I would invite him to write to me so that I can consider his request more fully.

DUCHY OF LANCASTER

Depleted Uranium: Iraq

Nick Harvey: To ask the Chancellor of the Duchy of Lancaster whether the Government are (*a*) conducting and (*b*) contributing to studies into the effects of depleted uranium ammunition on the population of Iraq as referred to in the answer of 20 October 2004, *Official Report*, column 714W. [152214]

Derek Twigg: I have been asked to reply.

Research into the effects of depleted uranium (DU) specifically on the population of Iraq is primarily the responsibility of the Government of Iraq. However, the scientific literature already contains a substantial number of reports which indicate that DU has not had, and is very unlikely to have, any significant impact on the population.

As announced in the House on 20 July 2005, *Official Report*, column 1755W, and 23 January 2006, *Official Report*, column 1713W, we will provide help and advice to assist the Government of Iraq and other authorities such as the United Nations Environmental Programme (UNEP) in any further research they may undertake. MOD has provided information on its use of DU munitions and on its monitoring in Iraq in 2003. MOD officials attended a UNEP seminar at which DU matters, including environmental monitoring and sampling techniques, were discussed with Iraqi scientists. More recently, MOD provided Iraqi scientists with protective equipment to carry out DU contamination surveys and with information on the composition of the DU used in UK munitions.

Olympic Games: Firearms

Mr. Hancock: To ask the Minister for the Olympics what representations she has received from the International Shooting Sport Federation on the ability of Woolwich to accommodate the Olympic shooting events; and if she will make a statement. [149499]

Tessa Jowell: Representations about venues will be received by the London Organising Committee of the Olympic Games and Paralympic Games (LOCOG).

The Royal Artillery Barracks at Woolwich was agreed as the venue for shooting events after the International Olympic Committee (IOC) gave feedback on the accessibility, athlete experience and proximity to the Olympic park on the venue portfolio submitted by London 2012 as an applicant city in 2004. The International Shooting Sport Federation (ISSF) supported the choice of venue.

Woolwich was chosen as it offers a venue close to the Olympic park and provides good accessibility.

Olympic Games: Greater London

Mr. Hollobone: To ask the Minister for the Olympics how many spectators are expected to be able *(a)* to walk the course and *(b)* to spectate at the equestrian events in Greenwich Park at the 2012 Olympics. [151696]

Tessa Jowell *[holding answer 23 July 2007]:* The London Organising Committee of the Olympic and Paralympic Games (LOCOG) is responsible for each of the 2012 games venues during games time. As part of their preparation, they are currently developing detailed 'overlay' plans for each venue.

The Candidate File identifies capacity at Greenwich park as 23,000 for the main arena. LOCOG have now appointed a course designer and further detailed work is being undertaken to identify the optimum layout of Greenwich park as a whole, and the siting of the arena and competition courses. This work also takes into consideration health and safety, security, operational requirements and the ecology of Greenwich Park. Until this work is complete, exact spectator numbers, including people walking the course, cannot be given.

Mr. Hoban: To ask the Minister for the Olympics pursuant to the answer of 9 July 2007, *Official Report*, columns 1292-93W, on the Olympic games: Greater London, whether civil servants in her Department compiled the information given by KPMG at the cost review group meetings into a report or presentation document. [153562]

Tessa Jowell: Departmental officials took the minutes of the cost review group meetings. However, they did not compile the information given by KPMG at these meetings into a report or presentation document.

Mr. Hoban: To ask the Minister for the Olympics pursuant to the answer of 9 July 2007, *Official Report*, column 1292W, on the Olympic games: Greater London, in what form the cost review group presented to her Department the savings it identified in different areas of the budget. [153563]

Tessa Jowell: The cost review group presented the savings they identified in the form of oral presentation and updates to financial estimates.

The savings identified were incorporated into the Olympic park masterplan announced on 7 June 2006, and continuing work on the development of the funding package which I announced to the House on 15 March.

Mr. Hoban: To ask the Minister for the Olympics pursuant to the answer of 9 July 2007, *Official Report*, column 1292W, on the Olympic games: Greater London, on what date the cost review reached its conclusions. [153564]

Tessa Jowell: The cost review culminated in the statement I made to the House on 15 March 2007.

Mr. Hoban: To ask the Minister for the Olympics pursuant to the answer of 16 July 2007, *Official Report*, column 43W, on the Olympic games: Greater London, who the other members of the team within the then Interim Olympic Delivery Authority were. [153619]

Tessa Jowell: In October 2005 the Department commissioned KPMG to provide advice on the cost of the Olympic games.

KPMG also provided advice under contract to the then interim Olympic Delivery Authority and later the Olympic Delivery Authority. KPMG provided advice on venues in partnership with Davis Langdon LLP, and on infrastructure in partnership with Faithful and Gould. Further details are set out in paragraphs 40-41 of the National Audit Office's report 'The budget for the London 2012 Olympic and Paralympic Games' published on 20 July 2007.

CULTURE, MEDIA AND SPORT

British Film Institute: National Film Theatre

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport what his policy is on the future of the *(a)* British Film Institute and *(b)* National Film Theatre; and if he will make a statement. [150093]

Margaret Hodge: The British Film Institute will continue to support and enhance film culture and education across the UK. In 2007-08, they will receive £16 million of grant in aid funding. Since 1998, they have received £162 million.

The recently redeveloped BFI Southbank, which houses the National Film Theatre, is a focal point for this work. It provides a platform for the BFI to show a diverse range of films to a wide audience; to offer pioneering access to the BFI National Archive; and to engage new audiences with an expanded programme of education and learning.

Buckingham Palace: Repairs and Maintenance

Harry Cohen: To ask the Secretary of State for Culture, Media and Sport when the exterior of Buckingham Palace is due to be cleaned; if the Government will ensure such work has priority over work to other royal premises; and if he will make a statement. [152608]

Margaret Hodge: The Department for Culture, Media and Sport provides the Royal Household with an annual £15 million grant for property maintenance

of the Occupied Royal Palaces in England. It is the responsibility of the Royal Household to decide how these funds are allocated.

Harry Cohen: To ask the Secretary of State for Culture, Media and Sport what recent requests have been received from the Royal Household for refurbishment or building work to Royal premises; and what such work has been agreed to. [152609]

Margaret Hodge: The Department has not received any specific requests from the Royal Household for refurbishment or building work to Royal premises, as the Royal Household are responsible for prioritising projects and deciding how the annual £15 million grant is allocated.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151976]

Margaret Hodge: The Department for Culture, Media and Sport and the Royal Parks Agency have not incurred any expenditure on the hire of mobile air conditioning units in the last five years.

Departments: Aviation

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on *(a)* first class and *(b)* business class flights in the last 12 months. [153275]

James Purnell: The departmental expenditure on first class flights was £65,404 and £201,110 for business class flights in the last financial year as recorded by the Department's contracted travel agent. This amount excludes occasional travel booked directly which can be identified only at disproportionate cost.

Regarding Ministers' visits overseas, since 1999 the Government have published, on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the libraries of the House. Information for 2006-07 was published on 25 July 2007.

All travel is undertaken in accordance with the Civil Service Management Code, the Ministerial Code and Travel by Ministers.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Culture, Media and Sport what proportion of people employed by *(a)* his Department and *(b)* its agencies are disabled. [153580]

Margaret Hodge: DCMS is a very small Department with 527 staff. As a Department we do monitor across the equality strands and 3 per cent. of staff have declared a disability.

DCMS's agency Royal Parks Agency employ just fewer than 100 staff, with 1 per cent. of their staff having declared a disability.

DCMS is committed to ensuring equal opportunities for all and as a Department we endeavour to offer employment appointments to disabled people. In recognition of this, we have been accredited with the "Positive About Disabled People—Two Ticks Symbol" following an assessment made by Jobcentre Plus.

As part of our on-going commitment, we ensure that we monitor and evaluate our recruitment and retention procedures, by consulting staff on a range of disability issues, and by ensuring reasonable adjustments to our working environment are made.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on flowers in the last 12 months. [153270]

Margaret Hodge: In the 12 months up to 26 July 2007 the Department for Culture, Media and Sport spent £4,675 on flowers.

Departments: Legislation

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport which pieces of legislation enacted in each of the last 10 years for which his Department is responsible have yet to be brought into force. [147197]

Margaret Hodge: All of the Acts introduced by the Secretary of State for Culture, Media and Sport in the last 10 years have been brought into force. However, not all of the enactments contained in those Acts have been brought into force. These are as follows:

The Communications Act 2003—sections 272 to 275 ("must offer" obligations affecting public service television) and sections 299 to 302 (sporting and other events of national interest).

The Licensing Act 2003—two consequential amendments in schedule 6—paragraphs 98 and 99(c), which by reason of the drafting do not achieve the intended effect.

The Horserace Betting and Olympic Lottery Act 2004—various enactments are not in force mainly relating to the sale of the Tote and the Horserace Betting Levy system.

The Gambling Act 2005—a substantial number of the enactments have been brought into force and the intention is to bring into force the vast majority of the remaining provisions on 1 September 2007.

The National Lottery Act 2006—section 5 which concerns annual fees and some provisions relating to the Channel Islands.

The London Olympic Games and Paralympic Games Act 2006—sections 13 to 16 which relate to the regulation of transport during the games and section 39(1) and paragraph 13 of schedule 3 which amend legislation repealed since the passing of the Act.

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport which Bills introduced by his Department in the last five years contained sunset clauses; and what plans he has for the future use of such clauses. [151837]

Margaret Hodge: Section 180 of the Gambling Act 2005 is a sunset clause and provides that the section which concerns pool betting on dog races shall cease to have effect on 31 December 2012.

Sections 10 to 18 of the London Olympic Games and Paralympic Games Act 2006 will cease to have effect at the end of the "London Olympic period", that is after the fifth day after the closing ceremony of the Paralympic games 2012. Those sections relate to transport, and among other things, they provide for the making and implementation of the Olympic Transport Plan. Section 33 and schedule 4 of the same Act will cease to have effect after 31 December 2012. Those provisions create the London Olympics and Paralympics association rights—intellectual property rights that prevent unauthorised associations with the London games.

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case-by-case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how many people have been appointed to his Department outside civil service grades in the last 30 days. [153277]

Margaret Hodge: The Department for Culture, Media and Sport has not appointed anyone outside civil service grades in the last 30 days.

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how many press officers are employed by his Department. [153279]

Margaret Hodge: The Department for Culture, Media and Sport employs 13 press officers.

Departments: Pay

Mrs. May: To ask the Secretary of State for Culture, Media and Sport how many bonuses were awarded to senior civil servants working at her Department and its agencies in each year between 1997 and 2006; and what the total cost of those bonuses was. [146422]

Margaret Hodge: Such information as is available is shown in the following table and includes the percentage of the total pay bill for each year:

	Number of bonuses	*Total cost (£)*	*Percentage of total pay bill*
2003-04	28	79,372	0.42
2004-05	27	81,950	0.41
2005-06	37	122,816	0.55
2006-07	27	139,750	0.59

The Department for Culture, Media and Sport and its agency the Royal Parks makes bonus payments to its staff for two purposes: *(a)* special bonuses to reward outstanding contributions in particularly demanding tasks or situations, and *(b)* performance bonuses to reward highly successful performance over a whole year.

David Simpson: To ask the Secretary of State for Culture, Media and Sport how many non-pensionable bonuses were awarded to members of staff in his Department in the last three years; and at what total cost. [146992]

Margaret Hodge: The Department makes bonus payments to its staff for two purposes:

(a) special bonuses to reward outstanding contributions in particularly demanding tasks or situations; and

(b) performance bonuses to reward highly successful performance over a whole year.

The table shows the total of all bonuses paid and the percentage of the overall pay bill that these amounts represent.

	Number of bonuses paid	*Total bonus cost (£)*	*Percentage of total pay bill*
2003-04	215	206,643	0.90
2004-05	172	215,285	0.94
2005-06	240	347,241	1.29

Departments: Press

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on newspapers and magazines in the last 12 months. [153268]

Margaret Hodge: The Department for Culture, Media and Sport spent £57,531 on newspapers and magazines in the last 12 months.

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport to which periodicals his Department subscribes. [153276]

Margaret Hodge: The Department for Culture, Media and Sport subscribes to the following periodicals:

Departments: Recruitment

Mrs. May: To ask the Secretary of State for Culture, Media and Sport how much his Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151679]

Margaret Hodge: The Department for Culture, Media and Sport has paid the following amounts to recruitment agencies in each year since 1997:

£

	For temporary staff	*For permanent staff*
1997-98	276,618.91	—
1998-99	482,465.39	—
1999-2000	456,230.03	—
2000-01	386,498.94	—
2001-02	409,743.71	—
2002-03	512,869.85	—
2003-04	451,750.43	—
2004-05	496,585.32	—
2005-06	1,147,515.64	25,525.51
2006-07	1,671,993.81	222,865.61

The amounts paid to agencies for temporary staff are inclusive of their service charges and the salary costs of the staff supplied.

The significant increase in the level of fees paid to agencies in the last two years is largely attributed to the need to bring in additional resources quickly to staff up the Department's team working on the Olympics 2012 programme following London's successful bid. Now that permanent staff have been recruited or transferred into the team, agencies fees are expected to fall back to levels paid previously in the years prior to 2005-06.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on redundancy payments in the last 12 months. [153272]

Margaret Hodge: The Department for Culture, Media and Sport has spent £100,475 in the last 12 months on redundancy payments.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on taxis in the last 12 months. [153271]

James Purnell: All official travel is undertaken in accordance with the rules contained in the Department's staff handbook, and consistent with the Civil Service Management Code and the Ministerial Code. For the financial year 2006-07 £33,907.44 is the recorded spend on taxi fares. It represents expenditure on taxis provided by the Department's contract agent, black cabs and taxis in London and elsewhere.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on staff away days in the last 12 months. [153273]

Margaret Hodge: No separate record is held of the amount spent on staff away days in the Department for Culture, Media and Sport in the last 12 months. The information requested could be obtained only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on *(a)* staff and *(b)* communication training in the last 12 months. [153274]

Margaret Hodge: In the Department for Culture, Media and Sport we spent £601,689 on staff training during the last 12 months. We are unable to provide information on communications training as we do not categories information on spend in a way which would enable us to identify expenditure on communications training.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on industrial tribunals in the last 12 months. [153267]

Margaret Hodge: The Department for Culture, Media and Sport has not spent anything on industrial tribunals in the last 12 months.

Flags: Local Authorities

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport what guidance has been given to local authorities to encourage them to fly the Union flag from municipal buildings. [153720]

Margaret Hodge: Local authorities are already able to fly the Union flag on a daily basis from municipal buildings; it is a matter for them to decide. However, as some choose to follow Government guidance, we have updated the flag flying section of the DCMS website (www.culture.gov.uk/flagflying) and informed the Local Government Association. This follows the announcement by the Secretary of State for Culture, Media and Sport allowing all UK Government Departments to have the freedom to fly the Union flag when they wish while the Department carry out a consultation on altering the flag flying guidance.

Hotels: Cornwall

Andrew George: To ask the Secretary of State for Culture, Media and Sport how many hotels there are in Cornwall; and how many there were in 1997. [152096]

Margaret Hodge: Statistics on the number of hotels by region are not collected centrally.

South West Tourism's figures show that there were 354 hotels in Cornwall in 1998—the nearest year to 1997 for which for figures are available. However, there were 1,316 businesses classified as serviced visitor accommodation. Businesses are so defined when they provide food and other services to their guests. As such, the total of 1,316 includes guest houses and bed and breakfasts, but excludes self-catering establishments and holiday parks. South West Tourism defined a "hotel" as a business which offers certain services to guests (including a restaurant offering full meals) which are not offered by guest houses and similar establishments.

There were 290 hotels in Cornwall in 2006 out of a total of 1,190 serviced visitor accommodation businesses, deferred on the same basis.

Museums and Galleries

Bill Wiggin: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 19 July 2007, *Official Report*, column 479W, on museums and galleries: West Midlands, what discussions he has had with the Chancellor of the Exchequer on Renaissance funding within the context of the comprehensive spending review in *(a)* the West Midlands and *(b)* England; and if he will make a statement. [153333]

Margaret Hodge: Future funding for the Renaissance in the Regions Programme and all other departmental expenditure is under consideration in the context of the comprehensive spending review.

Olympic Games: Greater London

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 14 June 2007, *Official Report*, column 1178W, on the Olympic Games, if she will place in the Library copies of the *(a)* agenda and *(b)* minutes of each meeting of the cost review group on the dates listed. [146540]

Tessa Jowell: I have been asked to reply as Minister for the Olympics.

Agendas were drawn up for two of the meetings on the dates listed in my previous response and I am arranging for these to be placed in the House Library.

The meeting scheduled for 9 March 2006 did not take place. The minutes for the other meetings will not be placed in the House Library as they are being used to inform the development of our ongoing policy for managing the Olympic project.

Tourism: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Culture, Media and Sport how much was granted to the Yorkshire Tourism Board in each year since 1996. [152199]

Margaret Hodge: The regional development agency for Yorkshire and the Humber, Yorkshire Forward, provided the Yorkshire Tourist Board with approximately £3 million per annum between 2005-06 and 2007-08.

In addition, Yorkshire Forward has provided the York Tourism Bureau with financial support through the York and North Yorkshire sub-regional investment plan process. This equates to a one third share of £2 million for the period up to 2008-09.

For the figures for previous years, I refer my hon. Friend to the answers given to him on 21 October 2004, *Official Report*, column 823W, and 5 April 2005, *Official Report*, column 1328W, by my right hon. Friend the Member for Sheffield, Central (Mr. Caborn).

VisitBritain: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much grant in aid VisitBritain received in each year since 1997 at current prices; and if he will make a statement. [153474]

Margaret Hodge: The annual grant in aid paid by DCMS to VisitBritain at current prices was as follows:

	£ million
1997-98	44.7
1998-99	45.7
1999-2000	47.8
2000-01	48.0
2001-02	45.1
2002-03	47.1
2003-04	47.9
2004-05	48.4
2005-06	49.05
2006-07	50.05
2007-08 (projected)	50.05

DEFENCE

Afghanistan: Peace Keeping Operations

Nick Harvey: To ask the Secretary of State for Defence what recent assessment he has made of *(a)* impact and *(b)* effectiveness of the use of thermobaric weapons by British forces in Afghanistan; and if he will make a statement. [152212]

Des Browne: The term "thermobaric" has no agreed definition and is not used by the MOD. As with all military deployments, we keep our force levels and equipment requirements in Afghanistan under constant review.

Dr. Fox: To ask the Secretary of State for Defence what his most recent assessment is of the capability of the Taliban and insurgency forces in Helmand Province. [153323]

Des Browne: I refer the hon. Member to the answer I gave on 16 July 2007, *Official Report,* column 17, to the hon. Member for Clwyd, West (Mr. Jones).

Mr. Carswell: To ask the Secretary of State for Defence what assessment he has made of the effects on Lynx helicopters of high air temperatures in Afghanistan. [153378]

Mr. Bob Ainsworth: I refer the hon. Member to the reply given by my predecessor on 26 March 2007, *Official Report,* column 1353W.

Air Force: Horses

Mr. Pope: To ask the Secretary of State for Defence how much was spent by the Royal Air Force on purchasing, maintaining and transporting horses and ponies for polo in the last 12 months for which figures are available. [152625]

Derek Twigg: The Royal Air Force has not spent any funds on purchasing or, maintaining horses and ponies for polo in the last 12 months. However, service personnel are entitled to payment from public funds for towing a horse box containing their own horses and ponies for authorised official fixtures in accordance with Tri Service Regulations for Allowances. Information on costs relating to such activities is not separately identifiable.

Alison Croft

Mrs. Humble: To ask the Secretary of State for Defence what measures he has taken in response to each of the recommendations of the Board of Inquiry into the Death of Private Alison Croft in October 2002; and what further measures he plans to undertake following the comments of HM Coroner at the conclusion of the inquest into her death on 17 July. [153380]

Derek Twigg: The Board of Inquiry into the death of Private Croft made nine recommendations to reduce the likelihood of such an incident occurring in the future, namely:

better communication between key personnel in the welfare chain and guidance on when to break the "in confidence" barrier;

provide continuous medical cover at Dalton Barracks to replace ad hoc services;

employment of a military Practice Manager, if a doctor cannot work on a full time basis;

increase the minimum number of padres employed at Dalton Barracks to two;

provide better guidance and training on At Risk Registers;

"flagging" personnel joining units from Phase 1 and 2 training with significant medical histories to the medical and military chain of command;

issue regular guidance to units on dealing with harassment, bullying or intimidation;

improve induction procedures to ensure new arrivals have clear understanding of welfare support available to them;

provide better training on the prevention of suicide at unit and sub unit level.

All the recommendations have been implemented.

The Ministry of Defence always gives careful consideration to the comments made by the Coroner following the conclusion of an Inquest involving Service personnel. In the case of Private Croft, the Coroner did not make any specific comments on further action required.

Armed Forces: Defence Equipment

Bob Russell: To ask the Secretary of State for Defence what steps he is taking to ensure that 16 Air Assault Brigade is issued with the equipment which it needs *(a)* for training purposes and *(b)* to fulfil engagements; and if he will make a statement. [152924]

Mr. Bob Ainsworth: Our priority is to ensure that the armed forces are well-equipped for operations and operational commanders may request additional equipment through the chain of command at any time.

Outside operations, priority is given to equipping units for pre-Deployment Training. Other training and

activities are given lower priority. In some cases the training requirement will exceed the number of items available at a given point in time. These shortfalls in equipment are addressed by the implementation of a range of measures, including the acceleration of the deep maintenance programme and the transfer of equipment between units, to ensure that the priority needs, such as pre-deployment training are met.

Armed Forces: Doctors

Harry Cohen: To ask the Secretary of State for Defence what mechanisms are in place to ensure the professional conduct of doctors serving with the military in examining military prisoners; and if he will make a statement. [153737]

Mr. Bob Ainsworth: I have assumed that the Member is referring to "military prisoners" in the widest sense, i.e. all persons detained by the UK armed forces, rather than simply Service personnel detained in the Military Corrective Training Centre at Colchester or by their unit. The same principles apply to medical examinations regardless of the specific status and location of the detainee.

Military doctors charged with the medical care of prisoners and detainees are required to follow MOD policy directives based on medical ethics as advised by the General Medical Council, UK law and, where relevant, United Nations declarations and international law, including the Geneva Conventions. Initial military training courses for Service doctors cover the medical support to be provided to persons detained by UK forces whilst deployed on operations.

Any failure to comply can result in various sanctions depending upon the nature of the offence, ranging from internal disciplinary measures to investigation by the GMC or criminal prosecution.

We review our policy and training in this area when appropriate.

Armed Forces: Explosives

Nick Harvey: To ask the Secretary of State for Defence whether requests have been made by troops in the field for enhanced blast devices. [150029]

Mr. Bob Ainsworth: For reasons of operational security I will not disclose whether there have or have not been requests for specific capabilities. All requirements are kept under constant review. We regularly receive and action requests for a wide range of equipment capabilities from operational theatres. Some of these we can address through existing resources; other emerging requirements are met through the urgent operational requirement process.

Armed Forces: Health Services

Mr. Harper: To ask the Secretary of State for Defence what average time a military patient spends on each stage of the patient cure pathway. [149312]

Mr. Bob Ainsworth: Every patient is treated on an individual basis. The phrase "patient care pathway" is used by Defence Medical Services to refer to the totality of treatment any injured or sick individual receives, from point of injury or presenting for treatment to discharge from medical care and will clearly vary enormously depending on the injury or illness. Some ailments will be treated almost immediately, while others, such as a serious wounding, can take many months before the patient is fully recovered or an operational medical outcome is achieved. Any attempt to provide an "average" time spent on the "care pathway" would be meaningless.

Armed Forces: Housing

Mr. Harper: To ask the Secretary of State for Defence how many service family accommodation properties in *(a)* Cyprus, *(b)* Gibraltar and *(c)* Germany are at standard (i) 1, (ii) 2, (iii) 3 and (iv) 4. [148238]

Derek Twigg: Service Families Accommodation (SFA) in Cyprus, Gibraltar and Germany is assessed by Grade for Charge rather than Standard for Condition.

Grade for charge is broken down by amenities and location with Grade 1 close to all amenities. Standard for Condition relates to the physical condition of the property.

The total number of SFA by Grade is as follows:

	Grade 1	*Grade 2*	*Grade 3*	*Grade 4*	*Total*
Cyprus	286	345	134	1,427	2,192
Gibraltar	107	32	82	280	501
Germany	2,101	5,376	4,707	982	13,166

Mr. Harper: To ask the Secretary of State for Defence how many single living accommodation properties for service personnel in *(a)* Cyprus, *(b)* Gibraltar and *(c)* Germany are of standard (i) 1, (ii) 2, (iii) 3 and (iv) 4. [148239]

Derek Twigg: Single Living Accommodation (SLA) in Cyprus and Gibraltar and Germany is assessed by Grade for Charge rather than Standard for Condition.

Grade for charge is broken down by amenities and location with Grade 1 close to all amenities. Standard for Condition relates to the physical condition of the property.

As at April 2007, the total number of SLA in each location at each grade is as follows:

	Grade 1	*Grade 2*	*Grade 3*	*Grade 4*	*Total*
Cyprus	60	0	423	2,789	3,272
Gibraltar	6	90	0	462	558
Germany	1,643	1,307	3,445	9,751	16,146

For SLA in Cyprus proposed improvements programme will provide 650 bed spaces after 2008. The remaining SLA in Cyprus is transit accommodation for operational deployments.

111 bed spaces are to be upgraded in Gibraltar.

Germany SLA, 374 bed spaces are to be upgraded.

Dr. Murrison: To ask the Secretary of State for Defence how many eviction orders were served on occupants of service married quarters in each year since 1997. [150127]

Derek Twigg: Records for eviction orders are only available from November 2000.

Applications for eviction orders in England and Wales, are shown as follows.

	Number of eviction orders
2000 (from November)	11
2001	143
2002	105
2003	76
2004	110
2005	102
2006	62
2007 (to 16 July)	45

Service personnel who lose their entitlement to Service Families Accommodation (SFA) can be served eviction orders and are included in these figures. Personnel can lose entitlement due to leaving the services or following a breakdown of the marriage. Few eviction orders actually lead to the occupant having to be forcibly evicted from their SFA.

Records of evictions from Scotland, Northern Ireland and overseas SFA are not held centrally and will take time to collate. I will write to the hon. Member and place a copy of my letter in the Library of the House.

Nick Harvey: To ask the Secretary of State for Defence how many reports were made of faulty cookers in service families accommodation in each year since 2005; and what the *(a)* average and *(b)* longest time taken to make repairs to such cookers was in each year. [151759]

Derek Twigg: This information is not held centrally and therefore could be provided only at disproportionate cost.

Nick Harvey: To ask the Secretary of State for Defence (1) what the *(a)* average and *(b)* longest time taken between ordering and installing made to order parts for boilers in Service Families and Single Living Accommodation was in each year since 2005; [151761]

(2) how much was spent on *(a)* the purchase of made to order parts for boilers in Service Families and Single Living Accommodation and *(b)* the installation of made to order parts for such boilers in each year since 2005. [151762]

Derek Twigg: This information is not held centrally and therefore could be provided only at disproportionate cost.

Mr. Kevan Jones: To ask the Secretary of State for Defence what the cost was of providing housing for members of the Army in the latest period for which figures are available, broken down by rank. [152702]

Derek Twigg: Service Families Accommodation in Great Britain is provided on a Tri-Service basis and it is not possible to identify costs relating solely to the Army or to provide a breakdown by rank. Of the £81 million spent on service housing in 2006-07, it is estimated that about 50 per cent. would relate to Army personnel.

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence if he will make a statement on the progress of negotiations with the Metrix Consortium on Package 2 for the Defence Training Review. [153317]

Derek Twigg: In January this year the Metrix Consortium were declared the Preferred Bidder for Package 1 of the DTR Programme, but in view of significant remaining affordability challenges, only provisional Preferred Bidder for Package 2. Since then we have been exploring with the Bidder possible synergies and economies of scale across the whole programme.

Significant work has been completed, but has not yet been concluded. Once it is, I expect to make a statement later this year.

Dr. Fox: To ask the Secretary of State for Defence what training British military personnel receive in the handling of detainees taken on operations. [153327]

Des Browne: All members of Her Majesty's armed forces must comply with the Law of Armed Conflict (LOAC), including in the handling and treatment of detainees. The United Kingdom is required by international law to ensure that instruction on LOAC is included in training programmes for the armed forces.

Instruction on LOAC takes place during Phase 1 and Phase 2 training for all Service personnel. Thereafter, Service personnel receive further training at a level and frequency appropriate for their rank, responsibility and force readiness status.

Mandatory LOAC training is included in pre-deployment training for all Service personnel. In addition, Service personnel who deploy receive a presentation on theatre-specific guidance and instruction as part on their initial orientation package and a subsequent practical test.

For those units who have been detailed to provide a guard service at the Divisional Internment Facility in Iraq, additional specialist training is provided by staff from the Military Corrective Training Centre and HQ Provost Marshall (Army).

Armoured Fighting Vehicles

Mr. Ellwood: To ask the Secretary of State for Defence how much has been spent on the Future Rapid Effects System project. [148550]

Mr. Bob Ainsworth *[holding answer 10 July 2007]:* The Assessment Phase of the Future Rapid Effect System programme was approved in April 2004. Expenditure on this phase up to 31 March 2007 was £101 million (including value added tax).

This covers the Technology Demonstrator Programmes, which examined candidate technologies (see following table). Additionally it covers the cost of the supporting programme of analysis and technical expertise provided by the Atkins Defence in the Systems House role and Defence Science and Technology Laboratories. It also covers the cost of specialist support to the MOD.

A total of nine TDP contracts have been placed. They are:

	Title	Contractor
1	Stowage and Capacity	Dstl
2	Hard Kill Defensive Aid System	Akers Krutbruk
3	Chassis Concept TDP (AHED)	General Dynamics UK Ltd.
4	Chassis Concept TDP2 (SEP)	BAES Land Systems
5	Electronic Architecture TDP 1	Lockheed Martin UK Ltd.
6	Electronic Architecture TDP 2	Thales UK Ltd.
7	Electric Armour	Lockheed Martin UK INSYS Ltd.
8	Integrated Survivability	Thales UK Ltd.
9	Gap Crossing	BAES Land Systems (Bridging) Ltd.

Dr. Fox: To ask the Secretary of State for Defence what the out-of-service dates are for each armoured vehicle type in the army. [153320]

Mr. Bob Ainsworth: The out-of-service (OSD) dates for armoured vehicles are detailed as follows:

Vehicle	Out-of-service date	Remarks
Challenger 2	2035	
CVR(T)	2016	
FV430 Mk2	2002	
FV430 Bulldog	n/a	OSD yet to be confirmed
Mastiff	n/a	No planned OSD at present
Saxon GWR	2018	Being taken out of service by 2008
Saxon Patrol	2023	
Titan	2040	
Trojan	2040	
Vector	2019	
Warrior	2025	

Dr. Fox: To ask the Secretary of State for Defence how many armoured vehicles of each type were in service in the Army in 1997. [153325]

Mr. Bob Ainsworth: The number of armoured vehicles of each type that were in service (total fleet) in the Army in 1997 is shown in the following table:

Vehicle type	Number in service in 1997
Stormer	135
Rapier	67
Saxon (all variants)	634
FV430 Series	1,850
Centurion	40
Warrior	794
CVR(T)	1,671
CVR(W)	2
Chieftain	250
CR1	429
CR2	39
Repair and recovery vehicles	93
AS90	179
MLRS	61
CET	138
Fuchs NBC	11

Armoured Fighting Vehicles: Expenditure

Mr. Harper: To ask the Secretary of State for Defence what the total expenditure was on the procurement and maintenance of armoured vehicles in each year since 1997. [148235]

Mr. Bob Ainsworth: The figures in the table detail expenditure, rounded to the nearest £10 million, on the procurement and maintenance of armoured vehicles: Challenger 2, CVR(T), FV430 Mk 2, FV430 Bulldog, Saxon GWR, Saxon Patrol, Warrior, Vector, Mastiff, Trojan and Titan. The complete financial records for maintenance prior to financial year 2003-04 are not held in one central location and could be provided only at disproportionate cost.

		£ million
Financial year	Procurement	Maintenance
1997-98	350	n/a
1998-99	330	n/a
1999-2000	190	n/a
2000-01	70	n/a
2001-02	70	n/a
2002-03	30	n/a
2003-04	60	160
2004-05	50	140
2005-06	70	130
2006-07	110	120

n/a = not available.

Maintenance expenditure includes repairs, upgrade and upkeep programmes, post design services and purchase of spares.

Procurement expenditure includes development, production, training, support equipment and initial spares.

Arms Trade

Harry Cohen: To ask the Secretary of State for Defence what mechanisms are in place to prevent arms owned by the armed forces or deemed surplus to requirements becoming available on the black market. [153670]

Mr. Bob Ainsworth: Weapons owned by the armed forces are subject to the most stringent security procedures. In service weapons are always stored in secure armouries when not in use and access to these buildings is strictly controlled. Armoury stores are checked each day for quantity and each week for individual serial number, with random spot checks in addition. The process of issuing of weapons is also tightly controlled. Ammunition is subject to the same stringent checks and is stored in a secure compound separate from the weapons.

Any weapons deemed surplus to requirements are returned to a secure storage facility, escorted either by unit personnel or moved via secure MOD approved hauliers. On arrival at the unit, a full check of NATO stock number, quantity and serial number will be undertaken, in addition to a full safety check.

Serviceable weapons that are no longer required by the armed forces are disposed of under Government Authority. Weapons classified as beyond repair are reduced to scrap and disposed of.

Army Base Repair Organisation: Manpower

Dr. Murrison: To ask the Secretary of State for Defence which posts are open to indirect employees as described in KT4 (Efficiency) in the Army Base Repair Organisation key targets of financial year 2007-08. [152994]

Mr. Bob Ainsworth: The posts that are open to employees that are defined as indirect, as described in ABRO's Key Target 4 for 2007-08, include all management, supervisory and support roles, including planning and logistics.

Army Board

Mr. Kevan Jones: To ask the Secretary of State for Defence pursuant to the answer of 11 June 2007, *Official Report*, column 752W, on the Army Board, if he will provide a breakdown of the internal flights taken by the Chief of the General Staff in 2006; and what the purpose was of each flight. [143451]

Derek Twigg: I am withholding information about the details of the individual flights as its disclosure would or would be likely to endanger the safety of an individual.

Mr. Kevan Jones: To ask the Secretary of State for Defence pursuant to the answer of 11 June 2007, *Official Report*, column 752W, on Army Board, if he will provide a breakdown of the internal flights taken by the Adjutant General in 2006; and what the purpose was of each flight. [143452]

Derek Twigg: On closer examination of the records my officials have discovered that the total number of flights undertaken by the Adjutant-General in 2006 given in answer on 11 June 2007, *Official Report*, column 752W was overstated. The Adjutant-General took a total of 49 internal flights in 2006; 10 by RAF rotary and fixed wing aircraft, 34 by Army Rotary Wing aircraft and five commercial flights. I am withholding the details of the individual flights as its disclosure would or would be likely to be prejudicial to his personal security.

Army Board: Housing

Mr. Kevan Jones: To ask the Secretary of State for Defence pursuant to the answer of 3 July 2007, *Official Report*, columns 953-4W, on the Army Board: housing, what the reasons are for the increase in the running costs of the housing provided by his Department for members of the Army Board since 1999-2000. [152866]

Derek Twigg: The changes in the running costs of accommodation associated with the posts of Chief of the General Staff, Commander in Chief Land, Adjutant-General and General Officer Commanding Northern Ireland are due to a combination of factors including:

- The use of different houses by subsequent appointment holders.
- Scheduled property maintenance.
- Periodic reassessment of departmental charging rates, scaling and entitlements for service accommodation.
- Differing staff levels (numbers and rank structure) and associated personnel costs.
- Price variations for utilities—electricity, gas etc.
- General price inflation.

More detailed information on the specific contributions (negative or positive) of individual factors could be undertaken only at disproportionate cost.

Army: Horses

Mr. Pope: To ask the Secretary of State for Defence how much was spent by the British Army on purchasing, maintaining and transporting horses and ponies for polo in the last 12 months for which figures are available. [152627]

Derek Twigg: I refer the hon. Member to the answers I gave to the hon. Member for North Durham (Mr. Jones) on 10 May 2007, *Official Report*, column 348W and the hon. Member for Stratford-on-Avon (Mr. Maples) on 1 March 2007, *Official Report*, column 1539W.

Army: Uniforms

Andrew Rosindell: To ask the Secretary of State for Defence whether bearskin caps used by the British Army are sourced from bears killed specifically for the purpose of supplying the British Army. [153298]

Des Browne: To our knowledge, no pelts for use by the Guards have come from bears killed specifically for the purpose of supplying the British Army.

Since 2001 it has been MOD policy to refurbish rather than replace bearskin caps, wherever possible. As a result no pelts have been purchased in recent years by the contractors who make the caps for the Department. Previously, when pelts have been purchased, they have been bought from regulated fur traders operating under the jurisdiction of the Canadian authorities.

AWE Aldermaston: Floods

Mr. Dai Davies: To ask the Secretary of State for Defence what flood protection measures were taken in respect of AWE Aldermaston during the recent heavy rainfall; what assessment he has made of the robustness of these protection measures; and if he will make a statement. [153484]

Mr. Bob Ainsworth: AWE Aldermaston has flood protection systems in place that have been agreed with the Environment Agency. These include a series of small reservoirs that were installed in the early 1990s to

allow run-off water from the site to be collected and assessed prior to a managed discharge. Water flowing from areas of the site such as roads and car parks are diverted to local watercourses.

I can confirm that these protection arrangements worked well and performed as designed.

Ballistic Missile Defence

Norman Baker: To ask the Secretary of State for Defence when the Space Based Infra Red System at RAF Menwith Hill will be in operation. [153744]

Des Browne: On current plans, facilities at RAF Menwith Hill for routing satellite data will be ready for operation early in 2008. The operational date for the Space Based Infra Red System is a matter for the US.

Bombs: Peacekeeping Operations

Mr. Caton: To ask the Secretary of State for Defence how many CRV-7 rockets fitted with cluster munition warheads UK armed forces have used in *(a)* Afghanistan and *(b)* Iraq since October 2001. [147523]

Des Browne: No CRV-7 rockets fitted with sub-munition warheads have been used by UK armed forces against operational targets in either Afghanistan or Iraq. However, a number of CRV-7 M261 high explosive multi-purpose sub-munition rockets have been fired on a range in Afghanistan as part of routine training.

The UK does not consider the CRV-7 multi-purpose sub-munition to be a cluster munition because of its direct fire capability and small number of sub-munitions.

Defence Equipment: Spare Parts

Mr. Harper: To ask the Secretary of State for Defence how many instances there were of spare parts lost in transit during financial year 2006-07; and what the value was of each loss. [148229]

Mr. Bob Ainsworth: The reported value of recorded losses in transit for financial year 2006-07 was £2.9 million, consisting of 2,058 items. Data is not held in such a way that enables the separate identification of "spare parts".

Defence Medical Services: ICT

Dr. Murrison: To ask the Secretary of State for Defence for what reason the launch of the Defence Medical Information Capability Programme medical IT system has been postponed; and if he will make a statement. [149657]

Derek Twigg: The launch of the Defence Medical Information Capability Programme (DMICP) has not been postponed; the system was rolled out at the first Army pilot site in February 2007 and is currently in service at 12 sites. The roll out is proceeding to schedule, and the system is expected to be in service in all medical and dental centres in the UK and Germany and certain other fixed sites overseas by the middle of 2008.

Dr. Murrison: To ask the Secretary of State for Defence when he expects the Defence Medical Information Capability Programme will be connected to the National Care Records Service. [149660]

Derek Twigg: The Defence Medical Information Capability Programme is due to be connected to the National Care Records Service by December 2010.

Dr. Murrison: To ask the Secretary of State for Defence what provisions have been made for service personnel to opt out of the Defence Medical Information Capability Programme. [149661]

Derek Twigg: In agreement with the General Medical Council (GMC), the Defence Medical Services (DMS) can decide to hold every individual medical record in electronic, rather than paper format.

Service personnel cannot opt out of this system. They may, however, ask that their record can only be seen by a clinician who is directly involved in their health care. Robust provisions have been made to ensure that individual records can be locked down so that their existence in the system is not apparent to those not entitled to see them. In addition, individuals will be able to opt out of allowing their record to be shared on the NHS National Care Record Service, and to place certain other restrictions on access to their records.

All those whose records may be held in Defence Medical Information Capability Programme (DMICP) are being alerted to these facts before DMICP is rolled out at their medical centre. Medical staff have been briefed on the procedures and will advise their patients on the risks of restricting access to their records.

Departments: BAE Systems

Lynne Jones: To ask the Secretary of State for Defence pursuant to the answer of 5 July 2007, *Official Report*, column 1132W, on Department: BAE Systems, how many and what percentage of applicants were *(a)* granted permission to join BAE and *(b)* took up posts with BAE in each of the last 10 years; how many were of those granted permission (i) civilian and (ii) military staff; what ranks each held; and how many were from the Defence Export Services Organisation. [149676]

Des Browne *[holding answer 16 July 2007]:* Applications received and approved to join BAE Systems in the 10 years since 1997 are as follows:

	Number of applications to join BAE Systems	*Number approved or approved with conditions*	*Number not approved (2-year waiting time imposed)*	*Of those approved, military*	*Of those approved, civilian*
1997	24	21	3	16	5
1998	15	14	1	13	1
1999	8	8	0	4	4
2000	14	14	0	0	14
2001	26	25	1	17	8
2002	21	21	0	15	6
2003	14	14	0	9	5
2004	7	6	1	6	0
2005	14	14	0	10	4

	Number of applications to join BAE Systems	Number approved or approved with conditions	Number not approved (2-year waiting time imposed)	Of those approved, military	Of those approved, civilian
2006	21	21	0	13	8
Total	165	158	6	103	55

Of the applicants given approval, four have been from the Defence Exports Services Organisation: one in 2002, two in 2006 and one in 2007. It is not possible to determine how many applicants actually took up the posts for which they sought approval. Of the total applications, 79.9 per cent. were granted permission without condition, 16.4 per cent. were granted permission subject to behavioural conditions or waiting periods and 3.7 per cent. were required to wait for the maximum period of two years. Of the 158 applications approved, the grades or ranks were as follows:

Grade/Rank	Number of applications approved
4-Star and above (PUS, Admiral, General, Air Chief Marshal)	1
3 -Star (DUS, Vice Admiral, Lieutenant General, Air Marshal)	7
2-Star (AUS, Rear Admiral, Major General, Air Vice Marshal)	8
1-Star (Pay Band 1, Commodore, Brigadier, Air Commodore)	17
Grade B, Captain, Colonel, Group Captain.	27
Grade C, Commander/Lieutenant Commander, Lieutenant Colonel/Major, Wing Commander/Squadron Leader	78
Grade D or below, Lieutenant/Sub Lieutenant RN, Captain, Lieutenant, Flight Lieutenant, Pilot Officer	20

Departments: Charities

Nick Harvey: To ask the Secretary of State for Defence how much Defence Estate (Aldershot) billed in liability charges for charity events held on his Department's property since April 2005 to 2007. [152355]

Derek Twigg: The information requested will need to be collated and this will take a little time. I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Departments: Consultants

Mr. Hoban: To ask the Secretary of State for Defence pursuant to the answer of 22 February 2007, *Official Report*, column 939W, on Departments: consultants, on which consultancy firms the £47.2 million spent on external consultancy services was spent; which projects each worked on; and what the total cost in consultancy fees was for each private finance initiative project. [153608]

Mr. Bob Ainsworth: The Ministry of Defence uses external consultants to provide specialist commercial, financial and legal services to Integrated Project Teams to assist in the delivery of services (both PFI and non PFI). In addition, ad-hoc specialist technical consultants are engaged in particular areas where in-house expertise is not available.

The Department requires that expenditure on consultants is pre-approved and allocated by budget to specific projects. Centrally the Department collates a global total of all consultancy fees but does not record other details centrally and therefore the information is not held in the format requested and could be provided only at disproportionate cost.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Defence what proportion of people employed by (*a*) his Department and (*b*) its agencies are disabled. [153579]

Derek Twigg: The following table gives details of civilian disabled personnel employed by the Ministry of Defence.

Ministry of Defence Declared disabled[1] 1 April 2007

	Percentage
Ministry of Defence (excluding agencies)	5.8
Agencies:	
Service Personnel and Veterans Agency	11.3
Defence Analytical Services Agency	4.4
Defence Medical and Education Training Agency	7.7
Defence Storage and Distribution Agency	8.8
Defence Vetting Agency	4.4
Ministry of Defence Police	3.4
People Pay and Pensions Agency	4.5
Service Children's Education	0.5
Ministry of Defence[2]: Total	5.5

[1] Disability self-certification was introduced in 2001.
[2] This includes civilian staff employed by the Ministry of Defence and Trading Funds, but excludes Royal Fleet Auxiliaries and Locally Engaged Staff. Disability data for Royal Fleet Auxiliaries and Locally Engaged Staff are unavailable.
Note:
Percentages are calculated from known response.
Source:
DASA (Civilian).

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Defence how much was spent by his Department on flowers in the last 12 months. [153108]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Departments: Frontier Medical

Dr. Fox: To ask the Secretary of State for Defence when his Department's contract with Frontier Medical was signed; what tendering process was used for the contract; and if he will make a statement. [153318]

Derek Twigg: The MOD signed a contract with Frontier Medical Service Ltd. on 13 March 2007 to provide suitably qualified medical personnel to

operational theatres. The contract was awarded following a fair competition conducted by the MOD in accordance with EU regulations and MOD policies.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Defence how many press officers are employed by his Department. [153074]

Derek Twigg: On 27 July 2007 there were 22 press officers employed in the Ministry of Defence's central press office in London, and seven press officers employed in Regional Press Offices.

This answer does not include those employed as press officers in Defence Agencies, the Permanent Joint Headquarters, single Service Commands or at unit level, some of whom have a press officer task in addition to their main role. An audit is being conducted by MOD of overall numbers and roles of personnel involved in communications in order to assist with implementation of the Defence Communications Strategy. When this audit concludes, key findings will be made available through the MOD's website and I will write to you.

Departments: Meetings

Mr. Rob Wilson: To ask the Secretary of State for Defence how many meetings he has had with external bodies and representative organisations since 27 June 2007. [152288]

Des Browne: The Secretary of State for Defence and the Minister for the armed forces did not hold any such meetings during the period. The Minister for Defence Equipment and Support held meetings with BAES, EADS, Lockheed Martin, CSEU, GMB Union, MBDA and T&G Union. The Under-Secretary of State held meetings with the Three Faith Forum, Electoral Commission, CVQO and the Armed Forces Pensions Group.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Defence to which periodicals his Department subscribes. [153104]

Derek Twigg: I have placed lists of the current periodicals, newspapers and copyrate magazines in the Library of the House.

Mr. Hoban: To ask the Secretary of State for Defence how much was spent by his Department on newspapers and magazines in the last 12 months. [153105]

Derek Twigg: The Ministry of Defence holds a contract with a supplier to provide newspapers and copyrate magazines to units in the London area. This contract came into force on 1 March 2002. Expenditure under the contract for financial year 2006-07 was £65,324.

MOD units outside London may purchase newspapers under local arrangements. Information on expenditure under such local arrangements is not held centrally and could be provided only at disproportionate cost.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Defence how much was spent by his Department on redundancy payments in the last 12 months. [153150]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

We hold information centrally on a Department-wide voluntary early release scheme which was launched in March 2005, in connection with the civil service-wide reductions required under the 2004 Spending Review. The in-year cost to the Department of individuals who left over the 12-month period of Financial Year 2006-07 on voluntary terms under the MOD Early Release Scheme is £17 million.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Defence (1) how much was spent by his Department on staff training in the last 12 months; [153101]

(2) how much was spent by his Department on *(a)* staff and *(b)* communication training in the last 12 months. [153102]

Mr. Bob Ainsworth: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Defence how much was spent by his Department on staff away days in the last 12 months. [153151]

Des Browne: This information is not held centrally and could be provided only at disproportionate cost.

Departments: Travel Expenses

Mr. Hoban: To ask the Secretary of State for Defence (1) how much was spent by his Department on first class train tickets in the last 12 months; [153106]

(2) how much was spent by his Department on *(a)* first class and *(b)* business flights in the last 12 months; [153107]

(3) how much was spent by his Department on taxis in the last 12 months. [153109]

Derek Twigg: The information is not held centrally and could be provided only at disproportionate cost.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Defence how much was spent by his Department on industrial tribunals in the last 12 months. [153103]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

Departments: York

Hugh Bayley: To ask the Secretary of State for Defence if he will assess the merits of moving additional military and Ministry of Defence civilian staff to York. [150283]

Derek Twigg: As my right hon. Friend the Defence Secretary told the House on 26 July 2007, a newly established Divisional Headquarters, HQ 6 Div, is to be based in York. This will involve approximately 55 additional military personnel and six civilians being based in York.

Depleted Uranium

Nick Harvey: To ask the Secretary of State for Defence what recent assessment he has made of the health implications of embedded uranium shrapnel to serving and retired personnel; and if he will make a statement. [151765]

Derek Twigg: The Ministry of Defence maintains a watching brief on the published scientific literature relating to the health implications of embedded uranium shrapnel. On this basis, our current view is that, although ongoing surveillance of veterans with embedded shrapnel is prudent, there is currently no indication of uranium-related health effects in any of the veterans studied.

As part of this ongoing surveillance, we recently offered follow-up monitoring to the small group of UK veterans found to have depleted uranium in their urine. The current scientific assessment is that there will be no health implications for these veterans.

EU Defence Policy

Dr. Fox: To ask the Secretary of State for Defence what progress has been made towards meeting the EU Headline Goal 2010; and if he will make a statement. [153321]

Des Browne: Good progress is being made towards the Headline Goal 2010. In March 2006 all EU member states responded to the Headline Goal Questionnaire, detailing those forces which potentially could be made available for use on EU led operations. These are currently being assessed against the requirement in terms of both quantity and quality. The Progress Catalogue, due to be published in November, will make clear whether the offered forces are sufficient to meet the requirement and, if there are any deficiencies, will provide an assessment of the military risks associated with them, and the potential impact on the EU's ability to achieve its level of ambition.

European Fighter Aircraft: Saudi Arabia

Mr. Carswell: To ask the Secretary of State for Defence whether the source code software will be included in the sale of Eurofighters to Saudi Arabia; and if he will make a statement. [152622]

Mr. Bob Ainsworth: The current negotiations on the sale of Eurofighters to Saudi Arabia are confidential between the two Governments. I am withholding the information as its disclosure would, or would be likely to, prejudice international relations and harm the interests of the United Kingdom.

Future Surface Combatant

Dr. Julian Lewis: To ask the Secretary of State for Defence whether task specifications for the Future Surface Combatant have been drawn up; and if he will make a statement. [152060]

Mr. Bob Ainsworth *[holding answer 25 July 2007]:* Requirements for Defence equipment projects are formalised at Initial Gate and approved at Main Gate. The Future Surface Combatant project is still in the Concept Phase and an Initial Gate date has not yet been set.

Galileo Project

Mr. Arbuthnot: To ask the Secretary of State for Defence pursuant to the answer of 3 July 2007, *Official Report,* column 955W, on Galileo project, whether representatives of his Department have attended meetings on the Galileo project within the last six months apart from the meetings attended by experts from the Defence Scientific and Technology Laboratory. [148695]

Mr. Bob Ainsworth: Yes.

Helicopters

Mr. Harper: To ask the Secretary of State for Defence what the current percentage shortfall is of required spares for each helicopter type in the *(a)* Army Air Corps, *(b)* Royal Navy and *(c)* Royal Air Force. [148379]

Mr. Bob Ainsworth: In providing logistic support to UK military helicopters, the focus is moving from spares availability to guaranteed aircraft availability. Merlin, Sea King and Chinook spares support is already contracting through availability contracts with industry.

The percentage of spares demands satisfied direct from MOD stocks in June 2007 have been listed in the table.

Spare parts availability for all of these aircraft has been sufficient to meet operational commitments.

Aircraft platform	*Owner service*	*Spares satisfaction rates (percentage)*
Attack Helicopter	Army	77
RTM322 engine	—	94
Chinook	RAF	94
T55 engine	—	96
Gazelle	Army	96
Astazou 3N2 engine	—	99
LynxMk3/Mk8	RN	92
LynxMk7/Mk9	Army	92
Gem engine	—	99

Aircraft platform	Owner service	Spares satisfaction rates (percentage)
Merlin Mk1	RN	[1]80
Merlin Mk3	RAF	[1]80
RTM322 engine	—	94
Puma	RAF	96
Turmo engine	—	92
Sea King Mk3	RAF	[1]92
Sea King Mks4, 6, 6c and 7	RN	[1]92
Gnome engine	—	95

[1] Across this aircraft type.

Dr. Fox: To ask the Secretary of State for Defence how many helicopters there were in the *(a)* Army Air Corps, *(b)* Navy, *(c)* RAF and *(d)* Armed Forces in (i) 1997 and (ii) 2007. [153315]

Mr. Bob Ainsworth: The information requested is shown as follows:

	1997 (as at 1 April)	2007 (as at 30 June)
Army Air Corps	295	289
Royal Navy	225	232
Royal Air Force	142	132
Armed Forces Total	662	653

The figures for 2007 do not include the six RAF Merlin helicopters recently acquired from Denmark or the eight RAF Chinook Mark 3 helicopters that are being converted to a Battlefield Support role, as announced by the Secretary of State on 30 March 2007.

HMS Birmingham

Dr. Fox: To ask the Secretary of State for Defence what the current status is of HMS Birmingham. [153330]

Mr. Bob Ainsworth: HMS Birmingham was decommissioned in 1999, sold in 2000 and was then dismantled in Spain.

HMS Illustrious

Dr. Fox: To ask the Secretary of State for Defence how many days *(a)* HMS Illustrious and *(b)* HMS Ark Royal were at sea in each year since 1997. [153329]

Mr. Bob Ainsworth: The number of days spent at sea each year since 1997 by HMS Illustrious and HMS Ark Royal are detailed in the following table.

	Number of days at sea	
	HMS Illustrious	HMS Ark Royal
1998	85.25	0
1999	102.50	4.75
2000	124.25	0
2001	165.25	67.50
2002	66.00	120.25
2003	0	133.00
2004	30.25	17.00
2005	123.25	3.75
2006	123.75	33.00
Up to 25 July 2007	80.00	68.00

HMS Illustrious was in refit from November 2002 to November 2004.

HMS Ark Royal was at low readiness in 1998 and entered refit in June 1999 until March 2001. She was at low readiness from May 2004 and entered refit October 2005 until September 2006.

Iraq: Bombs

Mark Pritchard: To ask the Secretary of State for Defence what evidence has been provided by Royal Military Police forensic teams from DNA samples found on bomb *(a)* parts and *(b)* fragments in (i) Iraq and (ii) Afghanistan which match UK nationals recorded on the UK National Database. [149129]

Mr. Bob Ainsworth: The MOD shares forensic information with the police derived from operations overseas with a view to enhancing the protection of UK armed forces from threats overseas, the investigation of criminal activity in the UK, and the identification of any connection between the two. I am withholding details of the information requested as its release would, or would be likely to prejudice the capacity, effectiveness or security of our armed forces and the prevention or detection of crime.

Iraq: Peace Keeping Operations

Mr. Hoban: To ask the Secretary of State for Defence how much his Department spent on operations in Iraq from *(a)* its annual Delegated Expenditure Limits for resource spending, *(b)* its annual Delegated Expenditure Limits for capital spending and *(c)* by drawing down expenditure from HM Treasury's unallocated special reserve in each financial year since 2002-03. [148894]

Des Browne: The net additional costs of operations in Iraq are met from the Treasury's Reserves and not the Department's Expenditure Limits.

The total of the annual audited figures for the costs of operations in Iraq for the years 2002-03 to 2005-06 are as follows:

	Cost of operations (£ million)
2002-03	
Resource Expenditure	629
Capital Expenditure	218
Total	847
2003-04	
Resource Expenditure	1,051
Capital Expenditure	260
Total	1,311

	Cost of operations (£ million)
2004-05	
Resource Expenditure	747
Capital Expenditure	163
Total	910
2005-06	
Resource Expenditure	798
Capital Expenditure	160
Total	958

A total estimated cost of £1,002 million for 2006-07 was included in the Spring Supplementary Estimates published in February. Final figures will be published in the MOD's Annual Report and Accounts for 2006-07.

Dr. Fox: To ask the Secretary of State for Defence how many detainees were in British custody in *(a)* Iraq and *(b)* Afghanistan in each year since 2001, broken down by nationality. [153326]

Des Browne: The MOD publishes monthly internee figures on its website

http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets/OperationsInIraqKeyFactsFigures.htm

As at 26 July 2007 there were 88 internees in British custody in Iraq. Since 1 January 2004 records show that the total number of people interned in Iraq by UK forces is 1,536. The number of internees held at any one time varies significantly: since 2004, the number held has generally ranged between 20 and 140. Readily accessible records indicate that there is one dual Iraqi/British national in British custody, and that the remainder are all Iraqi nationals. These records do not include those released or passed to Iraqi custody within eight hours of initial detention.

We do not operate a policy of internment in Afghanistan. However, UK troops occasionally detain suspected criminals for brief periods before passing them on to the Government of Afghanistan. Our records indicate that the number of detainees that have passed through British custody in Afghanistan are:

	Number
2001	2
2002	1
2003	4
2004	0
2005	0
2006	33
2007 (As of 30 July)	64

Readily accessible records indicate that the majority of these are Afghan nationals, but have included a small number of third country nationals.

Dr. Fox: To ask the Secretary of State for Defence how many British military engineers were deployed to *(a)* Iraq and *(b)* Afghanistan in each year since 2001; and what their primary mission was in each case. [153332]

Mr. Bob Ainsworth: We deploy British military engineers on operations in Iraq and Afghanistan to conduct close engineer support (such as mobility support, counter mobility support, explosive ordnance disposal, boat support, and search) and general engineer support (such as infrastructure development, construction, geographic support, and civil-military cooperation). We cannot provide the total number of engineering personnel deployed to Iraq and Afghanistan for each year since 2001 as these records are not held centrally and cannot be provided without disproportionate cost. We can, however, provide the details of the main engineering units deployed to Iraq since 2003 and Afghanistan since 2006. In addition to these units, there are also Royal Navy/Royal Marine, Army and Royal Air Force Engineers deployed to Iraq and Afghanistan undertaking maintenance tasks in support of both rotary and fixed wing aircraft and vehicle squadrons.

Engineering units deployed to Iraq

2003

Headquarters Royal Engineers 1st (United Kingdom) Armoured Division

Elements of Headquarters 12 Engineer Brigade (Air Support)

32 Engineer Regiment

28 Engineer Regiment

36 Engineer Regiment

23 Engineer Regiment

33 Engineer Regiment (Explosive Ordnance Disposal)

42 Engineer Regiment (Geographic Support)

64 Works Group Royal Engineers

59 Independent Commando Squadron Royal Engineers

Elements of 131 Independent Commando Squadron Royal Engineers (Volunteers)

38 Engineer Regiment Group

Elements of 62 Works Group Royal Engineers

35 Engineer Regiment Group

2004

22 Engineer Regiment Group

21 Engineer Regiment Group

Elements of 63 Works Group Royal Engineers

2005

26 Engineer Regiment Group

32 Engineer Regiment Group

Elements of 64 Works Group Royal Engineers

2006

35 Engineer Regiment Group

38 Engineer Regiment Group

Elements of 63 Works Group Royal Engineers

2007

22 Engineer Regiment Group

Elements of 64 Works Group Royal Engineers

21 Engineer Regiment Group

Elements of 62 Works Group Royal Engineers.

Engineering units deployed to Afghanistan

2006

51 Parachute Squadron Royal Engineers

Elements of 49 Field Squadron (Explosive Ordnance Disposal)

Elements of 63 Works Group Royal Engineers

28 Engineer Regiment Group

59 Independent Commando Squadron Royal Engineers

2007

26 Engineer Regiment Group

Elements of 64 Works Group Royal Engineers

Elements of 62 Works Group Royal Engineers.

Mr. Hancock: To ask the Secretary of State for Defence what risk assessments have been carried out on *(a)* RAF and *(b)* Army accommodation in Basra with particular reference to (i) overhead protection and (ii) protection from shrapnel; what action (A) was taken and (B) is planned as a result; and if he will make a statement. [153460]

Des Browne: There is no distinction made in an operational theatre on the standard of accommodation, or protection afforded to it, on the basis of service.

Commanders in theatre keep all force protection measures including that of accommodation under constant review, against an ever-evolving threat and a number of measures are being developed to further improve protection.

Force protection arrangements in Basra employ multiple layers of defence. This is in addition to operations to disrupt attacks against UK forces and other protective equipment, tactics, techniques and procedures designed to minimise the chance of a successful attack. Details of these measures cannot be released as disclosure would, or would be likely to prejudice the capability, effectiveness and security of the armed forces.

Iraq-Kuwait Conflict: Depleted Uranium

Nick Harvey: To ask the Secretary of State for Defence what recent estimate he has made of the number of UK service personnel who served in the 1990-91 Gulf conflict and as a result of injuries sustained there have embedded uranium shrapnel. [151763]

Derek Twigg: We are not aware of any incidents involving injury to UK service personnel in the 1990-91 Gulf conflict resulting in embedded depleted uranium shrapnel injuries. This is supported by the recent findings of the Depleted Uranium Oversight Board (DUOB) which was established in 2001 to oversee a screening programme for veterans of the 1990-91 Gulf conflict and subsequent Balkans operations concerned about possible exposure to depleted uranium. I announced the publication of the final report of the DUOB on 26 March 2007, *Official Report*, column 64WS.

Military Aircraft

Mr. Harper: To ask the Secretary of State for Defence what the current percentage shortfall is of required spares for *(a)* C17A Globemaster, *(b)* Hercules C-130K, *(c)* Hercules C-130J, *(d)* Tristar, *(e)* VC-10 and *(f)* Nimrod MR2. [148380]

Mr. Bob Ainsworth: Aircraft spares for the C-17A Globemaster and the Hercules C-130 are provided under aircraft availability contracts with industry and spares stock levels are not measured.

Aircraft spares for the TriStar, VC-10 and Nimrod MR2 are also partly provided direct from industry. However, spares demands satisfied from MOD stocks in June 2007, expressed as a percentage, were 74 per cent. for the TriStar, 78 per cent. for the VC-10 and 81 per cent. for the Nimrod MR2.

Spare parts availability for all of these aircraft has been sufficient to meet operational commitments.

Minesweepers

Mr. Hancock: To ask the Secretary of State for Defence how many minehunters were *(a)* on active service and *(b)* in reserve in (i) 1997 and (ii) 2007; what plans he has to change the numbers; and if he will make a statement. [153441]

Mr. Bob Ainsworth: In 1997 there were 18 Mine Counter-Measure Vessels (MCMVs) in service and capable of mine-hunting operations. There are currently 16 MCMVs in service. There were no such vessels in reserve either in 1997 or 2007.

There are currently no plans to change the number of MCMVs.

Ministry of Defence Police and Guarding Agency: USA

Norman Baker: To ask the Secretary of State for Defence pursuant to the answer of 29 July 2007, *Official Report*, column 903W, on Ministry of Defence Police and Guarding Agency: USA, if he will place in the Library the results of the negotiations being held with the US authorities concerning the Ministry of Defence Police and Guarding Agency and the US authorities. [153745]

Mr. Bob Ainsworth: The revised Memorandum of Agreement will be made available in the Library of the House once the revised Agreement between the Ministry of Defence Police and Guarding Agency and the US authorities has been finalised, and all parties, including the US, have been consulted.

Navy: Fisheries

Bill Wiggin: To ask the Secretary of State for Defence pursuant to the answers of 4 June 2007, *Official Report*, column 175W, on Navy: fisheries, when he expects to collate and make available the information requested; and if he will make a statement. [150570]

Mr. Bob Ainsworth: The collation of the information has now been completed. I wrote to the hon. Member on 25 August.

Navy: Frigates

Mr. Hancock: To ask the Secretary of State for Defence when he expects to commence the industrial procurement process for the Future Surface Combatant. [147862]

Mr. Bob Ainsworth: Until an investment decision has been taken, as part of the current planning round which is due to complete in early 2008, the timeline for the Future Surface Combatant project cannot be determined.

Nuclear Weapons

Harry Cohen: To ask the Secretary of State for Defence what guidelines his Department follows on the proximity of storage of nuclear weapons to *(a)* residential properties and *(b)* other nuclear weapons. [153671]

Mr. Bob Ainsworth: UK nuclear weapons, in common with all MOD conventional weapons, are stored according to their conventional explosives content in explosives facilities which are assessed and licensed in accordance with the requirements of the Manufacture and Storage of Explosives Regulations (MSER) 2005. The MOD applies these regulations through Joint Services Publication 482—MOD Explosives Regulations. JSP 482 stipulates specific safety separation distances to be maintained between explosives and residential properties and public roads and between adjacent explosives storage and processing facilities.

Nuclear warheads are stored safely in accordance with arrangements prescribed by the Nuclear Installations Inspectorate. Specific regulations are covered by the Ionising Radiation Regulations 1999.

RAF Brize Norton: Charities

Nick Harvey: To ask the Secretary of State for Defence what the reasons were for the decision of Defence Estate officials to waive the liability charge for the Sgt Biddiss Charity event held at RAF Brize Norton. [152353]

Derek Twigg: Defence Estates officials reviewed in detail the background to the event. Based on that review they concluded that the event justified the waiving of the small marginal cost. This action was acceptable within their delegation.

Sierra Leone: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many British armed forces personnel were wounded during operations in *(a)* Sierra Leone, *(b)* Bosnia and *(c)* Kosovo in each year since 1997. [153328]

Mr. Bob Ainsworth: I refer the hon. Member to the reply given by my predecessor on 11 June 2007, *Official Report*, column 763W, to the hon. Member for Forest of Dean (Mr. Harper).

Territorial Army: Deployment

Mr. Lancaster: To ask the Secretary of State for Defence which Territorial Army sub-units had members mobilised on operational service in the last three years; and which have members currently on operational service. [152660]

Mr. Bob Ainsworth *[holding answer 26 July 2007]:* All major Territorial Army (TA) units have mobilised personnel on operational service over the last three years in various proportions. To identify the sub-units within these units from which each mobilised member of the TA has originated would incur disproportionate cost.

There are currently 571 members of the TA in overseas operational theatres (as at 3 July 2007).

Territorial Army: Resignations

Mr. Lancaster: To ask the Secretary of State for Defence what the average length of service was for each rank of the Territorial Army on resigning for the latest period for which figures are available. [152638]

Mr. Bob Ainsworth: This information is not held centrally and could be provided only at disproportionate cost.

Trident Missiles

Mr. Hancock: To ask the Secretary of State for Defence what discussions his Department has had with *(a)* the Nuclear Installations Inspectorate, *(b)* the Atomic Weapons Establishment Burghfield and *(c)* others on the safety of the Trident warhead assembly/disassembly plant at Burghfield, with particular reference to (i) working practices and (ii) facilities. [152499]

Mr. Bob Ainsworth: The safety of the assembly/disassembly facilities at the Atomic Weapons Establishment (AWE) is not in question. The Nuclear Installations Inspectorate maintains a continuous dialogue with the nuclear site licensee (AWE plc) and with the MOD on all aspects of the safety of facilities and operations at AWE, where safety is paramount to all stakeholders.

Mr. Hancock: To ask the Secretary of State for Defence on what date his Department received the first communication from the Nuclear Installations Inspectorate on the safety of the warhead assembly/disassembly facility at Atomic Weapons Establishment Burghfield. [152503]

Mr. Bob Ainsworth: The Nuclear Installations Inspectorate maintains, and has since first licensing, a continuous dialogue with the nuclear site licensee at Atomic Weapons Establishment Burghfield, and with the MOD on all aspects of the safety of facilities and operations, including the warhead assembly/disassembly facility.

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to replace the warhead assembly/disassembly facility at Atomic Weapons Establishment Burghfield. [152505]

Mr. Bob Ainsworth: A number of options remain under consideration. Final decisions have yet to be taken.

Mr. Hancock: To ask the Secretary of State for Defence what recent research he has *(a)* commissioned and *(b)* evaluated on the merits of using (i) probabilistic risk assessments and (ii) deterministic risk assessments for assessing risk at Atomic Weapons Establishment Burghfield; and if he will make a statement. [152506]

Mr. Bob Ainsworth: No specific research has been commissioned into these techniques and none is needed. The Nuclear Installations Inspectorate licence conditions for the Atomic Weapons Establishment demand that appropriate safety cases are generated as a matter of routine in the evaluation of risk. Deterministic and probabilistic risk assessments are tools employed in defining and ranking the postulated hazards. The use of such risk assessment techniques is considered best practice within the nuclear industry. Their use by AWE plc is regularly benchmarked against—and compares favourably with—other nuclear operators.

Type 45 Destroyers

Dr. Julian Lewis: To ask the Secretary of State for Defence what estimate he has made of the number of Type-45 Destroyers needed on station to provide adequate air defence for a carrier battlegroup. [151256]

Mr. Bob Ainsworth *[holding answer 25 July 2007]:* I refer the hon. Member to the answer my predecessor gave on 10 May 2006, *Official Report,* column 290W.

Warships

Dr. Fox: To ask the Secretary of State for Defence what the out-of-service dates are for each *(a)* submarine, *(b)* frigate, *(c)* destroyer and *(e)* minehunter vessel in the Royal Navy. [153324]

Mr. Bob Ainsworth: Our present planning assumptions, which are routinely updated as required, are as follows:

Submarines

Vanguard Class

It is not possible to give precise out of service dates for the four Vanguard Class submarines. As indicated in the December 2006 White Paper on the future of the United Kingdom's nuclear deterrent we believe that we can extend the original design life by around five years and that accordingly the first Vanguard class submarine would go out of service around 2022 and the second around 2024 and work is ongoing to determine the optimum out of service dates for the remaining two.

Swiftsure Class

Name	*Out of service date*
HMS Superb	2008
HMS Sceptre	2010

Trafalgar Class

Name	*Out of service date*
HMS Trafalgar	2009
HMS Turbulent	2011
HMS Tireless	2013
HMS Torbay	2015
HMS Trenchant	2017
HMS Talent	2019
HMS Triumph	2022

Frigates

Type 22 Class

Name	*Out of service date*
HMS Cornwall	2015
HMS Campbeltown	2017
HMS Cumberland	2017
HMS Chatham	2018

Type 23 Class

Name	*Out of service date*
HMS Argyll	2019
HMS Lancaster	2019
HMS Iron Duke	2020
HMS Monmouth	2021
HMS Montrose	2021
HMS Westminster	2021
HMS Northumberland	2022
HMS Richmond	2022
HMS Somerset	2023
HMS Sutherland	2025
HMS Kent	2028
HMS Portland	2028
HMS St. Albans	2029

Destroyers

Type 42 Class

Name	*Out of service date*
HMS Southampton	2009
HMS Exeter	2009
HMS Liverpool	2010
HMS Manchester	2011
HMS Gloucester	2011
HMS Nottingham	2012
HMS York	2012
HMS Edinburgh	2013

Minehunter Vessels

Hunt Class

Name	*Out of service date*
HMS Ledbury	2019
HMS Cattistock	2020
HMS Brocklesbury	2020
HMS Chiddingfold	2020
HMS Middleton	2020
HMS Hurworth	2022
HMS Atherstone	2022
HMS Quorn	2023

Sandown Class

Name	*Out of service date*
HMS Walney	2017
HMS Penzance	2023
HMS Pembroke	2023
HMS Grimsby	2024
HMS Bangor	2024
HMS Ramsey	2025
HMS Blyth	2026
HMS Shoreham	2026

COMMUNITIES AND LOCAL GOVERNMENT

Aerials: Planning Permission

Mr. Amess: To ask the Secretary of State for Communities and Local Government how many letters her Department has received from residents of Southend, West constituency *(a)* in favour of and *(b)* opposed to the erection of mobile telephone masts in the last 12 months; what response she gave; and if she will make a statement. [152861]

Mr. Iain Wright: The information is not available in the format requested.

The Department has no record of any letters from the hon. Member enclosing correspondence from his constituents regarding the erection of mobile telephone masts in the last 12 months. The Department has no record of any letters from residents with postcodes covered by Southend-on-Sea borough council regarding mobile telephone masts in the last 12 months.

Mr. Amess: To ask the Secretary of State for Communities and Local Government how many mobile telephone masts there were in Southend, West constituency in each of the last five years. [152862]

Mr. Iain Wright: This information is not available centrally and could be provided only at disproportionate cost. Local planning authorities are not required to notify the Department where a mast has been installed following a prior approval application. However, every autumn the mobile phone operators share their annual roll out plans with local planning authorities and list all the existing sites in the local authority area as well as proposed sites. The hon. Member may wish to discuss these plans with his local planning authority.

Mr. Amess: To ask the Secretary of State for Communities and Local Government what guidance she has issued to local authorities on defining close proximity to residential areas and schools when considering planning applications for mobile telephone masts; what recent representations she has received on the issue of mobile telephone masts; what responses she has given; and if she will make a statement. [152774]

Mr. Iain Wright: The Government's planning policy on telecommunications is set out in planning policy guidance note 8 (PPG 8) on Telecommunications which states that

> "In addition to any statutory consultation, authorities are strongly encouraged to undertake any additional publicity that they consider necessary to give people likely to be affected by the proposed development an opportunity to make their views known to the authority. Where a mast is to be installed on or near a school or college the local planning authority should consult the relevant body of the school or college concerned and should take into account any relevant views expressed."

No guidance to local authorities has been issued which defines close proximity to residential areas and schools.

We have received a number of parliamentary questions, letters from hon. Members, other organisations and members of the public recently covering a wide variety of issues in relation to mobile telephone masts. In addition, officials have dealt with a range of correspondence, emails and telephone calls on the issue of mobile telephone masts.

Mr. Amess: To ask the Secretary of State for Communities and Local Government what the planning process is for applications for new *(a)* pico cell, *(b)* micro cell and *(c)* macro cell mobile telephone masts; and how that process differs from that which applied in 2004. [152775]

Mr. Iain Wright: The planning process that applies to pico cells, micro cells and macro cell mobile telephone masts will depend on the nature of the proposed development and the law may be interpreted and applied differently by individual local authorities.

Some minor operations or changes of use of land which are de minimis may not constitute development and may therefore not require planning permission.

Certain telecommunications development undertaken by electronic communications code operators is granted planning permission by part 24 of schedule 2 to the Town and Country Planning (General Permitted Development) Order 1995 without the need for an application for planning permission. Such development must comply with the conditions provided by part 24, which in some cases, includes being required to follow a prior approval process.

Other forms of telecommunications development will require an application for planning permission.

The most recent changes to part 24 of schedule 2 to the Town and Country Planning (General Permitted Development) Order 1995 were introduced by the Town and Country Planning (General Permitted Development) (Amendment) (England) Order 2001 (S.I. 2001/2718) and by the Communications Act 2003 (Consequential Amendments) Order 2003 (S.I. 2003/2155). Neither the relevant legislation nor planning policy guidance note 8: Telecommunications has been amended since 2004.

Mr. Amess: To ask the Secretary of State for Communities and Local Government if she will list the meetings *(a)* her Ministers, *(b)* special advisers and *(c)* officials from her Department have had with mobile telephone mast operators or their representatives since 1 January 2006; who attended; what was discussed; how long the meetings lasted; if she will place in the Library the note made by her officials of each meeting; and if she will make a statement. [152776]

Mr. Iain Wright: The information requested could be provided only at disproportionate cost. Ministers from Communities and Local Government along with those from the Department for Business, Enterprise and Regulatory Reform and the Department of Health meet with representatives of the mobile telephone industry every six months to discuss issues of mutual interest.

In addition, officials from Communities and Local Government have had several meetings with mobile telephone operators or their representatives including meetings of the Electronic Communications Working Group.

Mr. Amess: To ask the Secretary of State for Communities and Local Government what restrictions there are on the erection of mobile telephone masts; what legislation regulates such restrictions; and if she will make a statement. [152777]

Mr. Iain Wright: The Town and Country Planning Act 1990 is the principal Act which regulates the erection of mobile telephone masts. This provides that development as defined requires planning permission. Part 24 of Schedule 2 to the Town and Country Planning (General Permitted Development) Order 1995 grants planning permission, without the need for an application, for certain forms of telecommunications development carried out by electronic communications code operators. This includes the installation of ground-based masts below 15 metres in height on land (other than on protected land such as national parks).

Planning permission granted under Part 24 is subject to certain conditions including a prior approval process for masts. Under Part 24, where development is proposed on land which is not in, on, over or under land controlled by the electronic communications code operator it must be carried out in accordance with The Electronic Communications Code, operated by the industry regulator.

Anti-Semitism

Mr. Amess: To ask the Secretary of State for Communities and Local Government what representations she has received since November 2006 from *(a)* hon. Members, *(b)* Members of the House of Lords, *(c)* organisations and *(d)* members of the public on the incidence of anti-Semitism in England and Wales; and if she will make a statement. [151006]

Mr. Dhanda: The Government published their response to the All Party Parliamentary Inquiry into Anti-Semitism in March 2007. On 20 June officials from Communities and Local Government and other Departments met Jewish stakeholders to consider progress made with implementation of the Government's response and further meetings will take place quarterly.

An Adjournment debate around anti-Semitism on 19 July provided Members of Parliament with the opportunity to make representations to Government.

The Secretary of State has not received any representations from Members of the House of Lords.

Arms Length Management Organisations

Dan Rogerson: To ask the Secretary of State for Communities and Local Government what guidance she has issued on the minimum threshold of support among *(a)* tenants, *(b)* leaseholders and *(c)* all residents for a local authority to proceed with transferring management of properties to an arm's length management organisation. [153565]

Mr. Iain Wright: None. The Department does not specify a minimum threshold of support. It is up to each local authority to demonstrate that it has consulted its tenants and leaseholders and to provide evidence of support for its arm's length management organisation proposals when it applies for the Secretary of State's consent to delegate its housing management functions. Consent will not be granted unless the Secretary of State is satisfied with the evidence provided.

Audit Commission

Mrs. Lait: To ask the Secretary of State for Communities and Local Government why the Audit Commission decided to change the indicators used to assess comprehensive performance assessments prior to their replacement with comprehensive area assessments. [152951]

Mr. Iain Wright: This is an operational matter for the Audit Commission and I have asked the Chief Executive of the Audit Commission to write to you directly.

Letter from Steve Bundred, dated 26 July 2007:

I am writing in response to your parliamentary question asking why the Audit Commission decided to change the indicators used to assess comprehensive performance assessments prior to their replacement with comprehensive area assessments.

The Commission published a consultation document on the framework for CPA 2007 in April this year. In this document a small number of changes were proposed to the performance indicators used in the Audit Commission service assessments for housing, environment and culture, to ensure that CPA remained relevant and continued to drive improvements in public services. The proposals included supplementing the existing set of indicators with four newly available indicators that measure outcomes recognisable by local residents or vulnerable people. It was also proposed to remove four indicators (where there are issues with data availability, data quality or national consistency) and replace three indicators with more meaningful measures of performance. These represent only a small proportion of the total number of indicators; in 2006 there were 31 indicators included in the environment service assessment, 20 in housing and 18 in culture.

The majority of consultation responses expressed a strong desire for stability in the CPA framework and the Commission considered these at its meeting this morning. We will be publishing a document within the next few weeks setting out our final decisions and explaining the reasons for them. I am able to confirm at this stage, however, that a number of the changes proposed in our consultation document will not now go ahead.

It is worth noting that the Commission is also considering the framework and transitional arrangements that it puts in place for 2008, as this is the last year they will carry out assessments under the CPA methodology. The new CAA framework is due to be in place from April 2008.

A copy of this letter will be placed in the House of Commons Library.

Bellwin Scheme

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the estimated cost to the public purse is of the changes to the Bellwin scheme outlined in her statement of 9 July 2007, *Official Report*, column 1189, on flooding (England). [152890]

John Healey: It is too early to estimate the level of costs to local authorities arising out of the recent floods which might be eligible for Bellwin funding. Under the special arrangements for this scheme, authorities are able to claim for eligible costs incurred up to six months after the flooding.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether the changes to the Bellwin scheme outlined in her statement of 9 July 2007, *Official Report*, column 1189, on flooding (England), will only apply to claims made in relation to the recent flooding incidents. [152891]

John Healey: Yes.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government which local authorities have notified her Department of their intention to apply for Bellwin scheme funding following the recent floods. [153497]

John Healey: The following authorities had notified an intention to claim for the flooding events in June by the closing date of 31 July:

Amber Valley Borough Council
Barnsley Metropolitan Borough Council
Bassetlaw District Council
Bolsover District Council
Bridgnorth District Council
Chesterfield Borough Council
Derbyshire County Council
Derbyshire Combined Fire Authority
Derbyshire Dales District Council
Doncaster Metropolitan Borough Council
East Riding of Yorkshire Council
East Lindsey District Council
Erewash Borough Council
Gedling Borough Council
Gloucestershire County Council
Harrogate Borough Council
Hereford and Worcester Fire and Rescue
High Peak Borough Council
Humberside Fire and Rescue Service
Humberside Police Authority
Kingston upon Hull City Council
Leeds City Council
Lichfield District Council
Lincoln City Council
Lincolnshire County Council
Newark and Sherwood District Council
North East Derbyshire District Council
North East Lincolnshire Council
North Yorkshire Fire and Rescue Authority
Pendle BC
Rotherham Metropolitan Borough Council
Scarborough Borough Council
Sheffield City Council
Shropshire County Council
South Shropshire District Council
South Yorkshire Fire and Rescue Authority
South Yorkshire Police Authority
Stafford Borough Council
Staffordshire Fire and Rescue Authority
Warwick District Council
Warwickshire County Council
Wakefield City Council
West Mercia Police Authority
West Lindsey District Council
West Yorkshire Fire and Rescue Authority
Worcestershire County Council
Wyre Forest District Council

Authorities have until the end of August to notify incidents occurring in July. To date the following authorities have done so:

Bridgnorth District Council
Cheltenham Borough Council
Cotswold District Council
Derbyshire Combined Fire Authority
Gloucestershire County Council
Hereford and Worcester Combined Fire Authority
Lichfield District Council
Scarborough Borough Council
Shrewsbury and Atcham Borough Council
South Shropshire District Council
Stratford-on-Avon District Council
Tewkesbury Borough Council
Warwick District Council
Warwickshire County Council
West Mercia Police Authority
West Oxfordshire District Council
Wokingham District Council
Worcestershire County Council
Wychavon District Council

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether expenditure by a local authority on a local council tax discount under the Local Government Act 2003 for victims of flooding is eligible for funding under the Bellwin scheme. [153504]

John Healey: The statutory power for Bellwin grant is section 155 of the Local Government and Housing Act 1989. This section only permits the Secretary of State to provide financial assistance in respect of expenditure incurred by a local authority. Reductions in income arising out of council tax foregone are therefore not eligible for Bellwin grant.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what changes have been made to the operation of the Bellwin Scheme since May 1997. [153508]

John Healey: On 7 July the Prime Minister announced special changes to the Bellwin scheme for the June floods to make it easier for local councils to claim back additional costs. These changes allow local authorities to reclaim 100 per cent. of their costs above threshold (up from 85 per cent.) and to claim costs incurred in the six months following the incident (up from two months). We have also invited local authorities to make interim claims before the expiry of the six months qualifying expenditure period.

A further Bellwin scheme has been activated in respect of the July floods, incorporating the same special changes.

Commission on Integration and Cohesion

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the timetable is for her Department to publish a formal response to the report of the Commission on Integration and Cohesion. [153515]

Mr. Dhanda: The Secretary of State for Communities and Local Government has said that she will publish a formal response to the report on the Commission on Integration and Cohesion in the autumn.

Community Development: Bedfordshire

Margaret Moran: To ask the Secretary of State for Communities and Local Government what funding was provided by *(a)* the Government, *(b)* Bedfordshire local authorities and *(c)* others to the Bedfordshire Citizen Service Partnership. [149431]

John Healey: The amount of funds received by Bedfordshire Citizen Service Partnership from the Government was £1.78 million from the Local e-Government Programme and £1.24 million from the Invest to Save budget.

Details of funding provided by Bedfordshire local authorities and/or received from others should be available from the Bedfordshire authorities.

Community Development: Thames Gateway

Lyn Brown: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to ensure that adequate funding is made available for statutory agencies to *(a)* deliver the social infrastructure required to meet the needs of the new Thames Gateway communities and *(b)* ensure that they are fully sustainable. [149778]

Yvette Cooper: The Government are investing heavily in infrastructure and services for people in the Thames Gateway, with billions spent on education, health and transport. Since 2003, growth area funding also supports parks and green spaces in the Thames Gateway, and the Thames Gateway Draft Strategic Framework set out the need to involve existing communities in the development of the Gateway. We will be in a position to announce future spending in the Thames Gateway following the Comprehensive Spending Review.

We know that achieving our ambitions in the Thames Gateway is about more than just housing and jobs. With this in mind, we have established a cross Government senior level Board to ensure that policy and spending is joined up and will deliver the types of sustainable communities that people will choose to live in both now and in the future.

Council Housing: Repairs and Maintenance

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government which stock option each local authority with council housing has chosen to meet the decent homes standard; whether tenants have supported or rejected the strategy in each case; and what the performance rating is of the housing service (number of stars and expectations of future performance) in the case of retaining authorities and those that plan to set up an arms length management organisation. [151901]

Yvette Cooper: A table showing the information requested, with explanatory notes, has been placed in the Library of the House. We do not have up to date housing performance information for all local authorities and this is reflected in the table.

All delivery options have received tenant support as part of the Options Appraisal process, or as part of the application process for an individual programme where the application predated 2003.

Council Tax: Pensioners

Alistair Burt: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the annual cost of an automatic 50 per cent. discount on council tax for pensioners in England. [150628]

John Healey: The Department has made no such estimate.

Council Tax: Second Homes

Andrew George: To ask the Secretary of State for Communities and Local Government what assessment she has made of how local authorities make use of the additional income raised through the discretionary council tax levy they can raise from second homes; and what proportion of resources are deployed to contribute to meeting local housing need. [150937]

John Healey: Since April 2004 local authorities have had discretionary powers to set the council tax discount offered on second homes at any point between 10 per cent. and 50 per cent. and on long term empty homes at any point between 0 per cent. and 50 per cent. It is up to local authorities to decide how to use this power and what they do with the additional income generated.

Communities and Local Government have made no assessment of how local authorities make use of the income generated through reducing the discount.

Andrew George: To ask the Secretary of State for Communities and Local Government (1) how much her Department paid to local authorities to compensate them for the income foregone through the 50 per cent. council tax discount available for second home owners in each year for which records are available since 2000; [150938]

(2) how much subsidy has been paid to local authorities to compensate them for the 50 per cent. council tax discount available for second home owners since the council tax system was introduced. [150940]

John Healey: The distribution of formula grant to local authorities in England takes account of the circumstances of each authority's area and its relative ability to pay council tax, expressed in terms of the council tax base. The calculation of a council's tax base

takes into account the Band D-equivalent number of second homes and has done so since council tax was introduced in 1993. Since 1 April 2004, although billing authorities have been able to reduce the council discount for second homes in their area (to between 10 and 50 per cent.), a discount of 50 per cent. has continued to be assumed for all authorities in calculating the tax base for the purposes of distributing formula grant.

Other things being equal, the smaller the council tax base of a council's area, the larger its formula grant. This effect has, however, been modified in recent years by the application of grant 'floors', which guarantee a minimum percentage increase in grant each year on a like-for-like basis.

For this reason, and because formula grant is not hypothecated—i.e. it can be used for any purpose—it is not possible to calculate an amount of formula grant payable for second homes.

Andrew George: To ask the Secretary of State for Communities and Local Government (1) how many and which council tax collecting authorities which include domestic properties entitled to a council tax discount for second homes have not decided to use their discretionary powers to levy an additional 40 per cent. charge; [150939]

(2) which council tax collecting authorities took advantage of the opportunity to levy *(a)* part and *(b)* all of the discretionary additional charge from those domestic council tax payers who are entitled to the 50 per cent. second home discount in each year for which records are available; and which political party controlled each authority at the time of collection. [150951]

John Healey: I have placed in the Library of the House tables showing which local authorities have levied either (a) all, (b) part, and (c) none of the discretionary additional charge in each year since 2004.

Andrew George: To ask the Secretary of State for Communities and Local Government how many and what proportion of all properties for which council tax is payable in each local authority were entitled to a second home discount in each year since 2000. [150941]

John Healey: I have placed in the Library of the House the information requested for the number of properties classed as second homes and entitled to discount in each local authority in England for 2002 to 2006. Data prior to this are not considered sufficiently robust.

Council Tax: Valuation

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Surrey Heath (Michael Gove) of 20 June 2007, *Official Report*, column 1856W, on council tax: valuation, what use is being made by the Valuation Office Agency of data from Rightmove now that the council tax revaluation in England has been postponed. [152423]

John Healey: Information accessible under the terms of the arrangement with Rightmove is being used to ensure that the data held by the Valuation Office Agency are accurate.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Surrey Heath of 25 June 2007, *Official Report*, column 152W, on council tax: valuation, what each *(a)* product and *(b)* dataset is that the Valuation Office Agency has a licence to use from Ordnance Survey. [152538]

John Healey: The Valuation Office Agency has a license to use the following OS products and datasets:

1: 10 000 Scale Raster
1: 25 000 Scale Colour Raster
1: 50 000 Scale Colour Raster
1: 250 000 Scale Colour Raster
1: 50 000 Scale Gazetteer

Departments: Departmental Policy Advisers

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will list each of her Department's special advisers. [152388]

Mr. Iain Wright: The Secretary of State for Communities and Local Government has two special advisers. They are Andy Bagnall and Paul Richards.

Departments: Departmental Reorganisation

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what recommendations from the Lifting the Burden Taskforce her Department *(a)* has introduced and *(b)* plans to introduce. [152941]

John Healey: The Lifting Burdens Task Force was established under the chairmanship of Michael Prater, chief executive of Nottingham city council, in July 2006. The Task Force's remit is to identify which central Government information requirements on local government cause the most difficulty on the ground and which add the least value, and recommend to Government action to reduce such burdens.

The Task Force published its first report on Communities and Local Government's functions

Housing and Planning at the end of February 2007. The full Government response was published in May 2007. Following the report, we lifted the requirement on local authorities to report on the following Best Value Performance Indicators (BVPIs):

219a Planning: total number of conservation areas in the local authority area

219c Planning: percentage of conservation areas with published management proposals 214 Homelessness: repeat homelessness

The Task Force's recommendations on reform of the planning system were broadly accepted and the responses to most were covered in the Planning White Paper published in May. We will consider the recommendation to remove prescriptive requirements for communication as part of the review of the General Development Procedure Order referred to in the Planning White Paper.

The Task Force published its second report in March 2007, and in response, we removed the requirement for local authorities to report on a further seven BVPIs or parts of BVPIs. We are considering further recommendations from both reports in the context of the new performance framework for local government and the national indicator set which will underpin it, to be introduced from April 2008.

Departments: Departmental Responsibilities

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what responsibilities for regional policy her Department *(a)* gained and *(b)* lost as a result of the recent machinery of Government changes. [152935]

John Healey: The Department for Communities and Local Government's shared (with the former Department for Trade and Industry and HM Treasury) Regional Economic Performance target—to improve sustainable economic performance in all regions by 2008, and over the long term (by 2012) reduce the persistent gap in growth rates between the regions—transferred to the Department for Business, Enterprise and Regulatory Reform as part of the recent machinery of Government changes.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Communities and Local Government what proportion of people employed by *(a)* her Department and *(b)* its agencies are disabled. [153593]

Mr. Iain Wright: The latest available data on the disability status of civil servants in Departments and agencies are as at 30 September 2006 and are published in "Civil Service Statistics 2006" at Table P. This document is produced by the Office for National Statistics and can be accessed from the following website addresses.

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=&ColRank=1&Rank=422

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

Declaration of a disability is voluntary.

Departments: Flint Bishop

Mr. Hoban: To ask the Secretary of State for Communities and Local Government whether *(a)* her Department and *(b)* its agencies have made payments to Flint Bishop Solicitors since 1997. [151392]

Mr. Iain Wright: Communities and Local Government (CLG) and the former Office of the Deputy Prime Minister (ODPM) were created following Machinery of Government changes on 5 May 2006 and 29 May 2002, respectively.

There are no records of any payments to Flint Bishop Solicitors by the central Department or its agencies since May 2002. Details of payments prior to May 2002 could be obtained only at disproportionate costs.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how much was spent by her Department on flowers in the last 12 months. [153225]

Mr. Iain Wright: It is not departmental practice to provide cut flowers for office use and so expenditure on this is nil.

A low level of internal planting within the Communities and Local Government HQ buildings is maintained under our Facilities Management contract. The cost of this is included within the fixed contract price for cleaning, grounds maintenance and pest control and is not separately identifiable. Additionally, new plants have been provided at a cost of £6,100.44 during the period 1 July 2006 to 30 June 2007.

Departments: Freedom of Information

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what requests were made to her Department under the *(a)* Freedom of Information Act (FOI) 2000 and *(b)* Environmental Information Regulations between the establishment of the Department and 30 September 2006; and what the (i) FOI case reference number, (ii) request summary, (iii) request outcome and (iv), where appropriate, reason for exemption was in each case. [152537]

Mr. Iain Wright: The list of requests made to Communities and Local Government under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004 between 8 May 2006 and 30 September 2006, together with the other information requested, has been tabulated and a copy has been placed in the Library of the House.

This tabulation consists solely of requests handled by the Central Department, and does not include requests made to its Agencies or the Government Office Network.

Departments: IT

Mr. Syms: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 4 December 2006, *Official Report*, columns

182-84W, on IT projects, which information technology projects are being undertaken by (*a*) her Department and (*b*) its agencies; what the (i) start date, (ii) original planned completion date, (iii) expected completion date, (iv) originally planned costs and (v) estimated planned costs are of each; and if she will make a statement. [151552]

Mr. Iain Wright: IT projects undertaken by Communities and Local Government and its agencies are as follows:

(*a*) Communities and Local Government (including Regional Coordination Unit and Government Offices in the Regions).

Project	*Start date*	*Original planned completion date*	*Expected completion date*	*Originally planned costs (£000)*	*Estimated planned costs (£000)*
Buynet upgrade to SRM4	March 2007	April 2007	August 2007	96	96
Replacement infrastructure for Peoplesoft HR system	November 2006	May 2007	October 2007	537	400
HQ human resources database, further development 4th release—includes Online Performance Management	April 2007	October 2007	October 2007	525	525
Government offices human resources database, further development	April 2007	March 2008	March 2008	150	150
Government offices Online Performance Management System, further development	April 2007	March 2008	March 2008	150	150
FiReControl (regional fire control centres)[1]	2004	2009	2011	120,000	190,000
FireLink[2]	June 2002	December 2007	June 2009	350,000	350,000
Fire incident recording system	January 2006	December 2006	August 2007	1,300	2,500
Website rationalisation (incorporating Info4local rebuild project)[3]	December 2005	June 2008	December 2008	3,200	3,600
LINK (new corporate desktop system)[4]	February 2005	October 2006	December 2007	2,064	2,064
EDRMS[4]	October 2006	December 2006	December 2007	699	699
DCLG corporate web hosting	June 2006	March 2007	July 2007	578	660
RSGS replacement	July 2006	January 2008	January 2008	737	737
Floor Targets interactive rebuild	January 2007	May 2007	August 2007	250	300

Notes:
[1] The FiReControl project is principally a business change project with an IT component.
[2] Firelink is a radio communications system project for the Fire and Rescue Service across Great Britain, with an element of IT.
[3] A project to rebuild the Info4local website was approved in November 2004 at a cost of £244,000. The project was deferred for later incorporation into the Department's Website Rationalisation Project.
[4] LINK and EDRMS are two out of three component projects that made up the ITSOP project listed in the Answer published on 4 December 2006. The remaining component—the outsourcing of the Department's IT services—was completed on 31 December 2006. EDRMS is the pilot deployment of electronic document and records management system to selected key users.
[5] Plus 400 for Info4local.

(*b*) Agencies of the Department.

Planning Inspectorate have no IT projects currently being undertaken.

Project	*Start date*	*Original planned completion date*	*Expected completion date*	*Originally planned costs (£000)*	*Estimated planned costs (£000)*

Meeting Matrix	June 2007	September 2007	September 2007	65	65

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Communities and Local Government (1) which Bills introduced by her Department in the last five years did not contain sunset clauses; and if she will make a statement; [152492]

(2) which Bills introduced by her Department in the last five years have contained sunset clauses; and what plans she has for the future use of such clauses. [151832]

Hazel Blears: Since the formation of the Office of the Deputy Prime Minister in May 2002 and subsequently the Department for Communities and

Local Government in May 2006, we are aware of one sunset clause in primary legislation for which we have been responsible, namely section 1(7) of the Fire Services Act 2003, which prevents the making of an order (fixing firemen's conditions of service) more than two years after commencement of the Act (on the date of Royal Assent, 13 November 2003) except for an order revoking a previous order.

The following primary legislation has received Royal Assent since 2002 and has not contained sunset clauses:

Fire and Rescue Services Act 2004;

Housing Act 2004;

Planning and Compulsory Purchase Act 2004;

Council Tax (New Valuation Lists for England) Act 2006; and

Housing Corporation (Delegation) etc. Act 2006

Rating (Empty Properties) Act 2007

Of the Acts currently before Parliament, the GLA Bill does not contain a sunset clause, but the Local Government and Public Involvement in Health Bill does contain a sunset clause (in clause 3) which ensures that the Secretary of State may not give a direction (under clause 2) to an authority to prepare a proposal for unitary local government after 25 January 2008. This sunset clause was introduced by amendment in the Commons in response to concerns of the Local Government Association that the Secretary of State's power to direct would otherwise be too wide. The Secretary of State may therefore only issue a direction under clause 2 from after the enactment and commencement of Part 1 of the Bill (likely to be November 2007) up until 25 January 2008.

As to the future use of sunset clauses, the appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many press officers are employed by her Department. [153229]

Mr. Iain Wright: As at 1 April 2007 there were 22 press officers in the central Department.

Departments: Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what the name is of each special adviser in her Department. [153228]

Mr. Iain Wright: The Secretary of State for Communities and Local Government has two Special Advisers. They are Andy Bagnall and Paul Richards.

Departments: Ministerial Responsibilities

Bob Russell: To ask the Secretary of State for Communities and Local Government if she will list the official duties undertaken by the then Minister of State for Housing and Planning on 23 April. [152927]

Yvette Cooper: I attended the 9th meeting of the Hertfordshire Housing Conference in St. Albans.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Communities and Local Government to which periodicals her Department subscribes. [153221]

Mr. Iain Wright: Communities and Local Government have a service level agreement with the Department for Transport to provide library services. Communities and Local Government library service provides periodicals for both Communities and Local Government and for Department for Transport. A list of those periodicals centrally funded has been placed in the Library of the House. Separating those titles solely held for use by Communities and Local Government could be obtained only at disproportionate cost.

Listings for the periodical holdings of Executive agencies, non-departmental public bodies and Government offices are not held centrally and could be provided only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how much was spent by her Department on newspapers and magazines in the last 12 months. [153222]

Mr. Iain Wright: Communities and Local Government have a service level agreement with the Department for Transport to provide library services. From 1 July 2006 to 30 June 2007, the Communities and Local Government library service spent £25,064 on paper-based publications for Communities and Local Government and for Department for Transport. This included the purchase of newspapers, magazines, annuals and books. Separating out spend relating to newspapers and magazines solely held for use by Communities and Local Government would attract a disproportionate cost.

Information on expenditure outside this service for the Executive agencies, non-departmental public bodies and Government offices is not held centrally and could be provided only at disproportionate cost.

Departments: Public Appointments

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will make a statement on the change of her Department's Director of Housing. [153510]

Yvette Cooper: As part of an internal re-organisation in October 2006, changes were made to the remits of the three director posts dealing with housing issues. The Department does not comment publicly on such changes.

Departments: Railways, Aviation and Taxis

Mr. Hoban: To ask the Secretary of State for Communities and Local Government (1) how much was spent by her Department on first class train tickets in the last 12 months; [153223]

(2) how much was spent by her Department on *(a)* business class flights and *(b)* first class flights *(c)* first class train tickets *(d)* taxis in the last 12 months; [153224]

(3) how much was spent by her Department on taxis in the last 12 months. [153226]

Mr. Iain Wright: The breakdown of information in the format requested could be obtained only at disproportionate cost. However, the following table sets out the overall expenditure incurred by Communities and Local Government on overseas and domestic travel (for civil servants and Ministers) in the last 12 months.

1 July 2006 to 30 June 2007

	£
Overseas travel and subsistence costs	257,447
Domestic travel and subsistence costs	2,004,632

The figures include all expenditure for travel by air, train, taxi and car as well as subsistence and hotel accommodation costs.

All travel by civil servants and Ministers of Communities and Local Government is conducted in accordance with the requirements of the Civil Service Management Code and the Ministerial Code and Travel.

Departments: Recruitment

Mrs. May: To ask the Secretary of State for Communities and Local Government how much her Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151670]

Mr. Iain Wright: The Department for Communities and Local Government and its predecessors made payments to a number of employment agencies in respect of agency employees during this period but the information requested is not held centrally.

The Department's policy is to engage temporary agency staff only through competitively negotiated framework contracts which provide value for money for the Department. The central part of the Department for Communities and Local Government and its predecessors paid the following amounts to recruitment consultants in relation to permanent staff.

	£
2006-07	79,155.54
2005-06	370,232.23
2004-05	462,964.00
2003-04	730,468.33
2002-03	653,845.86

It would cost a disproportionate amount to obtain information prior to 2002-03.

Departments: Training

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many staff who had previously been seconded to the Deputy Prime Minister's office have received *(a)* anti-bullying training and *(b)* diversity awareness training since May 2006 following their return to her Department. [152699]

Mr. Iain Wright: Two senior managers seconded to the Deputy Prime Minister's Office attended the Department's Dignity and Respect Workshop.

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how much was spent by her Department on staff away days in the last 12 months. [153218]

Mr. Iain Wright: Expenditure related to staff away days is not identified as a separate item on the Department's accounting system, and could be obtained only at disproportionate cost. However, any such expenditure could reasonably be expected within the expenditure total for conferences. The total expenditure on conferences for Ministers and civil servants incurred by Communities and Local Government in the period 1 July 2006 to 30 July 2007 was £543,786.

All expenditure on conferences is made in accordance with published departmental guidance on financial procedures and propriety.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how much was spent by her Department on industrial tribunals in the last 12 months. [153220]

Mr. Iain Wright: The information requested could be provided only at disproportionate cost.

Derelict Land

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will publish a list of all surplus public sector land sites that she expects to be used for brownfield development. [153514]

Mr. Iain Wright: The Register of Surplus Public Sector Land provides a quarterly publication of sites that are owned by central government departments and their agencies. These sites have been identified as available for release for development and details can be accessed via the website at

http://www.englishpartnerships.co.uk/rspsl.htm

The Register is managed by English Partnerships and holds details of over 700 sites totalling more than 5,000 ha. The 550 newly identified surplus sites owned by central government departments and their agencies have not yet been placed on the Register of Surplus Public Sector Land managed by English Partnerships. The sites will be placed on the Register in due course.

Derelict Land: Greater London

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government what proportion of available brownfield sites was used for the provision of new homes in each of the London boroughs in each of the last five years. [153568]

Yvette Cooper: This information requested is not held centrally. However almost all housing development in London takes place on brownfield land (97 per cent.

in 2005). Also, the stock of available brownfield land is not static as new sites are coming forward for development all the time. Historically, studies to provide a comprehensive technical analysis of London's potential for future housing growth have been the responsibility of the Mayor of London, or predecessor body, and the boroughs. Regular studies have been undertaken, namely London's Housing Capacity (Greater London Authority, September 2000) and the 2004 London Housing Capacity Study (GLA, July 2005). As a result, housing targets for London have recently been increased, from 23,000 homes per year to 2006-07, to 30,500 homes per year from 2007-08.

Digital Mapping

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what plans there are to review or revise the Government-wide agreement on digitised mapping services provided by Ordnance Survey. [153513]

Mr. Dhanda: Communities and Local Government are currently running a competitive procurement for a replacement Pan-Government Agreement. It is intended that this will take effect from April 2008.

Empty Property: Greater London

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government how many vacant homes there were in each London borough in each of the last five years. [153556]

Mr. Iain Wright: Estimates for vacant dwellings in each London borough since 2002 are tabulated as follows. These include vacancies up to six months and long-term vacancies over six months. These are as reported by local authorities through the Council Tax Base (CTB1) form and present vacant dwellings receiving some or a full discount on council tax.

Number of vacancies in London boroughs, 2002-06

	November 2002	November 2003	November 2004	October 2005	October 2006
London	111,416	102,998	92,597	88,402	86,701

Council Tax Base (CTB1) return from local authorities.

Equity Sharing: Sales

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what *(a)* financial and *(b)* other incentives (i) Open Market Homebuy agents, (ii) New Build Homebuy agents and (iii) Social Homebuy agents received from selling an equity stake; and whether the level of the incentives varies according to the size of the equity stake purchased by the householder. [145162]

Yvette Cooper: The term 'HomeBuy Agents' applies to those registered social landlords that have been appointed by the Housing Corporation to provide a 'One Stop Shop' for all low cost home ownership products funded by the Affordable Housing Programme. The introduction of HomeBuy Agents across the country in April 2006 has streamlined the application process for applicants and provided strict eligibility and affordability checks to ensure value for money for the public purse.

The financial incentives for registered social landlords to offer our New Build, Open Market and Social HomeBuy products are:

The availability of Government grant to:

cover the cost of the Government's equity loan under Open Market HomeBuy;

cover the discount offered under Social HomeBuy;

contribute to the cost of developing New Build HomeBuy homes; and

assist with any associated administrative costs.

The receipts generated by the sale of shares under New Build and Social HomeBuy. The level of this incentive will vary depending on the size of the share sold. The higher the share sold, the higher the receipt. The original grant must be recycled to provide more affordable homes, the remaining receipt must only be spent on permitted activities.

The equity appreciation that could be earned on their stake in any low cost home ownership homes they provide.

The rental income generated by shared ownership sales under New Build HomeBuy and Social Homebuy. Again the level of

this incentive will vary according to the size of share sold. The higher the share sold, the lower the rental income.

The freedom for landlords (this includes local authorities) offering Social HomeBuy to retain receipts for reinvestment in affordable housing to meet current housing needs.

The availability of alternative sources of subsidy for New Build HomeBuy including on site developer contributions through planning obligations and financial or land contributions from local authorities.

Other incentives include:

The ability to introduce tenure mix on estates and contribute to sustainable communities through New Build HomeBuy and Social HomeBuy sales.

Fire Services

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what guidance her Department has given to fire authorities and fire brigades on the use of *(a)* flashing lights and *(b)* sirens when travelling to emergency call-outs. [152413]

Mr. Dhanda: Communities and Local Government have not issued any guidance on the use of flashing lights and sirens to the Fire and Rescue Service as this is an operational matter for individual Chief Officers.

First Time Buyers: Greater London

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government what the average age of first time buyers was in each London borough in each of the last five years. [153646]

Mr. Iain Wright: The following table shows the average age of first time buyers for London from 2002-06. Data at the London borough level is unavailable due to small sample sizes.

	Median age of first-time buyers in London
2002	30
2003	32
2004	31
2005	30
2006	30

Regulated Mortgage Survey, sitting tenants excluded

Floods

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the effectiveness of the Regional Civil Contingencies Committees in tackling the recent flooding incidents. [152829]

John Healey: Regional Civil Contingencies Committees (RCCCs) are designed to be implemented in the case when an incident(s) within a Government Office region requires co-ordination at regional level. During the June flooding incidents, this was not necessary as the Strategic Co-ordination Groups within the regions managed the events locally.

During the recent flooding in Gloucester, the Government Office for the South West (GOSW) set up two meetings of the RCCC on 23 and 24 July. Both provided a useful opportunity for high-level, regional partners to hear about the flooding situation at first hand, to discuss resourcing issues and mutual aid, and to consider consequence management and longer term issues relating to recovery.

As the situation in Gloucestershire has become less critical, it has been agreed to stand down the RCCC, but with the option of reconvening it should the situation change. Meanwhile, RCCC members are being kept closely in touch with developments by e-mail, and considering ways of supporting the Strategic Co-ordination Group with preparatory work on recovery.

The effectiveness of the RCCC mechanism during the flooding will be assessed by the independently-led committee that will consider, more broadly, issues identified from these events.

Floods: EU Grants and Loans

Miss McIntosh: To ask the Secretary of State for Communities and Local Government whether any region in the UK has received aid from the European Commission Solidarity Fund for *(a)* flood damage and *(b)* other reasons in the last five years. [150120]

John Healey: In the last year no region of the UK has received aid from the European Commission Solidarity Fund in respect of either flood or other damage.

Miss McIntosh: To ask the Secretary of State for Communities and Local Government whether she plans to request aid from the European Commission Solidarity Fund for areas affected by flood damage. [150121]

John Healey: No such application has yet been made as we are currently collecting all the information necessary for us to assess the full financial effect of the damage before considering whether such an application could meet the strict criteria laid down for mobilising the Fund.

Floods: North Yorkshire

Miss McIntosh: To ask the Secretary of State for Communities and Local Government what expenditure by councils affected by recent flooding in North Yorkshire will be covered by the Bellwin formula. [152875]

John Healey: Authorities who notify the Department of their intention to claim Bellwin grant within one month of the commencement of the emergency will, under the established terms of the scheme, be able to claim grant for all eligible expenditure incurred on immediate action to safeguard life or property or to prevent severe inconvenience to the inhabitants, as set out in the legislation governing the scheme. On this occasion, as announced by the Prime Minister on 7 July, 100 per cent. grant will be paid on expenditure in excess of 0.2 per cent. of the authority's revenue budget, an increase on the normal 85 per cent. grant aid. Eligible expenditure up to six months from the commencement of the incident will count for grant, compared to the normal limit of two months.

Floods: Tewkesbury

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what funding she expects to be made available to *(a)* agencies and *(b)* individuals who have been affected by the recent flooding in the Tewkesbury constituency; and if she will make a statement. [152887]

John Healey: I refer the hon. Member to the statement made by the Prime Minister on 25 July 2007, *Official Report*, column 832.

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what application is planned to be made to access money from the European Union to help *(a)* agencies and *(b)* individuals who have been affected by the recent flooding in Tewkesbury constituency; and if she will make a statement. [152909]

John Healey *[holding answer 26 July 2007]:* No such application has yet been made as we are currently collecting all the information necessary for us to assess the full financial effect of the damage caused by the June and July floods before deciding whether such an application could meet the strict criteria laid down for mobilising the Fund.

Home Information Packs

Michael Gove: To ask the Secretary of State for Communities and Local Government how many part-time qualified and accredited home inspectors she expects there to be in each of the next three years; and if she will make a statement. [146509]

Yvette Cooper: It is estimated that about 40 per cent. of home inspectors and domestic energy assessors will work part time. This has been taken into consideration in the Government's plan for the roll-out of Home Information Packs.

Michael Gove: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 21 June 2007, *Official Report*, column 2103W, on home information packs, when the research will be published. [146585]

Yvette Cooper: This research is being updated in light of the changes to the implementation announced on 22 May and will be published in due course.

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many qualified home improvement pack inspectors there are, broken down by region; how many qualified inspectors she expects there to be on 1 August; and how many inspectors will be needed to inspect homes with *(a)* four or more bedrooms and *(b)* three or more bedrooms on 1 August. [146697]

Yvette Cooper: I refer the hon. Member to the dedicated Home Information Packs website for the most recently published national numbers of accredited assessors, together with a regional breakdown:

http://www.homeinformationpacks.gov.uk/industry/163_Assessorinspectornums.html

We will be providing regular updates on this site.

There is already a sufficient number of assessors to introduce Home Information Packs and Energy Performance Certificates for four-bedroom properties and larger on 1 August 2008. The implementation update published on 11 June, a copy of which was placed in the House Library, states the criteria which will be used for the roll out of packs to other sized properties.

Mr. Syms: To ask the Secretary of State for Communities and Local Government what her Department's latest estimate is of the average cost of a home information pack, including VAT, for residents of the South West Government Office Region; and if she will make a statement. [151587]

Yvette Cooper: An estimate of the cost of producing a Home Information Pack is set out in the Impact Assessment published on 11 June.

Graham Stringer: To ask the Secretary of State for Communities and Local Government what definition she uses of *(a)* bedrooms, *(b)* studies, *(c)* lofts and *(d)* bathrooms in relation to home information packs. [151774]

Yvette Cooper *[holding answer 23 July 2007]:* I refer my hon. Friend to the answer given to the hon. Member for Surrey Heath (Michael Gove) on 25 June 2007 *Official Report*, column 164W.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the annual level of expected non-compliance with the home information pack provisions. [152686]

Yvette Cooper: We have put in place a robust enforcement regime to deal with those who do not comply with the new requirements. The Housing Act 2004 makes it clear that the responsibility to obtain a Home Information Pack is on the person responsible for marketing the property.

Homelessness

Greg Mulholland: To ask the Secretary of State for Communities and Local Government how many people in *(a)* Leeds, *(b)* West Yorkshire and *(c)* England are estimated to be homeless; and how many are under 16 years of age in each case. [151445]

Mr. Iain Wright *[holding answer 23 July 2007]:* Information about local authorities' actions under homelessness legislation is collected quarterly at local authority level, in respect of households rather than people.

Information reported each quarter includes the number of households accepted by local authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty. The duty owed to an accepted household is to secure suitable accommodation. If a settled home is

not immediately available, the authority may secure temporary accommodation until a settled home becomes available.

This data is published in our quarterly statistical release on statutory homelessness, which includes a supplementary table showing the breakdown of key data, including acceptances and temporary accommodation, by each local authority, including Leeds, Bradford, Calderdale, Kirklees and Wakefield. This is published on our website and placed in the Library each quarter. The latest release was published on 11 June 2007 and contains data for the period January to March 2007:

http://www.communities.gov.uk/index.asp?id=1002882&PressNoticeID=2438.

Since 1998, information has also been collected on the number of people who sleep rough—that is, those who are literally roofless on a single night—and these are also published on our website, by local authority:

http://www.communities.gov.uk/pub/705/NationalRoughSleepingEstimate2006_id1502705.xls.

Local authorities do not specifically report data on the number under 16-year-olds affected by statutory homelessness.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what changes her Department has made to funding to local authorities on homeless prevention revenue support in the last three years. [153511]

Yvette Cooper: The level of homelessness revenue funding to local authorities and voluntary sector agencies has increased by 23 per cent. from £60 million in 2004-05 to £74 million in 2007-08, to support them in their work on tackling and preventing homelessness effectively.

No changes have been made to the way funding is allocated to local authorities and voluntary sector agencies.

Homelessness: Greater London

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government how many people were sleeping rough in each London borough *(a)* in each of the last five years and *(b)* the most recent period for which figures area available. [153645]

Mr. Iain Wright: The following table provides a breakdown of the level of rough sleeping in each London borough in each of the last five years. Data is taken from Housing Strategy and Statistical Appendix returns submitted by local authorities.

	2002	2003	2004	2005	2006
Barking and Dagenham	0	0	0	0	1
Barnet	0	0	0	0	0
Bexley	0	0	0	0	0

Households: Greater London

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government what estimate she has made of the average age of household formation by *(a)* males and *(b)* females over the last five years, broken down by London borough. [153570]

Mr. Iain Wright: This information can be provided for England only as a whole.

Estimates of the average age of the main householder when his/her household was formed are set out in the table. The figures include households from all types of housing tenure—owner occupiers, social renters and private renters.

Average age of main householder[1] when he/she formed a new householder when he/she formed a new household

Survey year	Male householder	Female householder
2001-02	28	27
2002-03	29	25
2003-04	29	27
2004-05	28	26
2005-06	28	26

[1] The main householder is the sole owner or tenant. If there are joint owners or tenants then the main householder is the person with the higher income. If the incomes are the same then the older of the two is the main householder.

Survey of English Housing.

Housing

Ms Buck: To ask the Secretary of State for Communities and Local Government how many units of *(a)* social rented housing and *(b)* shared ownership and intermediate housing were (i) projected and (ii) started in each English region in each of the last three years. [115785]

Yvette Cooper: The following table shows the number of starts of sites through the Housing Corporation's affordable housing programme and starter home initiative for social rented housing and low cost home ownership including intermediate housing by region for 2003-04, 2004-05 and 2005-06 and estimated numbers for 2006-7 and 2007-8. Starts on site are projected for each region and reviewed several times in the year.

The timing of developments means that numbers can fluctuate from one year to the next. Plans have been set out in the Housing Green Paper for a substantial increase in affordable housing over the next three years in every region.

Starts on site by region (units)

Source:
Housing Corporation

Housing Corporation: Manpower

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many staff funded by the Housing Corporation are classified as without posts. [152545]

Mr. Iain Wright: On 30 June 2007 there were 14 staff in the Housing Corporation without a permanent post. There is a strategy in place to reduce this number to nil as the year progresses. All staff concerned remain effectively engaged in delivering key objectives set out in The Housing Corporation 2007-09 Corporate Plan.

Housing: Construction

Mr. Meacher: To ask the Secretary of State for Communities and Local Government how many of the 240,000 houses which are planned to be built per year by 2016 she expects to be built by *(a)* the private sector, *(b)* housing associations and *(c)* local authorities in each year until 2016. [150835]

Yvette Cooper *[holding answer 23 July 2007]:* We have published a Housing Green Paper which sets out the Government's plans for the level of affordable housing to be delivered in the years covered by the Comprehensive Spending Review, and the roles of housing associations and local authorities in delivering that.

Alistair Burt: To ask the Secretary of State for Communities and Local Government what the regional distribution is of her plans to increase the building target from 200,000 houses a year to 240,000 a year. [151310]

Yvette Cooper: Government have made clear that improving the supply of housing is a national priority. There is pressure on housing affordability in all parts of the country.

We have today published a Housing Green Paper that sets out further details of our proposals. This includes invitations to local authorities to come forward with proposals for further growth points and views on potential eco-town locations.

The detail of where additional housing will be located is a matter for regional and local planning processes and functions.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many more dwellings will be built on green belt land as a consequence of the increase in building target to 240,000 dwellings a year. [153693]

Hazel Blears: As the Planning White Paper "Planning for a Sustainable Future (Cm 7120)", made clear, and the Housing Green Paper "Homes for the Future (Cm 7191)" confirmed, we are committed to the principles of the Green Belt and will make no fundamental change to Green Belt planning policy, as set out in Planning Policy Guidance note 2.

There remains a general presumption against inappropriate development in the Green Belt. Development in the Green Belt should not be approved except in very special circumstances.

In 2005 less than 1 per cent. of all new dwellings were built on greenfield Green Belt land.

Housing: Cornwall

Andrew George: To ask the Secretary of State for Communities and Local Government how many units of social housing were sold to the private market in *(a)* England and *(b)* Cornwall in the last 12 months. [152105]

Mr. Iain Wright *[holding answer 24 July 2007]:* The numbers of council homes sold through the right to buy scheme in 2005-06 by local authority area can be viewed on the Communities and Local Government website at:

http://www.communities.gov.uk/pub/383/Table648_id1156383.xls

Figures for 2006/07 are not yet available.

Sales of homes owned by registered social landlords are monitored by the Housing Corporation through the continuous recording (CORE) system. Sales by local authority area can be viewed on the CORE web site at:

http://www.core.ac.uk/core/hala-annual-reports.html#geosales

Housing: Energy

Dr. Alasdair McDonnell: To ask the Secretary of State for Communities and Local Government what proportion of homes will require an Energy Performance Certificate to confirm the home's energy efficiency and to indicate its environmental performance by *(a)* 2010 and *(b)* 2020. [150612]

Yvette Cooper: An estimate of the number of energy performance certificates required each year to 2020 is included in the Regulatory Impact Assessment for the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007.

Housing: Flood Control

Justine Greening: To ask the Secretary of State for Communities and Local Government what account is taken of land deemed unsafe to build on due to flooding risk within a larger development plot when calculating planned housing and population densities; and if she will make a statement. [150781]

Yvette Cooper *[holding answer 19 July 2007]:* Planning Policy Statement (PPS) 3 "Housing" requires local planning authorities to identify specific sites which will deliver their housing numbers. In assessing what sites are suitable for inclusion in their plans, local planning authorities will need to consider PPS 25 "Development and Flood Risk" which ensures that flood risk is taken into account at all stages in the planning process to avoid inappropriate development in areas at risk of flooding, and to direct development away from areas at highest risk. Sites which do not meet the requirements of PPS3 and PPS25 should not be considered as suitable for housing use.

Miss McIntosh: To ask the Secretary of State for Communities and Local Government if she will prepare and publish a guidance plan for householders on the action to take in the event of flooding covering *(a)* the use of sandbags, *(b)* the use of skips and *(c)* insurance. [152878]

John Healey: There is already a range of guidance available for householders on the action to take in the event of flooding.

For example, the guide "Preparing for floods" is available from the Planning Portal (www.planningportal.gov.uk) and provides guidance to property owners on how they can improve the flood resistance of their properties. It is also intended for use by developers, local planning authorities and others involved in construction of new buildings, and renovation of existing buildings, at risk of flooding.

The Environment Agency has also produced specific guidance on the use of sandbags with the Local Government Association. However in many cases there are better solutions for protecting domestic properties than sandbags such as floodboards and airbrick covers. Guidance on preparing for flooding and flood protection products is available on the Environment Agency's website

www.environment-agency.gov.uk/subjects/flood.

Following the recent floods we have been working closely with the Association of British Insurers (ABI) and have sent out information to flood affected local authorities on where people can go for free independent advice on insurance matters. Further information is also available on the ABI website (www.abi.org.uk/floodinfo) and the Financial Services Authority website

www.moneymadeclear.fsa.gov.uk.

Looking to the future, on 12 July 2007 the Secretary of State for the Department for Environment, Food and Rural Affairs announced a review to look at how the recent floods were managed and responded to by the Environment Agency, local authorities, the emergency services and others. One of the specific objectives of the review will be

"to ensure the public has as much access as possible to information on the risk of flooding to allow them to take appropriate precautions, be adequately informed on developments as an emergency unfolds, and be looked after properly in the immediate aftermath."

We would expect that proposals on guidance plans for householders in the event of flooding will be considered as part of the review. We aim to publish the initial findings of the review by the end of the year and subsequently a formal Government report.

Housing: Greater London

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government (1) how many homes have been built for key workers in London under the *(a)* intermediate rent, *(b)* homebuy new build and *(c)* mixed funded for sale programmes; how many have been (i) sold and (ii) let under each programme; and what the (A) average and (B) longest time has been that a home in each programme has remained empty; [122392]

(2) what percentage of homes built for key workers in London have been sold to key workers in each year since the inception of key worker homes. [122428]

Yvette Cooper: The Government offer housing assistance to key workers under the Key Worker Living (KWL) scheme in areas experiencing severe recruitment and retention difficulties. Key Worker Living funding is divided between Open Market HomeBuy (equity loans to purchase properties on the open market) and new build products such as New Build HomeBuy (shared ownership of newly built homes) and intermediate rent (newly built homes where the rent is set at a level between that charged by social and private landlords).

The number of newly built homes only available for, and sold or let to, key workers in London since the launch of KWL in 2004 is provided in the following table. We do not have the figures requested on an annual basis.

The table shows that, of the units that had not been sold or let, 58 were under offer from key workers, 608 had been marketed to key workers for less than three months and 170 had been marketed to key workers for between three and six months. It normally takes between three and six months to market and sell a unit. So to date, 67 per cent. of new build homes only available to key workers under Key Worker Living have been sold or let to key workers.

Key Worker Living in London 2004-05 to 2006-07

Programme	*Available for KWs only*	*Marketed for three months or less*	*Marketed for between three to six months*	*Under offer*	*Sold/Let to key workers*
Intermediate rent	980	217	34	4	725
KWL shared ownership (Mixed funded sale)	1,523	391	136	54	941
Total	2,502	608	170	58	1,666

Source: Housing Corporation

Since the introduction of the New Build HomeBuy product in April 2006, we no longer fund specific key worker only schemes. Instead key workers access our New Build HomeBuy programme as a priority group alongside other priorities such as social tenants. Any key worker specific schemes yet to complete will have been funded under old shared ownership programmes.

In addition to the numbers in the table above, we have helped 4,982 key workers in London through our KWL Open Market HomeBuy scheme and 4,168 key workers in London through the Starter Home Initiative (SHI). SHI was the predecessor to KWL and ran from 2001-2004. The majority of SHI completions were as Open Market HomeBuy, with a small number of newly built units that were grant funded via an equity loan for the purchaser.

Since the launch of KWL the Housing Corporation has been collecting data on when the construction of a scheme has been completed and when the final unit has been occupied. The purpose of this data is to actively manage the portfolio of new build properties and take action to prevent long term voids—it does not permit us to produce an average of the time it takes from completion of construction to occupation of individual units.

Responsibility for marketing and sale of the units lies with Registered Social Landlords (RSLs) and Homebuy Agents. The longest period of time that a unit built exclusively for key workers on our intermediate rent and shared ownership schemes has been unoccupied is 12 months and 20 months respectively. The former property remained unoccupied for this amount of time due to delays as a result of prospective tenants dropping out which meant that the property had to be remarketed. The latter property remained unoccupied as a result of legal issues, which were only recently resolved. These were exceptional circumstances and the Department has made clear to RSLs operating the scheme that speedy action needs to be taken when legal or other problems arise.

At present there are no properties available exclusively for key workers that have been unsold for more than six months.

Housing: Hampshire

Mr. Hancock: To ask the Secretary of State for Communities and Local Government how many council owned houses have been built for rent in each *(a)* district and *(b)* unitary council area in Hampshire since 1997. [147871]

Yvette Cooper: There have been no reported local authority dwellings built in Hampshire local authorities and unitary authorities since 1997.

Between 1 April 1997 and 31 March 2006, the following units of affordable housing (social rent and intermediate (e.g. low cost home ownership)) were built or acquired by Registered Social Landlords on behalf of Hampshire local authorities and the unitary authorities of Portsmouth and Southampton.

	1997-98	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*
Portsmouth UA	236	201	190	205	295	153	—	130	304

Source:
Statistical returns from local authorities, Housing Corporation

Housing: Infrastructure

Miss McIntosh: To ask the Secretary of State for Communities and Local Government what requirements for *(a)* road, *(b)* water drainage and *(c)* sewerage infrastructure apply in respect of planning applications for new housing developments. [152877]

Yvette Cooper: General requirements on these matters are set out in planning policy documents issued by Government and by individual local planning authorities. Planning authorities should, in working out where within their areas development should go, discuss with infrastructure providers what standards are needed. This should mean that when plans are adopted they are fully deliverable not only in terms of housing development but also in terms of the supporting infrastructure.

For particular developments the requirements are likely to be arrived at by a process of negotiation, taking account of the particular circumstances. A prospective developer may find it helpful to have pre-application discussions with the local planning authority and to consult the relevant statutory undertakers.

Housing: Inspections

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will name each of the accreditation bodies for *(a)* home inspectors and *(b)* domestic energy inspectors. [152389]

Yvette Cooper: To date three Home Inspectors Certification schemes have been approved, along with nine domestic energy accreditation schemes.

Home Inspectors Certification Schemes; BRE: RICS and SAVA.

Domestic Energy Accreditation Schemes: BRE; EPC Direct; EPC Ltd; Elmhurst; HIeu Ltd; Northgate; Quidos; NES; RICS.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what legal advice her Department has *(a)* commissioned and *(b)* received on home information packs and liability for compensation for home inspectors and energy inspectors. [152422]

Yvette Cooper: The Department does not disclose any legal advice or whether or not it has sought or obtained it due to the fact that it is subject to legal professional privilege.

Housing: Leeds

John Battle: To ask the Secretary of State for Communities and Local Government how many homes were built in each year since 1997 in each Leeds parliamentary constituency, broken down by those built *(a)* to buy, *(b)* to rent privately, *(c)* as part of housing associations and *(d)* by local authorities. [148650]

Yvette Cooper: Information on new house building is collected at local authority level only. The numbers of new homes built in Leeds local authority area are tabulated. It is not possible to distinguish between owner occupied and private rent. The numbers of affordable homes built for Registered Social Landlords are for social rent or intermediate housing (e.g. low cost home ownership). The local authority figures are new build for social rent.

Not all affordable housing supply is through new build completions, supply can also come from the acquisition and refurbishment of private sector homes. Between 1 April 1997 and 31 March 2006 there were an additional 637 affordable homes supplied by Registered Social Landlords, on behalf of Leeds local authority, which are not shown in the table. Figures for 2006-07 are not yet available.

House building completions: Leeds

	All private sector completions[1]	Registered Social Landlord[2] (affordable)	Local authority[1] (social rent)	Total new build completions
1997-98	1,034	404	16	1,454
1998-99	1,196	262	1	1,459
1999-2000	1,698	254	0	1,952
2000-01	1,855	129	0	1,984
2001-02	1,589	339	0	1,928
2002-03	1,748	254	0	2,002
2003-04	2,829	119	0	2,948
2004-05	2,852	271	0	3,123
2005-06	2,821	408	0	3,229

[2] Housing Corporation.

Housing: Low Incomes

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government how many units of accommodation for key workers were *(a)* provided and *(b)* unoccupied in each year for which figures are available. [138752]

Yvette Cooper *[holding answer 22 May 2007]:* The Government offer housing assistance to key workers under the Key Worker Living (KWL) scheme in areas experiencing severe recruitment and retention

difficulties. Key Worker Living funding is divided between Open Market HomeBuy (equity loans to purchase properties on the open market) and new build products such as New Build HomeBuy (shared ownership of newly built homes) and intermediate rent (newly built homes where the rent is set at a level between that charged by social and private landlords).

As at March 2007, 5,845 newly built homes had been made available for key workers only in London, South East and Eastern regions through the Key Worker Living programme, of which 4,577 have been sold/let with a further 268 under offer. Of the 1,000 homes currently being marketed to key workers, 800 of these have been completed only in the last three months and a further 200 homes have been marketed for three to six months. It normally takes between three and six months to market and sell a unit. None of the properties currently available for key workers have remained unsold for more than six months.

The number of newly built homes only available for, and sold or let to, key workers since the launch of KWL in 2004 is provided in the following table. We do not have the figures requested on an annual basis.

Programme	*Available to KWs only*	*Unoccupied (marketed) for three months or less*	*Unoccupied (marketed) for between three and six months*	*Under offer*	*Sold/let to key workers*
Intermediate rent	2,644	231	36	12	2,365
KWL shared ownership (mixed funded sale)	3,201	569	164	256	2,212
Total	5,845	800	200	268	4,577

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) what liability tenants with an equity stake under the Social Homebuy scheme have to meet all or part of the costs of repairs for that dwelling; [145527]

(2) what assessment she has made of the effect on the take-up rate of the Social Homebuy scheme of tenants purchasing an equity stake assuming financial responsibility for all maintenance costs; [145139]

(3) what liability a tenant has for freehold-related maintenance costs if they purchase an equity stake in a leasehold property under the Social Homebuy scheme. [145149]

Yvette Cooper: I refer to the answer given to the hon. Member on 30 April 2007, *Official Report*, column 1518W.

Housing association and local authority tenants who purchase a share in a house are responsible for all repairs and redecoration both internally and externally. Purchasers buying a share in a flat will be responsible for internal repairs and will contribute a share of the costs incurred by their landlord in maintaining the building and common parts. Details are set out in their shared ownership lease.

The Social HomeBuy pilot scheme is running until March 2008 and is subject to an ongoing independent evaluation. Initial indications from early participants are that responsibility for all maintenance may contribute to affordability and sustainability issues, particularly for tenants purchasing smaller shares. The Government are exploring various options for improving affordability for tenants.

Matthew Taylor: To ask the Secretary of State for Communities and Local Government how many affordable homes were built in *(a)* Cornwall, *(b)* the South West and *(c)* England in each year since 1997; and what percentage this represented of all houses built in each area and year. [147703]

Yvette Cooper: Information is not readily available in the format requested.

The numbers of new build completions are shown in table A and the total supply of affordable housing is shown in table B. Since affordable housing provision includes new build and acquisitions they are not directly comparable with the total new build only figures used in this draft and it would not be appropriate to calculate percentages.

Cornwall is defined as the local districts of Caradon, Carrick, Kerrier, North Cornwall, Penwith, Restormel and the Isles of Scilly.

A: Total New Build completions in England, South West and Cornwall local authorities

	1997-98	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*

Statistical returns from local authorities, Housing Corporation

Adam Afriyie: To ask the Secretary of State for Communities and Local Government what plans the Government has to increase the supply of affordable housing in places where the cost of housing is relatively high. [148787]

Yvette Cooper *[holding answer 12 July 2007]:* The Prime Minister has announced plans to raise the annual housing supply target for 2016 from 200,000 to 240,000 additional homes a year.

We have published a Housing Green Paper that sets out further details of our proposals, including Government's plans for the level of affordable housing to be delivered in the years covered by the Comprehensive Spending Review.

The detail of where additional affordable housing will be located is a matter for regional and local planning processes and functions.

Margaret Moran: To ask the Secretary of State for Communities and Local Government if she will hold discussions with church authorities on the potential sale of church land for affordable housing. [149469]

Yvette Cooper: Officials would be happy to enter into discussions with church authorities about the potential for the development of affordable housing on their vacant or surplus sites.

Mr. Hancock: To ask the Secretary of State for Communities and Local Government what steps she is taking to provide regeneration funding to allow local authorities to *(a)* acquire existing and *(b)* build new affordable housing for rent; what recent discussions she has had with the Chancellor of the Exchequer on this subject; and if she will make a statement. [149796]

Yvette Cooper: Proposals to increase the supply of affordable housing were set out in the Housing Green Paper. These include proposals to strengthen the role of local authorities in meeting local housing needs.

Mr. Hancock: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Islington, North (Jeremy Corbyn) of 6 June 2007, *Official Report*, column 535W, on housing: low incomes, if she will *(a)* encourage and *(b)* help facilitate local authorities to increase the number of social rented homes they provide directly; and if she will make a statement. [149950]

Yvette Cooper: Proposals to increase the supply of social rented homes are set out in the Housing Green Paper. These include proposals to strengthen the role of local authorities in meeting local housing needs.

Mr. Spring: To ask the Secretary of State for Communities and Local Government what plans she has to increase the availability of affordable housing in *(a)* Suffolk and *(b)* the East of England. [150540]

Yvette Cooper: In 2006-07 we delivered the following number of affordable homes:

	2006-07	*2007-08*
Suffolk	709	802
East of England	4,373	5,799

The Housing Green Paper set out proposals to increase housing and also affordable housing in every region. Further details of the regional breakdown of investment will be set out later in the year.

Mr. Spring: To ask the Secretary of State for Communities and Local Government how many affordable homes were built in Suffolk in each year since 1997. [150541]

Mr. Iain Wright: The number of new build affordable dwellings built on behalf of Suffolk local authorities since 1997-98 is in the following table. Affordable dwellings are defined as social rent and intermediate housing e.g. low cost home ownership.

	Number of dwellings
1997-98	366
1998-99	250
1999-2000	251
2000-01	297
2001-02	301
2002-03	396
2003-04	363
2004-05	266
2005-06	635

Source:
Housing Corporation

New build registered social landlord and council dwellings only make up part of the affordable supply, the remainder being acquired by registered social landlords. Between 1997-98 and 2005-06, acquisitions by registered social landlords numbered 1,737, taking the total affordable housing provision in Suffolk to 4,862 over the period.

Suffolk is defined as the local authorities of Babergh, Forest Heath, Ipswich, Mid Suffolk, St. Edmundsbury, Suffolk Coastal and Waveney.

Mr. Soames: To ask the Secretary of State for Communities and Local Government what plans she has to increase the availability of affordable housing in the south east. [151784]

Yvette Cooper *[holding answer 23 July 2007]:* We have published a Housing Green Paper which sets out the Government's plans for the level of affordable housing to be delivered in the years covered by the Comprehensive Spending Review.

Regional assemblies will be asked for their advice on housing spending priorities in their areas. This will include levels of spend on different elements of the National Affordable Housing Programme and spatial distribution. This advice will be provided in the context of work which has already been done by the regional assemblies as part of the preparation of Regional Spatial Strategies in their role as regional planning bodies

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government if she will put restrictions on the re-sale of the £60,000 starter homes launched by the former Deputy Prime Minister to avoid profiteering and retain the houses in the affordable homes market. [152275]

Yvette Cooper: The Design for Manufacture competition was run by English Partnerships (EP) on behalf of Communities and Local Government. The aim of the competition was to deliver more than 1,100 high quality, well designed homes on ten publicly owned sites for a construction cost of £60,000 per unit. In order to ensure mixed communities, the homes will provide a mix of accommodation under a variety of tenures: affordable rent, shared ownership and private sale at full market value. The aspiration is to reach 50 per cent. affordable housing of all tenures across the 10 sites, significantly higher than the percentage of affordable housing achieved through section 106 agreements.

The homes for affordable rent will be transferred into the ownership of the registered social landlord (RSL) partnering the preferred developer on each site and will not therefore be offered for sale. The remaining affordable homes will be available for those who qualify for shared ownership arrangements, either through the First Time Buyers Initiative operated by EP or through the Homebuy scheme operated by RSLs. Should the purchaser under the shared ownership arrangements take the decision to sell, EP and the RSL have the right of first refusal to buy back the home. Should they not exercise this right, they would in any case benefit from any uplift in value on the proportion of the equity which they retain when the home is sold on.

The homes for private sale are being sold at full market value and will not therefore be subject to any restriction upon re-sale.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what recommendations from the Cave Review of Social Housing she plans to implement. [152380]

Yvette Cooper: The Government published their response to the Cave Review on 19 June 2007 in "Delivering Housing and Regeneration—Communities England and the Future of Social Housing Regulation".

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many social tenants are eligible for *(a)* social homebuy, *(b)* the right to buy and *(c)* the right to acquire. [152844]

Yvette Cooper: Social homebuy is a voluntary scheme and information on the number of households who are eligible for the scheme is not available. 78 registered social landlords and seven local authorities are currently piloting the scheme. Some landlords are offering the scheme widely across their stock. Others are targeting specific estates, locations or local authority areas.

The right to buy is available to eligible secure tenants of local authorities and registered social landlords (RSLs). The number of dwellings owned and let by local authorities is just over two million. However, no information is available on the number of tenants who are eligible for the right to buy.

Assured tenants of housing associations who were transferred with their homes from local authorities have a preserved right to buy—approximately one million dwellings to date.

Approximately 200,500 RSL tenants may qualify for the right to acquire scheme introduced by the Housing Act 1996 because their homes have been built with public funds since 1 April 1997. Tenants of homes transferred from local authorities after the same date may also qualify for the right to acquire scheme, including those tenants who retain a preserved right to buy.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what her most recent estimate is of the average capital value of a house under the *(a)* social homebuy, *(b)* new build homebuy and *(c)* open market homebuy schemes. [152850]

Yvette Cooper: The average capital value of a house bought under the three homebuy schemes is:

	£
Social homebuy pilots	155,000
New build homebuy	168,789
Open market homebuy	156,510

This is the full value of the property, regardless of the size of the share bought.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many housing starts there were in each local planning authority in England in each of the last three years. [152950]

Mr. Iain Wright: A table showing the number of starts in each local authority in England for the last three years has been placed in the Library of the House.

Figures are based on building control inspections as reported by each local authority on the quarterly P2 return to Communities and Local Government. New build starts as reported by the National House Building Council are added to provide a measure of overall activity. Local authority figures presented are as reported and do not include estimates where local authority returns are missing.

John Penrose: To ask the Secretary of State for Communities and Local Government how many key workers in *(a)* the UK, *(b)* the South West and *(c)* Weston-Super-Mare have received assistance through the Key Worker Living Programme. [153351]

Yvette Cooper: Since April 2004, 15,438 key workers have been helped into a new home through the Key Worker Living (KWL) programme in England. KWL only operates in London, South East and East of England. Therefore, no key workers have received

assistance through the KWL programme in Weston-Super-Mare or the South West of England.

However key workers on low to modest incomes outside the KWL regions can receive help through the Government's wider HomeBuy programme which enables first time buyers to buy a share of a home and get a first step on the housing ladder. We do not hold data centrally on how many key workers have been helped through this route.

John Penrose: To ask the Secretary of State for Communities and Local Government what progress the Government has made towards fulfilling its commitmen: to help 30,000 key workers into home ownership by 2010 through the Key Worker Living Programme as set out by the Office of the Deputy Prime Minister in Sustainable Communities: Homes for All in 2005. [153352]

Yvette Cooper: Since April 2005, we have assisted 10,862 key workers, through the Key Worker Living Programme. We are on track to delivering our commitment to help 30,000 key workers to find a home from 2005 to 2010.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether her Department has guaranteed commercial lenders participating in the Open Market Homebuy scheme against falling house prices. [153687]

Yvette Cooper: The Open Market HomeBuy product which is provided in partnership with lenders, enables purchasers to buy a property on the open market with the help of two 12.5 per cent. equity loans, one from Government and one from a lender. If house prices fall, and the property is sold, the proceeds of the sale are used to firstly pay off the balance of the mortgage and then the value of the lender's equity loan. For three of the participating lenders this will be the original value of the equity loan, as they do not share in a fall in value. For one lender the loan will have fallen in value to reflect the fall in value of the property.

If the house price has fallen dramatically, then the proceeds of the sale may not cover all of these debts. If the proceeds are not sufficient to pay off the lender's conventional mortgage and equity loan then they have 'recourse' to the borrower. This means that the borrower is still in debt to the lender after the property is sold.

Government, however, do not have recourse to the borrower. This means that if there are not sufficient proceeds from the sale, Government are not paid and cannot recover the debt from the borrower. This means that Open Market HomeBuy purchasers are less vulnerable to negative equity than those with a purely conventional mortgage.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what steps her Department and its agencies are taking to lever more private finance into the social housing sector. [153690]

Yvette Cooper: The Government have recently published two documents that set out its plans to lever in more private finance to the social housing sector. First the consultation paper Delivering Housing and Regeneration: Communities England and the future of social housing; and second the Housing Green Paper—Homes for the future: more affordable, more sustainable.

In addition, The Housing Corporation, in their publication "Unlocking the Door: Delivering more homes from the Comprehensive Spending Review 2007", concluded that there is additional financial capacity within the Housing Association sector and scope for efficiency savings. Housing Associations themselves believe that savings that absorb likely land and build cost inflation of 6 per cent. annually are possible over the next three years.

Housing: Overcrowding

Ms Keeble: To ask the Secretary of State for Communities and Local Government when she expects to bring forward proposals for a new statutory definition of overcrowding. [150900]

Yvette Cooper: The Government will set out further proposals on overcrowding later in the year. We have invested over £40 million in London pilot schemes to provide innovative solutions to some of the worst cases of overcrowding and have made the provision of new social housing a priority in the comprehensive spending review.

Housing: Parking

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what changes the Planning Policy Statement has made to the *(a)* minimum and *(b)* maximum amount of car parking allowed in new residential developments. [153605]

Yvette Cooper: Planning Policy Statement 3 (PPS3) does not prescribe car parking standards or limits for residential development. Local authorities should set their own residential parking policies, taking account of expected levels of car ownership, the importance of promoting good design and the need to use land efficiently.

Housing: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government (1) how many properties were *(a)* bought and *(b)* part-bought in (i) the Peterborough city council area and (ii) Peterborough constituency under the Government's Homebuy scheme in each year since 2001; and if she will make a statement; [144065]

(2) how many new affordable houses were built in Peterborough unitary authority area in each of the last five years. [144090]

Yvette Cooper: The following table shows the total number of properties purchased under low cost home ownership schemes in each of the last five years for the area covered by Peterborough city council. This information is not held on a constituency basis.

The shared ownership schemes (currently known as New Build HomeBuy) have allowed applicants buy a share of a property (from 25 per cent. to 75 per cent.)

and pay rent to a housing association on the remaining share which they do not own.

	Shared ownership	*Shared equity*
Peterborough		
2002-03	0	7
2003-04	4	5
2004-05	6	12
2005-06	35	20
2006-07[1]	40	4

[1] Provisional.
Source:
Housing Corporation.

The shared equity schemes (currently known as Open Market HomeBuy) have enabled people to buy a property on the open market with the help of equity loans. Under the current scheme purchasers buy the property outright, but only need to raise around 75 per cent. of the purchase price of their home from a conventional mortgage. The balance is made up by two equity loans, each of around 12.5 per cent. of the purchase price. One loan comes from Government through a HomeBuy Agent and the other comes from one of four mortgage lenders participating in the HomeBuy scheme. For the remainder of 2007-08, we are expanding the range of Open Market HomeBuy products. From 23 July we are offering a new 17.5 per cent. Government equity loan which purchasers will be able to use more flexibly as a deposit and take to any lender on the open market. This will complement the existing products and offer greater choice to purchasers.

The following table shows the total affordable housing in Peterborough including homes for both affordable rent and low cost home ownership (as detailed in the previous table) that have been provided either through new build or acquisition and refurbishment.

	Low cost home ownership	*Affordable homes for rent*	*Total affordable housing provided*
Peterborough			
2002-03	7	82	89
2003-04	9	0	9
2004-05	18	142	160

2006-07[1]	44	67	111

[1] Provisional.

Housing: Prices

Hugh Bayley: To ask the Secretary of State for Communities and Local Government what the ratio was between the average price of a home for first-time buyers and *(a)* average wages and *(b)* average household incomes in each local housing authority area in England at the latest date for which figures are available. [151351]

Yvette Cooper: The information requested cannot be derived by local housing authority due to the sample size of first time buyers (FTBs) from the Regulated Mortgage Survey data. However the ratios between the mean average price of a house for first time buyers and *(a)* mean average wages and *(b)* mean average household incomes at a regional level are presented in the following table for Q1 2007. The usual comparison used by the Government and the National Housing and Planning Advice Unit involves lower quartile earnings compared to lower quartile house prices.

Ratios between the mean average price of a home for first time buyers against (a) mean average wages and against (b) mean average household incomes

Government Office Region	*(a)*	*(b)*
North East	4.3	4.5
North West	4.5	4.4
Yorks and Humber	4.5	4.4
East Midlands	4.6	4.6
West Midlands	4.9	5.0
Eastern	5.8	5.2
London	6.5	7.0
South East	6.0	5.1
South West	6.0	5.4
England	5.6	5.4

Notes:
1. Figures have been derived using: Q1 2007 average house prices for first time buyers from the Regulated Mortgage Survey.
2. Average wages based on the ONS Annual Survey of Hours and Earnings (ASHE) as at April 2006 and up-rated to Q1 2007 using the ONS Average Earnings Index (AEI), average household earnings based on the CLG Survey of English Housing (SEH) for 2005-06 and up-rated to Q1 2007 using the ONS Average Earnings Index (AEI).

Housing: Private Finance Initiative

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will list each housing private finance initiative scheme, by local authority, that her Department and its predecessors have approved since May 1997. [152386]

Yvette Cooper: The Housing Private Finance Initiative schemes approved by the Department since May 1997 are listed by local authority in the following table:

Local authority	*Project name*	*Status*
Ashford Borough Council	Stanhope Estate[1]	Signed 2007-08
Cheshire County Council	Extra Care Housing Project	In procurement
Coventry City Council	New Homes for Old	Signed 2005-06
Derby City Council	Inner City Regeneration Round 3 Additional Social Rented Scheme	Signed 2000-01 in procurement
Kent County Council	Better Homes Active Lives	In procurement
Kirklees Metropolitan Council	Excellent Homes for Life[1]	In procurement
Leeds City Council	Swarcliffe Independent Living[1] Little London[1]	Signed 2004-05 in procurement In procurement
London Borough of Brent	Social Housing and Adult Care	In procurement
London Borough of Camden	Chalcots[1]	Signed 2006-07
London Borough of Croydon	New for Old	Signed 2005-06

Local authority	Project name	Status
London Borough of Hammersmith And Fulham	Homes for Older People	Signed 2003-04
London Borough of Islington	Islington Street Properties 1[1] Islington Street Properties 2[1]	Signed 2002-03 Signed 2006-07
London Borough of Lambeth	Myatts Field[1]	In procurement
London Borough of Lewisham	Brockley[1]	Signed 2007-08
London Borough of Newham	Canning Town[1] Forest Gate[1]	Signed 2005-06 In procurement
Manchester City Council	Ardwick-Plymouth Grove[1] Brunswick Miles Platting[1]	Signed 2002-03 in procurement Signed 2006-07
North East Derbyshire District Council	Holmewood	Signed 1998-99
Oldham Metropolitan Borough Council	Sheltered Housing Gateways to Oldham[1]	Signed 2006-07 in procurement
Reading Borough Council	North Whitley[1]	Signed 2003-04
Sandwell Metropolitan Borough Council	Hawthorns Fields[1]	Signed 2005-06
Selby District Council	Non-HRA PFI Project One	Signed 2003-04
Warrington Borough Council	Anson and Blenheim	Phase 1 Signed 2004-05 Phase 2 Signed 2006-07
West Wiltshire District Council	Round 3 Additional Social Rented Scheme	In procurement

[1] Indicates schemes in the Department's Decent Homes/Mixed Communities PFI Programme.

Decent Homes/Mixed Communities PFI schemes

refurbishment and/or reprovision of existing council stock, including elements of regeneration; properties remain in council ownership and tenants remain tenants of the local authority; and

Additional social rented housing PFI schemes

new build units or the acquisition and refurbishment of non-decent private sector dwellings. In these schemes, the new housing is owned by the PFI contractor (usually a registered social landlord, RSL) not the council.

A further seven schemes are developing outline business cases. If these are approved, they will enter the procurement stage. The local authorities developing outline business cases are as follows:

Guildford borough council—Additional Social Rented scheme

London borough of Lewisham—Chrysalis — Decent Homes scheme

Manchester city council—Collyhurst—Decent Homes scheme

Medway council—Shaws Wood and Woodlands Care Courts—Additional Social Rented scheme

North Tyneside council—Homes for the Future—Decent Homes scheme

Salford city council—Creating a New Pendleton—Decent Homes scheme

Woking borough council—Additional Social Rented scheme.

In addition, there are also two combined heating and power schemes which have been funded through the programme in Manchester city council and London borough of Tower Hamlets.

Housing: Regeneration

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the funding agreement for the 2006-08 period between her Department and each pathfinder scheme. [152555]

Mr. Iain Wright: Copies of the funding agreements for 2006-07 between each pathfinder and the Department have been placed in the Library of the House. Funding agreements for 2007-08 are currently being finalised—when complete, copies of these will also be placed in the Libraries of both Houses.

Housing: Standards

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 20 June 2007, *Official Report*, column 1861W, on housing: standards, if she will *(a)* provide a summary of the outcome of the meeting and *(b)* place in the Library a copy of the minutes of the meeting to which she refers. [149547]

Yvette Cooper: Following the meeting with the Citizens Advice Bureau, it was agreed that further consideration would be given to exploring potential solutions to the issue of retaliatory eviction facing tenants who exercised their statutory rights with respect to repairs being completed in the property they rent.

Ministers' meetings with outside bodies are undertaken on a confidential basis. It is not the Department's practice to disclose the details of what was discussed in such meetings.

Ms Buck: To ask the Secretary of State for Communities and Local Government how many assessments were carried out under the housing health and safety system in 2006-07; and how many properties were assessed as representing a category 1 hazard in *(a)* each local authority area, *(b)* local authority property, *(c)* registered social landlord property and *(d)* private accommodation. [151709]

Yvette Cooper *[holding answer 26 July 2007]:* As the Housing Health and Safety Rating System was implemented in 2006-07, We do not yet have data on assessments of hazards, data will be available in 2007-08.

Bob Spink: To ask the Secretary of State for Communities and Local Government what her response is to the recommendation made by the Williams Commission in its report, Quality First: The Commission on Design of Affordable Housing in the Thames Gateway, that the Planning Inspectorate should send a stronger message to developers and local authorities that low quality in the design of housing schemes is a legitimate basis upon which planning applications should be refused. [152328]

Yvette Cooper *[holding answer 24 July 2007]:* The independent report by the Williams Commission was commissioned by the Housing Corporation. It makes a very valuable contribution to the debate on urban

design and affordable housing. Officials will be considering the recommendations made to Government and discussing them with the Housing Corporation and Planning Inspectorate.

Housing: Sustainable Development

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many assessors are *(a)* qualified and *(b)* in training to give code ratings under the Code for Sustainable Homes; how many assessors are needed to carry out voluntary assessments; how many will be needed to carry out mandatory assessments when the Code becomes mandatory in 2008; and if she will make a statement. [146700]

Yvette Cooper: By the end of June 2007, the Buildings Research Establishment (who administer the scheme and train and accredit assessors) advise us that 432 trained and accredited assessors were available to undertake assessments for the Code for Sustainable Homes (the Code), and that they are training approximately 50 assessors a month and anticipate having approximately 900 assessors in place by April 2008.

The Code involves a two-stage assessment process. At design-stage the different types of homes in a development are assessed rather than each individual home; the post construction check is against a sample of the home-types that have been completed. The Government are consulting on proposals for homes to receive a mandatory rating but not a mandatory assessment. Some homes might therefore have no assessment and simply receive a zero rating or non rating. Therefore, it is not clear yet how many assessors would be needed. If new house building were to be around 165,000 new homes and all of these were assessed against the Code, the existing 432 assessors would need to carry out 51 assessments each a year. Based on the current growth assessor numbers the estimated 900 assessors available in April 2008 would need to carry out about 25 assessments each a year. These figures are based on the average development size, and the number of different types of properties on each development. In the past year one assessor has completed 60 assessments and registered a further 350 against the Code or its predecessor Ecohomes. These issues will be considered further as part of the consultation.

Housing: Valuation

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 26 June 2007, *Official Report*, column 633W, on housing: valuation, whether a property with a greenhouse may be assigned a higher financial valuation than an identical property without a greenhouse. [152680]

John Healey: There is no answer under the head "Housing: Valuation" of 26 June 2007, *Official Report*, column 633W. I refer the hon. Member to the answer given on 26 June 2007, *Official Report*, column 641W.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Meriden (Mrs. Spelman) of 19 June 2007, *Official Report*, column 1677W, on housing: valuation, whether a greenhouse is included in the generic classification of outbuilding. [152681]

John Healey: A standard greenhouse would not be classified by the Valuation Office Agency as an outbuilding.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many dwellings have had their individual property records updated by the Valuation Office Agency using information from the Rightmove.co.uk database in the last month. [152831]

John Healey: I refer the hon. Member to the answer given on 26 June 2007, *Official Report*, column 630W, to the hon. Member for Surrey Heath (Michael Gove).

Housing: Warrington

Helen Jones: To ask the Secretary of State for Communities and Local Government, whether any Government-owned sites in Warrington have been identified as suitable for the provision of social or low-cost housing; and whether any discussions have taken place with other agencies about whether any sites they own could be released for housing provision. [150711]

Mr. Iain Wright: Three surplus public sector sites in Warrington are on the Register of Surplus Public Sector land. They are:

the former Police Training Centre, Bruche, owned by the Home Office/National Police Improvement Agency;

a small piece of land in Delenty Drive, owned by the local PCT; and

former railway/ viaduct land owned by British Railways Board (Residuary) Ltd.

Of these, the Bruche site has been identified as having the potential for housing development. English Partnerships is taking forward discussions with the Home Office over its purchase to enable the provision of housing including affordable homes. English Partnerships has also discussed the former railway land with the British Railways Board (Residuary) Ltd. Following these discussions, two other surplus sites have been identified recently which are currently being assessed for housing potential.

After considering the Delenty Drive site with the primary care trust, English Partnerships and Warrington borough council have ruled out its potential for housing development because of its size.

English Partnerships is also examining the results of the second round competition for the First Time Buyers' Initiative for further housing development opportunities in Warrington. The competition closed on 16 July and is aimed at developing potential First Time Buyers' Initiative schemes on current or former public sector land.

Further discussions are continuing with all central Government Departments and their agencies about bringing forward more land for housing development.

INTERREG Programme

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether her Department is the lead Government Department for the EU's INTERREG programme. [153683]

Hazel Blears: Communities and Local Government is the lead Government Department for the EU's INTERREG programme.

Land: Databases

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether residential gardens are included in the typology of previously developed land for the National Land Use Database. [153519]

Yvette Cooper: The typology for previously-developed land used in the National Land Use Database of Previously-Developed Land (NLUD-PDL) comprises vacant and derelict sites, and sites in use which the local authority has identified as possibly available for redevelopment. It includes residential as well as other land, however there is an optional minimum threshold of 0.25 hectares and therefore it generally does not include small sites.

Local Area Agreements

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what plans she has to change the arrangements for local area agreements. [152852]

John Healey: The Local Government White Paper "Strong and Prosperous Communities" put local area agreements (LAAs) at the heart of the new performance framework for local government.

From 2008 new LAAs will be the only means by which central Government can agree targets for those outcomes delivered by local government alone or in partnership, drawn from the new national indicator set.

Further information on the new arrangements for LAAs can be found in the publication "Developing the future arrangements for Local Area Agreements" on the Communities and Local Government website at:

http://www.communities.gov.uk/index.asp?id=1506327.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment she has made of the reasons for the time taken for signing off local area agreements. [152937]

John Healey: New local area agreements will cover the period April 2008 to March 2011 in line with the new public service agreement (PSA) framework. Targets in the new agreements will be drawn from the national indicator set to be published following the Comprehensive Spending Review 2007 in the autumn.

Local Government Executive: Referendums

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many referendums have been held on whether to have a directly-elected mayor under the Local Government Act 2000. [152550]

John Healey: There have been 34 such referendums in England and one in Wales.

Local Government Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the revenue grant to local authorities was, excluding education funding, in each year since 1997-98. [152830]

John Healey: Formula grant, which comprises Revenue Support Grant, redistributed business rates, principal formula Police Grant, SSA Reduction Grant (SSA Review), SSA Reduction Grant (Police Funding Review) and Central Support Protection Grant, where appropriate, is an unhypothecated block grant i.e. authorities are free to spend it on any service. This, together with the method of calculating the distribution to authorities, particularly floor damping, means that it is not possible to say how much grant has been provided for any particular service such as education.

The following table shows the amount of formula grant provided to all local authorities since 1997-98. Prior to 2006-07, the services covered by formula grant included schools; from 2006-07 onwards support for schools has been funded through the Dedicated Schools Grant. The table therefore also shows the total amount of Dedicated Schools Grant provided to authorities in 2006-07 and 2007-08.

£ million

	Current year's Formula Grant)	*Dedicated Schools Grant*	*Total*
1998-99	35,436.867	—	35,436.867
1999-2000	37,110.829	—	37,110.829
2000-01	38,516.380	—	38,516.380
2001-02	40,024.446	—	40,024.446
2002-03	40,323.132	—	40,323.132
2003-04	43,894.370	—	43,894.370
2004-05	46,124.222	—	46,124.222
2005-06	49,015.925	—	49,015.925
2006-07	24,813.914	26,573.838	51,387.752
2007-08	25,633.008	28,031.350	53,664.358

Please note that it is not possible to compare these data directly due to transfers in funding and function.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how much funding is being provided to each participating budget pilot area; and what the source of this funding is. [152851]

John Healey: According to data from the local authorities concerned, the funding which has been available for allocation under participatory budgeting

in pilot areas, and its source, is set out as follows. This funding covers more than one financial year:

Area	*Funding source*	*Amount (£)*
Bradford	Neighbourhood Renewal Fund	779,531
	Safer and Stronger Communities Fund	309,967
Newcastle	Neighbourhood Renewal Fund	260,507
Sunderland	New Deal for Communities in East End and Hendon	130,000
	New Deal for Communities (including re-profiled funds)	23,000,000 (of which 2,350,000 was re-profiled.)
	East Area Committee, Local Authority Funding	20,000
Salford	Local Authority Transport capital programme, "other minor works" funding devolved to Claremont and Weaste Community Committee	100,000
Manton	Neighbourhood Management Pathfinder	50,000
Lewisham	Neighbourhood Renewal Fund	37,500
	Local Authority core funds (spending priorities for these funds to be decided in September)	7,500

The funding to be available for allocation in the remaining four areas is being agreed.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether councils taking part in the participatory budget pilots are receiving additional funding from central Government. [152921]

John Healey: No. However the Department sponsors the Participatory Budgeting Unit, a Third Sector project managed by the Church Action on Poverty, which is involved in the pilots. A grant of £210,000 over three years from 2004 to 2007; and an additional £30,000 for this current year until March 2008, have been awarded by the Department for funding the Unit's core costs.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many of the pilots taking part in the participatory budget pilots were already engaged in participatory budgets prior to the recent announcement by her Department. [152936]

John Healey: Five of the participatory budgeting areas identified by the Secretary of State earlier this month were already engaged in the pilot process.

Local Government Services: Inflation

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what index is used to calculate inflation in relation to the costs of providing local authority services. [152549]

John Healey: In common with other Government Departments, Communities and Local Government uses the HM Treasury Gross Domestic Product (GDP) Deflator to measure money changes in real terms.

Local Government: Cumbria

Tim Farron: To ask the Secretary of State for Communities and Local Government what representations she has had from the Better Government for Cumbria Group on Cumbria County Council's unitary bid. [151444]

John Healey *[holding answer 23 July 2007]:* We received representations from the Better Government for Cumbria Group on 25 January, 28 March and 22 June 2007. These were taken into account before we announced our decisions on which proposals should proceed towards implementation in my statement on 25 July 2007, *Official Report*, column 68WS.

Local Government: Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what her Department's budget limit is for unitary local government bids. [152372]

John Healey: We made it clear in the Invitation to Councils, published in October 2006, that all proposals will need to be self-financing and central Government will accept no liability for any miscalculation or cost overrun in the final outturn.

Local Government: Flags

Bob Russell: To ask the Secretary of State for Communities and Local Government what guidance she has given to local authorities on the flying of the Union flag on a daily basis at council offices; and if she will make a statement. [150111]

Margaret Hodge: I have been asked to reply.

Local authorities can decide for themselves when they wish to fly the Union Flag. However, as some choose to follow Government guidance, we have updated the flag flying section of the DCMS website (www.culture.gov.uk/flagflying) and informed the Local Government Association. This follows the announcement by the Secretary of State for Culture, Media and Sport allowing all UK Government Departments to have the freedom to fly the Union Flag when they wish while the Department carry out a consultation on altering the flag flying guidance.

Local Government: Grants

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what proportion of local government revenue expenditure, excluding education, was financed by specific grants in each year since 1997-98. [152511]

John Healey: The percentage of local government revenue expenditure financed by specific grants in England in each year since 1997-98 and the estimated figures for 2006-07 and 2007-08 are in the following table.

The table is produced on a non-Financial Reporting Standard (FRS17) basis to 2003-04 and on an FRS17 basis from 2003-04 onwards. The main implication is that the costs of entitlements to retirement benefits

(pensions) in FRS17 are accounted for in the year in which employment gives rise to the entitlement, rather than the year in which cash payments of contributions or pensions take place. On an FRS17 basis revenue expenditure is now financed by appropriations from pension reserves, in addition to appropriations from other reserves, revenue support grant, redistributed non-domestic rates, police grant and council tax.

	Proportion excluding education	*Percentage Proportion including education*
Non-FRS17 basis		
1997-98	5	4
1998-99	6	5
1999-2000	6	5
2000-01	7	8
2001-02	9	11
2002-03	13	14
2003-04	—	18
FRS17 basis		
2003-04[1]	—	17
2004-05[1]	—	77
2005-06[1]	—	17
2006-07[1]	—	44
2007-08[1]	—	44

[1] Most specific grants are allocated to particular service areas. However, there are a number of specific grants which can fund a variety of services. The increasing proportion of such grants means that, from 2003-04, it is no longer possible to give accurate figures for specific grants by service block.

Source:

Communities and Local Government Revenue Outturn (RO) returns 1997-98 to 2005-06. Communities and Local Government Revenue Account (RA) Budget returns 2006-07 to 2007-08.

The large change in specific grant from 2006-07 onwards is largely due to changes in the way the expenditure on schools is funded. Local authorities now receive dedicated schools grant, included in specific grants, replacing funding previously included in formula grant.

The definition of local government revenue expenditure used here is that expenditure funded from Aggregate External Finance (AEF), council tax and authorities' reserves. AEF is central Government revenue funding that comprises formula grant (revenue support grant, redistributed business rates and police grant), general Greater London Authority (GLA) grant and specific grants inside AEF, i.e. revenue grants paid for council's core services. The specific grants used here are the specific grants inside AEF.

Comparisons across years may not be valid due to changing local authority responsibilities.

Local Government: ICT

Dr. Starkey: To ask the Secretary of State for Communities and Local Government (1) what steps she is taking to promote best practice among local authorities in using mobile and wireless technology to facilitate more efficient working and public service delivery; and if she will make a statement; [153520]

(2) what steps she is taking to address the technical and cultural barriers which constrain the use of ICT and mobile technology in local government. [153523]

John Healey: The Regional Improvement and Efficiency Partnerships are tasked with promoting efficiency and improvement among councils in their area. They undertake a range of activities to address barriers through such means as dissemination of good practice.

In addition, the Department has created a national project on mobile working (NOMAD) as part of the local e-government programme. NOMAD www.projectnomad.org.uk, which is owned now by Cambridgeshire county council, is a centre of excellence established specifically to promote mobile and flexible working in local services, receiving contributions from both commercial suppliers of mobile technologies, and many local authorities.

Dr. Starkey: To ask the Secretary of State for Communities and Local Government (1) if she will make a statement on the potential of mobile technology and ICT in local government to meet efficiency savings identified in the Gershon Review; [153522]

(2) what assessment has been made of the costs and benefits of mobile and wireless technology in local government and service delivery; and if she will make a statement. [153524]

John Healey: The benefits guide to the Project Nomad e-government project (www.projectnomad.org) estimates potential savings from that project of the order of £54 million with an additional value added of £170 million. Other activities, such as those supported by the Regional Improvement and Efficiency Partnerships will also have a role to play in enhancing efficiency through these means.

Local Government: Pay

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will make a statement on the implications of the GMB *v.* Allen case in Middlesbrough on single status. [152623]

John Healey: I cannot comment on a case which is currently under appeal.

Local Government: Reform

Mrs. Lait: To ask the Secretary of State for Communities and Local Government when her Department will announce which unitary council and local government restructuring bids should be implemented in the first wave of such restructuring. [152672]

John Healey: I refer the hon. Member to my written statement of 25 July 2007, *Official Report*, columns 68WS.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the representations from the Chief Secretary to the Treasury to her Department on the costs of local government restructuring. [152944]

John Healey: It is not Government policy to release cabinet committee correspondence.

Local Government: Standards

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what plans her Department has to consult local authorities on the 200 performance indicators which will be included in the new local government performance framework. [152840]

John Healey: The Comprehensive Spending Review which is currently under way will shape the new national indicator set for local government. Departments have been consulting key stakeholders, including local authorities and representative organisations where appropriate, on their proposals for Public Service Agreements, Delivery Agreements and associated indicators.

The national indicator set for local government will be announced alongside the Comprehensive Spending Review in the autumn. We plan to consult local authorities on the detailed definitions of indicators following this announcement.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Birmingham, Yardley of 13 June 2007, *Official Report*, column 1073W, on local government: standards, which local authorities in each Government Office region have public service agreement or local area agreement targets which relate to children being placed in care, other than adoptions; what the targets are in each case: and how much funding each local authority will receive if it achieves these targets. [153537]

John Healey: No local authorities currently have local public service agreement (LPSA) or local area agreement (LAA) reward element targets in relation to the numbers of children they look after. Only one local authority has ever had a target relating to children being placed in care as part of its LPSA or LAA reward element. In its first round LPSA Kent county council (Government Office of the South East Region) chose to include a local target to "reduce the total number of children looked after by KCC (bearing in mind the individual needs of the children and the involvement of the courts".

The target Kent county council negotiated related to their performance in March 2004, and to improve from an anticipated 1,300 children looked after down to 1,200 children looked after. KCC achieved this target and received £2.1 million in performance reward grant from Government.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many improvement targets for councils will be *(a)* established via local area agreements and *(b)* included in her Department's plans. [153691]

John Healey: From 2008, local area agreements (LAAs) will be the only place where improvement targets can be established with local authorities for outcomes they deliver alone or in partnership. Baroness Andrews set out the Government's position on the number of improvements targets during the passage of the Local Government and Public Involvement in Health Bill on 16th July 2007:

"We expect LAAs to contain up to 35 improvement targets and 18 statutory education and early years targets." [*Official Report, House of Lords*, 16 July 2007, Vol. 694, c. 95]

These targets will be drawn from the single set of around 200 national indicators for local government which will be published following CSR07, and which will reflect the priorities of all Departments. Targets in LAAs will vary between localities. They will be dependent on the outcome of negotiations between Local Strategic Partnerships and the Government offices representing central Government.

Local Government: Working Hours

Dr. Starkey: To ask the Secretary of State for Communities and Local Government what percentage of local authorities have implemented *(a)* flexible working practices and *(b)* mobile working. [153521]

John Healey: The information requested in not held centrally. The adoption of modern work practices is a common theme of the published Local Authority Annual Efficiency Statements, which can be viewed on the departmental website at www.communities.gsi.gov.uk

Mr. Robert Adewumni

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to improve internal audit and the scope for internal fraud following the conviction of Mr Robert Adewumni for fraud in the Civil Resistance Directorate of the Office of the Deputy Prime Minister. [153637]

Hazel Blears: Communities and Local Government's internal audit had before this case, and continues to have, a continuous improvement programme to ensure that modern and effective audit practices are in place. Within internal audit there is a separate fraud section with appropriately trained staff. They are fully acquainted with the Fraud Act, the Proceeds of Crime Act, etc. The section assists the Department in building a culture of fraud awareness and prevention.

In the Adewumni case the internal audit acted to investigate and find the level of the fraud, and to provide advice to management on necessary improvements. In this case there was a lack of compliance with laid down systems of control. Internal audit has further enhanced its compliance reviews as a result of this fraud. The Department improved its guidance for its managers and made some changes to processes Action was also taken to enhance financial/HR processes. This will reduce the risk of fraud through improving processes for prevention and detection.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the estimated net loss to the public purse was of the fraud perpetrated by Mr. Robert Adewumni in the Office of the Deputy Prime Minister; and what steps are being taken to recover losses from Mr. Adewumni's overseas bank accounts. [153636]

Hazel Blears: The estimated loss was £867,200.

Robert Adewumni was sentenced to four years imprisonment in March 2006 for theft of money from Communities and Local Government (Office of the Deputy Prime Minister). Since then the Department, the police and Crown Prosecution Service have been working towards retrieving the stolen funds. A Confiscation Hearing was held at Southwark Crown court on 22 June 2007.

Mr. Adewumni was further charged with Contempt of Court at this Hearing. This charge was for breaking a Restraining Order issued in May 2005. In particular this related to failure to repatriate assets, transferring of assets and failure to declare assets. He pleaded guilty to this charge and was sentenced to a further 18 months imprisonment.

An order was made for repayment of £414,867 to Communities and Local Government (CLG) within six months from the date of the hearing. Failure to meet the repayment in full will result in a further three year prison sentence to run consecutively (following on from the Contempt of Court sentence).

A further order was also made against Tami Adewumni, his wife, that she should repay £23,437, also within six months, failing which she will receive an additional 12 month prison sentence.

The figures for repayment include all known assets including bank accounts held outside of this country. Police investigations have explored a number of overseas lines of inquiry, including "gifts" to friends and relatives, companies in the British Virgin Islands and the US, and an account in Nicosia, Cyprus.

Non-Domestic Rates

Tom Brake: To ask the Secretary of State for Communities and Local Government how much was raised in business non-domestic rates by each local authority in the last year for which figures are available; and how much of that total was returned to each local authority. [150248]

John Healey: I have placed a copy of the information requested for local authorities in England in the Library of the House.

Non-Domestic Rates: Valuation

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 25 June 2007, *Official Report*, column 174W to the hon. Member for Brentwood and Ongar (Mr. Pickles) on non-domestic rates: valuation, who produced the feasibility study. [152528]

John Healey: The Valuation Office Agency.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar of 25 June 2007, *Official Report*, column 174W, on non-domestic rates: valuation, if she will place in the Library a copy of the first phase feasibility study report. [152535]

John Healey: This is an interim report forming part of a feasibility study by the Valuation Office Agency, to investigate the viability of developing additional computer assisted rental analysis for the preparation of the 2010 Non Domestic Revaluation. Release of the findings into the public domain at this time would be prejudicial to the further research and development of this computer-based tool.

Ordnance Survey

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the Ordnance Survey's targets are for use of 15cm high-resolution pictometry oblique imagery across England. [152820]

Mr. Iain Wright: Ordnance Survey has a commercial agreement with BLOM Aerofilms Limited to act as an authorised reseller of Pictometry data of Great Britain.

It is a matter for BLOM Aerofilms Ltd. to determine for which areas of England coverage of the product is made available, based on customer demand, and acquisition of the data, and on other commercial considerations. It is for customers of the product to determine uses within their businesses. Ordnance Survey does not use Pictometry within its own business processes.

Owner Occupation

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what her Department's target is for increasing the level of home ownership. [152845]

Yvette Cooper: 'Homes for the Future', launched on 23 July outlines the Government's plans for delivering new homes. We are taking urgent action to meet growing demand and address the serious issue of housing affordability. Our new target will deliver 240,000 additional homes a year by 2016.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the *(a)* conclusions and *(b)* outputs were of the Office of the Deputy Prime Minister's Home Ownership Task Force. [152948]

Yvette Cooper: The Home Ownership task force published its report, "A Home of My Own", in November 2003. A copy is available on the Housing Corporation's website.

The task force looked at the routes into low cost home ownership and made recommendations for an increase in the supply in all types of housing, both market and social housing. It also proposed a number of detailed improvements to low cost home ownership schemes and the provision of better information and advice to individuals.

A copy of the report and the Government's full response to the 45 recommendations is available on the Communities and Local Government website.

The majority of the recommendations were accepted in full by the Government and taken forward in the

Housing Act 2004 and in the development of the homebuy scheme, which commenced in April 2006, as well as more generally.

On 23 July we published a Housing Green Paper which sets out our continuing support for the low cost home ownership programme.

Partnerships: Thames Gateway

Mr. Amess: To ask the Secretary of State for Communities and Local Government who the partners in the Thames Gateway project were in each year since its inception; and what the budget for support for partners was in each year. [149745]

Yvette Cooper: The following table details support funding for Thames Gateway Local Regeneration Partnerships.

This funding has supported the creation and delivery of nine local regeneration partnerships in the Thames Gateway, including two urban development corporations, each tasked with co-ordinating the delivery of the Thames Gateway Programme at a local level. These funds have directly funded staff costs, project development, development briefs, and feasibility studies for key sites and initiatives.

In some cases they also contribute to project management of crucial projects such as the Fastrack bus-transit system in Kent Thameside and Rochester Riverside development in Medway.

These costs are part of a larger programme of investment by my Department, currently some £672 million (2003-08), which we have invested in a range of projects including brownfield remediation, economic development, education, health and greenspace. This long-term programme is set to achieve the delivery of 160,000 new homes and 180,000 new jobs and lever in some £38 billion of private investment in the next 15-20 years.

Total support amounted to:

		£
	Capital	*Revenue*
2003-04	104,801	481,624
2004-05	2,047,340	3,424,927
2005-06	4,761,635	8,759,744
2006-07	3,185,155	10,654,158
Total	10,098,211	25,093,971

							£
			2003-04	*2004-05*	*2005-06*	*2006-07*	*Total*

[1] Resource consumption figures do not include notional cost of capital and writedown charges for land held by the UDCs.

Planning Permission

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what advice *(a)* her Department, *(b)* regional government offices and *(c)* the Planning Inspectorate have given to local planning authorities who are preparing their local development framework on the process by which supplementary planning guidance and design brief documents previously issued by the authority can be saved either as a supplementary planning document or as a design brief which will continue to have weight in determining planning applications. [152952]

Yvette Cooper: Local planning authorities are being advised that supplementary planning guidance and design briefs are still capable of remaining a material consideration in the determination of planning applications and appeals provided that the policies in local plans on which they are based remain in force. There is no need to save them as supplementary planning documents (SPDs).

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what guidance has been given to local authorities on making submissions from the public on individual planning applications open to public inspection. [153715]

Hazel Blears: We have issued no guidance on the point. For the sake of fairness and transparency, we urge local planning authorities to make comments from third parties open to inspection wherever possible. This helps applicant and authority to understand why aspects of a proposal give rise to objection, and adds to efficiency in the planning system. However, there is no legal duty to make representations public, unless (with certain exceptions) a letter of comment forms part of a planning officer's report to Committee or the background papers to the report.

A local authority should always have regard to the Data Protection Act: the decision on what to disclose is one for the individual authority.

Planning: Appeals

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many planning appeals have so far been considered and ruled on by the Planning Inspectorate in relation to planning applications for residential development under the new Policy Planning Statement 3 regime. [153503]

Yvette Cooper: The following table gives information on the number of planning appeals concerning residential development determined by the Planning Inspectorate for the period since the introduction of PPS3 in November 2006 until June 2007.

	Number/percentage
Total decided	5,428
Number allowed	1,610
Number dismissed	3,818
Percentage allowed	30

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what targets were set for processing of planning and enforcement appeals between April 2006 and March 2007; and what such targets have been set since April 2007. [153697]

Mr. Iain Wright: The Inspectorate's targets are the same for both periods requested and are set out as follows:

Key performance targets 2006-07 and 2007-08—England

Proposals for 10 or more dwellings

1. To open all hearings within 20 weeks of the start date of the case.

2. To issue 80 per cent. of decisions within 10 weeks of the close of the hearing.

3. To open all inquiries within 20 weeks of the start date of the case

4. To issue 80 per cent. of decisions within 10 weeks of the close of the inquiry.

Planning appeals and called in planning applications decided by the Secretary of State

5. To open 80 per cent. of inquiries and hearings within 22 weeks of the start date of the case.

6. Jointly with Planning Central Casework Division/Ministers, to issue all decisions in accordance with statutory timetables.

Planning and enforcement appeals decided by Inspectors by the written representations method

7. Planning appeals: By the end of 2006-07 to determine 50 per cent. of planning appeals decided by written representations within 16 weeks of the start date of the case.

8. Enforcement appeals: 80 per cent. of enforcement appeals decided by written representations to be determined within 32 weeks of the start date of the case.

Planning and enforcement appeals decided by Inspectors by the hearing method

9. Planning appeals: By the end of 2006-07 to determine 50 per cent. of planning appeals decided by hearing within 30 weeks of the start date of the case.

10. Enforcement appeals: 80 per cent. of enforcement appeals decided by hearing to be determined within 33 weeks of the start date of the case.

Planning and enforcement appeals decided by Inspectors by the inquiry method

11. Planning appeals: By the end of 2006-07 to determine 50 per cent. of planning appeals decided by inquiry within 30 weeks of the start date of the case.

12. Enforcement appeals: 80 per cent. of enforcement appeals decided by inquiries to be determined within 43 weeks of the start date of the case.

Key performance targets 2006-07 and 2007-08—Wales

13. 80 per cent. of all planning appeals decided by written representations to be determined in 16 weeks.

14. 80 per cent. of all planning appeals decided by hearings to be determined in 22 weeks.

15. 80 per cent. of all planning appeals decided by inquiries to be determined in 30 weeks.

16. 80 per cent. of all enforcement appeals decided by written representations to be determined in 32 weeks.

17. 80 per cent. of all enforcement appeals decided by hearings and inquiries to be determined in 43 weeks.

18. For called-in applications and recovered appeals to meet the individual timetable set for delivery of the report to the National Assembly (seven weeks up to eight inquiry sitting days; agreed timetable for larger cases).

Planning: Floods

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to take account of the risk of flooding in the formation of its planning policy. [152669]

Yvette Cooper: In December 2006 we published Planning Policy Statement (PPS) 25 "Development and Flood Risk" to strengthen protection against flood risk in the planning system.

We extended the Environment Agency's statutory consultee role so that it now has to be consulted on planning applications in flood risk areas (The regulation came into force on 1 October 2006).

A planning Direction supports PPS25, providing greater scrutiny for major developments proposed in flood risk areas. Where local authorities intend to approve applications that the Environment Agency still objects to, Government Offices can consider whether to call the application in for decision by the Secretary of State.

PPS25 is available at:

http://www.communities.gov.uk/index.asp?id=1504639

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what representations her Department has received from the Environment Agency on planning regulations and guidance on development on flood plains. [153507]

Yvette Cooper: The Environment Agency is a key stakeholder on flood risk issues as it has statutory responsibility for flood management and defence in England and will support the planning system by providing timely information and advice on flooding issues that is fit for purpose. Officials have worked very closely with the Environment Agency in developing Planning Policy Statement 25 Development and Flood Risk (published December 2006). We are continuing to work closely with the Environment Agency on the development of the Practice Guide Companion to PPS25 which will be published later this year.

As part of the monitoring by the Environment Agency and Local Government Association of the planning process we have taken forward recommendations to strengthen the role of the Environment Agency. We have made them a statutory consultee (from October 2006) for all developments in flood risk areas and also introduced a flooding Direction 2007 which allows call-in to be considered if the Environment Agency sustains an objection to a development on flood risk grounds.

Property: Photographs

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 25 June 2007, *Official Report*, columns 177-8W to the hon. Member for Brentwood and Ongar, on property: photographs, if she will provide the information given in the answer as at July 2007. [152529]

John Healey: As at 3 July 2007 there were 23.68 million domestic properties entered in the council tax valuation lists in England and Wales. Photographs were attached to 3.2 per cent. of the 22.34 million domestic properties in England and 10 per cent. of the 1.34 million domestic properties in Wales.

Public Sector Relocation Independent Review

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Meriden (Mrs. Spelman) of 19 June 2007, *Official Report*, column 1679W, on the Public Sector Relocation Independent Review, which Government departments and agencies which sent written submissions to the Lyons Inquiry into local government which are held by her Department. [152682]

John Healey: The final report of the Lyons Inquiry into Local Government provides, on pages 376 to 388, a list of organisations and members of the public that provided submissions to the Lyons Inquiry.

Regional Assemblies

Tom Brake: To ask the Secretary of State for Communities and Local Government what recent discussions she has held with the regional assemblies on their future role and responsibilities; and if she will make a statement. [150563]

John Healey: I refer the hon. Member to the oral statement I made to the House on 17 July 2007, announcing the publication of the Review of Sub-national Regeneration and Economic Development. The Review sets out the Government's proposals for the future of regional institutions, including regional assemblies.

Regional Government

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what support her Department expects to provide to the Ministers for the Regions. [152392]

John Healey: The role of Regional Ministers is set out in paragraphs 115 to 118 in "The Governance of Britain" and is currently being developed. At present, support is being provided by their departmental private offices and the Government offices in their respective regions as part of their wider functions.

Regional Government: Local Authorities

Daniel Kawczynski: To ask the Secretary of State for Communities and Local Government what plans she has to return powers held by the regional assemblies to local councils following the abolition of the regional assemblies. [152303]

John Healey: Local authorities will be given greater power and flexibilities to promote economic well-being; and regional development agencies will be expected to delegate funding to them wherever possible.

There will however remain matters that need to be dealt with at a level beyond even the largest local authority, be that sub-regional or regional.

The Government will consult further later this year on how to implement these reforms.

Regional Planning and Development

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what her role is in approving and amending regional spatial strategies published by *(a)* the Greater London Authority and *(b)* the regional chambers in England. [152947]

John Healey: Following the examination in public, the Secretary of State is responsible for consulting on any proposed changes before approving and issuing the final version of the regional spatial strategy (RSS). Once published, the RSS becomes the regional level of the statutory development plan.

The Mayor of London is responsible for publishing the Spatial Development Strategy "The London Plan" (which is the equivalent to an RSS). The Secretary of State has no role in approving the Spatial Development Strategy. The Secretary of State can direct the Mayor to make changes to the plan before it is published, but this power of direction may only be exercised for the purpose of avoiding inconsistency with national policies or any detriment to the interests of an area outside Greater London.

The SNR published on 17 July set out the Government's proposals for strengthening regional governance and accountability including the introduction of a single regional strategy. We will consult on detailed implementation later this year.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what plans the Government have to merge regional spatial strategies with regional economic strategies. [153495]

John Healey: The Review of Sub-National Economic Development published on 17 July 2007 set out the Government's proposals to merge regional spatial strategies with regional economic strategies. We will consult further on how to implement these reforms.

Richmond Park

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will bring forward legislation to protect the viewing corridor of the Tower of London from Richmond Park. [153712]

Mr. Iain Wright: No. The Tower of London is not currently visible from Richmond Park.

Right to Buy Scheme

Mrs. Lait: To ask the Secretary of State for Communities and Local Government (1) what the average Right to Buy discount in England was for a house in each year since 1996-97; [153498]

(2) what the average sales price was of a Right to Buy house, before any discount was applied, in each year since 1996-97. [153499]

Mr. Iain Wright: The average right to buy discounts and sale prices of social rent dwellings, in England, in each financial year since 1996-97 are shown in the following table. Information for 2006-07 is not yet available.

Right to buy sales[1] of social rent dwellings: England (estimated average per dwelling)

£

	Local authority sales			*Registered social landlord sales*		
	Market value	*Sale price*	*Discount*	*Market value*	*Sale price*	*Discount*
1996-97	40,677	20,566	20,110	48,101	23,873	24,228
1997-98	42,123	21,303	20,819	49,162	24,461	24,701
1998-99	45,492	22,614	22,878	51,457	25,129	26,328
1999-2000	48,935	25,324	23,631	53,216	26,945	26,271

Thames Gateway: Finance

Mr. Amess: To ask the Secretary of State for Communities and Local Government how much public money was given to Thames Gateway project in each year since its inception. [149679]

Yvette Cooper: Billions of pounds are spent each year in the Thames Gateway through mainstream budgets such as education, health, transport, regional development agencies and local government. In addition, targeted funding to help facilitate additional homes and jobs is funded through the Department for Communities and Local Government Thames Gateway programme as follows:

£ million

	Programme resource consumption	*Programme capital*	*Total spend*
2003-04	2.254	38.436	40.690
2004-05	6.901	136.448	143.349
2005-06	12.600	143.792	156.392
2006-07	16.564	118.344	134.908
2007-08 (Projected)	23.000	155.000	178.000

Thurrock Development Corporation

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government (1) if she will make a statement on the progress made since its inception by the Thurrock Urban Development Corporation; what key decisions it has taken since the answer of 20 July 2005, *Official Report*, columns 1773-4W, on Thurrock Development Corporation; and what the latest timetable is for its future work programme; [145922]

(2) if she will make a statement on the work of the Thurrock Development Corporation since the answer of 19 April 2006, *Official Report*, column 111W, on the Thurrock Development Corporation. [145923]

Yvette Cooper *[holding answer 26 June 2007]*: Since April 2006, the Thurrock Thames Gateway Development Corporation has continued to implement its land acquisition programme with the acquisition of two sites in West Thurrock and south east Thurrock. The Development Corporation has determined over 100 planning applications, 53 of which have given planning permission for 670 new dwellings and employment developments that on completion will deliver 1,850 new jobs.

In addition, the Development Corporation has sought to improve its engagement with stakeholders and is leading the sustainability block of the Thurrock Local Strategic Partnership and the economic development block of the Local Area Agreement. The Development Corporation established a community fund which offers grant of up to £20,000 to non-profit making clubs and other organisations to encourage and promote voluntary and community development and improve the quality of life for local residents and communities.

The Development Corporation will continue this activity and will deliver the remainder of the capital programme identified in the Two Year Corporate Plan 2006-07 to 2007-08. A timetable for a future work programme will be taken once the outcome of the Comprehensive Spending Review is known and in the light of the proposals in the Corporate Plan they are preparing for financial years 2008-09 to 2010-11.

Travelling People

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how the Housing and Regeneration Bill is proposed to implement the European Court of Human Rights' ruling on Travellers. [152938]

Mr. Iain Wright: The provisions in the Housing and Regeneration Bill to implement the European Court of Human Rights ruling in the case of 'Connors *v.* United Kingdom' are currently under consideration. In the consultation on "The Governance of Britain—the Government's Draft Legislative Programme", published on 11 July 2007, the Government outlined its draft legislative programme for the next session of Parliament. The Housing and Regeneration Bill was listed as one of the proposed Bills, and we intend to use this Bill to legislate on the Connors judgment. The final legislative programme will be confirmed in the Queen's Speech in the autumn.

Unitary Councils: Exeter

Nick Harvey: To ask the Secretary of State for Communities and Local Government what assessment she has made of the level of stakeholder support for Exeter's proposal to become a unitary authority. [153473]

John Healey: The Department's assessment against all five criteria, including the cross section of support from partners and stakeholders, is set out in Exeter city council's decision letter of 25 July 2007. This is available on the Department's website:

http://www.communities.gov.uk/index.asp?id=1509144

Valuation Office

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what data was taken from the National Register of Social Housing by the Valuation Office Agency (VOA) to supplement and validate the VOA's records as referred to in the answer of 21 June 2006, *Official Report*, column 1877W, on the Valuation Office Agency. [152540]

John Healey: No data was taken from the National Register of Social Housing other than a list of addresses of properties on the National Register, which was supplied to the VOA, in electronic format, on 2 March 2005.

Valuation Office: Contracts

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Meriden (Mrs. Spelman) of 20 June 2007, *Official Report*, column 1863W, on the Valuation Office: contracts, whether the future payments by the Valuation Office Agency to Rightmove for the duration of the existing contracts are fixed. [152427]

John Healey: Further payments are subject to an established ceiling within the duration of the contract and to any arrangements for variation or extension of the contract.

Valuebill Database

Mrs. Lait: To ask the Secretary of State for Communities and Local Government which Government departments and agencies *(a)* have and *(b)* will have access to the Valuebill database and interface. [153509]

John Healey: The Valuebill national project promoted the close alignment of pre-existing property databases within the Valuation Office Agency and Billing Authorities, and developed standards for the interfaces. No Government departments or agencies other than VOA have access to those interfaces. Full details are available from www.londonconnects.gov.uk/valuebill.cfm

Wilkinson Star

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what meetings she and her predecessor had with *(a)* Wilkinson Star Ltd and *(b)* Peninsula Business Services Ltd in the last 12 months. [152521]

Mr. Iain Wright: The Secretary of State for Communities and Local Government has had no meetings with Wilkinson Star Ltd. or Peninsula Business Services Ltd. in the last 12 months.

Youth Organisations: Hampshire

Sandra Gidley: To ask the Secretary of State for Communities and Local Government what funding her Department provides to support *(a)* youth councils and *(b)* other youth organisations in Hampshire. [151043]

Kevin Brennan: I have been asked to reply.

The Government do not set a budget for local authorities to spend on specific youth-related organisations or youth councils, and do not collect this information. Local authorities decide how funding should be deployed in their areas, taking into account Government policy and local needs. For 2007-08, Hampshire local authority reported that they intended to allocate a budget of £8,281,500 for youth services. The Department is currently validating this figure and it is therefore subject to change.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Bob Russell: To ask the Secretary of State for Children, Schools and Families what representations he has made to local education authorities on the establishing of city academies; and if he will make a statement. [152922]

Jim Knight: Local authorities are key partners in the development of academies, and my Department works closely with local authorities on the development of academy projects and the organisation of secondary provision in their areas more generally.

The Department's academies prospectus for sponsors and local authorities states that, as a broad rule of thumb, the Government are prepared to consider any secondary school where fewer than 30 per cent. of pupils gained five or more good GCSEs (including English and Maths) as a potential academy project. It also states that local authorities should always consider an academy as an option for dealing with a school in special measures, or subject to an improvement notice, whatever its results.

Academies: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what recent estimate he has made of funding per head for pupils in *(a)* academies and *(b)* all secondary schools in 2007-08; and if he will make a statement. [150699]

Jim Knight: For the financial year 2007-08 the average revenue funding per pupil at academies is £5,966 excluding any payments made by or through local authorities. The budget share for an academy is calculated using the funding formula for the local authority in which it is situated. Sixth form funding is calculated using the Learning and Skills Council formula.

Since 2006-07 secondary schools have been funded by the Dedicated Schools Grant (DSG). The DSG is distributed through a single guaranteed unit of funding per pupil so a split between primary and secondary funding is not available.

In 2007-08 the national average DSG allocation was £3,888 per pupil for nursery, primary and secondary school aged pupils. Additional revenue grants were £571 per pupil, making a total of £4,459 per pupil.

The revenue grants figure is provisional and does not include grants allocated by the Learning and Skills Council (LSC).

The academies figure is not comparable with that for maintained schools because it includes 16+ funding; and most academy pupils are of secondary age whereas the DSG figure is for pupils aged three to 15. Furthermore, most academies have high levels of deprivation and this increases their funding level per pupil.

Adoption: Standards

Tim Loughton: To ask the Secretary of State for Children, Schools and Families which local authorities have received payments from central Government for achieving adoption target levels; and how much each received in each of the last three years. [151067]

John Healey: I have been asked to reply.

30 local authorities have been rewarded for successfully achieving adoption targets in their local public service agreements (LPSA). The better outcomes and amount of 'performance reward grant' (PRG) each has received over the three years 2004/05 to 2006/07 in relation to their performance in these targets is set out in the following table. In addition, 13 local authorities did not achieve the adoption targets in their local PSA and hence received no PRG for this target. One local authority is still to make a claim

Local PSAs—which are negotiated between local authorities and central Government policy departments, facilitated by the DCLG—have helped to incentivise local authorities and partners to provide better public services to their citizens around priorities for improvement locally. Evaluation shows they have been successful in doing this, with real benefits in improved outcomes for local people and communities.

Local PSA adoption and placement targets: payments made to date under local PSAs

Local authority	*Amount of 'reward grant' paid (£)*
Barnsley Metropolitan Borough Council	210,173.00
Blackburn with Darwen	307,367.00
Bristol City Council	307,512.00
Buckinghamshire County Council	526,958.00
Bromley (LB)	499,440.00
Camden (LB)	318,916.50
Cheshire County Council	685,134.00
Doncaster Metropolitan Borough Council	578,333.00
Durham County Council	502,675.00
Enfield (LB)	244,963.00
Essex County Council	2,469,200.00
Gloucestershire County Council	612,209.00
Greenwich (LB)	580,996.00

Local PSA adoption and placement targets: payments made to date under local PSAs

Local authority	*Amount of 'reward grant' paid (£)*
Halton Borough Council	153,938.00
Hampshire	1,675,619.00
Hounslow (LB)	165,019.00
Kensington and Chelsea (LB)	339,117.00
Kent County Council	2,156,583.00
Lewisham (LB)	602,854.00
Liverpool City Council	347,404.00
Luton Borough Council	400,027.00
Manchester City Council	984,877.00
Merton Borough Council	358,708.00
Northamptonshire County Council	1,119,115.00
Sheffield City Council	1,025,000.00
Southwark (LB)	435,242.00
St. Helens Metropolitan Borough Council	83,845.00
Wandsworth (LB)	387,627.00
Warwickshire County Council	231,061.00
York City Council	203,620.00

Asylum

Alan Simpson: To ask the Secretary of State for Children, Schools and Families what the evidential basis was for the statement in the Care Matters White Paper that 95 per cent. of asylum claims are rejected. [152953]

Beverley Hughes: The evidence basis for the statement in the Care Matters White Paper regarding the percentage of negative decisions made on asylum claims from UASC was sourced from the Immigration Research and Statistics Service which is available from the Home Office website in two different formats.

1. National Statistics:

Statistics on UASC applications are published as part of the quarterly asylum bulletin. Statistics on UASC are also available in the annual asylum bulletin.

The most up to date data on the outcome of UASC asylum claims can be found on page 10 (point 12) of the Asylum Statistics United Kingdom 2005, these statistics show that the numbers of UASC granted refugee status or humanitarian protection (HP) is very low (five per cent. in 2005). This document is available via the following link. The 2006 annual publication, and Q2 2007 quarterly publication will be published on August 21.

http://www.homeoffice.gov.uk/rds/immigration1.html

2. Management Information:

The management information report is produced quarterly and contains more detailed statistics on UASC. This report can also be sourced from the same website link as before.

Bishops Park College

Mr. Carswell: To ask the Secretary of State for Children, Schools and Families if he will place in the Library copies of the correspondence between his officials and Essex local education authority on the decision to build Bishops Park college in Clacton. [153377]

Jim Knight: This information could be obtained only at a disproportionate cost to the Department.

Building Schools for the Future Programme

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families (1) pursuant to the answer of 16 July 2007, *Official Report*, column 90W, on the Building Schools for the Future programme, whether the recommendations of the review have been implemented; [153609]

(2) pursuant to the answer of 16 July 2007, *Official Report*, column 90W, on the Building Schools for the Future programme, for what reason HM Treasury was a joint commissioner of the review. [153610]

Jim Knight: The reports and other associated documentation following joint Prime Minister's Delivery Unit (PMDU) reviews are confidential advice to Ministers and are not put into the public domain. This includes terms of reference and other documentation connected with the substance of the review. The action plan to address the recommendations of the review is an ongoing piece of work.

Building Schools for the Future Programme: Private Finance Initiative

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 July 2007, *Official Report*, column 92W, on Building Schools for the Future (BSF): private finance initiative, how much funding from his Department's capital budget was spent on the BSF schools already built in each financial year, broken down into expenditure on newly built and refurbished schools and the seven new-build BSF schools that are under construction. [153647]

Kevin Brennan: BSF schools which are complete were funded as part 5 of a "Quick Wins" initiative. Funding from the capital budget for these projects is shown in the following table.

£ million

	2004-05	*2005-06*	*2006-07*
New build	4.5	10.8	0.4
Remodelled/ refurbished	3.5	6.5	1.3
Total	8.0	17.3	1.7

There are currently 30 new build schools under construction. Of these, 23 are being procured through the private finance initiative scheme and so will not receive any funding until the schools open. Capital funding of £18 million was provided to authorities in 2006-07 to meet milestone payments for those conventionally funded new build schools currently under construction.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 July 2007, *Official Report* column 92W, on Building Schools for the Future (BSF): private finance initiative (PFI), how his Department decides whether BSF schools will be procured as part of PFI schemes. [153648]

Kevin Brennan: The procurement strategy for BSF projects is determined on value for money grounds. Local authorities are required to carry out a detailed options appraisal which considers different procurement and funding methods for the schools in a project using both quantitative (discounted cash flow) and qualitative analysis, in accordance with HM Treasury's 'Value for Money Assessment Guidance' of November 2006.

Children and Family Court Advisory and Support Service: Accountability

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families what the principal responsibilities are of Children and Family Court Advisory and Support Service support workers. [150869]

Kevin Brennan: This is a matter for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the Chief Executive, has written to the hon. Member with this information and a copy of his reply has been placed in the House Library.

Children and Family Court Advisory Support Service: Appeals

Mike Wood: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effectiveness of the Children and Family Court Advisory Support Service's self-regulated appeals procedures. [152736]

Kevin Brennan: This is a matter for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the chief executive, has written to the hon. Member with this information and a copy of his reply has been placed in the House Library.

Letter from Anthony Douglas, dated 25 July 2007:

I am writing to you in response to the Parliamentary Question that you tabled recently:

152736—To ask the Secretary of State for Children, Schools and Families, what assessment he has made of the effectiveness of the Children and Family Court Advisory Support Service's self-regulated appeals procedures.

Cafcass current complaints procedures provide for a review process in relation to all decisions made in response to service users complaints. An important part of the complaints procedures rests with the problem solving stage in which Cafcass makes every effort to understand the service users complaint, to address it and to respond to it. Cafcass has mechanisms for learning from those complaints and ensuring that lessons learnt from them are applied to its practice.

Independent scrutiny of the application of Cafcass complaints procedures is provided by the Parliamentary and Health Service Ombudsman, who, on request, will consider any complaint that Cafcass has not operated its complaints procedures in a fair and reasonable way.

In 2006 the former DfES produced new guidance and standards for complaints procedures for Non-Departmental Public Bodies (NDPBs) and Local Authorities to put in place for children's services. On publication of the DfES guidance, Cafcass undertook an examination of its own complaints procedures as a direct comparison against those advised by the DfES Guidance. In December 2006 this comparative report was presented to the Cafcass Board Task Group on complaints procedures, which decided in principle that Cafcass should begin work on a revised complaints procedures that builds on the strengths of its current procedures whilst meeting the standards set down by the DfES guidance, unless in any specific respect there were clear reasons related to the nature of the work of Cafcass not to do so.

In particular, the Cafcass Board made the decision that Cafcass complaints procedures should be revised to meet the requirements laid down within the DfES guidance in two respects:

1. For the services of independent observers to be employed to oversee the progress of complaints investigations, in order to guarantee the process in terms of fairness and reasonableness.

2. To include a final appeal process involving a panel of independent people.

As a consequence Cafcass is currently in the process of redrafting its complaints procedures to meet these standards of independence as well as other aspects of the DfES guidance.

A copy of this reply will be placed in the House Library.

Children: Day Care

Sarah Teather: To ask the Secretary of State for Children, Schools and Families (1) how many people have participated in level 3 to 5 childcare training since the inception of the Transformation Fund; and if he will make a statement; [152687]

(2) how many *(a)* recruitment incentives, *(b)* quality premiums and *(c)* home grown graduate incentives have been paid from the Transformation Fund for child care; and at what cost; [152688]

(3) how much each local authority has received from the Transformation Fund since its inception. [152794]

Beverley Hughes: The Transformation Fund was introduced in April 2006 as a time-limited initiative to test out approaches to improving the qualifications of the early years workforce in the private, voluntary and independent sectors and to raise standards in the provision of early education and child care. Its particular focus has been to initiate action directed at ensuring all full day care settings are led by a graduate, through the availability of a quality premium, a recruitment incentive and, since December 2006, a home grown graduate incentive. It has also supported broader upskilling of the workforce to raise the numbers of staff qualified at Level 3, 4 and 5 as well as to train staff to work with children with additional needs.

The Department does not collect data on the number of people who are participating in Level 3 to 5 training via the Transformation Fund. However, based on returns from local authorities, over 18,000 settings (including over 4,200 childminders) have received support through the Transformation Fund for one or more of the five eligible strands identified above.

According to returns from local authorities, as of March 2007:

(a) 428 full day care settings received the Recruitment Incentive at a cost of £1,218,218;

(b) 1,152 full day care settings received the Quality Premium at a cost of £4,506,676; and

(c) 282 full day care settings received the Home Grown Graduate Incentive at a cost of £448,608 (this element started in December 2006).

The following table sets out out-turn data for 2006-07 based on the unaudited financial statements received to date from local authorities.

Transformation Fund expenditure 2006-07 based on local authorities unaudited financial statements as at July 24 2007

[1] These local authorities have still to submit returns and therefore notional expenditure has been shown which is based on an assumption of same spend rate as the 134 local authorities that have submitted statements.

Class Sizes

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average class size was in *(a)* primary and *(b)* secondary schools in each (i) Government region and (ii) local education authority in each of the last five years. [151174]

Jim Knight: The information requested has been placed in the House Library.

Further information on class sizes can be found in SFR 16/2007 'Pupil Characteristics and Class Sizes in Maintained Schools in England, January 2007 (Provisional)', which was published on 26 April 2007. This publication is available in the Library and on the Department's website here:

http:/www.dfes.gov.uk/rsgateway/DB/SFR/s000726/index.shtml

Departments: Affairs

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 July 2007, *Official Report*, column 94W, on departments: affairs, what the value and purpose was of each payment by his Department to Atkins (formerly WS Atkins) as part of the Academies Programme since 2001. [153618]

Kevin Brennan: The value of the payments made to Atkins as part of the Academies Programme for each financial year since 2001-02 to date is shown in the following table.

The payments were made for an advisory service on capital project design and other support services for the academies programme.

Financial year	*Total paid (£)*
2001-02	45,645
2002-03	556,658
2003-04	1,207,456
2004-05	2,013,071
2005-06	2,860,574
2006-07	2,825,659
2007-08	[1]739,292

[1] Up to 26 July 2007

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Children, Schools and Families how much was spent by his Department and its predecessor and its agencies on the hire of mobile air conditioning units in each of the last five years. [151977]

Kevin Brennan: The Department for Children, Schools and Families or its predecessor has spent no money on the hire of mobile air conditioning units in the five years to April 2007.

Departments: Common Purpose

Philip Davies: To ask the Secretary of State for Children, Schools and Families how much his Department paid to Common Purpose in each of the last five years; for what purpose; and what the outcome of the expenditure was. [147609]

Kevin Brennan: The former Department for Education and Skills concluded a contract in September 2004 for £28,800 and April 2005 for £22,900 with Common Purpose to provide challenging and diverse learning experiences for future leaders. Participants were able to research and explore how the Department's policies impacted "on the ground" in relation to the Department's Five Year Strategy, and gain a greater appreciation of how Government policies were interpreted and implemented by service deliverers in public, private and voluntary/community sectors and the constraints facing different organisations.

In addition Common Purpose South Yorkshire currently has free use of a small accommodation unit in the Sheffield site of the Department for Children, Schools and Families.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many and what proportion of staff in his Department and its

predecessor took early retirement in the last five years, broken down by grade; and at what cost. [148741]

Jim Knight: The information is not available in the form requested and could be provided only at disproportionate cost.

In the former DFES, there have been voluntary early severance and retirement releases. For the 2002-03 financial year to the end of the 2006-07 financial year, the total number and cost for such releases from the former DFES were as follows:

Financial year	*Number of early releases (from former DFES)*	*Total cost (to former DFES) (£ million)*
2002-03	57	5.57
2003-04	28	2.54
2004-05	332	17.1
2005-06	204	15.1
2006-07	156	10.55

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how much was spent by his Department on flowers in the last 12 months. [153262]

Kevin Brennan: The Department did not commit any expenditure on flowers in the last 12 months.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Children, Schools and Families which Bills in policy areas for which his Department is responsible introduced in the last five years contained sunset clauses; and what plans he has for the future use of such clauses. [151836]

Kevin Brennan: The following table sets out the Acts, introduced by the Department's predecessors in the last five years which contained sunset clauses:

Act	*Section*	
Education Act 2002	2(7)	Power to suspend statutory requirements etc.
Children Act 2004	47	Expiry of powers in sections 45 and 46
Safeguarding Vulnerable Groups Act 2006	16(6)	Exceptions to requirement to make a monitoring check

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Dr. Cable: To ask the Secretary of State for Children, Schools and Families which Bills introduced by his Department and its predecessors in areas within his Department's responsibility in the last five years did not contain sunset clauses; and if he will make a statement. [152493]

Kevin Brennan: The following Acts, introduced by the Department's predecessors in the last five years did not contain sunset clauses

Education Act 2005

Education and Inspections Act 2006

Children and Adoption Act 2006

Departments: Marketing

Sarah Teather: To ask the Secretary of State for Children, Schools and Families how much has been spent on replacing the former Department for Education and Skills with his Department including introducing a new corporate identity; and how much he expects total expenditure on transition to be. [147619]

Kevin Brennan *[holding answer 4 July 2007]:* The costs of setting up the Department for Children, Schools and Families are expected to be met within existing departmental budgets.

Departments: Pay

Mrs. May: To ask the Secretary of State for Children, Schools and Families how many bonuses were awarded to senior civil servants working at his Department and its agencies in each year between 1997 and 2006; and what the total cost of those bonuses was. [146426]

Kevin Brennan: The Department for Children, Schools and Families was formed in June 2007 from parts of the former Department for Education and Skills (DfES), which was itself formed in 2001.

Information is available for all senior civil servants in the former DfES for the years 2005/06 and 2004/05, and is shown in the following table. The Department had no agencies.

	Number of bonus awards made to senior civil servants in DfES	*Total cost of the bonuses awarded (£)*
2004/05	98	506,039
2005/06	96	627,303

There is no information available for previous years.

David Simpson: To ask the Secretary of State for Children, Schools and Families how many non-pensionable bonuses were awarded to members of staff in his Department in the last three years; and at what total cost. [146989]

Kevin Brennan: Information for Executive Assistant to Grade 6 bonus payments received in 2006-07 is not yet available. Members of the senior civil service will not receive their bonus payments until November 2007.

For Department's (formerly the DfES) most up to date information, I refer the hon. Member to the reply my predecessor gave on 8 November 2006, *Official Report*, column 1706W.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in

each of the last five years; and what the reasons were for the use of other commercial delivery services. [150444]

Kevin Brennan: The former Department for Education and Skills (DfES) sent, between 1 June 2006 and 31 May 2007, 1,472,641 items of correspondence from its Head Office post rooms via the Royal Mail. Volumes for the preceding four years could be supplied only at disproportionate cost. The former DfES did not use any other commercial delivery services for its correspondence.

Departments: Publicity

David Simpson: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the cost effectiveness of advertising commissioned for policy areas within his Department, including relevant campaigns commissioned by its predecessor in the last 12 months. [148512]

Kevin Brennan: In 2006-07, the former Department for Education and Skills spent these amounts on advertising as part of integrated information campaigns:

	£000
Student finance	2,476
Adult basic skills	1,805
Teenage pregnancy	1,534
Child care recruitment	405

All of these were evaluated against targets for response (calls to a campaign telephone number or hits on a website). The first three, where the advertising spend was more substantial, were additionally evaluated through independent customer research which tracked the campaign impact against its objectives, measuring levels of customer awareness and exploring shifts in attitude and behaviour among the target audience. Additionally, £0.045 million was spent on an advertising insert targeting the children and young people's work force, which was not evaluated due to the size of the advertising spend.

All departmental advertising is bought on our behalf by the Central Office of Information (COI), which is able to use its purchasing power to negotiate significant discounts, ensuring that our advertising budgets are cost effective in the amount of media they purchase. In 2005-06; the most recent year in which records are available, COI achieved cost savings for Government clients of 44.1 per cent. against industry benchmarks.

David Simpson: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the cost effectiveness of advertising commissioned by his Department and the former Department for Education and Skills in areas within his Department's responsibility in the last 12 months. [148685]

Kevin Brennan: I refer the hon. Member to the answer given on 2 August to parliamentary question 148512.

Departments: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his Department's targets are; what the performance was against each target at the most recent date; which targets have been *(a)* dropped and *(b)* amended in the last 24 months; and if he will make a statement. [152278]

Kevin Brennan: With regard to the Spending Review 2004 PSA targets which my Department is responsible for, I refer the hon. Member to the reply given on 19 July 2007, *Official Report*, columns 531-32W. Performance against these PSA targets is set out in the former Department for Education and Skills' 2007 departmental report (CM 7092). Two of my Department's PSA targets have been amended since the 2004 Spending Review: PSA target 1 (children's communication and social and emotional development); and PSA target 2 (the use of formal child care by lower-income families).

Departments: Training

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how much was spent by his Department on *(a)* staff training and *(b)* communication training in the last 12 months. [153255]

Jim Knight: Costs for staff and communication training for the former DfES are available from 1 July 2006 to 30 June 2007 in the following table:

Budget	*Cost (£)*
Communications training	49,204
Learning and Development	2,259,991

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Children, Schools and Families how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151660]

Ed Balls: Details of overseas visits by officials over the last seven financial years are set out in the following table.

Financial year	*Numbers of visits*	*Cost (£)*
2001-02	226	138,964
2002-03	375	240,768
2003-04	423	197,297
2004-05	398	167,675
2005-06	455	251,630
2006-07	405	251,328

In respect of overseas travel by Cabinet Ministers, since 1999, the Government has published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be

published before the summer recess. All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Education: Disabled

Mr. Brady: To ask the Secretary of State for Children, Schools and Families if he will include educational attainment as a criterion for the national indicator for disabled children's services. [153571]

Kevin Brennan: The Government committed to develop a national disabled children's indicator as part of a Public Service Agreement in the report 'Aiming high for Disabled Children' (May 2007). The report outlines some of the issues to be considered in developing the indicator and we expect the indicator to be finalised later in the year.

The Government are also agreeing a national indicator set for local government, which will include many of the indicators that will be used to measure progress at a national level on the Public Service Agreements over the Comprehensive Spending Review 2007 period. This set will include indicators related to educational attainment and will be finalised later in the year.

Education: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of school lessons were judged by Ofsted as unsatisfactory in each reporting period since 1993-94; and if he will make a statement. [149886]

Kevin Brennan: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Library.

Free School Meals

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many pupils in each *(a)* local education authority and *(b)* in each type of school received free school meals and came from single parent homes in each of the last 10 years. [151210]

Jim Knight: The requested information is not collected centrally.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many children were *(a)* entitled to and *(b)* received free school meals in each year from 2002-03 to 2006-07; and if he will make a statement; [152141]

(2) how many free school meals have been served in each year from 1990-91 to 2006-07 in *(a)* primary and *(b)* secondary schools; and what the total (i) primary and (ii) secondary school population was in each year. [152144]

Kevin Brennan: Information on the quality, availability and uptake of school meals generally is not held centrally. However, information on free school meals for maintained nursery, primary and secondary schools for January 2007 is contained in the following table:

	Maintained nursery and primary	*Maintained secondary*
School population	4,149,600	3,273,500
Number entitled to free school meals	659,100	429,900
Number receiving free school meals	544,300	314,700
Those receiving free school meals as a proportion of school population	13.1	9.6

Figures for earlier years are not readily available.

Also, figures from the School Food Trust's 2006 annual survey of school meals take up in England showed that take up of school meals in 2005-06 was 42.3 per cent. in primary schools and 42.7 per cent. in secondary schools. Findings from the 2007 survey will be available in August.

Head Teachers: Early Retirement

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many head teachers took early retirement in each of the last three years. [153349]

Kevin Brennan: The information is not available.

Higher Education: East Sussex

Mr. Waterson: To ask the Secretary of State for Children, Schools and Families how many students from *(a)* Eastbourne and *(b)* East Sussex were allocated university places in each year since 1997. [151372]

Bill Rammell: I have been asked to reply.

The number of entrants to higher education institution in the UK for each year since 1997/98 are given in the following table.

Number of entrants[1] to undergraduate courses from East Sussex local authority and Eastbourne constituency—UK higher education institutions[2]—academic years 1997/98 to 2005/06

Academic year	*Eastbourne constituency*	*East Sussex local authority*
1997/98	595	3,565
1998/99	645	3,880
1999/2000	670	3,920
2000/01	650	3,805
2001/02	660	3,975
2002/03	710	4,265
2003/04	740	4,115
2004/05	780	4,155
2005/06	790	4,370

[1] Covers students on full-time and part-time modes of study.
[2] Exclude the Open University.
Note:
Figures are on a snapshot basis as at 1 December (excluding those writing up, on sabbatical or dormant) for comparability and are rounded to the nearest five.
Source:
Higher Education Statistics Agency (HESA)

Higher Education: Finance

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how much funding per *(a)* undergraduate and *(b)* postgraduate student the Government provided to (i) the University of York and (ii) York St. John University in each year since 1997. [152197]

Bill Rammell: I have been asked to reply.

The information requested can be found in the following tables, however it is not possible to provide a comparable time series as the changes in the funding models vary from year to year. Information prior to 1998-99 is not available on a similar basis to the later years and has therefore been shown in separate tables.

Literacy: Teaching Methods

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what use his Department plans to make of the voluntary and community sector in delivering personalised learning and one-to-one tuition in English in the Making Good Progress pilot areas; and if he will make a statement. [153621]

Kevin Brennan: Reading mentors are an invaluable resource for many schools in supporting children to read well. The Department is currently providing funding to Volunteer Reading Help (VRH)—a charitable organisation which recruits, trains and places volunteers to give one-to-one help twice a week to children aged 6-11 years who find reading a challenge. Currently VRH has around 2,000 volunteer readers working with around 5,000 children.

In the 'Making Good Progress' pilot, each pilot local authority will be responsible for making arrangements for delivering tuition including overseeing the recruitment of suitable tutors, who must be qualified teachers, and organising locations for the tuition to take place. We know that some local authorities are liaising with community groups who have offered venues for tuition.

The wider picture is that over £1 billion has been invested in personalised learning by 2007-08, Our guidance to schools indicated that our priorities for the funding were: to support intervention and catch-up provision for children who have fallen behind in English and maths; to support the education of gifted and talented learners; and to help learners from deprived backgrounds to access after school and year-round activities. It is for schools to decide how to use this money to provide more tailored support for their pupils.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what delivery partners his Department will work with to deliver one-to-one tuition in reading and literacy in *(a)* Making Good Progress pilot local authorities and *(b)* other local authorities in England; and if he will make a statement; [153625]

(2) how one-to-one tuition for low-attaining pupils will be delivered under the Making Good Progress pilots; who will deliver this tuition; and if he will make a statement. [153626]

Kevin Brennan: In the "Making Good Progress" pilot one-to-one tuition will be an out of school hours programme of up to 10 hours of individual tuition in English and/or mathematics. Tutors will liaise with the class teacher to ensure that the tuition that they offer meets the needs of the child and is closely tied in to the work that the child is doing in class. Each pilot local authority will be responsible for making its own arrangements for delivering tuition, including overseeing the recruitment of suitable tutors, who must be qualified teachers, and organising locations for tuition to take place.

We are now in the third and final year of the "Every Child a Reader" pilot, funded by a collaboration between the DfES, KPMG Foundation and other charitable trusts. The pilot is helping 5,000 six-year-olds with significant learning difficulties to learn to read. It does this by placing specialist literacy teachers into schools to provide intensive one-to-one or small group support to children most in need. Results from the first year of the pilot showed that children made well over four times the normal rate of progress. As a result, a national roll-out will begin from 2008-09 benefiting over 30,000 children a year by 2011.

Ofsted: Operating Costs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the running costs of Ofsted were in each year from 1992-93 to 2006-07; what

Ofsted's planned running costs are in 2007-08; and if he will make a statement. [149082]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Library.

Primary Education: Finance

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families (1) how much funding the *(a)* business sector and *(b)* voluntary sector has committed to the Every Child a Reader programme, broken down by financial year; [153354]

(2) how much funding the *(a)* business sector and *(b)* voluntary sector is expected to commit to the Every Child a Reader programme in each financial year until 2010-11; [153355]

(3) how much has been set aside for the Every Child a Reader programme in each of the years covered by his Department's Comprehensive Spending Review settlement announced in the Chancellor of the Exchequer's 2007 Budget; [153365]

(4) how much has been spent on the Every Child a Reader programme in each financial year since its inception. [153366]

Kevin Brennan: Contributions from business-led charitable funders to the three year Every Child a Reader pilot are approximately £1.25 million in 2005-06, £1.85 million in 2006-07 and £2.35 million in 2007-08. The 2007 pre-Budget report announced that the ECAR programme would be rolled out nationally from 2008-09, benefiting 30,000 children a year by 2010-11. We are in discussions about the funding of the national roll-out and no decisions have yet been taken.

Taking into account the Department's contribution to ECAR, a total of £10 million has been spent on the pilot since its inception in 2005-06. Broken down by financial year, this equates to approximately £1.5 million in 2005-06, £4 million in 2006-07 and £4.5 million in 2007-08.

In addition, over the three years of the ECAR pilot 2005-08, the KPMG Foundation has contributed administrative costs at £500,000 and the Department has funded the Institute of Education £1.2 million to support the national and local training infrastructure.

Primary Education: Literacy

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many children *(a)* have participated in the Every Child a Reader programme in each financial year since its inception and *(b)* are expected to participate in the Every Child a Reader programme in each financial year until 2010-11. [153367]

Kevin Brennan: Since the inception of the three year Every Child a Reader (ECAR) pilot, 542 children participated in the pilot in 2005-06, 1,750 children in 2006-07 and we estimate that 2,340 children will participate in 2007-08.

The Every Child a Reader programme will roll-out nationally from 2008-09. no decisions about the delivery have yet been taken but 30,000 children will benefit from the programme by 2010-11.

Pupil Exclusions: Intimidation

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what the number is of incidents of bullying which have led to the exclusion of a pupil from their school in each of the last five years, broken down by *(a)* local authority and *(b)* type of bullying. [152163]

Kevin Brennan: The available information has been placed in the House Library.

Only three years of data relating to the reason for exclusion are currently available. The first year for which information on the reason for exclusion is available relates to the 2003/04 academic year. Exclusions data for 2005/06 academic year were published in June 2007.

Information on type of bullying is not collected centrally. The information provided shows the number of permanent and fixed period exclusions by reason, which includes 'Bullying'.

Pupils: Intimidation

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families (1) what assessment his Department has made of the value for money of expenditure on its anti-bullying policies; [153356]

(2) pursuant to the answer of 4 July 2007, *Official Report*, columns 1092-94, on pupils: intimidation, to how many schools the National Strategies gave additional support with anti-bullying work in each financial year since 2002-03; [153455]

(3) pursuant to the answer of 4 July 2007, *Official Report*, columns 1092-94, on pupils: intimidation, what percentage of schools were using the principles of the Charter to draw up effective anti-bullying policies in each financial year since 2002-03; [153456]

(4) pursuant to the answers of 11 June 2007, *Official Report*, column 795W and 4 July 2007, *Official Report*, column 1092W, on pupils: intimidation, if he will clarify the allocation of funds for tackling bullying to *(a)* organisations and *(b)* programmes. [153615]

Kevin Brennan: PricewaterhouseCoopers recently completed an evaluation of the Department's programme of work with the Anti-Bullying Alliance, the main organisation which the Department funds for anti-bullying work. The PWC report was generally positive, but suggested that some elements of the work should be put out to tender. The Department is currently preparing tender documents for future elements of the anti-bullying work programme.

The Department's programme of work with the National Strategies Regional Advisers—to spread good practice and work with identified schools to support and challenge them in improving their anti-bullying policies and strategies—began this financial year. I refer the hon. Member to previous answer 147174, making clear that data on the number of schools supported are not held by the Department.

The National Strategies began to monitor use of the Anti-Bullying Charter to inform effective policy and practice in secondary schools in March 2006. They

have recorded a steady increase in the use of the principles of the Charter over the twice-yearly reporting cycle. They began to monitor primary schools as well in March 2007. The National Strategies advise that nearly 75 per cent. of secondary schools and over 50 per cent. of primary schools are using the principles of the Charter to draw up their own anti-bullying policies.

I refer the hon. Member to answers provided previously on the issue of funding (141379, and 147173), which detailed overall allocations for anti-bullying work in each financial year since 2002 as well as the funds given to organisations that the Department has worked with. Funding not allocated to external organisations was used to support a variety of activities, including anti-bullying resources such as DVDs and hard-copies of guidance documents, local and national events, the preparation of guidance, research, and publicity campaigns.

Pupils: Qualifications

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to his answer of 5 July 2007, *Official Report*, column 1127W, on pupils: qualifications, on what basis it was decided that a CACHE level 2 certificate in child care and education is equivalent to five GCSEs at A* to C for the purposes of the secondary school (GCSE and equivalent) performance tables. [149869]

Jim Knight: The performance points for qualifications reported in the Achievement and Attainment Tables are determined by the size of each qualification and the challenge it represents, where size is an indication of the time spent by a centre in supporting a learner and challenge based on the grades it is possible to achieve at a particular level within the National Qualifications Framework. Size is converted into a measure based on the guided learning hours attached to a qualification, with GCSEs having a size measure of one. The Cache Certificate in Child Care and Education at Level 2 currently accredited (Qualification Accreditation Number 100/0645/X) requires 480 guided learning hours which converts to a size measure of five.

A revised version of this qualification has recently been accredited into the National Qualifications Framework (Qualification Accreditation Number 500/1886/3) and will be available to learners from 1 November 2007. The revised version will require 300 guided learning hours and will, therefore, have a size measure of three.

The size indicators are based on set ranges of guided learning hours, or bands. At Levels 1 and 2, a qualification with between 90 and 144 guided learning hours (such as a GCSE) will have a size indicator of one, while a qualification with between 415 and 504 guided learning hours (such as the CACHE Level 2 Certificate in Child Care and Education) will have a size indicator of five. For the purposes of the SCAAT, the CACHE Level 2 Certificate has a size equivalence of five GCSEs.

The challenge indicators are based on grades. Performance points are assigned to each grade within a grade range at each National Qualifications Framework level. An A* grade for a GCSE will attract 58 points, while a Distinction in a qualification with a three grade scheme such as the CACHE Level 2 Certificate in Child Care and Education, will attract 55 points. The points for a qualification are then multiplied by its size indicator to obtain its overall performance points scores.

The performance points that a qualification attracts are used solely as a measure of an institution's performance, and are not a reflection of the amount of work a learner may need to undertake to achieve the qualification.

A revised version of this qualification has recently been accredited into the National Qualifications Framework (Qualification Accreditation Number 500/1886/3) and will be available for learners from 1 November 2007. This revised version has a volume of 300 guided learning hours and will therefore have a size indicator of three.

Pupils: Questionnaires

Mr. Redwood: To ask the Secretary of State for Children, Schools and Families (1) what use Ofsted will make of its lifestyle questionnaires for years six to eight pupils; [149432]

(2) how many complaints he has received about Ofsted's inquiry form for primary school pupils about drink, drugs and local facilities; [149438]

(3) what his policy is on preserving anonymity of pupils when answering Ofsted questionnaires about lifestyle. [149439]

Jim Knight: HM Chief Inspector, Christine Gilbert, has written to the hon. Member to explain how Ofsted will use information obtained from its questionnaires about lifestyles. A copy of her reply has been placed in the House Library.

I am aware of two letters received by the Department about the recent 'Tellus2' survey undertaken by Ofsted, both of which were referred to Ofsted for reply. I understand that Ofsted itself received seven queries from primary schools during the response period, three of which questioned the general suitability of some questions for younger children. Of these three, one specifically mentioned the question on drinking. These queries did not result in a complaint. Since the closure of the survey, Ofsted has received nine communications from parents, of which two expressed concern about the nature of the questions and two specifically mentioned the question on drinking. One of these latter two also mentioned the question on smoking. The primary school questionnaire did not include a question on drugs.

Respondents to such questionnaires quite rightly have their anonymity protected. In the case of the Tellus2 survey, children and young people responded using an individual, randomly generated 'log in' identifier, rather than their names or dates of birth. Postcode information was collected, at the request of local authorities, to enable summary information to be produced about groups of children living in different parts of an authority. However, this was on the basis that data would only be reported if no individuals or schools could be identified from it.

Pupils: School Meals

Bob Spink: To ask the Secretary of State for Children, Schools and Families what guidance he has issued to schools on checking the contents of children's home-made packed-lunches; and if he will make a statement. [150817]

Kevin Brennan: The Department has not issued guidance to schools on checking the contents of children's home-made packed-lunches.

The School Food Trust guidance on food-based standards for school lunches contains advice to caterers and schools on how to ensure packed lunches they provide meet the standards. In addition, the Food Standards Agency has produced guidance on providing healthy packed-lunches on its website.

Some schools have school food policies that ban certain products from being brought into school in packed lunches. If schools do want to adopt such policies, we would strongly recommend that they consult with parents.

School Meals: Expenditure

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average daily expenditure on school meals by each local education authority was in each year since 1996-97. [152300]

Kevin Brennan: The Department does not collect data on the average daily expenditure on school meals by each local education authority.

School Meals: Nutrition

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what changes there have been to the consumption of *(a)* chips, *(b)* burgers and *(c)* high fat foods in schools since 2004. [152299]

Kevin Brennan: New food-based nutritional standards were introduced in September 2006 for school lunches and similar standards will apply to other school food from September 2007. Nutrient-based standards will be introduced for school lunches in September 2008 for primary schools and September 2009 for secondary schools.

These standards require that no more than two deep fried foods can be served in any single week. That includes deep-fried chips and oven-baked products which have been deep-fried as part of the manufacturing process. Limits have also been placed on the serving of meat products which mean that burgers can be served only once every two weeks. The nutrient-based standards will place limits on the levels of fat that can be served as part of a school lunch.

School Meals: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what assessment he has made of the effect of new standards for school meals on levels of demand; and if he will make a statement; [152447]

(2) what his estimate is of the total school meal uptake in secondary schools in *(a)* 2003-04 and *(b)* 2006-07; and if he will make a statement; [152140]

(3) what information is collected by his Department on the costs and take-up of school meals; and if he will make a statement; [152297]

(4) how many and what proportion of pupils in *(a)* primary and *(b)* secondary schools took school meals in each reporting period since 1997; and if he will make a statement; [152298]

(5) what recent representations he has received from the Local Authorities Caterers Association on school meals. [152139]

Kevin Brennan: The Department does not collect information about the cost of school meals or school lunch take-up. It has also not made an assessment of the new standards for school meals on levels of demand. However, the School Food Trust will be publishing in August the results of its annual survey on school lunch take-up. Early figures from that survey indicate that take-up in primary schools is down by 1.8 percentage points (to 40.6 per cent.) and in secondary schools by 5.3 percentage points (to 37.4 per cent.). And a recent survey by the Local Authority Caterers Association reported that total meal take-up has dropped over the three year period from 2003/04 to 2006/07. In primary schools the drop is 3 percentage points (to 40 per cent.) and in secondary schools 7 percentage points (to 35 per cent.).

The take-up figures are not unexpected as schools often experience falling demand with the introduction of healthier food. But we are in the early stages of our long-term ambition to transform school food: and we have other measures planed for the short and the longer term to promote school lunch and encourage children to eat more healthily. We also know that where schools take steps to manage the changes carefully through, for example, good marketing and pupil and parent involvement, take up can rise sharply.

Schools: Catering

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what proportion of companies contracted by local authorities to provide catering services *(a)* lost money, *(b)* broke even and *(c)* made a profit in (i) 2003-04, (ii) 2005-06 and (iii) 2006-07; what estimate he has made of the number in each category in 2007-08; and if he will make a statement; [152131]

(2) what the average school meal selling price to parents has been in each year since 2000-01; and if he will make a statement. [152145]

Kevin Brennan: The Department does not collect information on the financial position of caterers or on the average school meal selling price. However, a recent survey from the Local Authority Caterers Association provided information on 2006/07 trading outturn forecasts for LA caterers which indicated that 9 per cent. would have a surplus, 26 per cent. would break even and 65 per cent. faced a deficit. The same survey reported on average school meal selling prices in

primary schools, where the data shows an increase of 20 per cent. (from 1.37 to 1.64) between 2003/04 and 2006/07.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many staff have been employed in the school meals service in each year since 1985-86. [152134]

Kevin Brennan: The information requested is not collected centrally.

Schools: Disabled

Mr. Evans: To ask the Secretary of State for Children, Schools and Families what funding is available for the improvement of disabled access in Ribble Valley schools. [149065]

Jim Knight: Detailed information for Ribble Valley schools is not held centrally as the Department makes capital allocations mainly on a local authority area basis. All local authorities and schools receive capital allocations to support their local priorities. This is in addition to our strategic programmes such as Building Schools for the Future (BSF) and, from 2008-09, the roll out of the new Primary Capital Programme. In addition to Lancashire's investment through its BSF wave 1 project, over the current spending review period, 2005-06 to 2007-08, Lancashire authority and its schools have been allocated capital support of just over £139 million, of which over £41 million was allocated to Lancashire authority through the Single Capital Pot, including £4.4 million to support: the Schools Access Initiative to help make schools increasingly accessible.

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what increased resources are provided to schools on the basis of higher staff costs in some parts of the country; what the basis is of this allocation policy; and if he will make a statement. [150886]

Kevin Brennan: The Dedicated Schools Grant (DSG) gives local authorities allocations for multi year periods: the allocations for 2007-08 will depend on pupil numbers in schools in January 2007 and the per pupil guaranteed unit of funding.

The DSG per pupil Guaranteed Unit of Funding is unchanged from that set in December 2005 and in:

2006-07 was based on spend per pupil in 2005-06, with: a basic increase of 5 per cent. per pupil (5.1 per cent. for London authorities); and headroom allocated to reflect five ministerial priorities.

2007-08 was based on the 2006-07 DSG Guaranteed Unit of Funding, with: a basic increase of 5 per cent. per pupil (5.1 per cent. for London authorities); and headroom allocated to reflect three ministerial priorities.

As the DSG per pupil guaranteed unit of funding is based on spend per pupil in 2005-06 It will: reflect the higher expenditure caused by the higher staff costs in some parts of the country; and be influenced by Government funding in 2005-06 (see as follows). Each of the ministerial priorities included an Area Cost Adjustment (ACA) factor which reflects two kinds of difference between areas in costs:

differences in labour costs (the 'Labour Cost Adjustment'); and

differences in business rates paid on local authority premises (the 'Rates Cost Adjustment')

The formula used to calculate Schools Formula Spending Share for 2005-06 and previous years took account of the higher staff costs in some parts of the country through the inclusion of the ACA factor.

It is a matter for each local authority—in consultation with their Schools Forums—to determine the level of funding between different providers, based on an assessment of local circumstances.

Schools: Religious Sects

Mr. Hancock: To ask the Secretary of State for Children, Schools and Families what guidance he has issued to schools on dealings with organisations which have been the subject of allegations of cultish behaviour, with particular regards to *(a)* Friends of the Western Buddhist Order, *(b)* New Kadampa Tradition and *(c)* Soka Gakkai International; and if he will make a statement. [152364]

Kevin Brennan: The Department has issued no such guidance. Religious education syllabuses for maintained schools without a religious designation are drawn up by an agreed syllabus conference which advises the local education authority. The non-statutory framework for Religious education was published in October 2004 and provides that pupils should be taught about Christianity, at least one other principle religion and a religious community with a significant local presence. It is up to schools and local authorities to decide upon resources and teaching methods and this would include checking the credentials of any organisation they chose to work with.

Schools: Sports

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools which have offered competitive school sports in each year since 1997. [152164]

Kevin Brennan: Competitive games activities have been compulsory for all 5-14 year olds as part of the PE National Curriculum since 1992.

The 2005/06 School Sport Survey, which collects data from schools in School Sport Partnerships, found that 97 per cent. (16,436) of schools held at least one competitive sports day in the year. In addition 10,725 competitive festivals of sport were staged.

Schools: Standards

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what average amount of time a school of each type spent in special measures in the latest period for which figures are available. [151238]

Jim Knight: The following table provides the information requested, in respect of schools removed from special measures during the autumn term 2006 and the spring term 2007.

Type of school	Number of schools removed from special measures (including those closing or requiring significant improvement)	Total number of months spent in special measures	Average number of months in special measures
Primary	50	807	16
Secondary	25	578	23
Special	4	72	18
Pupil Referral Units	3	43	14

Turnaround times for schools in special measures have reduced since 1997. For example, the average time primary schools spent in special measures in 1997/98 academic year was 23 months. The equivalent figure for secondary schools was 28 months.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools *(a)* in each local education authority and *(b)* of each type were classified as causing concern for more than two years in each of the last 10 years; and how many of those schools have since been closed. [151240]

Kevin Brennan: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Library.

Schools: Termination of Employment

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many members of school staff in each local education authority had their employment terminated because of inappropriate relations with a student in the last 12 months. [151217]

Kevin Brennan: Where employers in the education sector have ceased to use the services of a person because they consider that person is unsuitable to work with children, or they would have ceased to use the person's services where the person has left their employment, they are required to refer information to the Department. In addition, the Police refer to the Department cautions and convictions for those who have been working in educational establishments in accordance with Home Office Circular 6 / 2006 (The Notifiable Occupations Scheme). Therefore, school staff and others working with children are referred to the Department for a range of reasons including convictions or cautions for a wide range of offences, allegations involving various forms of misconduct, and referrals on the grounds of ill health.

The total number of all types of referrals received by the Department over the 12 months until 31 December 2006 was 2,784. Identifying how many members of school staff in each local authority had their employment terminated because of inappropriate relations with a student in the last 12 months would require detailed checks to be made of individual case records and this would incur disproportionate cost.

Schools: Vivisection

Colin Challen: To ask the Secretary of State for Children, Schools and Families how many teachers he plans to receive training to deal with vivisection in the classroom; and which organisations have been approached to contribute to that training. [151597]

Jim Knight: This Department is working in conjunction with the Department for Business, Enterprise and Regulatory Reform to launch a DVD based on the play 'Every Breath'. This and supporting materials for teachers will be available to schools in October.

We have not yet appointed an organisation to develop and deliver training for teachers on discussing controversial topics In lessons, such as experiments involving animals.

Teachers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many secondary schools in England had one fully qualified *(a)* physics, *(b)* chemistry, *(c)* German, *(d)* Mandarin and *(e)* Urdu teacher in the most recent year for which figures are available; and if he will make a statement; [153431]

(2) what proportion of teachers were on *(a)* long-term and *(b)* short-term sick leave in each local authority area in the most recent reporting period for which information is available; and if he will make a statement; [153432]

(3) what proportion of *(a)* teacher and *(b)* head teacher posts were vacant in (i) the latest reporting period and (ii) each year from 1997 to 2007; [153433]

(4) what proportion of secondary school teachers have trained to teach in their degree subject; [153435]

(5) what his estimate is of the total staff employed by each local education authority in each year from 1997-98; [153436]

(6) what his estimate is of the ratio of teachers to teaching assistants in *(a)* primary and *(b)* secondary schools in each year since 1990. [153437]

Kevin Brennan: The information requested can be provided only at disproportionate cost.

Information on School Workforce has been published in SFR 15/2007 "School Workforce in England (including pupil:teacher ratios and pupil:adult ratios), January 2007 (Provisional)" which was released on 26 April 2007. This is available on the Department's website via the following link: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000725/index.shtml and is also available in the Library. This is an annual publication, which includes tables for January 1997 to 2007 on teacher numbers, support staff numbers, teacher vacancies, pupil:teacher ratios (PTRs) and pupil:adult ratios (PARs), teacher ethnicity and teacher sickness absence.

Teachers: Qualifications

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the minimum entry standards are for *(a)* primary and *(b)* secondary teachers in terms of (i) GCSEs, (ii) A levels and (iii) other qualifications; and if he will make a statement. [153434]

Kevin Brennan: In order to enter an initial teacher training programme, trainee teachers must have at least a grade 'C' or equivalent in GCSE maths and English. For those teaching primary pupils, a grade 'C' or equivalent qualification in a science subject is also required.

Initial teacher training providers will typically also set additional requirements for entry to initial teacher training courses such as A levels, NVQs or work experience.

For a postgraduate course, trainee teachers must also have a degree. This also applies to the employment based routes into teaching; with the exception of the Registered Teacher Programme which requires that trainees have completed two years (240 CATS) of higher education.

Regardless of the route, a first degree or an equivalent and passing the professional skills tests in numeracy, literacy and information communication technology is a requirement for the award of qualified teacher status (QTS).

These requirements reflect a belief that all teachers should have a good standard of knowledge in the core subjects and that teaching is a job towards which our best and brightest young people should aspire. They also give parents confidence in the knowledge and competence of the teachers education their children.

Teachers: Training

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many people are training to become *(a)* primary and *(b)* secondary school teachers, broken down by subject area; and how many were in such training in each of the last five years. [151179]

Kevin Brennan: The following tables show the total number of trainees on ITT courses between 2002/03 and 2006/07 with the break down of secondary figures by subject, for mainstream and Employment Based Routes (EBR) trainees.

Number of trainees on mainstream primary and secondary ITT courses between 2002/03 and 2006/07

	Total number of trainees on ITT courses				
	2002/03	*2003/04*	*2004/05*	*2005/06*	*2006/07*
Primary	28,240	29,740	30,720	31,030	30,890
Secondary	21,040	22,330	21,720	21,020	20,480

Vocational subjects[3]	0	160	280	350	330
Fast Track[4]	90	240	310	330	0

[1] Technology includes design and technology, information and communications technology, business studies, graphics, textiles and food technology.
[2] Other includes classics, dance, economics, media, performing arts and social studies.
[3] Vocational subjects include applied art and design, leisure and tourism, applied ICT, applied science, applied business, engineering, manufacturing, and health and social care.
[4] The Fast Track recruitment programme ended in 2005/06.
Notes:
1. Figures for mainstream trainees include universities and other HE institutions, SCITT and OU, but exclude employment based routes.
2. Figures for 2006/07 are provisional and are subject to change.
3. Figures include trainees who are re-sitting all or part of their ITT programme.
4. Figures are for the total number of trainees on ITT courses therefore includes all trainees at all stages on courses of 1-5 year durations.
5. Figures are individually rounded to the nearest 10 and may not sum.

Citizenship	20	40	40	40	50
Other[2]	110	150	190	170	180
Vocational subjects	0	20	50	60	60

[1] Technology includes design and technology (including textiles), food technology, information communications technology and business studies.

[2] Other includes dance, humanities, law, media studies, PHSE, psychology, classics, economics, social sciences and social studies. The category also includes recruits to Key Stage 2/3 with no subject specialism from 2002/03 to 2005/06.

Notes:

1. Numbers shown are rounded to the nearest 10.
2. Figures include trainees through the Graduate Teacher Programme (GTP), the Registered Teacher Programme (RTP), the Overseas Trained Teacher Programme (OTTP) and Teach First (TF).
3. Figures are taken from the employment based routes data management system (EBRDMS). 2006/07 figures are as at 23 July 2007 and are subject to change. Teach First began in 2003/04 and TF data has been included on EBRDMS since 2005/06. Figures for TF for 2003/04 and 2004/05 are taken from the Teach First organisation.
4. Trainees who withdrew before their programme start date are removed from the aforementioned data.
5. The aforementioned table is based on the assumption that all RTP trainees complete their training within two academic years. Therefore RTP trainees are counted in both the academic year in which their programme starts and in the following academic year. It should be noted that some courses may in fact be spread over three or more academic years.
6. The aforementioned table is based on the assumption that all GTP and OTTP trainees complete their training within one academic year. Therefore GTP and OTTP trainees are counted only once, in the academic year in which their programme starts. It should be noted that some courses may in fact be spread over two or more academic years.
7. TF is a two year programme, which includes one year's initial teacher training. Therefore TF trainees are counted once in the academic year in which their programme starts.

TDA Employment Based Routes Database and the Teach First organisation.

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how much was spent on training teachers at *(a)* the University of York and *(b)* York St. John University in (i) 1997 and (ii) 2006-07. [152196]

Jim Knight: The main source of university funding for initial teacher training (ITT) is mainstream grant funding allocated and paid to them by the Training and Development Agency for Schools (TDA). The allocations to these two institutions were as follows:

	Mainstream grant	
	£ million	*Number of places*
1996/97		
College of Ripon and York St. John	2.2	[1]771
University of York	0.5	156
2006/07		
College of Ripon and York St. John	3.8	827
University of York	0.8	134

[1] ITT places.

The TDA does not hold or collect information on how much either of these two universities spends directly on ITT. Although mainstream grant funding represents the single biggest source of funding for ITT, there are other sources such as tuition fees; and individual universities have discretion about how they allocate their total resources between ITT and non-ITT activities.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the average cost was of training a *(a)* primary and *(b)* secondary school teacher in each financial year since 1999-2000. [153357]

Kevin Brennan: The Training and Development Agency for Schools in England (TDA) allocates grant funding to accredited initial teacher training (ITT) providers for the purpose of delivering initial teacher training courses. The amount of funding is based on the number of ITT trainees recruited and registered on courses. The unit of funding varies according to the type of ITT. The TDA does not collect information on how providers use that funding as the cost is only a comparatively small part of the total cost of ITT. Therefore, the Department does not hold comparable information on the average cost of training primary and secondary teachers.

Teachers: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how many full-time equivalent *(a)* teachers and *(b)* non-teaching assistants there were in local education authority schools in (i) Yorkshire and Humber and (ii) City of York in (A) 1997 and (B) 2006. [152191]

Jim Knight: The following table provides the full-time equivalent number of regular teachers, teaching assistants and other support staff in local authority maintained schools in Yorkshire and the Humber Government Office Region and the City of York local authority In January 1997 and 2006.

Full-time equivalent regular teachers, teaching assistants and other support staff in local authority maintained schools in Yorkshire and the Humber Government Office Region and the City of York local authority, January 1997 and 2006

	Regular teachers[1]		*Teaching assistants*[2, 3]		*Support staff*[2, 4] *(excluding teaching assistants)*	
	1997	*2006*	*1997*	*2006*	*1997*	*2006*
Yorkshire and the Humber	41,900	44,900	7,700	17,330	7,160	14,400
City of York	1,290	1,370	140	500	180	280

[1] Source: DCSF annual survey of teachers in service and teacher vacancies (618g).
[2] Source: DGSF School Census.
[3] Teaching assistants include special needs support staff and minority ethnic support staff.
[4] Support staff include administrative staff, technicians and other support staff.
Note:
Figures are rounded to the nearest 10.

York College: Finance

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families what the budget for York College was in *(a)* cash and *(b)* real terms in each year since 2004-05. [152195]

Bill Rammell: I have been asked to reply.

Investment in further education provision, including that delivered by general further education colleges like York college, has risen nationally by 48 per cent. in real terms between 1997 and 2005.

My Department does not hold information on publicly funded post-16 places at individual provider level. I am therefore copying this to Mark Haysom, the Learning and Skills Council's Chief Executive, so that he can respond with the detailed information you have requested. A copy of his reply will be placed in the House Library.

JUSTICE

Feltham Young Offender Institution and Remand Centre

Mr. Bellingham: To ask the Secretary of State for Justice pursuant to the answer of 12 June 2007, *Official Report*, column 949W, on Feltham Young Offender Institution and Remand Centre, who was responsible for carrying out the investigation into the so-called Muslim Olympics at the institution; who commissioned the investigation; who heard the disciplinary proceedings; and if he will make a statement. [153708]

Mr. Hanson: The then governor of Feltham commissioned the investigation and was in charge of the subsequent disciplinary hearing. The then head of race relations was the investigating officer.

Fixed Penalties: Essex

Mr. Amess: To ask the Secretary of State for Justice how many fixed penalty notices were issued by Essex Police in *(a)* 2003, *(b)* 2004, *(c)* 2005 and *(d)* 2006; how many of those notices have been paid; how many have been sent to be determined in court; and how many have remained unanswered. [152780]

Mr. Hanson: The information collected by the Office for Criminal Justice Reform identifies the number of motoring offences fixed penalty notices issued by result at police force area level. Data are collected on the disposal, (i.e. paid, fine registration certificate issued etc.). However because of the time taken for the procedures for payment to be enforced the data are collected approximately nine months later than the period of issue and published in the following years' annual volume covering motoring offences.

2003 data are provided in Table A. 2004 data will be published in the autumn in the publication "Offences Relating to Motor Vehicles, England and Wales 2005, Supplementary Tables". It is expected that 2005 data will be published in 2008 and 2006 data in 2009.

The penalty notice for disorder (PND) scheme was rolled out to police forces in England and Wales in 2004 under the provisions of the Criminal Justice and Police Act 2001. Data on the number of the penalty notices issued, paid, contested in court as well as unpaid PNDs registered as fines, for 2004 and 2005 in Essex, are provided in Table B. In addition, provisional data show that a further 4,357 PNDs were issued in 2006; detailed information on the number paid, contested in court and fine registered will be available this autumn.

Under the scheme, the police are able to issue penalty notices of either £50 or £80 for a specified range of minor disorder offences. The recipient of a PND has 21 days to either pay the penalty or seek a court hearing. If the recipient takes no action and the notice remains unanswered, a fine of one-and-a-half times the penalty amount is registered against them.

The courts are responsible for enforcing PNDs in the same way as any other unpaid fine.

Table A: Fixed penalty notices issued by result in Essex police force area, 2003

Fixed penalty notices	*Endorsable*	*Non-endorsable (driver present)*	*Non-endorsable (driver absent)*	*Total*
Number of notices				
Paid within 28 days	85,041	5,918	6,443	97,402
Payment accepted after 28 days	10,250	941	2,497	13,688
Sub-total paid	95,291	6,859	8,940	111,090
Process issued	—	—	5	5
No further action taken	34	110	1,171	1,315
Fine registration certificate issued[1]	273	1,818	2,190	4,281
Total	95,598	8,787	12,306	116,691
Percentage of notices				
Paid within 28 days	88.96	67.35	52.36	83.47
Payment accepted after 28 days	10.72	10.71	20.29	11.73
Sub-total paid	99.68	78.06	72.65	95.20
Process issued	—	—	0.04	0.00
No further action taken	0.04	1.25	9.52	1.13
Fine registration certificate issued[1]	0.29	20.69	17.80	3.67
Total	100	100	100	100

[1] Includes outcomes not finalised.

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Fixed penalty notices collection held by Office for Criminal Justice Reform.

Table B: Number of penalty notices for disorder (PNDs) issued, paid in full, contested in court and fine registered in Essex police force area, 2004 and 2005[1]

	Number issued	*Paid in full*	*Court hearing requested*	*Fine registered*
2004	2,802	1,681	—	1,054
2005	4,454	2,789	3	1,464

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Justice when he will answer the letter to his predecessor transferred from the Home Office and dated 29 May, from the right hon. Member for Manchester, Gorton with regard to Paul Southworth. [152954]

Mr. Hanson: The Secretary of State for Justice and Lord Chancellor replied to the right hon. Member on 26 July.

Police Cautions: Yorkshire and Humberside

Greg Mulholland: To ask the Secretary of State for Justice (1) how many cautions were given to those under 16 in *(a)* Leeds and *(b)* West Yorkshire in each of the last five years; [151448]

(2) how many cautions were issued in West Yorkshire in each of the last five years; for what categories of offences cautions were issued; and whether cautions may be repeated for the same offence. [151284]

Mr. Coaker *[holding answer 23 July 2007]:* I have been asked to reply.

The number of persons aged 10 to 15 cautioned for all offences in West Yorkshire police force area for the years 2001 to 2005, along with the number of defendants of all ages cautioned by offence type in West Yorkshire police force area, and the number of defendants of all ages cautioned for sexual offences in England and Wales for the years 2001 to 2005 can be viewed in the following tables. This information is from the court proceedings database held by the Office for Criminal Justice Reform.

Information on cautions collected by the police is only reported to the Office for Criminal Justice Reform broken down at force area level, not by police division, so it is not possible to separately identify the number of cautions in Leeds from our data.

Technically an offender could receive a second caution for a similar offence but it should be in very extenuating circumstances. The Home Office Circular discourages repeat use of the same penalty with the same offender. Someone who offends again needs to know that the next response will be a tougher one. And where a serious offence is committed, then the case should go to court.

Therefore both national and locally held records must be checked before a caution is given. If the

suspect has previously received a caution then a further caution should not normally be considered. If there has been a sufficient lapse of time to suggest that a previous caution has had a "significant deterrent effect" then a caution can be administered, but it is at the discretion of the police and CPS. The lapse of time varies, in practice, between forces.

Number of defendants aged 10 to 15 cautioned for all offences by West Yorkshire police for the years 2001 to 2005[1,2]

	2001	2002	2003	2004	2005
West Yorkshire police force area					
Age 10-15	3,099	3,158	3,116	4,140	5,149

[1] These data are on the principal offence basis.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education: Expenditure

Tim Loughton: To ask the Secretary of State for Innovation, Universities and Skills how much has been spent from the public purse on adult education in each of the last five years. [150364]

Bill Rammell: The figures requested are shown in the following table.

Adult participation funding excluding learner support expenditure

£ millions

	Financial years				
	2001-02	2002-03	2003-04	2004-05	2005-06
19+ Further Education	1,692	1,695	1,882	1,902	2,011
Train to Gain/Employer Training Pilot	n/a	7	33	89	142

Adults Total	1,999	2,107	2,353	2,471	2,614

Adult Education: Liverpool

Mrs. Ellman: To ask the Secretary of State for Innovation, Universities and Skills (1) what assessment he has made of the effect of changes in the level of funding for non-priority adult education in Liverpool over the past two years; [150770]

(2) what procedure he has put in place to enable him to assess the adequacy of the Learning and Skills Council's allocation of funds for non-priority adult education in Liverpool. [150772]

Bill Rammell *[holding answer 19 July 2007]:* We have increased public investment in further education by 48 per cent. in real terms between 1997-98 and 2005-06 and funding for adult education has increased by 7 per cent. between 2005-06 and 2007-08.

In October 2005 the Learning and Skills Council (LSC) published "Priorities for Success" which set out our funding strategy for 2006-07 and 2007-08 and was updated in October 2006 with the publication of the LSC's Annual Statement of Priorities. The strategy set out our funding priorities and in line with our Skills Strategy focused public funding on helping adults to develop the skills they will need for sustained employment and further progression in learning.

The LSC has worked with providers across the country including in Liverpool to align provision to meet these priorities. Where providers have previously delivered large volumes of short courses and other lower priority activity then this has resulted in significant shifts of funding towards more substantive programmes that meet national priorities. In these circumstances the LSC have looked at the extent to which provision can be aligned in a single year taking into account historical levels of delivery and the needs of the local community.

In terms of provision outside of these priorities we have safeguarded £210 million for personal and community development learning, including leisure learning in both 2006-07 and 2007-08. We also recognise the need to ensure that we have sufficient provision at lower levels to support progression through to higher level qualifications and we will be supporting this activity through the Foundation Learning Tier.

Adult Education: Qualifications

Tim Loughton: To ask the Secretary of State for Innovation, Universities and Skills how many people have passed qualifications on adult education courses in each of the last five years; and to what level. [150437]

Bill Rammell: The numbers of successes and success rates by level for adult Further Education and Work Based Learning are shown in the following tables. Similar information is not centrally collated for the other strands of adult education.

Successes and success rates in LSC funded FE provision for adults (19+)

Qualification type	Successes (thousands) 2004/05					Success rates (percentage)				
	2001/02	2001/02	2002/03	2003/04	2005/06	2001/02	2001/02	2002/03	2003/04	2005/06

All frameworks or NVQs[2]	25	35	39	44	49	33	40	46	53	60

[1] Successfully completing framework or NVQ component or both.
[2] Includes NVQ training not separately identified above.

Adult Learning Grant

Ann Coffey: To ask the Secretary of State for Innovation, Universities and Skills when the full guidance for the administration of the adult learning grant will be issued. [153012]

Mr. Lammy: The Adult Learning Grant (ALG) provides income assessed support of up to £30 per week to adults studying full time for their first full Level 2 or first full Level 3 qualification. Following a successful pilot period during which ALG has been shown to improve retention and success rates among learners it is being introduced across England from September 2007. The scheme is administered by a single helpline, Assessment and Payment body, with further education colleges providing voluntary support to applicants. Outline guidance was distributed to all colleges in June. Full, detailed administrative guidance will be published in early August 2007.

Apprentices

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what proportion of trainees *(a)* in total and *(b)* in each sector progressed from an apprenticeship at level 2 to an advanced apprenticeship in the latest period for which figures are available. [153468]

Mr. Lammy: Data relating to progression for apprenticeship to advanced apprenticeship is not currently available in a comprehensive manner because of the lack of unique learner identifiers in the Learning and Skills Council's (LSC) individualised learner record (ILR) data prior to 2007/08. The unique learner number (ULN) will enable the linking of two mutually exclusive records and episodes of learning to estimate the volume of learners progressing to advanced apprenticeship. The ULN is expected to be rolled out to all provision from January 2008, with a plan to compel use by LSC funded provision from September 2008. It will then take some years to work through the system before the ULN can be used to comprehensively monitor the progress of learners across provision, where there has been a break in the training.

Assessments: Prisoners

Mr. Boswell: To ask the Secretary of State for Innovation, Universities and Skills what steps he plans

to take in conjunction with the Prison Service to resolve security and other access issues so that serving prisoners may take vocational examinations which are available solely on-line. [153384]

Mr. Lammy: The 'Reducing Re-Offending Through Skills and Employment: Next Steps', published jointly by the former department for education and skills, the Home Office and the department for Work and Pensions in December 2006 gave a clear commitment to improve the use of technology in delivering learning to offenders in custody, as well as offering more widespread access to ICT qualifications.

DIUS are working closely with NOMS on an initiative to deliver resettlement services electronically to offenders. The Programme for Offender Learning and Resettlement Information Services (POLARIS) is being trialled in selected London prisons to develop a secure means of offering prisoners access to e-learning, including on-line examinations, and other resettlement services.

Degrees: Ethnic Groups

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills (1) how many and what percentage of students from *(a)* Asian Bangladeshi, *(b)* Asian Chinese, *(c)* Asian Indian, *(d)* Asian Pakistani, *(e)* other Asian, *(f)* Black African, *(g)* Black Caribbean, *(h)* Other Black, *(i)* White and *(j)* other ethnic backgrounds (i) applied and (ii) were accepted for (A) full-time and (b) part-time first undergraduate honours degrees in each year since 1997; [148119]

(2) how many and what percentage of students from *(a)* Asian Bangladeshi, *(b)* Asian Chinese, *(c)* Asian Indian, *(d)* Asian Pakistani, *(e)* other Asian, *(f)* Black African, *(g)* Black Caribbean, *(h)* Other Black, *(i)* White and *(j)* other ethnic backgrounds (i) applied and (ii) were accepted for (A) foundation degrees, (B) undergraduate honours degrees and (C) HNDs in each year since 1997. [148120]

Bill Rammell: The available information is shown in the tables. The figures are taken from data collected by the Universities and Colleges Admissions Service (UCAS) which are limited to students who apply to full-time undergraduate courses via the UCAS application system. The figures do not therefore cover part-time students, nor those full-time students who apply directly to Higher Education Institutions.

UCAS do not allocate applicants to specific course types because students can submit up to six applications to one or more of First Degree, Foundation Degree HMD or other courses. For acceptances, the figures for Degrees include both first degrees and foundation degrees.

A new classification of ethnic group was introduced in 2001 which allowed those students of mixed ethnicity to be classified in more detail. Figures for 2000 and earlier are therefore not strictly comparable with those for 2001 and later years.

UK Domiciled Applicants by Ethnic Group, UK Higher Education Institutions, Year of Entry 1997 to 2006

	1997		1998		1999		2000

Departments: Discrimination

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills if he will make a statement on his policy on positive discrimination. [148202]

Ian Pearson: The Department believes that mainstreaming diversity into its talent and performance management policies is the most effective form of positive action. Over the past five years, the Department has developed two internal development schemes of positive action. Positive discrimination is unlawful and is not departmental policy.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Innovation, Universities and Skills how many of his staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148812]

Mr. Lammy: The information is not available in the form requested and could be provided only at disproportionate cost.

In the former DFES, there have been voluntary early severance and retirement releases. For the 2002-03 financial year to the end of the 2006-07 financial year, the total number and cost for such releases from the former DFES were as follows:

Financial year	Number of early releases (from former DFES)	Total cost (to former DFES) (£ million)
2002-03	57	5.57
2003-04	28	2.54
2004-05	332	17.1
2005-06	204	15.1
2006-07	156	10.55

Departments: Flint Bishop

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills whether *(a)* his Department and *(b)* its agencies has made payments to Flint Bishop solicitors since its establishment. [151380]

Mr. Lammy: I can confirm that the Department for Innovation, Universities and Skills and its predecessor, the Department for Education and Skills have no record of any payments to Flint Bishop solicitors during the last seven years. The Department does not hold data prior to financial year 1999-2000.

The Department does not have any Executive agencies.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Innovation, Universities and Skills which Bills in policy areas for which his Department is responsible introduced in the last five years contained sunset clauses; and what plans he has for the future use of such clauses. [151831]

Mr. Lammy: In policy areas for which the Department is responsible, there have been no Bills introduced in the last five years which have contained sunset clauses. The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Dr. Cable: To ask the Secretary of State for Innovation, Universities and Skills which Bills introduced by his Department and its predecessors in areas within his Department's responsibility in the last five years did not contain sunset clauses; and if he will make a statement. [152496]

Bill Rammell: The following Bills introduced by the Department and its predecessors in areas within the Department's responsibility in the last five years have not contained sunset clauses:

The Higher Education Act 2004

The Patents Act 2004

The Further Education and Training Bill

Departments: Manpower

Mrs. May: To ask the Secretary of State for Innovation, Universities and Skills how many employees in his Department were employed by *(a)* the Department for Education and Skills and *(b)* another Department prior to 27 June 2007. [147880]

Mr. Lammy: The information is as follows.

(a) 560 employees were employed by the DFES and

(b) 1,294 by an other Department prior to 27 June 2007.

Departments: Private Finance Initiative

Mrs. Lait: To ask the Secretary of State for Innovation, Universities and Skills what the total cost is of all private finance initiative projects for which his Department has responsibility completed since 1997; and what the projected cost is of such projects commissioned or underway. [148014]

Mr. Lammy: Information on all signed private finance initiative contracts, including balance sheet treatment and future unitary charges, is included in HM Treasury's PFI Signed Projects List, which is available through

www.hm.treasury.gov.uk/documents/
public_private_partnerships/ppp_pfi_stats.

The information covers the unitary charge payment projections up to 2033-34. (A unitary charge can frequently include capital repayments, service provision, inflation and major refurbishment).

This is a working document containing information on current signed PFI projects. It is updated on a six-monthly basis to reflect the updates HM Treasury receives from Departments at Budget and pre-Budget report.

An announcement will be made in the autumn on the amount of PFI credits likely to be available in the comprehensive review period from 2008 to 2011.

Departments: Recruitment

Mrs. May: To ask the Secretary of State for Innovation, Universities and Skills how much his Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151683]

Mr. Lammy: In 2004-05, the cost of fees to recruitment agencies for temporary staff was £2,485,158. In 2005-06, the cost was £2,585,392 and in 2006-07, it was £2,076,348. The cost of temporary staff via recruitment agencies for 2007 to date is £2,210,740.

Information for fees paid in other financial years from 1997 through to 2004 for temporary staff and in each year since 1997 for permanent staff is not collected in the form requested and could be obtained only at disproportionate cost.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was spent by his Department on redundancy payments in the last 12 months. [153230]

Mr. Lammy: There have been no compulsory redundancies in the period.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was spent by his Department on taxis in the last 12 months. [153239]

Mr. Lammy: Details of expenditure on taxis incurred by the Department over the last financial year are set out as follows:

2006-07: £268,857.79

The expenditure is based on staff travel claims and approved invoices received from taxi companies paid via the Department's Integrated Financial Information System.

This figure does not include expenditure for taxi fares incurred abroad or claims by staff that do not have access to the on-line system. To extract this information would involve disproportionate cost.

The Department for Innovation, Universities and Skills (DIUS) was established under Machinery of Government changes on 28 June 2007. This response only related to those areas of responsibility held by its predecessor the Department for Education and Skills.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was spent by his Department on *(a)* staff and *(b)* communication training in the last 12 months. [153232]

Mr. Lammy: Costs for staff and communication training for the former DFES are available from 1 July 2006 to 30 June 2007 in the following table:

Budget	Cost (£)
Communications training	49,204
Learning and Development	2,259,991

Departments: Travel

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was spent by his Department on first class train tickets in the last 12 months. [153236]

Mr. Lammy: The spend from departmental officials for travel within the UK on first class rail tickets for the 12 month period July 2006 to June 2007 for the former Department for Education and Skills was £3,923,948.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was spent by his Department on *(a)* first class and *(b)* business flights in the last 12 months. [153237]

Mr. Lammy: The spend form departmental officials on *(a)* business class flights in the 12 month period July 2006 to June 2007 for the former Department for Education and Skills was £295,593 and *(b)* first class flights in the 12 month period July 2006 to June 2007 for the former Department for Education and Skills was £13,146.

The annual list of Cabinet Ministers overseas travel for 2006/07 was published on 25 July 2007.

Further Education: Curriculum

Mr. Bone: To ask the Secretary of State for Innovation, Universities and Skills what recent representations he has received on the post 16 curriculum; and if he will make a statement. [152749]

Bill Rammell: I have not received any representations on this subject. There is no statutory post 16 curriculum. Individual colleges work with partner agencies including local authorities, the LSC, their learners and employers to deliver a curriculum which meets the needs of the community they serve.

Further Education: Mature Students

Paul Holmes: To ask the Secretary of State for Innovation, Universities and Skills what plans he has to give new responsibilities to *(a)* the Higher Education Funding Council for England, *(b)* the regional development agencies and *(c)* sector skills councils in the provision of further education for people aged over 19 years; and if he will make a statement. [152432]

Bill Rammell: We set out in "World Class Skills: Implementing the Leitch Review of Skills in England" our plans to consider how best to deliver the functions and services that support the further education system, building on the progress made with the Learning and Skills Council over recent years in developing a demand-led approach. In taking forward these changes, the Government will work closely with key stakeholders, including the LSC, HEFCE, RDAs and Sector Skills Councils, to ensure any necessary new arrangements are introduced with minimal impact to learners, employers and providers. We will announce in due course proposals for how we will review the funding and accountability framework to best support initiative and high performance.

As regards the brokerage service offered as part of the Train to Gain programme, the Sub-National Review published on 17 July made clear the Government's view that a single brokerage service is the simplest way for business to access government support. However, the Government are currently consulting on business support simplification. The conclusions of this consultation will be available to the Government by the time of the Comprehensive Spending Review, allowing the Government to give effect to any changes on the provision of brokerage services by April 2009.

Graduates: Debts

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the average amount of time needed for a university graduate to repay debts incurred during study. [151222]

Bill Rammell: We estimate that a student who entered higher education in 2006/07 will take an average of 13 years to repay their student loan. This period is counted from the statutory repayment due date, which is the April following the year of graduation.

Hertfordshire University: Finance

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills what additional funding *(a)* Hertfordshire University has received from his Department and *(b)* his Department intends to provide to Hertfordshire University as a business facing university. [150237]

Bill Rammell: The Department provides no direct funding to the institution, and information is not held centrally on whether the university has used its grant funding from HEFCE, or funding from other sources, to support its shift towards becoming overtly 'business-facing'.

However, the Higher Education Funding Council for England (HEFCE) has provided project funding for the University of Hertfordshire to develop its employer engagement activities. The university received £2.93 million under the third round of the Higher Education Innovation Fund (HEIF) to support engagement with a range of knowledge transfer activities with business, public sector and community partners, for direct or indirect economic benefit. It received Strategic Development Fund money to: take forward its employer engagement strategy through projects aiming to secure an effective and sustainable relationship with a substantial pool of employers and enable it to address the skill needs of employers, students and its graduates (£2.2 million); re-engineer the institution to meet the needs of small and medium-sized employers (£2.0 million).

Higher Education

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of *(a)* male and *(b)* female students in socio-economic groups (i) one, (ii) two, (iii) three, (iv) four, (v) five, (vi) six and (vii) seven studying (A) physics, (B) chemistry, (C) biochemistry, (D) a European modern language, (E) a non-European modern language and (F) all subjects at (x) Russell Group, (y) non-Russell Group universities and (z) departments awarded 5 or 5* in the last research assessment exercise in each of the last 10 years. [149493]

Bill Rammell: Information on the number of students who were awarded 5 or 5* in the RAE exercise are not held by the Department.

Higher Education: Admissions

Matthew Taylor: To ask the Secretary of State for Innovation, Universities and Skills how many people from *(a)* Cornwall, *(b)* the south west and *(c)* England applied to a higher education establishment in each year since 1997. [148612]

Bill Rammell: The latest available information is shown in the table. The figures are taken from data collected by the Universities and Colleges Admissions Service (UCAS) which are limited to students who apply to full-time undergraduate courses via the UCAS application system. The figures do not therefore cover part-time students, nor those full-time students who apply directly to higher education institutions.

Details of applicants by local authority are not held by the Universities and Colleges Admissions Service (UCAS), therefore applicants from Cornwall are not available.

Number of applicants from the south west and England UK higher education institutions: year of entry 1997 to 2006

Year of entry	Number of applicants from	
	South West	England[1]
1997	33,081	329,413
1998	32,190	322,579
1999	31,716	323,141
2000	32,286	321,343
2001	33,004	330,856
2002	33,340	331,350
2003	33,198	337,187
2004	34,081	339,600
2005	37,351	367,741
2006	34,743	357,431

[1] Includes applicants from the south west.

Source:
Universities and Colleges Admissions Service (UCAS)

The latest figures released by UCAS show that by 30 June, the number of students applying to enter higher education in 2007 was up by 6.3 per cent. on the same point in 2006, and was also up on the bumper year of 2005. This means that applicants are the highest ever at this point in the application cycle.

Higher Education: Adult Education

Mr. Andrew Smith: To ask the Secretary of State for Innovation, Universities and Skills if he will make a statement on the role and contribution of the adult residential colleges designated under section 28 of the Further and Higher Education Act 1992 [152335]

Bill Rammell *[holding answer 25 July 2007]:* The adult residential colleges designated under section 28 of the further and Higher Education Act 1992 are a small, distinct group of colleges which were brought into the further education (FE) sector in 1993 in order to be eligible to receive public funding alongside other further education colleges.

The role of these colleges, which are all registered charities, differs according to their historical background but all focus primarily on helping adults who currently have either no or few qualifications often due to financial, personal or social barriers experienced in the past and who are seeking a return to learning. The residential facilities provide a network for personal and learning support encouraged through events and activities outside the formal timetable.

Courses range widely from those designated to develop personal skills and the basic skills necessary for employability to those resulting in formal academic and vocational qualifications. Some colleges also offer higher education courses or help prepare students for progression to university.

Mr. Andrew Smith: To ask the Secretary of State for Innovation, Universities and Skills what the terms of reference are of the Learning and Skills Council's review of the adult residential colleges; and when he expects the review to report. [152336]

Bill Rammell *[holding answer 25 July 2007]:* The Learning and Skills Council has commissioned work from RCU Market Research Unit which will comprise a wide ranging review of the four adult residential colleges (Hillcroft, Fircroft, Ruskin and Northern) in England. The review is underway and is looking at the following areas:

the curriculum offer, student profile and achievements, mission and ethos of the colleges;

value for money;

the residential bursary scheme managed by Ruskin college on behalf of the four colleges;

the profile of the teaching and other staff in the four colleges;

other resources of funding that the four colleges receive;

the socio-economic benefits of the four colleges;

the Capital and disability Discrimination Act support the colleges receive.

The final report from the review is due in October 2007. It is not intended for publication as it will contain commercially sensitive data from which the individual colleges could be identified. The report will be used as intended by the LSC and the colleges to take work forward and review future funding and other arrangements for this provision.

Higher Education: Business

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills which universities make their core mission business facing. [150238]

Bill Rammell: In 'World Class Skills: Implementing the Leitch Review of Skills in England' we have said that 'business-facing' should be a description with

which any higher education institution feels comfortable. An increasing number of Higher Education Institutions (HEIs) already seem comfortable being recognised as responsive to the needs of employers and their workforces, in ways that are consistent with their mission.

A group of five universities are being supported by the Higher Education Funding Council for England (HEFCE) as 'third stream as second mission' institutions (Brighton, Central England in Birmingham, DeMontfort, Sheffield Hallam, and Hertfordshire Universities) and these are exploring how such institutions can address issues relating to the country's productivity and competitiveness, in addition to pursuing their widely-recognised teaching activity.

Beyond this, currently a further seven HEIs are funded under HEFCE's 'employer engagement pilots' initiative and exploring links with work force development. The Higher Education Innovation Fund (HEIF)—£238 million for 2006/07—is an important source of support for all HEIs, helping the sector to engage in a broad range of knowledge transfer activities with business, public sector and community partners, for direct or indirect economic benefit.

HEFCE's latest annual HE Business Community Interaction survey illustrates the wide range of HEIs forging links with business and the community (including via the Skills for Business Network) and raising income from various activities, such as business-funded research, consultancy contracts and continuing professional development courses.

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 10 July 2007, *Official Report*, column 1407W, on higher education: business, which universities have expressed an intention to make their core mission business facing. [150239]

Bill Rammell: Individual higher education institutions (HEIs) will decide whether they should best be described as 'business-facing', and in which contexts. However, several have undertaken action that should make them more clearly 'business-facing'. The university of Hertfordshire is one that has recently done so. Government wishes to see many more institutions becoming comfortable with this term, or alternative ones, that accurately describe their significant level of collaboration with business and their wider communities and the value that they and their partners perceive in such links.

A group of five universities are being supported by the Higher Education Funding Council for England (HEFCE) as 'third stream as second mission' institutions (Brighton, Central England in Birmingham, DeMontfort, Sheffield Hallam, and Hertfordshire universities) and these are exploring how such institutions can address issues relating to the country's productivity and competitiveness, in addition to pursuing their widely-recognised teaching missions.

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills how much additional funding his Department has provided to support business facing universities in each of the last three years; and how much such funding his Department will be providing in each of the next three years. [150240]

Bill Rammell: The Department has a policy of encouraging universities to increase their interaction with business. The Higher Education Innovation Fund, which provides funding to all Higher Education Institutions in England, is a key incentive. The funding for this programme has increased from £187 million for the two academic years 2004/05-2005/06 to £238 million for 2006/07-2007/08. The Higher Education Funding Council for England (HEFCE) has allocated £60 million of its research funding (QR) in 2007/08 by reference to research grants and contracts from business. And HEFCE fund a range of projects that respond to, and increase, employer demand for workforce development. Future funding allocations will be announced at the appropriate time.

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills whether his Department intends to take measures to recognise achievement by leading business facing universities. [150241]

Bill Rammell: The Higher Education Funding Council for England (HEFCE) and officials will continue to monitor the levels of interaction between higher education institutions (HEIs) and employers as indicated by HEFCE's annual 'HE: Business and Community Interaction' survey of HEIs (HE-BCIS).

What is important is that HEIs recognise the value of, scope for, and ways to establish, more and better ways to collaborate with this wider community for their mutual benefit.

Although many HEIs are playing a significant role in fostering productivity and economic growth, through activities as diverse as contracted research for businesses and the provision of continuing professional development (CPD) courses, numerous ones are in receipt of specific funds from HEFCE to support projects, which in itself gives some recognition of progress and achievements in this area.

This funding includes £238 million for the third round of the Higher Education Innovation Fund. One portion of this was allocated by competition to large-scale collaborative initiatives including partners from business and community organisations and another recognised the extent of HEIs' existing business interactions as indicated by the HE-BCIS survey.

HEFCE supports a range of project activity exploring ways to grow and respond to employer demand for HE-level skills within their work forces, notably three regional 'Higher level Skills Pathfinders' and, currently, eight single-institution 'employer engagement pilot' projects. There are also five 'third stream' HEI projects to demonstrate the potential economic benefits of such a focus by institutions.

The council also funds 74 Centres for Excellence in Teaching and Learning (CETLs) that recognise and reward excellent teaching practice, and several involve HEIs, or substantial parts of them, working closely with business in areas such as work-based learning.

Higher Education: Great Yarmouth

Mr. Anthony Wright: To ask the Secretary of State for Innovation, Universities and Skills how many students in Great Yarmouth went on to higher education in each of the last 10 years. [151963]

Bill Rammell: The latest available information is shown in the table. Figures for 2006/07 will be available in January 2008.

Entrants[1, 2] to undergraduate courses from Great Yarmouth parliamentary constituency, UK Higher Education Institutions[3], academic years 1996/97 to 2005/06

Academic year	Number
1996/97	340
1997/98	340
1998/99	390
1999/2000	405
2000/01	415
2001/02	550
2002/03	445
2003/04	530
2004/05	515
2005/06	555

[1] Covers students on full-time and part-time modes of study.
[2] Position at 1 December each year.
[3] Excludes The Open University.
Source:
Higher Education Statistics Agency (HESA), all figures are rounded to the nearest five.

The figures are based on students enrolled at 1 December in each year because these are the only figures available on a comparable basis in each year since 1997.

Higher Education: Manpower

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many members of staff were employed by *(a)* the Higher Education Funding Council for England, *(b)* the Learning and Skills Council and *(c)* each sector skill council in each of the last 10 years; and what the expenditure on salaries was by each organisation in each year. [150156]

Bill Rammell: The information requested is provided in the following tables:

Higher education funding council for England

Financial year	Number of staff as full-time equivalent	Salary costs[1] (£000)
1997-98	194	4,828
1998-99	180	4,878
1999-2000	201	6,049
2000-01	240	6,898
2001-02	245	7,301
2002-03	240	7,749
2003-04	254	8,863
2004-05	264	9,388
2005-06	242	10,367
2006-07	240	10,861

[1] Includes salary costs, national insurance payments and pensions payments.
Source:
HEFCE Annual Accounts

Learning and skills council

Year ended 31 March	Total staff	Admin pay (£000)
2002	4,694	144,245
2003	4,797	135,291
2004	4,786	141,291
2005	4,306	140,344
2006	4,451	137,857
2007[1]	3,741	133,067

[1] Provisional figures.
Note:
Admin pay covers salaries, social security payments, pension costs and consultancy costs.
Source:
LSC Annual report and Accounts

The Learning and Skills Council became operational in April 2001. The figures provided are for the average number of staff employed by the LSC each year and include temporary staff and agency staff. The reduction in the average number of staff in post between 2006 and 2007 is a consequence of the announcement in September 2005 by Mark Haysom, the Learning and Skills Council's chief executive, of proposals for a new structure for the organisation. This process is expected to result in a reduction in the LSC's overall establishment figure (that is the number of posts required to run the organisation) from around 4,700 to around 3,630—a reduction of almost 1,100 posts. This will achieve estimated savings of up to £40 million, which could be released to the front line for the further benefit of learners. As a result, the LSC will have a strong regional and local capacity, spending less time on transactional processes and more time developing relationships with key partners and stakeholders.

Sector Skills Councils are not funded by the Department and, in the main, are independent private sector organisations. Accordingly, the information requested is not held by the Department.

Higher Education: Mental Health

Dr. Pugh: To ask the Secretary of State for Innovation, Universities and Skills (1) how many young people gave up a university first degree course for mental health reasons in each of the last five years; [152719]

(2) how many students abandoned a university first degree course in each of the last five years; [152720]

(3) how many students had their university course terminated prematurely by the university they attend in each of the last five years. [152721]

Bill Rammell: The available information is shown in the table.

UK-domiciled students on first degree courses at English higher education institutions, who left their course

Year student left course	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*
Academic failure/left in bad standing/ not permitted to progress[1]	8,080	8,535	8,750	9,150	9,705
Exclusion[2]	705	395	620	1,125	1,330
Health reasons	1,165	1,215	1,240	1,140	1,150
Abandoned the course[3]	14,100	14,620	15,285	15,840	16,145

[1] Academic failure/left in bad standing/not permitted to progress indicates a fail at any stage, or students who unsuccessfully completed their qualification aim.
[2] Exclusion is the breaking of institutional rules, either behavioural or financial.
[3] "Abandoned the course" indicates the following categories: financial reasons other personal reasons and dropped out, inactive students written off after lapse of time, gone into employment.
Note:
1. Numbers are rounded to the nearest five.
Source:
Higher Education Statistics Agency (HESA)

A further breakdown of "health reasons" to show those who terminated their course due to mental health reasons is not available. Separate information on students, who have been turned away due to the course no longer being taught, is not available.

The Performance Indicators In Higher Education, published by the High Education Statistic Agency (HESA) include an indicator which shows the proportion of UK-domiciled entrants to full-time first degree courses at higher education institutions in England, who are projected to neither obtain an award no transfer to another course. This information is shown in the table.

Proportion of UK-domiciled entrants to full-time first degree courses at higher education institutions in England, who are projected to neither obtain an award nor transfer to another course

	Percentage
2000-01	15.0
2001-02	13.8
2002-03	13.9
2003-04	14.4
2004-05	13.8

Source:
Performance indicators in Higher Education, published by HESA

Higher Education: NHS

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how much was spent on the *(a)* NHS University, *(b)* NHS Institute for Learning Skills and Innovation and *(c)* NHS Institute for Innovation and Improvement in (i) 2003-04, (ii) 2004-05 and (iii) 2005-06, including redundancy payments to staff following closure. [150530]

Mr. Ivan Lewis: I have been asked to reply.

NHS University (NHSU) expenditure for the period 1 April 2003 to 31 March 2004 was £27 million. NHSU expenditure for the period 1 April 2004 to 31 March 2005 was £38.194 million. NHSU expenditure for the period 1 April to 31 July 2005 was £15.953 million.

The NHSU dissolved as a special health authority on 31 July 2005, and the NHS Institute for Innovation and Improvement was the successor body.

NHS Institute for Innovation and Improvement expenditure for the period 1 July 2005 to 31 March 2006 (including redundancy payments to staff following NHSU closure) was £42.450 million.

Higher Education: Research

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills how much the charitable sector spent on research in universities in each of the last five financial years. [152961]

Bill Rammell: Research income received by higher education institutions in England from UK-based charities for the last five academic years for which date are available is shown in the table. The information is not collected by financial year.

	Income (£ million)
2001/02	504
2002/03	542
2003/04	577
2004/05	586
2005/06	610

Source:
Higher Education Funding Council for England.

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills what percentage of the full economic costs of research is covered by the Charity Research Support Fund. [152964]

Bill Rammell: The Charity Research Support Fund does not aim to cover a fixed percentage of the full economic cost of projects. It is a contribution by the Government to the joint efforts of charities and higher education institutions to make charity-funded research financially sustainable by the end of this decade. In the 2007/08 academic year, the Charity Research Support Fund will be worth £180 million. Allocation of that money by the Higher Education Funding Council for England will be based on charity funding of eligible projects in 2005/06, which totalled £599.85 million.

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills what plans he has for funding for the Charity Research Support Fund. [152965]

Bill Rammell: I refer the hon. Member to the reply I gave on 19 July 2007, *Official Report*, column 550w.

Higher Education: Science

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills (1) how many and what proportion of university students studying *(a)* physics, *(b)* chemistry and *(c)* biochemistry in each of the last 10 years had an A or A* in (i) mathematics, (ii) physics and (iii) chemistry GCSE; [150525]

(2) how many and what proportion of university students studying *(a)* physics, *(b)* chemistry and *(c)* biochemistry had a mathematics A level in each of the last 10 years. [150531]

Bill Rammell: The information is not collected centrally.

Higher Education: Student Wastage

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills what percentage of A-Level students from each local education authority continued their education to university level in each of the last 10 years. [151153]

Bill Rammell: The latest available figures on participation in higher education by local authority based on students entering courses were published by the Higher Education Funding Council for England in January 2005 in "Young Participation in England", which is available from their website at http://www.hefce.ac.uk/pubs/hefce/2005/05_03/ This report shows participation rates for young people who enter higher education aged 18 or 19, disaggregated by local authority, for the years 1997 to 2000. The figures cover all 18 or 19-year-olds, not just those with A-levels. HEFCE have not produced participation rates beyond 2000.

The main measure for tracking progress on increasing participation is currently the higher education initial participation rate (HEIPR). This is the sum of the HE initial participation rates for individual ages between 17 and 30 inclusive. It covers English-domiciled first-time entrants to HE courses, which are expected to last for at least six months, at UK higher education institutions and English, Scottish and Welsh further education colleges, and who remain on their course for at least six months. The latest provisional figure for 2005/06 is 43 per cent. The HEIPR is not calculated at local authority level.

The HEIPR is available from the academic year 1999/2000. It is the sum of the age specific initial participation rates for ages 17 to 30. The age specific initial participation rate for 18-year-olds is shown in the table. The figures cover the whole population not just those completing their A-levels.

	Number of initial entrants	*HEIPR for 18-year-olds (Percentage)*
1999/2000	115,100	19.3
2000/01	114,000	19.5
2001/02	118,200	19.6
2002/03	122,400	19.7
2003/04	124,700	19.2
2004/05	127,200	19.6
2005/06	141,700	21.3

Note:
Numbers are rounded to the nearest 100.

Learning and Skills Council for England: Finance

Paul Holmes: To ask the Secretary of State for Innovation, Universities and Skills what proportion of Learning and Skills Council (LSC) funding will be diverted to local authorities as a result of changes to the machinery of Government announced on 28 June; what assessment he has made of the likely effect this will have on the number of staff the LSC employs; and if he will make a statement. [152438]

Bill Rammell: As set out in "Machinery of Government: Departmental Organisation", in order to provide strong strategic leadership for the 14-19 phase, overall planning responsibilities for that phase will transfer to the Department for Children, Schools and Families, as will all funding for 14-19 learners. Subject to consultation on the details and timing, to ensure there is no disruption to schools, colleges and training providers and the introduction of new diplomas, and the need to pass the necessary legislation, funding for school sixth forms, sixth form colleges and the contribution of FE colleges to the 14-19 phase will transfer from the Learning and Skills Council (LSC) to local authorities' ring-fenced education budgets. No decisions have yet been made about the proportion of LSC funding which will transfer to local authorities' ring-fenced education budgets and I estimate that it will be 2010/11 when the necessary legislative changes can take effect. In the three years until then, the LSC retains the legal responsibility for securing and funding all forms of post-16 education and training outside higher education, including 16-19 provision. We will be working closely with the LSC and other national partners, along with schools, colleges and training providers, to ensure that the changes are well managed, including any impact on the deployment of staff.

Mature Students

Mr. Touhig: To ask the Secretary of State for Innovation, Universities and Skills what proportion of people in *(a)* full-time and *(b)* part-time employment enrolled on college courses in England in the last five years. [151826]

Bill Rammell: We do not have information on the employment status of all people enrolling on college courses throughout the year. However, the Labour Force Survey (LFS) allows us to take a snap-shot estimate of the proportion of people in full-time and part-time employment who are enrolled on college courses at the time they are interviewed. The following table shows the estimates from the LFS winter quarter between 2001 and 2005.

Percentage

	Proportion of adults[1] in full-time employment enrolled on college courses[2]	*Proportion of adults[1] in part-time employment enrolled on college courses[2]*
2001	3.2	6.2
2002	3.2	5.8
2003	3.0	5.5
2004	2.8	5.3
2005	2.6	4.9

[1] Adults are defined as men aged 19-64 and women aged 19-59.
[2] College courses are defined as courses studied at colleges of further education, adult education centres, and independent colleges or universities.

Mature Students: Student Wastage

Julia Goldsworthy: To ask the Secretary of State for Innovation, Universities and Skills how many mature students withdrew from their higher education course in each year since 2003; and for what reasons they withdrew. [152284]

Bill Rammell: The Performance Indicators in Higher Education, published by the Higher Education Statistics Agency (HESA), include an indicator showing the proportion of UK-domiciled mature (aged 21 and over) entrants to full-time first degree courses at higher education institutions in England, who did not continue into higher education after their first year. A similar indicator is available for mature entrants to full-time other undergraduate courses. The available information is shown in the table.

Proportion of UK-domiciled mature (aged 21 and over) entrants to full-time higher education courses at higher education institutions in England, who did not continue into higher education after their first year

	2002-03	*2003-04*	*2004-05*
First degree	15.1	15.4	14.0
Other undergraduate courses	14.5	14.3	14.8

Source:
"Performance Indicators in Higher Education", published by HESA

The specific reasons for these groups of students withdrawing from their courses are not given.

Nanotechnology: Finance

Dr. Gibson: To ask the Secretary of State for Innovation, Universities and Skills (1) if he will increase the budget allocated in 2006-07 to support managed nanotechnology programmes; [152855]

(2) what mechanisms he has used to assess the potential effect of nanotechnology on economic development and societal change. [152856]

Ian Pearson: The Technology Strategy Board (TSB) and the research councils have the responsibility to determine both the detailed distribution of funding between their specific R and D and research priorities and the relevant funding mechanism.

More recently, the Economic and Social Research Council (ESRC) has undertaken studies on the socio-economic issues of nanotechnology:

"Nanotechnology: from the science to the social" was published in 2007 and follows up ESRC's earlier analysis "The social and economic challenges of nanotechnology" published in 2003 9both available on ESRC website

http://www.esrcsocietytoday.ac.uk/).

In addition, Research Councils UK has commissioned a study into developing a robust methodology for assessing future impact from Research Council investments. This should report by the end of the year.

The Engineering and physical Sciences Research Council (EPSRC) is implementing a programme in nanoscience through engineering to application, in order to build on the platform of earlier investments and to realise the benefits of the technology for society and the economy Key features will be:

strong partnerships with the TSB to achieve pull-through to a range of sectors;

the participation of the Science and Technology Facilities Council (STFC) and other research councils where relevant;

a grand challenge approach to identify the highest impact research areas;

leadership and co-ordination by a senior strategy advisor from the community.

Officials also sit on a new OECED working party on nanotechnology which will address a number of topics including impacts and business environment and the contribution of nanotechnology to addressing global challenges.

Overseas Students

Mr. Laws: To ask the Secretary of State for Innovation, Universities and Skills what proportion of students at universities in England were from overseas in each year since 1990-91. [150669]

Bill Rammell: The available information is given in the tables:

Proportion of overseas students[1] in higher education in the UK 1990/91 to 1993/94

Academic year	*UK domiciled students*	*Non UK domiciled students*	*Proportion of non UK domiciled students (percentage)*
1990/91	1,094,935	80,630	6.9
1991/92	1,211,385	88,655	6.8
1992/93	1,333,355	110,295	7.6
1993/94	1,450,425	128,510	8.1

[1] Includes HE level students taught in higher education and further education establishments.
Note:
Figures have been rounded to the nearest 5.
Source:
The Universities Statistical Record (USR) and the education departments of England, Scotland, Wales and Northern Ireland.

Proportion of overseas students in UK higher education institutions 1994/95 to 2005/06

Academic year	*UK domiciled students*	*Non UK domiciled students*	*Proportion of non UK domiciled students (percentage)*
1994/95	1,380,620	153,745	10.0
1995/96	1,497,185	184,625	11.0
1996/97	1,532,205	186,705	10.9
1997/98	1,558,585	200,965	11.4
1998/99	1,598,945	207,130	11.5
1999/2000	1,604,520	211,840	11.7
2000/01	1,643,865	219,725	11.8
2001/02	1,699,885	227,270	11.8
2002/03	1,764,945	255,235	12.6
2003/04	1,832,975	275,480	13.1
2004/05	1,870,715	288,430	13.4
2005/06	1,880,230	296,105	13.6

Notes:
1. Figures have been rounded to the nearest 5.
2. Proportions are based upon figures calculated on a snapshot basis as at the 1 December to maintain a consistent time series across all years.
3. Figures cover postgraduate and undergraduate students on full-time and part-time courses.
Source:
The Higher Education Statistics Agency (HESA).

Postgraduate Education: Science

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of state-supported doctoral students beginning their courses in each of the last 10 years studied *(a)* physics, *(b)* chemistry, *(c)* a physical science, *(d)* a biological science and *(e)* biochemistry. [149096]

Bill Rammell: The latest information for all entrants to doctorate courses by subject of study are given in the following table. A new classification for recording subject of study was introduced in 2002/03 and so figures from 2002/03 onwards are not comparable to earlier years.

UK domiciled doctorate entrants to higher education institutions in England—1996/97 to 2001/02

Subject of study	*1996/97*	*1997/98*	*1998/99*	*1999/2000*	*2000/01*	*2001/02*

In addition to monies paid to institutions in England, the Department provides financial support to English domiciled undergraduate students in the form of loans and grants through the Student Loans Company. Postgraduate students however are not entitled to student support, other than Disabled Students' Allowances.

Student Numbers

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many students there were on non-prescribed higher education courses in each of the last 10 years, broken down by course type. [149095]

Bill Rammell: The available information is given in the tables.

Enrolments at English Higher Education Institutions[1] Academic Years 1996/97 to 2005/06

Qualification Aim	*1996/97*	*1997/98*	*1998/99*	*1999/2000*	*2000/01*

Student Wastage

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of students at each relevant institution did not complete their degrees in each of the last 10 years. [149091]

Bill Rammell: The available information on the proportion of UK-domiciled entrants to full-time first degree courses who are projected to neither obtain an award nor transfer to another course is taken from table T5 of the Performance Indicators in Higher Education and has been placed in the House of Commons Library.

This information was published by the Higher Education Statistics Agency (HESA) for academic years 2001/02 to 2003/04 and by the Higher Education Funding Council for England (HEFCE) for 1996/97 to 2000/01. HESA will publish the figures for 2004/05 on 19 July 2007.

The information is also available at the following websites:

HEFCE (1996/97 to 2000/01):

http://www.hefce.ac.uk/learning/perfind/default.asp

HESA (2001/02 to 2003/04):

http://www.hesa.ac.uk/pi/home.htm

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the non-completion rate was of *(a)* part-time, *(b)* full-time students and *(c)* mature full-time students, broken down by institution in each of the last five years. [149786]

Bill Rammell: The available information on the proportion of UK-domiciled entrants to full-time first degree courses who are projected to neither obtain an award nor transfer to another course is taken from table T5 of the Performance Indicators in Higher Education and has been placed in the House of Commons Library.

This information was published by the Higher Education Statistics Agency (HESA) for academic years 2001/02 to 2003/04 and by the Higher Education Funding Council for England (HEFCE) for 1996/97 to 2000/01. HESA will publish the figures for 2004/05 on 19 July 2007.

Projected non-completion rates are not split by age group. However, the non-continuation indicators, taken from table T3a of the Performance Indicators in Higher Education, are available for young and mature age groups. These give the proportion of UK-domiciled entrants to full-time first degree courses who do not continue in higher education after their first year.

Neither the non-completion nor the non-continuation indicators are available for part-time students.

The information is also available at the following websites:

HEFCE (for figures up to 2001/02 inclusive):

http://www.hefce.ac.uk/learning/perfind/default.asp

HESA (for figures since 2002/03 inclusive):

http://www.hesa.ac.uk/pi/home.htm

Information on non-continuation indicators for all full-time first degree students is also available at these websites.

Students: East Sussex

Mr. Waterson: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* part-time and *(b)* full-time students registered for higher education courses at universities in East Sussex in each year since 1997. [151358]

Bill Rammell: The available information is given in the table. The University of Sussex is the only Higher Education Institution with its headquarters in East Sussex local authority.

Enrolments at the University of Sussex, 1997/98 to 2005/06

	1997/98	1998/99	1999/00	2000/01	2001/02	2002/03	2003/04	2004/05	2005/06

Part time	3,025	3,275	2,675	2,405	2,485	2,495	2,430	2,650	2,530
Total	11,495	11,750	10,900	10,915	11,080	11,080	11,105	11,345	11,370

Note:
Figures are on a snapshot basis as at 1 December, excluding those writing up on sabbatical or dormant. This is so that the figures are comparable across all the years. Snapshot figures will exclude students who are not in attendance on the 1 December, i.e. those on non-traditional academic years. Figures are rounded to the nearest 5.
Source:
Higher Education Statistics Agency (HESA)

Students: Finance

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills (1) how many people receiving education maintenance allowance do not qualify for maintenance grants but would do so under the new student support proposals; [149089]

(2) how many people are receiving education maintenance allowance, broken down by age; and what level of grant they will be eligible for under his new student support proposals. [149090]

Jim Knight: I have been asked to reply.

In the 2006-07 academic year 521,650 students were in receipt of EMA. This includes:

257,680 aged 16.

197,230 aged 17.

64,860 aged 18.

1,880 aged 19.

The threshold for EMA support is lower than the threshold for HE student support. Therefore under current arrangements all students in receipt of EMA would be eligible for some level of HE student support if their household incomes did not increase. We do not currently have information on how many more students would qualify for HE maintenance support under the new proposals.

Under the new proposals all 16-year-olds who receive EMA will be guaranteed a minimum level of support if they undertake a higher education course even if their household incomes increase. All 16-year-olds who receive the maximum level of EMA will be guaranteed the maximum level of maintenance grant (currently 2,700). This financial security will allow young people to look ahead to progressing to HE with confidence and no doubts about the finance support they will receive.

Students: Grants

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills (1) what percentage of university level students receive education grants; [151154]

(2) how many university level students receive education grants. [151223]

Bill Rammell: Data on maintenance and higher education grants for students in England 2006/07[1] applying for support through the Student Loans Company are given in the tables.

Maintenance grants were introduced for new full-time English domiciled students entering higher education in 2006/07, and replaced the higher education grant. The maximum amount of support available is £2,700 a year, and how much a student receives depends on their income and that of their household.

[1] Data for 2006/07 are provisional

Distribution of maintenance grants

	Student numbers (thousand)[1, 2]	Percentage of total
Students in receipt of a full maintenance grant	80	29
Students in receipt of a partial maintenance grant	61	22
Students in receipt of a nil maintenance grant	133	49
Total	275	100

[1] Includes the Special Support Grant which is payable to vulnerable groups of students who are eligible for Department for Work and Pensions benefits.
[2] Student numbers are rounded to the nearest thousand
Source:
Student Loans Company (SLC)

Students who entered higher education in 2004/05 and 2005/06 may be eligible for a means-tested higher education grant of up to £1,000.

Distribution of higher education grants

	Student numbers (thousand)[1]	Percentage of total[2]
Students in receipt of a full HE grant	115	26
Students in receipt of a partial HE grant	26	6
Students in receipt of no HE grant	309	69

Distribution of higher education grants

	Student numbers (thousand)[1]	Percentage of total[2]
Total	451	100

[1] Student numbers are rounded to the nearest thousand.
[2] Totals may not add due to roundings.
Source:
Student Loans Company (SLC)

We have just announced improvements to the student finance package which will help students and graduates manage their finances better. For entrants to HE from 2008/09, the maintenance grant income thresholds have been raised making one third of students eligible for a full grant and another third eligible for a partial grant.

Students: Loans

Mr. Waterson: To ask the Secretary of State for Innovation, Universities and Skills what the *(a)* average and *(b)* maximum student loan was in (i) Eastbourne and (ii) East Sussex in each year since 1997. [151356]

Bill Rammell: The available data is given in the following table:

Average value of income-contingent student loan, students domiciled in East Sussex, Academic years 1999/00 to 2005/06

Academic year[2]	Average value of income-contingent loan[1], East Sussex local authority (£)
1999/2000	3,280
2000/01	3,230
2001/02	3,270
2002/03	3,320
2003/04	3,350
2004/05	3,400
2005/06[3]	3,480

[1] Figures are rounded to the nearest £10.
[2] Data are not available prior to 1999/2000
[3] Provisional
Source:
Student Loans Company.

Separate data are not available for Eastbourne.

The maximum amount of maintenance loan to which a student is entitled is dependent upon where they are living during their study, rather than their domicile. The rates are given in the following table:

Maximum student loans for maintenance in 2006/07

£

Location of study	Full year rates up to	Final year rates[1] up to
Students living away from their parents' home and studying in London	6,170	5,620
Students living away from their parents' home and studying elsewhere	4,405	4,080
Students living at their parents' home (London and elsewhere)	3,415	3,085

[1] The amounts of loan are lower in the final year as students leave higher education at the end of the summer and will not need financial support over the summer holiday.

Training: Finance

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the *(a)* core budget and *(b)* total amount of funding received from Government sources was for the (i) Adult Learning Inspectorate, (ii) Basic Skills Agency, (iii) British Educational Communications and Technology Agency, (iv) Business Link Network, (v) Connexions, (vi) the Learning and Skills Council, (vii) the Learning and Skills Network, (viii) the Sector Skills Development Agency, (ix) Skills for Business Network, (x) Office for Fair Access, (xi) Quality Assurance Agency, (xii) Quality Improvement Agency, (xiii) University for Industry and Learndirect and (xiv) National Education Business Partnership Network in (1) 2003-04, (2) 2004-05, (3) 2005-06 and (4) 2006-07; and which of these have Civil service terms and conditions for their staff. [150555]

Mr. Denham: The information requested is set out in the following table. The vast majority of funding is spent on programme expenditure that directly funds learning or other services, for example improving the quality of provision. This funding is included in the category of 'other/programme expenditure'.

The category 'core funding' refers to administrative costs which are the costs of staff salaries as well as other non-pay costs such as accommodation, computer facilities and stationary.

The notes set out where it has not been possible to separate out administrative costs and programme costs or where figures are simply not available.

None of the following organisations have civil service terms and conditions for their staff, though some staff are members of the civil service pension scheme.

National Education Business Partnership Network[12]				
Core budget	—	—	—	—
Other/ programme expenditure	0.12	0.14	0.23	0.27
Total	0.12	0.14	0.23	0.27

[1] The core budget figures cover both programme and administration costs and it is not possible to separate these out. Other/programme expenditure relates to fixed term or tendered contracts.
[2] It is not currently possible to split out the funding for the Business Link Network into core expenditure and programme expenditure.
[3] Only programme funds are provided to Connexions Partnerships, the majority of which pays for the salary costs of Connexions Personal Advisers. The figures exclude funding for Connexions routed via Local Area Agreements to local authorities since this does not go to Connexions Partnerships. Figures only cover grant from the former DFES. We do not hold figures for any funds brought in by Connexions Partnerships which may include some public sector funding.
[4] These figures include some of the funding identified separately for the University for Industry.
[5] Subject to the successful passage of the Further Education and Training Bill, the LSC is expecting to reduce administration expenditure in 2007-08 through restructuring and the associated reductions in staffing, property and related costs. Expenditure on LSC administration is expected to reduce from £239 million (2.2 per cent. of LSC's budget) in 2006-07 to planned expenditure of £219 million (1.9 per cent. of LSC's budget) in 2007-08.
[6] The LSN is a private company competing for contracts through competitive tender. It receives some public funding from the QIA which is included separately in the figures quoted for the QIA. Many colleges and other providers in the FE system subscribe to LSN services using public funds, but this is an indirect relationship with government and the funds are not shown here.
[7] The Skills for Business Network is the brand under which the 25 Sector Skills Councils and the SSDA come together for marketing purposes. It is not a separately funded body or a legally constituted body of any description.
[8] The Office for Fair Access was established on 14 October 2004 but expenditure was incurred from 1 July 2004.
[9] Figures cover the HEFCE contract with the QAA only. HEFCE is not the sole source of income for the Quality Assurance Agency which also receives subscriptions from institutions and funding from other UK funding councils. It is not currently possible to provide the breakdown between core and programme expenditure.
[10] The Quality Improvement Agency was only formed in 2006 so figures have only been provided for that year.
[11] We have not included a breakdown of Ufi administration costs as they are not available in the format required.
[12] The National Education Business Partnerships Network is the umbrella organisation and national voice for the 126 local Education Business Partnerships working in England, Wales and Northern Ireland. Since 2003-04 DFES has grant-funded NEBPN to manage national networks for local and national practitioners of (a) work experience, (b) teachers' professional development, placements in business, (c) enterprise education. It is not possible to separate out core costs from the programme expenditure.

Mr. Boswell: To ask the Secretary of State for Innovation, Universities and Skills how many local

Train to Gain budgets are *(a)* overspent, *(b)* on target or *(c)* underspent. [152350]

Mr. Lammy: Train to Gain is an ongoing service and as such, performance is updated on a regular basis. Detailed operational information is not held centrally by the Department but is collected by the Learning and Skills Council (LSC) and Mark Haysom, the LSC Chief Executive will write directly to the hon. Member with the available information. A copy of his reply will be placed in the Library.

Vocational Training

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills (1) which employers who signed up to the Skills Pledge have been awarded Government contracts in the last five years; [149084]

(2) which employers who signed up to the Skills Pledge receive *(a)* all, *(b)* more than 50 per cent. and *(c)* any relevant funding from the public sector. [149085]

Mr. Lammy: On 14 June the Government launched the Skills Pledge with commitments from 157 employers with more than 1.7 million employees. Since the launch, employers have continued to register their interest in the Skills Pledge through the Learning and Skills Council's (LSC) Train to Gain website and helpline. The Learning and Skills Council is responsible for the operational aspects of the Skills Pledge, including recording which of those employers making a Skills Pledge are from the public sector. Mark Haysom will write to the hon. Member and a copy of his letter will be placed in the Library of the House. Employers who make a commitment to a Skills Pledge are able to access the support of a skills broker. These independent, impartial experts will help employers identify the skills needed to meet their business needs and any sources of public funding available. Those employers who have already committed to the Skills Pledge are now working through how best to fulfil their commitment, including any requirement for public funding.

Information on which of these employers hold a contract with Government agencies is not held centrally.

Letter from Mark Haysom, dated 31 July 2007:

As the Learning and Skills Council is responsible for the operational aspects of the Skills Pledge the Minister for Skills, David Lammy, has asked me to respond to your recent parliamentary question; which employers who signed up to the Skills Pledge receive a) all, b) more than 50 per cent. and c) any relevant funding from the public sector.

When a company or organisation registers its intention to make the Skills Pledge, it will have the option of accessing support and advice from a Skills Broker through Train to Gain. In respect of Central Government Departments, we are currently liaising with Government Skills to agree Skills Pledge support and advice arrangements. We are also working with DIUS to finalise criteria for Government Departments and their Agencies accessing public funding through Train to Gain/Skills Pledge.

Of the 156 employers who made the Skills Pledge on the 14th June 2007 those which could be classified as public sector bodies include: 21 Central Government employers, 15 Non-Departmental Public Bodies, 8 Regional Development Agencies, 6 Local Authorities and 8 other public sector bodies.

I hope this information is helpful and please do not hesitate to contact my colleague Gail Bailey on 02476 823269 or by email gail.bailey@lsc.gov.uk if you would like to discuss further.

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills (1) what proportion of businesses that have participated in the Train to Gain scheme have five employees or fewer; and what percentage of the Train to Gain budget is allocated to those businesses; [153464]

(2) how many and what proportion of each level of qualification have been achieved under the Train to Gain scheme in the last 12 months; [153465]

(3) what proportion of training conducted under the Train to Gain scheme has resulted from the use of skills brokers. [153466]

Mr. Lammy: Train to Gain is an ongoing service and as such performance is updated on a regular basis. Detailed operational information is not held centrally by the Department but is collected by the Learning and Skills Council (LSC). Mark Haysom, the LSC Chief Executive will write directly to the hon. Member and a copy of his reply will be placed in the Library

Letter from Mark Haysom, dated 7 August 2007:

I am writing in response to your recent Parliamentary Questions regarding Train to Gain. I have answered them in turn below.

What proportion of businesses that have participated in the Train to Gain scheme have five employees or less; and what percentage of the Train to Gain budget is allocated to those businesses:

LSC collects employer data by the following size bands: 1-49 employees, 50-249 employees, 250-4,999 employees and 5,000 plus employees. In the first 16 months of Train to Gain, 67% of organisations engaged are from the 1-49 band.

The Train to Gain budget is not allocated by these employer size bands. Instead, Skills Brokers are currently required to achieve a target of 51% of employers engaged being 'hard to reach' which means they have not supported their employees to participate in vocational training leading to qualifications in the previous 12 months and are not an Investors in People recognised company. Typically, micro and very small organisations are most likely to be 'hard to reach' so a high proportion of employers engaged to date will have fewer than 50 employees.

How many and what proportion of each level of qualification have been achieved under the Train to Gain scheme in the last 12 months.

The following achievements have been secured the period April 2006-June 2007.

Level 2/3 47,880

Basic Skills 11,680

While it is relatively early in the life cycle of Train to Gain and success rates will change in the next few months as providers submit success data, the current evidence indicates success rates of about 70% for both programme areas.

What proportion of training conducted under the Train to Gain scheme has resulted from the use of skills brokers:

It is early in the life cycle of Train to Gain and the LSC is still collecting and analysing data from providers and brokers. However, early indications are that 30% of learners have arisen from skills brokers who are targeting "Hard to Reach" employers that tend to be small organisations. This percentage is in line with original DfES and LSC planning assumptions.

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what qualifications are required for employment as a skills broker as part of the Train to Gain scheme. [153467]

Mr. Lammy: Train to Gain is a new service that reached national coverage in August 2006 and is a critical part of the drive to make this country's skills world class. Skills brokers are contracted for and performance managed by the Learning and Skills Council. It is a contractual requirement that, within 12 months of their appointment, every skills broker meets the new independently assessed City and Guilds accredited skills broker standard as part of the business support profession.

Young People: Parents

Sandra Gidley: To ask the Secretary of State for Innovation, Universities and Skills what proportion of teenage parents aged 16 to 19 are in education, employment or training. [152181]

Beverley Hughes: I have been asked to reply.

According to data collected in the 2006 Annual Population Survey, 29 per cent. of teenage parents aged 16 to 19 in England were in education, employment or training at the time they were surveyed.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Acid Rain

Harry Cohen: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment his Department has made of the *(a)* effects of acid rain and *(b)* trends in those effects in (i) the UK and (ii) internationally. [152611]

Mr. Woolas: Over the last two decades, the Government have supported an extensive research programme to investigate and understand the effects of acid rain on the environment.

The research has provided us with a greater understanding of the impacts of acid rain on both aquatic and terrestrial ecosystems and there is now evidence of recovery in some of the most acid-sensitive sites in the UK.

Most recent assessments of impacts on terrestrial ecosystems have also shown that there is a continuing reduction, over the last decade, in the areas of sensitive ecosystems across the UK, at risk from damage from acidification.

No direct assessment has been undertaken by the Government of the trends or effects of acid rain at an international level. However, the UK contributes significantly financially, and through provision of scientific expertise, to the work of the UNECE Convention on Long-range Transboundary Air Pollution. The ongoing review of one of the Protocols under the Convention (the Gothenburg Protocol) has highlighted significant reductions in sulphur deposition and consequent impacts on ecosystems across the UNECE region. Aquatic and forest ecosystems have also become less acidified.

Aggregates Levy

Tom Levitt: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the future of the Aggregates Levy Sustainability Fund. [152262]

Jonathan Shaw: The future of the Aggregates Levy Sustainability Fund beyond March 2008 is being decided in the current Comprehensive Spending Review.

Aggregates Levy: High Peak

Tom Levitt: To ask the Secretary of State for Environment, Food and Rural Affairs which projects in High Peak have been funded by the Aggregates Levy Sustainability Fund; and what the value is of each project. [152263]

Jonathan Shaw: The following projects have been funded by the Aggregates Levy Sustainability Fund in Derbyshire. We do not have a breakdown by constituency.

Project title	*Finish date*	*Grant (£)*
Aston on Trent Memorial Hall—Extension and Refurbishment	31 March 2007	50,000
Bamford Methodist Church and Hall—Replacement Windows	31 March 2007	13,600
Birchover Mires Restoration Project	31 March 2004	10,632
Bonsall Field Barn Restoration Project (Phase I)	31 March 2005	14,049
Bonsall Field Barn Restoration Project (Phase II)	31 March 2007	50,000
Brierlow Bar Drystone Wall Repairs	31 March 2007	19,890
Bugsworth Basin—Repair of Wharf Walls	31 March 2007	46,501
Burbage Institute Improvements	11 January 2006	7,400
Buxton and High Peak Golf Club Tree Planting Scheme	31 March 2005	5,100
Buxton Cricket, Bowling and Tennis Club—Restoration of Pavilion	31 March 2007	34,000
Buxton for Youth—Conversion of Premises	31 March 2007	30,434
Creswell Social Centre Kitchen Refurbishment	31 March 2007	12,518
Crich War Memorial Tower	1 April 2004	34,361
Cromford Hill Walling Project	31 March 2004	10,383
Cromford Hill Walling Scheme (Phase II)	31 March 2005	9,394
Cromford North Street Design Study	31 March 2007	14,250
Cromford Via Gelia Ponds and Footpaths Project	31 March 2007	38,750
Cromford Via Gelia Woodlands Stone Walling Scheme	31 March 2007	19,745
Dene Quarry—Dry Stone Wall Restoration (Phase II)	31 March 2007	15,750
Derwent Gardens Restoration, Matlock Bath	31 March 2007	10,000
Dove Holes Community Amenity Access Project	31 March 2005	14,419
Dove Holes Cricket Club—Provision of Cricket Practice Facility and Landscaping	31 March 2007	28,000
Dove Holes Drystone Walling	31 March 2004	2,045
Dove Holes Methodist Church—Repair of Wall	27 October 2005	3,528
Dove Holes Play Area	31 March 2007	26,200
Egginton Memorial Hall Roof Repairs	1 April 2004	38,915
Establishment of Deep Dale Nature Reserve, King Sterndale	31 March 2005	13,881
Fairfield Liberal Club Improvements	31 March 2007	5,693
Floodlighting of Sports Pitch at Buxton Community School	31 March 2004	46,500
Harpur Hill Club Improvements	31 March 2007	6,826
Harpur Hill Methodist Church—Provision of Disabled Toilet	31 March 2007	2,500
Hayfield Skate Park	31 March 2004	19,000
Hodthorpe Play Area	1 April 2004	25,568
Hope St. Peter's Church—Repairs	31 March 2007	5,000
Improvements to National Stone Centre	1 April 2004	31,614

Project title	Finish date	Grant (£)
Improvements to Stoney Wood, Wirksworth	31 March 2004	12,074
Improving Access and Biodiversity on Former Aggregates Sites	31 March 2004	32,384
Installation of Pathway in Cromford Playground	31 March 2005	3,825
Middleton Millennium Garden Improvements	31 March 2007	6,875
Newton Solney Church Re-Roofing	31 March 2007	25,000
Peak Dale Bowling Club—Surfacing of Car Park and Landscaping	22 December 2005	25,598
Pennine Bridleway—Perry Dale	1 April 2004	21,800
Pennine Bridleway, Perry Dale (Phase II)	31 March 2004	28,200
Pilot Boundary Stone Wall Restoration Project in Stoney Middleton and Wormhill	31 March 2004	7,500
Provision of Drainage and Water Supply to Vestry of St. Martin's, Stoney Middleton	31 March 2005	9,300
Rebuilding Drystone Walls on Boundary of Dene Quarry, Cromford	31 March 2005	11,500
Rebuilding Stone Walls in Wormhill	31 March 2005	5,526
Rebuilding Walls in Stoney Middleton	31 March 2005	3,786
Restoration of Sterndale Moor Club, Near Buxton	31 March 2005	12,952
Restoration of the "Bear Pit", Cromford	31 March 2005	1,418
Shardlow Village Hall Kitchen Refurbishment	31 March 2004	5,887
Slinter Pond and Tail Race Project, Cromford	31 March 2005	41,938
Slinter Project	1 April 2004	42,564
Soundproofing and Recladding of Middleton Village Hall	31 March 2005	24,057
Stanton Church Bell and Clock Restoration	1 April 2004	5,000
Stanton in Peak Village Hall, Kitchen Improvements	1 April 2004	4,235
Stanton in the Peak Holy Trinity Church—Replacement Heating System	31 March 2007	10,000
Stanton in the Peak Village Green Boundary Wall Replacement	31 March 2004	7,020
Sterndale Moor Play Area	31 March 2004	43,000
Stoney Middleton Conservation Area Drystone Wall Restoration	31 March 2007	5,015
Stoney Middleton Parish Church of St. Martin—Extension of Vestry (Phase II)	31 March 2007	27,570
Stoney Middleton Play Area Improvements	30 September 2006	36,168
Toothbrush Woodland Scheme, Tearsall Quarry, Bonsall Moor	31 March 2004	6,374
Train Ride to History—Wirksworth Mineral Railway Incline (Phase II)	31 March 2005	32,260
Train Ride to History—Wirksworth Mineral Railway Incline	1 April 2004	22,000
Tunstead Walling	31 March 2004	6,432
Watergate Footbridge, Hope	31 March 2007	58,500
Weston on Trent Village Hall Refurbishment	1 April 2004	19,437
Whitwell Footpath 18 Improvements	1 April 2004	3,825
Willington Tennis Court Restoration	28 November 2005	9,750
Wirksworth Community Park Redevelopment	31 March 2007	40,000

Agriculture: Subsidies

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of *(a)* administration of and *(b)* payments under the Single Payment Scheme has been since its introduction. [148722]

Jonathan Shaw: The cost of administering the Single Payment Scheme (SPS) in financial years 2005-06 and 2006-07 was £67.6 million and £75.1 million respectively. Costs include payroll, accommodation, travel and corporate overheads. IT investment costs have been excluded.

Payments to farmers under the scheme for the period to 30 June 2007 are as follows:

	£ million
SPS 2005	1,550
SPS 2006	1,489

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department expects to pay to farmers in North Yorkshire in 2007 in common agricultural policy payments; and how many farms will receive payments. [151516]

Jonathan Shaw: I am unable to make predictions about common agricultural policy payments this year. As far as the main CAP scheme, the single payment scheme (SPS) is concerned, the Rural Payments Agency has paid as at 18 July a total of £1.49 billion. Detailed analysis of all the payments made under the SPS is not yet available. Once the remaining scheme payments have been completed, a decision will be taken on the level of detail that will be published. The validation of claims under the 2007 SPS is at an early stage.

Agriculture: Wastes

Dr. Alasdair McDonnell: To ask the Secretary of State for Environment, Food and Rural Affairs what incentives are in place to encourage farmers to work with the Government to provide renewable sources of energy from agricultural waste. [150607]

Joan Ruddock: A specific technology that the Government are keen to promote is anaerobic digestion (AD). This is an effective source of renewable energy that can reduce greenhouse gas emissions from agriculture by capturing methane from manures and slurries, as well as from the decomposition of other organic materials, such as food wastes. The UK Biomass Strategy and the Waste Strategy for England include details of how we will work with stakeholders to drive a faster growth in the use of AD by local authorities, businesses and farmers.

The electricity derived from anaerobic digestion is eligible for market support through Renewable Obligation Certificates (ROCs). Alongside the Energy White Paper, the Government launched a consultation on differentiated support levels for different renewables technologies. Under these proposals, anaerobic digestion of agricultural wastes would receive additional support in the form of 2.0 ROCs/MWh. We are also examining the case and prospective mechanisms for long term support for the renewable heat sector and possible means to support the development of local infrastructure and supply chains.

The treated liquid from anaerobic digestion plants, known as digestate, has the potential for use as a fertiliser and soil conditioner. The Environment Agency and the Waste and Resources Action Programme (WRAP) aim to develop a standard and protocol for digestate by spring 2008. These would

provide regulatory clarity and confidence in its recovery on land. WRAP will support the development of the market for digestate alongside its work to establish markets for waste-derived compost.

Bovine Tuberculosis

Mr. Syms: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take in response to the June 2007 report of the Independent Scientific Group on Cattle Tuberculosis. [151568]

Jonathan Shaw: I refer the hon. Member to the answer given on 19 July 2007, *Official Report*, columns 505-06W.

British Waterways Board

Charlotte Atkins: To ask the Secretary of State for Environment, Food and Rural Affairs what extra work has been carried out by British Waterways as a result of the recent floods; and what estimate he has made of the extra costs of this work to British Waterways over the last two months. [153710]

Jonathan Shaw: Additional work carried out by British Waterways during the recent floods included keeping gullies, weirs and spillways clear to ensure that flood waters could disperse more easily and lowering of water in some canals to enhance capacity to take flood water from some of the more severely affected rivers.

British Waterways is still estimating the costs of repairs associated with the most recent flooding in the West Midlands and South West. Assessments of costs incurred in repairs, dredging and staff time for the floods that affected parts of Yorkshire and the East Midlands at the end of June currently stand at approximately £1.5 million.

Carbon Emissions: Electricity Generation

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs if he will reconcile the carbon emission factor for grid electricity shown in the Carbon Dioxide Calculator, Public Trial Version, Data, Methodology and Assumptions Paper of June 2007 of 0.527 Kg carbon dioxide/KWh and that shown in the Government's Standard Assessment Procedure for Energy Rating of Dwellings 2005 edition of 0.422 Kg carbon dioxide/KWh. [152968]

Mr. Woolas: There is no current intention to reconcile these two factors as they have been produced for different purposes.

In general terms, the carbon emission factor for grid electricity will vary from minute to minute as the fuel mix (e.g. renewables, gas, oil, coal, nuclear) and availability varies. To derive a factor for the purpose of calculations, it is therefore necessary to determine a period over which to average.

For the Act On CO_2 calculator, the purpose is to get as accurate a measure as possible for *current* CO_2 emissions. The factor of 0.527 kg carbon dioxide/kWh is the most recently available figure based on 2005 data from the DTI DUKES electricity supply data for major power producers and CO_2 emissions from the UK greenhouse gas inventory.

For the Government's Standard Assessment Procedure for Energy Rating of Dwellings 2005 edition consistency of comparison over a longer period of time is important. A longer averaging period has been used. The factor of 0.422 kg carbon dioxide/kWh is based on the 2000 DTI projections for expected mix of electricity supply for the average of the Central Growth/Low Price and Central Growth/High Price scenarios between 2000 and 2010.

Carbon Emissions: Equipment

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make an estimate of the annual carbon emissions produced by *(a)* lawnmowers, *(b)* trimmers, edgers and bush cutters, *(c)* leaf blowers and vacuums, *(d)* chain saws of less than four brake horse power, *(e)* shredders of less than five brake horse power, *(f)* lawn and garden tractors, *(g)* wood splitters, *(h)* snow blowers, *(i)* wood chippers and tree stump grinders, *(j)* other lawn and garden equipment and *(k)* other small two and four stroke petrol engine fuelled machinery. [153741]

Mr. Woolas: My Department does not currently have estimates for emissions attributable to the energy used by these types of products. The Market Transformation Programme covers the most significant products in terms of electricity and gas consumption and there are no plans to widen its coverage into these areas. Similarly, there are no estimates of the quantities of liquid fuels used by these types of products, as distinct from the major uses attributable to road transport.

Carbon Emissions: Manufacturing Industries

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what research he has *(a)* commissioned and *(b)* evaluated on (i) the balance of carbon emissions of UK imports and exports and (ii) the effect on the carbon intensity of UK economic activity of relocating manufacturing processes overseas. [153746]

Mr. Woolas: My Department is currently undertaking a research project considering the development of an "Embedded Carbon Emissions Indicator". This will enable more accurate measurement of embedded carbon emissions in supply chains outside the UK.

The work is not yet complete and the potential application of an indicator is still to be considered. The data development needed for a full evaluation model would be substantial, as much of the necessary data do not exist in a compatible form, especially outside the European Union.

Carbon Emissions: Power Stations

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs what volume of carbon dioxide was emitted in the UK by *(a)* coal, *(b)*

oil, *(c)* gas and *(d)* nuclear power stations in 2005-06; and if he will make a statement. [152929]

Mr. Woolas: In 2005, 173 million tonnes of carbon dioxide were emitted from UK power stations. This accounted for 31 per cent. of the total carbon dioxide emissions in the UK in that year. A more detailed breakdown of emissions by fuel is included in the table as follows.

Fuel	*CO_2 Emissions (Mt)*
Coal	114.12
Oil	2.51
Natural Gas	54.40
Other	2.04

There are no direct emissions of carbon dioxide from nuclear power stations.

Cereals

Michael Fabricant: To ask the Secretary of State for Environment, Food and Rural Affairs what the weight in tonnes was of the UK grain reserves in each of the last 12 quarters for which data are available. [153538]

Jonathan Shaw: The amounts of grain held in storage in the UK under Regulation (EC) No. 824/2000 and stored by the Rural Payments Agency as a result of market intervention measures under the common agricultural policy are set out in the following table:

Quarter ending	*Grain Levels*[1]
2004	
September	0
December	4,064
2005	
March	8,994
June	16,022
September	15,422
December	17,440
2006	
March	29,361
June	30,308
September	30,308
December	27,969
2007	
March	28
June	0

[1] Rounded to nearest tonne.

Common Land: Devon

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to settle the outstanding annual payment due to the Holne Commoners for the year ending 31 August 2007 in accordance with the Environmentally Sensitive Agreement 1999. [153660]

Joan Ruddock: I can confirm that the outstanding annual payment due under the Holne Commoners' Environmentally Sensitive Areas (ESA) agreement was processed on 9 July 2007.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has made to the European Commissioner responsible for environmentally sensitive schemes on the EU's financial obligations to commoners in Dartmoor National Park. [153661]

Joan Ruddock: None. The financial arrangements for the Rural Development Programme for the period 2007-13 were announced on 29 March 2007. This provides for £2.9 billion for agri-environment schemes, over double the expenditure spent in the last programme. This will enable all existing agri-environment agreements, including those for Dartmoor Commoners, to be maintained, and in addition allows for new agreements under Environmental Stewardship to be set up when the existing agreements expire.

Dartmoor National Park

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on the growth of bracken in Dartmoor National Park and the lack of provision of access for ramblers and riders in accordance with the Dartmoor National Park Act 1983. [153662]

Jonathan Shaw: My officials have informally discussed bracken encroachment on occasion with stakeholders, including Dartmoor commoners, along with other uplands land management issues. The Dartmoor Commons Act 1985 provides land management powers to deal with vegetation such as bracken. In addition, voluntary agri-environment schemes provide options for bracken control measures.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151744]

Mr. Woolas: The Department is unable to provide figures for the last five years but can provide figures for financial year 2005-06 and spend to date for financial year 2006-07.

	Amount (£)
2005-06	160,232.68
2006-07	61,395.56

All air conditioning units used now conform to the following Government environmental standards:

<12 kW—EU Energy Label class C or better

>12 kW—coefficient of performance of 2.85, or better (EGA)

Legislation prohibits the use of CFCs and HCFCs as refrigerants.

Departments: Aviation

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on *(a)* first class and *(b)* business flights in the last 12 months. [153095]

Jonathan Shaw: From information held centrally, the core-Department spent *(a)* £34,690 on first class and *(b)* £1,100,623 on business flights between July 2006 and June 2007.

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Departments: Catering

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of *(a)* beef, *(b)* sheep meat, *(c)* pork and *(d)* dairy products used in his Department in the most recent period for which figures are available were imported products. [150799]

Jonathan Shaw: My right hon. Friend the then Secretary of State for Environment, Food and Rural Affairs told the House on 8 March 2007 that he would commission work to determine the proportion of publicly procured food which is British, and place the information in the Library of the House by late autumn 2007 or sooner. My right hon. Friend the current Secretary of State will advise the House when this information is deposited in the Library of the House.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of people employed by *(a)* his Department and *(b)* its agencies are disabled. [153576]

Jonathan Shaw: The latest available data on the disability status of civil servants in Departments and agencies are as at 30 September 2006 and are published in "Civil Service Statistics 2006" at Table P. This document is produced by the Office for National Statistics and can be accessed from the following website addresses:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=&ColRank=1&Rank=422

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

Declaration of a disability is voluntary.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs how many of his staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148816]

Mr. Woolas: In the current financial year to date and the previous four financial years, 577 DEFRA employees have left the Department and its agencies under early retirement arrangements. The total cost to the Department of these exits was £56.820 million, including provision made at the time of each departure to meet related liabilities in future years. The following table sets out the breakdown of leavers by grade. Due to the fluctuating population of each grade at any given time figures expressing the listed totals for each grade as percentages of the totals for the Department would be unreliable.

	Number
Administrative Assistant	72
Administrative Officer	119
Executive Officer	92
Higher Executive Officer	73
Senior Executive Officer	48
Veterinary Officer	1
Grade 7	62
Grade 6	16
Senior Civil Service	21
Unidentifiable by Grade	73
Total	577

Departments: Employment Agencies

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151677]

Mr. Woolas: DEFRA came into being in June 2001.

From information held centrally, the core-Department's VAT inclusive expenditure on personnel engaged through employment agencies since 2001 is shown in the following table.

Financial year	*Expenditure (£)*
2002-03	10,536,828
2003-04	9,383,419
2004-05	9,623,459
2005-06	9,890,898
2006-07	6,665,696

From information held centrally, the core-Department's VAT inclusive expenditure on recruitment consultants in each financial year commencing with 2002-03 is shown in the following table.

Financial year	*Expenditure (£)*
2002-03	684,795.34
2003-04	1,106,361.08
2004-05	447,712.00
2005-06	999,207.53
2006-07	1,418,359.43

Recruitment agency fees are captured within the expenditure figures shown but could be identified separately only at disproportionate cost. The fees vary from assignment to assignment dependent on the factors relevant to a particular engagement including but not limited to the nature and complexity of the task specification; the personal skills set of the individual required; the state of the labour market; and regional factors.

Information for the financial year 2001-02 and expenditure by DEFRA's Executive Agencies is not held centrally and could be provided only at disproportionate cost.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs whether *(a)* his Department and *(b)* its agencies have made payment to Flint Bishop solicitors since 1997. [151397]

Mr. Woolas: No payments have been made by my Department or its Agencies to Flint Bishop solicitors since 1997.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on flowers in the last 12 months. [153096]

Jonathan Shaw: This information is not held centrally and could be provided only at disproportionate cost.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Environment, Food and Rural Affairs what legislative provisions introduced by his Department and its predecessor since 1997 have not yet been brought into force. [149568]

Jonathan Shaw: My Department and its predecessors have been responsible for the introduction of 20 Acts since 1997 of which some provisions of the following Acts have still to be brought into force:

Countryside and Rights of Way Act 2000

Water Act 2003

Commons Act 2006

Natural Environment and Rural Communities Act 2006

Animal Welfare Act 2006

Mr. Clegg: To ask the Secretary of State for Environment, Food and Rural Affairs what legislative provisions introduced by his Department and its predecessors since 1997 have been repealed. [149586]

Jonathan Shaw: My Department and its predecessors have been responsible for the introduction of 20 Acts since 1997. Some provisions of the following Acts have been repealed.

Birds (Registration of Charges) Act 1997

Plant Varieties Act 1997

Animal Health (Amendment) Act 1998

Water Industry Act 1999

Countryside and Rights of Way Act 2000

Water Act 2003

Clean Neighbourhoods and Environment Act 2005

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs which Bills introduced by his Department in the last five years have contained sunset clauses; and what plans he has for the future use of such clauses. [151841]

Jonathan Shaw: The following Bill, introduced by my Department in the last five years, has contained sunset clauses:

Water Bill (which became the Water Act 2003)

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case-by-case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152487]

Jonathan Shaw: The following Acts, introduced as Bills by my Department in the last five years have not contained sunset clauses.

Animal Health Act 2002

Waste and Emissions Trading Act 2003

Hunting Act 2004

Clean Neighbourhoods and Environment Act 2005

Climate Change and Sustainable Energy Act 2006

Natural Environment and Rural Communities Act 2006

Commons Act 2006

Animal Welfare Act 2006

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many press officers are employed by his Department. [153100]

Jonathan Shaw: The press office for core DEFRA consists of 23 full-time permanent press officer posts. Currently these posts are filled by 21 full-time permanent press officers and two temporary press officers.

Departments: Paper

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many reams of paper his Department *(a)* used and *(b)* recycled on average in weeks when Parliament was sitting in 2006-07. [150875]

Jonathan Shaw *[holding answer 19 July 2007]:* From information held centrally, between 1 November 2006 and 30 June 2007 the Department and its executive agencies used 129,028 reams of paper.

In financial year 2006-07, the Department and its executive agencies recycled 859,881 kilograms of paper.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs what volume of correspondence his Department sent *(a)* by Royal

Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150446]

Jonathan Shaw: From information held centrally, the core-Department has not used commercial delivery services other than Royal Mail.

The core-Department has issued the following volumes of correspondence by Royal Mail since 2003.

	Volume
2003	4,848,627
2004	9,668,341
2005	9,909,773
2006	9,749,716
2007 to date	3,228,676

Departments: Press

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs to which periodicals his Department subscribes. [153092]

Jonathan Shaw: The Department currently takes 10 newspaper titles and 171 periodical titles through its library services. I am placing a copy of the full title listing of these in the Library of the House of Commons. Newspaper and periodical requirements are reviewed annually to ensure their continuing relevance to the Department's changing business needs. As a result, some titles are cancelled and new ones subscribed to.

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on newspapers and magazines in the last 12 months. [153093]

Jonathan Shaw: DEFRA's expenditure on newspapers and periodicals through its library services for the financial year 2006-07 was £72,000.

This figure excludes the spend on newspapers and periodicals by DEFRA local offices and the Department's executive agencies. These figures could be compiled only at a disproportionate cost.

Departments: Railways

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on first class train tickets in the last 12 months. [153094]

Jonathan Shaw: From information held centrally, the core-Department spent £1,242,196 as first class train tickets between July 2006 and June 2007.

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Departments: Recycling

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what provision is made within his Department for the recycling of *(a)* paper, *(b)* glass and *(c)* plastics. [152901]

Jonathan Shaw *[holding answer 26 July 2007]:* The Department for Environment, Food and Rural Affairs has a wide range of recycling provisions for paper, glass and plastics across its estate. Recycling of these materials is closely monitored and reported quarterly against the government's Sustainable Operations on the Government Estate (SOGE) targets.

In addition recycling provision for each of these materials is audited, both internally and externally, through our Environmental Management System (EMS) programme.

Latest figures (2006-07) confirm that the Department for Environment, Food and Rural Affairs recycled 860 tonnes of paper, 38 tonnes of glass and 16 tonnes of plastic.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on taxis in the last 12 months. [153097]

Jonathan Shaw: From information held centrally, the core-Department's VAT inclusive expenditure on taxis in the last 12 months was £194,840. Additionally, the core-Department spent £48,770 with the Government Car and Despatch Agency (GCDA).

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on staff away days in the last 12 months. [153089]

Mr. Woolas: The information requested is not held centrally and could be supplied only at disproportionate cost.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151655]

Jonathan Shaw: DEFRA came into being in June 2001. From information held centrally, 199 tickets were booked for ministerial visits overseas between April 2006 and March 2007 at a cost of £112,774. Between April 2006 and June 2007, 6,906 tickets were booked for officials' visits overseas at a cost of £2,413,437.

Management information for visits overseas by Ministers and officials prior to April 2006 is not held centrally and could be provided only at disproportionate cost.

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Departments: Westmoreland

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs if he will

consider locating or relocating additional departmental jobs to Westmorland and Lonsdale. [152843]

Jonathan Shaw: DEFRA has no plans to relocate additional departmental jobs to Westmorland and Lonsdale. Under the Lyons agenda, DEFRA has a target to relocate 390 posts out of the south-east and to accomplish this target without incurring significant costs, DEFRA's strategy is to use existing accommodation outside the south-east. DEFRA already has accommodation in York and Worcester where the majority of posts will be relocated.

Departments: York

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how many jobs his Department and its agencies had *(a)* in York and *(b)* at the Central Science Laboratory site at Sand Hutton in each year since 2006. [151518]

Jonathan Shaw: The number of staff employed in each year by DEFRA and its agencies in the locations requested was as follows:

Location	*2006*	*2007*
City of York	582.66	592.65
Sand Hutton	599.50	598.10

Note:
All figures are full-time equivalents.

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs if he will consider *(a)* relocating additional departmental jobs to and *(b)* locating additional departmental jobs in York. [151519]

Jonathan Shaw: DEFRA has a target, under the Lyons agenda, to relocate 390 posts out of the south-east. As DEFRA already has existing accommodation in York, the strategy is to relocate over 50 per cent. of the posts to York. To date 96 posts have already been relocated with plans for a further 116 to be relocated by 2010.

The Shared Services Directorate, which brings together the delivery of corporate services to core DEFRA and a number of DEFRA family organisations, was launched on 1 April 2007 and the majority of staff working for the SSD will be based in York. However, as the organisational structure has not yet been finalised it is difficult to give the exact staff numbers at this stage, these are expected to be finalised by September 2007.

Dog Control Orders

Mr. Gale: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what consultation process will be undertaken by local authorities prior to the introduction of dog control orders; [153338]

(2) how many dog control orders have been implemented; [153340]

(3) whether his Department has consulted KC Dog in relation to the maintenance of records relating to dog control orders. [153341]

Jonathan Shaw: Although Dog Control Orders do not need confirmation by the Secretary of State, local authorities can only introduce them after completing the procedure prescribed in the Dog Control Order (Procedures) Regulations 2006. The procedure includes a period of local consultation and notification in the local press. This gives dog owners and local residents the opportunity to make representations to the local authority on the proposed controls.

In our guidance to local authorities on this issue, we have strongly advised them to consider any representations prior to making Dog Control Orders. Authorities should also provide details of alternative areas in the vicinity where owners can exercise their dogs. Failure to take into consideration the views of the local community could lead to the Order being challenged in the courts.

My Department does not hold central records of Dog Control Orders made, neither have we consulted with KC Dog, a group set up by the Kennel Club, on maintenance of such records.

Mr. Gale: To ask the Secretary of State for Environment, Food and Rural Affairs what obligations local authorities are under to consult local access forums prior to the introduction of dog control orders. [153339]

Jonathan Shaw: When a local authority is considering making a Dog Control Order that would affect open access land (land subject to Part 1 of the Countryside and Rights of Way Act 2000), it must consult the appropriate access authority, the relevant authority, Forestry Commission or Natural England and, if it is not also the access authority, the local access forum.

There are already comprehensive dog control provisions which may be applied to access land including, if necessary, the banning of dogs. An authority should therefore pay particular attention to the views of these bodies in deciding whether any proposed order affecting open access land is necessary.

Guidance on making Dog Control Orders under powers enacted under the Clean Neighbourhoods and Environment Act 2005 has been issued to all local authorities and is available from the DEFRA website.

Dogs: Syringomyelia

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps the Government are taking to eradicate syringomyelia among pedigree dogs; [152478]

(2) what representations he has received on the eradication of syringomyelia among pedigree dogs. [152479]

Jonathan Shaw: My Department has received a number of representations on syringomyelia and other conditions which can afflict some pedigree dogs. My officials have recently initiated discussions with the Kennel Club to look at what practical steps have been taken, or could be taken, by breeders of pedigree dogs to eradicate or ameliorate conditions such as these. I have asked to be kept informed on the outcomes of discussions.

Environment Agency: Finance

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will review the decision not to increase the Environment Agency's budget before 2010-11. [152880]

Jonathan Shaw: The Comprehensive Spending Review (CSR07) settlement is not expected from Her Majesty's Treasury until the autumn. No final decision has been made on the level of grant in aid to the Environment Agency over the next three financial years. However, the Secretary of State has confirmed that spending across Government on flood and coastal erosion risk management will increase to £800 million by 2010-11. Indicative allocations for flood and coastal erosion risk management over the next three financial years will be determined from an assessment of priorities across the Department following the CSR07 settlement.

Environment Agency: Meteorology

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs when the Environment Agency was notified by the Meteorological Office of the warning of severe weather with regard to the weather events on and around 20 July; and what information was provided. [153729]

Jonathan Shaw: On 18 July, the Met Office contacted the Environment Agency's National Flood Warning Duty Officer to provide early warning of a severe rainfall event expected between 19 and 21 July. A number of severe weather warnings were then issued by the Met Office during this period.

Typically, these warnings provided information on the geographical areas and watercourses likely to be affected by the severe weather, the amount of rainfall expected, the timing of the anticipated severe weather event, and the Met Office's degree of confidence in the forecast.

The following extracts are examples of the information provided by the Met Office in its severe weather warnings.

Date	*Time*	*Event*
19 July	05.37	Event 0900 to 2000 on 19/7. Low confidence for Welsh Mountains, Welsh/Shropshire Hills, Severn Lowlands, Central, Staffs and High Peak, Trent Lowland, Avon/Soar Headwaters of 10mm or more in 1 hour, 15 or more in 6 hours, 20 mm or more in 12 hours.
19 July	20.25	Event 0900 to 2000 on 19/7. High confidence for Welsh Mountains, Welsh/Shropshire Hills, Severn Lowlands, Central, Staffs and High Peak, Trent Lowland, Avon/Soar Headwaters of 15mm or more in 6 hours, 20 mm or more in 12 hours.
20 July	16.56	Event 2100 on 19/7 to 0900 on 21/9. High confidence for Welsh Mountains, Welsh/ Shropshire Hills, Severn Lowlands, Central, Staffs and High Peak, Trent Lowland, Avon/ Soar Headwaters of 15mm or more in 6 hours, 20 mm or more in 12 hours.

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what the policy is of the Environment Agency on acting upon forecasts of bad weather received from the Meteorological Office. [153731]

Jonathan Shaw: The Environment Agency has procedures in place to ensure that Regional Forecasting Duty Officers translate the Met Office heavy rainfall warnings into forecasts of river levels and flows.

These are used to inform decisions on whether to issue flood warnings and/or carry out specific operational activities.

Eunomia: Research

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* research and *(b)* consultancy work his Department has commissioned from Eunomia. [153726]

Jonathan Shaw: I refer the hon. Member to the answer given on 15 June 2007, *Official Report*, column 1364W, by the then Parliamentary Under-Secretary of State for DEFRA, my hon. Friend for Exeter (Mr. Bradshaw) to the hon. Member for Meriden (Mrs. Spelman).

Fisheries: Protection

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 23 July 2007, *Official Report*, columns 648-50W, on fisheries: protection, why the Royal Navy Fishery Protection Service contracted days have been reduced to 700 up to a maximum of 750. [153475]

Jonathan Shaw: As part of negotiations of the new agreement to apply from 1 April 2008, officials of the Marine and Fisheries Agency, Ministry of Defence and Royal Navy reviewed the operational requirements and budget implications for future patrol activity at sea. It was decided that the operational needs could be delivered through the provision of 700 patrol days for 2008-09, and with the agreement providing for a minimum of 600 and maximum of 750 patrol days per year, using the more modern and efficient River Class Patrol vessels. The existing arrangements are based on a mixture of River and Hunt Class vessels.

Flood Control: Agriculture

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many of the recommendations of the August 1998 Agriculture Select Committee Report on flood and coastal defences (HC 707) have been implemented. [153702]

Jonathan Shaw: All 22 of the recommendations taken forward in the Government Response to the 1998 Agriculture Select Committee Report have been implemented and in many instances additional actions completed.

Copies of the full list of Government actions against recommendations have been placed in the House Library.

Flood Control: EU Grants and Loans

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what money has been received in the last 10 years from the European Union for *(a)* flood defences and *(b)* compensation to (i) agencies and (ii) individuals affected by flooding. [152910]

Jonathan Shaw *[holding answer 26 July 2007]:* The Environment Agency (EA) have received £5.9 million in total in relation to flood risk management work (including flood defences) over the last 10 years from the European Union (EU) and will continue to look at the possibility of applications to the EU for flood defence.

Details of the projects, the amount of funding received and the European fund it came from are provided in the following table:

Project name	*Project topic*	*Amount received by Environment Agency in EU grant*[1]	*Source of EU funding*
ACTIF	Achieving technological innovation in flood forecasting (ACTIF)	35,000	Framework Programme for Research and Development (DG Research)
FRaME (Alkborough)	Engineering and public consultation work to produce multiple-benefit wetland area (i.e. has flood benefits but also recreation and wildlife benefits and others)	645,000	Interreg III (DG Regio)
FLOWS	Looks at risk-based planning and development control in low-lying zones at risk of flooding.	70,000	Interreg III (DG Regio)
COMRISK	Flood defence planning in coastal lowlands	103,000	Interreg III (DG Regio)
COMCOAST	Develop and demonstrate an innovative solutions for flood risk management in coastal areas in the East of England	100,000	Interreg III (DG Regio)
Floodscape	Flood risk management engineering work and public participation work on the River Thames	400,000	Interreg III (DG Regio)
New Forest LIFE	Flood risk management through re-shaping streams and rivers in the New Forest	300,000	LIFE (DG Environment)
Llandovery Flood Alleviation Scheme	Creating a flood alleviation scheme	66,000	Objective 1 European Regional Development Fund (2000-06) (DG Regio)
Flood Risk Management Wales	A large project comprising a number of elements. Focused on flood defence works	2,718,000	Objective 1 European Regional Development Fund (2000-06) (DG Regio)
Flood Forecasting Wales	Implementing flood forecasting.	359,000	Objective 1 European Regional Development Fund (2000-06) (DG Regio)
Flood Defence Improvements Scheme Bungay	Flood defence work.	1,100,000	Objective 2 European Regional Development Fund (2000-06) (DG Regio)
Total		5,896,000	

[1] Grant received in euro but amount converted to sterling for reporting here. The money was received in the form of EU funding grants awarded to projects that the EA were involved in either as a partner or a lead partner. The EA have only included here the amount of ED funding received by the Environment Agency for their own work.

I am not aware of any other funding applied for, or received from the European Union for flood defences, or to compensate those affected by flooding.

Mark Pritchard: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has made an application to the European Solidarity Fund for funding for areas of England affected by recent flooding. [149131]

John Healey: I have been asked to reply.

No such application has yet been made as we are currently collecting all the information necessary for us to assess the full financial effect of the damage caused by the June and July floods before deciding whether such an application could meet the strict criteria laid down for mobilising the Fund.

Flood Control: Expenditure

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Environment Agency spent on *(a)* capital expenditure and *(b)* expenditure on maintenance in relation to flood defence in each of the last three years; and if he will make a statement. [152881]

Jonathan Shaw: The figures reflect Environment Agency spend on flood risk management funded by DEFRA and exclude spend funded from other sources (e.g. levies on local authorities, beneficiary contributions, charges). Capital figures reflect spend on new and improved capital measures to reduce flood risk, including on flood warning infrastructure. Maintenance figures reflect spend on maintenance of existing assets. Other Flood Risk Management (FRM) spend covers the cost of delivering flood warning services, flood mapping, development control, data management such as the National Flood and Coastal Defence Database, regional flood defence committees and other associated costs such as investment in and provision of information systems (IS), accommodation and overheads.

£ million

	2004-05	*2005-06*	*2006-07*
Capital	151	202	162
Maintenance	162	163	176
Other FRM Spend	61.9	152.9	115

The additional spend in 2005-06 was largely funded from financial balances. These had been held by

Regional Flood Defence Committees to meet the cost of unforeseen events such as severe flooding, as at the time the Agency's spend on flood risk management was largely funded from levies on local authorities. Since 2004, this spend has primarily been funded by DEFRA and such balances are no longer maintained.

The Environment Agency is the principal operating authority with responsibility for flood risk management in England. However, Government-funded works are also carried out by local authorities and, in areas with special drainage needs, internal drainage boards. The Agency incurs spend on other activities related to flood risk management such as operational costs, advising on plans for new development.

Flood Control: Finance

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will instigate an immediate review of the Environment Agency's planned expenditure on *(a)* capital projects and *(b)* regular maintenance in respect of flood defence in each of the next three years. [152882]

Jonathan Shaw: The Environment Agency produces annual Medium Term Plans setting out their proposed flood risk management capital schemes for the following five years. This year's exercise is due to be completed in the autumn and will be reviewed by the Department. It will inform targets and funding allocations for the 2007 Comprehensive Spending Review (CSR07) period (2008-09 to 2010-11).

The Environment Agency currently develop a maintenance programme each year based on their assessment of the condition of its flood defences. Outcome Measures for flood risk management have recently been defined and it is anticipated that these will be used to set targets progressively during the CSR07 period, starting with the capital programme in 2008-09 and extending to maintenance and other flood risk management activities from 2009-10. This should enable a direct comparison of, and more efficient allocation between, capital and maintenance works.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs by what mechanism internal drainage boards are funded by the public purse. [153701]

Jonathan Shaw: The legislative framework for internal drainage board (IDB) funding is the Land Drainage Act 1991. Under the Act, there are three mechanisms by which IDBs can receive public funding to support their flood risk management and associated activities.

IDBs may impose special levies on local authorities (district and unitary authorities) to fund their work in the district. This is not permissive (or discretionary) expenditure and the levies must be paid. Relevant councils do sit on the IDBs and while these members are not appointed to represent local authority interests on the IDB, they are in a position to have some influence on the sums raised through special levies.

All properties within a drainage district are deemed to derive benefit from the activities of an IDB. Every property is therefore subject to a drainage rate paid annually to the Board.

For the purposes of rating, properties are divided into (a) agricultural land and buildings and (b) other land (such as domestic houses, factories, shops etc). Occupiers of all "other land" pay council tax or non-domestic rates to the local council who then are charged by the Board under the special levy arrangements above. The Board, therefore, only imposes drainage rates direct on agricultural land and buildings.

The basis of this is that each property has been allotted an "annual value" which were last revised in the early 1990s. The annual value is an amount equal to the yearly rent, or the rent that might be reasonably expected if let on a tenancy from year to year commencing 1 April 1988.

The annual value remains the same from year to year. Each year the Board lays a rate "in the £" to meet its estimated expenditure. This is multiplied by the annual value to produce the amount of drainage rate due on each assessment. A breakdown of the rate in the £ is shown on the reverse of the demand note to show how money is spent.

DEFRA funds individual capital improvement projects promoted by IDBs, subject to relevant economic, social, environmental and prioritisation criteria.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how much public funding was allocated to the internal drainage boards in each year since 1997-98. [153728]

Mr. Woolas: The following table shows details of public funding allocated to internal drainage boards (IDBs) in each year from 1999-2000. Figures prior to this year are not held centrally by DEFRA. Please note that not all income is included in the 2005-06 figure.

Income received by internal drainage boards

£ million

	Agricultural drainage rates[1]	*Special levies*[2]	*EA cont*[3]	*Devp cont*[4]	*Other beneficiary contributions*[5]	*Government grant*[6]	*Loans received*[7]	*Other*[8]	*Total*
1999-2000	11.3	18.8	2.1	—	0.8	0.5	0.6	6.4	40.5
2000-01	11.1	19.5	2.0	1.1	0.3	0.3	0.2	7.5	42.0
2001-01	11.7	20.2	2.3	1.3	0.2	2.0	0.6	6.7	45.0
2002-03	12.4	21.3	2.6	1.4	0.8	2.0	0.5	6.8	47.8
2003-04	12.8	22.1	2.5	1.9	0.2	1.3	1.0	5.2	47.0
2004-05	13.4	23.7	2.5	2.1	0.8	1.1	1.4	6.4	51.5
2005-06	13.4	24.7	2.8	—	—	—	—	—	40.9

[1] Agricultural drainage rates collected by the IDB from agricultural land and buildings within the drainage district.
[2] Special levies collected by the IDB—local authorities pay special levies to internal drainage boards which fall entirely or partly within their boundaries to take account of works the boards do in relation to flood risk management, for example in urban areas.
[3] Contributions from the Environment Agency.
[4] Contributions from developers.
[5] Contributions from other beneficiaries.
[6] Government grant—DEFRA funds individual capital improvement projects promoted by IDBs subject to relevant economic, social, environmental and prioritisation criteria.
[7] Loans raised from the public works loans board to fund balance of grant costs etc.
[8] All other income (including contributions from local authorities, income from rechargeable works undertaken for others, and interests received on deposits).
Note:
In financial year 2005-06, not all information on income and expenditure was collected centrally by DEFRA. As such the figure represented in the total column does not equal all income received by IDBs in that financial year.

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* capital and *(b)* resource departmental expenditure limit for flood defence grant in aid was in each year since 1997 for (i) England and (ii) each region; and if he will make a statement. [153590]

Jonathan Shaw: The Departmental Expenditure Limit (DEL) has only applied to the Environment Agency since 2004 when flood risk funding was provided directly rather than through the local authority levy.

The DEL for Flood Defence Grant-in-Aid (FDGIA) is provided to the Agency and is not split across regions. The Environment Agency seeks to ensure that funding is moved flexibly across regions within the DEL total to ensure the best value for spend.

The following table shows the figures for the Environment Agency FDGIA from 2004 to 2008.

				£ million
	2004-05	*2005-06*	*2006-07*	*2007-08 (Budget)*
Capital	189	189	195	189
Revenue	166.6	261.3	223.9	246.9
Total	355.6	450.3	418.9	435.9

The Agency also receives other income from charges, precepts, contributions and residual local levies. In addition to the FDGIA made available to the Environment Agency, DEFRA also provides capital grants to local authorities and Internal Drainage Boards (IDBs).

The table shows DEL from 1997 to 2008.

	£ million
1997-98	n/a
1998-99	n/a
1999-2000	n/a
2001-02	n/a
2002-03	48.7
2003-04	49
2004-05	45.8
2005-06	73.4
2006-07	84.4
2007-08	67.3

2007-08 (Budget)

Local authorities and IDBs receive revenue funding from the Department of Communities and Local Government, which contributes to the cost of operation. They also receive other income from charges, contributions and levies.

Flood Control: South West Region

Mr. Syms: To ask the Secretary of State for Environment, Food and Rural Affairs how many zones at risk of flooding have been highlighted by the Environment Agency in *(a)* Poole and *(b)* the south west region. [151571]

Mr. Woolas: The Environment Agency have flood warning areas, each of which relates to a discrete area at risk that receives the flood watch, flood warning and severe flood warning services.

Within the south west region of the Agency, there is one tidal flood warning area specifically for Poole. There are 202 fluvial and 37 tidal flood warning areas for the whole region, a total of 239 risk zones.

Flood Control: Tewkesbury

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Environment Agency on the number of sandbags which are *(a)* available and *(b)* in position for use when flooding occurs in Tewkesbury constituency; and if he will make a statement. [152886]

Jonathan Shaw: I have not had focused discussions on this specific aspect of the flooding that occurred in Gloucestershire.

The Environment Agency has produced guidance on the use of sandbags with the Local Government Association. Sandbags must only be seen as an emergency response. There are more robust solutions that resist flooding of individual domestic properties such as flood-boards and airbrick covers.

I understand from the Environment Agency that approximately 2,500 sandbags were available in Tewkesbury and all were deployed.

Floods: Gloucestershire

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what extra help has been supplied by agencies stationed outside Gloucestershire to that county during the recent flooding; and if he will make a statement. [152888]

Jonathan Shaw: Mutual aid arrangements exist between the different areas of each organisation such as local authorities and the police so that resources can be switched to wherever they are most needed. In addition, procedures are also in place for central resources to be provided on request by local emergency responders. This can include assistance from the armed services, as for example we have seen in Gloucester in recent days.

Additional help for Gloucestershire during the recent flooding has also, for example, included the provision of a number of high volume pumps, brought into the area to assist in the pumping out of flood water.

Floods: Greater London

Lynne Featherstone: To ask the Secretary of State for Environment, Food and Rural Affairs what flood prevention measures were put into place in each London borough in each of the last five years. [153567]

Jonathan Shaw: The Environment Agency is the principal authority with responsibility for flood risk management in England, although local authorities also carry out works on less critical watercourses. The following tables show capital improvement works carried out by the agency only and exclude maintenance and operational work.

1. Projects to renew or improve fluvial (non-tidal) defences on northern and southern tributaries of the River Thames.

1.1 North East Thames

	Flood Prevention Renewals	Location	London Borough	Cost (£)
2004-05	Prince Edward Playing Field Flood storage area on the Edgware Brook.	Cannons Park	Harrow	1,200,000
2004-05	Sixgates Bank and retaining walls repair works on the River Roding.	Barking	Barking and Dagenham	800,000
2005-06	Priory Park Increase size of Flood Storage Reservoir.	Stanmore	Harrow	800,000
2005-06	Stonywood lake FSA Reconstruction of dam and increase size of Flood Storage Area on the Deans Brook	Mill Hill	Barnet	1,400,000
2005-06	River Lee FRC Walthamstow Major repair of existing channel of the River Lee Flood Relief channel	Walthamstow	Walthamstow	1,200,000
2005-06	Pymmes Brook Culvert. Removal of a culvert which presented a threat to blocking the Pymmes Brook	Edmonton	Enfield	1,300,000
2004-05	Low Hall Trash Screen. Reconstruction of trash screen	Walthamstow	Walthamstow	100,000
2004-05	Field End Road Trash Screen Reconstruction of trash Screen	Eastcote	Hillingdon	100,000
2005-06	Wealdstone Brook Bank works Repair to banks to prevent collapse and blockage of the Wealdstone Brook	Kenton	Harrow	100,000
2004-06	Mayes Brook Sluices Reconstruction of the Sluice gate and control structure for the flood storage area	Barking	Barking and Dagenham	900,000
2005-06	River Pinn Diversion Removal of culvert, on the river Pinn.	Hatch End	Harrow	200,000
2004-05 2006-07	Washlands Flood Storage Reservoir Reconstruction of the flood storage reservoir and increase in capacity	Dagenham	Barking and Dagenham	4,400,000
Total				12,500,000

1.2 South East Thames

	Flood Prevention Renewals	Location	London Borough	Cost (£)
2002-07	River Quaggy Flood Alleviation Scheme	River Quaggy	Greenwich and Lewisham	18,000,000
2007-08	Refurbishment of three trash screen sites on the Beverley Brook	Ashlone Warf, Putney, Richmond Park, and New Malden	Richmond and Merton	150,000
2007-08	Refurbishment of EA Trash screen -Upper Elmers End	Beckenham, St James Stream	Bromley	15,000
2007-08	Refurbishment of EA Trash Screen	Kyd Brook	Bromley	51,000
2007-08	Refurbishment of EA Trash Screen	Ravensbourne	Bromley	34,000
2005-07	Channel reprofiling and increased flood storage	Hogsmill near A240	RB Kingston upon Thames	120,000
2006-07	Channel reprofiling, creation of flood banks and increased flood storage	Ladywell Fields Lewisham	Lewisham	100,000
2002-04	Channel reprofiling, creation of flood banks, increased flood storage and flood warning improvements	Chinbrook Meadows	Lewisham	250,000
2002	Channel reprofiling and increased flood storage	Shaftesbury Park	London borough of Bromley	90,000
2002-03	Channel reprofiling and increased flood storage	Norman Park	London borough of Bromley	180,000

1.2 South East Thames

	Flood Prevention Renewals	Location	London Borough	Cost (£)
2005-07	Channel reprofiling, creation of flood banks, increased flood storage, construction of new trash screen and flood warning improvements	Upstream of Hayes Lane Bromley	London borough of Bromley	450,000
2003-06	Channel reprofiling and increased flood storage	Crayford Marshes Erith	London borough of Bexley	250,000
2005-06	Raising of flood defences, improvements in capacity of structure and flood warning improvements	Flood Siphon on River Graveney at Colliers Wood	London borough of Merton	900,000
2004-05	Banks stabilisation and weir removal	River Wandle outside Garrett Lane Depot	London borough's of Merton and Wandsworth	120,000
Total				20,710,000

2. Projects to renew or improve Thames Tidal defences along the northern and southern banks of the River Thames.

	Flood Prevention Renewals	Location	London Borough	Cost (£)
2002-03	Strengthening and renewal of masonry flood defence wall (tidal)	Strand on the Green	Hounslow	782,000
2004-05	Renewal of a deficient flood defence wall (tidal)	Upstream of Barking Barrier	Barking and Dagenham	92,000
2005-06	Renewal of tidal flood defence wall	New England Wharf	Barking and Dagenham	1,300,00
2005-06	Renewal of tidal flood defence wall	Frognore Estate	Barking and Dagenham	425,000
2005-06	Renewal of tidal flood defence wall	Anchor Bay Wharf	Bexley	770,000
2006-07	Renewal of tidal flood defence wall	Old British Gas Site	Barking and Dagenham	35,000
2006-07	Renewal of masonry flood defence wall (tidal)	Four Gates Sluice	Barking and Dagenham	460,000
2006-07	Renewal of tidal flood defence earth embankments	Dartford Creek Frontages	Bexley	2,600,000
2006-07	Renewal of tidal flood defence steel sheet pile wall	Marley Water Proofing Frontages	Barking and Dagenham	600,000
2007-08	Renewal of tidal flood defence steel sheet pile wall	Marley Water Proofing Frontages	Barking and Dagenham	700,000
2007-08	Renewal of tidal flood defence earth embankments	Dartford Creek Frontages	Bexley	2,500,000
2007-08	Renewal of tidal flood defence walls	Isle of Dogs Frontages	Tower Hamlets	1,000,000
Total				11,264,000

Floods: Helicopters

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how many helicopters are available to the Environment Agency to implement emergency flood protection; and what evaluation he has made of the adequacy of these aircraft for such transportation work. [153483]

Jonathan Shaw: The Environment Agency is able to call upon military assistance during a crisis where there are lives at risk. The availability of these assets is dependent on military deployment at the time and is managed through Royal Air Force Kinloss.

Helicopters would be used only when land-based emergency flood protection measures cannot be undertaken safely. The Ministry of Defence determines the adequacy of these aircraft for transportation of sandbags and other materials.

Floods: Publicity

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what methods the Environment Agency uses to alert householders without access to the internet to flood warnings; and if he will make a statement. [151145]

Mr. Woolas: The Environment Agency uses a number of methods to alert householders. Floodline Warnings Direct alerts householders via an automated message system using phone, mobile, and pagers to send voice messages, faxes and SMS (Short Message Service). Sirens, loudhailers and media broadcasts are also used.

In addition, police officers and other officials have provided 'door to door' information to significant numbers of people throughout the period of flooding in a heroic and successful exercise. These warnings have been undertaken as a result of the civil resilience planning under the auspices of the 2004 Civil Contingencies Act, which requires all Category 1 responders to maintain arrangements to warn the public, and to provide information and advice to the public, if an emergency is likely to occur or has occurred.

Floods: Tewkesbury

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of households in Tewkesbury constituency which are without *(a)* water and *(b)* electricity as a result of the recent floods; when he expects those supplies to be restored; and if he will make a statement. [152889]

Jonathan Shaw: The following answer is current at 11:00 on Thursday, 26 July.

Flooding has rendered the Mythe water treatment works inoperable. Current estimates are that 140,000 premises are currently without tap water across the region and that it could take between seven and 14 days to restore services. It is estimated that 10,000 of these premises are in the Tewkesbury area.

A temporary solution has been devised by Severn Trent Water which will allow some water from the Strensham treatment works to be directed to the piped system serving Tewkesbury. Pumping is planned to start on 26 July and should build up to 20 megalitres a day. However, this supply will be intermittent and discoloured and customers will be advised that it should not be used for drinking. Customers that do get this water should continue to rely upon bottled water and, after boiling, water from bowsers for drinking purposes.

The priority is to increase the supply of drinking water. Across the region, over 900 water bowsers and tanks have been deployed. More are being obtained and the number is expected to increase to 1,800. Some 75 road tankers are filling the bowsers every day and more have been sourced. Bottled water distribution points have been set up and up to 5 million litres of water are being provided every day. A list of vulnerable people and isolated communities has been collated.

We understand few households are now lacking power. Emergency measures to prevent flooding of Walham electricity switching station have so far been successful in ensuring continued operation of this major component of the power supply system.

Floods: Warnings

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Environment Agency took recently to warn the public about possible flooding; when the flood warnings were issued; what other steps the Environment Agency took in response to the Meteorological Office warning and information; and when these steps were taken. [153730]

Jonathan Shaw: The Environment Agency has worked closely with the Met Office, receiving a number of flood specific weather and rainfall warnings, which helped to inform the agency's flood forecasting systems. In total, the Met Office issued 214 flood warnings, including 19 severe flood warnings, from 18 July.

In response to this, the Environment Agency issued warnings to an estimated 145,000 people via its free Floodline Warnings Direct system. This provides information to the public, the emergency services, local authorities, and the media via email, telephone, mobile, fax or pager.

Forestry: Flood Control

Mr. David Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the effects of large-scale tree felling on the risk of flooding in flood-prone areas. [153421]

Mr. Woolas: Flood risk management is a devolved responsibility and this answer relates to England only. Changes in the way land is used can impact on the speed and volume of flood water run-off. However, deforestation is not a significant factor increasing flood risk in England.

There has been research on the impacts of woodlands and forestry on flood run-off. Mature forests can reduce the rate of run-off. New plantations can in fact increase it though this can depend on the nature of any drainage infrastructure installed in connection with them. Evidence to date suggests that, while there can be a significant impact on smaller flood events at the local scale, effects are likely to be much less for more extreme floods at the wider catchment level.

The developing cross-Government Flood and Coastal Erosion Risk Management Strategy, "Making Space for Water", promotes a whole-catchment approach to flood alleviation, drawing on opportunities provided by rural land use and land management practices.

Hill Farming: Closures

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many hill farms went out of business in each of the last five years. [152893]

Jonathan Shaw *[holding answer 26 July 2007]:* Information on the number of holdings is collected in the annual June Survey of Agriculture and Horticulture. No information is collected on the number of holdings leaving the business. The figures in the table show the number of registered holdings in England in less favoured areas at June each year. These figures show net change only and therefore include gains as well as losses. The Survey does not specifically identify a category of "hill farms" but the figures for less favoured areas include this sector.

	Holdings in severely disadvantaged areas	*Holdings in disadvantaged areas*	*Total holdings in less favoured areas*	*Total holdings*
2002	16,771	8,803	25,574	187,871
2003	16,830	7,632	24,462	190,687
2004	16,456	7,563	24,019	192,824
2005	16,749	8,196	24,945	195,908
2006	16,244	15,257	31,501	200,381

Notes:
1. All holdings are allocated one grid reference only, farm boundaries are not mapped. All land on a holding is allocated to this single gird reference point although it is possible that the whole holding may not fall wholly inside or outside the less favoured area.
2. Due to a change in classification procedures for holdings in less favoured areas 2006 data are not directly comparable with earlier years.
3. The introduction of the Single Payment Scheme in 2005 has led to an increase in the number of registered holdings. These registered holdings need not necessarily have agricultural production but should meet the definition of having land in "good agricultural and environmental condition"

Source:
June Agriculture Survey

Landfill: Expenditure

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the effect of the expenditure by local authorities on the Landfill Allowance Trading Scheme on expenditure on other areas of sustainable waste management; [151729]

(2) how much revenue was received from each local authority under the Landfill Allowance Trading Scheme in each year since the scheme has been operational. [151730]

Joan Ruddock: The Landfill Allowances Trading Scheme (LATS) is not a revenue raising measure. It is a flexible scheme intended to ensure that England meets, as cost effectively as possible, its share of the national limits in the European Union Landfill Directive on landfilling of biodegradable municipal waste.

LATS encourages local authorities with the lowest diversion costs, to landfill less than their allowances permit and sell the surplus to authorities that face higher costs of diversion. Conversely, authorities with higher costs of diversion may prefer to meet their obligations under the scheme by buying allowances at a lower cost than actually undertaking the diversion themselves.

The Government takes account of all the costs of waste management when allocating local government funding. It is the responsibility of each individual local authority to plan its own expenditure. No assessment has been undertaken on the effect of local authority compliance with LATS obligations on other areas of sustainable waste management.

To date no waste disposal authorities have been issued with financial penalties, as all have met their obligations under the scheme.

Livestock: MRSA

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 July 2007, *Official Report*, column 1381W, on livestock: MRSA, what testing has been carried out to detect MRSA in farm animals in the last 12 months; and what methodology was employed for the testing. [152697]

Jonathan Shaw: DEFRA has initiated a study undertaken by the Veterinary Laboratories Agency to test *Staphylococcus aureus* (*S. aureus*) isolates obtained from bovine clinical submissions for methicillin-resistant *S. aureus* (MRSA). This project commenced in autumn 2006.

The methodology employed in the study involves determination of the minimum inhibitory concentration of oxacillin using the agar dilution method of the British Society for Antimicrobial Chemotherapy. All isolates are also examined using the disc diffusion method of the British Society for Antimicrobial Chemotherapy and a 10 microgram cefoxitin disc. Two different susceptibility testing methods are therefore used to check for the presence of methicillin resistance in the isolates.

Additionally, all isolates are also examined using a molecular technique (polymerase chain reaction) for the presence of the mecA gene (the gene which confers resistance to methicillin in MRSA).

Finally, a latex agglutination test is used to check for the altered penicillin binding protein of MRSA in any isolates which are not susceptible or which possess the mecA gene.

The latest available figures are that 658 bovine S. aureus isolates from cases of clinical disease in cattle in England and Wales (mainly cases of mastitis for which milk samples are collected) have been tested and no MRSA isolates have been detected.

Livestock: Transport

Gwyn Prosser: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the ability of un-weaned calves to drink from devices installed in livestock vehicles for that purpose; and if he will make a statement; [153412]

(2) what devices for supplying liquid to un-weaned calves are in use on livestock vehicles to enable them to be given liquid on board the vehicle after nine hours travel; and if he will make a statement. [153413]

Jonathan Shaw: DEFRA has funded many research projects into the welfare aspects of animal transportation. Of these, there has been one specific project assessing the devices installed in vehicles to provide liquid to un-weaned calves. This study confirmed that calves can use mechanical systems to satisfy their fluid requirements, but may need time to become familiar with such systems.

All member states are required to approve vehicles for long journeys. This approval involves an assessment of the vehicle equipment for providing water to animals. In the UK, there is a detailed checklist to ensure an inspector systematically assesses and thoroughly checks the vehicle and equipment, including the means of provision of feed and water.

Vehicles must be equipped with a water supply from which the attendant can provide water instantly when needed. Watering devices must be of suitable design, be positioned for access to water by each animal, and carry a water supply of a capacity 1.5 per cent. of the of the maximum payload. Attendants must be able to check the water level of the tank, and drain and clean it after the journey.

There are a wide range of devices used on livestock vehicles to provide liquid to un-weaned calves. At a basic level there are systems with buckets or bowls which can be fixed at a suitable height to ensure they are not overturned. Troughs are used on some vehicles, which are either fixed in place or fitted temporarily at the appropriate rest period. There are also more elaborate systems with nipple drinkers and other variations which allow calves to obtain liquid.

No particular mode of delivery is specified in Regulation 1/2005EC. It does, however, require that water and feed be presented in a way that minimises contamination and that due regard is paid to the need of animals to become accustomed to the mode of feeding and watering.

Animal Health assesses vehicles at markets, during roadside checks, at ports and at supervised loadings. If suitable equipment is not carried on a vehicle the journey can be prevented by the service of a notice requiring the correction of the problem, or additional requirements before the journey is started. The type and number of water delivery mechanisms, their height and location within the vehicle, and the calves' familiarity with them are assessed.

Animal Health also issues and approves journey logs as required by Regulation 1/2005EC and ensures that any failure to comply with the welfare aspects of the legislation are investigated. When appropriate, enforcement action is considered, together with notification of the non-compliance to the appropriate member state if the transporter is registered outside Great Britain.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when the Minister of State will reply to the letter from the hon. Member for West Worcestershire of 15 June 2007, in reply to DEFRA Reference: MC24643/JH. [153494]

Mr. Woolas: I apologise for the delay. A reply was sent on 10 July 2007.

Meteorology: Manpower

Rob Marris: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Secretary of State for *(a)* Innovation, Universities and Skills and *(b)* Defence on the number of meteorologists which will be required over the next 20 years. [153665]

Mr. Woolas: My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs has had no discussions with the Secretary of State for *(a)* Innovation, Universities and Skills or *(b)* Defence.

Nanotechnology

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many submissions the Government have received from *(a)* industry and *(b)* academia under its voluntary reporting scheme for engineered nanoscale materials since its launch in September; what steps the Department is taking to encourage submissions under the Voluntary Reporting Scheme; and what other steps the Government are taking to improve understanding of where nanoscale materials are being used or could be used in the future; [152770]

(2) when the Government plans to review the merits of the Voluntary Reporting Scheme for engineered nanoscale materials; and what the timescale is for such a review. [152771]

Mr. Woolas: My Department launched the UK Voluntary Reporting Scheme for engineered nanoscale materials in September 2006. To date (July 2007) we have received a total of nine submissions, seven from industry and two from academia.

We have been working with a variety of stakeholders to encourage further awareness and uptake of the Scheme. Regular updates on the Scheme are presented to the Nanotechnologies Stakeholder Forum which meets quarterly; the Nanotechnology Industries Association (NIA) and the European Nanotechnology Trade Alliance (ENTA) have raised the Scheme with their members and have offered assistance with completion of the paperwork; and we are addressing the research community via the Research Councils.

We have also been seeking additional advice on ways in which we may improve participation. The UK Advisory Committee for Hazardous substances (ACHS) recently reviewed the Scheme and made suggestions for clarifying the guidance for participants, particularly in defining how the data submitted will be used and what information might be relevant. My Officials will take these recommendations forward. We are also working with international partners, including members of the Organisation for Economic Co-operation and Development (OECD) Working Party on Manufactured Nanomaterials to share experiences of implementation of similar Schemes.

The Voluntary Reporting Scheme is intended to operate for two years. Therefore my Department will undertake a thorough review of the process in September 2008.

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government will respond to the Council for Science and Technology review of the Government's nanotechnologies policies. [152772]

Mr. Woolas: The Government responded to the Council for Science and Technology's review of its progress on nanotechnologies policies on 17 May 2007.

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will increase the funding provided for research into the environmental and health impacts of nanotechnology. [152773]

Mr. Woolas: Funding for research into potential Environment, Health and Safety impacts of Nanomaterials is co-ordinated across Government Departments, their Agencies and the Research Councils through the Nanotechnology Research Coordination Group. Direct funding from Departments up to the end of 2006 amounted to around £13 million. This was supported by responsive mode funding through the Research Councils' Interdisciplinary Research Collaboration on Nanotechnology of £19.8 million between 2002 and 2007.

At this stage there are no plans to increase funding levels however, in order to maximise the use of available funding, my Department is working to achieve greater cooperation and collaboration between the above funding bodies and will seek more joint working with the nanotechnologies industries. DEFRA is working closely with the Research Councils to influence more funding in 'directed mode', in an approach similar to that adopted by the DEFRA co-funded Environmental Nanoscience Initiative and we will be working with the Department for Innovation Universities and Skills' Technology Strategy Board and National Measurement Systems Programme to identify further opportunities. In this way we would seek to encourage the development and safe use of nanotechnologies in universities and the nanotechnologies industries.

National Fruit Collection

Hugh Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received from the Friends of Brogdale Horticultural Trust on the future of the

National Fruit Collection; and if he will make a statement. [152624]

Jonathan Shaw: A number of letters have been received from the Friends of Brogdale. These representations support retaining the collections at Brogdale.

Office of Climate Change: Manpower

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff are employed by the Office of Climate Change, broken down by salary band; and what the staff equivalent or annual cost is of *(a)* employment agency temporary staff, *(b)* consultants and *(c)* contractors being employed by that office. [151741]

Mr. Woolas: There are 29.6 full-time equivalent staff currently in post. It is our policy not to comment on staff grades where individuals could be identified.

As at 30 June 2007, the Office of Climate Change is employing three temporary staff. It has also employed two consultants on a part-time basis over the past four months. No contractors have been employed.

Office of Climate Change: Publications

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what the title is of documents produced by the Office of Climate Change for *(a)* publication, *(b)* Ministers and *(c)* other purposes. [153743]

Mr. Woolas: The Office of Climate Change (OCC) published the Draft Climate Change Bill in March 2007 (Cm 7040). This was accompanied by "A brief summary of the scientific case for action", following the OCC's audit of UK analysis on climate change. This document was placed in the House Libraries.

As part of its role in providing internal advice to Ministers, the OCC produces various documents and reports. The OCC is in the process of setting up a website where appropriate documentation will be published.

Recycling: Schools

Lynne Featherstone: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding has been allocated for school recycling projects in each London borough in each of the last five years; and if he will make a statement. [153545]

Joan Ruddock: No specific funding has been provided by my Department for school recycling projects in London. If recycling services are provided to schools, these would be funded directly by the local authority.

However, the Waste and Resources Action Programme, which is funded by DEFRA, is developing a programme of support for schools as part of its 'Recycle Now' campaign aimed at helping them minimise, reuse, recycle and compost their waste.

DEFRA also provides financial support for the operation of Eco-Schools, an international programme developed by the Foundation of Environmental Education (FEE) and managed in England by Environmental Campaigns (ENCAMS). Eco-Schools promotes environmental awareness around nine main themes, one of which is waste minimisation and recycling. DEFRA will be providing a total of £65,000 for Eco-schools in 2007-08. £100,000 is also provided from non-grant sources, mainly from other sponsorship.

Shellfish: Colchester

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 May 2007, *Official Report*, column 383W, on shellfish: Colchester, what progress has been made in determining the application for a Protected Geographical Indication (PGI) for the Colchester Native Oyster; when he expects to announce the issuing of a PGI; and if he will make a statement. [152967]

Jonathan Shaw: Following a constructive meeting in May between officials and representatives of the applicant group, an announcement regarding the next stage of this process was expected to be made in June.

However, officials are still waiting for further information from the applicant, including confirmation of the exact geographical area for the production of this product.

Squirrels

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take action against the organisation www.squirrels.info, which suggests on its website moving grey squirrels about the country contrary to law. [153438]

Joan Ruddock: The website www.squirrels.info was brought to the attention of Natural England some months ago. Natural England sent an e-mail to the website on 23 March 2007 to make them aware of their legal responsibilities under the Destructive Imported Animals Act 1932 and the Wildlife and Countryside Act 1981 (as amended). They have since responded, indicating that they no longer 'take in' squirrels and apologised for giving an incorrect impression through their outdated website. A further e-mail has been sent by Natural England to the website asking for clarification as it is not completely clear that they no longer do so. The licensing application process which can allow the legal captivity of grey squirrels has been explained to them.

DEFRA and Natural England do not have the power to take action, or indeed prosecute anyone regarding the possible failure to apply for licences to possess and release grey squirrels. This is the responsibility of the police, who are the primary enforcement agency of the Wildlife and Countryside Act 1981. Natural England have already referred this matter to the Wildlife Crime Officer (WCO) of Hampshire police.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to ensure that his Department's regional officers in England are all operating the same policy on red squirrel protection. [153440]

Joan Ruddock: The England Squirrel Forum has responsibility for co-ordinating the delivery of those parts of the Red Squirrel Species Action Plan (RSSAP)

that relate to England. The forum is made up of representatives from conservation bodies, woodland management organisations and woodland owners and is chaired by the Forestry Commission.

The RSSAP is being implemented through a broad partnership of Government, statutory conservation agencies and the private and voluntary sectors.

Implementation of the RSSAP is not the same in all regions as the threat to red squirrel populations, where they remain, is different across the country. For example in the south east, where there are secure populations of red squirrel on the Isle of Wight and Poole Harbour Islands, the focus is on ensuring that grey squirrels do not arrive on the islands and are controlled if they do. In northern England the focus of attention is on 16 reserves designated for red squirrels and preventing or reducing the impact of grey squirrels in these areas. Delivery here depends on a combination of factors including the level of engagement of the private and voluntary sectors.

Water: Conservation

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the effect on demand for water of the likely change in the use of domestic power showers over the next 10 years; [153742]

(2) if he will estimate the *(a)* increase over the last decade and *(b)* predicted future increase over the next decade of the number of (i) swimming pools, (ii) jacuzzi and other water spa pools and (iii) decorative domestic water features and ponds; and what assessment he has made of the likely impact of these changes on per capita demand for water. [153747]

Mr. Woolas: The Government's Market Transformation Programme (MTP) allows us to assess the impact of a range of products on water use, including toilets, taps, showers and baths. The MTP is also undertaking a scoping study to determine which other products use significant amounts of water. This will include an assessment of the amount of water consumption associated with swimming pools, hot tubs and spa baths. There is currently no evidence to show that ornamental garden water features involve significant levels of water consumption.

The MTP will shortly be setting out, for public consultation, the Government's current evidence and analysis on showers. This consultation is part of a wider annual review and policy development process, supporting delivery of the Government's objectives for energy, water and for sustainable consumption and production.

The paper includes indicative targets and eco-design standards for showers which are sold and used in the UK. The MTP work indicates that if no new policy actions are taken, and current underlying trends continue, water consumption by showers is expected to rise by 48 per cent. by 2020 compared to the 2006 baseline. The policy actions proposed in the document show how this projected increase can be constrained.

Water: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Meriden (Mrs. Spelman) of 15 June 2007, *Official Report*, column 1374W, on water: fees and charges, which *(a)* public sector organisations and *(b)* private sector consultants or research companies are assisting with updating this research. [153723]

Jonathan Shaw: This research is looking at the distributional impacts of a range of measured and unmeasured tariffs and has involved a large number of organisations. The public sector organisations that have been involved in this work are DEFRA, Ofwat, the Consumer Council for Water and HM Treasury. Private sector companies include the water companies of England and Wales and their research organisation UK Water Industry Research (UKWIR). The contractors carrying out this work are ICF consulting with assistance from WRc.

HOME DEPARTMENT

Alcoholic Drinks: Misuse

Lynne Featherstone: To ask the Secretary of State for the Home Department how many *(a)* male and *(b)* female under-age offenders were convicted of drunk and disorderly behaviour in each London borough in each of the last 10 years; and if she will make a statement. [153539]

Mr. Coaker: Data on the number of defendants aged 10 to 17 years who were found guilty at all courts for the offence of being drunk and disorderly, broken down by gender and London court area for the years 1996-2005, are provided in the table.

Additionally, suspects age 16 or over may be issued with a Penalty Notice Disorder (PND) for drunk and disorderly behaviour. Paying the penalty discharges all liability to conviction of the offence.

In Greater London there were 51 PNDs issued to males aged 16 to 17 in 2004 for being drunk and disorderly in a public place, with four issued to females. These figures rose to 74 for males and 10 for females in 2005. Detailed information on court proceedings including convictions, cautions and PNDs for 2006 will be published in the autumn of 2007.

[1] Source: Court proceedings database—Office for Criminal Justice Reform.
[2] These data are provided on the principal offence basis.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were (i) charged with, (ii) prosecuted for and (iii) convicted of (A) drunk and disorderly behaviour, (B) driving after consuming alcohol or taking drugs and (C) causing death by dangerous driving when under the influence of drink or drugs in each London borough in each of the last five years. [153541]

Mr. Coaker: Information on charging is not held centrally.

Information on the number of males and females prosecuted, and convicted for (A) drunk and disorderly behaviour, (B) driving after consuming alcohol or taking drugs and (C) causing death by dangerous driving when under the influence of drink or drugs in each London borough, for the years 2001 to 2005 can be viewed in tables A to C respectively.

In addition, penalty notices for disorder (PNDs) may be issued for the offence of being drunk and disorderly. No admission of guilt is required and payment of the penalty discharges all liability to conviction of the offence.

PND data held centrally are at Metropolitan and City of London Police Force area level only. The number of PNDs issued in these two areas for being drunk and disorderly was 3,928 to males and 499 to females in 2004, and 2,768 to males and 392 to females in 2005.

Detailed information on court proceedings including convictions, cautions and PNDs for 2006 will be published in the autumn of 2007.

Number of persons proceeded against at magistrates court and found guilty at all courts for the offence of any person who in any public place is guilty, while drunk, of disorderly behaviour, by gender, and London borough(s) for the years 2001 to 2005[1,2,3,4]

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the Figures presented are accurate and complete.
However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces.
As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Statutes are as follows:
The Road Traffic Act 1988 Sections4(1), 4(2), 5(1)(a),5(1)(b),6(4),7(6), and 7a as added by the Police Reform Act 2002 5.56, S.57. Transport and Works Act 1992 S.31A as added by Police Reform Act 2002 S.58(4).
[4] Offences under the Acts are as follows:
Driving or attempting to drive a motor vehicle whilst unfit through drink or drugs (impairment) only to be used where it is unclear whether it is drink or drugs—see 803/09 or 803/10.
Driving or attempting to drive a motor vehicle while having a breath, blood or urine alcohol concentration in excess of the prescribed limit.
Driving or attempting to drive a motor vehicle and failing to without reasonable excuse provide a specimen for a laboratory test or 2 specimens for analysis of breath.
Being in charge of a mechanically propelled vehicle while unfit to drive through drink or drugs, (impairment) only to be used where it is unclear whether it is drink or drugs—see 803/11 or 803/12
In charge of a motor vehicle while having a breath, blood or urine alcohol concentration in excess of the prescribed limit.
In charge of a motor vehicle and failing without reasonable excuse to provide a specimen for a laboratory test or two specimens for analysis of breath.
Failing without reasonable excuse to provide a specimen of breath for a preliminary test.
Failing to allow specimen of blood to be subjected to laboratory test.
Driving or attempting to drive a motor vehicle while unfit through drink or drugs (impairment) Drink

Animal Experiments

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps her Department is taking to reduce the number of animals used in scientific procedures; and if she will make a statement. [153301]

Meg Hillier: The licensing system under the Animals (Scientific procedures) Act 1986 is demand-led and provides the Home Office, as regulator, with no mechanism for reducing animal use. Instead the Act requires that the procedures authorised must cause the minimum possible suffering to the smallest number of animals of the least sentience. The Act also requires that, before a project licence is issued, we must weigh the benefits to humans, other animals, or the environment against the costs to the animals involved. A licence cannot be granted if the work could be carried out without using animals. The overall amount of animal research which takes place is determined by a number of factors, including the economic climate and global trends in scientific endeavour.

We are, however, fully committed to encouraging the development and use of alternatives to animal experimentation where this is possible. The establishment of the national Centre for the Replacement, Refinement and Reduction of Animals in Research (NC3Rs) by the Government in May 2004 and continued contributions to its funding by the Home Office demonstrates our ongoing commitment in this area. The NC3Rs provides the opportunity to

co-ordinate and stimulate research and good practice in the 3Rs (reduction, replacement and refinement). It is able to fund high-quality research and facilitate the exchange of information and ideas, the identification of knowledge gaps, and the translation of research findings into practice to benefit both animals and science. The Centre submits an annual report to the Minister for Science and Innovation on its activities and that report is available on their website at www.nc3rs.org.

Animal Welfare

Andrew Rosindell: To ask the Secretary of State for the Home Department what recent discussions she has had with *(a)* Animal Concern, *(b)* the Royal Society for the Protection of Birds and *(c)* People for the Ethical Treatment of Animals on animal welfare matters. [153299]

Meg Hillier: There have been no recent discussions held between Ministers and Animal Concern or the Royal Society for the Protection of Birds (RSPB) concerning animal welfare matters.

Officials from the Home Office have had discussions with People for the Ethical Treatment of Animals (PETA) on matters relating to animal welfare within the context of the use of animals in scientific procedures. These topics have, for example included, discussions on regulatory testing and the use of rodents in carcinogenicity (cancer) studies, the use of non-human primates in testing and research; and a number of matters relevant to the ongoing revision of European Directive 86/609/EEC which is transposed into United Kingdom law through Animals (Scientific Procedures) Act 1986.

Animal Welfare: Protests

Andrew Rosindell: To ask the Secretary of State for the Home Department (1) what steps are being taken to combat groups that use violence as a means of protesting against cruelty towards animals; [153013]

(2) if she will make a statement on the Government's policy on tackling animal rights extremism. [153300]

Mr. Coaker: The Government are committed to eradicating the threat of animal rights extremism and have in place a robust inter-departmental strategy to achieve this. The strategy is centred on an improved law enforcement approach, with additional resources provided to the police to tackle animal rights extremism, a central team set-up to drive forward police action nationally and legislation enacted to protect animal research organisations. The result has been a significant fall in illegal extremist activity, and many significant convictions of animal rights extremists in the past 18 months, with others awaiting sentence and other major investigations ongoing. The Government will maintain pressure on animal rights extremists and, in co-operation with law enforcement agencies and extremist targets, will continue to develop protective measures against the extremist threat.

While the Government are clear that cruelty to animal is unacceptable, it is equally clear that the targets of animal rights extremism in the vast majority of cases are involved in wholly lawful activities. The UK bioscience and medical research sector, the main target of animal rights extremists, complies with the most rigorous regime in the world for animal testing, designed to minimise suffering and ensure the highest welfare standards, and is at the forefront of developing new medicines and treatments for life-threatening conditions including cancer, malaria and cystic fibrosis.

Andrew Rosindell: To ask the Secretary of State for the Home Department what assessment the Government have made of whether the Animal Liberation Front should be proscribed as a terrorist organisation. [153302]

Mr. McNulty: We do not normally comment on organisations which are not on the list of proscribed terrorist organisations. The sufficiency of the list is kept under review.

Antisocial Behaviour Orders

James Brokenshire: To ask the Secretary of State for the Home Department (1) what the maximum number is of recorded breaches of a single antisocial behaviour order; [151724]

(2) what the current breach rate is of antisocial behaviour orders. [151725]

Mr. Coaker: The figure for the maximum number of recorded breaches of a single antisocial behaviour order is not available. The ASBO breach rate for the period 1 June 2003 to 31 December 2005 (latest available) was 47 per cent.

Antisocial Behaviour Orders: Greater London

Lynne Featherstone: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were issued in each London borough to *(a)* males and *(b)* females aged (i) under 12-years-old, (ii) 13-years-old, (iii) 14-years-old, (iv) 15-years-old, (v) 16-years-old, (vi) 17-years-old and (viii) 18-years-old and over in each of the last five years. [153543]

Mr. Coaker: The information is not provided by London borough, the available information is in the following table.

Number of antisocial behaviour orders ISSUED at all courts in the Greater London Criminal Justice System (CJS) area, by gender, age group and year

Gender and age group	*2001*	*2002*	*2003*	*2004*	*2005*	*Total issued*
Females						
10-17	1	0	8	6	17	32
18 and over	2	6	24	55	42	129
Age not known	—	2	—	1	5	8
Total females	3	8	32	62	64	169
Males						
10-17	9	5	33	100	172	319
18 and over	3	6	73	267	279	628
Age not known	—	2	1	12	13	28
Total males	12	13	107	379	464	975

Number of antisocial behaviour orders ISSUED at all courts in the Greater London Criminal Justice System (CJS) area, by gender, age group and year

Gender and age group	2001	2002	2003	2004	2005	Total issued
Total persons	15	21	139	441	528	1,144

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
Source:
As reported to the Home Office by the Court Service.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many breaches of antisocial behaviour orders resulted in custodial sentences in each London borough in each of the last five years. [153544]

Mr. Coaker: The latest data available for breaches of antisocial behaviour orders (ASBOs) and custody are for 2003. The figures show that only 134 people in total in England and Wales between 2000 and 2003 were sentenced to custody for breach of ASBOs alone. In all other cases, they were convicted for other offences at the same time.

Armley Prison: Asylum

Greg Mulholland: To ask the Secretary of State for the Home Department how many failed asylum seekers were detained in Armley Prison in each of the last eight months; how many are being so detained; and how many cells are occupied by failed asylum seekers. [151202]

Mr. Byrne: This information is not centrally recorded and could be obtained only at disproportionate cost.

Any failed asylum seekers detained in prisons are serving criminal sentences. Figures relating to the number of foreign national detainees at any given prison change regularly for a number of different reasons including, for example, removal from the UK, or on transfer to other prison establishments or, upon completion of their custodial sentence, to Immigration Removal Centres.

Banaz Mahmod Babakir Agha

Mr. Carswell: To ask the Secretary of State for the Home Department what steps the police are taking to investigate the actions of police officers preceding the murder of Banaz Mahmod Babakir Agha. [153707]

Mr. McNulty: On 13 June 2007 the Independent Police Complaints Commission undertook to conduct an Independent investigation of the Metropolitan Police Service's response to matters involving Ms Banaz Mahmod Babakir Agha. The IPCC will, where appropriate, make their findings public at the conclusion of their investigation.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for the Home Department what proportion of people employed by *(a)* her Department and *(b)* its agencies are disabled. [153594]

Mr. Byrne: The information requested is set out in the following table.

	Proportion of staff with disability—30 June 2007 (percentage)	Total number of staff
Central Home Office	1.75	3,691
Border and Immigration Agency	3.54	19,710
Criminal Record Bureau	2.40	395
Identity and Passport Agency	5.74	3,939

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for the Home Department how many people in her Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149190]

Mr. Byrne: The total number of Home Office staff, including those within the Border and Immigration Agency, the Identity and Passport Service and the Criminal Records Bureau, who were disciplined for misuse of the internet between 1 July 2006 and 30 June 2007 is 26. This includes any misuse of IT including misuse of the internal e-mail system. As fewer than five members of staff were dismissed for inappropriate use of the internet, specific information about those individuals is withheld on confidentiality grounds.

Fewer than five members of staff were disciplined for inappropriate use of the telephone during the same period and this information is also withheld on the grounds of confidentiality.

Departments: Employment Agencies

Mrs. May: To ask the Secretary of State for the Home Department how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151668]

Mr. Byrne: The Department inclusive of its Executive agencies; the Borders and Immigration Agency, the Criminal Records Bureau and the Identity and Passport Service, does not hold this information centrally for *(a)* temporary and *(b)* permanent staff and to provide this information would be at disproportionate cost.

In relation to temporary staff, recruitment fees are not uniform across recruitment agencies and are incorporated within daily rates. It is not always possible to identify these as a discrete element of the daily rate.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for the Home Department whether *(a)* her Department and *(b)* its agencies have made payments to Flint Bishop Solicitors since 1997. [151390]

Mr. Byrne: There are no records of any payments to Flint Bishop Solicitors by the Home Office or its agencies for the period requested.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for the Home Department (1) what legislative provisions introduced by her Department since 1997 have not yet been brought into force; [149561]

(2) what legislative provisions introduced by her Department's predecessors since 1997 have been repealed. [149590]

Jacqui Smith: Of the legislation introduced by the Home Office since 1 May 1997, for which Home Office Ministers retain responsibility, only one Act (the Criminal Justice (International Co-operation) Act 1998) has been totally repealed. Many of the others have been repealed or amended in part (as is normal in the ongoing legislative process). But a list of all the provisions repealed since 1997 is not held centrally, and the information could be provided only at disproportionate cost.

The following table lists provisions of Acts for which the Home Office currently has policy responsibility which received Royal Assent since 1 May 1997 which have not yet been brought into force.

Table A

Act	*Sections not in force*
Anti-Social Behaviour Act 2003	(85(5) Sch 2(2)
Anti-Terrorism, Crime and Security Act 2001	78
Asylum and Immigration(Treatment of (Claimants, etc.) Act 2004	16
Crime (International Co-operation Act 2003	10-12,20-25, 54-75, Sch three, Sch 4
Criminal Justice and Police Act 2001	78(7), 80(2) and (4), Sch six para 21, Sch seven para 6
(Domestic Violence, Crime and Victims Act 2004	19, 12 and Schedules 10, 11 and 12 (in part)
Drugs Act 2005	2
Identity Cards Act	1(1)-(4), 1(5)-(8), 2-24, 27-29, 30, 31-34, 35, 39, 41, 42, 43, Sch 1
Immigration and Asylum Act 1999	16 and 17, 117(5)
Immigration Asylum and Nationality Act 2006	4, 15-18, 20-22, 24-26, 31-39, 44, 47, 50(3) to (6)
Nationality, Immigration and Asylum Act 2002	10(5)(a), 17 and 18 (for certain purposes), 19-34, 35(1) (a)-(g)(i) and (2) and (3), 36, 37, 39, 40(2) and (3), 41(2) and (3), 44-47, 51 to 53, 124
Police and Justice Act 2006	7(1), 14, 7, 19(1)-(9) and (11), 20, 21, 34-38, 39(1)-(3), (5)-(7), 40(1)-(3), (5)-(7), 41 (in part), 43(1), 46 (part) and Schedules three, eight, nine, 11 and 12, and Schedules one, two, five, 13, 14, and 15 (all in part)
Police Reform Act 2002	45
Private Security Industry Act 2001	17, 21
Proceeds of Crime Act 2002	Sch 11 paras 17 and 21, Sch 12
Racial and Religious Hatred Act 2006	No provisions commenced
Serious Organised Crime and Police Act	120, 114(9), 117(part), 162(3), Sch four (part), Sch four(part), Sch nine (part), Sch 10 (part), Sch 14 (part)
Vehicle (Crimes) Act 2001	8, 34, 35, 36, Sch paras one and 2
Violent Crime Reduction Act 2006	1-14, 15-20, 21-22, 27, 31-34, 36-39, 40-41, 43-44, 47, 50 (part, 59, 61, 64, Sch two (part), Sch five (part)

Dr. Cable: To ask the Secretary of State for the Home Department (1) which Bills introduced by her Department in the last five years have contained sunset clauses; and what plans she has for the future use of such clauses; [151833]

(2) which Bills introduced by her Department in the last five years did not contain sunset clauses; and if she will make a statement. [152484]

Mr. McNulty: The following Acts were introduced during the last five years and are still the responsibility of the Home Office:

Nationality Immigration and Asylum Act 2002
Sexual Offences Act 2003
Crime (International Co-operation) Act 2003
Extradition Act 2003
Anti-Social Behaviour Act 2003
Asylum and Immigration (Treatment of Claimants) Act 2004
Domestic Violence, Crime and Victims Act 2004
Prevention of Terrorism Act 2005
Serious Organised Crime and Police Act 2005
Drugs Act 2005
Racial and Religious Hatred Act 2006
Identity Cards Act 2006
Immigration, Asylum and Nationality Act 2006
Terrorism Act 2006
Violent Crime Reduction Act 2006
Police and Justice Act 2006.

Of these, the following contained sunset clauses (i.e. provisions that the proposed legislation or part thereof would cease to have effect automatically after a particular period):

Prevention of Terrorism Act 2005 (section 13)
Terrorism Act 2006 (section 25).

As regards the use of such clauses in future: the appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Departments: Passports

Dr. Iddon: To ask the Secretary of State for the Home Department what assessment she has made of the impact of her Department's practice of holding

passports in files for periods of time on the owners of those passports. [152628]

Mr. Byrne: Passports are required to establish the identity and status of the applicant and so that the immigration decision can be securely placed into the document. Every effort is made to make decisions accurately and speedily. Applicants who require their documents back urgently will be treated sympathetically. Applicants making a straight-forward application who do not wish to be without their documents can use our same day premium service available at Public Enquiry Offices.

Under section 17 of the Asylum and Immigration (Treatment of Claimants, etc.) Act 2004, documents may be retained where it is suspected that the person to whom the document relates is liable to be removed from the United Kingdom. The document may be retained to facilitate their removal—a necessary requirement for effective immigration control.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on redundancy payments in the last 12 months. [153137]

Mr. Byrne: The Home Office does not maintain a central record of costs incurred in contesting employment tribunals (formerly industrial tribunals). The information required could be obtained only at a disproportionate cost.

Deportation: Russia

Andrew Mackinlay: To ask the Secretary of State for the Home Department for what reasons the Russian arrested on 21 June on suspicion of conspiracy to murder was deported; and if she will make a statement. [152464]

Mr. McNulty *[holding answer 24 July 2007]:* We do not comment on individual cases.

Driving Offences: Insurance

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many prosecutions there have been of uninsured drivers by the West Midlands police force in each of the last 10 years; and what the average penalty was in each case. [152753]

Mr. Coaker: The information requested is set out in the following table.

Proceedings at magistrates courts for the offence of using a motor vehicle uninsured against third party risks[1], and average fine imposed, West Midlands police force area, 1997-2004

	Total proceedings	*Average fine(£)*
1997	29,878	207
1998	30,928	190
1999	27,409	189
2000	28,148	201
2001	27,010	169
2002	32,339	192
2003[2]	36,409	200
2004	39,696	206

[1] An offence under the Road Traffic Act 1988 s. 143 (2).

[2] As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.

Notes:

1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences may be less than complete. Work is underway to ensure that the magistrates' courts case management system currently being implemented by the Ministry of Justice reports all motoring offences to the Office for Criminal Justice Reform. This will enable more complete figures to be disseminated.

2: Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

Source:

Court Proceedings Database held by OCJR.

Driving Offences: Mobile Phones

Mike Wood: To ask the Secretary of State for the Home Department how many drivers were stopped for using mobile telephones while driving in the latest period for which figures are available; how many subsequent prosecutions there were; and what the outcome was of those prosecutions. [152758]

Mr. Coaker: Information on the number of drivers stopped for using hand held mobile phones while driving is not collected centrally.

The latest figures for prosecutions and outcomes are for 2004. These show that for England and Wales there were 789 prosecutions and 641 convictions for using a hand-held mobile phone while driving. This offence can also be dealt with by the offer of a fixed penalty and there were in addition 73,796 tickets paid.

2005 data will be available later this year.

Mr. Amess: To ask the Secretary of State for the Home Department how section 41D of the Road Traffic Act 1988 is being enforced; what training has been provided for the *(a)* police and *(b)* judiciary; how the Government are monitoring its effectiveness; what guidance has been given to the courts on enforcement issues; and if she will make a statement. [152778]

Mr. Coaker: Enforcement of offences is an operational matter for individual chief officers of police enforcement of road traffic. Section 41D, Road Traffic Act 1988 consists of failing to have proper control of a vehicle and using a mobile phone while driving. The likelihood of detection of such offences has increased through the increasing numbers of police, including the deployment on roads of teams involved in the use of automatic number plate recognition (ANPR) equipment. They can stop vehicles as a result of direct observation, as well as an ANPR hit. Otherwise, the police enforce as operationally appropriate, taking into account other demands on their resources. Training for roads policing duties including the enforcement of Section 41D offences is a matter for individual chief officers.

Section 41D is an offence to do with vehicle construction and use. All such offences are only triable summarily. All magistrates receive training in road traffic offences as they constitute a large part of the work of the magistrates' court. While there has been no direct training in s41D, the construction and use provisions of the Road Traffic Act 1988 provide the basis of part of the Judicial Studies Board induction training for magistrates about sentencing in road traffic cases. Magistrates also receive advice in court from the clerks and legal advisers.

For monitoring purposes, the Department for Transport undertakes observational surveys of the number of drivers using mobile phones while driving on a regular basis. The survey for 2007 is under way at the moment and the results will be published later this year. The most recent survey published in August 2006 is TRL Leaflet 2100 which is available online at:

www.trl.co.uk/store/report_list.asp?pid=211

Driving Under Influence

Mr. Burrowes: To ask the Secretary of State for the Home Department if she will take steps to increase the number of roadside breath tests by police forces. [153361]

Mr. Coaker: Deployment of resources is an operational matter for individual chief officers of police. In January 2005, however, the Home Office, together with the Department for Transport (DfT) and Association of Chief Police Officers (ACPO), issued a jointly agreed statement of Roads Policing Strategy. This included as one of its five key actions the reduction of road casualties. The strategy identified drink driving as one of the key behaviours contributing to avoidable casualties and committed the police to tackling it by increasing the risk of detection. Home Office and DfT Ministers wrote to chief officers in January this year to stress the Government's continuing commitment to the Roads Policing Strategy and the importance of effective enforcement of road traffic law. Drink driving was highlighted as an area of offending where there is a need for positive police activity nationally.

ACPO is due to launch a new enforcement campaign at the end of July to complement the Government's new multi-media anti-drink driving publicity campaign which began on 20 July.

Driving Under Influence: Young People

Chris Grayling: To ask the Secretary of State for the Home Department how many young people under 16 were arrested for *(a)* driving whilst under the influence of (i) drugs and (ii) alcohol and *(b)* drink-related offences in each of the last three years. [152245]

Mr. Coaker: Centrally held arrest statistics relate to those arrested for recorded crimes (notifiable offences) only. Summary offences such as driving after consuming alcohol, etc. and drink related offences are not notifiable.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many people under 16 years were arrested in the West Midlands for driving while under the influence of drugs or alcohol in each of the last five years. [152756]

Mr. Coaker: Information on arrests for summary offences of driving while under the influence of alcohol or drugs is not collected centrally.

Mr. Burrowes: To ask the Secretary of State for the Home Department if she will take steps to increase the number of roadside breath tests by police forces for drivers under 25 years old. [153360]

Mr. Coaker: Deployment of resources is an operational matter for individual chief officers of police. In January 2005, however, the Home Office, together with the Department for Transport (DfT) and Association of Chief Police Officers (ACPO), issued a jointly agreed statement of Roads Policing Strategy. This included as one of its five key actions the reduction of road casualties. The strategy identified drink driving as one of the key behaviours contributing to avoidable casualties and committed the police to tackling it by increasing the risk of detection. Home Office and DfT Ministers wrote to chief officers in January this year to stress the Government's continuing commitment to the Roads Policing Strategy and the importance of effective enforcement of road traffic law. Drink driving was highlighted as an area of offending where there is a need for positive police activity nationally.

ACPO is due to launch a new enforcement campaign at the end of July to complement the Government's new multi-media anti-drink driving publicity campaign which began on 20 July. Under the Road Traffic Act 1988, the police cannot target drivers for breath tests because of their age. They can carry out a test where they reasonably believe that a person is or has been driving or in charge of a vehicle with alcohol in his body, has committed a moving traffic offence or has been involved in an accident.

Entry Clearances

Martin Linton: To ask the Secretary of State for the Home Department how many applicants for indefinite leave to remain under the 14-year long-stay concession have been waiting for a decision for more than *(a)* two years, *(b)* three years and *(c)* five years. [151903]

Mr. Byrne *[holding answer 26 July 2007]:* The information requested could be obtained only by the detailed examination of individual case records at disproportionate cost.

Extradition: Russia

Andrew Mackinlay: To ask the Secretary of State for the Home Department how many requests for extradition have been received from the Russian Federation in each of the last 10 years; and how many have been granted. [152463]

Meg Hillier *[holding answer 24 July 2007]:* There were no extradition arrangements between the United Kingdom and the Russian Federation until 2001.

The number of requests received from the Russian Federation in each year since then is as follows.

	Number
2001	2
2002	2
2003	1
2004	5
2005	5
2006	11
2007	3
Total	29

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many requests for extradition have been received from Russia in each of the last 10 years; and how many have been granted. [152755]

Meg Hillier: There were no extradition arrangements between the United Kingdom and the Russian Federation until 2001.

The number of requests received from the Russian Federation in each year since then is as follows:

	Number
2001	2
2002	2
2003	1
2004	5
2005	5
2006	11
2007	3
Total	29

A number of these requests remain outstanding. None to date has been granted.

Foreign Workers: Health Professions

Mr. Clappison: To ask the Secretary of State for the Home Department how many work permits were issued for *(a)* doctors and *(b)* nurses and auxiliary nurses from (i) Nigeria, (ii) Ghana and (iii) other African countries in 2006. [149262]

Mr. Byrne: The following table shows the number of work permit applications which were approved for overseas nationals, in 2006 from *(a)* Ghana, *(b)* Nigeria and *(c)* other African countries in 2006. There have been no approvals for auxiliary nurses.

	2006		
	Doctor	Nurse	Total
Ghana	20	290	310
Nigeria	125	600	730
Other African countries	505	3,720	4,230
Total	655	4,610	5,265

Notes:
1. Figures are rounded to nearest five.
2. Because of rounding, figures may not add up to totals shown.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

Genetics: Databases

Lynne Featherstone: To ask the Secretary of State for the Home Department how many DNA profiles are held of *(a)* males and *(b)* females who are (i) under 16 years old, (ii) 16 years old, (iii) 17 years old, (iv) 18 years old and (v) over 18 years old, broken down by ethnicity. [153540]

Meg Hillier: The number of profiles held on the National DNA Database (NDNAD) by all forces in the UK as at 31 March 2007, broken down as requested, is shown in the following table. It is currently estimated that 13.7 per cent. of profiles held on the NDNAD are replicates, i.e. that a profile for a person has been loaded on more than one occasion (one reason for this is that the person gave different names, or different versions of their name, on separate arrests). Thus the number of individuals on the database is approximately 13.7 per cent. less than the number of subject profiles.

	All forces					
	Under 16	16	17	18	Over 18	Unknown age

Identity Cards

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to the answer of 19 June 2007 to the hon. Member for Rayleigh, *Official Report*, columns 1777-8W, on identity cards, if she will break down by activity the sum spent on all communications activities attributed to the budgets of projects for the future development of biometric passports, identity cards and associated initiatives. [147770]

Jacqui Smith: Our systems do not record expenditure at a level that would permit us to breakdown the cost of communication activities directly incurred by development projects. As a result, it is not possible to provide a breakdown without incurring disproportionate cost.

However, it is possible to provide an overview of the kind of activities charged to this cost code in that year. They reflect both external and internal IPS communications and included advertising and publicity, internal communications materials, media monitoring and the production of publications.

The amount attributed for communications to the projects is broken down in the following manner (rounded to the nearest £100).

	£
Advertising and publicity	137,600
Video production	500
Publications	3,000
Newsletter	1,900
Information booklet	1,500
Media monitoring	600

Immigration Controls

Mr. Clegg: To ask the Secretary of State for the Home Department how many people were removed from the UK by immigration officials in each of the last five financial years. [151500]

Jacqui Smith *[holding answer 23 July 2007]:* Statistics on the number of persons removed from the UK in the calendar years 1995-2005 are published in the Control of Immigration: Statistics United Kingdom 2005 Command Paper. Information on persons removed in 2006 was published on 21 August 2007 in the Command Paper Control of Immigration: Statistics United Kingdom 2006. Copies of these publications are available from the Library of the House and on the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Immigration Controls: Health Professions

Mr. Clegg: To ask the Secretary of State for the Home Department what the reasons were for deciding to publish the Race Equality Impact Assessment relating to the changes in the Immigration Rules for Postgraduate Doctors and Dentists after these rule changes had come into effect. [149577]

Jacqui Smith: The Race Equality Impact Assessment relating to the changes in the Immigration Rules for Postgraduate Doctors and Dentists was published following a request from the Commission for Racial Equality in July 2006. We acknowledged at that time that the assessment ought to have been completed before the rules change took place. Our position on this matter has been addressed in the judicial review proceedings brought by BAPIO Action Limited. The judgment handed down on 9 February 2007 can be found at:

http://www.bailii.org/ew/cases/EWHC/Admin/2007/199.html.

Immigration Controls: Uniforms

Mr. Clegg: To ask the Secretary of State for the Home Department (1) what the cost was of designing new uniforms for border security staff; [147775]

(2) what she expects the cost to be of providing uniforms to all border security staff; [147776]

(3) what the total cost was of pilot projects on uniform for border security staff. [147778]

Jacqui Smith: The final costs for roll out of uniforms to border control frontline operational staff and the cost element of designing the new uniform cannot be finalised until the supplier has assessed and actioned the total number of orders.

The cost of the uniforms pilot was £18,192.55 plus VAT. The evaluation of the pilot informed some changes to the materials and specification which has reduced the final overall forecast cost of the garments to be implemented.

Immigration: Detention Centres

Mike Wood: To ask the Secretary of State for the Home Department what the rate of staff turnover was in each immigration removal centre run by a private company in each of the last five years. [152633]

Mr. Byrne: There has been a change of contractor at some of the centres during the last five years so information prior to the changes is not available.

Campsfield—Since taking over the contract in May 2006 staff turnover for the new contractor, GEO, has been 24.8 per cent.

Colnbrook—The centre became operational in September 2004. From January 2005-2006 staff turnover was 31 per cent. January 2006-07 was 22 per cent.

Dungavel—Since taking over the contract in September 2006 staff turnover for the new contractor, G4S, has been 22.8 per cent.

Harmondsworth—The information recorded is for the last five years ending June of each year. Staff turnover for July 2002-June 2003 was 20 per cent. 2003-04 was 25 per cent. 2004-05 was 27 per cent. 2005-06 was 23 per cent. and 2006-07 was 12 per cent.

Oakington—Figures are unavailable prior to 2004. Staff turnover for 2004 was 24.2 per cent. 2005 was 30.3 per cent. and 2006 was 24.6 per cent.

Tinsley House—Figures are unavailable prior to 2004. Staff turnover for 2004 was 11.3 per cent. 2005 was 14.5 per cent. and 2006 was 16.9 per cent.

Yarl's Wood—Since taking over the contract in April 2007 staff turnover for the new contractor, Serco, has been 13.8 per cent.

Mike Wood: To ask the Secretary of State for the Home Department how much profit was made by each company running an immigration removal centre in each year since taking on management of the institution. [152634]

Mr. Byrne: The Border and Immigration Agency (BIA) has various contracts for the operation of its Immigration Removal Centres. The evaluation process for these contracts is extremely robust and examines all aspects of a contractor's submitted tender, including the financial element. However, due to the commercial nature of these contracts, the disclosure of the information requested would be likely to prejudice the commercial interests of both the BIA and those companies with whom the BIA enters into contracts.

Mike Wood: To ask the Secretary of State for the Home Department what proportion of staff in immigration removal centres run by private companies had more than five years' continuous service at the same institution as of 1 February. [152635]

Mr. Byrne: The information is as follows:

Campsfield—41 per cent.

Colnbrook—Not applicable as centre became operational in September 2004.

Dungavel—29.5 per cent.

Harmondsworth—16 per cent.

Oakington—39 per cent.

Tinsley House—40.8 per cent.

Yarl's Wood—35 per cent.

Mike Wood: To ask the Secretary of State for the Home Department what proportion of staff at immigration removal centres run by private companies are from an ethnic minority background; and at what grade. [152636]

Mr. Byrne: The information is as follows.

Campsfield—8 per cent., Detention Custody Officers and Management Team.

Colnbrook—50 per cent., Operational Support Officers and Detention Custody Officers.

Dungavel—2.5 per cent., one Detention Custody Officer and one Senior Management Team.

Harmondsworth—41.5 per cent., Detention Custody Officers, Senior Custody Officers and Management Team.

Oakington—4.45 per cent., Detention Custody Officers and Senior Custody Officers.

Tinsley—8.9 per cent., Detention Custody Officers, Senior Custody Officers and Management Team.

Yarl's Wood—The information requested is currently unavailable following the recent change of centre operator in April 2007.

Mike Wood: To ask the Secretary of State for the Home Department how many assaults were recorded against *(a)* staff and *(b)* other inmates by those held in each immigration removal centre run by a private company in the latest period for which figures are available. [152637]

Mr. Byrne: The information is as follows:

Campsfield—From May 2007 to date there has been two assaults on staff and 14 assaults on detainees.

Colnbrook—Since January 2007 there has been 23 assaults on staff and 22 assaults on detainees.

Dungavel—Since September 2006 there has been no assaults on staff and 10 assaults on detainees.

Harmondsworth—Since January 2007 there has been one assault on staff and four assaults on detainees.

Oakington—Since January 2007 there has been no assaults on either or detainees.

Tinsley House—Since January 2007 there has been one assault on staff and 11 assaults on detainees.

Yarl's Wood—Since Serco took over the contract in April 2007 there has been no assaults on staff and one assault on a detainee.

All the assaults in the aforementioned figures are recorded as being committed by detainees.

Mike Wood: To ask the Secretary of State for the Home Department which immigration removal centres are run by private companies. [152717]

Mr. Byrne: The following immigration removal centres are operated under contract to the Border and Immigration Agency:

Campsfield House

Colnbrook

Dungavel House

Harmondsworth

Oakington

Tinsley House

Yarl's Wood

Motor Vehicles: Insurance

Susan Kramer: To ask the Secretary of State for the Home Department how many prosecutions there have been of uninsured drivers *(a)* in total and *(b)* in each police force area in each of the last 10 years; and what the average penalty was in each case. [152152]

Mr. Coaker *[holding answer 24 July 2007]:* The information requested is set out in the following tables.

Proceedings at magistrates courts for the offence of using a motor vehicle uninsured against third party risks[1], and average fine imposed[2] by police force area, England and Wales, 1997-2004

[1] An offence under the Road Traffic Act 1988 section 143 (2).
[2] Magistrates courts data only. Fines given at the Crown court total nationally (England and Wales) less than 10 each year.
[3] As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.

Notes:
1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences may be less than complete. Work is under way to ensure that the magistrates courts case management system currently being implemented by the Ministry of Justice reports all motoring offences to the Office for Criminal Justice Reform. This will enable more complete figures to be disseminated.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

Muktar Ibrahim

Mr. Spellar: To ask the Secretary of State for the Home Department if she will take steps to revoke the UK citizenship of Muktar Said Ibrahim. [150415]

Mr. Byrne: Our policy is to consider deprivation in all suitable cases. It would, however, be inappropriate to comment on the action that might be taken in any particular case.

Offenders: Deportation

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to the answer of 13 March 2007, *Official Report*, columns 299-300W, to the hon. Member for Sheffield, Hallam, on offenders: deportation, in what format information is collected about deportations of foreign nationals. [149574]

Jacqui Smith: Lin Homer, the chief executive of the Border and Immigration Agency, has updated the Home Affairs Committee regularly over the last year on a range of issues related to the deportation process and foreign national prisoners, both on the progress made on wider deportation issues and in dealing with those foreign national prisoners released without deportation consideration. In the course of these updates she has made it clear that the most robust and accurate information available has been disclosed to the committee.

Offensive Weapons: Greater London

Lynne Featherstone: To ask the Secretary of State for the Home Department how many crimes were recorded in each London borough involving (a) knives, (b) guns and (c) other offensive weapons in each of the last 10 years. [153542]

Mr. Coaker: Available data relate only to offences where firearms have been fired, used as a blunt instrument against a person or used as a threat. The number of firearm offences (excluding air weapons) recorded by the City of London and Metropolitan police between 1996 and 2005-06 is given in the tables. Data cannot be broken down by London borough. Police force area breakdowns for firearm offences recorded during 2006-07 will be published in a future supplementary volume to the recent 'Crime in England and Wales 2006/2007' Home Office Statistical Bulletin.

From the information collected on recorded crime it is not possible to identify those offences where knives or other offensive weapons were used, since details of

the individual circumstances of offences are not recorded. From April 2007 police forces are providing data on knife-enabled grievous bodily harm and robbery offences.

Table 1: Crimes recorded in which firearms (excluding air weapons) were reported to have been used: City of London and Metropolitan police forces, 1996 to 2001-02

	Number of firearm offences
1996	1,741
1997	1,960
1997-98	1,951
1998-99[1]	2,034
1999-2000	2,945
2000-01	3,036
2001-02[2]	4,197

[1] There was a change in the counting rules for recorded crime on 1 April 1998.
[2] Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard before 1 April 2002.

Table 2: Crimes recorded in which firearms (excluding air weapons) were reported to have been used: City of London and Metropolitan police forces, 2002-03 to 2005-06[1,2]

	Number of firearm offences
2002-03	4,202
2003-04	3,891
2004-05	3,697
2005-06	3,884

[1] Data in this table take account of the introduction of the National Crime Recording Standard in April 2002, which may have resulted in inflated figures for some crime categories. These figures are not directly comparable with those for earlier years.
[2] Data for 2006-07 will be available in January 2008.

Police Act 1996

Mr. Amess: To ask the Secretary of State for the Home Department if she will list the provisions within the Police Act 1996 which *(a)* have not yet come into force and *(b)* have been repealed (i) prior to and (ii) after coming into force. [152781]

Mr. McNulty: The Police Act 1996 has been commenced in full. I have written to the hon. Gentleman setting out the details of repeals and amendments made to this Act. I have arranged for a copy of the letter to be placed in the Library of the House.

Police: Absenteeism

Margaret Moran: To ask the Secretary of State for the Home Department what percentage of the workforce was on long-term absence in each police authority in each of the last five years, broken down by reasons for absence. [152271]

Mr. McNulty: The requested data are not available and could be obtained only at disproportionate costs.

Police: Complaints

Mr. Amess: To ask the Secretary of State for the Home Department (1) what steps her Department takes to monitor police force responses to the findings of the Independent Police Complaints Commission; [152982]

(2) what representations she has received on the powers of the Independent Police Complaints Commission; and what powers the Commission has to compel police forces to respond to its findings; [152983]

(3) what the average length of time taken was for police authorities to respond to recommendations of the Independent Police Complaints Commission in the latest period for which figures are available; what guidance her Department issues to police forces on the timescale of responses; and what monitoring her Department undertakes of the time taken to respond. [152984]

Mr. McNulty: The information sought is not collected or held by the Home Office. The Home Office has not issued any guidance in relation to response times for police forces to respond to Independent Police Complaints Commission (IPCC) recommendations.

Mr. Amess: To ask the Secretary of State for the Home Department (1) what the role of police authorities is in responding to findings of the Independent Police Complaints Commission; [152985]

(2) if she will make it a requirement for police forces to respond substantively to findings made by the Independent Police Complaints Commission in respect of complaints made against them. [152986]

Mr. McNulty: Under paragraphs 23(6) and (7) schedule 3 of the Police Reform Act 2002, police forces have an obligation to respond substantively to Independent Police Complaint Commission (IPCC) findings in respect of independent and managed investigations.

Any best practice recommendations by the IPCC to improve the service the public receives from the police, directed at a police force, would be for it to implement, reporting to its police authority as appropriate.

Mr. Amess: To ask the Secretary of State for the Home Department what powers police forces have to award compensation to complainants whose complaints have been upheld by the Independent Police Complaints Commission. [152990]

Mr. McNulty: Any decision made to award compensation is a matter for the chief officer of the force and his or her police authority.

Police: Employment

Mr. Amess: To ask the Secretary of State for the Home Department what the average length of employment as *(a)* a police officer and *(b)* a police community support officer was of officers employed in (i) Southend and (ii) Essex Constabulary in each of the last three years for which figures are available. [152779]

Mr. McNulty: Information on length of service for police officers is not available in the form requested. Available data are for police force area and are given in the following table. Length of service includes time spent in other police forces in England and Wales.

The requested data for police community support officers are not collected centrally.

Length of service (headcount) of police officers in Essex as at 31 March 2004 to 31 March 2006

	31 March each year		
	2004	2005	2006
Less than six months	106	183	197
Six months to one year	131	85	73
One year to two years	240	217	225
Two years to three years	205	230	199
Three years to four years	169	203	202
Four years to five years	60	164	183
Five years to 10 years	450	427	484
10 years to 15 years	553	477	447
15 years to 20 years	478	535	553
20 years to 21 years	58	87	84
21 years to 22 years	57	57	77
22 years to 23 years	69	56	69
23 years to 24 years	63	65	66
24 years to 25 years	106	62	68
25 years to 26 years	101	92	63
26 years to 27 years	62	94	101
27 years to 28 years	75	57	93
28 years to 29 years	87	69	63
29 years to 30 years	62	82	72
30 years to 31 years	16	15	32
31 years to 32 years	8	9	5
32 years to 33 years	6	4	9
33 years to 34 years	1	6	4
34 years to 35 years	1	0	3
35 years and over	1	2	2

Police: Interpol

Mark Pritchard: To ask the Secretary of State for the Home Department how many UK police officers are on attachment to Interpol. [149035]

Mr. McNulty: There are no UK police officers on attachment to Interpol; however, two members of the Serious Organised Crime Agency are on attachment to Interpol.

Police: North West Region

Tim Farron: To ask the Secretary of State for the Home Department how many full-time equivalent police officers there were in each of the five counties in the North West of England in each of the last five years. [152895]

Mr. McNulty *[holding answer 26 July 2007]:* The information requested is set out in the following table.

Police Officer Strength[1] (FTE)[2] by Police Force as at 31 March 2003 to 31 March 2007

	31 March each year				
	2003	2004	2005	2006	2007
Cheshire	2,137	2,204	2,207	2,218	2,235
Cumbria	1,154	1,241	1,260	1,265	1,273
Greater Manchester	7,391	8,111	8,119	8,071	7,992
Lancashire	3,380	3,579	3,586	3,635	3,628
Merseyside	4,112	4,129	4,339	4,302	4,441

[1] This table contains full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.
[2] Full-time equivalent includes those on career breaks or maternity/paternity leave.

Police: North Yorkshire

Hugh Bayley: To ask the Secretary of State for the Home Department how many full-time equivalent *(a)* police officers, *(b)* community support officers and *(c)* police civilian staff were employed by North Yorkshire Police as at March 2007. [151608]

Mr. McNulty: The most recent statistics published by the Home Office show that, on a full-time equivalent basis, 1,671 police officers, 147 police community support officers and 1,128 police staff were employed by North Yorkshire police on 31 March 2007.

The figures were published on-line in the National Statistics publication "Police Service Strength, England and Wales, 31 March 2007":

http://www.homeoffice.gov.uk/rds/pdfs07/hosb1307.pdf

Police: Sick Leave

Margaret Moran: To ask the Secretary of State for the Home Department what the average annual rate of sickness absence was in each police force in each of the last five years. [152272]

Mr. McNulty: Data from 2004-05 onwards are collated and published as part of the Policing Performance Assessment Framework (PPAF). These data are in the form of working hours lost to sickness and are published on the Home Office website located at the following link:

http://police.homeoffice.gov.uk/performance-and-measurement/performance-assessment/

Data for and prior to 2003-04, are not on the same basis as those available for 2004-05 onwards. These data are in the form of working days lost to sickness and are published in the Annual Report of Her Majesty's Chief Inspectorate of Constabulary, located at the following link:

http://inspectorates.homeoffice.gov.uk/hmic/about/annual-reports.html/

The available data are given in the following tables:

Police officer and staff average number of working days[1] lost per annum to sickness per person[2]

	2001-02		2002-03		2003-04

[1] From 2004-05 onwards sickness data were recorded in hours rather than days.
[2] Data published in the Home Office Police Performance Monitoring Reports and online.

Police: Vehicles

Mr. Dunne: To ask the Secretary of State for the Home Department whether undercover police cars are obliged to display a no-smoking sign following the introduction of the ban on smoking in public places. [152077]

Dawn Primarolo: I have been asked to reply.

Like all vehicles used in the course of work by more than one person, police vehicles should display no-smoking signs as required under smokefree legislation, although there is no requirement for those signs to be visible from outside the vehicle.

Proscribed Organisations

Mr. Amess: To ask the Secretary of State for the Home Department what additions have been made to the list of proscribed organisations under the Terrorism Act 2000 since January 2006; what the reason was for each addition; and what further additions are planned. [152786]

Mr. McNulty: Six organisations have been added to the list of proscribed organisations since January 2006. They are: Al Ghurabaa, the Baluchistan Liberation Army, Saved Sect (or Saviour Sect), Teyre Azadiye Kurdistan, Tehrik Nefaz-e Shari'at Muhammadi, and Jammat-ul Mujahideen Bangladesh. These additions were made because the organisations were considered to be concerned in terrorism. Section 3 of the

Terrorism Act 2000 sets out that an organisation is concerned in terrorism if it: (a) commits or participates in acts of terrorism, (b) prepares for terrorism, (c) promotes or encourages terrorism, or (d) is otherwise concerned in terrorism. Section 21 of the Terrorism Act 2006 extended the meaning of 'promotes or encourages terrorism' to include the unlawful glorification of terrorism. The sufficiency of the list of proscribed organisations is kept under review.

Racial Harassment: Greater London

Lynne Featherstone: To ask the Secretary of State for the Home Department how many complaints of racial harassment were reported in each London borough in each of the last five years. [153640]

Mr. McNulty: The available information relates to racially or religiously aggravated harassment offences recorded by the police and is given in the table.

Racially or religiously aggravated harassment offences recorded by the Metropolitan Police Service—2002-03 to 2006-07

London borough	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

Metropolitan police total	5,351	5,448	5,801	5,399	5,206

Racially or religiously aggravated harassment offences recorded by the Metropolitan Police Service—2002-03 to 2006-07

Samar Razavi

Mr. Swayne: To ask the Secretary of State for the Home Department pursuant to the Prime Minister's oral answer of 18 July 2007, *Official Report*, column 273, if she will make a statement on the case of Samar Razavi. [152800]

Mr. Byrne *[holding answer 26 July 2007]:* My hon. Friend the Home Secretary wrote to the right hon. Member for Maidstone and The Weald (Miss Widdecombe) and the hon. Member for Bournemouth, East (Mr. Ellwood) on 27 July 2007 about the immigration matters of Miss Razavi. We do not make statements about individual immigration cases.

Security: Assassination

Mark Pritchard: To ask the Secretary of State for the Home Department if she will make a statement on recent operations by the police and security services aimed at preventing the assassination of foreign dissidents resident in England. [152629]

Mr. McNulty: We do not comment on the specifics of operations carried out by the police and security services.

Mark Pritchard: To ask the Secretary of State for the Home Department how many people have been arrested in relation to the attempted murder of foreign dissidents resident in England in the last month. [152630]

Mr. McNulty: It would be inappropriate to comment on police operational matters.

Mark Pritchard: To ask the Secretary of State for the Home Department what recent steps Scotland Yard has taken to protect foreign dissidents from assassination while resident in England. [152631]

Mr. McNulty: We do not comment on the protective measures and procedures of the police. This is an operational matter for the force involved.

Security: NHS

Mr. Dai Davies: To ask the Secretary of State for the Home Department if she will publish a redacted version of the report on Security and the National Health Service prepared by Admiral Sir Alan West. [149520]

Mr. McNulty: I refer the hon. Member to the statement by my hon. Friend the Prime Minister of 25 July 2007, *Official Report*, column 841.

Sexual Offences: Police Cautions

Greg Mulholland: To ask the Secretary of State for the Home Department how many cautions were given to those accused of sexual offences in *(a)* Leeds, *(b)* West Yorkshire and *(c)* England and Wales in each of the last five years. [151285]

Mr. Coaker *[holding answer 23 July 2007]:* The number of persons aged 10 to 15 cautioned for all offences in West Yorkshire police force area for the years 2001 to 2005, along with the number of defendants of all ages cautioned by offence type in West Yorkshire police force area, and the number of defendants of all ages cautioned for sexual offences in England and Wales for the years 2001 to 2005 can be viewed in the following tables. This information is from the court proceedings database held by the Office for Criminal Justice Reform.

Information on cautions collected by the police is only reported to the Office for Criminal Justice Reform broken down at force area level, not by police division, so it is not possible to separately identify the number of cautions in Leeds from our data.

Technically an offender could receive a second caution for a similar offence but it should be in very extenuating circumstances. The Home Office Circular discourages repeat use of the same penalty with the same offender. Someone who offends again needs to know that the next response will be a tougher one. And where a serious offence is committed, then the case should go to court.

Therefore both national and locally held records must be checked before a caution is given. If the suspect has previously received a caution then a further caution should not normally be considered. If there has been a sufficient lapse of time to suggest that a previous caution has had a "significant deterrent effect" then a caution can be administered, but it is at the discretion of the police and CPS. The lapse of time varies, in practice, between forces.

Number of defendants aged 10 to 15 cautioned for all offences by West Yorkshire police for the years 2001 to 2005[1,2]

	2001	*2002*	*2003*	*2004*	*2005*
West Yorkshire police force area					
10-15	3,099	3,158	3,116	4,140	5,149

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used. Our ref:PQ151448

Solvents: Misuse

Mr. Burrowes: To ask the Secretary of State for the Home Department what assessment she has made of the impact of the recent reduction in funding for the young people substance misuse grant. [153373]

Mr. Coaker: The reduction in funding for the Young People's Substance Misuse Partnership Grant (YPSMPG) for 2007-08 was primarily because of £4 million of Department of Health Targeted Prevention funding being reallocated to other priorities. No specific assessment of the impact of the reduction of funding has been undertaken by the Department of Health. The YPSMPG and other mainstream funding supports local work to reduce drug use among young people. Drug use among young people is monitored through the Schools Survey and British Crime Survey.

Speed Limits: Greater London

Lynne Featherstone: To ask the Secretary of State for the Home Department (1) how much in fines following speed offences detected by camera was *(a)* imposed and *(b)* paid in each London borough in each of the last 10 years; [153546]

(2) how much was raised in fines from speed cameras in each London borough in each of the last 10 years. [153547]

Mr. Coaker: Data collected centrally provides information for England and Wales on the number of fixed penalties and prosecutions for offences detected by camera; this information is not available at the London borough level. Information on the level of

fines and fixed penalties and their payment does not distinguish offences detected by camera from other offences.

Stop and Search: Training

Paul Rowen: To ask the Secretary of State for the Home Department what training is given to police officers in the use of stop and search procedures. [152053]

Mr. McNulty *[holding answer 23 July 2007]:* Training in stop and search procedures is provided by all police forces as part of the initial police learning and development programme for new officers. The training is reinforced for new sergeants and inspectors in the operational sections of the core leadership development programme. All police forces have a full training package on stop and search powers provided by the National Policing Improvement Agency (NPIA). In addition to this, an E-Learning module on stop and search powers is available to all police personnel in all forces, provided by an NPIA and Metropolitan Police Service Partnership.

Surveillance

Mr. Paterson: To ask the Secretary of State for the Home Department (1) who is responsible for the oversight of the operation of the intelligence and security services in *(a)* interception of communications, *(b)* surveillance and *(c)* access to private property; [153667]

(2) how many complaints lodged in 2006-07 about *(a)* interception of communications, *(b)* surveillance and *(c)* access to private property were upheld; [153668]

(3) how many complaints were lodged in 2006-07 about *(a)* interception of communications, *(b)* surveillance and *(c)* access to private property; [153669]

(4) what the process is for *(a)* raising, *(b)* investigating and *(c)* adjudicating complaints about (i) interception of communications, (ii) surveillance and (iii) access to private property. [153672]

Mr. McNulty: Independent oversight of the operation of the intelligence and security services in the regulated investigatory powers identified is provided respectively by: *(a)* the Interception of Communications Commissioner (currently Sir Paul Kennedy); *(b)* the Chief Surveillance Commissioner (Sir Christopher Rose); and *(c)* the Intelligence Services Commissioner (currently Sir Peter Gibson). The Investigatory Powers Tribunal was established under the Regulation of Investigatory Powers Act 2000 to consider complaints and human rights claims arising from conduct involving regulated investigatory powers. Application to the tribunal can be made by writing to: The Investigatory Powers Tribunal, PO Box 33220, London SW1H 9ZQ, or by telephoning 0207 035 3711. The tribunal will obtain the information it requires from the applicant and organisations concerned to investigate the matter and inform the complainant of the outcome. An oral hearing may be held. If the tribunal decides that there has been contravention of any relevant legislation and the organisation concerned has not acted reasonably, it may uphold the complaint. Remedial measures such as the quashing of any warrants, destruction of any records held or financial compensation may be imposed at the tribunal's discretion. Although the details of individual complaints made to the tribunal are not made public, information on the number of complaints is provided in the annual reports of the Interception of Communications Commissioner and the Intelligence Services Commissioner, copies of which are placed in the Library of the House. However, the Commissioners' reports for 2006-07 are not yet available.

Yarl's Wood Detention Centre

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to the answer of 6 June 2007, *Official Report*, columns 624-5W to the hon. Member for Hendon, on Yarl's Wood Detention Centre, if she will place in the Library a copy of the minutes of the bi-weekly meetings that are in place to support direct communication between detainees and the managers of the centre. [147774]

Jacqui Smith: Minutes from the last two meetings which were held on 31 May and 3 July will be placed in the House Library.

HEALTH

Accident and Emergency Departments: Cambridgeshire

Mr. Moss: To ask the Secretary of State for Health what estimate he has made of the number of accident and emergency departments that will close in Cambridgeshire over the next five years. [151722]

Mr. Bradshaw: The Department has made no assessment. This is a matter for the local national health service and we have been advised by the East of England Strategic Health Authority (SHA) that there are no plans to close accident and emergency (A&E) departments in Cambridgeshire. There is, however, a consultation on the way services are provided at Hinchingbrooke Hospital, but the SHA has assured us that all A&E service currently provided by Hinchingbrooke will continue to be available although the way they are provided may change to improve care for patients.

Ambulance Services: North West Region

Tim Farron: To ask the Secretary of State for Health how many ambulances in the North West region are *(a)* equipped and *(b)* not equipped with a 12 lead ECG. [152869]

Mr. Bradshaw: All emergency ambulances should be equipped with a 12 lead ECG. However, the Department does not collect information centrally on the number of ambulances equipped with 12 lead ECGs.

Analgesics: Childbirth

Harry Cohen: To ask the Secretary of State for Health what steps he is taking to improve the availability of pain killing drugs to assist with home births. [152603]

Ann Keen: The Misuse of Drugs Regulations 2001 clause 11 Exemption for Midwives allows midwives to have in their possession controlled drugs required for their professional practice; this includes pethidine, a Schedule 2 Controlled Drug.

We have included the offer of home birth as a choice in our framework document "Maternity Matters: Choice, access and continuity of care in a safe service", published in April. Home births should be offered within a risk management framework and with adequate local infrastructure and support. It will be for local providers to ensure there are arrangements in place for midwives attending home births to obtain pethidine within existing regulations.

Civil Service: Conditions of Employment

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether the civil service code rules relating to the future employment of former civil servants will apply to the outgoing chief executive of NHS Connecting for Health; and whether any additional contractual conditions or restraints are in place. [153297]

Mr. Ivan Lewis: The Director General of NHS Connecting for Health is subject, as part of his contract, to the rules on the acceptance of outside business appointments in the same way as any other civil servant.

Community Hospitals: Finance

Mr. Graham Stuart: To ask the Secretary of State for Health how much and what percentage of the Community Hospital Fund has been allocated; to which projects, broken down by constituency; and if he will make a statement. [151288]

Mr. Bradshaw: We are investing up to £750 million capital over five years to support the development of community hospitals and services. Information about the cost of schemes announced so far and the funding profiled for 2007-08 is set out in the table. The boundaries of primary care trusts and parliamentary constituencies do not match and the constituency for each scheme is not available centrally.

Scheme	*Cost of scheme (£ million)*	*Percentage of £750 million*	*Allocated in 2007-08 (£ million)*
New Primary Care Centre in Washington in Sunderland	9.0	1.2	6.0
Redevelopment of Gosport War Memorial Hospital	6.1	0.8	3.4
New Community Health Centre in Yate, Bristol	5.0	0.7	2.0
Healthy Living Park in Minehead, West Somerset	24.5	3.3	12.0
Redevelopment of the Barking Hospital	5.0	0.7	0.4
New Health and Social Care Centre in Teddington	4.0	0.5	1.0
New Primary Care Centre in Hastings	11.7	1.6	0.5
Redevelopment of the Royal South Hampshire Hospital	6.1	0.8	2.9
New Primary Care Centre in Ashfield	1.1	0.1	1.1
Redevelopment of the Felixstowe Community Hospital	1.8	0.2	1.8
New Primary Care Centre in Rotherham	1.0	0.1	0
New Community Hospital in Bristol	3.9	0.5	0
New Community Hospital in Hornsey	1.7	0.2	1.0
Redevelopment of five local hospitals and additional community services in Calderdale and Kirklees	13.8	1.8	1.4
Total	94.6	12.6	33.6

Note:
Figures are rounded and totals may not sum to component parts.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Health how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151747]

Dawn Primarolo: The Department has spent the following on mobile air conditioning units:

	£
2002	2,650.00
2003	2,100.00
2004	1,800.00
2005	1,500.00
2006	750.00
2007	0.00

Departments: Aviation

Mr. Hoban: To ask the Secretary of State for Health how much was spent by his Department on *(a)* first class and *(b)* business flights in the last 12 months. [153082]

Dawn Primarolo: The Department's expenditure on first class flights in the last 12 months was £9,946.

The Department's expenditure on business class flights in the last 12 months was £463,723.

These figures consist of air travel booked via the Departments contracted agent. There are some exceptional cases where air travel is booked outside of the contract but these cannot be identified separately without incurring disproportionate costs.

All travel within the Department is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Departments: Catering

Mr. Roger Williams: To ask the Secretary of State for Health what percentage of *(a)* beef, *(b)* sheep meat, *(c)* pork and *(d)* dairy products used in his Department in the most recent period for which figures are available were imported products. [150796]

Dawn Primarolo *[holding answer 19 July 2007]*: Work is currently under way to enable the collection of this information from central Government Departments that will include the proportion of *(a)* beef, *(b)* sheep meat, *(c)* pork and dairy products, that are produced domestically. I understand that my right hon. Friend the Secretary of State for the Environment, Food and Rural Affairs will tell the House when this information is deposited in the Library.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Health what proportion of people employed by *(a)* his Department and *(b)* its agencies are disabled. [153598]

Mr. Ivan Lewis: The latest available data as at 30 September 2006 are published in Civil Service Statistics 2006 at Table P and can be accessed at:

www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=&ColRank=1&Rank=422

www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

Declaration of a disability is voluntary.

Departments: Employment Agencies

Mrs. May: To ask the Secretary of State for Health how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151680]

Dawn Primarolo: Information is not available in the format requested.

In the years where information is available, the costs of agency staff were:

	£
2006-07	6,302,171
2005-06	12,186,224
2004-05	12,507,092

Departments: Finance

Mr. Hoban: To ask the Secretary of State for Health (1) in which years his Department's *(a)* near-cash, *(b)* non-cash and *(c)* capital budget was reduced as a result of it being reprofiled over the years covered by the 2004 Spending Review; and by whom in each case; [153363]

(2) pursuant to the answer of 10 July 2007, *Official Report*, column 1446W, on Departments: public expenditure, and the information provided on page 271 of HM Treasury's 2006 Budget report, how his Department's budget was reprofiled over the 2004 Spending Review period; and how much of its *(a)* near-cash budget, *(b)* non-cash budget and *(c)* capital budget was transferred from which year to which year. [153604]

Mr. Bradshaw: Updated spending estimates are set out in the "Public Expenditure Statistical Analyses". The "Differences from Previous Plans" chapter compares the latest plans for Department Expenditure Limits and Annually Managed Expenditure with the plans set out in the previous year.

Expenditure plans are routinely updated as part of the parliamentary estimates process, and updates are also published in the Budget and pre-Budget report.

Mr. Hoban: To ask the Secretary of State for Health if he will place in the Library a copy of the letter received by his Department from HM Treasury at the time of the 2006 Budget giving his Department formal notification that its budget would be reprofiled over the years covered by the 2004 Spending Review. [153370]

Mr. Bradshaw: The Department has regular correspondence with HM Treasury on a wide range of issues. It is not Government practice to place such correspondence in the Library.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Health how much was spent by his Department on flowers in the last 12 months. [153083]

Dawn Primarolo: The Department spent £1,300 on flowers in the last 12 months.

Departments: Land

Mr. Hancock: To ask the Secretary of State for Health what land he expects to be disposed of by his Department between 2007 to 2011; and whether he plans to require that land to be used for social housing. [149897]

Mr. Bradshaw: The list that follows comprises the larger sites, in the ownership of the Secretary of State for Health, that are expected to be sold between 2007 and 2011. For those sites with housing potential, the requirement for the provision of social housing will need to be negotiated and agreed with the local planning authority.

Cherry Knowle Hospital, Sunderland
Sedgefield Hospital, Sedgefield
Northern View, Bradford
Land off Memorial Avenue, Worksop
Part Towers Hospital, Leicester
Lakeview Close, Walsall
Part Little Plumstead, Norwich
Land at Harp Close, Sunbury
Land at Harwich Hospital, Harwich
Part Harperbury Hospital, Radlett
Land at Napsbury, St. Albans
Queen Elizabeth Hospital, Hackney
Eastry Hospital, Eastry
Part Park Prewett, Basingstoke
Standish Hospital, Stroud

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Health how many people have been appointed to his Department outside Civil Service grades in the last 30 days. [153085]

Dawn Primarolo: None.

Mr. Hoban: To ask the Secretary of State for Health how many press officers are employed by his Department. [153087]

Mr. Ivan Lewis: As at 1 April 2007, the Department employed 30 full-time press officers, four part-time.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Health to which periodicals his Department subscribes. [153079]

Dawn Primarolo: The Department's library service is responsible for central purchasing of periodicals for library use and for retention by individual units using a journals supplier within a framework contract for Government Departments.

Tables showing periodicals which the Department subscribes to in 2007 have been placed in the Library.

Mr. Hoban: To ask the Secretary of State for Health how much was spent by his Department on newspapers and magazines in the last 12 months. [153080]

Dawn Primarolo: The Department spent £81,134 on newspapers and magazines in the last 12 months.

Departments: Private Finance Initiative

Lynne Jones: To ask the Secretary of State for Health what the nature is of each private finance initiative scheme for which his Department is responsible *(a)* approved since January 2006 and *(b)* under consideration; what the planned capacity is of the facilities to be provided by each project; what the contracted or expected construction cost is of each; on what date the contract for each was or is planned to be finalised; what the planned completion date is of each; what the period of each contract is; what the annual charge to the relevant NHS trust is in each case; and what the estimated annual carbon dioxide emissions associated with each development are. [151887]

Mr. Bradshaw: The information on planned capacity construction cost (capital value), actual and planned contract finalisation, opening date, contract length, and annual charge is provided in the table. We have interpreted "under consideration" as meaning those schemes which were considered and approved to proceed since January 2006 as part of the Department's private finance initiative (PFI) re-appraisal exercise and are continuing with their procurements but have not yet reached financial close.

The mandatory energy target which applies to the national health service as a whole is to reduce the level of primary energy consumption by 15 per cent. or 0.15 MtC (million tonnes carbon) from March 2000's level by March 2010. To achieve this individual NHS bodies must achieve energy usage targets of between 33 and 55 GJ/100cu.m per annum (Gigajoules/100 Cubic Metres) for all new capital developments and major redevelopments or refurbishments; and that all existing facilities should achieve energy usage of between 55 and 65 GJ/100cu.m per annum.

If energy provisions are included in a PFI scheme then they must comply with these targets. Figures are collected centrally for progress against these energy targets (which are then converted into a carbon dioxide emission figure) but only for the whole of each NHS trust's estate i.e. it is not possible to separately identify a figure for the PFI element.

NHS trust	*Capital value (£ million)*	*Financial close date*	*Estimated operational date*	*First annual unitary payment (£ million)*[1]	*Bed numbers*[2]	*Contract length (years)*[3]	*Scheme description*
A—PFI schemes approved since January 2006							
Hull and East Yorkshire Hospitals	67	21 February 2006	Q2 2008	4.0	100	30	Reconfiguration of Cancer facilities
Ipswich Hospital	36	27 March 2006	Q4 2007	2.9	—	—	Garrett Anderson Treatment Centre
Barts and the London	1,000	27 April 2006	Q4 2013	96.4	990	35	Major Acute development of The Royal London hospital. New wing, Cancer and Cardiac Centres and extensive refurbishment of Barts hospital.
St. Helens Hospitals	338	1 June 2006	Q4 2008	30.0	1151	35	Major Acute Hospital development of St. Helens and Whiston Hospital sites.

NHS trust	Capital value (£ million)	Financial close date	Estimated operational date	First annual unitary payment (£ million)[1]	Bed numbers[2]	Contract length (years)[3]	Scheme description
University Hospital Birmingham/ Birmingham and Solihull Mental Health	627	8 June 2006	Q1 2010	47.0	1327	35	Single site hospital to replace Selly Oak and Queen Elizabeth Hospitals and provide a new Mental Health Unit (Joint scheme with Birmingham and Solihull Mental Health NHST).
South West Essex Teaching PCT	30	29 June 2006	Q3 2008	3.3	—	—	Reprovision of Brentwood Community Hospital
Taunton and Somerset —Cancer Centre	21	28 February 2007	Q1 2009	2.6	—	—	Cancer Centre
Lincolnshire Teaching PCT	29	3 May 2007	Q2 2009	2.4	—	—	New Mental Health facilities (part of the PFI Mental Health batch in the Midlands known as '3 Shires')
University Hospital of North Staffordshire	306	13 June 2007	Q3 2012	40.7	1129	30	Major new build and reconfiguration at University Hospital site.
Mid Yorkshire Hospitals	343	22 June 2007	Q2 2010	27.0	762	32	Rationalisation from two main sites to one at Pinderfields Hospital. Small Unit at Pontefract.
Peterborough and Stamford Hospitals	336	29 June 2007	Q1 2012	24.1	748	32	New Acute Hospital, Mental Health unit and integrated care centre.
B—PFI schemes under consideration since January 2006							
Tees, Esk and Wear Valleys	78	Q3 2007	Q4 2008	—	312	—	Replacement of St. Luke's Hospital
Maidstone and Tunbridge Wells	225	Q1 2008	Q4 2010		512		Modernisation and reconfiguration from four sites to two at Pembury and Maidstone.
North Bristol/South Gloucestershire PCTs	310	Q1 2009	Q1 2014	—	947	—	Centralisation of specialist and Acute services presently located at Frenchay and Southmead Hospitals.
Tameside and Glossop Acute Services	109	Q3 2007	Q3 2009	—	134	—	Integration of services onto one site
Mid Essex Hospital Services	143	Q3 2007	Q2 2010	—	336	—	Relocation of Maternity Unit and modernisation of Acute Services including DTC in Chelmsford.
North Middlesex University Hospital	111	Q3 2007	Q2 2010	—	150	—	Replacement Accident and Emergency services, inpatient beds and Diagnostic and Treatment Centre.
Salford Royal Hospitals	190	Q3 2007	Q12011	—	209	—	New build and refurbishment at Hope Hospital Salford
Walsall Hospitals	141	Q4 2007	Q4 2009	—	558	—	Improving Children's services and provision of primary care centres.

[1] Annual payments to the private sector are not finalised until financial close.
[2] Capacity information is not held centrally for non-prioritised schemes.
[3] Figures for the contract length exclude the build period. Details of the length of contract are only held centrally for major schemes. For all other schemes the contract length is assumed to be 30 years, the standard length introduced under the Standard Form Contract in 1999. Contract length is not finalised until financial close.

Departments: Public Expenditure

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 11 July 2007, *Official Report*, column 1553W, on Departments: public expenditure, what items of specific guidance have been issued to departments in the last five years on the co-ordinating of particular exercises. [153526]

Mr. Bradshaw: Where we have worked with HM Treasury on issues that involve many different parts of the Department, an official within the Department is typically asked to coordinate the work. This includes a large number of small exercises, as well larger issues such as spending reviews. It would not be practical to trace everyone of these exercises over the last five years.

Departments: Railways

Mr. Hoban: To ask the Secretary of State for Health how much was spent by his Department on first class train tickets in the last 12 months. [153081]

Dawn Primarolo: The Department's expenditure on first class train tickets in the last 12 months was £3,110,108.

This figure consists of rail tickets booked via the Department's contracted agent. There are some exceptional cases where rail tickets are booked outside of the contract but these cannot be identified separately without incurring disproportionate costs.

All travel within the Department is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Health how much was spent by his Department on redundancy payments in the last 12 months. [153075]

Dawn Primarolo: I refer the hon. Member to the answer given on 17 July 2007, *Official Report*, column 231W.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Health how much was spent by his Department on taxis in the last 12 months. [153084]

Dawn Primarolo: The Department's expenditure on taxis in the last 12 months was £310,754.00. This figure consists of taxi travel booked via the Department's contracted agent. There are some exceptional cases of taxi travel outside of the contract but these cannot be identified separately without incurring disproportionate costs.

Travel within the Department is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Health how much was spent by his Department on staff away days in the last 12 months. [153076]

Dawn Primarolo: This information is not held centrally and to collect it would be at disproportionate cost.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Health how much was spent by his Department on industrial tribunals in the last 12 months. [153078]

Dawn Primarolo: The Department spent a total of £44,249 on industrial tribunals in the last 12 months. This figure includes settlement costs as well as Counsel fees.

East of England Strategic Health Authority: Pay

Margaret Moran: To ask the Secretary of State for Health what discussions he has had with East of England Strategic Health Authority on payoffs to staff and the effect of such payoffs on the Strategic Health Authority's budget. [152270]

Mr. Ivan Lewis: Staff recruitment and retention is a matter for local trust management in conjunction with the appropriate strategic health authority (SHA). There have been no discussions as to redundancy payments between the Minister and the SHA.

Health Professions: Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many *(a)* headcount and *(b)* full-time equivalent (i) dieticians and (ii) nutritionists were working in the NHS in each year since 1997. [153402]

Mr. Bradshaw: I refer the hon. Member to the answer given to the hon. Member for Romsey (Sandra Gidley) on 31 July.

The numbers of nutritionists are not identified separately and are included in the numbers of dieticians.

Health Services: Private Sector

Mr. Yeo: To ask the Secretary of State for Health (1) whether his Department requires primary care trusts to consult *(a)* existing acute hospitals, *(b)* county council overview and scrutiny committees, *(c)* GPs, *(d)* patients and *(e)* other representatives of the health community prior to tendering taking place for independent sector treatment centres; [152690]

(2) whether existing acute hospitals are permitted to tender for independent sector treatment centres; [152691]

(3) what his Department's policy is on primary care trusts tendering for independent sector treatment centres when there is underused NHS operating capacity available locally. [152692]

Mr. Bradshaw: Procurement of the national Independent Sector Treatment Centres (ISTC) programme is being conducted in compliance with European Union procurement law. There was no bar on any organisation expressing an interest in the notice placed in the Official Journal of the European Union (OJEU) in 2005 in relation to the national Phase 2

ISTC programme procurement. There is a robust process to ensure there is local support and a capacity need for each individual elective ISTC.

With regard to consultation, primary care trusts are expected to comply with their legal obligations under the Health and Social Care Act 2001.

Mr. Yeo: To ask the Secretary of State for Health what assessment his Department has made of the effects of independent sector treatment centres on NHS staff training and development. [152695]

Mr. Bradshaw: Independent sector treatment centres (ISTCs) will provide new training opportunities for staff. The long-term aim is for ISTCs to both source and employ professionals and support staff, while retaining opportunities for national health service employees to have access to employment and secondment opportunities to further develop their skills and experience.

Health: Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many finished in-year admission episodes where undernutrition is recorded as a *(a)* primary and *(b)* secondary diagnosis there were in (i) England and (ii) each primary care trust area in each year since 1997-98. [153409]

Dawn Primarolo: The information requested has been placed in the Library.

Home Care Services: Oxygen

Sandra Gidley: To ask the Secretary of State for Health how much was spent by *(a)* his Department and *(b)* each health trust on each type of prescribed domiciliary oxygen therapy in each of the last 10 years. [151014]

Mr. Bradshaw: The information requested is only available for 2006-07 and I refer the hon. Member to the reply I gave on 23 July 2007, *Official Report*, columns 813-15W.

Hospices: Finance

Tim Loughton: To ask the Secretary of State for Health what level of funding is being provided by the NHS to *(a)* adult hospices and *(b)* children's hospices in Sussex in 2007-08. [152768]

Mr. Ivan Lewis: This information is not collected centrally.

Primary care trusts (PCTs) are responsible for commissioning and funding palliative care services locally. The level of funding a hospice receives is a matter for local negotiation between the PCT and the hospice. It is for PCTs to determine how to use the funding allocated to them and to commission services to meet the health care needs of their local population.

However, under the Dignity in Care for Older People campaign, special one-off capital grants were awarded to a number of adult hospices to improve their physical environment. It is important to note that these were not revenue grants to support running costs.

On 9 April 2007, six of these one-off capital grants were awarded to hospices in Sussex and are shown in the table.

	Amount (£)
Martletts Hospice	345,425
St. Barnabas Hospice (Worthing)	446,000
St. Catherine's Specialist Palliative Care Centre	183,560
St. Michael's Hospice (Hastings)	383,920
St. Peter and St. James Hospice	278,950
St. Wilfrid's Hospice	424,600
Total for Sussex	2,062,455

Hospitals: Private Sector

Mr. Yeo: To ask the Secretary of State for Health what assessment his Department has made of the effects of independent sector treatment centres on the economics of NHS acute hospitals in their areas. [152693]

Mr. Bradshaw: As part of the planning and subsequent approvals process for any independent sector treatment centre (ISTC) scheme, an assessment is made of the likely impact of the scheme on the local health care economy.

ISTCs will only be introduced in health economies in which the strategic health authority supports the case for them, and is committed to managing the capacity and financial consequences of ISTC implementation, particularly any impacts on existing national health service providers of elective care.

Incontinence: Children

Bob Russell: To ask the Secretary of State for Health what level of provision there is for continence services for children in *(a)* Essex, *(b)* the East of England and *(c)* England. [147856]

Mr. Ivan Lewis: It is for health professionals in primary care trusts to commission appropriate continence services for local people, based on current and anticipated needs, and in consultation with stakeholders. In commissioning these services, professionals are expected to have regard to the recommendations outlined in "Good Practice in Continence Services".

Midwives: Training

Mr. Frank Field: To ask the Secretary of State for Health pursuant to the answer of 20 June 2007, *Official Report*, column 1926W, on midwives: training, if he will make it his policy to collect data on the number of students who qualify as midwives each year; and if he will make a statement. [149858]

Mr. Bradshaw: Collecting data on the number of health care graduates including those in midwifery is challenging and complex, as a result the Department has historically not collected this information.

However, the Department continues to improve its data sources in estimating the number of midwifery graduates in a given year. This includes analysing data

from the Nursing and Midwifery Council, work force review team and the Higher Education Statistics Agency.

Since 1997, the number of midwives employed in the NHS has increased by 2,084 (9 per cent.) from 22,385 to 24,469 (in 2006).

Motor Neurone Disease: Research

Stephen Hammond: To ask the Secretary of State for Health what funds the Government provided for research into motor neurone disease in each year since 2005; and what funds have been allocated for each year to 2010 [151350]

Ian Pearson: I have been asked to reply.

The Medical Research Council (MRC) spent £2.8 million on research into motor neurone disease in 2005-06. Total spend on neurological research in 2005-06 was around £80 million. The amount MRC will allocate in the future will depend on the number and scientific quality of applications received.

Research active organisations in the national health service, funded through the Department of Health's research and development budget, also support research into motor neurone disease. The Department of Health does not collect details of expenditure by these organisations on research into particular disease areas. Details of individual projects supported in the NHS can be found on the national research register at http://www.dh.gov.uk/research. Their overall reported spend on neurological conditions in 2005-06 was £26 million, and in 2006-07 was £28 million.

The Department of Health has also established and is funding a dementias and neurodegenerative disease research network that gives patients from every motor neurone disease clinic in England the opportunity to take part in national clinical trials.

Musculoskeletal Disorders: Sick Leave

Kelvin Hopkins: To ask the Secretary of State for Health what discussions his officials have had with the Department of Work and Pensions on arthritis and other musculoskeletal problems as a cause of long-term sick leave. [152979]

Mr. Ivan Lewis: There has been no specific discussion on arthritis and other musculoskeletal problems but the Department of Health, the Department for Work and Pensions and the Health and Safety Executive are working together on the Government's Health, Work and Well Being strategy.

This will address all the major causes of long-term sickness including musculoskeletal problems as well as other long-term medical conditions such as arthritis.

NHS: Finance

Mr. Hoban: To ask the Secretary of State for Health what advice his Department received from the Audit Commission on the impact of resource accounting and budgeting on financial management in the NHS, in addition to the Review of the NHS Financial Management and Accounting Regime, published 26 July 2006; and on what date each piece of advice was received. [147028]

Mr. Bradshaw: In addition to the "Review of the NHS financial Management and Accounting Regime", the Audit Commission has published the following reports that refer to the impact of resource accounting and budgeting on the financial management of the NHS:

"Financial Management in the NHS—NHS (England) Summarised Accounts 2004-05" published on 8 June 2006;

"Learning the lessons from financial failure in the NHS" published on 11 July 2006.

Mr. Hoban: To ask the Secretary of State for Health on what date the decision was taken to make changes to the resource accounting and budgeting system for the NHS announced in March 2007. [147121]

Mr. Bradshaw: The Audit Commission published its "Review of the NHS Financial Management and Accounting Regime" on 26 July 2006.

The departmental publication "The NHS in England: the operating framework for 2007/08" published on 11 December 2006 stated that although the Department accepted the rationale behind the Audit Commission's recommendations on resource accounting and budgeting (RAB) it could not commit to implementation at that stage.

Before the final decision could be made we needed to be sure that national health service trusts had the financial discipline to operate outside the stringent RAB rules relating to income deductions following deficits. The improving financial position reported in "NHS Financial Performance Quarter 3" published on 20 February 2007 coupled with new tighter cash controls gave us the confidence that the changes could be made.

The final decisions were made in the period leading up to the announcement on 28 March 2007.

Mr. Hoban: To ask the Secretary of State for Health what preparations his Department made for the introduction of the resource accounting and budgeting system in NHS trusts. [147122]

Mr. Bradshaw: Guidance on the introduction of resource accounting and budgeting (RAB) was issued to the national health service during 2000. This was consolidated in "A guide to resource accounting and budgeting" issued by the Department's Finance Directorate in February 2001. Copies of this document have been placed in the Library. It can also be found on the Department's website at:

www.dh.gov.uk/en/Policyandguidance/Organisationpolicy/Financeandplanning/Allocations/DH_4000346

Subsequent changes to financial rules for national health service trusts, including those relating to RAB, have been communicated to the NHS through a number of sources including the finance manual and manual for accounts.

Mr. Hoban: To ask the Secretary of State for Health (1) who the members are of the Steering Group set up by his Department to oversee the implementation of

the recommendations of the Audit Commission's review of NHS financial management; [153369]

(2) on which dates the Steering Group set up by his Department to oversee the implementation of the recommendations of the Audit Commission's review of NHS financial management *(a)* has met and *(b)* plans to meet. [153374]

Mr. Bradshaw: The Department has established a steering group to oversee the implementation of the recommendations made in the Audit Commission Review of the Financial Management and Accounting Regime in the National Health Service. The group held its inaugural meeting on 23 March 2007, to which the following representatives of the Department, Audit Commission, Treasury and NHS were invited:

Richard Douglas—Director General of Finance and Investment, Department of Health

Bill McCarthy—Director General of Policy and Strategy, Department of Health

Martin Foulds—NHS Financial Controller, Department of Health

Alastair MacLellan—Group Financial Controller, Department of Health

Andrew Stubbings—Head of Capital and Programme Investment, Department of Health

Andrew Laycock—Financial Head of Business Management, Department of Health

John Hall—Head of Health Team, HM Treasury

Andy McKeon—Managing Director Health, Audit Commission

Anna Simons—Private Finance Practice Leader, National Audit Office

Stephen Hay—Chief Operating Officer, Monitor

Peter Shanahan—Finance Director, West Midlands Strategic Health Authority

Colin Gentile—Finance Director, St. George's NHS Trust, London

Alison Tonge—Finance Director and Deputy Chief Executive, Stockport PCT

Kevin Orford—Finance Director and Deputy Chief Executive, East Midlands SHA

Since that meeting, the group has continued discussions by correspondence. The future meeting structure is currently being reviewed in light of changes to responsibilities within the Department.

Mr. Hoban: To ask the Secretary of State for Health how the budget of the NHS was reprofiled over the years covered by the 2004 Spending Review to reflect the reprofiling of his Department's budget over the same period. [153371]

Mr. Bradshaw: The allocation of resources to primary care trusts (PCTs) have not been revised. PCT allocations for 2006-07 and 2007-08 were made in February 2005, and for 2005-06 were made in December 2002.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health what ex gratia payments the outgoing chief executive of Connecting for Health will receive. [153295]

Mr. Bradshaw: There are no plans to make any ex gratia payments to the Director General of NHS Connecting for Health.

NHS: Manpower

David Taylor: To ask the Secretary of State for Health what recent assessment he has made of the effectiveness of the framework document, Securing and retaining staff for health and social care, in assisting NHS trusts in the redeployment and recruitment of staff. [150904]

Mr. Bradshaw: NHS Employers' framework "Securing and retaining staff for health and social care—a partnership approach" sets out best practice to support local national health service employers to minimise the need to declare staff redundant.

NHS Employers will continue to review the programme of activities.

NHS: Procurement

Mr. Havard: To ask the Secretary of State for Health pursuant to the answer of 20 June 2007, *Official Report*, column 1929W, on NHS procurement, what mechanisms he plans to set up for patient groups and other stakeholders to make representations directly to NHS supply chain products councils. [153489]

Mr. Bradshaw: These representations would need to be made in writing to NHS Supply Chain's Product Council Co-ordinator.

Mr. Havard: To ask the Secretary of State for Health pursuant to the answer of 16 April 2007, *Official Report*, column 372W, on NHS procurement, under what circumstances the NHS supply chain products councils would raise with NHS Business Services Agency (Supply Chain Management Division) requests for new products to be added to the lists of items to be supplied. [153490]

Mr. Bradshaw: NHS Supply Chain can contract for any product within all of the product categories currently in-scope and include them in their offer.

Any requests to add new product categories must be made to the NHS Business Services Authority (NHS BSA) who would request NHS supply chain submit a proposal. The NHS BSA would consider the benefits to the national health service of including the new product category and would liaise with all relevant stakeholders including the NHS Purchasing and Supply Agency and the Department prior to approving or denying any request.

Mr. Havard: To ask the Secretary of State for Health what mechanisms *(a)* his Department and *(b)* the NHS Supply Chain have in place to allow patients, clinicians and other stakeholders to appeal against decisions made by the NHS Supply Chain. [153623]

Mr. Bradshaw: NHS Supply Chain is governed by European Union procurement regulations and complaints can be made directly to the NHS Supply Chain should they be dissatisfied with selection or any other activity which forms part of the tender process.

Any appeal against a decision or issue can be escalated to the NHS Business Services Authority Supply Chain Management Division for resolution.

Nutrition

Sandra Gidley: To ask the Secretary of State for Health how many dieticians were employed in each NHS trust in each of the last 10 years. [152254]

Mr. Bradshaw: This information has been placed in the Library.

Orthopaedics: Health Services

Mr. Hands: To ask the Secretary of State for Health (1) what assessment his Department has made of the adequacy of capacity in orthopaedic services to meet the 18 week target; [153342]

(2) what representations he has received on the impact of the 18 week target on the standard of orthopaedic treatment provided to patients. [153344]

Mr. Bradshaw: The British Orthopaedic Association and others are represented on the 18 weeks clinical advisory group which is developing advice to help local areas deliver high quality, safe treatment within 18 weeks for the most common conditions, including orthopaedics.

On capacity, the Department is satisfied with the assurance of strategic health authorities that local health services are planning adequate orthopaedic activity to make the necessary progress in 2007-08 towards the 18 weeks target.

Patients: Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many people *(a)* admitted to and *(b)* discharged from hospital were malnourished (i) in total and (ii) per 100,000 (A) for all ages and (B) broken down by age group in each year since 1997-98. [153397]

Dawn Primarolo: The information requested is shown in the following table for years where the information is available. It is not possible to provide information about the number of people discharged from hospital who were malnourished because it would be misleading to present the admissions/discharges per 100,000 of the English population when a proportion of these will represent people not resident in England.

Source:
Hospital Episode Statistics.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what estimate he has made of the number of *(a)* primary care trusts and *(b)* NHS trusts which routinely use nationally validated malnutrition screening tools for patients who present to health services; [153400]

(2) what assessment he has made of levels of adherence by *(a)* NHS organisations and *(b)* general practice surgeries to section 1.14.2.2 of the guidance issued on 22 February 2006 by the National Institute for Health and Clinical Excellence on nutritional support in adults, to screen for malnutrition (i) all hospital inpatients on admission, (ii) all outpatients on first attendance and (iii) all people on initial registration at general practice surgeries; [153401]

(3) what steps he is taking to encourage the use of malnutrition screening tools in healthcare settings. [153403]

Dawn Primarolo: The Department does not monitor the use of malnutrition screening tools centrally.

National Institute for Health and Clinical Excellence clinical guidelines are classified as developmental standards in the national health service quality standards framework "Standards for Better Health". NHS organisations are expected to take full account of them in developing services, but the pace of implementation will vary according to local circumstances and priorities.

Core Standard C15b of the "Standards for Better Healthcare", assessed by the Healthcare Commission, includes a requirement that, among other things,

"The healthcare organisation should ensure that the nutritional status of patients is assessed at appropriate points in their care, for example, upon admission to hospital."

The National Patient Safety Agency, who have responsibility for supporting the implementation of policy on hospital food and nutrition, are actively promoting the comprehensive screening of patients on admission to hospital.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what recent estimate he has made of the number of bed days occupied by patients in a year as a consequence of undernourishment. [153411]

Dawn Primarolo: According to the Hospital Episode Statistics, the count of bed days during 2005-06 for finished episodes where the primary diagnosis was malnutrition in national health service hospitals in England was 6,083.

Schools: Travel

Sandra Gidley: To ask the Secretary of State for Health how many travel advisers have been recruited for schools. [152253]

Kevin Brennan: I have been asked to reply.

The Government have funded local authorities to ensure that adequate school travel adviser provision is in place. We do not collect information about the number of school travel advisers recruited by local authorities.

Tuberculosis: Vaccination

Andrew George: To ask the Secretary of State for Health what steps he has taken to reduce the gap between the funding required for the research and development of the new tuberculosis vaccine and the funding available to it. [152396]

Ian Pearson: I have been asked to reply.

Research on new TB vaccines is being undertaken in a number of countries by a range of different research groups. In the UK, the Medical Research Council (MRC) spend on TB vaccines in 2005-06 was £1.9 million (four projects). It also provided funding of £0.4 million for four underpinning projects.

Written Answers to Questions

The following answers were received between Monday 3 September and Friday 7 September 2007

CHURCH COMMISSIONERS

Clergy: Pay

Miss McIntosh: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what forms of income other than the stipend are available to clergymen; and what cost of living adjustments are made annually. [152884]

Sir Stuart Bell: Apart from the stipend, the clergy remuneration package also includes the provision of housing (including the payment of council tax, water charges, maintenance, external decoration) and a non-contributory Church pension.

Clergy are also eligible for removal grants and subsidised insurance in high risk areas.

The Central Stipends Authority recommends stipend levels to dioceses and the Church Commissioners each year after extensive consultation taking into account forecast movements in RPI and AEI. For 2008-09 it has recommended a general increase of 3 per cent.

Departments: Assets

Harry Cohen: To ask the hon. Member for Middlesbrough, representing the Church Commissioners by what legal instruments assets are vested in and controlled by the Church Commissioners. [152602]

Sir Stuart Bell: On 1 April 1948 the Church Commissioners inherited the assets and functions of their predecessors, Queen Anne's Bounty and the Ecclesiastical Commissioners, by virtue of section 2 of the Church Commissioners Measure 1947. Any assets acquired subsequently were vested in the Commissioners by the appropriate legal deed or document.

The Commissioners exercise control over their assets through the Assets Committee which, under section 6 of the 1947 measure and subject to any general rules made by the Board of Governors, has exclusive power and duty to act on behalf of and in the name of the Commissioners in all matters relating to the management of those assets of the Commissioners the income of which is carried into their general fund, including the power to sell, purchase, exchange and let land and make, realise and change investments.

INTERNATIONAL DEVELOPMENT

Departments: Aviation

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on *(a)* business class and *(b)* first class flights in the last 12 months. [153117]

Mr. Thomas: All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

DFID's expenditure on flights booked centrally for the 12 month period April 2006 to March 2007 was £6,876,805, including business class flights costing £5,726,318 and first class flights costing £41,922. Staff rules preclude use of first class travel, except by Ministers, officials accompanying them, and the most senior members of the senior civil service. Rules relating to the use of air travel and fare entitlements are set out in the staff handbook.

Departments: Railways

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on first class train tickets in the last 12 months. [153116]

Mr. Thomas: All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

DFID's expenditure on UK train tickets for the 12 month period April 2006 to March 2007 was £366,684. Data distinguishing between classes of travel are not routinely maintained and could not be produced without disproportionate cost. Staff normally travel by standard class but are permitted with prior approval to travel first class when they are expected to work during the journey.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on taxis in the last 12 months. [153119]

Mr. Thomas: DFID's expenditure on taxis for the 12 month period April 2006 to March 2007 was £248,363.

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Developing Countries: Currency

Mr. Scott: To ask the Secretary of State for International Development what system his Department uses for recording currency transactions from sterling into local currency for use in developing countries. [146801]

Mr. Thomas: DFID does not keep records of how, or at what rate, its sterling transactions are converted into local currency once they reach their recipient.

The majority of our funding is made in sterling. All transactions in foreign currency are recorded as a sterling equivalent, based on the exchange rate for that day. DFID's standard payment systems provide the necessary evidence that money has been paid to the intended recipient. All financial aid to overseas governments is paid through Crown Agents Bank which provides documentation demonstrating that the funds have reached the partner government's Central Exchequer. For non-financial aid our own accounting and banking systems provide this assurance.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* average and *(b)* longest flying hours for each helicopter type operating in Afghanistan were in each of the last 12 months. [153316]

Mr. Bob Ainsworth: I refer the hon. Member to the answer given on 26 March 2007, *Official Report*, column 1353W, to the hon. Member for Harwich (Mr. Carswell).

Ammunition

Nick Harvey: To ask the Secretary of State for Defence how much his Department has spent on researching enhanced blast munitions; what orders have been made for them; and what plans there are for future procurement of the munitions. [152215]

Mr. Bob Ainsworth *[pursuant to the reply, 26 July 2007, Official Report, c. 1243W]:* The final sentence my answer should have read as:

We have, in addition, procured a small number of weapons that use enhanced blast technology, the details of which I am withholding because their disclosure would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces. There are currently no firm plans for the further procurement of enhanced blast munitions, other than those that I have described above.

Armed Forces: Insurance

Mr. Harper: To ask the Secretary of State for Defence pursuant to the answer of 6 March 2007, *Official Report*, column 1872W, on the armed forces: insurance, when he expects to place in the Library the documents referred to. [149349]

Derek Twigg: I have placed the documents in the Library of the House.

Armed Forces: Schools

Dr. Murrison: To ask the Secretary of State for Defence what the parental customer satisfaction ratings in respect of service personnel children's education schools were in each year for which records are available. [150128]

Derek Twigg: Since 2004 School Children's Education has commissioned an annual independent Parental Satisfaction Survey carried out by the National Foundation for Educational Research (NFER). The percentage of parents stating that they are very satisfied or satisfied with their child's school is outlined here:

Percentage

	Primary School	*Secondary School*
2004	90	89
2005	91	88
2006	91	89

The results of the 2007 NFER survey are expected to be published in October 2007 and will be thereafter be available to interested parties by visiting the agency website at:

www.sceschools.com.

Challenger Tanks: Non-depleted Uranium

Nick Harvey: To ask the Secretary of State for Defence what progress has been made towards the introduction of non-depleted uranium ammunition for Challenger 2 tanks; and if he will make a statement. [149672]

Mr. Bob Ainsworth: The Department continues to examine a range of options for the main armament and ammunition types used by the Challenger 2 Main Battle Tank. An investigation into the feasibility of new non-depleted uranium ammunition forms part of this work.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Defence how many people have been appointed to his Department outside civil service grades in the last 30 days. [153071]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Departments: Public Expenditure

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will breakdown the financial year 2006-07 outturn for resources one, two and three provision for each subhead by *(a)* near cash departmental expenditure limit (DEL), *(b)* non-cash DEL, *(c)* capital DEL, *(d)* near cash annual managed expenditure, *(e)* non-cash annual managed expenditure, *(f)* capital annual managed expenditure, *(g)* near cash non-budget and *(h)* non-cash non-budget. [154918]

Mr. Bob Ainsworth: The 2006-07 MOD resource and capital outturn expenditure for Request for Resources 1, 2 and 3, are set out in the following table.

Ministry of Defence: Breakdown of expenditure outturn 2006-07

EU Defence Policy

Dr. Fox: To ask the Secretary of State for Defence how many British armed forces personnel have participated in EU military operations since 1997, broken down by cap badge. [153331]

Mr. Bob Ainsworth: British armed forces personnel have participated in five EU military operations or support missions since 2003; there was no participation by UK military personnel in EU military operations before 2003.

Operation Concordia was an EU Military Operation in the Former Yugoslavian Republic of Macedonia from March 2003 to December 2003. Three British personnel participated.

Operation Artemis was an EU Military Operation in the Democratic Republic of Congo from June 2003 to September 2003. From July 2003 to August 2003, 84 UK military personnel were involved.

Operation Althea is an EU Military Operation in the Balkans which started in December 2004 and is still ongoing. The units listed have participated in this operation. Since March 2007 only individuals deployed as Staff Officers to HQ have been involved.

1 Battalion Grenadier Guards—December 2004 to March 2005.

The Argyll and Sutherland Highlanders, 5th Battalion The Royal Regiment of Scotland—April 2005 to September 2005.

1st Battalion The Royal Gurkha Rifles—October 2005 to May 2006.

2nd Battalion The Yorkshire Regiment (Green Howards)—April 2006 to September 2006.

1st Battalion Welsh Guards - October 2006 to March 2007.

EU civilian-military supporting action to African Union Mission in Sudan (and recently Somalia) from July 2005 is still ongoing. Three UK military personnel were deployed from October 2005 to December 2005.

EUFOR RD Congo (Democratic Republic of the Congo) from April 2006 to November 2006. 2 UK officers participated; one at EU Headquarters at Potsdam and one in the theatre Headquarters.

Detailed information on the cap badges of individual officers deployed on EU operations is not held centrally and could be provided only at disproportionate cost.

Navy: Horses

Mr. Pope: To ask the Secretary of State for Defence how much was spent by the Royal Navy on purchasing, maintaining and transporting horses and ponies for polo in the last 12 months for which figures are available. [152626]

Derek Twigg: The Royal Navy does not own any horses or ponies. Expenses have therefore not been incurred on purchasing or maintaining such animals. Service personnel are, however, entitled to payment from public funds for towing a horse box containing their own horses and ponies for authorised official fixtures in accordance with tri-Service Regulations for Allowances. Information on these costs is not separately identifiable.

Navy: Reserve Forces

Mr. Brazier: To ask the Secretary of State for Defence how many Royal Navy reservists were deployed in each year since 2000-01, broken down by location. [140242]

Mr. Bob Ainsworth *[holding answer 6 July 2007, pursuant to the reply, 19 June 2007, Official Report, c. 1767W]:* The correct table is published as follows:

Location	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08	Total
Iraq	320	126	10	5	39	27	527
Afghanistan	—	—	—	3	26	12	41
Bosnia	—	—	1	1	—	—	2
North East Africa	—	—	—	—	2	1	3
Balkans	—	—	1	3	24	1	29
Other	—	—	4	6	5	3	18
Total	320	126	16	18	96	44	620

RAF Brize Norton: Charities

Nick Harvey: To ask the Secretary of State for Defence who made the decision to waive the liability charge for the Sgt Biddiss Charity event held at RAF Brize Norton. [152352]

Derek Twigg: The decision to waive the liability charge was made by the Director Secretariat and the Finance Director of Defence Estates.

Type 45 Destroyers

Dr. Julian Lewis: To ask the Secretary of State for Defence what representations he has received on the advantages to be derived from equipping Type-45 Destroyers with Tactical Tomahawk cruise missiles. [151188]

Mr. Bob Ainsworth *[holding answer 25 July 2007]:* Since the Type 45 Destroyer project reached its main investment decision (Main Gate) in 2000, the Ministry of Defence has received various representations, including from industry and Members of this House, not least the hon. Gentleman himself, about equipping Type 45 Destroyers with Tactical Tomahawk cruise missiles (TLAM).

Dr. Julian Lewis: To ask the Secretary of State for Defence what increase in capabilities there has been in respect of the design specification for Type-45 Destroyers since 1998. [151257]

Mr. Bob Ainsworth *[holding answer 25 July 2007]:* The capability for the Type 45 Destroyer is defined within the design specifications (the Key User Requirements) which were set at the main investment point (Main Gate) in 2000. The capability required has not increased since.

SOLICITOR-GENERAL

Crown Prosecution Service: Hertfordshire

Anne Main: To ask the Solicitor-General if she will conduct a review into the work of Crown Prosecution Service Hertfordshire. [154850]

The Solicitor-General: Her Majesty's Crown Prosecution Service Inspectorate (HMCPSI) recently conducted an inspection of the effectiveness of the Crown Prosecution Service (CPS) in Hertfordshire and published its report in August 2007. This was an independent review. I have considered the report and asked the CPS for an action plan on how the recommendations are to be addressed. The HMCPSI will look at CPS Hertfordshire again in its overall performance assessment of the CPS during the autumn.

Anne Main: To ask the Solicitor-General what assessment she has made of HM Crown Prosecution Service Inspectorate's recent report on Crown Prosecution Service Hertfordshire. [154851]

The Solicitor-General: I have considered the HM Crown Prosecution Service Inspectorate (HMXCPSI) report on the effectiveness of the Crown Prosecution Service in Hertfordshire which was published in August 2007. I note that HMCPSI were satisfied that substantial progress had been made in relation to a number of areas for improvement that they had previously identified. However, the report made a number of recommendations in order to secure further improvements. I have asked the CPS for an action plan on how they propose to address these.

DUCHY OF LANCASTER

Civil Servants: Pensions

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster how many civil servants are *(a)* contributing to and *(b)* being paid a pension from each Civil Service pension scheme for which his Department has responsibility. [155003]

Edward Miliband: The information requested is available in the Resource Accounts 2006-07 of Cabinet Office: Civil Superannuation, a copy of which is available in the Library for the reference of Members.

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster what the total value was of each individual Civil Service pension scheme for which his Department has responsibility in each year since 1997. [155039]

Edward Miliband: Since the 1999-2000 financial year, details of the estimates of the unfunded liabilities of the Principal Civil Service Pension Scheme are published annually in the Cabinet Office: Civil Superannuation Resource Accounts. Copies of these accounts for the years 1999-2000 to 2006-07 are available in the Library for the reference of Members.

Before the introduction of resource accounting in 1999-2000, the accounting arrangements in place did not include pension liabilities and so figures are not readily available. However, for the estimated liabilities at 31 March 1998, I refer the hon. Member to the answer given in the other place by the noble Lord McIntosh to the noble Lord Blackwell on 4 July 2000, House of Lords, *Official Report*, column WA129.

CHILDREN, SCHOOLS AND FAMILIES

Child Trust Fund: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how many Child Trust Fund payments have been made in *(a)* City of York constituency, *(b)* City of York Unitary Authority and *(c)* Yorkshire and the Humber. [154939]

Kitty Ussher: I have been asked to reply.

Constituency and regional data on Child Trust Fund accounts was published on 11 January 2007 and can be viewed on the HM Revenue and Customs' website at: www.hmrc.gov.uk/ctf/stats.htm. Updated data will be published later in the year.

WORK AND PENSIONS

Unemployment

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many individuals of working age not in full-time education were economically inactive in each year since 1997; and what this figure was as a proportion of the working age population in each case. [152597]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 5 September 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question about the levels and proportions of working age economically inactive people who are not in full-time education. (152597)

The attached table shows the numbers and percentages of economically inactive people of working age, who are not in full-time education. The estimates cover the three month period ending December each year from 1997-2006, and are not seasonally adjusted. Comparable estimates are not available for 1998 and 2000. The estimates in the attached table are from the detailed LFS dataset which are currently weighted to population totals consistent with the population estimates first published in spring 2003. They are not directly comparable with the estimates in the monthly Labour Market First Release.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Economically inactive people of working age[1] who are not in full-time education, 1997 to 2006, United Kingdom, not seasonally adjusted

Three months ending December each year	*Number (Thousand)*	*Percentage[2]*
1997	6,257	17.8
1999	6,140	17.3
2001	6,256	17.4
2002	6,161	17.1
2003	6,226	17.2
2004	6,161	16.9
2005	6,132	16.8
2006	6,092	16.6

[1] Men aged 16 to 64 and women age 16 to 59.
[2] Economically inactive people who are not in full-time education as a percentage of all persons of working age.
Note:
Comparable data are not available for 1998 and 2000.
Source:
ONS Labour Force Survey (LFS)

INNOVATION, UNIVERSITIES AND SKILLS

Degrees: Social Structure

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of students applied to study *(a)* physics, *(b)* chemistry, *(c)* mathematics, *(d)* modern languages, *(e)* English, *(f)* history and *(g)* psychology at (i) Oxford, (ii) Cambridge and (iii) Russell group universities from each category of socioeconomic background in the last period for which figures are available. [148123]

Bill Rammell: The latest available information is shown in the tables. The figures are taken from data collected by the Universities and Colleges Admissions Service (UCAS) which are limited to students who apply to full-time undergraduate courses via the UCAS application system. The figures do not therefore cover part-time students, nor those full-time students who apply directly to higher education institutions.

Figures for Oxford and Cambridge Universities are not available because, for confidentiality reasons, UCAS do not release combinations of variables through which the data of individual institutions, or small groups of institutions, might be identifiable, beyond those already in the public domain.

Higher Education

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills (1) how many and what proportion of postgraduate students in *(a)* physics, *(b)* chemistry, *(c)* biochemistry and *(d)* all science subjects (i) had undertaken their first degree outside the UK and (ii) were non-UK domiciled in each of the last 10 years for which figures are available; [150527]

(2) how many and what percentage of current postgraduate students have received first class degrees from *(a)* English, *(b)* UK and *(c)* non-UK universities, broken down by subject of study. [150528]

Bill Rammell: The available information is given in the tables. A new classification for recording subject of study was introduced in 2002/03 and so figures from 2002/03 onwards are not comparable to earlier years.

We do not hold information on the classification or subject of qualifications prior to the current qualification

aim. The information on the qualifications held by entrants to HE courses is taken from the Higher Education Statistics Agency's student record. This records the highest level of qualification held by students, but does not include further details of the qualification.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on industrial tribunals in the last 12 months. [153091]

Jonathan Shaw: In the financial year 2006-07, DEFRA settled two employment tribunals at a total cost of £11,087.

Flood Control

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will review the storage and use of pumps and flood barriers by the Environment Agency for emergency use in the event of a flood. [152883]

Mr. Woolas: During recent flooding events, the Environment Agency used a centralised register of equipment and manpower to facilitate inter-regional and inter-organisation aid. This register and its use will be assessed as part of lessons learned.

Flowers: Conservation

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken since May 2005 to protect wildflower meadows and to encourage the planting of wildflowers. [154836]

Joan Ruddock: I refer the hon. Member to the answer given on 21 May 2007, *Official Report*, column 1035W to the hon. Member for Eastleigh (Chris Huhne).

Also, the recent addition of more wildflower species and habitat types, such as traditional orchards, to the list of priority species and habitats in the UK will bring benefits for wildflowers through targeted conservation action.

Fly Tipping

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what distinction Flycapture makes between *(a)* low-level fly-tipping by householders and *(b)* waste crime. [153727]

Joan Ruddock: All fly-tipping, small or large, is a crime. The Flycapture database, which was set up in 2004 by DEFRA, the Environment Agency and the Local Government Association, records the number of fly-tipping incidents dealt with by the Environment Agency and local authorities. Flycapture records incidents broken down by waste type, land type and size of fly-tip.

The categories for incidents by size are:

(i) single black bag

(ii) single item

(iii) car boot load or less

(iv) small van load

(v) transit van load

(vi) tipper lorry load

(vii) significant/multiple loads.

Flycapture does not record whether these fly-tips have been carried out by householders.

The Environment Agency deal with large, more serious fly-tipping incidents.

Nature Conservation: Severn Estuary

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs when he first received advice from English Nature recommending the Severn estuary as a Special Area of Conservation under the EU Habitats Directive; and when he expects to notify the European Commission of the Government' intention to designate the Severn estuary as a Special Area of Conservation. [152925]

Joan Ruddock: My Department received advice from Natural England recommending the Severn Estuary as a Special Area of Conservation under the EU Habitats Directive on 9 October 2006. On 31 August 2007 the Government submitted the Severn estuary to the Commission as a candidate Special Area of Conservation for adoption as a Site of Community Interest. Once the site has been adopted by the Commission, expected to be in October 2008, the UK is required to designate it as a Special Area of Conservation as soon as possible.

Weeds Act 1959

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many fines have been levied for breaching the Weeds Act 1959 by preventing an authorised representative from entering a property to inspect for weeds in each year since 1997 for which figures are held. [153725]

Joan Ruddock: No fines have been imposed under the Weeds Act for preventing or obstructing an authorised representative from entering a property to inspect land since 1997.

The following number of enforcement notices have been issued since 2003:

	Enforcement notices
2003	11
2004	41
2005	77
2006	19
2007 (to date)	32

Wild Boar

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on formulating his Department's policy on wild boar management. [154877]

Joan Ruddock: Current risk assessment work is examining the impacts of feral wild boar populations. This will inform the development of the Government's policy in England, which we intend to finalise by the end of this year.

Wood: Procurement

Michael Gove: To ask the Secretary of State for Environment, Food and Rural Affairs who the new Timber Procurement Officer is at his Department. [151752]

Joan Ruddock: The Department is extending the remit of the timber procurement unit in its central procurement group to tackle wider EU and international forestry objectives, as well as the ongoing development and promulgation of the UK Government' timber procurement policy. The structure and function of the reconstituted unit will be published on DEFRA's website on 1 October 2007. The Department will be writing to key stakeholders including the Chair of the EAC later this month detailing the team's structure and function.

HOME DEPARTMENT

Asylum

Mr. Clappison: To ask the Secretary of State for the Home Department what her most recent estimate is of the number of unsuccessful asylum claimants whose cases remain to be resolved; what steps have been taken to deal with such cases; what communication her Department has had with the unsuccessful claimants; how the cases of unsuccessful claimants who cannot be traced are to be dealt with; and if she will make a statement. [155102]

Mr. Byrne: At the Home Affairs Select Committee evidence session on 24 July, the Home Secretary stated that Lin Homer, the Chief Executive of the Border and Immigration Agency, would provide an update on the case resolution programme once reports can be produced on the programme in which Parliament and the wider public can have suitable confidence.

The specific circumstances of each individual will be considered on a case by case basis. Further information is therefore being solicited from individuals.

Our policy is to seek to enforce the removal of those who have no right to be here and who refuse to leave voluntarily. To achieve this we are increasing enforcement resource, recruiting additional frontline staff and seconding extra police officers; and will open a new 426 bed immigration removal centre at Gatwick next year.

Asylum: Iraq

Hugh Bayley: To ask the Secretary of State for the Home Department pursuant to her answer on 14 March 2007, *Official Report*, column 393W, on Asylum: Iraq, how many applications for asylum were made by Iraqi nationals in each year since 2000; and how many Iraqi nationals were *(a)* granted asylum, *(b)* granted leave to remain in the UK on other grounds and *(c)* deported in each year. [155098]

Mr. Byrne: Information on asylum applications, initial decisions and removals for nationals of Iraq is shown in the table. Initial decisions do not necessarily relate to applications made in the same period. Removal figures do not necessarily relate to decisions made in the same period.

Information on asylum applications, initial decisions and removals for nationals of Iraq are published quarterly and annually. Copies of these publications

are available from the Library of the House and from the Home Office Research, Development and Statistics website at: http://www.homeoffice.gov.uk/rds/immigration1.html

Asylum applications[1] received in the United Kingdom, excluding dependants, initial decisions[2] and asylum removals, 2000-06, nationals of Iraq

	Applications	Decisions						Principal applicants Removals[3,4,5]
	Total	Total decisions	Grants of asylum	Grants of ELR	Grants of Hp[6]	Grants of DL[6]	Total refusals	Grants of ELR under backlog criteria[7,8]	Non compliance refusals under backlog criteria[7,9]	Total
2000[10]	7,475	5,530	845	2,455	n/a	n/a	2,220	10	*	[11]
2001	6,680	9,035	830	1,885	n/a	n/a	6,315	n/a	n/a	90
2002	14,570	11,905	715	8,195	n/a	n/a	2,995	n/a	n/a	195
2003	4,015	6,805	70	2,105	*	45	4,580	n/a	n/a	280
2004	1,695	4,815	10	n/a	—	185	4,615	n/a	n/a	770
2005	1,415	1,835	5	n/a	10	150	1,675	n/a	n/a	1,040
2006[12]	945	740	30	n/a	—	60	650	n/a	n/a	1,780

n/a = not applicable.
[1] Figures rounded to the nearest 5 (— = 0, * = 1 or 2).
[2] Information is of initial decisions, excluding the outcome of appeals or other subsequent decisions. Decision figures do not necessarily relate to applications received in the same period. Removal figures do not necessarily relate to decisions made in the same period.
[3] Figures include enforced removals, persons departing voluntarily after enforcement action had been initiated against them and persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration.
[4] Removals since 2005 include persons who it is established have left the UK without informing the immigration authorities.
[5] Figures for 2001-03 have been estimated due to data quality issues.
[6] Humanitarian Protection and Discretionary Leave replaced Exceptional Leave to Remain from 1 April 2003.
[7] Cases decided under pragmatic measures aimed at reducing the pre 1996 asylum backlog.
[8] May include a small number of cases where asylum has been granted.
[9] May include a small number of cases where the application has been refused on substantive grounds.
[10] May exclude some cases lodged at Local Enforcement Offices between January and March 2000.
[11] not available
[12] Provisional figures.

Burglary: Greater London

Lynne Featherstone: To ask the Secretary of State for the Home Department how many domestic burglaries there were in each of the last five years in each London borough. [154895]

Mr. McNulty: The information requested is given in the following table.

Domestic burglaries recorded in each London borough

London borough	2002-03	2003-04	2004-05	2005-06	2006-07
Barking and Dagenham	1,262	1,306	1,159	1,119	1,196

Crime: Disabled

James Brokenshire: To ask the Secretary of State for the Home Department (1) what proportion of victims of crime in England and Wales over the most recent period for which figures are available were *(a)* people with disabilities and *(b)* people with mental health problems; [152976]

(2) what requirements exist to record whether victims of crime have *(a)* disabilities and *(b)* mental health problems. [152995]

Bridget Prentice: I have been asked to reply.

The British Crime Survey (BCS) routinely provides information on the risk of personal crimes (violence and personal theft) by whether the victim has a disability or illness. The latest results from the BCS 2006-07 are included in the following table. The BCS does not collect information on whether respondents have mental health problems.

Information on disability and mental health problems in relation to victims is recorded at a number of points during the criminal justice process by criminal justice agencies. For example, when an initial statement is taken from the victim, the MG11 form on which it is recorded requires police officers to record whether the victim is vulnerable or intimidated. The definition of "vulnerable" in the Youth Justice and Criminal Evidence Act 1999 includes any victim who

"suffers from mental disorder within the meaning of the Mental Health Act 1983"

"otherwise has a significant impairment of intelligence and social functioning",

"has a physical disability or is suffering from a physical disorder".

Similarly, in cases that reach the point of charge or beyond, a witness care officer is required to conduct and record a detailed needs assessment that will reassess whether the victim is vulnerable or intimidated.

Proportion of adults that have been a victim of crime by disability/illness[1]

	Percentage victims once or more	
	Theft from the person	*All BSC violence*
Long standing disability/illness (limits activities)	1.3	3.3
Long standing disability/illness (does not limit activities)	1.1	2.8
No long standing disability or illness	1.2	3.7
England and Wales	1.2	3.6

[1] Prevalence risks 2006-07 BCS interviews

Departments: Aviation

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on *(a)* first class and *(b)* business flights in the last 12 months. [153144]

Mr. Byrne: The Department's accounting system does not separately identify expenditure on first class, business class and standard class travel for air travel. Such information could be provided only at disproportionate cost.

The Department expects all official travel to be carried out by the most efficient and economic means available, taking into account the cost of travel and subsistence, savings in official time, management benefit, and the needs of staff with disabilities. This is in accordance with the Civil Service Management Code and the Ministerial Code.

The Cabinet Office produces the annual list of Cabinet Ministers' overseas travel, the one for 2006-07 was published on 25 July 2007.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on flowers in the last 12 months. [153145]

Mr. Byrne: The Home Office accounting system does not separately identify spend on flowers. To provide the detail requested would incur disproportionate cost.

Departments: Legislation

Mr. Garnier: To ask the Secretary of State for the Home Department what *(a)* Acts and *(b)* parts of Acts received Royal Assent between 1 May 1997 and 31 July 2007 for which her Department has policy responsibility; and which provisions in those Acts (i) have not yet come into force, (ii) have been repealed prior to coming into force and (iii) have been repealed after coming into force. [154936]

Jacqui Smith: The provisions of the following Acts (which received Royal Assent between 1 May 1997 and 31 July 2007) for which the Home Secretary has policy responsibility are fully in force:

Firearms (Amendment) (No 2) Act 1997

Special Immigration Appeals Act 1997

Criminal Justice (Terrorism and Conspiracy) Act 1997

Criminal Justice (International Co-operation) (Amendment) Act 1998

Crime and Disorder Act 1998

Football (Offences and Disorder) Act 1999

Criminal Cases Review (Insanity) Act 1999

Sexual Offences (Amendment) Act 2000

Football Disorder Act 2000

Terrorism Act 2000

Mobile Telephones Reprogramming Act 2002

Football Disorder (Amendment) Act 2002

Female Genital Mutilation Act 2003

Sexual Offences Act 2003

Extradition Act 2003

Prevention of Terrorism Act 2005

Terrorism Act 2006

Racial and Religious Hatred Act 2006.

The following table lists provisions of Acts for which the Home Office has policy responsibility which received Royal Assent between 1 May 1997 and July 2007 which are not yet in force.

It is not possible to provide lists of provisions which have been repealed prior to coming into force or which have been repealed after coming into force without incurring disproportionate cost.

Act	*Sections not in force*
Anti-Social Behaviour Act 2003	85(5), Sch 2(2)
Anti-Terrorism, Crime and Security Act 2001	78
Asylum and Immigration (Treatment of Claimants, etc.) Act 2004	16
Crime (International Co-operation) Act 2003	10-12, 20-25, 54-75, Sch three, Sch 4
Criminal Justice and Police Act 2001	78(7), 80(4), Sch seven para six (in part)
Domestic Violence, Crime and Victims Act 2004	9, 12 and Schedules 10, 11 and 12 (in part)
Drugs Act 2005	2
Identity Cards Act 2006	1(1)-(4), 1(5)-(8), 2-24, 27-29, 30, 31-34, 35, 39, 41, 42, 43, Sch 1
Immigration and Asylum Act 1999	16 and 17, 117(5)
Immigration Asylum and Nationality Act 2006	4, 15-18, 20-22, 24-26, 31-39, 44, 47, 50(3) to (6)
Nationality, Immigration and Asylum Act 2002	10(5)(a), 17 and 18 (for certain purposes), 19-34, 35(1) (a)-(g)(i) and (2) and (3), 36, 37, 39, 40(2) and (3), 41(2) and (3), 44-47, 51 to 53, 124
Police and Justice Act 2006	7(1), 14, 17, 19(1)-(9) and (11), 20, 21, 34-38, 39(1)-(3) (5)-(7), 40(l)-(3), (5)-(7), 41 (in part), 43(1), 46 (part) and Schedules three, eight, nine, 11 and 12, and Schedules one, two, five, 13,14, and 15 (all in part)
Police Reform Act 2002	45
Private Security Industry Act 2001	17
Proceeds of Crime Act 2002	Sch 11 para 17(2) and Sch 12 (part)

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for the Home Department how many people have been appointed to her Department outside of civil service grades in the last 12 months. [153147]

Mr. Byrne: This information is not held centrally and could be obtained only at disproportionate cost.

Departments: Press

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on newspapers and magazines in the last 12 months. [153142]

Mr. Byrne: The Home Office's expenditure on newspapers, magazines and periodicals for the last 12 months was £131,287.

Departments: Publicity

David Simpson: To ask the Secretary of State for the Home Department what assessment she has made of the cost-effectiveness of advertising commissioned by her Department in the last 12 months. [148515]

Mr. Byrne: In the 12 months to July 2007 the Home Office has implemented advertising campaigns covering its policy responsibilities relating to crime reduction, drugs, internet child protection, alcohol harm reduction, recruitment of police community support officers, local trials of the single non-emergency number, employing illegal immigrants, domestic violence and the passport application procedure for first time applicants.

These policies and programmes affect the lives of millions of people and in order for them to work they must be communicated effectively. A campaign will only be implemented where there is a clear role for communications in achieving the overall policy target. All campaigns are managed with cost efficiency in mind and there are strict rules to ensure value for money on Government advertising. All advertising media are bought using COI framework media agencies which have clear targets for achieving value for money.

Effective evaluation of campaign advertising is standard departmental practice. Particular evaluation techniques will depend on the objective of the campaign and the nature of the advertising implemented, however the Department would typically use a combination of:

Spontaneous and prompted advertising awareness and recall of messages;

Changes in key audience attitudes before and after the campaign;

Changes in claimed behaviour in key audiences before and after the campaign;

Specific policy/product detail recall;

Agreement with relevant statements (pre/post);

Response to advertising where appropriate (telephone, coupon, website);

Econometric analysis;

Advertising media cost audits.

Of the major advertising campaigns undertaken during this period, the Acquisitive Crime Reduction campaign has achieved 90 per cent. recognition with 60 per cent. of respondents claiming the adverts would make them take more precautions to protect them from becoming a victim of crime.

The alcohol 'Know Your Limits' campaign achieved 84 per cent. prompted recall of the TV advertising. Additionally 82 per cent. of respondents said the advertising made them rethink the consequences of drinking too much

The Police Community Support Officer recruitment campaign generated over 52,000 requests for application packs, helping achieve the recruitment target of 16,400 recruits—with those aware of the advertising campaign twice as likely to consider being a PCSO as those who were not (13 per cent. *v.* 5 per cent.).

The FRANK drugs helpline awareness campaign has achieved recognition among 94 per cent. of its key

15 to 18-year-old audience, with 70 per cent "very" or "quite likely" to call FRANK if they needed information in the future. Additionally, 81 per cent. of young people would recommend FRANK to friends.

Additionally, the Home Office is working with Cabinet Office on a number of initiatives to improve the efficiency of civil service recruitment process, such as combining advertising with other Departments where possible to reduce advertising costs. The Home Office is also contributing to an OGC-led initiative for a central framework contract for head-hunters and recruitment consultants.

Departments: Railways

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on first class train tickets in the last 12 months. [153143]

Mr. Byrne: The Department's accounting system does not separately identify expenditure on first class travel for train travel. Such information could be provided only at disproportionate cost.

The Department expects all official travel to be carried out by the most efficient and economic means available, taking into account the cost of travel and subsistence, savings in official time, management benefit, and the needs of staff with disabilities. This is in accordance with the Civil Service Management Code and the Ministerial Code.

The Cabinet Office produces the annual list of Cabinet Ministers' overseas travel, the one for 2006-07 was published on 25 July 2007.

Departments: Training

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on *(a)* staff training and *(b)* communication training in the last 12 months. [153139]

Mr. Byrne: Home Office expenditure on training for the financial year 2006-07 was £29,732,614. Details of expenditure on communication training could be only provided at disproportionate cost.

The aforementioned figure includes expenditure by the core Home Office, the Border and Immigration Agency, the National Offender Management Service and the Office of Criminal Justice Reform. The latter two are now part of the Ministry of Justice.

The size of the expenditure reflects both the size of the Home Office, which employed almost 25,000 people in 2006-07, and the degree of importance the department places on equipping staff with the skills necessary to conduct their duties effectively in a changing working environment.

Frontiers: Personal Records

Mr. Brazier: To ask the Secretary of State for the Home Department (1) whether the e-borders programme will continue to have passenger name record data as an integrated part of that programme; [150833]

(2) what criteria are used to determine suitable consortia to deliver the full e-borders programme. [150834]

Mr. Byrne *[holding answer 23 July 2007]:* The collection of Advanced Passenger Information and Passenger Name Record (PNR) data is part of the e-Borders model, and the programme is committed to integrating these elements as part of the long term solution. In the short-term, the e-Borders pilot Project Semaphore is trialling the collection of PNR data from carriers from selected routes. This will enable us to build the most robust long term solution for full capture of PNR data that meets the requirements of the border agencies and is sustainable by the industry.

The e-Borders programme will appoint the successful service provider following a comprehensive and detailed evaluation of the bidders responses. Qualitative criteria, combined with an assessment of cost will determine the most economically advantageous bid from the point of view of the Home Office. The qualitative criteria include the ability to meet the authority's business, technical and implementation requirements, while also being commercially acceptable to the Home Office.

In addition the successful consortia will be required to cross a number of financial capacity and robustness thresholds to ensure that they can meet their financial obligations over the lifetime of the contract.

Immigration Controls: EU Countries

Mr. Frank Field: To ask the Secretary of State for the Home Department what estimate her Department has made of the cost of reinstituting border controls for people moving into the UK from EU countries. [155089]

Mr. Byrne: Border controls between the United Kingdom, European Union (EU) and European economic area (EEA) have never been withdrawn, and there are no current plans to do so.

Offenders: British Nationality

Damian Green: To ask the Secretary of State for the Home Department (1) how many people with convictions for *(a)* murder and *(b)* manslaughter were granted British citizenship in each of the last 10 years; [149697]

(2) how many people who had been convicted of *(a)* drug dealing, *(b)* possession with intent to supply and *(c)* other drugs-related offences were granted British citizenship in each of the last 10 years; [149698]

(3) how many people who had been convicted of benefit fraud were granted British citizenship in each of the last 10 years; [149708]

(4) how many people convicted of racist or racially aggravated crimes were granted British citizenship in each of the last 10 years; [149709]

(5) how many people convicted of crimes relating to religious extremism were granted British citizenship in each of the last 10 years; [149710]

(6) how many people convicted of violent or sexual crimes involving children were granted British citizenship in each of the last 10 years; [149711]

(7) how many foreign nationals with convictions for *(a)* rape and *(b)* other sexual assaults were awarded British citizenship in each of the last 10 years; [149712]

(8) how many people convicted of *(a)* reckless driving, *(b)* dangerous driving, *(c)* causing death by dangerous driving and *(d)* offences related to driving under the influence of alcohol were granted British citizenship in each of the last 10 years; [149739]

(9) on how many occasions she and her predecessors used their powers of discretion to disregard unspent convictions when foreign nationals have applied for British citizenship in each of the last 10 years. [149611]

Mr. Byrne *[holding answers 16 and 17 July 2007]:* It would only be possible to answer these questions by reference to the individual files, which would involve disproportionate cost.

Police: Crimes of Violence

Bob Spink: To ask the Secretary of State for the Home Department how many assaults against *(a)* police community support officers and *(b)* regular police officers on frontline duty there were in (i) Essex and (ii) England and Wales in each of the last five years; and what percentage of all officers in each category these figures represented. [154911]

Mr. McNulty: The numbers of serious and other assaults on police officers and operational police staff are published each year in the HMIC Annual Report and have been given in the table.

These data are not available by individual rank and therefore have been provided for police officers and operational staff as combined figure.

Serious and other assaults[1] on police officers and operational police staff from 2001-02 to 2004-05[2, 3]

	Force	
	Essex	*England and Wales[4]*
2001-02		
Serious	0	400
Other	225	12,696
2002-03		
Serious	0	263
Other	260	14,097
2003-04		
Serious	1	253
Other	374	11,401
2004-05		
Serious	2	393
Other	262	12,825

[1] Data collated on behalf of and published by HMIC. Serious assaults are those for which the charge would be under Sections 18 and 20 of the Offences Against the Person Act 1861. Recording practices may vary between forces.
[2] Financial year runs 1 April to 31 March inclusive.
[3] Data for 2005-06 have been collated but not yet validated. Figures will be available in the HMIC Annual Report 2005-06.
[4] Greater Manchester was unable to provide data for 2003-04. Lancashire and West Midlands were not able to provide breakdowns of numbers for different assaults in 2003-04, however the number of overall assaults was 462 and 1,112 respectively. Lancashire and West Midlands were not able to provide breakdowns of numbers for different assaults in 2004-05, however the number of overall assaults was 521 and 910 respectively.

Percentage of police and operational staff being assaulted[1] from 2001-02 to 2004-05[2, 3]

Percentage

	Force	
	Essex	*England and Wales[4]*
2001-02	n/a[5]	n/a[5]
2002-03	4.9	6.6
2003-04	6.6	5.0
2004-05	6.5	5.4

[1] Data collated on behalf of and published by HMIC. Serious assaults are those for which the charge would be under Sections 18 and 20 of the Offences Against the Person Act 1861. Recording practices may vary between forces.
[2] Financial year runs 1 April to 31 March inclusive.
[3] Data for 2005-06 have been collated but not yet validated. Figures will be available in the HMIC Annual Report 2005-06.
[4] Greater Manchester was unable to provide data for 2003-04. Lancashire and West Midlands were not able to provide breakdowns of numbers for different assaults in 2003-04 or 2004-05.
[5] Staff strength by headcount is not available for 2001-02.

Police: Criminal Records

Dan Rogerson: To ask the Secretary of State for the Home Department how many serving police officers have criminal convictions in each police force. [155084]

Mr. McNulty: Responsibility for the collation and publication of statistics relating to police discipline and misconduct rests with the Independent Police Complaints Commission.

Police: Ports

Andrew Mackinlay: To ask the Secretary of State for the Home Department if she will ensure consultation is held with the federations and representative bodies of the constables and other ranks of *(a)* Port of Tilbury police, *(b)* Port of Dover police, *(c)* Belfast Harbour police, *(d)* Northern Ireland airport police and *(e)* all other port and harbour police prior to the publication of the legislation creating a police or border force outlined in the Prime Minister's statement on proposed legislation; and if she will make a statement. [154884]

Mr. Byrne: I wrote to the hon. Member on 7 September. I will ensure that copy of this letter is placed in the Library of the House.

Security: Tony Blair

Mr. Hands: To ask the Secretary of State for the Home Department how much has been spent by the Government on providing security for the right hon. Tony Blair in his capacity as the Envoy of the Quartet on the Middle East. [155118]

Mr. McNulty: It is our long-established policy not to comment on protective security arrangements (and their associated costs) for any individual.

Work Permits: Health Professions

Mr. Clappison: To ask the Secretary of State for the Home Department further to the answer of 1 August 2007 to Question 149262 on work permits, how many work permits were issued to doctors and nurses from other African countries, broken down by country. [155103]

Mr. Byrne: The following table shows the number of African work permit applications which were approved for overseas nationals in 2006. There have been no approvals for auxiliary nurses.

The figures quoted are not provided under national statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

	2006		
	Doctor	*Nurse*	*Total*
Algeria	[1]—	0	[1]—
Botswana	5	70	75
Burundi	0	[1]—	[1]—

[1] Indicates 1 or 2

Notes:

1. Figures are rounded to nearest 5.
2. Because of rounding, figures may not add up to totals shown.

COMMUNITIES AND LOCAL GOVERNMENT

Council Tax Levy

Andrew George: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 18 July 2007, to question 150937, on council tax levy, whether she has considered the merits of directing local authorities to use more than 50 per cent. of the council tax generated from second homes to fund more affordable housing; and whether there are any unitary or two-tiered local authorities with such a policy. [154931]

Mr. Iain Wright: It is up to local authorities to determine how to use the income generated through council tax on second homes. Communities and Local Government has no plans to direct them on this, and neither does it hold information on how the income is used.

Departments: Contracts

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government how her Department monitors contracts issued by public bodies reporting to her Department on the terms and conditions applied to their workforce. [154893]

Mr. Iain Wright: I refer my hon. Friend to the answer given on 24 July 2007, *Official Report*, column 956W.

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 25 June 2007, *Official Report*, columns 152-53W, on Departments: contracts, (1) how much was spent by her Department on contracts awarded to external suppliers by public bodies it sponsors in each year since 2001; [154896]

(2) if she will make data compiled for the European Commission available to hon. Members. [154981]

Mr. Iain Wright: I refer my hon. Friend to the answer given on 26 July 2007, *Official Report*, columns 1422-24W.

Housing: Low Incomes

Mr. Cox: To ask the Secretary of State for Communities and Local Government what measures her Department has implemented to ensure that affordable housing is available to those living in coastal towns and villages. [155037]

Mr. Iain Wright: Coastal towns and villages will benefit from the Government's plans, announced in the Housing Green Paper 'Homes for the future: more affordable, more sustainable'. We are providing at least £8 billion over the next three years to invest in the supply of housing, including an increase in affordable housing, initially through the Housing Corporation and then through the new homes agency. This is an increase of £3 billion compared to the previous three years and will help to deliver at least 70,000 more affordable homes a year by 2010-11. All areas, urban, rural and coastal will benefit from these resources.

Planning Policy Statement (PPS)3 for Housing encourages local and regional planning bodies to take more account of affordability when determining how many new homes are needed in their area. PPS3 includes stronger policies on affordable housing. The new definition of affordable housing will concentrate public funding and planning contributions on genuinely affordable housing. In addition, local authorities will be able to require developer contributions to affordable housing on smaller sites where it is viable.

Planning and housing policies at the local level should be based upon an up-to-date housing needs assessment for a particular area. The findings of the assessment will inform decisions on the level of

housing provision and its distribution in local development frameworks and policies on affordable housing and housing mix. It will also allow local authorities to consider the housing demands and needs of specific groups of people including families with children, older people and disabled people, as well as the precise nature and location of the area, such as coastal towns and villages.

Local Government Finance

Mr. Fallon: To ask the Secretary of State for Communities and Local Government what the central Government's grant was per capita for the *(a)* Sedgefield and *(b)* Sevenoaks districts in (i) 1997-98 and (ii) 2007-08. [155047]

John Healey: The information requested is tabled as follows.

Central Government revenue grant[1] per head in Sedgefield and Sevenoaks

	Sedgefield	*£ per head Sevenoaks*
1997-98[2]	66	60
2005-06[3]	134	56
2006-07[4]	135	61

[1] Central Government grant is defined here as the sum of Formula grant (Revenue Support Grant and redistributed non-domestic rates) and Specific grants inside Aggregate External Finance (AEF), ie revenue grants paid for council's core services. Figures exclude grants outside AEF (ie where funding is not for authorities' core services, but is passed to a third party, for example, rent allowances and rebates), capital grants, funding for the local authorities' housing management responsibilities and those grant programmes (such as European funding) where authorities are simply one of the recipients of funding paid towards an area.

[2] Specific grants within AEF to Sedgefield and Sevenoaks include Housing Benefit and Council Tax Benefit administration.

[3] Specific grants within AEF to Sedgefield include General Sure Start grant (£18 per head), Neighbourhood Renewal Fund (£13 per head), Housing Benefit and Council Tax Benefit Administration, Community Empowerment Funding, Local Authority Business Growth Incentives scheme, Planning Delivery, Performance Standards Fund, Homelessness Strategies, Supporting People Programme—Housing, Local Enterprise Growth Initiative and Waste Minimisation Recycling Fund. Specific grants within AEF to Sevenoaks include Housing Benefit and Council Tax Benefit Administration and Planning Delivery.

[4] Data for 2006-07 are provisional. Final outturn figures for 2006-07 will be available later this year.

Note:
Comparisons across years are not valid due to changes in funding and function.

Communities and Local Government Revenue Summary Return

Minister for the South West

Mr. Harper: To ask the Secretary of State for Communities and Local Government what visits the Minister for the South West has made in that capacity since her appointment. [154878]

Mr. Iain Wright: The Minister for the South West has embarked on an ongoing series of visits in the region. Details of the visits undertaken so far are tabulated as follows:

	Visit undertaken
13 July 2007	Regional Development Agency, Exeter
16 July 2007	Swindon
25 July 2007	Tewkesbury and Cheltenham, Gloucestershire
30 July 2007	St. Austell and Truro, Cornwall
1 August 2007	Bristol (and wider West of England visit)
21 August 2007	Tewkesbury, Gloucester and Cheltenham, Gloucestershire
23 August 2007	Poole
24 August 2007	Shepton Mallet and Taunton, Somerset

Mr. Robert Adewunmi

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment has been made of the reasons for Mr. Robert Adewunmi being able to circumvent the restraint order placed upon him following his conviction for fraud relating to the Office of the Deputy Prime Minister. [153635]

The Solicitor-General: I have been asked to reply.

Mr. Adewunmi and his wife were arrested on 5 April 2005. Mr. Adewunmi pleaded guilty to offences of money laundering and fraudulent trading for which he was sentenced, on 10 March 2006, to a total of four years' imprisonment; his wife admitted an offence of money laundering for which she was sentenced to six months' imprisonment.

After sentence, confiscation proceedings were postponed to complete the necessary investigations. A restraint order had been made against their assets on 24 May 2005, which had a worldwide effect and also contained a provision for the repatriation of movable assets held abroad. The order also contained a clear warning that breach of the order would amount to contempt of court. This had been considered to be sufficient to prevent further dissipation of assets.

On discovery that Mr. Adewunmi had in fact breached the order, a money laundering investigation was begun; this showed how Mr. Adewunmi was able further to dissipate the assets. As a consequence of this behaviour, proceedings for contempt were taken against Mr. Adewunmi and, on 22 June 2007, confiscation orders were made against both Mr. and Mrs. Adewunmi; Mr. Adewunmi was also sentenced for a fraud on Slough borough council. In addition, Mr. Adewunmi admitted being in breach of the restraint order. As a result, he was committed to prison for 18 months' consecutive to the sentence which he was already serving.

It has been calculated that Mr. Adewunmi transferred abroad a total of £137,673.56 out of the £867,200 stolen by him; some of this money was repatriated but the majority is caught in the confiscation order which he has to pay.

Telecommunications Masts (Planning Control) Bill 2006-07

Mr. Evennett: To ask the Secretary of State for Communities and Local Government if she will make a statement on the Telecommunications Masts (Planning Control) Bill. [154827]

Mr. Iain Wright: The Telecommunications Masts (Planning Control) Bill is due to have its Second Reading on 19 October. We are currently reviewing the permitted development rights in Part 24 of Schedule 2 to the Town and Country Planning (General Permitted Development) Order 1995. I cannot prejudge the outcome of that review, but we will consult on any substantive proposals for change arising from it.

Thames Gateway Bridge

Mr. Evennett: To ask the Secretary of State for Communities and Local Government if she will make a statement on her decision to re-open the public inquiry into the Thames Gateway Bridge. [154830]

Mr. Iain Wright: The reasons for the decision to reopen the public inquiry into the Thames Gateway Bridge were fully set out in the Secretary of State's letter of 25 July. The Secretary of State has nothing further to add in respect of that decision. A copy of the letter has been placed in the Library of the House.

Travelling People: Eastern Region

Anne Main: To ask the Secretary of State for Communities and Local Government what assessment she has made of the East of England Regional Assembly's consultation on Gypsy and Traveller pitches. [154849]

Mr. Iain Wright: The Secretary of State has not assessed the East of England regional assembly's public consultation on the Gypsy and Traveller review, although my hon. Friend the Under-Secretary of State has written to the East of England regional assembly on some questions raised in the review. On the basis that the East of England regional assembly submits the draft revision to the Secretary of State, my right hon. Friend would appoint an independent panel to examine and advise her on that draft revision.

TRANSPORT

A14: Kettering

Mr. Hollobone: To ask the Secretary of State for Transport when the Highways Agency expects to announce costed final proposals for improving the A14 around Kettering. [154970]

Mr. Tom Harris: The Highways Agency is finalising an options appraisal on how to improve the capacity of the A14 around Kettering, which I expect shortly.

It is too early to give a firm indication of any announcement on proposals that might emerge from my consideration of the Highways Agency's work.

Bridges: Safety

Steve Webb: To ask the Secretary of State for Transport what assessment she has made of the implications of the recent road bridge collapse in the United States for the safety of road bridges in the United Kingdom; and what plans she has to investigate the safety of the *(a)* Severn Bridge and *(b)* Second Severn Crossing. [155046]

Mr. Tom Harris: Immediately after the Minnesota bridge collapse, the Highways Agency began an investigation of the information it holds about bridges and other structures. From the information available regarding the bridge in Minnesota, the Highways Agency has concluded there are no bridges identical on the network of motorways and major A roads in England. The Highways Agency is however undertaking a review of its maintenance and inspection processes. If improvements are needed, these will be communicated to other UK bridge owners, including local highway authorities, who are responsible for the majority of other road bridges.

Severn Crossing Bridges

In April 2006, the Highways Agency announced that it will be undertaking a programme of inspection work on the main suspension cables for the M48 Severn bridge. Work is under way to monitor and address the corrosion that has been found in the suspension cables and over the next year, the Agency will be considering a long-term strategy for the bridge. The bridge remains safe for use, although as a precautionary measure, vehicles over 7.5 tonnes are restricted to lane one in each direction.

No additional investigations are currently planned for the M4 Second Severn Crossing. Severn River Crossing plc. is already required to undertake a rigorous inspection regime and the findings are regularly reviewed by the Government's representative and the Highways Agency.

Departments: Employment Agencies

Mrs. May: To ask the Secretary of State for Transport how much her Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151674]

Jim Fitzpatrick: The Department for Transport was established in May 2002.

Figures available for the Department for Transport are:

£

	(a) Temporary	*(b) Permanent*
2002-03	5,859,854	1,198,693
2003-04	10,364,482	4,021,132
2004-05	11,664,629	4,220,768
2005-06	9,856,964	8,272,596
2006-07	12,314,056	4,791,412

The table does not include Vehicle and Operator Services Agency (VOSA). I would refer the hon. Member to the annual report, copies of which are available in the Libraries of the House.

This answer corrects the answer of 30 January 2007, *Official Report*, column 254W, which unfortunately contained some incomplete and incorrect figures.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on flowers in the last 12 months. [153212]

Jim Fitzpatrick: In the last 12 months the Department and its agencies spent £2,029 on flowers. This related to purchases made for the victims of the letter bomb explosion at the Driver and Vehicle Licensing Agency HQ in Swansea, the Royal opening of a new wing of the Air Accident Investigation Branch in Farnborough and as part of our employee welfare programme: flowers are sent to staff following a serious, personal and often unexpected event. This would include a serious illness, major accident or bereavement.

This excludes spend by the Highways Agency, Maritime and Coastguard Agency and the Vehicle and Operator Services Agency as the requested information can be provided only at disproportionate cost.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on taxis in the last 12 months. [153213]

Jim Fitzpatrick: The Department for Transport Central, and three of the agencies spent £208,092 on taxis in the last 12 months. The remaining agencies do not record taxi fares separately from other travel costs and the information could be provided only at disproportionate cost. All travel is undertaken in accordance with the guidelines set out in the Ministerial Code, and the Civil Service Management Code.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on *(a)* staff training and *(b)* communication training in the last 12 months. [153206]

Jim Fitzpatrick: The total expenditure by the Department on staff training in the last 12 months was £16,659,462. This figure includes training on communication skills as the Department does not record communication training separately.

A large proportion of expenditure relates to training for the recently established Highway's Agency Traffic Officer Service.

Departments: Travel

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on first class train tickets in the last 12 months. [153210]

Jim Fitzpatrick: Travel expenditure is not recorded by class of ticket for most of the Department and the information could be provided only at disproportionate cost. All travel is undertaken in accordance with the guidelines set out in the Ministerial Code and the Civil Service Management Code.

Heathrow Airport: Air Pollution

Justine Greening: To ask the Secretary of State for Transport (1) where the air pollution receptors were located which provided data that have been used to model the environmental impact on air pollution as part of the Project for the Sustainable Development of Heathrow; and if she will make a statement; [155114]

(2) how many air pollution receptors are in place to monitor air pollution in and around Heathrow airport; where those receptors are located; and if she will make a statement; [155087]

(3) how many air pollution receptors were in place to monitor air pollution in and around Heathrow airport in each year since 2000; where those receptors were located; and if she will make a statement. [155088]

Jim Fitzpatrick: The modelling of air pollution is based on data collected from a number of monitoring sites in and around Heathrow. Their location is shown in Figure 2.1 of the Report of the Airport Air Quality Technical Panels published by the Department in July 2006, which is available on the Department's website at:

www.dft.gov.uk.

Data from these sites, in some cases since 1993, are set out in Annex 8 to the report. This also identifies new sites added in 2005 on the recommendation of the technical panels (see chapter 2) to ensure a robust data set to validate the modelling.

Heathrow Airport: Public Participation

Justine Greening: To ask the Secretary of State for Transport when her Department expects to launch the public consultation on the expansion of Heathrow airport; and if she will make a statement. [155111]

Jim Fitzpatrick: The Government are committed to a public consultation later this year on the future development of Heathrow airport. This was confirmed in the Progress Report on the Future of Air Transport White Paper in December 2006. A statement will be made when the consultation is launched.

Metronet: Finance

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer to the hon. Member for Leyton and Wanstead (Harry Cohen) of 25 July 2007, *Official Report*, column 1070W, on Metronet finance, what estimate she has made of the extent of the public finance commitment as a result of Metronet entering administration; and what proportion of the total her Department expects to pay. [154922]

Ms Rosie Winterton: Transport for London and London Underground continue to discuss the best strategy for taking Metronet out of Administration with the PPP Administrators, taking into account all the associated financial implications, in accordance with their respective duties. In advance of their conclusion, it would be inappropriate to comment on the potential public finance impacts.

Motor Vehicles: Exhaust Emissions

Mr. Carmichael: To ask the Secretary of State for Transport how many vehicle exhaust emissions tests were carried out in *(a)* Birmingham, *(b)* Bristol, *(c)* Canterbury, *(d)* Glasgow, *(e)* Middlesbrough, *(f)* Swansea and *(g)* Westminster in each of the last 10 years; how many motorists were issued with fixed

penalty notices in each area in each year because their car did not meet the necessary standards; and what total value of fines was issued by each local authority in each year. [154855]

Jim Fitzpatrick: These emissions checks are a matter for local authorities. The Department for Transport does not hold the information requested.

Noise: Pollution

Justine Greening: To ask the Secretary of State for Transport when she expects to publish the results of the Attitudes to Noise from Aviation sources in England study; and if she will make a statement. [154856]

Jim Fitzpatrick: Provisional findings have been submitted and are being subjected to independent review by experts. This review is not yet complete, but I anticipate that the results of this study will be available by the end of this year.

Public Transport: Disabled

Tim Farron: To ask the Secretary of State for Transport what guidance her Department has given to local authorities on improving access to public transport for disabled people. [155108]

Ms Rosie Winterton: The full guidance on Local Transport Plans: second edition, published by the Department in January 2006, contains advice on how local authorities can meet the needs of disabled people, copies of which are available in the Libraries of the House.

Roads: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Transport what proportion of estimated payments under her Department's private finance initiative contracts is projected to be spent on road constructions in each year between 2008 and 2019. [152470]

Ms Rosie Winterton: The Department is unable to make such projections, because the proportion of PFI payments to be spent on road construction will depend on the development and procurement of PFI contracts in future, and on contractor performance.

The HM Treasury website provides updated details (on a six monthly basis) of awarded PFI projects overseen by the Department for Transport. The project details include the awarding authority, date of financial close, total capital value and the annual unitary charge payment. This information is available at:

http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

The forecasts of future payments are subject to the performance of the private sector contractor.

The unitary charge payments represent repayments of the capital (sum of the capital spend) of the project and will also frequently include inflation, service provision and major refurbishment.

Roads: Repairs and Maintenance

Mrs. Villiers: To ask the Secretary of State for Transport how much the Highways Agency spent on road improvements in each region in each of the last five years. [154923]

Mr. Tom Harris: The Highways Agency's reporting systems do not provide information on a regional basis.

Mrs. Villiers: To ask the Secretary of State for Transport how many miles of road per region are the responsibility of the Highways Agency to maintain. [154924]

Mr. Tom Harris: The Highways Agency is responsible for maintaining a total of 4493.8 miles of road, of which:

Highways Agency region	*Route length (Miles)*
South East	851.3
South West and West Midlands	1334.6
North	1299.0
East Midlands	1008.9

HEALTH

Ambulance Services: Standards

Mr. Cox: To ask the Secretary of State for Health what percentage of Category A emergency ambulance dispatches reached patients within the Government's target of eight minutes in *(a)* urban areas and *(b)* rural areas in the latest period for which figures are available. [155036]

Mr. Bradshaw: The Department does not classify ambulance trusts as urban or rural, and therefore performance data are not reported against these categories.

All ambulance trusts are required to meet the same national response time standards irrespective of location. Category A calls (those presenting conditions that may be immediately life threatening) should be responded to within eight minutes in 75 per cent. of cases and Category B calls (those conditions that are serious but not immediately life threatening) should be responded to within 19 minutes in 95 per cent. of cases.

Breast Feeding: Health Education

Bob Spink: To ask the Secretary of State for Health which hospital trusts are not fulfilling the National Institute for Health and Clinical Excellence guidelines on breastfeeding information for new mothers. [154909]

Mr. Bradshaw: We do not have the information on the number of hospital trusts implementing the National Institute for Health and Clinical Excellence (NICE) guidelines. However, NICE has recently consulted on new draft guidance on maternal and child nutrition including its recommendation to increase breastfeeding. The final guidance will be published later this year.

The Department supports the NICE recommendations and expects that the national health service trusts implement the NICE recommendations.

Broomfield Hospital: Private Finance Initiative

Mr. Burns: To ask the Secretary of State for Health when the Broomfield hospital private finance initiative project will receive its final approval to proceed; and if he will make a statement. [154962]

Mr. Bradshaw: The full business case for the £140 million Broomfield hospital private finance initiative scheme for Mid Essex Hospitals Services NHS Trust has been submitted for approval to the Department by East of England Strategic Health Authority. A decision will be announced in due course.

Cancer: Research

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the total expenditure on research into *(a)* Hodgkin's lymphoma and *(b)* non-Hodgkin's lymphoma was in each year since 1997 from (i) his Department's Research and Development budget and (ii) the Medical Research Council. [155031]

Mr. Bradshaw: The Department does not collect expenditure data at the level of detail required. Over the last 10 years, the main part of the Department's research and development budget has been allocated to and managed by national health service organisations. These organisations account for their use of the allocations they receive from the Department in an annual research and development report. The reports identify total, aggregated expenditure on national priority areas, including cancer. Details of individual projects supported in the NHS, including those concerned with site-specific cancers, can be found on the national research register at

www.dh.gov.uk/research

The Medical Research Council (MRC), one of the main agencies through which the Government support medical and clinical research, is an independent body which receives its grant in aid from the Department for Innovation, Universities and Skills.

MRC expenditure on research on all forms of lymphoma including Hodgkin's and non-Hodgkin's lymphoma, for the years for which figures are available, is shown in the table.

	£ million
1998-99	0.4
1999-2000	0.4
2000-01	0.5
2001-02	0.6
2002-03	1.0
2003-04	1.2
2004-05	1.2
2005-06	1.7

Implementation of the Department's research strategy, 'Best Research for Best Health', will result in an expansion of our research programmes and in significant new funding opportunities for health research. In particular, the Hammersmith and St. Mary's and Imperial College Biomedical Research Centre (BRC), the Oxford BRC and the University College London Hospital BRC, propose to undertake research on both Hodgkin's and non-Hodgkin's lymphoma as part of broader-based research themes to which the Department has allocated a total of £12.5 million over five years.

Chiropody

Ben Chapman: To ask the Secretary of State for Health (1) if he will require primary care trusts to undertake a comprehensive assessment of local foot health needs in conjunction with local authorities; [154947]

(2) what assessment he has made of the ease of access by vulnerable and elderly persons to chiropody services on the NHS; [154953]

(3) how many NHS chiropody clinics have closed in *(a)* Wirral, *(b)* Merseyside, *(c)* the North West and *(d)* England in the last five years; [154954]

(4) what the funding per head of the population for chiropody services was in England in the latest period for which figures are available. [155099]

Mr. Bradshaw: No central assessment has been carried out and there are no plans to require primary care trusts (PCTs) to undertake an assessment of local foot health needs. It is up to PCTs to assess the needs of their local population and to determine what proportion of their resources are spent on commissioning chiropody services based on those needs. Strategic health authorities are responsible for ensuring that PCTs fulfil this duty.

We know healthy feet have a huge impact on the quality of life and we expect PCTs to provide high quality chiropody services. Guidance for access to these services is included in the national service frameworks for older people, diabetes, and long-term conditions. Chiropody is also included in practice based commissioning: early wins and top tips, and the White Paper, "Our health, our care, our say: a new direction for community services".

Information about how much funding PCTs allocate to chiropody services and the number of chiropody clinics are not collected centrally.

Community Hospitals: Capital Investment

Sir John Stanley: To ask the Secretary of State for Health how much is available to spend on community hospital capital projects in 2007-08 taking into account the carry forward of underspend of the £150 million made available for 2006-07. [155078]

Mr. Bradshaw: We announced a five-year programme to invest up to £750 million in community hospitals and services in July 2006. Funding will be available over the life of the programme and allocated in accordance with national health service capital investment plans. We have so far approved 14 schemes at a total cost of £94.6 million. As NHS capital investment plans take time to develop, we expect spending to be lower in the early years and rise in the later years.

Dental Services

Mr. Harper: To ask the Secretary of State for Health what estimate he has made of the *(a)* number and *(b)* proportion of people in (i) England, (ii) Gloucestershire and (iii) the Forest of Dean constituency currently registered with an NHS dentist. [154874]

Mr. Bradshaw: Since April 2006, patients no longer have to be registered with a dental practice to receive national health service care and treatment.

The closest equivalent measure to registration is the number of patients receiving NHS dental services (patients seen) in a given area over a 24-month period, expressed as a percentage of the estimated population for that area. However, this is not directly comparable to the registration data for earlier years.

The numbers of patients seen in the 24-month periods ending 31 March 2006 and 31 March 2007 and the number expressed as a percentage of the population are available in Tables C1 and C2 of Annex 3 of the NHS Dental Statistics for England 2006-07 report. Information is available at strategic health authority and primary care trust area in England. This report is available in the Library and at:

www.ic.nhs.uk/pubs/dental0607.

Information cannot be made available at constituency level without disproportionate cost.

Dental Services: Contracts

Andrew George: To ask the Secretary of State for Health how many dentists in *(a)* Cornwall, *(b)* the south-west region and *(c)* England have (i) refused to sign the NHS dental contract and (ii) are in dispute with the Government about the contract; and what plans he has to renegotiate the contract to improve access to NHS dentists. [155100]

Mr. Bradshaw: General Dental Services (GDS) contracts and Personal Dental Services (PDS) agreements are held with primary care trusts (PCTs). The Department collects information on the number of GDS and PDS contracts signed in dispute as at 1 April 2006 and the number of outstanding disputes. These disputes are between the contract holder and the PCT. A contract may cover more than one dentist. Information is held by PCT and strategic health authority (SHA).

The Government set out in the recent report 'NHS Dental Reforms: One year on' steps to support the NHS in further improving access. This report is available in the Library.

Information on the number of contracts signed in dispute and the number remaining in dispute as at 30 June 2007 at Cornwall PCT, South West SHA and England level is set out in the following table.

This information is also available at:

www.performance.doh.gov.uk/dental_contracts/index.htm.

Organisation	*Total number of dental contracts signed in dispute as at 1 April 2006*	*Number of dental contracts in dispute as at 30 June 2007*
Cornwall PCT	31	12
South west SHA	206	19
England	2,884	223

Departments: Contracts

Kelvin Hopkins: To ask the Secretary of State for Health how his Department monitors contracts issued by public bodies reporting to his Department regarding the terms and conditions applied to their workforce. [154894]

Mr. Bradshaw: The Department does not monitor the individual employment contracts issued by the public bodies that report to it. The Department's Executive non-departmental public bodies are required to comply with the parliamentary and legislative requirements, and HM Treasury administrative controls set out in the Government accounting manual. Special health authorities employ staff on national health service terms and conditions covered by nationally agreed terms and conditions under Agenda for Change. The Department's executive agencies employ civil servants and must comply with the civil service and HM Treasury rules on setting terms and conditions for their work force.

Doctors: Career Structure

Peter Bottomley: To ask the Secretary of State for Health what the purpose was of the Douglas Review; when his Department first saw the *(a)* draft final report and *(b)* final report; when a Minister first saw the final report; whether a Minister approved the decision not to have a press notice; and whether there is a note of the broadcast and press coverage of the report. [154966]

Mr. Bradshaw: The aim of the Review Group chaired by Professor Neil Douglas was to review the recruitment and selection process for application to specialty and General Practitioner training programmes in 2007 and make recommendations for improvement.

The Department saw drafts of the final report of the Review Group in the weeks leading up to 12 July 2007 and saw the final report on 12 July 2007. Ministers first saw the final report on 20 July 2007.

Ministers approved the decision to send the report to interested hon. Members including the Health Select Committee and Opposition Health Spokesmen, to place a copy in the Library and to place the report on the Modernising Medical Careers website. A range of stakeholders involved in the 2007 recruitment process, including the British Medical Association and Royal Colleges, were also alerted to the report's publication.

There is no note of the broadcast and press coverage of the report. The report was not produced by the Department itself, but by the review group, whose Chairman, Professor Douglas, approved the above arrangements for its publication.

Peter Bottomley: To ask the Secretary of State for Health if he will make a statement on the conclusions of the Douglas reviews of MMC/MTAS. [154978]

Mr. Bradshaw: The Department is grateful to Professor Douglas and his review group for the contributions they have made to the 2007 junior doctor recruitment process. We have accepted and implemented all their recommendations for this year's recruitment.

We have asked Sir John Tooke, Dean of the Peninsula Medical School, to take a wider look at the issues involved so that the right lessons are learned and the recruitment process is improved for the following years.

Professor Douglas' recommendations for the future will be looked at carefully alongside those of Sir John Tooke.

Doctors: Training

Mrs. Maria Miller: To ask the Secretary of State for Health what estimate has been made of the impact of the reduction of junior doctors' hours on the number of procedures undertaken independently by medical specialist registrars prior to Completion of Specialist Training/Certificate of Completion of Training; and if he will make a statement. [155097]

Mr. Bradshaw: The working time directive (WTD) was implemented for the vast majority of national health service staff groups in 1998 in accordance with regulations. The Government negotiated an extension to the WTD for doctors in training to enable phased implementation from August 2004.

Local national health service trusts are responsible for assessing the impact of the European working time directive as part of their health and safety obligations. The Department is sponsoring NHS National Workforce Projects to support local implementation of WTD 2009. NHS National Workforce Projects has commissioned a range of pilots including cooperative solutions, team working, handover and escalation and 24 hour working. The pilots take in a wide variety of organisations to look at solutions which are transferable across the NHS.

Doctors: Working Hours

Mr. Hollobone: To ask the Secretary of State for Health what evidence there is of public demand for weekend doctors' surgeries in *(a)* Northamptonshire and *(b)* England. [154968]

Mr. Bradshaw: The general practitioners (GP) patient survey, published in July 2007, found 85 per cent. of patients in Northamptonshire Teaching PCT are satisfied with GP surgery opening hours. 7 per cent. of patients said they would like GP surgeries to open at weekends.

For England, 84 per cent. of patients are satisfied with GP surgery opening hours and 8 per cent. of patients would like GP surgeries open at weekends. Full survey results can be found at:

www.dh.gov.uk/en/Publicationsandstatistics/PublishedSurvey/GPpatientsurvey2007/index.htm

Edenbridge Hospital: X Rays

Sir John Stanley: To ask the Secretary of State for Health by what date he expects to set the timetable awaited by the West Kent Primary Care Trust for the submission and consideration by his Department of the trust's bid for community hospital capital funding of a new X-ray machine at Edenbridge Hospital. [155077]

Mr. Bradshaw: We are working closely with strategic health authorities on funding priorities for the third wave of schemes for new and refurbished community hospitals and services. We will make announcements when that work is complete. All schemes will still be subject to a rigorous outline and full business case approval process.

Health Services

Mr. Harper: To ask the Secretary of State for Health what progress has been made by his Department working with the Welsh Assembly Government, to implement a system in which responsibility between the English and Welsh NHS will be based primarily upon residency of patients. [154875]

Mr. Bradshaw: Statutory Instrument (SI) 2003 No.1497, which came into effect in June 2003, established that the national health service in England was responsible for English residents. Similarly, SI 2003 No.150 (W20) confirmed that Welsh local health boards were responsible for their resident population, including those registered with a GP in England. A protocol was agreed between the Department and the Welsh Assembly Government in 2005 to phase the operational implications of these changes. This protocol set out interim arrangements for specific border primary care trusts and local health boards, where operational responsibility would rest with the commissioner responsible for the GP with whom the patient was registered. Last year the protocol was extended until March 2008. Work is continuing between the Welsh Assembly Government and the Department to finalise the package of care and services that will be provided for patients registered with a GP across the border from their country of residence.

Health Services: Overseas Visitors

Mr. Burns: To ask the Secretary of State for Health (1) why those attending the World Scout Jamboree at Hylands Park in Chelmsford who were not eligible for free NHS treatment were not charged; and if he will make a statement; [154889]

(2) how much the Mid Essex hospital trust received for treating non-paying patients who went to the World Scout Jamboree at Hylands Park in Chelmsford; [154890]

(3) how many people attending the World Scout Jamboree at Hylands Park in Chelmsford who received treatment at Broomfield hospital were charged for the treatment; [154891]

(4) how many people attending the World Scout Jamboree at Hylands Park in Chelmsford who were not eligible for free NHS treatment were treated at Broomfield hospital. [154892]

Mr. Bradshaw: The information requested is not collected centrally. However, national health service hospitals are responsible for establishing whether a person is ordinarily resident, or exempt from charges under one of a number of exemption categories, or liable for charges. We expect hospitals to take reasonable measures to recover any outstanding debts.

Hospitals: Wellingborough

Mr. Bone: To ask the Secretary of State for Health if he will bring forward proposals to build a new general hospital in the Wellingborough area. [154983]

Mr. Bradshaw: It is for local health services to commission care for their local populations and to work with the local health community and other stakeholders to plan, develop and improve health services to meet the needs of the community.

Hospitals: West Sussex

Peter Bottomley: To ask the Secretary of State for Health which clinicians support the proposal that consultation on hospital services in West Sussex should be restricted to options excluding more than one with consultant-led maternity and emergency care. [154977]

Mr. Bradshaw: This information is not held centrally.

Changes in locals services are a matter for local health organisations and the hon. Member may wish to approach West Sussex Primary Care Trust for this information.

Human Papilloma Virus: Vaccination

Mary Creagh: To ask the Secretary of State for Health (1) what estimate he has made of the cost of providing immunisation against human papilloma virus to all females under the age of 18; [155106]

(2) what assessment his Department has made of the merits of offering immunisation against human papilloma virus to all girls up to the age of 18. [155107]

Mr. Bradshaw: Based on the current list price for the vaccine, vaccination of one annual cohort of girls will be in the region of £100 million.

A detailed analysis is being carried out by the Joint Committee on Vaccination and Immunisation (JCVI) regarding the benefits and costs of introducing a human papilloma virus vaccine programme. This work is being externally peer reviewed to ensure its robustness. This review has not yet been completed and therefore JCVI will not be able to make its more detailed recommendation, including whether there will be a catch-up for older girls, until after its next meeting, on October 17.

Influenza: Vaccination

Mr. Stephen O'Brien: To ask the Secretary of State for Health what plans he has to implement a seasonal influenza immunisation programme. [155030]

Mr. Bradshaw: Details of the seasonal influenza campaign for 2007-08 were announced via a chief medical officer letter on 30 March 2007.

Leeds Primary Care Trust: Consultants

Greg Mulholland: To ask the Secretary of State for Health how many patients under the auspices of the Leeds Primary Care Trust have been referred to consultants other than those originally selected by their GP; and in how many of these cases the permission of *(a)* the referring GP and *(b)* the patient was sought. [151428]

Mr. Bradshaw: The requested information is not collected centrally. The Yorkshire and Humberside Strategic Health Authority advises that Leeds Primary Care Trust does not encourage general practitioners to refer to individual consultants, only to appropriate specialists. Leeds Teaching Hospitals NHS Trust then allocates consultants on the basis of waiting times.

Macular Degeneration: Drugs

Mr. Evans: To ask the Secretary of State for Health when he expects the National Institute for Health and Clinical Excellence to make a decision on the approval of Macugen and Lucentis for general release. [155007]

Mr. Bradshaw: The National Institute for Health and Clinical Excellence (NICE) is currently appraising Lucentis (ranibizumab) and Macugen (pegaptanib) for the treatment of wet age-related macular degeneration. NICE published an Appraisal Consultation Document (ACD) on 14 June 2007 and we understand that, following consideration of comments received from consultees, a second ACD will be published later this year. NICE expects to publish final guidance next year. Further detailed information on this appraisal is available at:

www.guidance.nice.org.uk/page.aspx?o=207024.

Mr. Bone: To ask the Secretary of State for Health which primary care trusts in England commission the drugs Avestin and Lucentis for the treatment of wet-eye age-related macular degeneration. [155022]

Mr. Bradshaw: The Department does not collect data on the number of primary care trusts (PCTs) in England commissioning Lucentis or Avastin.

The National Institute for Clinical Excellence (NICE) is currently carrying out an appraisal of Lucentis and Macugen, and final guidance is due next year.

Where NICE has not issued guidance, PCTs are expected to make their own decisions on the funding of specific treatments based on an assessment of the available evidence.

Avastin has not been licensed for use in macular degeneration, although if a patient is willing to be prescribed a drug off-label it is available on the clinician's judgment and subject to funding by the PCT.

Mr. Hollobone: To ask the Secretary of State for Health how many patients were *(a)* granted and *(b)* refused NHS treatment for wet age-related macular degeneration in the most recent year for which figures are available in Northamptonshire. [155040]

Mr. Bradshaw: The information requested is not held centrally.

NHS

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will place in the Library guidance made available to NHS trusts between 16 and 26 August 2007. [155032]

Mr. Bradshaw: 23 approved items of communication or guidance were issued from the Department to national health service organisations during the specified period. These were either sent electronically by e-mail or mentioned in bulletins which contained links to the Department's website at www.dh.gov.uk. Copies have been placed in the Library.

NHS Foundation Trusts

Mr. Boswell: To ask the Secretary of State for Health how many NHS foundation trusts have been approved to date; how many trusts have applications under consideration; what the monthly average rate of approval is of foundations trusts; and if he will make a statement. [154888]

Mr. Bradshaw: 73 national health service foundation trusts (NHSFTs) have so far been authorised by Monitor (the statutory name of which is the Independent Regulator of NHS Foundation Trusts), accounting for almost one third of the total number of acute and mental health trusts.

All remaining trusts have a timetable to apply for NHSFT status and more trusts are becoming authorised each month. There are currently 23 trusts that have gained support from the Secretary of State and are being considered for potential authorisation. Target dates for authorisation are agreed between Monitor and applicant trusts. Further waves of trusts will continue to be put forward to Monitor. The Department is working with strategic health authorities, who are managing the NHSFT pipeline, and Monitor to increase the success rate of around two thirds of trusts becoming authorised during a first assessment.

NHS: Finance

David Howarth: To ask the Secretary of State for Health how much was held in contingency reserves by each strategic health authority *(a)* in cash terms and *(b)* as a percentage of its budget at the end of 2006-07; and how much each strategic health authority is forecasting it will hold in contingency reserves at the end of 2007-08. [155072]

Mr. Bradshaw: At the end of the financial year strategic health authorities (SHA) do not hold contingency reserves in their accounts but they do report an under or over spend against the funding available to them on a resource but not a cash basis. The value of the under or over spend reported by each SHA is shown in the following table:

£000

	2006/07 Provisional under/(over) spend at Quarter 4	*2006/07 Provisional under/(over) spend as percentage RRL*	*2007/08 Forecast under/(over) spend at Quarter 1*
North East SHA	64,511	23.8	79,924
North West SHA	206,058	28.4	129,484
Yorkshire and the Humber SHA	178,022	26.8	186,521
East Midlands SHA	80,476	21.8	68,183
West Midlands SHA	33,248	8.9	76,566
East of England SHA	62,293	12.7	(6,219)
London SHA	179,790	16.4	6,634
South East Coast SHA	29,990	11.9	54,000
South Central SHA	31,648	11.2	6,500
South West SHA	94,736	23.9	58,973
England total	960,772	19.5	660,566

Source: Financial Monitoring Returns.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health when the investigation into the NHS IT failure in which systems in the West Midlands and North West crashed in July 2006 is expected to report. [155033]

Mr. Bradshaw: By the end of October a report of the investigation's findings will be placed in the Library and will also be available on the NHS Connecting for Health website.

NHS: Procurement

Mr. Havard: To ask the Secretary of State for Health what assurances he has received from the NHS supply chain that the decision making process undertaken by NHS supply chain product councils will be open and transparent; and to whom they will be accountable. [153624]

Mr. Bradshaw: The product council programme is still in the early stages. NHS supply chain have assured officials that the summaries from the meetings will be published. The NHS Business Services Authority will be represented on the council to oversee transparency, and will monitor and audit them on behalf of the Department.

Obesity

Richard Younger-Ross: To ask the Secretary of State for Health pursuant to the answer of 11 June 2007, *Official Report*, column 876W, on obesity, if he will publish the findings of the core expert review group which validated the approach taken and outputs to date; who the members of the core expert review group are; and how often the group has met since 2005. [155123]

Mr. Bradshaw: The key findings underpinning the social marketing work are published in the MRC Human Nutrition Research Centre's report, "The Healthy Living Social Marketing initiative: A review of the evidence". Details of the group members are on Page 1 of the report. The group has met on three occasions since 2005.

Richard Younger-Ross: To ask the Secretary of State for Health pursuant to the answer of 11 June 2007, *Official Report*, column 876W, on obesity, if he will give details of the new strategy building on Choosing Activity; what progress has been made on it to date; and what steps he intends to take in furthering this strategy. [155124]

Mr. Bradshaw: The work led by Ministers on a new strategy for physical activity will be taken forward as part of our wider work on obesity, nutrition and physical activity, which will be the subject of further announcements in the autumn. These will include details of national campaigns focusing on these areas.

Richard Younger-Ross: To ask the Secretary of State for Health pursuant to the answer of 11 June 2007, *Official Report*, column 876W, on obesity, if he will give details of the 5 a Day Top Tips for Top Mums campaign; how he intends to take forward work on the initiative; how much has been spent from the public purse on it; how much has been set aside for the initiative in total; and how he plans to measure the initiative's success. [155125]

Mr. Bradshaw: The "Top Tips for Top Mums" campaign aims to increase fruit and vegetable consumption in families with young children and has a particular focus on low-income families. This audience faces the most barriers to increase fruit and vegetable consumption including cost, lack of cooking skills, fussy eaters and a lack of structured mealtimes. "Top Tips for Top Mums" has been developed to show parents that helping their children to eat more fruit and vegetables is a healthy option and easier than they may think.

To take the campaign forward, we are working with our existing "5 a Day" stakeholders and engaging with new partners to support the campaign. We are developing new radio and TV fillers which will help to promote the ideas of the Top Tips campaign and encourage fruit and vegetable consumption. The fillers are planned to go live in November 2007 and are expected to achieve at least £4 million pounds worth of free advertising space over a three-year period. New web pages will launch on the "5 a Day" website to coincide with the launch of the TV and radio fillers, and will incorporate a mechanism for parents to upload and share their own Top Tips with others.

To date, we have spent approximately £481,000 on the "Top Tips for Top Mums" campaign including activity to support partnership marketing, public relations (PR) aimed at both the national and local media and on website development.

The production of the TV and radio fillers will cost £300,000 and a further £300,000 has been committed to extend the campaign initiative into 2008 to recruit key partnerships, and sustain high profile PR and media activity to promote awareness of the campaign.

We track changes in consumption in fruit and vegetables in different population groups using the Food Standards Agency Consumer Activity Survey and the Health Survey for England.

Ophthalmology: Standards

Bob Spink: To ask the Secretary of State for Health how many optometrists were *(a)* struck-off and *(b)* subject to other disciplinary action for malpractice in each of the last five years. [154907]

Mr. Bradshaw: The Department does not hold this information. We understand that the information is available from the General Optical Council.

Bob Spink: To ask the Secretary of State for Health what additional monitoring his Department plans to carry out of the quality of services offered by optometrists. [154908]

Mr. Bradshaw: The General Optical Council (GOC) is the statutory body which regulates the optical professions. The GOCs main aims are to protect the public and promote high standards of professional conduct and education among opticians.

The GOC has an investigation committee which is responsible for investigating any concerns about the fitness to practice of registered optometrists and dispensing opticians, the fitness of student optometrists and dispensing opticians to undertake training and the fitness of corporate bodies to carry on business, in the United Kingdom.

Optometrists providing services under the national health service must be on a primary care trust (PCT) list. PCTs have powers to carry out inspections and to remove or suspend businesses or individual optometrists where they think that is justified.

Sexually Transmitted Diseases

Mr. Boswell: To ask the Secretary of State for Health what studies his Department has conducted or arranged into links between abuse of alcohol, narcotics or substances and incidence of sexually transmitted diseases. [154887]

Mr. Bradshaw: The Department has not conducted or arranged such studies. However, in June 2007 the Independent Advisory Group on Sexual Health and HIV published a report of a seminar they held in January 2007 on the impact drugs and alcohol have on

young people's sexual behaviour. The Department is considering the recommendations in the report and will respond in due course.

Tobacco: Marketing

David Taylor: To ask the Secretary of State for Health if he will bring forward proposals to prohibit *(a)* the sale of cigarettes from vending machines and *(b)* residual point of sale marketing of tobacco products; and if he will make a statement. [154902]

Mr. Bradshaw: Ministers are keeping these issues under constant review but there are no immediate plans for legislation.

Tobacco: Sales

David Taylor: To ask the Secretary of State for Health what discussions he has had on the impact of introducing a requirement for tobacco sellers to obtain a licence before being able to sell tobacco; and if he will make a statement. [154993]

Mr. Bradshaw: The Government consulted on the introduction of licensing for tobacco products in 2006. The majority of respondents favoured the introduction of a negative licensing scheme under which a retailer is free to sell tobacco products unless they have been found to persistently flout the law on under-age sale. Following the conclusion of the consultation the Government now intend to bring forward legislation at the next first legislative opportunity.

A copy of the consultation is available in the library.

Tobacco: Young People

David Taylor: To ask the Secretary of State for Health what steps he is taking to deter adults from supplying cigarettes to under-age smokers. [154994]

Mr. Bradshaw: The Government have no plans at present to penalise adults for supplying cigarettes to under-age smokers. However, as part of our communications campaign on changing the age of sale for tobacco, we are making parents aware of the dangers of young people smoking through magazine feature stories. Our continuing tobacco advertising TV campaign will also help to raise awareness of the dangers of smoking and benefits of quitting. In this way, we hope to discourage adults from supplying tobacco to young people under the minimum age.

David Taylor: To ask the Secretary of State for Health what measures he plans to introduce to ensure effective enforcement of the increased age of sale of tobacco products from 16 to 18 years. [154995]

Mr. Bradshaw: The Government are not in a position to direct decisions on the enforcement of the age of sale law. Tobacco control legislation, including that on minimum age of sale, is enforced by local authority trading standards officers. Budgets for this are set at local level and priorities are also determined locally. However, the Department has encouraged compliance with the new law by informing retailers, teenagers, parents and schools about the change in the law, supported by guidance to retailers and signage. We are also working closely with the local authorities Coordinators of Regulatory Services in the build-up to the age change, including revising guidance to enforcement officers who ensure compliance with the law.

David Taylor: To ask the Secretary of State for Health what plans he has to raise awareness of the increase in the age of sale of tobacco products from 16 to 18 years before it comes into effect on 1 October 2007. [154996]

Mr. Bradshaw: The Government have been carrying out a major communications campaign on changing the age of sale since April, focusing on the two main target groups: retailers and teenagers. Retailers have been sent details about the background of the change and advice about implementation. A dedicated website has also been set up for their benefit. As well as setting up a website for them, the Government are also running a digital advertising campaign on young people's social networking sites. There will also be posters near schools and newsagents.

Details can be seen at the retailers website www.tobaccoagechange.co.uk and the young people's website www.tobacco18.co.uk.

Vaccination

Mary Creagh: To ask the Secretary of State for Health (1) what estimate he has made of the cost of carrying out a mass immunisation scheme for *(a)* chickenpox, *(b)* rotavirus and *(c)* influenza; [155104]

(2) whether the Joint Committee on Vaccination and Immunisation has carried out a cost-benefit analysis into the effects of carrying out a UK-wide mass immunisation scheme for *(a)* chickenpox, *(b)* rotavirus and *(c)* influenza. [155105]

Mr. Bradshaw: The Joint Committee on Vaccination and Immunisation (JCVI) has commissioned an expert subgroup to look at the benefits of vaccinating children with chickenpox vaccine and the benefits of vaccinating older adults with a vaccine to protect against Shingles.

An expert subgroup has reviewed the evidence on the benefits of vaccinating children with Rotavirus vaccine, including two published papers[1] on the cost-effectiveness of introducing Rotavirus vaccination in the United Kingdom. This will be presented to JCVI at a future meeting.

Influenza immunisation has been recommended in the UK since the late 1960s, with the aim of directly protecting those at a higher risk of serious morbidity and mortality. The JCVI regularly appraise the benefits of flu vaccination among groups considered to be at risk.

York NHS Trust: Waiting Lists

Hugh Bayley: To ask the Secretary of State for Health what the average waiting times for *(a)* elective in-patient admissions and *(b)* first out-patient appointment were in each specialty at York NHS Trust in each year since 1996-97. [154941]

Mr. Bradshaw: The information requested is in the following tables:

In-patient waiting times for York Health Services Trust 1997 to 2007

Median waiting time for elective admission (weeks)

	Specialties									
Quarter ended March each year	*General surgery*	*Urology*	*Trauma and orthopaedics*	*Ear, nose and throat (ENT)*	*Ophthalmology*	*Oral surgery*	*Anaesthetics*	*General medicine*	*Obstetrics and Gynaecology*	*All specialities*

TREASURY

Air Passenger Tax

Mr. Evans: To ask the Chancellor of the Exchequer how much was raised by air passenger duty in *(a)* 2005 and *(b)* 2006; and how much he estimates will be raised in 2007. [155015]

Angela Eagle: The following revenues were raised from air passenger duty in the respective calendar years:

	£ million
2005	900
2006	950
2007[1]	2,000

[1] Forecast.

Auctions: Internet

Martin Horwood: To ask the Chancellor of the Exchequer which suppliers have been added to the list of electronic auction framework agreements held by the Office of Government Commerce; and what recent assessment his Department has made of the market in intellectual copyright related to electronic auctions. [154869]

Angela Eagle: OGCbuying.solutions, an agency of the Office of Government Commerce, is responsible for electronic auction framework agreements.

No new suppliers have been added to the electronic auction framework agreements and no recent assessment of the market in intellectual copyright has been made.

Building Schools for the Future Programme

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 16 July 2007, *Official Report*, column 90W, on the Building Schools for the Future programme, how many recommendations were made to *(a)* the Department for Education and Skills and *(b)* HM Treasury as a result of the Prime Minister's Delivery Unit's review. [153611]

Andy Burnham: Priority reviews, regardless of topic, typically contain between half a dozen and two dozen recommendations.

Child Benefit: EU Nationals

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many claims for *(a)* child benefit and *(b)* child tax credit made by A8 nationals in the last 12 months were made in respect of children living outside the UK. [154842]

Jane Kennedy: At the end of June 2007 there were around 14,000 A8 nationals receiving child benefit for a child or children living in another EEA country.

The information requested on the child tax credit is not available.

Child Benefit: Overseas Residence

Mr. Philip Hammond: To ask the Chancellor of the Exchequer pursuant to the answer of 25 June 2007, *Official Report*, column 413W, on tax credits (1) how many individuals claiming child tax credit and child benefit in respect of children living abroad were asked in the last 12 months to provide a copy of the birth or adoption certificate for the children in question in order to verify their application; [155013]

(2) how many checks of claims for child tax credit and child benefit in respect of children living abroad were carried out in the last 12 months. [155014]

Jane Kennedy: A person making a claim for child benefit must provide HMRC with documentary evidence of the child being claimed for, such as a birth certificate, adoption certificate or passport. HMRC would only require a person making a claim for the child tax credit to furnish them with documentary evidence of the child being claimed for if they had not claimed child benefit.

All claims for tax credits and child benefit are subject to a wide range of checks throughout the life of each claim.

Child Trust Fund

Dr. Cable: To ask the Chancellor of the Exchequer if he will estimate the effect of the Gini coefficient on wealth of the Child Trust Fund since its introduction; and if he will make a statement. [152712]

Kitty Ussher: No estimates are made for this effect. Furthermore, to the extent that published wealth estimates exclude children, the Child Trust Fund could have no impact on this measure of wealth distribution until 2020, when the first Child Trust Fund account holders reach age 18.

The Child Trust Fund promotes saving and financial education and will ensure that in future all children have a financial asset at age 18, regardless of family background.

Companies: Registration

Dr. Cable: To ask the Chancellor of the Exchequer what the basis was for the decision to abolish the three-month Companies House filing date extension for companies with overseas interests; and if he will make a statement. [152708]

Mr. Timms: I have been asked to reply.

The automatic three-month extension which companies with overseas interests could claim for filing their accounts with the registrar of companies, conferred by section 244(3) of the Companies Act 1985, was repealed by the Companies Act 1985 (International Accounting Standards and Other Accounting Amendments) Regulations 2004 (S.I. 2004/2947, regulation 9).

It was considered that this provision (which was introduced in 1976) was no longer justifiable in an era of rapid global communications, and there is no such provision in the Companies Act 2006.

Any company that anticipates real difficulty in meeting the deadline for filing accounts may apply for a discretionary extension to be granted under section 244(5) of the 1985 Act (section 442(5) of the Companies Act 2006).

Council Tax: Valuation

Michael Gove: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the agreement signed between the Valuation Office Agency and Rightmove redacting commercially confidentiality information. [143662]

Jane Kennedy: No contract exists between the Valuation Office Agency and Rightmove. However, the contract between Her Majesty's Revenue and Customs and Rightmove.co.uk Limited with minor redactions will be placed in the Library.

Customs Officers: South West Region

Mr. Drew: To ask the Chancellor of the Exchequer what the planned reduction is in the number of permanent customs officers who cover small ports and airports in Devon, Cornwall and Dorset as part of the Law Enforcement Business Plan; what assessment he has made of the role of such officers in combating illegal drugs imports; and if he will take steps to prevent the proposed reduction in numbers being implemented. [154852]

Jane Kennedy: There are no plans to reduce the number of permanent customs officers covering small ports and airports in Devon, Dorset and Cornwall.

Debts: Business

Harry Cohen: To ask the Chancellor of the Exchequer what estimate he has made of the loss in revenue to the Exchequer from private equity businesses offsetting debts on one business in their ownership against profits elsewhere in their ownership to minimise or eliminate tax liability in each of the last five years. [152613]

Kitty Ussher: Interest on debt is in general treated as a business expense for tax purposes. Most major tax systems adopt the same approach and international capital markets and global businesses are structured on this basis. There are no plans to review this fundamental principle. However, on the 8 March 2007 Government announced a review of the tax treatment of the use of shareholder debt to replace the equity element in highly leveraged deals.

There is no special interest tax relief for private equity-owned companies, the tax rules apply to all companies regardless of ownership.

As HMRC does not specifically take into account private equity backed companies in their tax records it is not possible to provide this estimate.

Departments: Aviation

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on *(a)* first class and *(b)* business flights in the last 12 months. [153172]

Angela Eagle: For details of the Department's expenditure on travel and subsistence in 2006-07 I refer to the answer to the right hon. Member for Maidenhead (Mrs. May) given on 25 July 2007. Of this expenditure, £144,788 was on first class flights and £1,004,269 was on business class flights.

All travel and subsistence is conducted in accordance with the requirements of the Ministerial Code, Travel by Ministers and the Civil Service Management Code.

Departments: Departmental Responsibilities

Mr. Hands: To ask the Chancellor of the Exchequer whether policy on financial capability is within the remit of his Department following the recent machinery of Government changes. [152913]

Kitty Ussher: HM Treasury has retained the policy lead for financial capability within government. This was unaffected by the recent machinery of Government changes.

Departments: Disabled

Mr. Harper: To ask the Chancellor of the Exchequer what proportion of people employed by *(a)* his Department and *(b)* its agencies are disabled. [153592]

Angela Eagle: The latest available statistics on the disability status of civil servants in Departments and agencies are as at 30 September 2006 and are published in 'Civil Service Statistics 2006' at Table P. This document is produced by the Office for National Statistics and can be accessed from the following website addresses:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=&ColRank=1&Rank=422

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

Departments: Disclosure of Information

Mr. Hoban: To ask the Chancellor of the Exchequer (1) pursuant to the answer of 4 July 2007, *Official Report*, column 1066W, on Departments: disclosure of information, on how many occasions his Department has used a section 36 exemption to withhold information under the Freedom of Information Act 2000 that was agreed by the departmental Minister; [153453]

(2) pursuant to the answer of 4 July 2007, *Official Report*, column 1066W, on Departments: disclosure of information, who his Department's departmental Minister was on *(a)* 1 January 2007 and *(b)* 5 July 2007; [153454]

(3) pursuant to the answer of 16 July 2007, *Official Report*, column 66W, on Departments: freedom of information and the Ministry of Justice aggregated statistics, what information has been requested of his Department under the Act in the last six months. [153616]

Angela Eagle: The Ministry of Justice produces an annual report on FOI in central Government, which includes a table summarising the use of exemptions by each Department. The report for 2006 was published in June 2007.

The departmental Minister for HM Treasury on 1 January 2007 was Financial Secretary, Mr. John Healey. As Exchequer Secretary to the Treasury since 2 July, my responsibilities include those of departmental Minister.

The Treasury has had around 3,000 FOI requests since January 2005; it would exceed the costs limit to provide lists of the requests made to HMT. HMT meets the reporting standards agreed by the then Department for Constitutional Affairs with the House.

Departments: Legislation

Dr. Cable: To ask the Chancellor of the Exchequer which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152483]

Angela Eagle: There were no sunset clauses in the Child Trust Funds Act 2004, the National Insurance Contributions and Statutory Payments Act 2004, the Regulation of Financial Services (Land Transactions) Act 2005, the Commissioners for Revenue and Customs Act 2005, the National Insurance Contributions Act 2006, the Investment Exchanges and Clearing Houses Act 2006, the Planning Gain Supplement (Preparations) Act 2007 or the Statistics and Registration Service Act 2007.

The remaining Acts that received Royal Assent during this period were Appropriation, Consolidated Fund Acts, Finance Acts and other tax legislation. These do not contain sunset provisions but may be time limited or temporary in effect in whole or in part.

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case-by-case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Departments: Public Expenditure

Mr. Hoban: To ask the Chancellor of the Exchequer how the Department for Education and Skills' settlement for the years covered by the comprehensive spending review period announced in the 2007 Budget will be divided between its two successor Departments. [153364]

Andy Burnham: Full details of the settlements for all Departments, including those involved in Machinery of Government changes, will be announced in the comprehensive spending review.

Departments: Railways

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on first class train tickets in the last 12 months. [153171]

Angela Eagle: For details of the Department's expenditure on travel and subsistence in 2006-07 I refer to the answer to the right hon. Member for Maidenhead (Mrs. May) given on 25 July 2007. Of this expenditure, £285,219 was on first class rail travel.

All travel and subsistence is conducted in accordance with the requirements of the Ministerial Code, Travel by Ministers and the Civil Service Management Code.

This figure includes most, but not all, first-class train travel by HMT staff. We do not hold central records of train tickets bought with corporate credit cards or for which paper claims are submitted. This information could be obtained only at disproportionate cost.

Emigration

Mr. Hands: To ask the Chancellor of the Exchequer (1) how many British emigrants there were from the United Kingdom aged between *(a)* 0 to 16, *(b)* 16 to 25, *(c)* 26 to 35, *(d)* 36 to 45, *(e)* 46 to 55, *(f)* 56 to 65 and *(g)* over 65 years in each of the last five years; [155119]

(2) how many non-British European Union emigrants there were from the United Kingdom in each of the last five years, broken down by country of origin; [155120]

(3) how many British emigrants there were from the United Kingdom in each of the last five years, broken down by country of destination; [155121]

(4) how many non-European Union emigrants there were from the United Kingdom in each of the last five years, broken down by country of origin. [155122]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 10 September 2007:

As National Statistician, I have been asked to respond on behalf of the Chancellor of the Exchequer to your questions concerning:

i) How many British emigrants there were from the UK aged between (a) 0 to 16, (b) 16 to 25, (c) 26 to 35, (d) 36 to 45, (e) 46 to 55, (f) 56 to 65 and (g) over 65 years in each of the last five years;

ii) How many non-British European emigrants there were from the UK in each of the last five years, broken down by country of origin;

iii) How many British emigrants there were from the UK in each of the last five years broken down by country of destination;

iv) How many non-European emigrants there were from the UK in each of the last five years, broken down by country of origin.

The data are presented in the attached tables 1 to 4.

The Office for National Statistics uses the UN definition of an international migrant as someone who changes their country of usual residence for at least a year so that the country of destination effectively becomes the country of usual residence.

The specific details requested mean that estimates are only available based on International Passenger Survey (IPS) data. This means that these estimates exclude most asylum seekers, migration between the UK and the Irish Republic, and adjustments for those who change their intention about their length of stay in the UK, and hence their migrant status.

Table 1: International migration: estimates from the International Passenger Survey, time series 2001 to 2005, British emigration by age, United Kingdom

Thousand

36-45	26	31	40	29	40
46-55	13	20	15	24	14
Over 55	14	18	20	29	25

Note:
The 65+ age group has been combined with 56 to 65 as none of the 65+ values are statistically robust.

Table 2: International migration: estimates from the International Passenger Survey, time series 2001 to 2005, non-British European Union emigration by country of birth, United Kingdom

Thousand

Citizenship	*2001*	*2002*	*2003*	*2004*	*2005*
European Union 15					
All countries of birth	40	42	42	31	31
European Union[1] (including UK)	36	40	40	29	30
Other countries	*4*	*2*	*3*	*1*	*1*
European Union 25					
All countries of birth	—	—	—	34	47
European Union[1] (including UK)	—	—	—	33	45
Other countries	—	—	—	*1*	*1*

[1] The 'European Union' grouping used in standard outputs exclude the UK because international migration must involve changes of residence between the UK and the rest of the world. However, the UK is included in this table because it contains data based on both citizenship and country of birth and there are a small number of British born emigrants who are non British-EU citizens.

Notes:
1. Estimates are provided by main country groupings as data for individual countries of birth are not sufficiently robust.
2. Full details of country groupings are available in the notes to tables section of International Migration Series MN no. 32 (http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=507)
2. Italicised estimates are not statistically robust (defined as standard error >30 per cent.) but have been included for completeness.

Employee Shares and Securities Unit: Standards

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what estimate he has made of the number of Form 42 applications that could not be received and processed by the Employee Shares and Securities Unit owing to a breakdown of a fax machine on 6 July; and what his latest estimate is of the number of fines that were imposed upon employers for late filing as a result. [154840]

Jane Kennedy: No estimates have been made by HMRC of the number of Form 42 annual employee share scheme returns that could not be faxed to the Employee Shares and Securities Unit by employers on 6 July 2007. Employers who have an obligation to send a Form 42 return to HMRC are asked to send it in by post or by making an online filing before 7 July following the end of the tax year.

No penalties have been imposed to date for Form 42 returns relating to the tax year 2006-07 made late that were submitted after the 7 July deadline.

Employment: Disabled

Mr. Harper: To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* number and *(b)* proportion of disabled people who are employed (i) full and (ii) part-time. [153586]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 5 September 2007:

As National Statistician, I have been asked to reply to your Parliamentary Questions about the number and proportion of disabled people who are employed full-time and part-time. (153586)

The attached table shows the number and proportion of disabled people of working age who are in full or part-time employment for the three months ending March 2007. These estimates are not seasonally adjusted.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Disabled[1] people of working age[2] either in full and part-time employment, United Kingdom, not seasonally adjusted

Three months ending March 2007	*Number (thousand)*	*Proportion (percentage)[3]*
In employment	3,473	49.6
of which:		
Full-time	2,427	34.7
Part-time	1,046	14.9

[1] Includes those who have a long-term disability which substantially limits their day-to-day activities and those who have a long-term disability which affects the kind or amount of work they might do.
[2] Includes men aged 16 to 64 and women age 16 to 59.
[3] Disabled people in employment including full and part-time as a percentage of all disabled people of working age.
Source:
ONS Labour Force Survey (LFS)

Families

Mr. Allen: To ask the Chancellor of the Exchequer pursuant to the answer of 21 June 2007, *Official Report*, columns 2141-43W, on families, what research he has *(a)* commissioned and *(b)* evaluated on the creation of financial instruments to enable expenditure to be made on early intervention funded by the later savings to be made from having done so; and if he will make a statement. [152966]

Andy Burnham: The Chancellor has not commissioned or evaluated any specific research into the creation of financial instruments to enable expenditure in this area. However, to inform the comprehensive spending review, the Joint HM Treasury-DCSF review "Aiming high for children: supporting families", part of the Children and Young People review, was published in March 2007. It set out the Government's strategy for building resilience, support for those who need it most, and early intervention. The review committed the Government to increased resources for Sure Start, parenting support, and other early intervention measures.

Family Records Centre

Jeremy Corbyn: To ask the Chancellor of the Exchequer (1) whether a public search room in Central London will be provided should the proposed closure of the Family Records Centre in Islington in April 2008 go ahead; and whether a change in the law is required before this facility may be withdrawn; [153732]

(2) what measures will be implemented following the proposed closure of the Family Records Centre in Islington in April 2008 to meet the needs of customers with learning disabilities and people who do not have English as their first language; [153733]

(3) whether the Registrar General complied with her duty to consult *(a)* staff and *(b)* their representatives in connection with the proposed closure of the Family Records Centre in Islington in April 2008. [153734]

Angela Eagle: The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

Letter from Karen Dunnell, dated 5 September 2007:

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent Parliamentary Questions asking (i) whether a public search room in Central London will be provided should the proposed closure of the Family Records Centre in Islington in April 2008 go ahead; and whether a change in the law is required before this facility may be withdrawn; (ii) what measures will be implemented following the proposed closure of the Family Records Centre in Islington in April 2008 to meet the needs of customers with learning disabilities and people who do not have English as their first language and (iii) whether the Registrar General complied with her legal duty to consult in connection with the proposed closure of the Family Records Centre in Islington in April 2008 (a) staff and (b) their representatives. (153732, 153733, 153734)

The General Register Office will not provide a public search room in Central London following the closure of the Family Records Centre. The Births & Deaths Registration Act 1953 requires the Registrar General to make available a public index for birth, marriage, death and civil partnership but does not state a geographical location. There is therefore no requirement to change legislation.

The National Archives at Kew have copies of the GRO indexes on microfiche and between April 2008 and March 2009 will be provided with copies of the Adoptions and Civil Partnership indexes and the most recent birth, deaths and marriage indexes.

GRO provides assistance through its call centre staff in Southport for people with learning disabilities to provide advice and guidance in obtaining the required certificate. The call centre uses Language line where necessary for customers who do not have English as their first language. The provision of these facilities is not changing.

I can confirm that I have met my obligations in relation to consultation with staff and their representatives on the closure decision.

Financial Services: VAT

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what steps he has taken in respect of infringement proceedings instigated against the United Kingdom by the European Union regarding the UK's refusal to allow businesses from outside the European Union in the financial services and insurance industries to reclaim value-added tax incurred on goods and services from UK suppliers; and if he will make a statement. [154841]

Jane Kennedy: The Government believe that UK VAT legislation in this area properly implements EU VAT Directives. The legislation also conforms with a clear decision of the UK Court of Appeal on the meaning of the relevant EU law. The UK will therefore contest the infringement proceedings.

HM Revenue and Customs: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer if he will require the HM Revenue and Customs Tax Credit Office to respond to the

correspondence from the right hon. Member for Manchester, Gorton with regard to Mrs. Shukri Artham. [154928]

Jane Kennedy: The Chairman of HM Revenue and Customs wrote to my right hon. Friend about his constituent on 3 September 2007.

Members: Correspondence

Mr. Winnick: To ask the Chancellor of the Exchequer when he expects to reply to the letter from the hon. Member for Walsall, North of 24 July on a constituent, PO Ref 3/02553/2007; and what the reasons are for the time taken to reply. [155018]

Angela Eagle: I have replied to the hon. Member.

Mr. Winnick: To ask the Chancellor of the Exchequer when he expects to reply to the letter from the hon. Member for Walsall, North of 4 July on a constituent, PO Ref 5/02306/2007; and what the reasons are for the time taken to reply. [155020]

Jane Kennedy: I have replied to the hon. Member.

Pensions

Mr. Drew: To ask the Chancellor of the Exchequer what his estimate is of the cost to the Exchequer of pension contribution holidays since 1985. [154826]

Kitty Ussher: Pension contribution holidays cause no direct loss in tax revenue to the Exchequer.

Martin Horwood: To ask the Chancellor of the Exchequer pursuant to the answer of 24 July 2007, *Official Report*, columns 1010-1W, for what reasons it is not permissible for more than 25 per cent. of the total of a private pension to be drawn in cases where the total of the pension rights are larger than one per cent. of the lifetime allowance. [154873]

Kitty Ussher: The Government provide pensions tax relief to support saving to produce an income in retirement. These reliefs include the ability to take up to 25 per cent. of a pension fund as a tax free lump sum, but it is right that the remainder should be used to produce an income throughout retirement.

Other savings vehicles such as ISAs are available for individuals to make additional savings for other purposes.

Personal Savings

Andrew Rosindell: To ask the Chancellor of the Exchequer what the underlying savings ratio was in the first quarter of 2007 excluding the contribution made to household pension funds; and if he will make a statement. [153481]

Kitty Ussher: The household saving ratio in 2007Q1 excluding the change in the net equity of households in pension fund reserves was 0.8.

Public Sector: Pensions

Mr. Dunne: To ask the Chancellor of the Exchequer when he expects to announce the Government's total accrued liability in relation to public service pension schemes as at March 2006. [147364]

Mr. Jenkins: To ask the Chancellor of the Exchequer what estimates he has made of the reduction in the accrued liability for public service pensions if mandatory retirement ages were abolished. [148707]

Andy Burnham: I refer the hon. Gentlemen to the answer the former Chief Secretary (Mr. Stephen Timms) gave on 25 June 2007, *Official Report*, column 393W.

A new estimate will be published in the autumn.

Queen's Flight

Chris Grayling: To ask the Chancellor of the Exchequer what recent discussions he has had with the Secretary of State for Transport on the new aircraft being purchased for the Queen's Flight. [152458]

Andy Burnham: Treasury Ministers and officials have discussions on a wide variety of issues with organisations in the public and private sectors as part of the process of policy development and delivery. In line with the practice of previous administrations, this Government do not comment on the contents of these discussions. I refer the hon. Member to the press notice issued by the Department for Transport on 23 May concerning the procurement of the royal and ministerial air service.

Stamp Duties

Mrs. Lait: To ask the Chancellor of the Exchequer what estimate his Department has made of the average stamp duty paid by first-time buyers. [152853]

Mr. Pickles: To ask the Chancellor of the Exchequer what the average stamp duty paid by a first time buyer was in *(a)* each Government office region in England and *(b)* England in the last period for which figures are available. [153721]

Kitty Ussher: HMRC administrative systems do not identify whether a stamp duty land taxpayer is a first time buyer. It is not therefore possible to derive an estimate of the average stamp duty land tax paid by first time buyers. However, it is estimated that close to half of all first time home buyers are exempt from stamp duty land tax, taking into account the £125,000 starting threshold and the enhanced £150,000 threshold which is available in 2,000 disadvantaged wards.

Taxation

Dr. Cable: To ask the Chancellor of the Exchequer if he will estimate *(a)* direct and *(b)* indirect taxes as a percentage of gross income for households with an income (i) lower and (ii) higher than (A) 95 per cent., (B) 99 per cent., (C) 75 per cent. and (D) 25 per cent. of all households; and if he will make a statement. [152707]

Jane Kennedy: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 5 September 2007:

As National Statistician, I have been asked to reply to your recent question asking Mr Chancellor of the Exchequer, if he will estimate (a) direct and (b) indirect taxes as a percentage of gross income for households with an income (i) lower and (ii) higher than (A) 95 percent of all households, (B) 99 percent of all households, (C) 75 percent of all households and (D) 25 per cent. of all households. (152707).

Estimates of household income and related taxes are provided in the ONS analysis 'The effects of taxes and benefits on household income'. The latest analysis for 2005/06 was published on the National Statistics website on 17th May 2007 at http://www.statistics.gov.uk/taxesbenefits. The analysis is based on data from the Expenditure and Food Survey, which is a sample survey covering approximately 7,000 households in the UK.

Gross income includes income from wages, occupational pensions, self-employment income, investment income, and income from state benefits, all before tax. Direct taxes include income tax, national insurance contributions and council tax. The indirect taxes include VAT, duties, and a number of smaller items such as television licences. Indirect taxes also include intermediate taxes—these are indirect taxes paid by companies which are deemed to be passed onto households through the prices they pay for goods and services. A more detailed breakdown showing each of the different taxes appears in the annual article.

Indirect taxes, when expressed as a proportion of gross income, appear particularly high for those on lower income, although this result needs to be interpreted carefully. Estimates of indirect taxes are estimated based on household expenditure. It should be remembered that measured expenditure will not necessarily balance with measured income for the year. This is especially true for low income households where average measured income is significantly lower than average expenditure. For these households, indirect taxes (which reflect expenditure) are not being met solely from current income, and so indirect taxes are very high when expressed as a proportion of gross income.

There are a number of plausible reasons why for some households, expenditure might exceed income. Households with low incomes may draw on their savings or borrow in order to finance their expenditure. In addition, the lower income households in particular include some groups, who have, or report, very little income (for example, self-employed people starting a business or someone who has just been made redundant). In these cases, expenditure is not being met from current income. Some types of receipts are not included as income in the EPS e.g. inheritance and severance payments. In some cases, the information given on expenditure is not consistent with that on income received because of timing differences.

It is usually accepted that surveys have problems picking up data from extremely high income households. With the EPS having a sample of approximately 7,000 households, interpreting data for this high income group should be done with caution.

Taxes as a percentage of gross income[1]—United Kingdom, 2005-06

	Percentage
Indirect taxes[2]	
Income lower than 99% of all households	15
Income higher or equal to 99% of all households	7
Income lower than 95% of all households	16
Income higher or equal to 95% of all households	9
Income lower than 75% of all households	18
Income higher or equal to 75% of all households	11
Income lower than 25% of all households	25
Income higher or equal to 25% of all households	13
Direct taxes[3]	
Income lower than 99% of all households	20
Income higher or equal to 99% of all households	24
Income lower than 95% of all households	20
Income higher or equal to 95% of all households	26
Income lower than 75% of all households	17
Income higher or equal to 75% of all households	24
Income lower than 25% of all households	10
Income higher or equal to 25% of all households	22
Total taxes	
Income lower than 99% of all households	35
Income higher or equal to 99% of all households	31
Income lower than 95% of all households	36
Income higher or equal to 95% of all households	35
Income lower than 75% of all households	35
Income higher or equal to 75% of all households	35
Income lower than 25% of all households	35
Income higher or equal to 25% of all households	35

[1] Households are ranked by equivalised disposable income.
[2] Includes VAT, Vehicle Excise duty and taxes on tobacco, alcohol and hydrocarbon oil.
[3] Income tax, Employees' National contributions (Including tax relief at source on life assurance premiums) and Council tax and Northern Ireland rates after deducting discounts.
Source:
Office for National Statistics

Taxation: Domicile

Dr. Cable: To ask the Chancellor of the Exchequer what fact-finding exercises were undertaken as part of the review of the residence and domicile rules launched in Budget 2002; and if he will make a statement. [151771]

Jane Kennedy: I refer the hon. Gentleman to the answer I gave him on 5 July 2007, *Official Report*, column 1186W.

Valuation Office Agency: Freedom of Information

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Surrey Heath (Michael Gove) of 20 June 2007, *Official Report*, column 1888W, on the Valuation Office Agency: Freedom of Information, what the subject was of each request made in 2006; and what the outcome was of each request. [150627]

Jane Kennedy: The main subject for the 211 Freedom of Information Act requests received in 2006 related to Local Taxation Work (160), District Valuer Services (36), Customer Services (5), Human Resources (3) and Miscellaneous (7). In 106 cases the Agency provided the information in full, in 36 cases in part, and in 23 requests the information was not held. In the remaining 46 cases the Agency declined to provide the information.

Valuation Office Agency: Rightmove

Michael Gove: To ask the Chancellor of the Exchequer which Minister in which Department gave the authorisation for the contract between the Valuation Office Agency and Rightmove. [143665]

Jane Kennedy: The decision to proceed with the contract between Her Majesty's Revenue and Customs (as parent department of the Valuation Office Agency) and Rightmove.co.uk Limited was taken by the VGA, in accordance with the delegated authority in Section 3 of its Framework Document (2005 Edition). Ministerial authorisation was not required.

Michael Gove: To ask the Chancellor of the Exchequer when the contract between the Valuation Office Agency and Rightmove plc was signed. [143666]

Jane Kennedy: No contract exists between the Valuation Office Agency and Rightmove.

The contract between Her Majesty's Revenue and Customs and Rightmove.co.uk Limited was signed by HMRC on 1 July 2005 and by Rightmove on 4 July 2005.

VAT: Uniforms

Mr. Evans: To ask the Chancellor of the Exchequer what his estimate is of the amount raised in 2006 from VAT on the sales of school uniforms. [155005]

Jane Kennedy: No such estimate has been made.

Welfare Tax Credits: Northamptonshire

Mr. Hollobone: To ask the Chancellor of the Exchequer what proportion of tax credit assessments for claimants in Northamptonshire have involved under or over payment in the most recent year for which figures are available. [154967]

Jane Kennedy: Estimates of the number of overpaid and underpaid awards at local authority level in 2005-06 are published in "Child and Working Tax Credits Statistics. Finalised Annual Awards 2005-06. Supplements on Payments in 2005-06. Geographical Analyses". This is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

JUSTICE

Crime: Mentally ill

James Brokenshire: To ask the Secretary of State for Justice what research his Department has conducted into whether people with mental health problems who are *(a)* victims of crime and *(b)* witnesses of crime face particular difficulties when seeking access to justice. [152977]

Bridget Prentice: My Department has a research programme examining the experiences of vulnerable court users in both civil (including family) and criminal proceedings. One of the identified groups is individuals with mental health problems. Within this programme, we have commissioned two complimentary literature reviews, due for publication by 2008. One focuses on how people with mental health problems access and experience justice and the barriers they face. The other focuses more on the implementation and impact of legislation on individuals with mental health problems. These reports discuss, but do not specifically delineate between victims and witnesses.

During 2007 we expect to commission a 12-16 month project to determine how effectively the court system supports the complex and specific needs of individuals with mental health problems, learning disabilities or limited mental capacity. The focus will be on parties, victims and witnesses in both civil (including family) and criminal proceedings.

The Office for Criminal Justice Reform published a report on the evaluation of the use of special measures for Vulnerable and Intimidated Witnesses (VIWs), one of the criteria for which is having a mental disorder. The report found that VIWs were, and felt, better assisted than prior to the implementation of the special measures. But there continued to be a significant unmet need. However, there have been substantial developments in Government work relating to victims and witnesses since this piece of research was commissioned in 2000-01, which qualifies the conclusions of the study. The report has been placed in the libraries of the House and can also be found at:

http://www.homeoffice.gov.uk/rds/pdfs06/rdsolr0106.pdf.

James Brokenshire: To ask the Secretary of State for Justice what support is available within the court process to assist people with mental health problems who are *(a)* victims of crime and *(b)* witnesses of crime. [152978]

Bridget Prentice: The Government have introduced 165 Witness Care Units, give £30 million annually to Victim Support including the Witness Service in every court and made improvements to court facilities which support all victims and witnesses of crime.

Under the statutory Code of Practice for Victims of Crime the police are obliged to identify vulnerable and intimidated victims and Witness Care Units are obliged to undertake a needs assessment to identify practical and emotional needs including special measures at trial.

The Government have introduced special measures for those witnesses (including victims who have to give evidence in court) who are vulnerable or intimidated. The definition of "vulnerable" in the Youth Justice and Criminal Evidence Act 1999 includes any victim who

"suffers from mental disorder within the meaning of the Mental Health Act 1983"

"otherwise has a significant impairment of intelligence and social functioning",

"has a physical disability or is suffering from a physical disorder".

Special measures include live links, video recorded evidence-in-chief, screens so witnesses cannot be seen by the defendant and intermediaries for those with communication difficulties.

Crime: Victims

Mr. Fallon: To ask the Secretary of State for Justice what the reasons are for the proposal to sub-contract statutory victim liaison work in the London probation area to outside contractors; and if he will make a statement. [155051]

Mr. Hanson: The Government are wholly committed to ensuring that a high quality service is provided to victims of serious crimes and to rebalancing the criminal justice system towards victims. The victim liaison service is a key part of delivering that commitment since it provides victims with both a means of being kept informed as the offender's sentence progresses and opportunities to make representations on issues relating to their safety in the event of the prisoner being released.

The Government value the public sector and believe it must continue to play a major role in probation services. However, all current providers should be open to challenge and be given the opportunity to demonstrate that the services they offer are the best available. The Offender Management Act 2007 has established probation trusts, accountable through contract to the Secretary of State. We have asked probation boards to consider whether other providers have the capability to deliver service improvements and to contract with those providers who can demonstrate a more effective use of resources. This approach will allow the probation boards and trusts to focus more effectively on the core activity of offender management, and bring other providers in to deliver other services where appropriate.

As part of the move to the competitive provision of services, probation boards have been given a target of contracting out 10 per cent. of their service budget by the end of 2007/08. The London Probation Board has been working closely with the Regional Offender Manager to identify the services most appropriate for this process, and victim liaison is an area of operation where it has been agreed that steps should be taken to develop the use of external providers.

If the decision is taken to contract out the service, the statutory responsibility, and accountability for service delivery, would remain with the London Probation Board. Consequently, the London Probation Board would be accountable for ensuring that any contractor delivered its statutory responsibilities to the high standard required.

Departments: Aviation

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on *(a)* business class and *(b)* first class flights in the last 12 months. [153031]

Bridget Prentice: It is not possible to list the costs spent on *(a)* business class and *(b)* first class flights by the Department in the last 12 months as the expenditure is not separately identifiable within the Department's accounts and may be provided only at a disproportionate cost.

All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Library of the House for the reference of Members. The Cabinet Office has recently published the annual list of Cabinet Ministers' overseas travel for 2006-07.

All official travel by civil servants is undertaken in accordance with the requirements of the "Civil Service Management Code", a copy of which is also available in the Library of the House for the reference of Members.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Justice what proportion of people employed by *(a)* his Department and *(b)* its agencies are disabled. [153591]

Bridget Prentice: Tables 1 and 2 following show the total permanent staff and number of disabled staff employed by the former Department for Constitutional Affairs and its Agencies as at 30 September 2006, the latest published figures taken from the Office for National Statistics Civil Service employment statistics. Tables 3 and 4 show the total permanent staff and number of disabled staff currently employed by the Ministry of Justice and its Agencies as at 30 June 2007 taken from their respective internal Human Resource records. Published figures will be available in September 2007.

Table 1 shows the total permanent staff and number of disabled staff currently employed by the former DCA as at 30 September 2006.

Table 1

Depts and agencies	Declared disabled	Non-disabled	Not declared or non-response	Total	Percentage: Declared disabled	Percentage: Not declared or non-response
Department for Constitutional Affairs (excl. agencies)	100	1,510	510	2,120	4.6	24.1

Table 2 shows the total permanent staff and number of disabled staff employed by the former DCA Agencies as at 30 September 2006.

Table 2

Depts and agencies	Declared disabled	Non-disabled	Not declared or non-response	Total	Percentage: Declared disabled	Percentage: Not declared or non-response
HM Courts Service	630	17,160	4,310	22,090	2.8	19.5
Land Registry	540	7,670	60	8,270	6.5	0.7
National Archives	30	110	410	560	5.9	74.5
Public Guardianship Office	10	260	70	340	3.9	19.7
Tribunals Service	90	1,610	1,270	2,960	3.0	42.7
Scotland Office	0	50	20	70	0.0	32.4
Wales Office	n/a	50	10	60	n/a	17.2

Table 3 reflects the total permanent staff and number of disabled staff currently employed by the Ministry of Justice excluding its Agencies as at 30 June 2007.

Table 3

MOJ department	Total staff (headcount)	Disabled staff (headcount)	Percentage of disabled
Ministry of Justice (excluding Agencies)	2,139	97	6.14
Office for Criminal Justice Reform	247	6	3.40
National Offender Management Service	1,425	16	1.97
Corporate Services[1]	250	250	[2]
Total[3]	3,811	119	3.83

[1] An estimate for the staff transferring from the Home Office to the MOJ HQ corporate services is provided, as the exact figure of staff is not yet confirmed.
[2] Estimate.
[3] An average percentage of the total number of declared responses is provided excluding the estimate for corporate services.

Table 4 reflects the total permanent staff and number of disabled staff currently employed by the Ministry of Justice Agencies as at 30 June 2007.

Table 4

MOJ department	Total staff (headcount)	Disabled staff (headcount)	Percentage of disabled
HM Prisons Service	50,092	1,614	6.04
HM Courts Service	21,129	582	3.48
Public Guardianship Office	337	12	4.90
Tribunals Service	2,938	85	5.26
Scotland Office and Office of Advocate General	82	*	—
Wales Office	52	*	—
Land Registry	8,324	519	6.2
National Archives	591	30	5.08
Northern Ireland Court Service	748	32	5.85
Total[1]	84,293	2,874	5.25

[1] An average percentage of the total number of declared responses is provided excluding the Scotland Office and Office of Advocate General and Wales Offices. An asterisk (*) denotes a number below five (not added into total). Code of Practice does not follow figures to be published that would identify individuals. Where numbers are suppressed the percentages are not shown and are indicated by a dash (—).

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on flowers in the last 12 months. [153030]

Bridget Prentice: It is not possible to list the costs spent on flowers by the Department in the last 12 months as the expenditure is not separately identifiable within the Department's accounts and may be provided only at disproportionate cost.

Departments: Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Justice what the name is of each special adviser in his Department. [153027]

Bridget Prentice: The names of the Secretary of State's special advisers are Mark Davies and Declan McHugh. My right hon. Friend the Prime Minister will announce this information along with the pay band of each special adviser and the total pay bill cost of special advisers for the previous financial year in his annual written ministerial statement shortly.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on newspapers and magazines in the last 12 months. [153033]

Mr. Wills: My Department spent approximately £15,000 on subscriptions for newspapers and magazines in the last 12 months. This figure includes central purchases for courts, tribunals and offices. Costs of newspapers and magazines taken by the National Offender Management Service and the Office for Criminal Justice Reform are not included as they have yet to be transferred from the Home Office. Costs of subscriptions held locally by courts, tribunals and other business areas for which my Department is responsible can be compiled only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Justice to which periodicals his Department subscribes. [153034]

Mr. Wills: My Department holds subscriptions for the periodicals in the following list. Periodicals taken by the National Offender Management Service and the Office for Criminal Justice Reform are not included as the subscriptions have yet to be transferred from the Home Office. Details of subscriptions held locally by courts, tribunals and other business areas for which my Department is responsible, could be compiled only at disproportionate cost.

Departments: Railways

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on first class train tickets in the last 12 months. [153032]

Bridget Prentice: It is not possible to list the costs spent on first class train tickets by the Department in the last 12 months as the expenditure is not separately identifiable within the Department's accounts and may be provided only at a disproportionate cost.

All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Library of the House for the reference of Members. All official travel by civil servants is undertaken in accordance with the requirements of the "Civil Service Management Code", a copy of which is also available in the Library of the House for the reference of Members.

Departments: Redundancy

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on redundancy payments in the last 12 months. [153038]

Bridget Prentice: Since its creation on 9 May 2007, the cost of redundancies (including voluntary redundancies) of staff leaving the Ministry of Justice (MoJ) has been £2,283,840[1]. Prior to the MoJ, the Department for Constitutional Affairs was responsible for such costs. For the period 1 July 2006 to 8 May 2007 redundancy payments totalled £7,471,574.

This relates to 97 departures during this 12-month period, mainly resulting from a restructuring exercise undertaken in Her Majesty's Court Service aimed at streamlining the organisation and reducing management overheads. Wherever restructuring could not be achieved through natural wastage, particularly in the more senior grades, volunteers for early departure were sought to avoid the need for compulsory redundancies.

[1] This figure is for the period 9 May to 30 June 2007

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on taxis in the last 12 months. [153029]

Bridget Prentice: It is not possible to list the costs spent on taxis by the Department in the last 12 months as the expenditure is not separately identifiable within the Department's accounts and may be provided only at disproportionate cost.

All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Library of the House for the reference of Members. All official travel by civil servants is undertaken in accordance with the requirements of the "Civil Service Management Code", a copy of which is also available in the Library of the House for the reference of Members.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on *(a)* staff and *(b)* communication training in the last 12 months. [153036]

Bridget Prentice: The information requested is not held centrally and could be provided only by identifying individual staff training records for those staff that transferred from the Home Office prior to the creation of the Ministry of Justice on 9 May 2007 and would incur disproportionate cost.

During the financial year 2006-07, my former Department, the Department for Constitutional Affairs spent £2,192,701 on staff training which included communication training.

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on staff away days in the last 12 months. [153037]

Bridget Prentice: The responsibility for arranging staff away days in the Ministry of Justice is for each individual directorate and the costs are met from local budgets. Therefore, the information is not held centrally and could be provided only at disproportionate cost.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Justice how much was spent by his Department on cases at industrial tribunals in the last 12 months. [153035]

Bridget Prentice: The information is not held centrally and could be provided only at disproportionate cost as costs would need to be obtained from a number of sources, including various internal costs along with Treasury Solicitor costs.

Kennet Prison

Mr. Garnier: To ask the Secretary of State for Justice how many of HM Prison Kennet's places are occupied by prisoners. [153479]

Bridget Prentice: As at 24 August 2007, 136 prisoners were held at HM Prison Kennet. The final operational capacity will be 347.

Legal Aid

Mr. Spellar: To ask the Secretary of State for Justice how much was paid in legal aid to Arani and Co solicitors in each of the last five years. [153622]

Bridget Prentice: The following table shows the gross amounts paid to the solicitor firm Arani and Co during each of the last five financial years for legal aid, as recorded centrally.

Financial year	*Legal aid (£)*
2002-03	225,000
2003-04	390,600
2004-05	295,000
2005-06	664,000
2006-07	770,000

The figures in the table are gross figures. They are inclusive of VAT at 17.5 per cent. and also disbursements where paid. The firm must pay the VAT to HM Revenue and Customs.

The total sum of payments received by a firm for legal aid work during any one year does not necessarily represent the value of the work carried out during that year. In particular, they are likely to include payments for work carried out in previous years.

Not all legal aid payments are recorded centrally in a way that can be readily attributed to individual solicitor firms. Also, not all payments made to solicitor firms are recorded in the database used to compile these figures. These include manual legal aid payments and payments made for proceedings in the Court of Appeal, Criminal Division and House of Lords.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Justice (1) when he expects to answer the letter to him dated 9 July from the right hon. Member for Manchester, Gorton with regard to Ben Taylor, Glaisyers Solicitors; [154980]

(2) when he expects to answer the letter to him dated 12 July from the right hon. Member for Manchester, Gorton with regard to Mrs. K. Kerry. [155065]

Mr. Wills: My right hon. Friend the Secretary of State for Justice and Lord Chancellor replied to the right hon. Member on 6 September 2007. I apologise for the unacceptable delay.

National Offender Management Information System

Nick Herbert: To ask the Secretary of State for Justice whether it remains Government policy that the main C-NOMIS base release, encompassing full prison and probation functionality, will be available no later than July 2008. [155008]

Mr. Hanson: Following consideration by the National Offender Management Service Board a decision has been made to conduct a rapid review of

the NOMIS programme. This review will consider the affordability of the overall programme and will report to Ministers in the autumn with recommendations for a revised programme.

Nick Herbert: To ask the Secretary of State for Justice when the National Offender Management Service first advised Ministers that a review of C-NOMIS was necessary. [155010]

Mr. Hanson: I was informed of the recommendations of the NOMS Board on 31 July. On receipt of that advice I requested additional information which was provided and discussed by me with a senior official on 3 August. At that meeting I agreed the review to consider the affordability of the NOMIS programme and commissioned an audit of decision making from inception to date.

Nick Herbert: To ask the Secretary of State for Justice what compensation or penalty payments will be due from firms involved in the C-NOMIS project should the project be scaled back. [155012]

Mr. Hanson: No compensation or penalty payments are being discussed.

Mr. Garnier: To ask the Secretary of State for Justice how much his Department has spent on commissioning and procuring the C-NOMIS IT system; how much of that total sum has been spent *(a)* on outside agencies and consultants and *(b)* internally within the Department, broken down by the internal divisions, agencies and services within the Department, including the Prison Service, the Probation Service and the National Offender Management Service, that spent the money; and when C-NOMIS will be operational within (i) the Prison Service and (ii) the Probation Service. [155095]

Mr. Hanson: The total NOMS expenditure of £155 million to date can be split approximately 85 per cent. contractors, suppliers and consultants, with the remainder split across in-house civil service expenditure.

Following consideration by the National Offender Management Service Board a decision has been made to conduct a rapid review of the NOMIS programme. This review will consider the affordability of the overall programme and will report to Ministers in the autumn with recommendations for a revised programme. Decisions about the project including timescales will be made once this is considered.

National Offender Management Information System: Consultants

Nick Herbert: To ask the Secretary of State for Justice which consultants were engaged to advise on the C-NOMIS project; and what the total committed cost of such consultants is to date. [155011]

Mr. Hanson: In answering this I include the costs for consultants and contractors. The contract to develop the C-NOMIS system is held by Electronic Data Systems (EDS). Other contractors involved include Syscon, Steria, Sungard, and Business Objects. Consultants who have advised on the project in the last year are PA Consulting, Gartners, Ernst and Young, and the internal governmental organisation, OGC. In addition Deloitte has given support to NOMS internal audit. The total expenditure of £155 million to date can be split approximately 85 per cent. contractors, suppliers and consultants, with the remainder split across in-house civil service expenditure

National Offender Management Information System: Finance

Nick Herbert: To ask the Secretary of State for Justice how much public money has been *(a)* committed and *(b)* expended on the C-NOMIS project. [155009]

Mr. Hanson: The original business case for the system was based on lifetime costs to March 2020 of £234 million and expenditure to the end of July 2007 was £155 million. I have instituted a moratorium on further development work while the review of the NOMIS programme is underway.

National Probation Service

Peter Bottomley: To ask the Secretary of State for Justice how the tiered modalities of the National Probation Service (punish, help, change and control) include the previous core activities to advise, assist and befriend. [154965]

Mr. Hanson: The statutory requirement to "advise, assist and befriend" was deleted from the relevant legislation when the Probation Order became the Community Rehabilitation Order under the 1991 Criminal Justice Act. To advise, to assist and to befriend are all inputs in probation work with offenders. In common with most of the public sector, the probation service has been more focused in recent years upon the outcomes of its efforts rather than the inputs.

The Criminal Justice Act 2003 (s 142) sets down five purposes of sentencing. Offender Managers—Probation Officers and Probation Service Officers—are charged with implementing sentences of the court in order to achieve the purpose or purposes defined by the court for any individual sentence passed. The Offender Management Model, which has been implemented for all offenders on community sentences and around 14 per cent. of offenders in custody, sets out the NOMS end-to-end case management approach. Within this approach, Offender Managers will select one of the four broad options for which the one-word labels—PUNISH, HELP, CHANGE and CONTROL—are a "shorthand".

The Offender Management Model itself describes what these labels mean in more detail. The terms PUNISH, HELP, CHANGE and CONTROL map well against the five purposes of sentencing set out in the Act. They each attract different workload allowances for the Offender Manager. The Offender Management Model describes a case management approach with a sound working relationship between an Offender Manager and an offender at its core. Advising, assisting and befriending are approaches an Offender Manager might use in that relationship,

depending on the needs and learning style in each case, in order to achieve the outcomes sought from the sentence, but advising, assisting and befriending are no longer viewed as the objectives of probation work.

Prison Officers Association: Trade Unions

Mr. Bellingham: To ask the Secretary of State for Justice how many members of the Prison Officers' Association national committee were promoted while holding trade union office in each of the last three years; who was responsible for authorising their promotion in each case; and if he will make a statement. [153678]

Bridget Prentice: No members of the POA National Executive Committee have been promoted while holding trade union office in the last three financial years.

Prison Sentences

Mr. Garnier: To ask the Secretary of State for Justice how many offenders were *(a)* sentenced to serve custodial sentences and *(b)* released from prison (i) in each of the last 10 years for which figures are available, (ii) in each week in *(A)* 2006 and *(B)* 2007 and (iii) on each day in 2006. [153480]

Mr. Wills: Information on the numbers of prisoners received into all prison establishments in England and Wales between 1996 and 2005 can be found in the following table:

Receptions 1997-2006 prison establishments England and Wales

	Receptions under immediate custodial sentence[1]
1997	80,832
1998	85,908
1999	90,238
2000	91,195
2001	90,523
2002	93,615
2003	92,245
2004	93,326
2005	90,414
2006	87,996

[1] Total sentenced receptions, excluding fine defaulters (taken from table 7.2 of the Offender Management Caseload Statistics) Figures 1997-2005 have been published in Offender Management Caseload Statistics; 2006 figure is soon to be published

For each week in 2006, the number of sentenced receptions ranges between 1,200 and 1,900. The average number of sentenced receptions per day in 2006 was around 300. For each week in 2007 between January and July, the number of sentenced receptions ranges between 1,300 and 1,900.

There are quality problems with the data on sentenced prisoners finally released from prison which mean that we do not have a consistent series to compare with receptions. We expect to have reliable data for 2007 in early 2008. In general, weekly discharges were around 1,400 to 2,400 in 2006 and 1,200 to 2,000 between January and July 2007.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prison Service: Manpower

Mr. Bone: To ask the Secretary of State for Justice how many prison officers there were in the UK in each year since 1996; and how many are currently in post. [154881]

Mr. Hanson: The available information provided in the table relates to prisons in England and Wales. Information about prisons in Scotland and Northern Ireland is the responsibility of the Scottish Executive and Northern Ireland Office respectively.

Officer grade staff in public sector Prison Service and Contracted Prisons in England and Wales[1,2,3,4]

As at 31 March	*Officers*
1996[5]	24,593
1997	23,058
1998	23,602
1999	24,113
2000	24,346
2001[5]	24,023
2002[5]	23,681
2003	24,527
2004[5]	25,461
2005[5]	26,246
2006	26,747
2007	27,053
31 July 2007[6]	27,222

[1] Figures include both publicly and privately managed prison establishments but not secure training centres.
[2] Figures are provided on a headcount basis, i.e. a part-time officer counts as one.
[3] Figures relate to prison officers, senior officers and principal officers within the public sector Prison Service and prison custody officers within contracted prisons.
[4] Officers employed within public sector Prison Service Headquarters are included.
[5] Data for private sector prisons are not available for 1996 and incomplete for 2001, 2002, 2004 and 2005.
[6] Data are not available for private sector prisons. The total as at 31 March 2007 has been used as a best estimate of the figure as at 31 July 2007.

Prison Service: Pay

Mr. Bone: To ask the Secretary of State for Justice what the starting salary of a prison officer was in 1997 in *(a)* monetary and *(b)* real terms; and what the starting salary of prison officers was as at 1 September. [155000]

Mr. Hanson: Prison officer starting salary was £14,791 in 1997 and £17,744 on 1 September 2007. A new entrant prison officer on starting salary in 1997 will have received increases in the period 1997 to 1 November 2007 to take them to £27,530, an increase of 86.1 per cent. in monetary terms and 58.6 per cent. in real terms.

Prison Service: Public Appointments

Mr. Bellingham: To ask the Secretary of State for Justice whether there has been a race impact assessment of the HM Prison Service policy on managed appointments; and if he will make a statement. [153658]

Bridget Prentice: No impact assessment on the HM Prison Service managed appointments policy has been undertaken. The list of the functions and policies considered to be relevant to the general statutory duty to promote race equality is kept under regular review, and the latest programme of areas for impact assessment is reflected in the Prison Service Associate Race Equality Scheme Annual Report.

Prisoner Release: Young People

Bob Spink: To ask the Secretary of State for Justice how many juvenile criminals *(a)* asked for and *(b)* received help to resettle on release from imprisonment in each of the last five years. [154910]

Mr. Hanson: The Ministry of Justice and the Youth Justice Board do not hold the exact information requested but figures are available on the number of young people released from custody as part of the Detention and Training Order (DTO). This has been the main custodial sentence for young people since April 2001 and will make up the majority of young people released from imprisonment. The DTO has been designed so that half of the sentence is served in custody and the other half under supervision in the community. The aim of the DTO is to provide a clear focus on planned and constructive use of time spent in custody and effective supervision and support after release. This includes a strong emphasis on training and rehabilitation throughout.

The number of young people on a Detention and Training Order released to the community from custody is available for the last four financial years. These are as follows:

	Number
2003-04	5,151
2004-05	5,245
2005-06	5,574
2006-07	5,544

All of these young people will have received rehabilitative programmes that will assist in their resettlement back into the community.

Prisoners

Mr. Garnier: To ask the Secretary of State for Justice how many new prison places have *(a)* been made available and *(b)* been put out of use since 21 July 2006; and in which prisons these places were located. [153478]

Bridget Prentice: From 1 August 2006 to 31 July 2007, a total of 2,537 places were made available and 1,053 places were taken out of use at the following prisons in England and Wales:

Albany
Altcourse
Ashfield
Bedford
Belmarsh
Blundeston
Brockhill
Camp Hill

Mr. Bone: To ask the Secretary of State for Justice what the average number of people sent to prison was in each year since 1996. [154882]

Mr. Hanson: The following table shows the total number of first receptions into prison establishments in England and Wales in each year from 1996-2005.

	Number
1996	119,009
1997	124,168
1998	130,962
1999	134,316
2000	128,866
2001	130,934
2002	135,820
2003	135,042
2004	132,961
2005	132,058

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Rehabilitation

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners, sentenced to indeterminate sentences for public protection, are accommodated in prisons which do not run the rehabilitative programmes such prisoners are required to complete before they can be considered for release. [154933]

Mr. Hanson: A review undertaken in August 2007 indicated that approximately 120 prisoners serving indeterminate sentences for public protection (IPPs) were in prisons which do not provide accredited offending behaviour or drug treatment programmes. This equated to approximately 4 per cent. of the IPP population and includes those newly sentenced and waiting allocation. The situation will of course change daily as prisoners move. Whether an individual requires a programme, and if so, which programme, will depend upon the assessment of their risk and needs. Not all prisons provide the same programmes.

Re-offenders

Greg Clark: To ask the Secretary of State for Justice what the two-year reconviction rates were in each year since 1995 in *(a)* England and Wales, *(b)* South East England and *(c)* Kent. [154915]

Mr. Wills: The table shows the available figures for the two year re-offending rate for adult offenders in England and Wales in the first quarter of each year. It shows the proportion of these offenders who committed a proven offence within two years of their release from prison or the commencement of a community sentence.

	Two year re-offending rate (percentage)
2000	57.6
2002	58.5
2003	57.6
2004	55.5

Figures for earlier years are not comparable with these data. Further information is available in the most recent Statistical Bulletin on adult re-offending which can be found at the following addresses:

http://www.homeoffice.gov.uk/rds/pdfs07/hosb0607.pdf

No data are available at regional or county level.

Young Offenders: Custodial Treatment

Mr. Malins: To ask the Secretary of State for Justice how many places there are for under 18-year-olds in the prison estate; and how many such places are filled. [150914]

Mr. Hanson *[pursuant to the reply, 19 July 2007, Official Report, c. 590W]:* Unfortunately, two sets of figures in the table were inadvertently transposed. These were: the figures for places commissioned in secure training centres and places commissioned in secure children's homes; and those for places occupied in those establishments.

The corrected table is as follows:

Places commissioned, available and occupied in the secure estate for children and young people, 17 July 2007

	Young offender institutions	*Secure training centres*	*Secure children's homes*
Places commissioned	2,979	277	235
Places declared unavailable	72	0	0
Places available	2,907	277	235
Occupancy	[1]2,791	261	228

[1] Includes 356 over-18 year olds

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Drugs

John Mann: To ask the Secretary of State for Foreign and Commonwealth Affairs what technical methodologies were used in compiling the 2007 UN report on heroin production in Afghanistan. [155116]

Meg Munn: The United Nations Office on Drugs and Crime (UNODC) has not yet released the full Afghanistan Opium Survey for 2007 which will contain details of the methodology used. However, we believe this year's opium survey used similar methodology to that used in the 2006 survey. This is described in detail in the 2006 Opium Survey available at:

http://www.unodc.org/pdf/research/AFG05%20_full_web_2006.pdf.

The UNODC calculated opium poppy cultivation by use of a sampling approach that combined interpretation of satellite imagery with field surveys on the ground. In order to estimate opium yield per hectare, the UNODC measured both the size of opium capsules and the density of cultivation.

The 2006 Opium Survey stated that the extent of heroin production is more difficult to establish, as opium in Afghanistan is primarily exported to foreign markets, where it is subsequently processed into heroin. Additionally, heroin laboratories, by their nature, are clandestine.

Cambodia: Politics and Government

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what support the *(a)* UK, *(b)* EU and *(c)* UN has pledged to aid the bringing to trial of those involved in the Khmer Rouge in Cambodia; and when he expects talks on procedural issues to be resolved. [143224]

Meg Munn: *[pursuant to the reply, 18 June 2007, Official Report, c. 1473W]:* I regret that an inaccurate answer was given by my right hon. Friend the Member for Makerfield (Mr. McCartney) the then Minister of State, Foreign and Commonwealth Office and Department of Trade and Industry to part of the hon. Member's question. The answer given states that the UK has contributed £1.5 million to the Extraordinary Chambers in the Courts of Cambodia. In fact, to date, £1 million has been contributed. Further payments will be made this year.

Coalition Information Centre

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* history and *(b)* role of the Coalition Information Centre. [155112]

Meg Munn: I refer the hon. Member to the reply given by my hon. Friend the Member for Harlow (Bill Rammell) then Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs to my hon. Friend the Member for Nottingham, North (Mr. Allen) on 9 July 2003, *Official Report*, columns 816-817W.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will place in the Library all documents *(a)* sent to and *(b)* sent from the Coalition Information Centre between August 2002 and September 2002 on (i) the preparation and (ii) the drafting of the September 2002 Iraq dossier; [155113]

(2) if he will make a statement on the role of the Coalition Information Centre in *(a)* the preparation and *(b)* the drafting of the September 2002 Iraq dossier (i) prior to 9 September 2002 and (ii) since 9 September 2002. [155115]

Dr. Howells: The circumstances surrounding the drafting of the Government document 'Iraq's Weapons of Mass Destruction—the Assessment of the British Government', published on 24 September 2002, were set out extensively in the evidence to the inquiry by Lord Hutton published on 28 January 2004. During his inquiry, Lord Hutton had access to all documents he wished to see.

I explained the position further in response to the hon. Member's questions on this issue during the recent debate in Westminster Hall on 13 June, *Official Report*, columns 293-296 WH.

Departments: Location

Mr. Fallon: To ask the Secretary of State for Foreign and Commonwealth Affairs whom he has consulted on the proposed move of the FCO Legalisation Office; and what effect he anticipates such a move will have on the costs applied to users. [155048]

Meg Munn: A final decision has yet to be taken on the relocation of the Legalisation Office. Officials from the Foreign and Commonwealth Office (FCO) met with a large group of around 40 representatives from a cross-section of the Legalisation Office's customers in the FCO on 3 July. The background and reasons why the Legalisation Office needed to be moved from its current location were discussed in great detail. An option of moving the Legalisation Office to Milton Keynes was raised and attendees at the meeting were given the opportunity to comment on the proposal. As a result of the views expressed at this meeting, the record of which has been shared with those in attendance and others, and subsequent smaller meetings with other interested parties, such as the Confederation of British Industry, further consideration is being given to the available options.

Until a decision on where the Legalisation Office will be based has been taken, the costs to users cannot be determined. However, any new fees would be in accordance with HM Treasury guidelines.

Departments: Recruitment

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people have been appointed to his Department outside Civil Service grades in the last 30 days. [153041]

Meg Munn: The Foreign and Commonwealth Office (FCO) does not hold central records of staff recruited outside the civil service grades on short-term contracts for particular projects. To collate this information would incur disproportionate cost.

The FCO publishes information annually on appointments to the public bodies for which it is responsible. Data for 2006-07 were published on 9 May in the FCO departmental report.

Departments: Temporary Accommodation

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of his Department's staff posted overseas are *(a)* living in temporary accommodation and *(b)* living in tents in each country. [154903]

Meg Munn: Foreign and Commonwealth Office staff are sometimes required to live in temporary or special accommodation in exceptional circumstances. At present in Iraq and Afghanistan we have 36 staff in accommodation based on factory-converted freight containers, and 28 staff in small, hardened concrete, accommodation units. It is expected these will remain

in use for the foreseeable future. We also have one officer currently living in a tent within a UN compound in Juba, Sudan. Our embassy in Khartoum is actively seeking secure permanent accommodation for this officer.

Ethiopia: Human Rights

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on alleged on-going human rights abuses in Ethiopia. [154825]

Meg Munn: The Government treat with concern any allegations of human rights abuses, wherever they occur.

We closely monitor the human rights situation in Ethiopia, in consultation with our international partners. The UK raises its concerns on human rights with the Ethiopian Government at regular opportunities, including at senior levels. We shall continue to do so.

Most recently, our Ambassador in Addis Ababa raised concerns about the human rights situation in the Ogaden region of Ethiopia with Ethiopian Ministers during August. My noble Friend the Minister with responsibility for Africa, Asia and the UN, Lord Malloch-Brown, has also raised concerns about the human rights situation in Ethiopia with the Speaker of the Ethiopian Parliament, when he visited the UK in July, and, during August, with the Ethiopian Ambassador to the UK.

In the Ogaden region of Ethiopia, we understand that a UN assessment team will provide an appraisal of the current situation there after visiting the region. We look forward to this assessment.

The Government welcome the pardoning of the political opposition leaders in Ethiopia who were recently convicted of serious crimes. This move should help create the conditions for improved political dialogue in Ethiopia, including the human rights situation.

European Constitution Treaty

Mr. Evennett: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on the decision by the Government not to hold a referendum on the EU Treaty; and if he will make a statement. [154829]

Mr. Jim Murphy: The Treaty establishing a Constitution for Europe, on which the Government proposed a referendum is now defunct. The mandate for a Reform Treaty agreed by the European Council states clearly:

"The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called "Constitution", is abandoned."

The subject of a referendum on the proposed Reform Treaty has been discussed on many occasions, including in parliamentary debates, questions and evidence sessions. The UK's only ever national referendum was on European Economic Community membership in 1975. The Reform Treaty will be an amending Treaty in the tradition of Maastricht, Amsterdam and Nice, none of which were subject to a referendum in this country.

Mr. Francois: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether declarations attached to the draft EU Constitution are legally binding on EU institutions; [154957]

(2) whether the UK will be seeking any alterations to the draft EU Constitution in the course of the inter-governmental conference; [154958]

(3) whether the Government has sought advice from the European Court of Justice (ECJ) as to the justiciability of the draft EU Constitution by the ECJ; [154960]

(4) if he will list all legal advice the Government has received on the draft EU Constitution. [154961]

Mr. Jim Murphy: The Treaty establishing a Constitution for Europe, on which the Government proposed a referendum is now defunct. The mandate for a Reform Treaty agreed by the European Council states clearly:

"The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called "Constitution", is abandoned."

Mr. Francois: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of the inter-governmental conference as soon as the House returns following the summer recess. [154959]

Mr. Jim Murphy: The Government are committed to keeping Parliament fully informed of the progress of the inter-governmental Conference (IGC), including during summer recess. I will give evidence to the Foreign Affairs Committee on 12 September. In a letter to the European Scrutiny Committee on 31 July my right hon. Friend the Foreign Secretary said that:

"All IGC papers which are not classified or circulated in confidence will be placed in the Libraries of both Houses and forwarded to the Committee Clerks for information. Where there is any uncertainty over a document's status we will press the Council Secretariat and Presidency for permission to share it with Parliament."

To date, all IGC papers have been circulated.

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to hold a referendum on the EU Reform Treaty. [155016]

Mr. Jim Murphy: The Treaty establishing a Constitution for Europe, on which the Government proposed a referendum is now defunct. The mandate for a Reform Treaty agreed by the European Council states clearly:

"The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called "Constitution", is abandoned."

The UK's only ever national referendum was on European Economic Community membership in 1975. The Reform Treaty will be an amending Treaty in the tradition of Maastricht, Amsterdam and Nice, none of which were subject to a referendum in this country.

Krishna Maharaj

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on developments relating to the clemency application of Krishna Maharaj; and what further steps his Department intends to take. [154976]

Meg Munn: Further to the letter sent by my right hon. Friend the Member for Makerfield then the Minister of State, Foreign and Commonwealth Office and Department of Trade and Industry of 22 May to the governor of Florida in support of Krishna Maharaj's clemency petition, our consul in Orlando attended Mr. Maharaj's clemency waiver hearing on 9 August.

The Aides to the Florida Clemency Board granted a waiver which means his clemency case could be heard by the full clemency board, including Governor Crist, as early as December. We welcome this decision and remain in close contact with Mr. Maharaj's legal team about the full consideration of his clemency plea by the Florida Clemency Board.

We continue to offer appropriate consular assistance to Mr. Maharaj and our consul in Orlando last visited him on 24 August.

Nigeria: Capital Punishment

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations on behalf of the 18 Nigerian men in the state of Bauchi charged with sodomy and who potentially face deaths by stoning. [154823]

Meg Munn: The charges of sodomy against the 18 Nigerian men in the state of Bauchi, Nigeria, have been replaced with charges of indecent behaviour and vagrancy, for which the death penalty would not be given. Our high commission in Abuja followed the trial closely and discussed the case with the accused men's defence counsel and local non-governmental organisations, whose view was that making representations might be counter productive now that the charges had been reduced. Consequently no representations were made but we shall continue to monitor the case.

Occupied Territories

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last made representations to the Israeli government on the building of settlements on the West Bank. [154838]

Meg Munn: The UK continues to make clear that settlements are illegal under international law and settlement construction is an obstacle to peace. The Roadmap makes clear that Israel should freeze all settlement construction including the "natural growth" of existing settlements, and dismantle all outposts built since 2001. My right hon. Friend the Foreign Secretary is in regular contact with his Israeli interlocutors on a number of issues concerned with advancing the Middle East Peace Process. My right hon. Friend the Foreign Secretary, together with his EU counterparts, expressed concern at the continued settlement activity in the EU General Affairs and External Relations Council conclusions on 23 July.

Our ambassador in Tel Aviv raised our concerns about Israeli settlement activity with the Israeli Ministry of Foreign Affairs on 28 August.

Pakistan: Blasphemy

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what further representations has he made in the case of Younis Masih who was sentenced to death in Pakistan for blasphemy. [154824]

Meg Munn: Together with our EU partners, we most recently raised our concerns over the number of blasphemy cases and convictions—including the case of Younis Masih—with the Government of Pakistan in late June 2007. We also expressed our hope that the Government of Pakistan would take appropriate measures to protect effectively the rights of all minorities. The UK's opposition to the death penalty in all circumstances is well known.

Palestinians: Entry Clearances

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reason members of the Palestinian under-19 football team were refused visas to travel to the UK. [155058]

Meg Munn: The members of the Palestinian under-19 football team were refused entry clearance to the UK for the reasons stated on their refusal notices. Under the terms of the Data Protection Act 1998 UKvisas is unable to disclose details of individual applications.

In reaching these decisions the entry clearance officers (ECOs) at our consulate-general in Jerusalem considered the applicants' circumstances and reasons for visiting the UK. An entry clearance manager reviewed the ECOs' decisions and was satisfied that they were in accordance with the immigration rules.

Sudan: Embassies

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to acquire a suitable property for British embassy staff to live and work from in Juba. [154904]

Meg Munn: We want to upgrade the living and office accommodation of the British representation in Juba as soon as possible. Despite the difficulties of finding a suitable property in Juba, our embassy in Khartoum is actively pursuing options to secure improved accommodation.

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs following the Comprehensive Peace Agreement, if he will *(a)* create a consulate general and *(b)* increase the numbers of British embassy staff in Juba, southern Sudan. [155041]

Meg Munn: We have no plans to establish a consulate in Juba, but we are currently reassessing our representational needs in southern Sudan and will keep the level of staffing and the status of our representation there under review.

Yuan Weijing

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Chinese government over the detention of the Chinese justice campaigner, Yuan Weijing. [154906]

Meg Munn: My noble Friend the Minister with responsibility for Africa, Asia and the UN, Lord Malloch-Brown, raised immediate concern for the well-being of Yuan Weijing when he met Chinese Vice Foreign Minister Zhang Yesui during his visit to Beijing on 28-30 August. We continue to monitor this case.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Advisory Conciliation and Arbitration Service

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 18 July 2007, *Official Report*, column 357W, what the reasons are for the reduction in funding for the Advisory, Conciliation and Arbitration Service in recent years. [152221]

Mr. Timms: BERR provided the level of funding required for ACAS to achieve its objectives. The annual budget was supplemented by Investment Funding of £15.2 million for efficiency savings for the three years from 2005-06 and Capital Funding of £1.2 million for 2005-06, £1.0 million for 2006-07, and £1.0 million for 2007-08.

David Maclean: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department plans to take to offset the loss of trade for independent human resources advisers if the Advisory, Conciliation and Arbitration Service is enlarged to provide free dispute resolution services to small and medium-sized enterprises as outlined in the Success at Work consultation document; and if he will make a statement. [153439]

Mr. Timms: At present ACAS has a statutory duty in certain circumstances to provide conciliation services for employment disputes before they become tribunal claims. The Government have recently consulted on whether ACAS should be given more capacity to provide such services. The Government will publish its response to the consultation in the autumn. That response will take into account the potential impact on independent advisers of any expansion of ACAS's activity in this area.

Bank Services: Fees and Charges

Andrew George: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he plans *(a)* to regulate and *(b)* to assess the viability of the regulation of penalty bank charges by legislative means. [152904]

Mr. Timms *[holding answer 26 July 2007]:* The OFT is already investigating the fairness of charges on current accounts under the Unfair Terms in Consumer Contracts Regulations, and is also carrying out a market study into current account pricing. The Government have no plans at present to introduce further regulation given the current OFT work. It will be for the OFT to take or recommend any action in the light of its findings.

Chemicals: Health Hazards

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has *(a)* commissioned and *(b)* evaluated on the presence of harmful chemicals in household items; and if he will make a statement. [151746]

Mr. Thomas: The Department has not commissioned or evaluated any specific research on the presence of harmful chemicals in household items.

The safety of products containing chemicals is governed by the Chemicals (Hazard Information and Packaging for Supply) Regulations 2002, which is administered by the Health and Safety Executive. These regulations require that manufacturers identify the dangers of products containing chemicals and package them safely. If hazardous, the product must be labelled with warning symbols indicating the dangers and with phrases explaining the dangers and how to use the product safely.

The Department administers the General Product Safety Regulations 2005, which implement the EC general product safety directive (2001/95/EC). These regulations apply to all consumer products that are not covered (and to the same extent) by specific safety legislation. The regulations require that manufacturers ensure that products present the minimum risk compatible with the product's use and that they are accompanied by appropriate warnings and instructions for use.

Chemicals: Regulation

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has to introduce legislation to control the use of chemicals in household products; and if he will make a statement. [153748]

Mr. Thomas: The safety of household products containing chemicals is governed by the Chemicals (Hazard Information and Packaging for Supply) Regulations 2002, which is administered by the Health and Safety Executive. These regulations require that manufacturers identify the dangers of products containing chemicals, classify them under an EC-wide classification system and package them safely. If the product contains hazardous chemicals it must be labelled with the appropriate warning symbols indicating the hazards and with phrases explaining the dangers and how to use the product safely.

In those cases where correct labelling and packaging of products is insufficient to reduce the risks adequately, restrictions on the marketing and use of dangerous chemicals used in household products are

introduced under European Directive 76/769/EEC and its amendments. The Department has put in place legislation implementing a number of these directives which has had the effect of restricting or prohibiting the marketing and use of approximately 1,000 chemicals, or groups of chemicals, in household products.

The Department also administers the General Product Safety Regulations 2005, which implement the EC General Product Safety Directive (2001/95/EC). These regulations apply to all consumer products that are not covered (and to the same extent) by specific safety legislation. The regulations require that manufacturers ensure that products present the minimum risk compatible with the product's use and that they are accompanied by appropriate warnings and instructions for use.

Conditions of Employment

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which elements of the 2004 Warwick Agreement have been implemented by the Government. [153527]

Mr. McFadden: The final report of Labour's National Policy Forum in July 2004 formed part of the May 2005 general election manifesto. The Government remain committed to fulfilling their manifesto over the course of this Parliament.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151935]

Mr. Thomas: I am unable to answer the question in respect of the Department's HQ Estate as the information is not held in an easily retrievable format and could be obtained only at disproportionate cost.

The agencies spent £3,700 on hiring mobile air conditioning units in 2006, but nothing in the four previous years

Departments: Catering

Mr. Roger Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of *(a)* beef, *(b)* sheep meat, *(c)* pork and *(d)* dairy products used in his Department in the most recent period for which figures are available were imported products. [150795]

Mr. Thomas: The information requested is as follows:

	Imported (percentage)
Meat and poultry	
Poultry meat	0
Beef and veal	0
Mutton and lamb	0
Pork	0
Diary	
Whole eggs (i.e. in shells)	0
Fresh milk (e.g. whole, semi skimmed, skimmed)	0
Cheese	5

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department on flowers in the last 12 months. [153131]

Mr. Thomas: The Department has spent £675 on flowers in the last 12 months.

Departments: Industrial Disputes

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department's employment dispute resolution procedures involve a mediation stage. [150861]

Mr. McFadden: The Department's employment dispute resolution procedures involve a voluntary mediation stage.

Departments: Information Officers

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many press officers are employed by his Department. [153135]

Mr. Thomas: 12 press officers are employed by the Department for Business, Enterprise and Regulatory Reform and two press officers are employed by UK Trade and Investment.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what legislative provisions introduced by his Department's predecessor since 1997 have not yet been brought into force. [149562]

Mr. Thomas: The information is in the following table:

Act	*Provisions not yet in force*
Competition Act 1998	Section 1(a)
Employment Rights (Dispute Resolution) Act 1998	Section 4
Petroleum Act 1998	Schedule 4 paras 8, 10, 11, 13, 34 and 40
Employment Relations Act 1999	Schedule 7, para 4(6)
	Schedule 9, Parts 1 and 8

Act	*Provisions not yet in force*
Electronic Communications Act 2000	Sections 1 to 6
Postal Services Act 2000	Schedule 9 of section 80 of the Post Office Act 1969 in so far as it extends to the Bailiwick of Guernsey
Utilities Act 2000	Section 20(7)
	Section 75
Employment Act 2002	Section 28(4)
	Section 30(1),(2) and (4)
	Section 44
Communications Act 2003	Sections 272 to 274
	Section 299(1)
	Sections 299(3) and 299(4)
	Section 300
	Section 401
	Section 409
	Schedule 6 (which has been repealed)
	Schedule 12, paras 5 and 6
	Schedule 17, para 133(2)
Energy Act 2004	Section 89 (for the purposes of defining "relevant place" (other than where that term is used in section 93), "generate", "system" and "premises" in the Electricity Act 1989)
	Sections 90 to 92
	Section 139
	Section 140(1)
	Section 180
	Schedule 23, Part 2, para 1, 3
Consumer Credit Act 2006	Section 5(1) to (4), (7) and (10)
	Section 3 for remaining purposes
	Section 4 for remaining purposes
	Section 23
	Section 26
	Section 27
	Section 28 for remaining purposes
	Sections 29 to 33
	Section 34
	Section 35 for remaining purposes
	Section 36 for remaining purposes
	Sections 37 to 58
	Section 62
	Section 64
	Section 69(1) insofar as it relates to paras 18 to 28 of Schedule 3
	Section 70 for remaining purposes
	Schedule 1, paras 1 to 10 and 12 to 16
	Schedule 3, paras 18, 19, 20, 21, 22, 23, 24, 25 and 26 to 28
	Schedule 4 for remaining purposes
Work and Families Act 2006	Sections 3 to 10
	Section 11(2) and (3)
	Schedule 1
	Paras 1 to 5, 10 to 15, 16(2), 17 to 20, 22, 24 to 30, 35 to 61
Companies Act 2006	Some of the provisions of the Companies Act 2006 are already in force but the majority are not. Each of the provisions remaining to be brought into force is scheduled to be brought into force on one of the following dates: 1 October 2007, 6 April 2008 or 1 October 2008.
Consumers, Estate Agents and Redress Act 2007	Whole Act except sections 60 to 62 and 65 to 67.

Mr. Clegg: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what legislative provisions introduced by his Department's predecessors since 1997 have been repealed. [149563]

Mr. Thomas: The information is as follows:

Act	*Provisions repealed*
Competition Act 1998	Section 4
	Section 5
	Section 7
	Sections 12 to 16
	Section 17
	Section 20 to 24
	Section 32(2)
	Section 33(2)
	Section 41
	Section 48
	Section 53
	Section 55
	Section 56
	Sections 66 to 70
	Section 73(7)
	Schedule 1 paras 3 and 6
	Schedule 2
	Schedule 3 para 2
	Schedules 4 to 6
	Schedule 7 para 2(1)(a), (3)(a) and (4), 4, 6(5),7(4) and 10
	Schedule 8 paras 1, 4 and Part II
	Schedule 9 paras 2 to 4, 6 to 7,
	Schedule 10 Part I, para 2 and Parts IV and V
	Schedule 11
Employment Rights (Dispute Resolution) Act 1998	Section 13

Act	*Provisions repealed*
	Section 14(1)
	Section 17(4)
	Schedule 1 , para 19, 21, 23 and 26
Fossil Fuel Levy Act 1998	Whole Act
National Minimum Wage Act 1998	Section 8
	Section 23
	Schedule 2
	Amendments relating to the remuneration etc of Agricultural Workers
	Part 1 :The Agricultural Wages Act
	Para 4: sub-para (1)
	Para 5, Para 6, para 7: sub-para (2)
	Part 2: The Agricultural Wages (Scotland) Act Para 15
Petroleum Act 1998	Schedule 4: paras 8, 10, 11, 13, 34, 40
	Schedule 5: the repeals of the Employment (Continental Shelf) Act 1978, of section 287(5) of the Trade Union and Labour Relations (Consolidation) Act 1 992, and of section 201(5) of the Employment Rights Act 1996
Wireless Telegraphy Act 1 998	Whole Act
Employment Relations Act 1999	Section 10(6)
	Section 17
	Section 18(5)
	Section 28(1) and (2)
	Section 33(1) and (3)(a)
	Section 37(2)
	Section 40
	Schedule 4, paras 4, 6, 7, 13, 14, 15(a), 17 to 30 31 (a) 37, 40, 41

Energy Act 2004	Section 89 (other than for the purposes of defining "relevant place" where that term is used in section 93 of the Energy Act 2004)
	Sections 90 to 92
	Section 139
	Section 140(1)
	Section 180
	Schedule 23, Part 1, the repeals in the Pipe-lines Act 1962, the Gas Act 1986, section 4(1)(b) of the Electricity Act 1989 and the Petroleum Act 1998

[1] Many of the sections repealed in the Communications Act have been reinserted into the new consolidated Wireless Telegraphy Act 2006.

Departments: Marketing

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he has received any complaints about the new name of his Department being interpreted by some computers as a database error; and if he will make a statement. [151780]

Mr. Thomas: I have received no such complaints.

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he is considering any change to the name of the Department to prevent interpretation of the name as a database error by some computers; and if he will make a statement. [151781]

Mr. Thomas: I am not considering any change of name for my Department.

Departments: Official Visits

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149060]

Mr. Thomas: £969,303 was spent on overnight accommodation for civil servants within this Department's areas of responsibilities in the last 12 months (July 2006 to June 2007). This includes both UK and overseas overnight accommodation.

These data are obtained from the Department's hotel booking agent and its travel agent. The figures will not include any accommodation bookings made outside of these arrangements as this information is not centrally captured.

Departments: Older Workers

David Simpson: To ask the Secretary of State for Trade and Industry how many people aged *(a)* over 55 years of age and *(b)* over 60 years of age have been recruited by his Department in each of the last three years; and what percentage in each case this is of the number of new recruits in each year. [145699]

Mr. Thomas: The following table provides the requested recruitment information. The data refer to external recruits to the Department and do not include transfers from other Government Departments.

	New recruits over 55 years of age		*New recruits over 60 years of age*	
	Number	*Percentage*	*Number*	*Percentage*
2004	9	6	2	1
2005	11	8	1	0.7
2006	9	7	1	0.8

Departments: Pay

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many non-pensionable bonuses were awarded to members of staff in his Department in the last three years; and at what total cost. [146979]

Mr. Thomas: The former Department of Trade and Industry awarded non-consolidated bonuses in two formats:

(a) Special bonuses to recognise performance in particularly demanding tasks or situations. Staff in receipt of a special bonus may also receive an annual performance award.

(b) Annual performance awards paid for highly successful performance as part of the annual pay award.

Based on the information available the number of staff receiving these awards in the last three years and total amount of bonuses for which this information can be provided is in the following table.

	Special bonuses		*Performance awards*			
Financial year[1]	*Number of staff receiving*[2]	*Total value (£)*	*Number of staff receiving*[2]	*Total value (£)*	*Total value (£)*	*Percentage of pay bill*
2004-05	1,261	498,592	1,274	1,563,180	2,061,772	1.18
2005-06	1,237	572,902	1,257	1,808,630	2,381,532	1.39
2006-07	919	491,669	1,286	2,532,180	3,023,849	1.81

[1] Financial year running from 1 April to 31 March.
[2] Data presented as number of staff awarded bonuses, rather than number of bonuses awarded (as stated in the question) based on the latest data available.

Note:
The special bonuses and performance awards for non-SCS staff are paid on a non-consolidated, non-pensionable basis and do not increase the Department's pay-bill costs each year. For the SCS the Senior Salaries Review Body determines the level of expenditure to cover bonuses.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150442]

Mr. Thomas: The information is tabled as follows:

Outgoing 1st/2nd Class Royal Mail Volumes from: DTI HQ Buildings

	Number
2002-03	426,301
2003-04	526,654
2004-05	341,761
2005-06	271,396
2006-07	194,831

Royal Mail Special Delivery Items

	Number
2002-03	2,117
2003-04	2,189
2004-05	1,499
2005-06	1,543
2006-07	1,911

Royal Mail International

	Number
2002-03	16,449
2003-04	10,799
2004-05	9,848
2005-06	7,393
2006-07	5,824

Royal Mail Same Day Courier Service Consignments[1]

	Number
2004-05	3,074
2005-06	2,941
2006-07	2,536

[1] Other commercial delivery services used at present are Parcelforce for UK timed next day/48-hour courier services and Lewis Day Transport for international courier services.

Parcelforce Consignments[1]

	Number
2004-05	4,636
2005-06	5,910
2006-07	4,664

[1] Figures recorded from beginning of current contracts. Prior information not available.

Lewis Day Consignments[1]

	Number
2004-05	513
2005-06	853
2006-07	824

[1] Figures recorded from beginning of current contracts. Prior information not available.

Other service providers include Government Mail and FCO Diplomatic Bag which I would not class as commercial delivery services.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department on newspapers and magazines in the last 12 months. [153128]

Mr. Thomas: The Department's expenditure on newspapers and magazines in 2006-07 was £100,115.

Departments: Publicity

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the cost-effectiveness of advertising commissioned by his Department and its predecessor in the last 12 months. [148688]

Mr. Thomas: I refer the hon. Member to the answer I gave him on 17 July 2007, *Official Report*, column 279W.

Departments: Recruitment

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will bring forward proposals to allow contractors employed by his Department to apply for internal job vacancies advertised within his Department; what recent representations he has received on this issue; and if he will make a statement. [152989]

Mr. Thomas: In common with other Government Departments, the Department for Business, Enterprise and Regulatory Reform recruits its staff within the Framework laid down by the Civil Service Order in Council 1995 and the Recruitment Code issued by the Civil Service Commissioners. This sets out the legal basis for our recruitment policies and practice. The principles and the Code are mandatory and must be followed when any post is opened to competition from outside the civil service. One of the fundamental principles of the Code sets out that external appointments must be made on merit on the basis of fair and open competition.

Any contractors in my Department who have been recruited though this method may apply, subject to relevant skills and competencies, for internally advertised job vacancies.

Mrs. May: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151667]

Mr. Thomas: It is not possible to identify from the Department's accounting system, how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. This information can be obtained only at disproportionate cost.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department on redundancy payments in the last 12 months. [153123]

Mr. Thomas: The cost of redundancies (including voluntary redundancies) of staff leaving the former DTI (now the Department for Business, Enterprise and Regulatory Reform) during the 12 months to 30 June 2007 was £16.49 million.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department on taxis in the last 12 months. [153132]

Mr. Thomas: The DTI spent £349,075 during the 12 month period 2006-07. This figure includes taxi spend in both the UK and overseas. To obtain more up to date figures would entail disproportionate cost.

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Departments: Travel

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department on first class train tickets in the last 12 months. [153129]

Mr. Thomas: The Department spent £1,264,527 on first class train tickets during the 12 month period 2006-07. To obtain more up to date figures would entail disproportionate cost.

First class rail travel entitlement is part of the terms and conditions of service for staff in senior grades within the senior civil service. However all staff are encouraged to travel standard class where appropriate and should take advantage of discounted or other cost effective travel options which may be available (e.g. special offers, day returns) wherever practical. All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department on *(a)* first class and *(b)* business flights in the last 12 months. [153130]

Mr. Thomas: The amount spent on first class and business flights for the 2006 calendar year was:

	£
(a) First Class Flights	173,035
(b) Business Class Flights	2,584,247

The figures include both UK and overseas flights.

To obtain up to date figures would entail disproportionate costs.

Domestic Appliances: Standards

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to improve international manufacturing standards, with particular reference to the energy efficiency of household appliances. [153306]

Mr. Timms: The Government are committed to working closely with industry including manufacturers, retailers and service providers to encourage them to manufacture, procure and sell more energy efficient products.

Examples of this work include the Market Transformation Programme, the Retail Environmental Sustainability Expert Group and our work with the European Commission on the development of further measures for improving Ecodesign for Energy-using Products.

In addition, the Government's Energy White Paper published on 23 May 2007 proposed a policy package to raise product standards with the potential to save up to 3MtC by 2020. The White Paper also announced proposals in consumer electronics. For example, we are aiming to reduce the stand-by power requirement of new TVs by 85 per cent. by 2015, compared to today's average.

Electronic Equipment: Exports

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* fridges, *(b)* washing machines, *(c)* cookers, *(d)* televisions, *(e)* video recorders, *(f)* computers and monitors and *(g)* other items of household electrical equipment were exported from the UK in each of the last five years; and how many items of each type of equipment were exported to each country in each year. [151933]

Mr. Thomas: Detailed information is published by HM Revenue and Customs in their Overseas Trade Statistics and at their website

www.uktradeinfo.com.

The following table shows recorded figures for the value and numbers of exports for selected standard international trade classification (SITC) codes.

	77521		*77511*		*69731 & 77586*		*761*		*76381*		*75220 & 75230*	
SITC	*Value*	*Number*	*Value*	*Number*	*Value*	*Number*	*Value*	*Number*	*Value*	*Number*	*Value*	*Number*
2002	23.9	0.4	20.4	0.1	241.8	4.9	619.6	9.0	186.9	90.9	2,795.7	7.4
2003	28.0	1.5	24.1	0.2	222.7	4.4	582.0	5.3	164.8	3.3	2,669.0	3.9
2004	30.2	0.4	35.1	0.2	161.8	2.5	806.2	6.3	198.2	2.4	2,427.6	3.6
2005	41.5	1.5	55.0	1.1	155.8	1.8	798.0	6.8	225.3	2.0	2,434.6	4.1

	77521		77511		69731 & 77586		761		76381		75220 & 75230	
SITC	Value	Number	Value	Number	Value	Number	Value	Number	Value	Number	Value	Number
2006	48.7	0.8	59.1	0.4	146.2	2.0	1,071.0	10.1	395.5	3.1	2,979.6	10.6

Notes:
These SITC codes represent:
77521: refrigerators, household type (electric or other), whether or not containing a deep-freezer compartment.
77511: household or laundry-type washing machines (including machines which wash and dry), each of a dry linen capacity not exceeding 10 kg.
69731: domestic cooking appliances (e.g. kitchen stoves, cookers etc.) and plate warmers, non-electric, of iron or steel.
77586: microwave ovens, other ovens, cookers, cooking plates, boiling rings, grillers and roasters.
761: TV receivers (including monitors and projectors) whether or not incorporating radio receivers or recording/reproducing apparatus.
76381: video recording or reproducing apparatus, whether or not incorporating a video tuner.
75220: digital automatic data processing machines containing in the same housing at least a CPU and an input and output unit, whether or not combined.
75230: digital processing units, whether or not presented with rest of a system or containing one or two of: storage, input, output units.

Electronic Equipment: Waste Disposal

David T.C. Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate his Department has made of the number of distributors of electronic equipment who are not in a distributor take-back scheme or offering a take-back yourself service; and if he will make a statement. [149076]

Malcolm Wicks: All retailers of electrical and electronic equipment are obligated to offer in store take-back unless they are members of the distributor takeback scheme. Over 2,500 retailers have joined the scheme—accounting for more than 75 per cent. of EEE retailing by sales.

The Department will be working with the enforcement agency to ensure that distributors are meeting this obligation. Free-riding will not be tolerated, and a robust process will be in place to serve notice and ultimately prosecute distributors who are unwilling to become compliant.

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many council recycling centres *(a)* have and *(b)* do not have a partnership with a manufacturer's scheme for waste electrical and electronic equipment; and what estimate has been made of the cost to councils of the facilities to collect and recycle and the running of civic amenity sites necessary for the implementation of the waste electrical and electronic equipment directive. [151736]

Malcolm Wicks: Around 75 per cent. of local authorities have or are finalising agreements for clearance of their sites by producer compliance schemes. We expect all local authorities to have reached agreements with schemes in the next couple of months. Where agreements are not yet in place, local authorities can arrange for any waste electrical and electronic equipment (WEEE) they separately collect to be treated by approved authorised treatment facilities, and then recover their costs via the settlement centre.

Local authorities are receiving between £6,000 to £9,000 per civic amenity site to finance any additional site improvements needed to accommodate separate WEEE collection areas. This is in addition to monies already provided to make site changes in advance of the introduction of the Hazardous Waste Regulations in July 2005. The costs of running civic amenity sites are covered by the local government settlement and no specific allocation has been made for WEEE collection as part of the settlement.

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much has been spent by his Department on *(a)* advertising and promotional activities relating to and *(b)* the implementation of the waste electrical and electronic equipment directive. [151934]

Malcolm Wicks: The Department has spent around a quarter of a million pounds on communications and awareness raising activities since the final consultation on the draft WEEE regulations began in July 2006.

The estimated costs of implementing the waste electrical and electronic equipment (WEEE) directive are set out in the final regulatory impact assessment which was published when the WEEE Regulations were laid on 12 December 2006.

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the Government has set aside contingency funds for any fines likely to result from failure to meet the deadlines of the Waste Electrical and Electronic Equipment Directive. [153749]

Mr. Timms: The UK Government make every effort to avoid incurring any fines in respect of the late transposition of European Commission directives. The waste electrical and electronic equipment directive has now been implemented in England, Wales, Scotland and Northern Ireland. It is considered very unlikely that the UK will be subject to any fines.

Employment: Industrial Disputes

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many employment disputes were presented to tribunals in each of the last five years; and what estimate he has made of the number of cases which were settled before tribunal. [151873]

Mr. McFadden: The number of claims presented to employment tribunals is provided in the Tribunals Service (Employment) annual reports, available from Tribunals Service website. The Department has no information on the number of employment disputes that are privately settled before a tribunal claim is made.

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how his Department defines *(a)* conciliation, *(b)* mediation and *(c)* arbitration for the purpose of guidance on employment disputes; and if he will make a statement. [151891]

Mr. McFadden: The terms in question are not defined in statute. They describe various forms of third-party intervention with the aim of resolving workplace disputes, but the nature of the processes to which each refers can differ according to whether they are being used in the context of collective or individual employment disputes.

Collective employment disputes

S210 of the Trade Union and Labour Relations (Consolidation) Act 1992 states that:

(1) Where a trade dispute exists or is apprehended Acas may, at the request of one or more parties to the dispute or otherwise, offer the parties to the dispute its assistance with a view to bringing about a settlement.

(2) The assistance may be by way of conciliation or by other means, and may include the appointment of a person other than an officer or servant of Acas to offer assistance to the parties to the dispute with a view to bringing about a settlement.

Conciliation is a flexible process. It can be carried out in different ways according to the context of the dispute and the needs of the parties; although it always involves discussing the issues with both sides with a view to finding and recording a mutually acceptable solution. The distinguishing features of conciliation in collective employment disputes are that participation is voluntary for the parties; the conciliator's role is purely facilitative (i.e. he/she cannot formally recommend a solution or give any form of determination on the issues); and that a settlement reached in conciliation is not of itself binding in law (although on some substantive issues the outcome may be a change in employees' terms and conditions which may be incorporated into contracts of employment).

In practice, conciliation is always the first step in third-party collective dispute resolution. Only if a settlement cannot be achieved by this means will parties be encouraged to consider arbitration or mediation. Formal Terms of Reference must be agreed and drawn up before a dispute can be put to arbitration or mediation, and these are generally brokered with the assistance of a conciliator.

S212 of the Trade Union and Labour Relations (Consolidation) Act 1992 states that:

(1) Where a trade dispute exists or is apprehended Acas may, at the request of one or more of the parties to the dispute and with the consent of all the parties to the dispute, refer all or any of the matters to which the dispute relates for settlement to the arbitration of

(a) one or more persons appointed by Acas for that purpose (not being officers or employees of Acas), or

(b) the Central Arbitration Committee.

The key distinguishing feature of arbitration in collective disputes is that the role of the arbitrator (in Scotland, the title is "arbiter") is to give a formal determination on the issues put before him or her. However, participation remains voluntary for the parties; and an arbitration decision is not of itself binding in law (although as with agreements reached in conciliation, the outcome can result in a change in employees' terms and conditions which may be incorporated into contracts of employment).

Neither in the 1992 Act nor any other employment legislation is there explicit mention of mediation. However, in the collective employment relations context this term refers to a variant of arbitration under which the third party makes formal recommendations rather than giving a determination. Parties entering into mediation are free to choose to accept, ignore, or use the recommendations to inform further negotiation. In other respects, the two are essentially indistinguishable.

Individual employment disputes

S211 of the Trade Union and Labour Relations (Consolidation) Act 1992 states that:

(1) ACAS shall designate some of its officers to perform the functions of conciliation officers under any enactment (whenever passed) relating to matters which are or could be the subject of proceedings before an industrial tribunal.

The role of conciliation officers in individual rights claims is set out in S18 of the Industrial Tribunals Act 1996:

(2) Where an application has been presented to an industrial tribunal, and a copy of it has been sent to a conciliation officer, it is the duty of the conciliation officer

(a) if he is requested to do so by the person by whom and the person against whom the proceedings are brought, or

(b) if, in the absence of any such request, the conciliation officer considers that he could act under this subsection with a reasonable prospect of success,

to endeavour to promote a settlement of the proceedings without their being determined by an industrial tribunal.

S18(3) of the 1996 Act extends the conciliator's role to resolving certain individual disputes in which no claim has as yet been presented to an employment tribunal:

(3) Where at any time

(a) a person claims that action has been taken in respect of which proceedings could be brought by him before an industrial tribunal, but

(b) before any application relating to that action has been presented by him a request is made to a conciliation officer (whether by that person or by the person against whom the proceedings could be instituted) to make his services available to them,

the conciliation officer shall act in accordance with subsection (2) as if an application had been presented to an industrial tribunal.

Conciliation in individual rights disputes shares almost all the features of conciliation in collective disputes. The process is flexible and can be carried out in various ways according to the context and the needs of the parties, but will always involve discussing the issues with both sides with a view to finding and recording a mutually acceptable solution. Participation is voluntary for the parties, and the conciliator's role is purely facilitative (i.e. he/she cannot formally recommend a solution or give any form of determination on the issues). The critical difference, however, is that a settlement reached in the course of conciliation under S18 is legally binding in that it disposes of the claim(s) or potential claim(s) to the employment tribunal to which the terms of the settlement agreement refer.

The use of arbitration in individual disputes is confined to the Acas Arbitration Scheme, which was introduced as a result of provisions created by the

Employment Rights (Dispute Resolution) Act 1998 to provide a voluntary alternative to the employment tribunal for resolution of unfair dismissal disputes. The Scheme was introduced on 21 May 2001, initially only in England and Wales, and was extended to cover Scotland on 6 April 2004. Under the ACAS (Flexible Working) Arbitration Scheme (England and Wales) Order 2003, and analogous Scottish legislation, the Scheme was widened on 61 April 2003 to allow for referrals to arbitration in respect of claims or prospective claims under the Flexible Working Regulations 2003 which came into force on the same date.

The process of arbitration in individual disputes has much in common with that in collective disputes. Participation is voluntary for the parties. Independent arbitrators /arbiters are appointed by and paid through ACAS (but are not employees of that organisation) and give a formal determination on the issues put before them. However, in contrast to the situation in collective disputes, an arbitration decision under the statutory Scheme is binding in law, and effectively has the same force as a decision of an employment tribunal.

There is no direct parallel in individual dispute resolution for the directive form of mediation carried out in collective disputes. The term "mediation" is used in relation to the resolution of individual workplace disputes; but to describe quite different processes. Nor is the term used consistently by all commentators or practitioners. For instance, some take it to encompass all non-directive forms of third-party dispute resolution, while there are others who only use it in respect of interventions which apply certain techniques or practices. Neither these nor any of the other ways in which the term is presently used affords an entirely satisfactory definition, and so instead BERR has used the word "mediation" to describe any non-directive third-party individual dispute resolution other than that conducted by ACAS under SI 8 of the 1996 Act, which continues to be defined as conciliation. The difference between mediation and conciliation in individual rights claims therefore lies in the statutory context rather than the techniques or the identity of the provider.

Energy Supply

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the total amount of power, measured in gigawatt hours, produced in the UK by *(a)* coal, *(b)* oil, *(c)* gas and *(d)* nuclear power stations was in 2005-06; and if he will make a statement. [152928]

Malcolm Wicks: According to table 5.1 of BERR's latest "Energy Trends" publication (http://www.berr.gov.uk/files/file40156.pdf), the total amount of electricity supplied in the UK during 2005-06 was as follows:

	GWh
(a) coal	136,670
(b) oil	5,540
(c) gas	143,730
(d) nuclear	75,000

Apart from renewables, it is the Government's policy not to target the proportion of electricity generated by different fuel types. These are commercial decisions for generators in a market framework designed to incentivise security of supply and carbon dioxide abatement.

Energy: France

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what new joint energy initiatives were agreed with President Sarkozy during his visit to France on 20 July 2007; and whether any additional resources have been committed to support the initiatives. [153482]

Malcolm Wicks: While my right hon. Friend the Prime Minister and President Sarkozy did not endorse any new joint energy initiatives, they did agree to seek EU agreement for reduced rates of VAT for energy efficient products and energy saving materials. This would supplement existing UK VAT relief for the installation of certain energy-saving materials in houses and other residential accommodation, and the installation of certain renewable energy technologies.

Ethnic Groups: Equal Opportunities

Ms Abbott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the effect of staff redundancies on the promotion of race equality; and if he will make a statement. [151874]

Mr. Thomas: A full diversity impact assessment covering race, disability, gender, sexual orientation, age and religion and belief is being completed. This contains considerable detailed analysis on the diversity and race profile of staff in the Department and those whose posts may be reduced as part of the restructuring of the Department. It is my intention that the diversity impact assessment will be published in December 2007.

The Department is committed to the promotion of diversity and to the achievement of the targets set out in the Diversity Strategy, including improvements in targets and culture change and to ensuring that relocation and restructuring proposals follow best practice in relation to diversity. During the current restructuring process, the Department has established a good and productive relationship with the trade unions through regular formal and informal consultations. The trade unions have acknowledged the high level of support offered to staff.

Ms Abbott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how his Department monitors staff and ethnicity data to identify any patterns of inequality or discrimination; and if he will make a statement. [151875]

Mr. Thomas: The Department's Diversity Statement includes the aim to have a workforce that reflects the diverse community we serve, and the commitment to value and make the best use of the diversity of talent in the Department so that our people fulfil their potential and create the conditions for business success.

Staff and ethnicity data are monitored in various different ways. These include:

monitoring and reporting to the Department's Diversity Steering Group.

review by the Cabinet Office and Peer Review as part of the monitoring of progress towards the targets in the Cabinet Office 10 point plan on diversity.

Diversity Impact Assessments of major internal policies.

monitoring and review of specific areas such as staff appraisal, recruitment and promotion rates and complaints in line with our commitments under the various Employment Duties.

consultation with staff network groups and the Departmental Trade Union Side.

The Department annually reviews progress against action plans detailed in the race equality scheme as part of the annual Departmental Report and legislation requires that the Secretary of State reviews and reports on the equality schemes every three years, the first of which is due in 2008. No departmental policies to date have been assessed as having adverse implications or demonstrating inequality or discrimination.

Floods: Compensation

Miss McIntosh: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what criteria apply to the allocation of funds being made available by regional development agencies to businesses experiencing losses during the recent floods; and if he will make a statement. [153603]

Mr. Timms: Several Regional Development Agencies (RDAs) covering areas affected by the recent floods have set up schemes to assist recovery for businesses suffering losses. In most cases these take the form of grants of up to £2,500 available to small and medium enterprises applying for assistance.

Additionally, Yorkshire Forward has announced a scheme primarily for companies with more than 50 employees, offering grants of up to £100,000 with the amount available dependent on the number of employees. This scheme is intended to cover costs that will not be met by business continuity insurance. Under this scheme, companies with fewer than 50 employees will also be considered on a case-by-case basis for grants larger than £2,500.

Details are available on the RDA websites.

Miss McIntosh: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether farming businesses will be eligible for funds being made available to businesses which have suffered damage due to the recent flooding; and if he will make a statement. [153657]

Mr. Timms: Several Regional Development Agencies (RDAs) have set up schemes to provide small amounts of recovery support to businesses affected by the floods. These schemes operate under the European Commission's de minimis State Aid regulation. Aid under this regulation is restricted in the agricultural sector. RDAs can and are giving aid to agricultural businesses/farmers if they are involved in the processing and marketing of agricultural products (subject to certain exclusions) and for diversified businesses (farm shops, farm parks etc.).

The Government have great sympathy for farm businesses affected by the recent flooding. However Government policy is not to provide compensation for production losses.

Farmers have a wide range of successful risk and crisis management strategies at their disposal, including forward contracts, weather insurance, diversification and 'self-insurance' through saving and borrowing. An increasing number of farmers are making use of such tools and DEFRA is supporting their take up, by sponsoring risk and crisis management workshops in partnership with the industry.

Foreign Companies: Russia

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which companies trading within the UK are *(a)* owned and *(b)* controlled by Russian companies. [151547]

Mr. Timms: This information is not held by Companies House or UK Trade and Investment.

Fuels: Prices

Alan Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will assess, with reference to the experience of countries which have such a system, the merits of introducing in the UK a system of national fuel pricing. [153353]

Malcolm Wicks: Last year the Government carried out a full review of energy policy, culminating in a White Paper published in May this year. The Government continue to believe that fuel prices are best set through the interplay of supply and demand in an open, competitive and transparent market. Price signals which clearly reflect supply and demand conditions, including any local variations, are the most efficient way of bringing supply and demand together, through (for example) supply increase through investment in new supply capacity and demand reduction through investment in energy efficiency. Nationally regulated prices disguise these signals and may lead to waste, inefficiency and shortage as supplies fail to get to where they are most needed.

Homeworking

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate his Department has made of the number of people able to *(a)* work from home and *(b)* participate in flexible working; and what steps the Government are taking to allow more people to do so. [154818]

Mr. McFadden: The Department undertakes periodic surveys of flexible working, the most recent of which was the Third Work-Life Balance Employee Survey conducted in 2006. The research findings, published in March 2007, found that 90 per cent. of employees reported that at least one flexible working arrangement was available to them if they needed it—an increase from 85 per cent. in 2003. The survey also found that 23 per cent. of employees reported that working from home on a regular basis was available to them (an increase from 20 per cent. in 2003).

We are encouraging flexible working through the introduction of the right to request flexible working which was introduced in April 2003 for parents of young and disabled children. In April 2007 we extended this right to carers of adults. We also encourage flexible working through providing detailed guidance and promoting the benefits. The business.link.gov.uk website has a number of interactive tools. Both employers and employees can access the ACAS telephone helpline.

Housing: Standards

Mrs. Lait: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what powers of entry trading standards officers have to domestic dwellings. [153518]

Mr. Thomas: The majority of trading standards legislation only gives trading standards officers powers of entry into premises that are being used for business purposes.

Trading standards officers may enter a residential property where it is also being used as a business premise. When entering premises that are a mix of domestic and business, it is common for trading standards officers to do so with a warrant and the presence of the police.

There are a few exceptions where trading standards officers may enter premises solely used as a dwelling, which generally relate to issues of health and safety or animal welfare.

Imports: ACP Countries

Mr. Andy Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what assessment he has made of the potential legal implications under the Cotonou Agreement of applying standard generalised system of preferences import duties on imports from Africa, Caribbean and Pacific non-least developed countries which are not in a position to enter into an economic partnership agreement with the EU by 1 January 2008; and if he will make a statement; [152088]

(2) what assessment he has made of the UK's responsibility under the Cotonou Agreement not to apply standard generalised system of preferences import duties on imports from Africa, Caribbean and Pacific non-least developed countries which are not in a position to enter into an economic partnership agreement with the EU by 1 January 2008; and whether he has taken legal advice on the matter. [152087]

Mr. Thomas: The UK Government's 2005 position paper on Economic Partnership Agreements (EPA) states that

"The Commission should be ready to provide an alternative to an EPA at the request of any African, Caribbean or Pacific (ACP) country."

This remains our position. We would be very happy to consider and implement a WTO compatible alternative if put forward by any member of the ACP. However, the ACP have made it clear that they are committed to completing EPA negotiations by the end of this year and the UK Government consider it a priority to work with them towards that goal.

In the event that the deadline is not met in any of the regions, our position is that we would like to see arrangements which are least disruptive to ACP exporters and that do not leave the ACP any worse off than they are under current arrangements.

Industrial Diseases: Compensation

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions have taken place with Capita on the outsourcing of miners' compensation claims to India. [154943]

Mr. Thomas: Capita made their initial proposal regarding off-shoring in 2006 since when detailed discussions have taken place with the Department. In reviewing the proposal, the Department was keen to ensure the stability of the Coal Health compensation process, taking into account the challenges associated with completing the compensation schemes over the next 18 months.

Industrial Disputes: Arbitration

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the average cost to *(a)* the Government, *(b)* the employer and *(c)* the employee of an employment dispute (i) resolved through an employment tribunal, (ii) resolved through mediation and (iii) in which mediation was unsuccessful. [151349]

Mr. McFadden: The most recent assessment of average costs of employment disputes to employers and employees carried out by my Department was the 2003 Survey of Tribunal Applications. The next such survey is scheduled for the first half of 2008. Information on costs to the Government is provided in the annual reports of the Employment Tribunal Service. Average costs are not available for those cases going to mediation, as the Department does not conduct research on mediation of employment disputes outside of the Employment Tribunal System.

Industrial Disputes: Mediation

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the annual costs of informing parties in employment disputes of their local mediation service. [150847]

Mr. McFadden: The Government have recently consulted on the introduction of a new advice service on dispute resolution, to provide impartial advice about different methods of resolving disputes. Such a service could encourage appropriate cases towards early mediation. We will publish our response to the consultation in the autumn. The Government's estimate of the costs of a new advice service was set out in the partial regulatory impact assessment published in the consultation paper in March 2007, copies of which were placed in the House Libraries.

Information Technology

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what support is offered to promote technology careers to those working in manufacturing sectors. [153305]

Mr. Timms: Government published "World Class Skills: Implementing the Leitch Review of Skills in England" on 18 July 2007. It sets out how Government will take forward the recommendations of the Leitch Review to ensure that manufacturing has a world class skills base to meet the challenges of technological advance. We will work closely with others to take forward the package Leitch has recommended including proposals for manufacturing.

Current support includes funding for Foundation Degrees and the Adult Apprenticeship Scheme to which the Learning and Skills Council has recently made available an additional £16.7 million. We have also established the National Skills Academy for Manufacturing which offers employers an opportunity to shape the content of skills training to meet the needs of the sector.

Insolvency

Dr. Cable: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many bankruptcy orders were made in each year since the implementation of the Enterprise Act 2002. [147074]

Mr. McFadden: I refer the hon. Member to the answer I gave on 11 July 2007, *Official Report*, column 1542W.

Insolvency: London

Lynne Featherstone: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many residents in each London constituency filed for bankruptcy in each of the last five years. [153641]

Mr. McFadden: Table 1 shows the number of bankruptcies in each London constituency derived from postcodes provided by bankrupt individuals.

Classifying bankrupts into geographic areas is done using the postcode that the bankrupt individual provides. The use of this in assigning an individual to a constituency is thus as reliable as the postcode information provided.

Table 1

	Bankruptcies				
Constituency	*2002*	*2003*	*2004*	*2005*	*2006*
Barking	17	46	44	59	125

Nanotechnology

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to support the manufacturing of micro and nanotechnology. [153308]

Mr. Timms: The Government recognise that MicroNanotechnologies (MNT) have the potential to deliver enormous benefits for society and the economy from the development and manufacturing of new materials and devices, and are committed to supporting industry in harnessing the commercial opportunities offered by such new and emerging technologies, as outlined in our 10-year Science and Innovation Investment Framework, published in 2004.

The delivery mechanism for such support is now the Technology Strategy Board (TSB), which is a non-departmental public body reporting to the Department for Innovation, Universities and Skills. The TSB,

comprising mainly experienced business leaders, identifies the new and emerging technologies critical to the growth of the UK economy into which government funding and activities can be directed.

Over the period 2005 to 2008, £320 million is available to businesses in the form of grants to support research and development in the technology areas identified by the TSB. This includes £90 million already invested in MNT via the following three mechanisms:

Collaborative R&D projects of which there are 49 so far with combined eligible project costs of £61 million and grant support totalling £35 million.

MicroNanoTechnology Centres of which there are 24 so far with a total budget of £172 million and grant support totalling £55 million. Of the 24 facilities, 10 fall specifically under the umbrella of "Nanofabrication".

The MicroNanoTechnology Knowledge Transfer Network, which was launched in May 2007 to take forward the work of the MicroNanoTechnology community.

Future decisions on technology and funding priorities will lie with the TSB.

New Businesses: East Sussex

Mr. Waterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many new businesses established in *(a)* Eastbourne and *(b)* East Sussex received Government (i) funding and (ii) assistance in each of the last five years. [151368]

Mr. Timms: Between 2004 and 2006 Sussex Enterprise (the Business Link for Sussex) provided funding and assistance to 45 new businesses in Eastbourne and 172 new businesses in East Sussex, a breakdown by year follows. In this case, new businesses are defined as those that were less than 12 months old at the time of the assistance.

	Eastbourne	*East Sussex*
2006-07	21	79
2005-06	17	72
2004-05 (6 months only)	7	21

Before October 2004 it is not possible for Sussex Enterprise to provide figures as a new database was adopted at that time; nor is it possible for the data to be disaggregated further without incurring disproportionate cost.

Neither Eastbourne borough council nor East Sussex county council provided direct assistance to businesses over the course of the period.

Further data on the number of businesses receiving funding or assistance from other sources are not stored centrally.

Nuclear Power

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost was of civil nuclear reactors generating electricity in the last year for which figures are available; and how much of that sum was accounted for by the cost of *(a)* maintenance, *(b)* staff salaries, *(c)* security, *(d)* transport of radioactive materials, *(e)* radioactive waste removal, *(f)* radioactive waste storage, *(g)* purchasing nuclear fuel, *(h)* radioactive accidents, *(i)* non-radioactive accidents and *(j)* accident insurance. [151936]

Malcolm Wicks: As regards British Energy, the company's accounts for the financial year 2006-07 show operating costs as follows:

Nuclear fuel costs, consisting of the costs of procurement of uranium, conversion and enrichment services and fuel element fabrication (front end) and the costs of reprocessing, long-term storage and eventual disposal of the resulting waste products (back end), full provision is also made for the projected back end costs of unburnt fuel at station closure): £278 million

Materials and services costs, comprising the operating expenses of all power stations and support functions (including station maintenance and insurance costs): £562 million

Staff costs across the whole of British Energy, totalling an average of 5,939 employees (4,148 at nuclear stations, 275 at Eggborough, and 1,516 in engineering, technical and corporate support): £374 million.

As regards the Nuclear Decommissioning Authority, the total cost of civil nuclear reactors generating electricity in the financial year 2006-07 was £273.17 million. This is broken down as follows:

	£ million
Maintenance	30.10
Staff Salaries	94.06
Security	7.81
Transport of Radioactive Materials	5.27
Radioactive Waste Removal	1.62
Radioactive Waste Storage	0.70
Purchasing Nuclear Fuel	45.99
Radioactive Accidents	0
Non-Radioactive Accidents	0
Accident Insurance	25.5

The NDA purchases its accident insurance through an insurance programme which, subject to policy terms and conditions, covers all of its sites. This includes sites which generate electricity from nuclear power such as Oldbury and Wylfa; sites which generate electricity by other means such as Maentwrog (hydro); fuel fabrication sites such as Springfields; sites that are now in decommissioning such as Trawsfynydd, Hunterston and Chapelcross; multi-activity sites such as Sellafield; and finally non-nuclear administrative sites such as offices. Insurers give no premium breakdown across the sites in the NDA estate. The total premium including insurance premium tax for all classes of insurance across all NDA sites was £25.5 million for financial year 2006-07. The NDA estimate between 7.5 per cent. and 17.5 per cent. of this is allocated to sites which generated electricity from nuclear power.

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects to receive the respective reports on *(a)* plutonium and uranium and *(b)* spent nuclear fuel management options commissioned from the Nuclear Decommissioning Authority by his predecessor Department; and what opportunity there will be for stakeholders and independent experts to comment on the reports. [152279]

Malcolm Wicks: The Nuclear Decommissioning Authority gave a commitment in its strategy to assess the options for managing uranic materials, as well as the full life cycle implications of spent fuel management. A report entitled 'Uranium and Plutonium Macro-Economic Study' was published on the NDA's website (www.nda.gov.uk) on 2 July 2007 and is available to stakeholders for comment. A report on 'Spent Fuel Management Options' is in the course of preparation and will be available in the autumn. Stakeholders and independent experts contributed to the development of the reports through the NDA's 'Materials Issue Group' which is a sub-group of the NDA's National Stakeholder Group.

Overseas Trade: Russia

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the net value was of *(a)* imports from Russia to the UK and *(b)* exports from the UK to Russia in the latest year for which figures are available. [151549]

Mr. Thomas: Table 9.3 of the ONS "Balance of Payments Pink Book 2007" shows UK imports of goods and services from Russia to have been worth about £6,492 million in 2006 and UK exports of goods and services to Russia to have been worth about £3,427 million.

Post Offices

Mike Wood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he plans to publish his response to the Post Office network consultation which closed on 8 March. [152760]

Mr. Timms: The Government published their final proposals for the future of the post office network on 17 May in response to the public consultation.

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform on which dates his Department instigated consultations on post offices in the last five years; what the consultation period was in each case; and which regions were covered in each case. [154821]

Mr. McFadden: On 14 December 2006, the Government initiated a 12 week national public consultation on its proposals for the Post Office network. The consultation period ended on 8 March 2007 and the Government provided a response on 17 May.

Post Offices: Scotland

Mr. Carmichael: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many post offices there were in Scotland at the end of March 2007. [153010]

Mr. Timms: I understand that the number of Post Office branches in Scotland reported by Post Office Ltd. at the end of March 2007 was 1651.

Post Offices: Yorkshire and Humberside

Mike Wood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has for the post office network in Batley and Spen. [152733]

Mr. Timms: The Government published their final proposals for the future of the post office network on 17 May in response to the public consultation. Post Office Ltd. now has operational responsibility for implementing these measures.

Price Fixing: Alcoholic Drinks

Mark Pritchard: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints his Department has received of alleged price fixing by *(a)* the brewing industry and *(b)* companies which own public houses. [150720]

Mr. Timms: Ensuring that markets operate freely and fairly is a matter for the independent competition authorities, rather than for Government. The UK competition framework has established the Office of Fair Trading (OFT) as an independent statutory body which is responsible for ensuring that markets operate competitively, and it has the powers to investigate and take action if companies are abusing a dominant position in a market or behaving anti-competitively. Complaints would be directed to the OFT.

The Department currently handles around 50,000 letters a year and approximately 200,000 e-mails on a wide range of issues. Further breakdown in the form requested is not available.

Regional Development Agencies: Public Appointments

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform who the board members are of each regional development agency; and what the *(a)* political affiliation and *(b)* biography is of each. [153739]

Mr. Timms: All the names of appointments and re-appointments for the RDA Boards (except for the London Development Agency where appointments are made by the Mayor) are announced in Parliament as a matter of course and this information is stored with their biographies in the Library.

Some information regarding the political activity of board members is obtained during the appointment and re-appointment process but is currently not available in the Library. This information is included in all press notices released when appointments or re-appointments are announced.

However, the political activity information that can be requested is restricted by the Office for the Commissioner for Public Appointments (OCPA) Code of Practice for Ministerial Appointments and does not cover information about membership of political parties or voting preferences.

Regional Development Agencies: Trade Unions

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the names are of trade union representatives appointed to each regional development agency. [153417]

Mr. Timms: The current trade union representatives appointed to the regional development agencies are as follows:

1. Advantage West Midlands—Gerard Coyne
2. East of England Regional Development Agency—Karen Livingstone
3. East Midlands Development Agency—Neville Jackson
4. North West Regional Development Agency—Dave McCall
5. ONE North East—Kevin Rowan
6. South East Development Agency—Phil Wood
7. South West Regional Development Agency—Nigel Costley
8. Yorkshire Forward—Stella Guy
9. London Development Agency—Mick Connolly.

Renewable Energy

Dr. Alasdair McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he has taken to promote the generation of renewable energy locally by individuals and communities. [150606]

Malcolm Wicks: We published the Government's strategy for the promotion of microgeneration in March 2006. We are implementing the range of financial and non-financial support measures it outlines, including providing grants for the installation of microgeneration technologies by individuals and communities among others. Further information on the programme can be found at:

www.lowcarbonbuildings.org.uk.

The Energy White Paper reinforces our commitment to the microgeneration strategy, and also includes measures to remove barriers to the more widespread use of distributed energy.

In addition, we have provided funding to the sustainable energy network pilot scheme since 2005. Through three advice centres in England and Northern Ireland, we have been promoting renewable energy locally in the following ways:

providing effective advice and support resource for householders;

facilitating the development of the supply chain; and,

helping to develop local partnerships and networks both at an individual and community level.

Further information on the pilot scheme can be found at:

http://www.energysavingtrust.org.uk/aboutest/what/EnergySavingTrustAdviceCentres.

Renewable Energy: Government Assistance

Harry Cohen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what grants, loans or other assistance is available to homeowners for renewable energy installation in their homes; whether local authorities will be required to provide assistance to homeowners for such installations; what incentive is proposed for landlords, including social landlords, to arrange for such installations; and if he will make a statement. [150282]

Malcolm Wicks: The Low Carbon Buildings Programme with a budget of £86 million over three years provides capital grants for the installation of microgeneration to households, schools, social and local authority housing, businesses, charities and the public sector. Further information on the programme can be found at:

www.lowcarbonbuildings.org.uk.

In addition, local authorities and regional development agencies have a key role to facilitate and support the uptake of microgeneration technologies through their powers and responsibilities for planning and regeneration. Further information can be found in the Heat and Distributed Generation chapter of the Energy White Paper, May 2007 at:

http://www.berr.gov.uk/files/file39387.pdf.

Renewable Energy: Incentives

Dr. Alasdair McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what incentives his Department has put in place to encourage consumers to switch to renewable energy sources. [150608]

Malcolm Wicks: The Low Carbon Buildings Programme with a budget of £86 million over three years provides capital grants for the installation of microgeneration to households, schools, social and local authority housing, businesses, charities and the public sector. Further information on the programme can be found at:

www.lowcarbonbuildings.org.uk

The Government also place a requirement on all licensed electricity suppliers to supply a specific and annually increasing proportion of their sales from sources of renewable energy. Suppliers who fail to meet their obligation in this way have, instead, to make a payment of £34.30 for each MWh of electricity which they do not supply from renewable sources. This obligation means that consumers will, to some degree depending on how their supplier is meeting their obligation, already be consuming electricity from renewable sources.

The Government recognise the need for transparency to allow consumers to make informed decisions when considering whether to switch to a green tariff and both Ofgem and the Energy Savings Trust have recently published consultations on this issue.

Research Council: Finance

Lynne Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to his recent letter to the hon. Member for Birmingham, Selly Oak, how much of the £68 million taken from unspent funds in the Research Council was spent to meet expenditure on *(a)* the restructuring of British Energy, *(b)* meeting the shortfall in EU structural funds, *(c)* the collapse of MG Rover and (d) increased spend on the technology programme and space projects. [148732]

Mr. Thomas: The transfer (from current and historical underspends in the science budget) was necessitated by and used to meet an overall shortfall in DTI non-science budgets. The shortfall arose because of unforeseen pressures on the non-science budget (including those mentioned) in the context of a very tight DTI settlement (excluding science) from Spending Review 2004.

The transfer was considered only once all other options in the non-science budgets had been exhausted. This included managing down pressures and making wide-ranging cuts in other areas.

The funding released by these measures, alongside the transfer of money from science, was used to fund the remaining non-science pressures. It is not possible to determine the division of the transfer of funds from science between the examples mentioned. This is not how budgets are allocated or managed.

Royal Mail: Disabled

Kerry McCarthy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of employees of Royal Mail had disabilities in each of the last five years; and if he will make a statement. [153422]

Malcolm Wicks: This is an operational matter for which Royal Mail has direct responsibility. I have therefore asked the chief executive of Royal Mail, Adam Crozier, to provide a direct reply to the hon. Member.

Shops: Closures

Andrew George: To ask the Secretary of State for Business, Enterprise and Regulatory Reform, what estimate his Department has made of the number of *(a)* village shops and *(b)* post offices in Cornish villages with a population of less than (i) 1,000, (ii) 2,000 and (iii) 5,000 inhabitants which have closed in the last five years. [152125]

Mr. Timms: Information on the number of local post offices that have closed is an operational matter for Post Office Ltd. Alan Cook the Managing Director has been asked to reply direct to the hon. Member.

Estimates of the number of shops which have closed in villages are not produced, for Cornwall or any area.

Supermarkets: Ethics

Harry Cohen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will bring forward proposals to make the ethical code of practice for UK supermarket retailers applying to workers in developing countries enforceable through legislation; and if he will make a statement. [152604]

Mr. Thomas: The UK believes that the adoption of voluntary practices are effective means to improve labour standards in developing countries. We encourage high standards of behaviour through our support of initiatives such as the Ethical Trading Initiative and believe such voluntary initiatives have made an important contribution to the implementation of best practice throughout the supply chain. UK companies should behave responsibly and always observe the standards and laws of the country in which they operate. Enforcement of standards is best dealt with at a national level. The UK is strongly committed to the work of the International Labour Organisation and to promoting the internationally agreed ILO core labour standards which cover freedom of association and the right to organise and collective bargaining; the ending of forced and child labour; and the ending of discrimination in employment.

Telephone Services: Fees and Charges

David Tredinnick: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations he has received from telephone services consumers complaining about surcharges for using other methods than direct debit to pay their telephone bills; and what steps he is taking to prevent such practices by telephone services providers. [153458]

Mr. Timms: The Department has received a number of representations from members of the public on this issue and these have been referred to Ofcom. On 6 June Ofcom announced it will carry out a full Review of communications providers' additional charges. The Review will cover charges for non-direct debit payments, as well as other additional charges including late payment, restoration of service and early termination fees. It will cover fixed and mobile operators, and pay TV services.

Ofcom will look at the nature and level of charges levied by communications providers and how well signposted and transparent such charges are. It will investigate how far consumers are aware of additional charges, whether they are able and willing to shop around on the basis of core prices and additional charges rather than just core prices, and whether there are certain groups of consumers who are unable to do this and therefore may be disadvantaged.

Ofcom expects to announce the conclusions of its Review in the autumn.

Tribunals: Compensation

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will commission research into the level of *(a)* awards to and *(b)* costs incurred by successful claimants at employment tribunals; and if he will make a statement. [150549]

Mr. McFadden *[holding answer 18 July 2007]:* The Department has approved plans to undertake the next periodic Survey of Employment Tribunal Applications (SETA) in 2008. This sample survey will collect data on the level of awards to and costs incurred by claimants and employers involved in employment tribunal claims. Findings from SETA 2008 will be published in the Employment Relations Research Series (ERRS) by the end of 2008.

The last SETA was conducted in 2003. Results were published by the Department in 2004 as ERRS No. 33 "Findings from the Survey of Employment Tribunal Applications 2003".

Turbines: Pencader

Adam Price: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether public funding has been provided for the purpose of building wind turbines in Pencader. [152715]

Mr. Timms: On-shore wind is a commercially viable technology and the Department for Business Enterprise and Regulatory Reform is not aware of any public funding, outside of the Renewables Obligation, made available to a wind project in Pencader.

Written Answers to Questions

The following answers were received between Monday 10 September and Wednesday 12 September 2007

TRANSPORT

Aviation: Security

Mr. Steen: To ask the Secretary of State for Transport what the reasons are for UK aviation security policy differing from that aviation security policy recommended by the EU; and if she will make a statement. [155137]

Jim Fitzpatrick: The UK is required to implement the measures mandated in European aviation security legislation, which also acknowledges member states' freedom to set more stringent requirements where they judge this to be warranted. The UK aviation security regime reflects the Government's assessment of the measures appropriate in this country.

Departments: Recruitment

Mr. Hoban: To ask the Secretary of State for Transport how many people have been appointed to her Department outside civil service grades in the last 30 days. [153214]

Jim Fitzpatrick: In the period 27 June to 26 July, the Department for Transport appointed one non-executive director, who does not have a civil service grade, in the Maritime and Coastguard Agency.

In addition, the Department publishes information annually on appointments for which it is responsible in its annual report. The 2007 annual report was published in May 2007.

Departments: Reviews

Mrs. Villiers: To ask the Secretary of State for Transport how many Gateway reviews were undertaken by her Department in each of the last five years. [155153]

Jim Fitzpatrick: The Department for Transport was formed in the summer of 2002. Information on DFT projects is only held from that point in time.

The Department for Transport can confirm that the following number of Gateway Reviews have been carried out since summer 2002:

	Number
2002	110
2003	31
2004	65
2005	53
2006	68
2007	251

[1] Summer to end of the year
[2] To 6 September 2007.

Highways Agency: Finance

Mrs. Villiers: To ask the Secretary of State for Transport how many of the Highways Agency's regional directorates over-spent on their budgets in each of the last five years. [154925]

Mr. Tom Harris *[holding answer 10 September 2007]:* The agency's two major spending directorates, Traffic Operations and Major Projects, include several regional-based operating units. The numbers of units have changed as the agency has developed. The following table summarises the position:

	2004-05	*2005-06*	*2006-07*
Regional operating units	7	8	9
Number overspending against original budget	3	5	6
Number overspending against agreed forecast outturn	0	0	0

Similar performance data are not available for 2002-03 and 2003-04.

Budgets are set prior to the beginning of each financial year and are not adjusted in year. The agency actively manages the budget by reallocating resources where necessary to deal with new pressures and changing priorities to ensure that the overall budget is fully utilised. Hence there are managed over and under-spends against budget at lower levels. In each of the three years in the previous table the agency has utilised over 99 per cent. of its overall budget, with no overall overspends:

	Resource budget			*Capital budget*		
	Budget	*Outturn*	*Variance*	*Budget*	*Outturn*	*Variance*
2002-03	5,021	4,938	83	670	736	(-66)
2003-04	4,003	3,873	130	651	438	213
2004-05	4,174	4,170	4	623	610	13
2005-06	4,709	4,664	45	755	753	2
2006-07	5,134	5,118	16	1,124	1,117	7

Mrs. Villiers: To ask the Secretary of State for Transport how much has been spent on each of the 21 projects listed currently as on hold on the Highways Agency website. [154926]

Jim Fitzpatrick *[holding answer 10 September 2007]:* The 21 projects listed as "on hold" on the Highways Agency website comprise eight major schemes which were being prepared to enter the Government's national roads programme and 13 route management strategies.

The major schemes and their respective expenditure are as follows:

Project	*£ million Spend to date*
A1 Adderstone to Belford dualling	0.696
A1 Morpeth to Felton dualling	4.126
A66 Penrith to Temple Sowerby	
A66 Appleby to Brough	
A66 Temple Sowerby to Appleby	0.732

Project	£ million Spend to date
A66 dualling Bowes Bypass	
A66 dualling Cross Lanes to Greta Bridge	
A66 dualling Stephen Bank to Carkin Moor	0.583
Grand total for A66 schemes	1.315

Following the regional funding allocations (RFA) announcement in July 2006, the above schemes were not prioritised for funding by the relevant regions.

The remaining 13 listed as on hold are studies known as route management strategies (RMSs). The strategies were intended to develop route based plans for future investment in the maintenance, operation and improvement of the network. With the growing emphasis on regional planning, transport decisions are linked to regional objectives and priorities. In response to this the Highways Agency is developing its forward planning on a regional basis through the recent publication of the regional network reports (RNRs) available on the Highway Agency website. A total of £301,712 has been spent on RMSs.

Roads: Accidents

Greg Clark: To ask the Secretary of State for Transport how many recorded accidents there were on the A264 between Lington Green and Rusthall in each of the last 10 years. [155197]

Jim Fitzpatrick: The number of reported personal injury road accidents on the A264 between Langton Green (at the junction with The Green) and Rusthall (at the junction with Rusthall Road) are given in the following table:

	Number of accidents
1997	16
1998	11
1999	8
2000	10
2001	11
2002	5
2003	12
2004	8
2005	8
2006	9

CHILDREN, SCHOOLS AND FAMILIES

Academies

Michael Gove: To ask the Secretary of State for Children, Schools and Families what representations he has received from teaching unions on his Department's academies programme; and if he will make a statement. [155251]

Jim Knight: The Secretary of State has received a number of representations from the teaching unions on a range of subjects including the academies programme.

Children: Examinations

Bob Spink: To ask the Secretary of State for Children, Schools and Families what research he has commissioned into the impact of assessments and testing on children's future engagement with education. [155166]

Jim Knight: The Department for Education and Skills part-funded a review by the EPPI-Centre on the impact of summative assessment and testing on students' motivation for learning. The review's report was published in 2002 and can be accessed at www.eppi.ioe.ac.uk/cms/

City Academies

Bob Russell: To ask the Secretary of State for Children, Schools and Families pursuant to his answer of 2 August 2007 to question 152922, on City Academies, when officials from his Department first discussed with Essex local education authority the possibility of establishing city academies in *(a)* Essex and *(b)* Colchester. [155301]

Jim Knight: Officials first met with officers from Essex county council on 18 March 2005 to discuss the vision of establishing an academy within Essex. The first meeting to discuss an academy in Colchester was on 5 January 2007.

Departments: Catering

Mr. Roger Williams: To ask the Secretary of State for Children, Schools and Families what percentage of *(a)* beef, *(b)* sheep meat, *(c)* pork and *(d)* dairy products used in his Department in the most recent period for which figures are available were imported products. [150798]

Jim Knight: For the period 1 January to 30 June 2007 the percentage of imported beef, sheep meat, pork and dairy products used within DCSF Headquarters buildings was 84 per cent. of beef, 93 per cent. of lamb, 76 per cent. of pork and 7 per cent. of dairy products.

Departments: Manpower

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families what proportion of staff formerly employed by the Department for Education and Skills are now employed by his Department. [153471]

Jim Knight: 84 per cent. of staff in the former Department for Education and Skills are now employed by my Department.

Education Maintenance Allowance: Tamworth

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many students in Tamworth claimed education allowance in each year since it was introduced, broken down by ward of residence. [148792]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), who operate the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF) and hold the

information about take-up and payments under the scheme. Mark Haysom, the Council's Chief Executive, has written to my hon. Friend with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 20 July 2007:

I am writing in response to your Parliamentary Question 148792 that asked: "How many students in Tamworth claimed education allowance in each year since it was introduced, broken down by ward of residence."

Information on the number of young people who have applied, enrolled and received education maintenance allowance (EMA) is available at local authority level, but not at ward level. EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

EMA take-up for Staffordshire local authority area during each academic year since inception is as follows:

2004/05—3,632

2005/06—6,393

2006/07—7,803 (to end of June)

EMA Take-up data showing the number of young people who have received one or more EMA payments during 2004/05,2005/06 and to date in 2006/07 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

I hope you find this information useful.

General Certificate of Secondary Education

Jeremy Corbyn: To ask the Secretary of State for Children, Schools and Families what evaluation he has made of the policies of schools on entering students to GCSE examinations other than English and Mathematics. [155331]

Jim Knight: Schools take decisions on GCSE entries based on the individual circumstances of pupils, in discussion with them and parents as appropriate. Schools need to ensure that each pupil's ability is properly assessed and recognised in the areas of the Key Stage 4 curriculum that they have chosen, or are obliged, to study. This summer's results show that the number of GGSE entries overall continues to increase.

Pre-school Education

Bob Spink: To ask the Secretary of State for Children, Schools and Families what research he has commissioned into the effectiveness of *(a)* state pre-school education and *(b)* privately funded pre-school provision in raising pupil attainment in the short and long term. [155167]

Jim Knight: To assess the benefits of funded early education, delivered in a wide range of maintained and private, voluntary and independent settings, my Department commissioned the Effective Pre-school and Primary Education 3-11 (EPPE 3-11) study. This study, which began in 1997, followed 3,000 children from the age of three to the end of Key Stage 2 (at age 11) and will continue to do so until the end of Key Stage 3 at age 14. So far, the study has demonstrated that children who attend pre-school are better prepared for school, have better cognitive and social development at age six and seven (Key Stage 1), with benefits strongest for those who attended high quality pre-school for a longer duration. It has also shown high quality pre-school experience continues to have a positive impact on children's all round development at age 10.

The EPPE study has also shown it is the quality, rather than ownership of pre-school provision that is most important for improving children's attainment and that while good quality provision is found across all sectors the maintained sector provides the highest quality provision overall. We want to see quality improve across all types of pre-school provision, and we have reflected this aim in draft statutory guidance to local authorities on the duty in the Childcare Act 2006 to improve outcomes for all children and reduce inequalities between them. The guidance requires local authorities actively to engage with the Private, Voluntary and Independent (PVI) sector to improve quality. We have also provided dedicated resource (through the Transformation Fund between 2006-08 and the Graduate Leader Fund from 2008-09) to support the development of graduate leadership in the PVI sector, focusing on full day care settings.

Finally, my Department has also commissioned a number of evaluation studies that will continue to explore the relationship between different types of pre-school provision and child development outcomes including the National Evaluation of Sure Start, a study of child care quality experienced by children in the Millennium Cohort Study, and an evaluation of free child care provision for disadvantaged two-year-olds. Findings from these studies will be published by the Department later in 2008.

Primary Education: Languages

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what percentage of state primary schools in England offer teaching in a modern foreign language other than French. [155252]

Jim Knight: There are no national data available on the total number of primary schools offering modern foreign languages. However, in the autumn term of 2006, the National Foundation for Educational Research carried out research on the Department's behalf, based on a nationally representative sample of 8,000 primary schools in England. The response rate was 48 per cent. The results showed that 81 per cent. of schools were providing primary languages within class time. As it was recognised that schools already delivering primary languages might be more likely to respond, data were collected from all schools within a representative sub-sample of 500 schools from the original 8,000 primary schools. The results showed that 70 per cent. of schools in this sub-sample were providing primary languages within class time.

Figures for which languages were provided are available only for the larger sample. Of the 3,336 schools in the survey that were teaching primary languages in class time, 91 per cent. of these schools offered French. Other languages were offered by the following proportions of schools in this sample. Percentages do not add up to 100 per cent. as some schools offer two or more languages:

Languages offered at KS2 in primary schools in England

	Percentage
Spanish	25
German	12
Italian	4
Chinese	1
Japanese	1
Urdu	1
Other languages	4
No response	1

Schools: Uniforms

Bob Spink: To ask the Secretary of State for Children, Schools and Families what steps he is taking to address school uniform shop monopolies, including shops run by *(a)* schools and *(b)* external enterprises. [155171]

Jim Knight: The Office of Fair Trading have indicated that schools or retailers that have expensive exclusive contracts with suppliers may, in principle, be subject to enforcement action under Chapter 1 of the Competition Act 1998, on the grounds that these exclusive agreements restrict competition between retailers to supply uniform.

The Schools Admissions Code will also tackle covert selection methods by ensuring that other school policies (such as the uniform policy) do not discourage parents from applying to the school of their choice.

The Department plans to publish updated guidance on school uniforms and related policies next month. This guidance will provide schools with advice on how to develop fair and reasonable school uniform policies.

Teachers: Languages

Michael Gove: To ask the Secretary of State for Children, Schools and Families what percentage of teachers of modern foreign languages in state secondary schools have a degree level qualification in the languages they teach. [155254]

Jim Knight: The following table provides the number of full-time teachers employed in maintained secondary schools by the highest post A level qualification held in the subjects they teach.

Teachers in Service. Full-time teachers in maintained secondary schools—Highest post A level qualifications[1] held in the subjects they teach[2] to year groups 7-13, England

Percentages

	Degree[3]	BEd	PGCE	Cert Ed	Other qual.	No qual.	Total teachers (Thousand)

Teachers in Service: Full-time teachers in maintained secondary schools—Highest post A level qualifications[1] held in the subjects they teach[2] to year groups 7-13, England

Percentages

	Degree[3]	*BEd*	*PGCE*	*Cert Ed*	*Other qual.*	*No qual.*	*Total teachers (Thousand)*
Citizenship	2 ± 1	1 ± 1	2 ± 1	- ± 1	- ± -	94 ± 2	9.0
Other	—	—	—	—	—	—	32.8
Total[2]	33 ± -	10 ± -	7 ± -	5 ± -	1 ± -	44 ± -	388.4

'-' = zero or less than 0.5.

[1] Where a teacher has more than one post A level qualification in the same subject, the qualification level is determined by the highest level reading from left (Degree) to right (Other Qual.). For example, teachers shown under PGCE have a PGCE but not a degree or BEd in the subject, while those with a PGCE and a degree are shown only under Degree.

[2] Teachers are counted once against each subject which they are teaching.

[3] Includes higher degrees but excludes BEds.

[4] Teachers qualified in combined/general science are treated as qualified to teach biology, chemistry, or physics. Teachers qualified in biology, chemistry or physics are treated as qualified to teach combined/general science.

[5] Teachers qualified in other/combined technology are treated as qualified to teach design and technology or information and communication technology. Teachers qualified in design and technology or information and communication technology are treated as qualified to teach other/combined technology.

[6] Information and Communication Technology is abbreviated as ICT and Personal Social and Health Education is abbreviated as PSHE.

'Other' not included in total percentages.

Secondary Schools Curriculum and Staffing Survey 2002.

Teachers: Pay

Mr. Fallon: To ask the Secretary of State for Children, Schools and Families what representations he has received on teachers' pay since his appointment; and if he will make a statement. [155136]

Jim Knight: Since his appointment my right hon. Friend has received some correspondence relating to teachers' pay and had meetings with unions and others, in which a variety of issues have been discussed.

DUCHY OF LANCASTER

Contracts: Finance

Dr. Murrison: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the savings accrued as a consequence of the Pan-Government Office solutions tender earlier this year; and if he will make a statement. [155232]

Andy Burnham: I have been asked to reply.

The savings estimated by the Office of Government Commerce for the Pan-Government solutions tender is £100 million spread over the four year period of the contract. The contract commences on 1 October 2007.

Departments: Carbon Emissions

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what changes in his Department's practice have resulted from the signing of the Carbon Trust's Carbon Management Programme. [151272]

Phil Hope: Signing up to the Carbon Trust's Carbon Management Programme has enabled the Cabinet Office to identify a more strategic, structured and long term approach to energy management and awareness raising practices. For example, the Cabinet Office has begun a programme of works to install passive infrared lighting controls (PIRs).

Departments: Disabled

Mr. Harper: To ask the Chancellor of the Duchy of Lancaster what proportion of people employed by *(a)* his Department and *(b)* its agencies are disabled. [153599]

Gillian Merron: The latest available data on the disability status of civil servants in Departments and agencies are as at 30 September 2006 and are published in "Civil Service Statistics 2006" at table P. This document is produced by the Office for National Statistics and can be accessed from the following website addresses.

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=&ColRank=1&Rank=422

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

Departments: Manpower

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many press officers are employed by his Department. [152991]

Gillian Merron: The Cabinet Office currently employs six press officers.

Departments: Procurement

Dr. Murrison: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the savings accrued as a consequence of the use of reverse auctions as a procurement mechanism by his Department; and if he will make a statement. [155235]

Edward Miliband: Reverse auctions have not been used so far as a procurement mechanism in my Department.

Due to the nature of the Cabinet Office's procurement, the scope for exploiting the benefits of reverse auctions is limited. Where suitable opportunities arise, and the benefits would outweigh the costs, a reverse auction would be employed as the procurement mechanism.

The Cabinet Office makes extensive use of collaborative frameworks set up by other Departments where reverse auctions have been used. This will enable the Department to derive the benefits of savings in future.

Departments: Publications

Greg Clark: To ask the Chancellor of the Duchy of Lancaster how much the Cabinet Office departmental report 2007 Making Government Work Better cost to design, produce and publish. [155196]

Edward Miliband: The cost of designing, producing and publishing the Cabinet Office departmental report 2007 in print and on-line was £50,299.

Government: Procurement

Dr. Murrison: To ask the Chancellor of the Duchy of Lancaster what criteria are used to determine whether to use *(a)* preferred suppliers or *(b)* reverse auctions in Government procurement projects; and if he will make a statement. [155231]

Jane Kennedy: I have been asked to reply.

The Government do not have preferred suppliers. The Government's policy is that public procurement decisions are to be based on value for money. Public procurers must also adhere to EU procurement rules, based on principles of non-discrimination, transparency and competitive procurement. Within this legal and policy framework, it is possible to set up framework agreements, with particular suppliers, following an appropriate competitive exercise in line with EU rules.

E-auctions (or reverse auctions) are just one of a number of procedures and techniques available to public procurers under the public procurement rules. It is ultimately for contracting authorities to decide which procurement approach, including the use of e-auctions, is appropriate on a case-by-case basis, taking into account their obligations to deliver the best value for money for the taxpayer.

The Government are determined to improve public procurement as set out in 'Transforming Government Procurement', published in January this year. It defines the vision for an improved Government procurement service, has led to the establishment of departmental procurement capability reviews and has led to the introduction of a new major projects review group in the Treasury.

Dr. Murrison: To ask the Chancellor of the Duchy of Lancaster whether he plans to increase the use of reverse auctions as a procurement mechanism for Government *(a)* projects and *(b)* supplies; and if he will make a statement. [155234]

Jane Kennedy: I have been asked to reply.

Government Departments are responsible for choosing the procurement procedures and techniques they consider most appropriate, including electronic (reverse) auctions, taking into account their obligations to achieve value for money for the taxpayer.

Many procurements are subject to the requirements of the EU procurement rules. These include specific requirements for the setting up and running of e-auctions. The Government have put in place a framework agreement to enable public authorities to choose providers to run e-auctions for them, consistent with those rules.

The Government are determined to improve public procurement as set out in 'Transforming Government Procurement', published in January this year. It defines the vision for an improved Government procurement service, has led to the establishment of departmental procurement capability reviews and led to the introduction of a new major projects review group in the Treasury.

Ministers: Official Residences

Mr. Spring: To ask the Chancellor of the Duchy of Lancaster how many nights Ministers have stayed at *(a)* Chevening, *(b)* One Carlton Gardens, *(c)* Hillsborough Castle and *(d)* Lord Chancellor's Apartments since 27 June. [152454]

Gillian Merron: Official residences are assigned to Ministers by the Prime Minister either on grounds of security or in order to allow them to perform better their official duties. The number of nights Ministers stay in official residences is a matter for the individual Minister, the information is not collected centrally.

Office of the Third Sector

Mr. Love: To ask the Chancellor of the Duchy of Lancaster if he will undertake an assessment of the attributes of successful social enterprise models; and if he will make a statement. [151337]

Phil Hope: The Government's Social Enterprise Action Plan, published in November 2006, recognised the need for further research on social enterprises. The Office of the Third Sector is currently engaging with academic organisations, the Social Enterprise Coalition, and other third sector partners to design an appropriate programme of original and useful research which is reflective of the needs of the sector as well as Government.

Offices: Deputy Prime Minister

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what use will be made of the former Deputy Prime Minister's offices. [153528]

Gillian Merron: I refer the right hon. Gentleman to the answer I gave to the hon. Member for Lewes (Norman Baker) on 12 July 2007, *Official Report*, column 1641W.

Redundancy: Deputy Prime Minister

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster whether any staff from the Deputy Prime Minister's Office will be made redundant. [153529]

Gillian Merron: No staff from the former Deputy Prime Minister's Office have been made redundant.

WALES

Departments: Aviation

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on *(a)* first class and *(b)* business class flights in the last 12 months. [153250]

Mr. Hain: In the past 12 months my Department has spent £4,440 on first class flights and £2,946.50 on business class flights.

Departments: Correspondence

Mr. Carmichael: To ask the Secretary of State for Wales how many letters he and his predecessors sent in each of the last five years. [153445]

Mr. Hain: Before 2006 the Wales Office systems recorded total correspondence sent, but without details of sender. Information for that period could be obtained only at disproportionate cost.

In 2006 I sent 383 letters.

The Wales Office publishes correspondence statistics in its annual report and for the Cabinet Office for the annual report to Parliament.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Wales what proportion of people employed by his Department are disabled. [153601]

Mr. Hain: The Wales Office has a few staff with disabilities. For reasons of privacy no details are given, in line with Cabinet Office guidance.

The latest available data on the disability status of civil servants in Departments and agencies are as at 30 September 2006 and are published in "Civil Service Statistics 2006" at table P. This document is produced by the Office for National Statistics and can be accessed from the following website addresses.

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=&ColRank=1&Rank=422

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

Declaration of a disability is voluntary.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on flowers in the last 12 months. [153251]

Mr. Hain: In the last 12 months my Department spent £40 on flowers.

Departments: Internet

Mr. David Jones: To ask the Secretary of State for Wales what plans he has to review the appearance and content of the Wales Office website. [153452]

Mr. Hain: The Wales Office website is now regularly reviewed and was updated in July with the latest information on legislation, including the Government of Wales Act.

A project is under way to review the current site design and functionality and management processes, bearing in mind the stakeholders the Wales Office needs to reach. A new site will be established, contracts willing, before the end of 2007.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Wales how many people have been appointed to his Department outside civil service grades in the last 30 days. [153280]

Mr. Hain: None.

Mr. Hoban: To ask the Secretary of State for Wales how many press officers are employed by his Department. [153282]

Mr. Hain: Three.

Departments: Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Wales what the name is of each special adviser in his Department. [153281]

Mr. Hain: The Wales Office special advisers are Dr. Andrew Bold and Mr. Joe Carberry.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on newspapers and magazines in the last 12 months. [153248]

Mr. Hain: The Wales Office does not record expenditure on newspapers and magazines separately from that on other publications, so the information requested could be provided only at disproportionate cost.

Departments: Railways

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on first class train tickets in the last 12 months. [153249]

Mr. Hain: The Wales Office expenditure on first class rail tickets for the last 12 months was £72,142.82.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on redundancy payments in the last 12 months. [153243]

Mr. Hain: None.

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on taxis in the last 12 months. [153252]

Mr. Hain: In the last 12 months my Department has spent £2,548.87 on taxis.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on staff away days in the last 12 months. [153244]

Mr. Hain: In the last 12 months my Department has spent £15,109.04 on staff away days.

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on *(a)* staff training and *(b)* communication training in the last 12 months. [153245]

Mr. Hain: Records for training budgets are only kept in financial year.

For 2006-07 my Department spent:

(a) on staff training £13,032.66

(b) on communication training £975.

For 2007-08 the current spend to June is:

(a) on staff training £3,610

(b) communication spending nil.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Wales how much was spent by his Department on industrial tribunals in the last 12 months. [153246]

Mr. Hain: Nil.

National Assembly for Wales: Powers

Mrs. Gillan: To ask the Secretary of State for Wales whether a referendum to give primary law-making powers to the National Assembly for Wales would be subject to the Political Parties, Elections and Referendums Act 2000. [155211]

Mr. Hain: Yes. Section 103 of the Government of Wales Act 2006 provides for holding a referendum, subject to the provisions in Schedule 6 to that Act. Schedule 6 describes the procedure for holding such a referendum and sets out the provisions of the Political Parties, Elections and Referendums Act 2000 which apply to different aspects of the referendum, including the referendum question itself and the process.

Non-Departmental Public Bodies

Mr. Amess: To ask the Secretary of State for Wales what recent discussions he has had with Ministers in the Welsh Assembly Government on the role of quangos in Wales; and if he will make a statement. [152761]

Mr. Hain: I have regular discussions with Ministers in the Welsh Assembly Government on a range of issues.

The merger of quangos into the Welsh Assembly Government in 2006 has streamlined structures and processes, simplified decision making and allowed public services to become more flexible and responsive to the needs of businesses and learners.

Private Finance Initiative

Mr. Touhig: To ask the Secretary of State for Wales how many projects for which the UK Government are responsible have been built in Wales under the private finance initiative. [151854]

Mr. Hain: The Wales Office does not hold this information. HM Treasury publish information on their website on all PFI projects at:

http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Police

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* capability and *(b)* membership of the Afghan police force and the Afghan armed forces; and if he will make a statement. [155062]

David Miliband *[holding answer 10 September 2007]:* The strength of the Afghan National Army (ANA) on 1 August 2007 was 40,360 against a target figure of 70,000. The reason for this disparity is because the ANA has had to be recruited and trained from an almost non-existent base since 2001. The ANA is a key ally in the International Security Assistance Force (ISAF) campaign, and is proving itself to be increasingly capable of conducting operations alongside ISAF partners.

The Afghan national police (ANP) is the primary law enforcement body within Afghanistan and receives training and mentoring from international donors, including through the US-led police training programme Combined Strategic Transition Command Afghanistan (CSTC-A) and the EU policing mission. The latest assessment by the CSTC-A estimates that there are around 76,000 members of the ANP drawn from all regions of Afghanistan. Our assessment is that the ANP requires further mentoring in order to be capable of conducting operations independently. Capability in policing functions is supplemented by the specialist skills of the counter narcotics police of Afghanistan, the Afghan border police and the Afghan national civil order police.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what targets have been set for reform of policing in Afghanistan; what progress has been made towards reaching these targets; and if he will make a statement. [155063]

David Miliband *[holding answer 10 September 2007]:* The main Afghan national police (ANP) training programme is run by the US-led Combined Security Transition Command Afghanistan (CSTC-A). The CSTC-A programme's target is for the ANP to be capable of operating effectively without international support, except in extremis, by December 2012. Support in meeting this target is provided by the EU policing mission launched in June, with the aim of improving the quality of the ANP. The latest

assessment by the CSTC-A estimates that there are around 76,000 members of the ANP drawn from all regions of Afghanistan. The agreed policing structure, signed by the Afghan Government in 2007, anticipates growth of the ANP to reach a total of 82,000.

Iran: Baha'i Sect

Mark Durkan: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment the UK Government have made of the impact of the changes in recent years in Iran's treatment of Baha'is in respect of higher education; and if he will make a statement. [155356]

Dr. Howells: We remain concerned about the treatment of religious minorities in Iran and discrimination against the Baha'i community in particular. Denial of access to higher education has been a long-term problem for Baha'i students.

After the removal of religious identification from the national university entrance examination in 2006, a number of Baha'i students sat the exam for academic year 2006-07. Although over 250 Baha'i students were admitted to various campuses across Iran last autumn, reports suggest that at least 120 were subsequently expelled as universities became aware of their religion. We are concerned that more Baha'i students may be expelled in the future.

We recently received reports that students applying for places in technical and vocational institutions for the forthcoming 2007-08 academic year have been required to complete a form which asks them to state their religion. The minority religion options listed are Christian, Zoroastrian or Jewish and the form explains that if no box is marked the applicant will be considered to be Muslim. This is a worrying return to the earlier position whereby applicants had to state their religious affiliation. We wait to see whether there will be a similar change in admission procedures for university entry this academic year.

We take this issue seriously and will continue to monitor the situation and take action as required. We have pressed the Iranian authorities on many occasions, bilaterally and through the EU, to address the discrimination against Iranian Baha'is. The EU did so most recently on 1 September, raising specific concerns about access to education. We also take action at the UN and in December 2006, we along with all EU countries, co-sponsored a resolution on human rights in Iran which expressed serious concern at

"the increased frequency of discrimination and other human rights violations against members of the Baha'i Faith, including [...] the denial of access to higher education".

Mark Durkan: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations have been *(a)* received and *(b)* made by the UK Government regarding the effects on Baha'i students of religious requirements introduced for entry to Iran's technical and vocational institutes. [155357]

Dr. Howells: The Government received reports last month from the National Assembly of the Baha'is of the United Kingdom about a change in the application procedure for Iran's technical and vocational institutes. Students applying for places at these institutions for academic year 2007-08 have been required to complete a form that asks them to state their religion. The minority religion options listed are Christian, Zoroastrian or Jewish, and the form explains that if no box is marked the applicant will be considered to be Muslim. Baha'i students are effectively excluded from studying in these institutes unless they deny their faith by having it incorrectly recorded on official forms. This is a worrying new example of systematic discrimination against members of the Baha'i minority in Iran, who have long faced restrictions on access to higher education.

We continue to raise our concerns about the treatment of the Iranian Baha'is with Iran, bilaterally and through the EU. In a meeting with the Iranian authorities on 1 September, the EU, with strong UK support, condemned such discriminatory measures used against the Baha'i community, and pressed Iran to uphold their international human rights commitments to freedom of religion and to ensure that Baha'is are given the same rights as other Iranian citizens including access to education.

Iran: Sanctions

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with his US counterpart about extending *(a)* financial, *(b)* trade and *(c)* travel sanctions against Iran. [155186]

Dr. Howells: My right hon. Friend the Foreign Secretary maintains regular contact with his US counterpart and other key allies on the situation in Iran. Discussions are also taking place at senior official level within the E3+3 process (UK, France, Germany, US, Russia and China) about the next stages of the international community's response to Iran's failure to respect its international obligations. This process includes discussion of possible further restrictive measures against Iran. The Government and the US administration are united in the belief that Iran must realise that its continued defiance of the UN Security Council will not be cost free.

Sudan: Peace Keeping Operations

Mr. Vara: To ask the Secretary of State for Foreign and Commonwealth Affairs following the UN Security Council's passing of Resolution 1769, authorising the deployment of 26,000 peacekeepers to Darfur, *(a)* what discussions he has had with his counterparts in other countries, *(b)* when these discussions were held, *(c)* what actions have been taken to date and *(d)* what future actions are planned to ensure the success of the mission. [155179]

Mr. Jim Murphy: The UK is working closely with both the African Union (AU) and the UN to support the effective deployment of the AU-UN Mission in Darfur (UNAMID). We are in regular contact with the UN's Department for Peacekeeping Operations, which is responsible for generating the forces required. At their request, we have lobbied widely for UN member states to provide the necessary capabilities. My right hon. Friend the Foreign Secretary and my noble Friend

the Minister with responsibility for Africa, Asia and the UN, Lord Malloch-Brown, have been in contact with several existing and potential troop contributors. Lord Malloch-Brown is currently visiting Sudan where he is raising the need for speedy deployment of the force with the Sudanese Government.

At a meeting with the AU and UN on 7 September in Addis Ababa, the UK pressed for speedy deployments and effective integration of partner support to the AU Mission into UNAMID. We are also providing planning support to the mission. We will continue to work closely with the AU, UN and international partners to support its successful deployment.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

British Gas: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will seek to obtain from the chairman of British Gas replies to letters sent to him on 23 July, 23 August and 31 August by the right hon. Member for Manchester, Gorton with regard to Mrs. S. Stephenson. [155261]

Malcolm Wicks: My right hon. Friend will understand that, as an independent company, British Gas is responsible for dealing with its own correspondence. However, I understand that, in this case, British Gas has now replied to my right hon. Friend and his constituent.

Departments: Older Workers

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of staff in his Department were over 60 years of age in each of the last three years. [145688]

Mr. Thomas: The percentage of staff over 60 years of age in each of the last three years is as set out in the following table:

	Age 60 and over	*Total population*	*Percentage of staff over 60*
1 January 2004	123	4,680	3
1 January 2005	131	4,424	3
1 January 2006	129	4,311	3

Note:
Based on total staff including UKTI and SBS

Departments: Press

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform to which periodicals his Department subscribes. [153127]

Mr. Thomas: The information relating to this question is not held centrally within my Department. To collate this would incur disproportionate cost.

Electricity: Billing

Martin Horwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the average annual domestic electricity bill for a typical consumer in *(a)* Cheltenham constituency and *(b)* each region was in each year since 1998. [155303]

Malcolm Wicks: Average domestic electricity[1] bills are published for the 15 Public Electricity Supply areas in the UK. Cheltenham is contained in the West Midlands supply region, the average bill for this region will be representative of the average price for households in Cheltenham. The data presented are for standard credit customers in cash terms, they have not been adjusted for inflation.

Average annual domestic electricity bill

£/year

	1998	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*
East Midlands	261	254	240	233	228	228	239	266	321
Eastern	263	251	241	230	227	226	231	262	316
London	263	258	252	246	244	249	252	288	339
Merseyside and North Wales	280	278	271	261	260	261	274	286	357
North East	287	284	264	253	253	250	256	288	341

[1] The bills for standard electricity do not include customers who are on economy 7 tariffs.

Exports: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many businesses in the Yorkshire and Humber region export goods and services. [155274]

Mr. Thomas: HM Revenue and Customs publish details of the UK Regional Trade in Goods Statistics on a quarterly basis.

In figures published on 6 September 2007 the total number of companies in the Yorkshire and Humber region exporting in the year ended March 2007 has been recorded by HM Revenue and Customs at 5,591.

HM Revenue and Customs provisional data for the first two quarters of the year 2007-08 record 4,303 companies in the Yorkshire and Humber region exporting.

Foreign Investment: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much foreign investment was received in *(a)* Yorkshire and the Humber and *(b)* the City of York in each year since 2003; and what estimate he has made of the number of jobs generated from it. [155275]

Mr. Thomas: A total of 137 foreign direct investments have been recorded in Yorkshire and the Humber since 2003, of which 13 were in the City of York.

Since 2003 the number of foreign direct investments per year is:

	(a) Y and H total	*(b) York City total*
2003-04	24	2
2004-05	43	3
2005-06	29	6
2006-07	41	2
Total	137	13

It is estimated that the total number of new jobs created in Yorkshire and the Humber since 2003 is 7,349.5 of which 169.5 were in the City of York. The total number of jobs saved in Yorkshire and the Humber since 2003 is 3,722 of which three were in the City of York.

Since 2003 the number of jobs generated is:

	Y and H jobs		*York City jobs*	
	New	*Saved*	*New*	*Saved*
2003-04	2,356	460	53	0
2004-05	2,595	1,207	10	3

Fuel Poverty

David Taylor: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he is taking to ensure that the cost of gas and electricity is affordable to fuel-poor households; and if he will make a statement. [155225]

Malcolm Wicks: BERR continues to work with the industry, OFGEM, Energywatch and the voluntary sector to ensure that fuel poor households are aware of, and take advantage of, the significant reductions that can be made in energy bills by transferring supplier, using the cheapest and simplest payment methods, installing energy efficiency measures and accessing Government and industry social and fuel poverty programmes.

In the Energy White Paper, we welcomed initiatives announced by energy companies that help their vulnerable customers to cope with high prices, and we continue to encourage more companies to take action in this area. We see the provision of assistance to help their most vulnerable customers as a key part of each company's corporate social responsibility programmes, and will be looking for each company to put in place a proportional programme of assistance.

Industrial Diseases: Compensation

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which miners' compensation claims are to be outsourced to India; and when they were first registered with his Department. [154937]

Malcolm Wicks *[holding answer 10 September 2007]:* No claims will be outsourced to India. Capita's operation in Mumbai will handle some routine administration work on the coal health compensation schemes. None of the work will be customer facing. Nor will it involve interaction with solicitors or claimants.

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what restrictions there are in his Department's contract with Capita in relation to the outsourcing of miners' compensation claims to India. [154942]

Malcolm Wicks *[holding answer 10 September 2007]:* The Department's contract with Capita does not restrict the transfer of work to India. The decision to offshore is ultimately a commercial decision. The Department supported this decision to help manage risks including those associated with staff retention in the period until completion of the coal health compensation schemes.

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many miners' compensation claims remain unsettled in *(a)* Bassetlaw and *(b)* nationally. [155117]

Malcolm Wicks *[holding answer 10 September 2007]:* The numbers of outstanding claims are as follows:

(a) In Bassetlaw, there are 1,187 respiratory disease claims and 411 Vibration White Finger claims outstanding; and

(b) Nationally, there are 119,800 respiratory disease claims and 16,270 Vibration White Finger claims outstanding.

Natural Gas: Billing

Martin Horwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the average annual domestic gas bill for a typical consumer in *(a)* Cheltenham constituency and *(b)* each region was in each year since 1998. [155304]

Malcolm Wicks: Average domestic gas bills are published for the 12 local distribution zones in Great Britain. Cheltenham is contained in the West Midlands region, the average bill for this region will be representative of the average price for households in Cheltenham. The data presented are for standard credit customers in cash terms, it has not been adjusted for inflation.

Average annual domestic gas bill

	1998	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*
East Midlands	316	303	292	290	309	312	331	383	473
Eastern	318	305	296	291	309	321	332	383	474
London	318	305	295	293	309	320	334	388	480
North East	309	304	294	290	309	318	332	385	474

Wales	313	297	291	291	306	318	335	391	460
West Midlands	317	307	297	296	313	324	333	389	480

Regional Development Agencies: Boston, Massachusetts.

Mr. Ellwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many regional development agencies have offices in Boston, Massachusetts. [155236]

Mr. Timms: The information is as follows.

AWM and EMDA have a joint office in Boston under the 'British Midlands' banner.

NWDA and One NorthEast have a joint office in Boston under the 'North of England' banner.

SEEDA has an office in Boston.

EEDA, LDA, SWRDA and Yorkshire Forward have no offices there.

Renewable Energy

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of energy produced in the UK between 1 January and 30 June came from renewable sources. [154820]

Malcolm Wicks *[holding answer 10 September 2007]:* The latest available data are for 2006 as a whole and show that energy produced from renewable sources in the UK amounted to 3,933 thousand tonnes of oil equivalent. Total indigenous production of energy in the UK in 2006 amounted to 196,668 thousand tonnes of oil equivalent, so in percentage terms UK renewable sources accounted for 2 per cent. In 2006, 4.6 per cent. of the electricity generated in the UK was from renewable sources.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Ellwood: To ask the Secretary of State for Defence how many UK military personnel have lost limbs during operations in *(a)* Afghanistan and *(b)* Iraq. [154946]

Des Browne *[holding answer 10 September 2007]:* The Complex Rehabilitation and Amputee Unit (CRAU) at the Defence Medical Rehabilitation Centre (DMRC), at Headley Court in Surrey became fully operational on 1 June 2006. Between that date and 6 September 2007, it has treated 24 casualties from Iraq and 12 from Afghanistan.

Prior to 1 June 2006, comprehensive information on the number of military personnel who have suffered amputations as a result of wounds received on active service was not held centrally. To provide this information would require the examination of the individual medical records of each patient who has been classified as very seriously injured or seriously injured in Iraq and Afghanistan. These records can only be viewed for non-clinical reasons with the express consent of each individual concerned, to protect patient confidentiality.

Bob Russell: To ask the Secretary of State for Defence if he will make it his policy to reimburse Royal Mail to enable parcels to be posted free of charge to military personnel serving in Afghanistan and Iraq; and if he will make a statement. [155204]

Mr. Bob Ainsworth: On 25 August the Ministry of Defence and Royal Mail Group announced that a free postage scheme would operate between 3 September and 7 December inclusive, and that further negotiations would take place on how to extend the scheme beyond this date.

These discussions are currently under way and it would not be appropriate to speculate on their outcome at this time. A statement on the future of the free postage scheme will be made once negotiations have been finalised.

Armed Forces: Retirement

Mr. Crabb: To ask the Secretary of State for Defence how many members of the armed forces approaching retirement had applications for extension of service declined in each year since 2000. [154932]

Derek Twigg *[holding answer 10 September 2007]:* The majority of the information requested is not held centrally and could be provided only at disproportionate cost. Data are available, however, for Royal Navy Ratings between 2000 and 2005 and are shown as follows.

RN Ratings—Applications for Extension of Service Declined

	Number
2000	47
2001	61
2002	57
2003	57
2004	30
2005	38

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence what role and function the future utility vehicle under the Future Rapid Effect System programme will play in counter-insurgency. [148569]

Mr. Bob Ainsworth: The Future Rapid Effect System (FRES) will deliver a fleet of wheeled and tracked armoured vehicles capable of operating across the spectrum of operations and protect against the most likely threats. The FRES utility vehicle operating alongside more specialist Protected Patrol Vehicles such as Mastiff could carry out a variety of tasks during counter insurgency operations including patrols and the movement of personnel and equipment.

BAE Systems: Saudi Arabia

Dr. Cable: To ask the Secretary of State for Defence what requests his Department has received from the US Department of Justice for assistance with its investigation into BAE Systems; and if he will make a statement. [155029]

Des Browne *[holding answer 10 September 2007]:* I refer the hon. Member to the answer I gave on 5 July 2007, *Official Report*, column 1132W, to the right hon. Member for East Yorkshire (Mr. Knight).

Ballistic Missile Defence

Mr. Dai Davies: To ask the Secretary of State for Defence what representations he has received from *(a)* hon. Members, *(b)* members of the public and *(c)* campaign organisations on his written ministerial statement of 25 July 2007, *Official Report*, columns 71-2WS, on ballistic missile defence. [155194]

Des Browne: As of 10 September, I have received 10 letters from MPs (all but one of them forwarding correspondence from constituents), and 17 letters from members of the public (two of which were on behalf of Quaker meetings), relating to my written ministerial statement on ballistic missile defence.

Departments: Information Officers

Dr. Fox: To ask the Secretary of State for Defence what the total expenditure on his Department's communications and media personnel was in 2006-07. [153322]

Derek Twigg: The Ministry of Defence does not record centrally expenditure on communications and media personnel across Defence where the personnel devote only a small proportion of their time to communications. This information could be provided only at disproportionate cost. However, in 2006-07 expenditure on all personnel employed by the MOD's central Directorate General Media and Communications—including all regional and support staff—was £10.4 million.

Iraq: Peacekeeping Operations

Andrew Mackinlay: To ask the Secretary of State for Defence which Government officials were authorised to speak to BBC Newsnight in respect of that programme's item on Wednesday 8 August about the provenance of weapons used against United Kingdom and coalition forces in Iraq; and if he will make a statement. [154883]

Des Browne *[holding answer 10 September 2007]:* Officials from the MOD were not authorised to speak to Newsnight about this specific issue.

Mark Pritchard: To ask the Secretary of State for Defence if he will put in place increased and improved counter-indirect fire measures to protect UK service personnel serving at Basra air station in Iraq. [154905]

Des Browne *[holding answer 10 September 2007]:* Improving the protection of UK service personnel at Basra Air Station has been, and continues to be, a top priority. There are a range of offensive, defensive and protective measures in place to protect our people. We continually develop our tactics, procedures and capabilities to deal with the evolving threat. I can confirm that in the last few months a number of new and improved capabilities have been put in place and the position will continue to be kept under review.

I am withholding details of specific equipment or techniques as their release would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces.

Andrew Mackinlay: To ask the Secretary of State for Defence whether a Government official responded to the attribution by BBC Newsnight of remarks during its programme on 8 August about the provenance of weapons used against the United Kingdom and coalition forces in Iraq to a Government official; and if he will make a statement. [155021]

Des Browne *[holding answer 10 September 2007]:* An official from the MOD contacted BBC Newsnight following the report.

Military Aircraft: Helicopters

Mr. Wallace: To ask the Secretary of State for Defence how many helicopters there are in the UK armed services, broken down by *(a)* type and *(b)* role; and how many helicopters in the UK armed services are (i) out of service due to reduced readiness and (ii) mothballed. [154973]

Mr. Bob Ainsworth *[holding answer 10 September 2007]:* The following table sets out the number of helicopters in the UK armed forces broken down by type and role as at 4 September 2007. Aircraft that are out of service due to reduced readiness has been taken to mean aircraft in the Depth Fleet, that is, aircraft on scheduled routine maintenance, repair and upgrade programmes. Mothballed has been taken to mean aircraft placed in storage in a flying or 'near flying' condition. The fleet sizes quoted cover those aircraft expected to be flown and does not include some aircraft that are currently classified as redundant or un-repairable.

Helicopter type	*Helicopter role*	*Fleet size*	*In depth fleet (as part of fleet size)*	*In storage (as part of fleet size*
Agusta A109A/AM	Light multi-role	4	0	0
Apache AH MK1	Attack helicopter	67	18	0
Chinook Mk 2/2a	Heavy lift	40	13	0
Gazelle Mk 1[1]	Light utility/reconnaissance	73	19	0
Lynx Mk 3/Mk 8	Anti-submarine & anti small surface craft	64	20	0
Lynx Mk 7/9	Multi role light utility (lift, reconnaissance, casualty evacuation)	99	33	7
Merlin Mk 1	Anti-submarine & anti surface warfare	39	11	0
Merlin Mk 3	Battlefield support helicopter	22	8	0
Puma Mk 1	Battlefield helicopter	38	13	0
Sea King Mk 3/3a	Search and Rescue (SAR)	25	8	0
Sea King Mk 4	Commando	37	8	0
Sea King Mk 5	Helicopter utility (HU)	16	5	0
Sea King Mk 6CR	Commando	5	1	2
Sea King Mk 7	Airborne surveillance and control (ASAC)	13	4	0

[1] Gazelle is being progressively removed from service. In addition to the figures provided above there are a number of Gazelle which although in storage have been cannibalised and are not in a flying or 'near flying' condition.

In addition to the aircraft in the table there are 14 Sea King Mk 6s which have been removed from service having gone beyond their out of service date and are not in a flying or 'near flying' condition.

Also the MOD has acquired six Danish Merlin aircraft that are currently in the process of being modified to theatre entry specification. There are also eight Chinook Mk3 helicopters currently being converted to a support helicopter role.

In addition to the aircraft above the Department contracts for commercially owned but military registered helicopters and the following table shows those broken down by type and role as at 4 September 2007. These aircraft are on availability contracts and are not owned by the Department.

Helicopter type	*Fleet size*	*Helicopter role*
Dauphin	2	Winching and operations to NATO ships
Bell 212	7	Utility
Bell 412	15	Utility
Squirrel	37	Flying training
Agusta A109E Power	3	Communications flight/VIP

Nuclear Weapons: Procurement

Mr. Dai Davies: To ask the Secretary of State for Defence when development work began on the high surety warhead at Aldermaston; how much has been spent on the warhead; and what the total projected cost for the new warhead is. [155195]

Des Browne: There is no programme to develop a new warhead at AWE Aldermaston.

In section 7 of the December 2006 White Paper: The Future of the United Kingdom's Nuclear Deterrent (Cmd 6994) we explained that decisions on whether and how we may need to refurbish or replace our current warhead are likely to be necessary in the next Parliament. As part of the work to inform those decisions we are now reviewing the optimum life of our existing warhead stockpile and identifying the range of replacement options that might be available.

Royal Military Academy: Charities

Nick Harvey: To ask the Secretary of State for Defence what factors were taken into account in deciding not to waive the liability charge for the Royal Military Academy Sandhurst Music on Fire charity. [152354]

Derek Twigg: Under Government Finance Accounting Regulations, there are no special arrangements for the treatment of charities, whether Service or other. The fact that a charity is to be the main beneficiary of a good or service is not sufficient justification to introduce a special charging regime or to set charges aside.

Under normal charging arrangements full costs would be levied for an event such as the Music on Fire event held by the Army Benevolent Fund (ABF) at the Royal Military Academy Sandhurst on 22, 23 and 24 September 2006. However, in view of the fact that the ABF works on behalf of ex-Service personnel, a

case for abatement was agreed whereby the MOD subsidised the cost of hosting this event. The contract drawn up between the MOD and the ABF stated that the charge would be 15 per cent. of the net profit from the event or the direct costs to the MOD, whichever was greater.

MINISTER FOR WOMEN

Equal Pay

Mr. Nicholas Brown: To ask the Minister for Women and Equality what the gender pay gap was for part-time employees in *(a)* the public sector and *(b)* the private sector in the last 12 months for which figures are available. [147149]

Ms Harman: I have been asked to reply.

In 2006, the gender pay gap for part-time employees was 39.3 per cent. in the public sector and 44.1 per cent. in the private sector. This is the gap between the median hourly pay, excluding overtime, of men working full-time and women working part-time, taken from the Annual Survey of Hours and Earnings.

Females: Criminal Proceedings

Lynne Jones: To ask the Minister for Women and Equality what recent discussions she has had with colleagues in the Ministry of Justice on implementing the recommendations of the Corston report. [150907]

Ms Harman: I have been asked to reply.

In drafting my Command Paper 7183 Priorities for the Ministers for Women I consulted with the Lord Chancellor and Secretary of State for Justice on women offenders and women at risk. Officials from the Women and Equality Unit are working with the Ministry of Justice and other Government Departments on a joined up Government response to Baroness Corston's report.

Public Sector: Equal Pay

Mark Pritchard: To ask the Minister for Women and Equality what progress is being made to ensure equal pay for women working in the public sector. [149200]

Ms Harman: I have been asked to reply.

Since 1997, the gender pay gap in the public sector has fallen by five percentage points and now stands at nine per cent. based on median, full-time hourly pay.

The public sector gender equality duty, which came into force in April, includes a requirement for public authorities to set out their overall gender equality objectives and to consider the need to have objectives to address the causes of any differences between the pay of men and women related to their sex.

The Public Services Forum (PSF), set up to promote dialogue between Government, trade unions and employers on public service workforce reform issues, has agreed to consider the Government's Action Plan Implementing the Women and Work Commission recommendations at its next meeting in October, and to discuss the links between increasing women's access to wider career options, flexible reward systems and equal pay. The Government's commitment on fair and equal pay is embedded within the PSF Pay and Reward Principles.

The Government continue to monitor equal pay across the public sector.

HEALTH

Care Homes

Mark Durkan: To ask the Secretary of State for Health whether recent action has been taken to remove the restrictions on local authorities in England which do not allow them to make and pay for residential placements in Scotland and Northern Ireland. [155333]

Alan Johnson: Under section 21 of the National Assistance Act 1948 English local authorities only have powers to place people in residential care in England and Wales. However, we wish to change this to enable local authorities to make cross-border placements.

Under section 56 of the Health and Social Care Act 2001, the Secretary of State for Health has the power to make regulations to enable local authorities to make placements in other parts of the United Kingdom.

Discussion between the Department and opposite numbers in countries covered by section 56 have revealed that because of the very different care regimes in these countries, this would be much more complex and difficult to make than originally thought. The Department is considering these difficulties and how to deal with them.

Dental Services: Cornwall

Andrew George: To ask the Secretary of State for Health how many dental patients were treated in Cornwall in each year since 1997. [155343]

Alan Johnson: Information is not held in the format requested.

Information is available on the number of patients registered with a dental practice to receive national health service care and treatment, for the period up to 31 March 2006. Numbers of patients registered as at 31 March 1997 to 31 March 2006 are available in annex A of the "NHS Dental Activity and Workforce Report England: 31 March 2006".

Information is available at strategic health authority (SHA) and primary care trust (PCT) level in England. Annex C of the above report also includes numbers of registrations at parliamentary constituency level.

This report is available in the Library and is also available on-line at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

Since April 2006, patients no longer have to register with a dental practice to receive NHS care and treatment. Instead, data are collected on the number of patients receiving NHS dental services (patients seen) in a given area over a 24-month period. This is not directly comparable to the registration data for earlier years when patients registered for a 15 month period.

The number of patients seen in the 24 month period ending 31 March 2006 and 31 March 2007 are available in table C1 of annex 3 of the "NHS Dental Statistics for England 2006-07" report. Information is available at SHA and PCT level in England.

This report is available in the Library and is also available on-line at:

www.ic.nhs.uk/pubs/dental0607

Dental Services: Finance

Mike Penning: To ask the Secretary of State for Health how much funding was allocated for providing general dental services (GDS) and personal dental services (PDS) dentistry in 2006-07 net of patient charge income; and how much was spent on GDS and PDS dentistry in 2006-07. [155238]

Alan Johnson: The total funding allocation for primary dental care services in England in 2006-07, and provisional data on expenditure on those services by primary care trusts (PCTs), are set out in the following table. Primary dental care services comprise general dental and personal dental services commissioned by PCTs from independent dental providers and national health service trusts, and salaried dental services managed directly by PCTs.

Primary dental care services funding, England, 2006-07

	£ million
Primary dental service allocation, net of patient charge income	1,764.7
Primary care trust expenditure on primary dental care services, net of patient charge income	[1]1,738.7

[1] Provisional data

Source:
Locally audited PCT summarisation schedules, 2006/07, but data are subject to further audit and checking by the Department of Health and by the National Audit Office.

Gloucestershire Primary Care Trust: Waiting Lists

Martin Horwood: To ask the Secretary of State for Health how many patients in the Gloucestershire primary care trust (PCT) had waited longer than 18 weeks between general practitioner referral and hospital treatment in each quarter since the PCT's establishment. [155305]

Alan Johnson: Information on the number of patients for Gloucestershire primary care trust (PCT) who had waited longer than 18 weeks since the PCT's establishment in October 2006 is provided in the following table.

Referral to treatment (RTT) data for admitted patients for Gloucestershire PCT

Month	Number of admitted patients treated over 18 weeks	Percentage admitted patients treated over 18 weeks	Data completeness assessment (percentage)
January 2007	1,071	48	n/a
February 2007	897	47	n/a
March 2007	1,207	51	87
April 2007	909	45	86
May 2007	964	43	87
June 2007	1,068	48	91

n/a = not available.

Notes:
1. RTT data were not collected centrally prior to January 2007.
2. Data relate to admitted patients only, i.e. patients whose 18 week pathway ended with an in-patient/day case admission.
3. A data completeness assessment is published alongside the reported RTT figures each month in order to aid interpretation of this relatively new set of data. The measure compares the number of pathways reported against an existing data collection. Nationally, data completeness was at 70 per cent. for June 2007.
4. Data for non-admitted patients (patients whose 18 week pathway did not end with an in-patient/day case admission) have been collected since April 2007 but are not yet published.

Source:
Monthly RTT data collection (published)

Health Services: Suffolk

Mr. Yeo: To ask the Secretary of State for Health (1) when he expects to publish the terms of reference for the Independent Reconfiguration Panel's review of Suffolk Primary Care Trust's plans for health services in Sudbury; [155177]

(2) whether under the terms of reference of the Independent Reconfiguration Panel's review of Suffolk Primary Care Trust's plans for health services in Sudbury, Sudbury WATCH will be given the opportunity to address the panel. [155178]

Alan Johnson: The Independent Reconfiguration Panel's (IRP) terms of reference in relation to the referral from Suffolk Health Scrutiny Committee have not been agreed, although we expect them to be available shortly.

As part of a formal review, the IRP will consult with interested parties from all sides of the debate. IRP members will undertake site visits, hold meetings and interviews and request written evidence from interested parties.

Influenza: Vaccination

Mike Penning: To ask the Secretary of State for Health what steps he is taking to ensure sufficient supply of seasonal influenza vaccine for the 2007-08 winter. [155239]

Alan Johnson: The Department meets with representatives from UK Vaccine Industry Group each year to discuss flu vaccine requirements for the United Kingdom. On 24 July 2007, Professor David Salisbury, Director of Immunisation wrote to the profession saying that over 15 million doses of seasonal flu vaccine would be available for distribution in the United Kingdom.

Maternity Services: Manpower

Ms Keeble: To ask the Secretary of State for Health what the ratio is of maternity nurses to births in each health authority area. [155287]

Alan Johnson: The ratio of births to maternity nurses by Government region is as shown in the following table:

Region	*Ratio*
North East	17.61:1
North West	15.89:1
Yorkshire and Humberside	18.61:1
East Midlands	20.00:1
West Midlands	20.06:1
East	19.24:1
London	19.30:1
South East	19.09:1
South West	17.24:1
England	18.49:1

Note:
Figures based on the Information Centre for health and social care's workforce census 2006 and from the national health service maternity statistics for England 2005-06.

Medical Treatments

Mr. Bone: To ask the Secretary of State for Health pursuant to his letter of 27 July to the hon. Member for Wellingborough, what the evidential basis was for his statement that Mrs. Waterer has had the treatment Avastin made available to her. [155129]

Alan Johnson: The evidential basis was the hon. Member's comments to the House, on 12 July 2007, *Official Report*, column 1627.

Midwives: Gloucestershire

Martin Horwood: To ask the Secretary of State for Health how many full-time equivalent midwives there were in *(a)* Cheltenham and *(b)* Gloucestershire in each year since 1997. [155164]

Mr. Bradshaw: Information is not held centrally in the format requested. Information about number of full-time equivalent midwives at the Gloucestershire hospitals national health service foundation trust is provided in the following table.

NHS hospital and community health services: registered midwifes at Gloucestershire hospitals NHS foundation trust as at 30 September each specified year

	Full-time equivalent Number
1997	165
1998	170
1999	164
2000	164
2001	166
2002	151
2003	155
2004	174
2005	173
2006	166

Notes:
1. Full-time equivalent figures are rounded to the nearest whole number. In 2002 Gloucestershire Royal NHS trust and East Gloucestershire trusts merged to form Gloucestershire hospitals NHS foundation trust.
2. Figures prior to 2002 are therefore listed as a combination of the two former organisations.

Information Centre for health and social care Non-Medical Workforce Census

NHS: Manpower

Mike Penning: To ask the Secretary of State for Health how many *(a)* doctors, *(b)* nurses and *(c)* dentists were employed in the NHS in (i) full-time equivalent terms and (ii) headcount terms in *(A)* 1979, *(B)* 1997 and *(C)* the most recent period for which figures are available. [155240]

Mr. Bradshaw: This information is shown in the table.

All doctors, dentists and qualified nursing staff—England

Number (headcount)/HC) and full-time equivalents

	1979		*1997*		*2006*		*2007*	
	HC	*FTE*	*HC*	*FTE*	*HC*	*FTE*	*HC*	*FTE*

All doctors, dentists and qualified nursing staff—England

Number (headcount (HC) and full-time equivalents

	1979		1997		2006		2007	
	HC	FTE	HC	FTE	HC	FTE	HC	FTE
Qualified Nursing, midwifery and health visiting staff[1]	190,243	160,367	300,467	246,011	374,538	307,447	[5]—	[5]—
GP Practice Nurses	1,809	992	18,389	10,082	23,797	14,616	[5]—	[5]—

[1] Headcount figures exclude medical hospital practitioners and medical clinical assistants, most of whom are also GPs that work part-time in hospitals.
[2] GP retainers were first collected in 1999 and are omitted for comparability purposes
[3] Information as at 31 March 2007 is based on the new dental contractual arrangements, introduced on 1 April 2006, and is not comparable with earlier information.
Due to changes in coverage between the old and new contractual arrangements, there are some dentists working in trust-led dental services who were not previously included in the old figures. The national health service Business Services Authority Dental Services Division has estimated an upper bound of 578 dentists who fall in this category.
The figures take no account of the level of service, if any, that each dentist provided.
Numbers of dentists (headcount) have been provided as no whole-time equivalent information is available.
[4] Figures for 1979 are hospital staff only and are therefore not directly comparable with later years
All data as at 30 September except 1979 and 1997 GP practice nurse data as at 1 October.
[5] Denotes data not available.
[6] N/A

NHS: Maternity Pay

Mr. Wallace: To ask the Secretary of State for Health (1) how many trusts have waived their rights to recovery of maternity pay as set out in part 3, section 15.30 of Agenda for Change: NHS terms and conditions of service handbook, January 2005; [155247]

(2) what studies his Department has carried out into the cost implications of NHS trusts waiving their rights to recovery of maternity pay as set out in part 3, section 15.30 of Agenda for Change: NHS terms and conditions of service handbook, January 2005. [155248]

Alan Johnson: We do not hold information centrally on trusts waiving their right to recovery of maternity pay as set out in part 3, section 15.30 of 'Agenda for Change: NHS terms and conditions of service handbook, January 2005' and no studies have been undertaken on this issue.

NHS: Sick Leave

Mr. Wallace: To ask the Secretary of State for Health what studies his Department has undertaken into the cost of sick leave to the NHS. [155246]

Alan Johnson: Data on sickness absence are collected as a part of the Department's routine monitoring and has been a part of the Department's productive time programme. An indicator on sickness absence is included in the Better Care Better Value Indicators. The NHS Institute for Innovation and Improvement included managing sickness absence as one of the ways of improving efficiency and productivity in their publication 'Delivering Quality and Value: Focus on Productivity and Efficiency'.

NHS: Working Hours

Peter Bottomley: To ask the Secretary of State for Health what assessment he has made of the variety in the interpretations and determinations of the European Working Time Directives in relation to hospital staff in England; and if he will make a statement. [155269]

Alan Johnson: The Government are fully committed to the implementation of the European Working Time Directive (EWTD), as part of health and safety law.

The EWTD was implemented for the vast majority of national health service staff groups in 1998 in accordance with regulations. The Government negotiated an extension to the EWTD for doctors in training to enable phased implementation from August 2004.

The Department is sponsoring NHS national workforce projects to support local EWTD implementation for doctors in training through a range of pilots including cooperative solutions, team working, handover and escalation and 24:7 working. The pilots take in a wide variety of organisations to look at solutions which are transferable across the NHS. There is ongoing evaluation of the pilots to share lessons learned as early as possible.

Northwick Park Hospital: Maternal Mortality

Peter Bottomley: To ask the Secretary of State for Health what the conclusions of the Healthcare Commission were on the contributory factors to maternal deaths at Northwick Park following the merger with Central Middlesex; and how many births there were at Northwick Park *(a)* before and *(b)* after the merger. [155270]

Alan Johnson: The findings of the Healthcare Commission into the maternity deaths at Northwick Park have been placed in the Library and are available on the Healthcare Commission's website:

www.healthcarecommission.org.uk/_db/_documents/Northwick_tagged.pdf

The information requested on the number of births at Northwick Park before and after the merger with Central Middlesex Hospital NHS Trust is not held centrally. However, the amount of births at North West London Hospital NHS Trust since 1999 is shown in the following table. Data were not provided in 2001-02 due to data issues associated with this Trust.

Count of finished consultant (birth) episodes at North West London Hospital NHS Trust 1999-2006

	Birth Episodes
2005-06	5,041
2004-05	5,568
2003-04	5,272
2002-03	4,863
2001-02	[1]
2000-01	3,722
1999-2000	5,145

[1] Data not available due to data quality issues

Notes:
A finished consultant episode is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have had more than one episode of care within the year.

Source:
Hospital Episode Statistics

Prescriptions: Standards

Ben Chapman: To ask the Secretary of State for Health (1) whether mechanisms are being put in place to ensure that strategic health authorities are integrating approaches to prescribing across primary and secondary care so that there is consistency between general practitioners' and consultants' choices of drugs with regard to patients discharged into primary care as recommended by the National Audit Office's report, Prescribing Costs in Primary Care; [155160]

(2) what mechanisms are being put in place to ensure that strategic health authorities are integrating approaches to prescribing across primary and secondary care so that patients discharged into primary care are not continued on their course of drug treatment for longer than necessary, as recommended by the National Audit Office's report Prescribing Costs in Primary Care. [155161]

Alan Johnson: Medicines management and prescribing have long been recognised as key elements of both primary care trust and acute trust business and it is important that these organisations liaise effectively on these issues. This can be achieved through Area Prescribing Committees (APCs). The Department recently commissioned the National Prescribing Centre to update their guidance document, which was published in May this year, with the aim of reinforcing the role of APCs.

Ben Chapman: To ask the Secretary of State for Health what mechanisms are being put in place to ensure that strategic health authorities are integrating approaches to prescribing across primary and secondary care so that patients discharged into primary care have their medicines reviewed regularly, as recommended by the National Audit Office's report Prescribing Costs in Primary Care. [155162]

Alan Johnson: There are a wide range of mechanisms in place in primary care to assist healthcare professionals in reviewing patients' medication use, for example medicines use reviews, repeat dispensing and National Prescribing Centre initiatives, such as the medicines management collaborate scheme. The recent National Audit Office report on prescribing costs in primary care places further impetus on undertaking these types of activities.

Primary Care Trusts: Drugs

Ben Chapman: To ask the Secretary of State for Health (1) what recent assessment he has made of the effectiveness of local drug anti-wastage practices in primary care trusts; [155159]

(2) pursuant to the answer of 13 June 2007, *Official Report*, columns 1104-05W, on the NHS: drugs, what progress has been made on commissioning research to establish the extent of medicines waste and the complex and varied reasons for it. [155184]

Alan Johnson: The Department has made no assessment of the effectiveness of local anti-wastage drug practice in primary care trusts. However, we intend to commission new research on the scale, costs and causes of waste medicines to inform policy development for influencing both health professionals and members of the public to reduce the amount of unwanted medicines. A research specification is under development.

Tinnitus: Health Services

David Taylor: To ask the Secretary of State for Health how many tinnitus clinics there are in England. [155220]

Alan Johnson: This information is not collected centrally.

Tinnitus: Research

David Taylor: To ask the Secretary of State for Health how much the NHS spent on research into tinnitus in each of the last 10 years; and if he will make a statement. [155221]

Alan Johnson: The information requested is not available. Details of individual national health service supported research projects including a number concerned with tinnitus are available on the national research register at:

www.dh.gov.uk/research.

The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research. The MRC is an independent body that receives its grant-in-aid from the Department for Innovation, Universities and Skills.

Although the MRC is not currently funding any research specifically relating to tinnitus it has a large portfolio of hearing and deafness research, some of which may lead to further understanding of the condition.

MRC expenditure on hearing and deafness research since 1997 is shown in the following table.

	£ million
1997-98	3.2
1998-99	3.5
1999-2000	3.3
2000-01	5

	£ million
2001-02	3.9
2002-03	n/a
2003-04	6.1
2004-05	6
2005-06	5.9

n/a = not available

West Sussex Primary Care Trust: Resignations

Mr. Gibb: To ask the Secretary of State for Health what reasons he was given for the resignation of the chairman of the West Sussex primary care trust, Mr. David Taylor. [155219]

Alan Johnson: I understand that a press release issued by West Sussex primary care trust on 26 July 2007 states that Mr. David Taylor resigned from the post of chairman for personal reasons.

Wheelchairs

Julia Goldsworthy: To ask the Secretary of State for Health what guidelines have been produced by his Department which would indicate NHS funding for wheelchair users should be awarded on the basis of home-use only. [155198]

Mr. Bradshaw: The Department has not produced any guidelines to indicate how national health service funding for wheelchair users should be awarded.

Eligibility is based on local criteria, which should include clinical and lifestyle needs and the ability of the client to use the specified chair safely.

Worthing Hospital: Maternity Services

Peter Bottomley: To ask the Secretary of State for Health where Worthing hospital maternity service is positioned in the national rates of still births and neonatal mortality; and how many qualified consultants' hours were available to Worthing hospital maternity service per week in the latest period for which figures are available. [155272]

Alan Johnson: We have not calculated a national league table of rates of stillbirths by hospital. However, we can say that the rates of stillbirths and neonatal deaths at Worthing hospital are much lower than the rates for England and Wales. The following table shows number and rate for stillbirths and neonatal deaths in England and Wales and at Worthing Hospital.

Stillbirths number and rate, 2005 (latest year available)

	Number	Rate[1]
England and Wales	3,483	5.4
Worthing Hospital	7	2.9

Neonatal deaths number and rate, 2002-05[2]

	Number	Rate[3]
England and Wales	8,826	3.5
Worthing Hospital	7	0.7

[1] Per 1,000 live and still births.
[2] It is not possible to provide number of neonatal deaths in Worthing hospital for 2005 alone because of the risk of disclosing individual's information due to the very small number of deaths.
[3] Per 1,000 live births.

Neonatal survival rates of very preterm babies have improved over the past 10 years. In 2005, the stillbirth rate was 5.4. We are funding research linked to premature births from the National Perinatal Epidemiology Unit. Some parts of this research have received additional funding from agencies such as the Medical Research Council. A simple guideline from National Institute for Health and Clinical Excellence is being used to help interpret monitoring in labour to identify babies at risk—such babies are then delivered as early as possible.

Data on how many qualified consultants' hours were available to Worthing hospital maternity service per week are not held centrally.

INNOVATION, UNIVERSITIES AND SKILLS

Hertfordshire University: Business

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills what role Hertfordshire University has in the development of policy on business facing universities. [151888]

Bill Rammell: The Government set out their strategic priorities for the Higher Education Funding Council for England (HEFCE) in setting out the funding made available to it for 2007-08. These included the need to respond to the challenges set out by the Leitch Review of Skills concerning developing a high-skills workforce.

HEFCE has a two-phase approach to developing a strategy for employer engagement leading from a pilot exploratory phase to a full strategy shared with the Council, the higher education (HE) sector, and its key partners. This approach recognises that there are a broad range of collaborations which exist between HE and public and private sector organisations, as explored in the Lambert Report on Business-University Collaboration (2003).

This first phase supports a range of project activity, including three regional 'Higher Level Skills Pathfinders' and a group of currently 8 'employer engagement pilots' (one of which the University of Hertfordshire is undertaking). The experience of institutions like The University of Hertfordshire will both help to inform HEFCE's strategy for employer engagement, and provide valuable lessons for other HE institutions looking to collaborate with employers.

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills what assessment his Department has made of the employability of Hertfordshire university graduates following the business-facing university pilot. [151889]

Bill Rammell: The Department has made no assessment of the employability of graduates from the university of Hertfordshire. The university is receiving funding from the Higher Education Funding Council for England for its 'UHEvolution' project, which is engaging employers in a variety of ways and which may in due course result in improved employment outcomes for its graduates. However, this project is in its early stages and its outcomes have yet to be assessed.

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the pilot making Hertfordshire university a business facing university. [151890]

Bill Rammell: The Higher Education Funding Council for England (HEFCE) has not yet made any assessment of the impact of the activities it funds under the 'UHEvolution' project. The university is undertaking this project to help it become 'business-facing'.

Higher Education: Business

Mr. Touhig: To ask the Secretary of State for Innovation, Universities and Skills what steps are being taken to encourage co-operation between universities and business. [151852]

Bill Rammell: The Department has a policy of encouraging higher education institutions (HEIs) to increase their interaction with business and with employers generally.

The Higher Education Innovation Fund, which provides funding to all HEIs in England is a key incentive. Funding for this programme has increased from £187 million for the two academic years 2004/05-2005/06 to £238 million for 2006/07-2007/08. The Higher Education Funding Council for England (HEFCE) has allocated £60 million of its research funding in 2007/08 by reference to research grants and contracts from business.

HEFCE also fund a range of projects that are helping to identify, respond to, and increase employer demand for workforce development at HE-level, in line with its strategy for employer engagement and our plans for implementing the Leitch Review of Skills.

Higher Education: Innovation

Mr. Heald: To ask the Secretary of State for Innovation, Universities and Skills whether his Department takes any measures to encourage social entrepreneurship at universities. [152255]

Bill Rammell: The Department is supporting social entrepreneurship by funding three initiatives. We provide financial support to the National Council for Graduate Entrepreneurship for its Flying Start programme which includes workshops aimed specifically at social entrepreneurs.

Departmental funding is provided through the Higher Education Funding Council for England for 10 of the Higher Education Academy's subject centres to encourage and teach entrepreneurship as part of existing HE courses.

The Department also funds the Higher Education Funding Council for England to support two Centres for Excellence in Teaching and Learning (the Institute for Enterprise and the White Rose Centre) both of which support enterprise education communities.

Schools: Fire Prevention

Philip Davies: To ask the Secretary of State for Innovation, Universities and Skills how many colleges *(a)* have sprinklers and *(b)* do not have sprinklers fitted within them. [151480]

Bill Rammell: The Department is not responsible for compiling information on how many colleges have or do not have sprinklers fitted within them.

Vocational Training: Leeds

John Battle: To ask the Secretary of State for Innovation, Universities and Skills whether he plans to commission research on skills deficiencies and training needs within the Leeds, West, constituency in the light of the Leitch Report; and if he will make a statement. [148648]

Mr. Lammy: The Department does not plan to commission any such research. However, the Regional Skills Partnership for Yorkshire and the Humber will shortly be undertaking an analysis of skill needs and demand for skills across the region.

JUSTICE

Burglaries: Surrey

Mr. Malins: To ask the Secretary of State for Justice what proportion of those convicted for a burglary committed in Surrey in each of the last five years were sentenced to a custodial sentence; and how many were under 21 years when convicted. [155327]

Mr. Wills: Data showing the proportion of those convicted for a burglary committed in Surrey from 2001 to 2005 who received a custodial sentence are shown in the following table. Data are provided for all ages and for defendants aged under 21 years when convicted.

Number of defendants found guilty at all courts and given custodial sentences for burglary in Surrey, broken down by age, 2001 to 2005[1, 2]

	2001	*2002*	*2003*	*2004*	*2005*
Found guilty—all ages	206	197	188	231	225
Found guilty—aged under 21	88	69	78	82	90
Number found guilty given a custodial sentence—all ages	109	88	73	102	84
Number found guilty given a custodial sentence—aged under 21	30	19	20	17	20
Percentage of those found guilty given a custodial sentence—all ages	53	45	39	44	37
Percentage of those found guilty given a custodial sentence—aged under 21	34	28	26	21	22

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
Court proceedings database held by RDS—Office for Criminal Justice Reform, Ministry of Justice.

Constituencies

Mr. Hollobone: To ask the Secretary of State for Justice what steps he has taken to ensure that future elections in new parliamentary constituencies with recently revised district council ward boundaries are conducted on the basis of the new boundaries. [155134]

Mr. Wills: New parliamentary boundaries are delineated by reference to district council wards as they exist at a particular point in time. However, the use of wards is merely the most convenient method by which to describe the physical geographical area of the constituency. There is no legislative requirement to run a parliamentary election on the basis of local government wards. The administrative units for the running of a parliamentary election are the polling district and the constituency.

As and when wards are amended, the parliamentary constituency will therefore not automatically change, although the Parliamentary Boundary Commission will consider whether an interim review and possible amendment to the parliamentary constituency may be justified.

Criminal Justice Act 2003

Mr. Burrowes: To ask the Secretary of State for Justice what plans he has to bring outstanding sections of the Criminal Justice Act 2003 into effect. [155205]

Mr. Hanson: Of the 329 substantive sections in the Criminal Justice Act 2003 the vast majority have been brought wholly into force. Only a small percentage of the remainder remain unimplemented. These figures are shown in the following table.

Officials are actively working on these areas of legislation with a view to implementation; considering resource implications; undertaking pilot exercises; or examining other necessary procedures and practices.

	Number of sections	*Percentage of sections*
Wholly in force	276	84
Partially in force	26	8
Not in force	26	8
Repealed	1	—

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Justice how many people have been appointed to his Department outside civil service grades in the last 30 days. [153028]

Mr. Wills: The number of appointments outside of civil service grades in the last 30 days is not held centrally. To obtain this information each individual business area within my Department would have to be contacted at a disproportionate cost.

Electronic Conveyancing

Jeremy Corbyn: To ask the Secretary of State for Justice what steps he is taking to prevent the emergence of a monopoly in the provision of e-conveyancing through the chain matrix system. [155329]

Mr. Wills: Land Registry is empowered by primary legislation under the Land Registration Act 2002 to create the Chain Matrix as the system by which e-conveyancing, a statutory service, is accessed. As such, Land Registry is not obliged to offer alternative methods of access or service delivery. Chain Matrix itself, however, is not a unique product within the market as there are other types of electronic property sale tracking systems operating at present. As such, the monopoly question does not apply.

Firearms: Sentencing

Mr. Burrowes: To ask the Secretary of State for Justice how many people in England and Wales were sentenced for offences, committed when over the age of 18 years, under sections 5(1)(a), (ab), (aba), (ac), (ad), (ae), (af) or (c), or section 5(1A)(a) of the Firearms Act 1968, to *(a)* five or more years imprisonment, *(b)* imprisonment of less than five years and *(c)* a non-custodial sentence in each year since 2004. [155206]

Mr. Hanson: The number of persons aged 18 or over in England and Wales sentenced under the above sections of the Firearms Act (1968) for the years 2004 and 2005 are given as follows:

	2004	*2005*
Five or more years imprisonment	76	142
Less than five years imprisonment	165	91
Non-custodial sentence	446	120

Although the persons were convicted in 2004 and 2005, the offence was not necessarily committed in those years and may have been committed before the introduction of the minimum sentence in January 2004.

Although care is taken in collating and analysing the returns used to compile these figures, the data are of necessity subject to the inaccuracies inherent in any large-scale recording system. Consequently, although figures are shown to the last digit in order to provide a comprehensive record of the information collected, they are not necessarily accurate to the last digit shown.

Home Detention Curfews

Mr. Vara: To ask the Secretary of State for Justice how many prisoners were released early under the home detention curfew scheme in each of the last five years; and for which offences those released had been convicted. [155180]

Mr. Hanson: Figures on the numbers of prisoners released on home detention curfew from prison establishments in England and Wales between 2001 and 2005 can be found in the following table:

Home detention curfew release[1] by offence group[2]

Offence Group[1]	*2001*	*2002*	*2003*	*2004*	*2005*
Violence	2,854	3,693	3,564	3,159	3,204
Sexual offences	17	20	8	1	2
Robbery	631	916	1,257	961	901
Burglary	1,072	2,022	2,066	1,677	1,298
Theft and handling	1,771	2,797	2,817	2,629	2,107
Fraud and forgery	1,149	1,262	1,133	1,226	1,287
Drug offences	2,219	2,683	2,782	2,422	2,509
Motoring offences	1,500	3,801	4,158	3,877	3,046
Other[2]	2,464	3,331	3,438	3,343	2,942

[1] Offence recorded on Prison Service IT system. Investigations suggest that around 5 per cent. of offence types recorded on this system do not relate to the offence they were released on HDC for but relate to offences committed after release from prison and before the licence expiry date for their sentence.
[2] Includes the offence of bigamy.

The table has been drawn from published figures in annual volumes of Prison Statistics in England and Wales, and Offender Management Caseload Statistics.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Home Detention Curfews: Cambridgeshire

Mr. Stewart Jackson: To ask the Secretary of State for Justice how many individuals normally domiciled in Peterborough and Cambridgeshire have been released early from the prison estate under the Early Release scheme in the 12 months to 31 August; and if he will make a statement. [155321]

Mr. Hanson: It is assumed that the question relates to the End of Custody Licence Scheme which was implemented on 29 June 2007. Information on the domicile of prisoners released under the scheme is not centrally available, would require reference to paper files and could not be provided without disproportionate cost.

However, the hon. Member's attention is drawn to the website http://www.justice.gov.uk/publications/endofcustodylicence.htm from which it is clear that 19 prisoners were released under the scheme from Peterborough prison between 6 and 31 July.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Illegal Broadcasting: Video Recordings

Mr. Don Foster: To ask the Secretary of State for Justice how many *(a)* prosecutions and *(b)* convictions there were for the supply of video works to individuals who are under the age of the designated classification in each of the last 10 years. [155295]

Mr. Wills: Data on the number of prosecutions and convictions under the Video Recording Act 1984, as amended by the Criminal Justice and Public Order Act 1994, in England and Wales 1996 to 2005 can be found in the table.

Court proceedings data for 2006 will be available in the autumn of 2007.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the Video Recording Act 1984, as amended by the Criminal Justice and Public Order Act 1994, in England and Wales 1996-2005[1,2,3,4]

	Offence description					
	Supplying video recording of classified work in breach of classification		*Supplying video recording of unclassified work*		*Persons video recording of unclassified work for the purpose of supply*	
	Prosecuted	*Found guilty*	*Prosecuted*	*Found guilty*	*Prosecuted*	*Found guilty*
1996	18	17	67	57	75	61
1997	19	16	65	60	76	69
1998	31	22	31	28	77	75
1999	47	40	80	61	85	61
2000[5]	23	18	79	69	75	73
2001	20	10	67	62	68	68
2002	22	14	62	59	64	62
2003	25	17	44	44	40	31
2004	11	8	42	31	49	43
2005	13	9	28	28	43	37

	Offence description					
	Certain video recordings only to be supplied in licensed sex shops		*Supply of video recording not complying with requirements as to labels etc*		*Supply of video recordings containing false indication as to classification*	
	Prosecuted	*Found guilty*	*Prosecuted*	*Found guilty*	*Prosecuted*	*Found guilty*
1996	1	1	3	2	2	2
1997		0	0	0	1	1
1998	0	0	1	1	1	1
1999	1	0	3	1	9	0
2000[5]	1	0	8	6	1	1
2001	8	6	4	3	0	0
2002	9	4	0	0	0	0
2003	13	10	0	0	2	0
2004	[6]64	[6]48	1	0	2	2
2005	12	12	2	1	3	2

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Some of the statistics relate to illegal sales but it is not possible to tell whether these were necessarily sales to children.
[4] Includes the following statutes and offence description:
Video Recording Act 1984, Sec 11 as amended by Criminal Justice and Public Order Act 1994, Sec 88(4).
Supplying video recording of classified work in breach of classification.
Video Recording Act 1984, Sec 9 as amended by Criminal Justice and Public Order Act 1994, Sec 88.
Supplying video recording of unclassified work.
Video Recording Act 1984, Sec 10 as amended by Criminal Justice and Public Order Act 1994, Sec 88.
Persons video recording of unclassified work for the purpose of supply.
Video Recording Act 1984, Sec 12 as amended by Criminal Justice and Public Order Act 1994, Sec 88(5).
Certain video recordings only to be supplied in licensed sex shops.
Video Recording Act 1984 Sec 13.
Supply of video recording not complying with requirements as to labels etc.
Video Recording Act 1984, Sec 14 as amended by Criminal Justice and Public Order Act 1994, Sec 88(6).
Supply of video recordings containing false indication as to classification.
[5] Staffordshire Police Force were only able to submit sample data for persons proceeded against and convicted in the magistrates' courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.
[6] Liverpool Trading Standards prosecuted two large suppliers of videos who were supplying R18 material by mail order; they can only be sold in, not from, licensed sex shops. These prosecutions account for just about all the cases that year.

Court Proceedings Database held by RDS Office for Criminal Justice Reform—Ministry of Justice

Magistrates: Bail

Mr. Hollobone: To ask the Secretary of State for Justice if he will take steps to improve the accountability of local magistrates for the decisions which they take in relation to bail applications where the award of bail is followed by further offences whilst on bail. [155210]

Mr. Hanson: The court's decision on whether to grant bail or remand a defendant in custody is governed by the Bail Act 1976. The court must decide on each occasion, with all the information before it, if the defendant presents such a bail risk as to warrant custody. This decision is an exercise of judicial discretion and as such is not subject to interference.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Justice when he expects to answer the letter to him dated 12 July from the right hon. Member for Manchester, Gorton with regard to Mrs. K. Kerry. [155262]

Mr. Wills: I refer the right hon. Member to my answer of 10 September 2007, *Official Report*, column 1994W.

National Offender Management Information System: Procurement

Mr. Garnier: To ask the Secretary of State for Justice how much his Department has spent on commissioning and procuring the C-NOMIS IT system; how much of that total sum has been spent *(a)* on outside agencies and consultants and *(b)* internally within the Department, broken down by internal divisions, agencies and services within the Department, including the National Offender Management Service, that spent the money; and when C-NOMIS will be operational within the police service. [155163]

Mr. Hanson: I refer the hon. Gentleman to my answer of 10 September 2007, *Official Report*, column 1995W. It was never envisaged that C-NOMIS would be extended to the police service.

Prison Accommodation: Finance

Mr. Garnier: To ask the Secretary of State for Justice what resources his Department has made available to cover the cost of new prison places in each of the next seven years. [155188]

Mr. Hanson: Estimated capital costs for the 8,000 place programme are around £1.5 billion and new money is being made available to provide an additional 1,500 places. The costs will be subject to further discussions in light of Lord Carter's review and with HM Treasury.

Prison Accommodation: Wales

Mrs. Gillan: To ask the Secretary of State for Justice which sites in Wales have been identified for consideration for future prison expansion. [155212]

Mr. Hanson: A number of potential sites in Wales are currently being investigated as possible sites for new prison development. Once the process has been completed the sites with the most potential will be considered and a decision reached. Any final sites selected will be subject to consultation.

Prison Governors: Travel

Mr. Bellingham: To ask the Secretary of State for Justice what guidelines apply to the use by prison governors of first class accommodation on the railways; if he will place a copy of those guidelines in the Library; what estimate he has made of the cost to HM Prison Service incurred by prison governors travelling in first class accommodation rather than standard class accommodation; and if he will make a statement. [153679]

Mr. Hanson: Prison Service travel policy is set out in Prison Service Order 8650. Paragraph 5.2 of this document lists those grades of employees who are entitled to travel first class on official duty. Since its publication the service's grade structure has changed twice, but the qualifying grade level has not altered. Based on the current grade structure managers F and above can travel first class. This incorporates governors and other managerial staff.

Prison Service official travel is currently paid from one generic budget code relating to all modes and class of transport and all grades of staff. While each individual prison establishment could advise on its total spend, they would not be able to determine the class or grade.

Prison Service: Industrial Disputes

Mr. Garnier: To ask the Secretary of State for Justice what the net cost to his Department was of industrial action by prison officers on 29 August. [155189]

Mr. Hanson: It is at the moment too early to be able to give the net cost of the industrial action by Prison Officers on 29 August as this information is still being collated from across the prison estate.

I will write to the hon. Gentleman as soon as the net cost of the action has been established.

Prison Service: Manpower

Mr. Garnier: To ask the Secretary of State for Justice how many prison officers he expects to be employed in prisons in England and Wales in each of the next seven years. [155190]

Mr. Hanson: The total number of prison officers employed in the public sector Prison Service on 31 August 2007 was 25,200. This figure will rise in line with increased capacity within the estate (subject to planning permission for new sites) and will increase prison officer numbers by a total of 1,491 over the next four years. Assuming that the current staffing figure remains broadly constant the projected staffing figures will be as follows by 31 March of each year:

	Anticipated total prison officers	*Including anticipated new vacancies*
2008	25,688	488
2009	26,081	393
2010	26,149	68
2011	26,460	311
2012	26,691	231

Figures shown in the third column of the table show the additional number of prison officers required to open new accommodation in each of the financial years shown. These figures are provisional and may be subject to change. (Prison officer figures include all grades of uniformed officer). The Prison Service has no projected figures for 2012 and beyond.

Prisoners: Wales

Mrs. Gillan: To ask the Secretary of State for Justice how many prisoners in prisons in England gave their last registered address in Wales. [155213]

Mr. Hanson: For January 2007, the latest date information is available, 1,560 prisoners with a registered address in Wales were held in prisons in England.

Where no home address is listed for a prisoner the committal court is used as a proxy address.

Probation Officers: Manpower

Mr. Garnier: To ask the Secretary of State for Justice how many probation officers he expects to be employed by the National Offender Management Service in each of the next seven years. [155191]

Mr. Hanson: No assessment has yet been made as workforce planning models are currently being reviewed in order to align it to future arrangements.

Reoffenders: Sentencing

Mr. Burrowes: To ask the Secretary of State for Justice (1) how many people in England and Wales were sentenced for second serious offences covered by s.2 of the Crime (Sentences) Act 1997 to a sentence of *(a)* life imprisonment, *(b)* a determinate period of imprisonment and *(c)* a non-custodial sentence in each year since 1998; [155207]

(2) how many people in England and Wales were sentenced for a second class A drug trafficking offence covered by s.3 of the Crime (Sentences) Act 1997 to a sentence of *(a)* seven or more years imprisonment, *(b)* imprisonment of less than seven years and *(c)* a non-custodial sentence in each year since 1998; [155208]

(3) how many people in England and Wales were sentenced for a third domestic burglary offence covered by s.3 of the Crime (Sentences) Act 1997 to a sentence of *(a)* seven or more years imprisonment, *(b)* imprisonment of less than seven years and *(c)* a non-custodial sentence in each year since 1998. [155209]

Mr. Hanson: The data held centrally are not in a format to allow us to answer these questions completely. We are able to answer part *(a)* for questions 155207 and 155209, we are unable to answer parts *(b)* and *(c)* for all three questions. We are able to give the following information, for total number of persons sentenced for:

(i) life for a second serious offence

(ii) minimum seven years for a third class A drug trafficking

(iii) Minimum three years for a third domestic burglary since 2000. Please see as follows (table 2.6 of 'Sentencing Statistics, England and Wales').

Table 2.6: Persons sentenced under the Powers of the Criminal Courts (Sentencing) Act 2000, 2000-05—England and Wales

Number of persons

	Section 109	*Section 110*	*Section 111*
	Life for second serious offence	*Minimum seven years for third class A drug trafficking offence*	*Minimum three years for third domestic burglary*
2000	57	2	—
2001	51	1	6
2002	44	—	2
2003	48	3	13
2004	47	4	46
2005	[1]43	3	89

[1] Section 109 was replaced in April 2005 by sentences of imprisonment for public protection. Figures therefore relate to offences committed prior to that date.

Also available at:

http://www.homeoffice.gov.uk/rds/pdfs07/hosb0307.pdf

Although care is taken in collating and analysing the returns used to compile these figures, the data are of necessity subject to the inaccuracies inherent in any large-scale recording system. Consequently, although figures are shown to the last digit in order to provide a comprehensive record of the information collected, they are not necessarily accurate to the last digit shown.

WORK AND PENSIONS

Departments: Press

Mr. Hoban: To ask the Secretary of State for Work and Pensions to which periodicals his Department subscribes. [153186]

Mrs. McGuire: A list of periodicals and newspapers to which DWP subscribes through its Library and Information Service has been placed in the House of Commons Library.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much was spent by his Department on *(a)* staff and *(b)* communication training in the last 12 months. [153188]

Mrs. McGuire: The Department for Work and Pensions spent £16 million on staff training from July 2006-June 2007.

Included within this figure is the cost of training in communication provided to the Department's staff. To separately identify this expenditure would be of a disproportionate cost.

Disabled: Low Incomes

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of households with at least one disabled person that have an income of less than 60 per cent. of the median. [153585]

Mrs. McGuire: The information requested is available in the Households Below Average Income 1994-95 to 2005-06 (revised), table 3.6 on page 31. This is available in the Library.

Employment: Greater London

Lynne Featherstone: To ask the Secretary of State for Work and Pensions (1) how many people gained employment from jobcentre referrals in each London constituency in each of the last five years; [153643]

(2) how many people gained employment from jobcentre referrals in each London borough in each of the last five years. [153644]

Mr. Plaskitt: The information requested is not available.

Employment: Standards

John McDonnell: To ask the Secretary of State for Work and Pensions by what means the Government's target of an 80 per cent. employment rate was arrived at; and what research his Department has carried out into the reduction in the number of claimants on *(a)* incapacity benefit, *(b)* jobseeker's allowance and *(c)* lone parent benefit needed to meet the target. [152806]

Mr. Plaskitt *[holding answer 26 July 2007]:* The long-term aim of an employment rate equivalent to 80 per cent. of the working age population reflects analysis of historic and international labour market performance and an assessment of the potential for

further narrowing the employment rate gap between different groups in the labour market and the overall average. It was set in the context of the Government's commitment to extend the opportunity to work to all, the modern definition of full employment, as outlined in our Welfare Reform Green Paper "In work, better off" Cm7130, published on 18 July 2007.

The Department's analysis has suggested that realising the 80 per cent. aim will require: a reduction of one million in the number of incapacity benefit claimants; 300,000 more lone parents in employment; and one million more older people in work.

Incapacity Benefit: Beverley and Holderness

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions how many people in Beverley and Holderness were registered for incapacity benefit in each year since 1997; and if he will make a statement. [155226]

Mrs. McGuire: The available information is in the following table.

Number of incapacity benefit/severe disablement allowance claimants in Beverley and Holderness parliamentary constituency

Quarter ending	*Number*
February 1997	4,000
February 1998	4,000
February 1999	3,500
February 2000	3,200
February 2001	3,280
February 2002	3,240
February 2003	3,290
February 2004	3,330
February 2005	3,400
February 2006	3,430
February 2007	3,320

Notes:
1. February 1997 to February 1999 (inclusive) numbers are uprated to WPLS totals and rounded to the nearest hundred.
2. February 2000 to February 2007 (inclusive) numbers are rounded to the nearest ten.
3. February 1997 to February 1999 (inclusive) numbers are based on a five per cent. sample, and are therefore subject to a degree of sampling variation.
4. These figures should be used as a guide to the current situation only.

Source:
DWP Information Directorate five per cent sample and 100 per cent Work and Pensions Longitudinal Study

Incapacity Benefit: Finance

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions what the average cost was of dealing with a single incapacity benefit claimant in the last period for which figures are available; and if he will make a statement. [155228]

Mrs. McGuire: The Department accounts for its administrative expenditure by strategic objective as set out in its public service agreements (PSA) and by individual requests for resources (RfRs) as set out in the Departmental Estimates and Accounts, and not by benefit. Information on administrative expenditure by strategic objective is available in the annually published Departmental Report, copies of which are available in the Library.

Jobcentre Plus: Doctors

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions how many doctors are contracted to Jobcentre Plus to assess incapacity benefit applicants, broken down by each local benefits agency; and if he will make a statement. [154864]

Mrs. McGuire: Medical services are provided to DWP under contract by Atos Healthcare. Doctors carrying out incapacity benefit assessments are engaged by Atos Healthcare not Jobcentre Plus.

Atos Healthcare does not keep data on the number of doctors performing incapacity benefit assessments by local benefit office.

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions what the terms of contract are for doctors contracted to Jobcentre Plus with respect to incapacity benefit assessments; and if he will make a statement. [154865]

Mrs. McGuire: Medical services are provided to DWP under contract by Atos Healthcare. Doctors carrying out incapacity benefit assessments are engaged by Atos Healthcare not Jobcentre Plus.

Doctors engaged by Atos Healthcare have a range of contracts, including employed full-time, employed part-time and sessional contracts.

Official Visits: Jobcentres

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many job centres he has visited since his appointment; and which job centres he plans to visit before 8 October 2007. [152646]

Mr. Plaskitt *[holding answer 26 July 2007]*: Since his appointment on 29 June the Secretary of State has visited one Jobcentre Plus office, that visit was on 20 July to Neath Jobcentre Plus office.

The Secretary of State is keen to visit other offices and services within the DWP network and arrangements are being made.

Pensioners: British Overseas Territories

Bob Russell: To ask the Secretary of State for Work and Pensions how many pensioners entitled to the UK state pension whose pensions are frozen because they have retired outside the UK live in each of the British Overseas Territories. [155279]

Mr. Mike O'Brien: The latest available information is in the following table.

	Number
Anguilla	153
Ascension Island	[1]
British Antarctic Territory	[1]
British Indian Ocean Territory	[1]
British Virgin Islands	45
Cayman Islands	124
Falkland Islands and dependencies (south Georgia and south Sandwich Islands)	46
Montserrat	129
Pitcairn Island	[1]

	Number
St. Helena	78
Tristan da Cunha	[1]
Turk and Caicos Islands	22

[1] Less than 10

Source:
Pensions Strategy Computer System, August 2007

Pensions: Divorce

Jeremy Wright: To ask the Secretary of State for Work and Pensions what provision is afforded to divorcees who, at the age of 60, are unable to claim an enhanced pension based on their ex-husband's national insurance contributions because those husbands are not drawing pensions. [154963]

Mr. Mike O'Brien: A person who is divorced when they reach state pension age can use their former spouse's national insurance contributions to help boost their basic state pension regardless of the age of the former spouse and whether or not they are drawing a state pension. However, where a person has been divorced more than once before state pension age, only the national insurance record of the last spouse may be used.

Pensions: Females

Steve Webb: To ask the Secretary of State for Work and Pensions if he will estimate how many women aged *(a)* 60, *(b)* 61, *(c)* 62, *(d)* 63, *(e)* 64, *(f)* 65, *(g)* 66, *(h)* 67, *(i)* 68 and *(j)* 69 are currently receiving state pensions, based on their own contributions, that are based on a contribution record of between 60 per cent. and 98 per cent. [155045]

Mr. Mike O'Brien: The information requested is not available. The following table shows those women who are in receipt of a basic state pension of between 60 per cent. and 98 per cent. as at the September 2006 rate, which was £84.25 per week, either based on their own national insurance record or a combination of their own and their husband's national insurance record. The data are taken from a 5 per cent. extract of the Pension Service Computer System, therefore figures are subject to a clear warning that there is a degree of sampling variation.

Age	*Number of females*
60	122,100
61	117,200
62	119,000
63	105,300
64	90,600
65	76,000
66	69,700
67	64,300
68	58,100
69	49,900

Notes:
1. Data are taken from a 5 per cent. extract of the Pension Service Computer System, therefore figures are subject to a degree of sampling variation. They are also adjusted to be consistent with the overall case load from the Work and Pensions Longitudinal Study.
2. Figures are rounded to the nearest 100.
3. Figures include cases residing abroad where the rate of state pension would not be uprated each year.

Source:
DWP Information Directorate.

Mr. Fallon: To ask the Secretary of State for Work and Pensions for what reasons the national insurance contributions of women who have remarried are not fully taken into account in determining their state pensions. [155050]

Mr. Mike O'Brien: The individual's national insurance record is taken fully into account when determining his or her state pension entitlement.

Pensions: Postal Services

Mr. Carmichael: To ask the Secretary of State for Work and Pensions how many pension cheques destined for pensioners living in *(a)* Orkney and Shetland, *(b)* Scotland and *(c)* the UK were posted to the wrong address in each of the last five years. [154858]

Mr. Mike O'Brien: The information requested is not available.

The Pension Service makes every effort to issue cheque payments to pensioners at their last verified address. Where cheques do go to an incorrect address, this may be for a variety of reasons, such as the customer moving and inadvertently omitting to let the Pension Service know of their change of address.

Social Security Benefits: Highland Council

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the answer of 16 April 2007, *Official Report*, column 255W, on social security benefits: Highland council, what information has been gathered by the two postholders; and what evaluation has been carried out of the two posts. [155187]

Mr. Mike O'Brien: The information gathered by the two postholders is in the following table.

The Highland Council Partnership Fund Project: April 2005 to March 2007

Project activities/outputs	
Project activities	
Mail shots issued	5,117
Number of claim forms sent out	501
Visits/meetings undertaken	509
Surgeries/presentations held	104
Attendees at surgeries/presentations	1,656
Telephone calls made to clients	772
Telephone calls received from clients	1,086
Benefit checks undertaken	603
Referrals received	404
Project outputs	
Pension credit applications made	91
Attendance allowance applications made	66
Disability living allowance applications made	100
Council tax benefit applications made	155
Housing benefit applications made	86
Carer's allowance applications made	43

The Highland Council Partnership Fund Project: April 2005 to March 2007

Project activities/outputs	
Total benefit applications	541
Benefit referrals made to the Pension Service	7
Benefit referrals made to other agencies	8
Service referrals made to other agencies	7
Total referrals made	22

Note:
The table details work undertaken by Highland council on behalf of the Pension Service.
Source:
Highland Council Management Information.Return to the Pension Service.

No specific evaluation was conducted of the two posts within Highland council. However, a full evaluation of the Partnership Fund initiatives has been undertaken, and this report was published on 21 June 2007.

The evaluation report entitled: "Helping Older People Engage With Benefits and Service: An Evaluation of the Partnership Fund" does not present information on an individual project basis; this is due to the way it was thematically analysed to ensure anonymity of respondents.

PRIME MINISTER

Departmental Responsibilities

Mr. Bone: To ask the Prime Minister which Ministers would take lead responsibility for the operation of Government in the event of the Prime Minister's unforeseen incapacity. [155130]

The Prime Minister: Appropriate arrangements would be put in place, as has been the practice under successive administrations.

Members: Surveillance

Mr. Wallace: To ask the Prime Minister whether the Wilson Doctrine extends to a ban on UK Government departments and agencies instructing/requesting or handling intercept material from a foreign power that relates to *(a)* hon. Members and *(b)* members of the House of Lords. [155250]

The Prime Minister: The Wilson Doctrine applies to all forms of interception that are subject to authorisation by Secretary of State warrant.

Nuclear Weapons

Jeremy Corbyn: To ask the Prime Minister what discussions he has had with President Bush concerning the location of US missile sites in Czech Republic and Poland; and if he will make a statement. [155328]

Mr. Llwyd: To ask the Prime Minister whether he put proposals to the US president on *(a)* implementing the 13 practical steps towards disarmament agreed at the 2000 NPT Review Conference, *(b)* ratifying the Comprehensive Test Ban Treaty and *(c)* supporting the model Nuclear Weapons Convention during his recent visit; and if he will make a statement. [155362]

Adam Price: To ask the Prime Minister whether he and President Bush discussed Israel joining the Nuclear Non-Proliferation Treaty as a non-nuclear weapons state; and if he will make a statement. [155334]

Hywel Williams: To ask the Prime Minister (1) whether he put proposals to President Bush on creating a Middle East Nuclear Weapons Free Zone during his recent visit; and if he will make a statement; [155363]

(2) whether he put proposals to President Bush on NATO's *(a)* nuclear doctrine, *(b)* nuclear sharing agreement and *(c)* nuclear first strike policy during his recent visit; and if he will make a statement. [155364]

The Prime Minister: It is not the practice of the Government to make public details of all discussions with foreign Governments.

Public Participation

Mr. Harper: To ask the Prime Minister by what method jurors would be selected for service on a citizens' jury; and how that method would ensure that jurors were representative of their local community. [155148]

The Prime Minister: I refer the hon. Member to the press briefing given by my spokesman on 3 September 2007. A transcript of this is available on the No. 10 website (http://www.number-10.gov.uk/output/Page13023.asp), and a copy has been placed in the Library of the House.

USA: Foreign Relations

Mark Pritchard: To ask the Prime Minister whether he plans to invite President George W. Bush to the United Kingdom before the President leaves office. [155185]

The Prime Minister: I will continue to have regular discussions with President Bush over the coming months on a wide range of issues.

INTERNATIONAL DEVELOPMENT

AIDS: Medical Treatments

Mr. Evennett: To ask the Secretary of State for International Development what progress his Department has made in ensuring universal access to AIDS treatment for all by 2010. [154828]

Mr. Malik: The UK Government are working to ensure universal access to AIDS treatment by 2010 in partnership with the international community, through DFID's bilateral programmes and through our contributions to multilateral organisations.

DFID's bilateral programmes are helping strengthen health systems in developing countries to roll out anti-retroviral treatment (ART). For example, in

Zimbabwe DFID is providing £20 million over four years to increase by at least 50 per cent. the number of people able to access ART. In Malawi, DFID has committed £45 million over five years for testing and counselling, access to ART and other related services.

The international effort to achieve universal access has helped boost the numbers of people on AIDS treatment in low and middle-income countries from 400,000 in 2003 to more than two million people today.

DFID has provided £359 million to the Global Fund to fight AIDS, Tuberculosis and Malaria over the 2002-08 period. To date, Global Fund-financed programmes have provided treatment to over 770,000 people living with HIV.

DFID is also committed to improving access to medicines, including providing €20 million for UNITAID, the new drugs purchase facility, as part of a 20-year commitment, increasing to €60 million per year by 2010 subject to performance. UNITAID has provided several significant grants, including more than $130 million for paediatric and second line ART.

Democratic Republic of Congo

Mr. Joyce: To ask the Secretary of State for International Development what support the UK has offered to Congolese nationals recently expelled from Angola. [154885]

Mr. Thomas: The UK has provided support to the Congolese nationals expelled from Angola through the pooled humanitarian fund for the Democratic Republic of Congo (DRC), to which DFID provided £40 million (approximately 60 per cent. of the funding) in the last financial year. A mission by the United Nations to visit the Congolese nationals in south-eastern DRC found that there was no immediate shortage of food and water but that non-food items, such as mattresses and blankets, were required. As a result, through the pooled fund rapid response mechanism, the United Nations Children's Fund (UNICEF) together with the United Nations Refugee Agency (UNHCR) has provided basic non-food assistance. The non-governmental organisation Caritas has also been funded through the pooled fund to provide transport for the Congolese nationals.

Global Fund to Fight AIDS Tuberculosis and Malaria

Lynne Jones: To ask the Secretary of State for International Development if he will make it his policy for the UK Government to make a three year contribution of at least £700 million to the Global Fund for AIDS, tuberculosis and malaria. [154819]

Mr. Malik: We have yet to decide on the precise level of the UK's future engagement with the Global Fund to fight Aids, TB and Malaria. We have to date contributed £359 million to the fund and in terms of pledges made we are its sixth largest donor.

At the Berlin Replenishment Conference in September and afterwards, we will be looking for evidence of the Global Fund's performance and trajectory, which will inform the UK's decision on future engagement.

Iraq: Asylum

Mr. Moore: To ask the Secretary of State for International Development (1) what reports he has received of Syrian plans to change visa requirements for Iraqi refugees; what assessment he has made of the impact this will have on Iraqi refugees in the region; what discussions he has had with Syrian counterparts about these plans; and if he will make a statement; [155297]

(2) what estimate he has made of the number of refugees from Iraq in *(a)* Syria, *(b)* Jordan, *(c)* Egypt, *(d)* Saudi Arabia, *(e)* Turkey, *(f)* Lebanon and *(g)* Iran; what financial assistance the Government gave to these countries for the purpose of addressing the humanitarian needs of those refugees in each year since March 2003; and if he will make a statement; [155298]

(3) what financial assistance the Government provided to the United Nations High Commission for Refugees for the purpose of addressing the problem of Iraqi refugees in each year since March 2003; and if he will make a statement. [155299]

Mr. Malik: We are very concerned about the humanitarian situation in Iraq and the increasing numbers of people who have been displaced due to the ongoing violence. The UN estimates that there are currently around 2 million internally displaced people in Iraq and another 2 million Iraqis externally displaced in the region.

According to UN estimates, the number of Iraqi refugees per country is as follows:

Country	*Number of Iraqi refugees*
Syria	1.2-1.4 million
Jordan	500,000-600,000
Egypt	20,000-40,000
GCC countries (including Saudi Arabia)	Over 200,000
Turkey	5,000-10,000
Lebanon	20,000-30,000
Iran	Over 54,000

We are continuing to play our part in ensuring that immediate needs are met. The UK has not provided any bilateral support to these Governments for assisting Iraqi refugees. Instead, we have supported internationally mandated humanitarian organisations as the best means to support and protect vulnerable Iraqi groups. So far this year, DFID has contributed £10 million to support humanitarian agencies working in Iraq and the region, and we are considering further support. Since 2003, we have contributed over £125 million for humanitarian assistance for Iraq, of which £3.25 million has been to the UNHCR (£1.75 million in 2003 and £1.5 million in 2007).

We are grateful for the considerable hospitality Syria and other countries in the region have shown by accommodating large numbers of people fleeing the violence in Iraq. However, we are concerned about the Syrian Government's recent announcement regarding the introduction of new visa requirements for Iraqis wanting to come to the country. The UNHCR is seeking clarification on what this will entail for Iraqis

already residing in Syria and those wishing to cross into Syria in the future, and we await the outcome of UNHCR's discussions with the Government of Syria.

Overseas Aid: Hurricanes and Tornadoes

Mr. Evans: To ask the Secretary of State for International Development which islands have received relief from the UK following Hurricane Felix. [155006]

Mr. Malik: DFID has assessed that the Caribbean islands affected by Hurricane Felix do not need humanitarian assistance from the UK.

Hurricane Felix caused minimal damage in the Caribbean islands and no loss of life. Some homes were flooded on the Dutch islands of Aruba, Curacao and Bonaire in the southern Caribbean. The hurricane also caused some tree damage and scattered power outages. In Aruba there was also little visible damage although there was a temporary power outage in a northern town.

DFID has also been monitoring the effect of Hurricane Felix on the central American mainland.

In Nicaragua approximately 60,000 people have been affected by the hurricane along the north-eastern coast. The government of Nicaragua and a UN disaster management team have mobilised five teams of humanitarian experts to carry out rapid needs assessments of the damage. The Nicaraguan Ministries of Health and Education, the Red Cross, the Nicaraguan Civil Defence, the World Food Programme (WFP) and the Pan American Health Organisation (PAHO) have begun relief efforts.

DFID is assessing the situation in Honduras. There has been heavy rainfall which may cause flash flooding and landslides.

Overseas Aid: Standards

James Duddridge: To ask the Secretary of State for International Development which of the indicators for the Paris Declaration on Aid Effectiveness his Department is not on target for; when he expects his Department to meet those targets; and by what means. [155284]

Mr. Douglas Alexander: The 2006 OECD-DAC survey results showed that DFID has either already met or is on target to meet all the Paris Declaration targets at a corporate level by the 2010 deadline. When analysed at country level however, performance is more variable. Key areas where DFID will need to make improvements are:

(i) Reporting aid on budget;

(ii) Predictability; and

(iii) Use of programme-based approaches.

The DAC survey results and our own internal analysis have been used to update our UK DFID medium-term action plan on aid effectiveness. This includes actions across the organisation to improve aid effectiveness at country level, corporately and through our role as shareholders in the multi lateral organisations.

James Duddridge: To ask the Secretary of State for International Development what progress his Department has made towards the target of spending 90 per cent. of aid on the poorest countries; and what percentage of UK aid goes to the poorest countries. [155285]

Mr. Douglas Alexander: DFID has met the target: 90 per cent. of DFID expenditure in 2006-07 was in low-income countries.

James Duddridge: To ask the Secretary of State for International Development what progress his Department has made towards the target of allocating 50 per cent. of UK bilateral aid to developing countries for public services; and what percentage of bilateral aid is allocated for *(a)* health, *(b)* education, *(c)* sanitation and *(d)* water. [155286]

Mr. Douglas Alexander: Provisional estimates for 2006-07 are that 49 per cent. of DFID bilateral expenditure (excluding humanitarian assistance) was spent on public services—a rise of five percentage points on the previous year. The breakdown for the sectors mentioned is as follows:

	Percentage
Health	25.0
Education	18.9
Sanitation	0.8
Water	1.5

HOME DEPARTMENT

Cycling: Fines

Mr. Carmichael: To ask the Secretary of State for the Home Department how many people were fined for carrying more than one person on a bicycle not constructed or adapted for that purpose in each of the last 10 years. [154857]

Mr. Wills: I have been asked to reply.

The information requested, for the years 1996 to 2005, is contained in the following table.

Persons[1] fined for offences of carrying more than one person on a bicycle, England and Wales, 1996 to 2005

Offence	*Statute*	*Year*	*Number of persons fined*
Carrying more than one person on a bicycle not constructed or adapted to carry more than one person	Road Traffic Act 1 988, s.24	1996	7
		1997	10
		1998	7
		1999	1
		2000	6
		2001	2
		2002	4
		2003	3
		2004	4
		2005	5

[1] Principal offence basis.

RDS-NOMS, Ministry of Justice

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for the Home Department how many press officers are employed by her Department. [153149]

Mr. Byrne: Press officers within the central Home Office are employed at the Information Officer (IO) and Senior Information Officer (SIO) grades. As at April 2007 the Department employed 38 full time press officers and one part time press officer.

Departments: Press

Mr. Hoban: To ask the Secretary of State for the Home Department to which periodicals her Department subscribes. [153141]

Mr. Byrne: The Home Office as a Department including its executive agencies and non-departmental public bodies subscribe to a wide range of publications to inform its work. Individual business areas use their own budgets to make purchases under framework contracts managed by the Home Office Library. The publications are:

Departments: Taxis

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on taxis in the last 12 months. [153146]

Mr. Byrne: The Home Office spend on taxis for financial year 2006-07 was £962,533.

The aforementioned figure includes expenditure by the core Home Office, the Border and Immigration Agency, the National Offender Management Service and the Office for Criminal Justice Reform (the latter two are now part of the Ministry of Justice).

All travel is undertaken in accordance with the Civil Service Management and Ministerial Codes. The majority of expenditure, £666,440, was incurred by the Border and Immigration Agency on operational activities.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on industrial tribunals in the last 12 months. [153140]

Mr. Byrne: The Home Office does not maintain a central record of costs incurred in contesting employment tribunals (formerly industrial tribunals). The information required could be obtained only at a disproportionate cost.

Firearms

Mr. Ruffley: To ask the Secretary of State for the Home Department how many illegal guns have been seized or otherwise received by police forces since 1997, broken down by police authority area. [154987]

Mr. Coaker *[holding answer 10 September 2007]:* The information requested is not held centrally.

Firearms: Legislation

Mr. Whittingdale: To ask the Secretary of State for the Home Department if she will bring forward amendments to firearms legislation to allow potential Olympic competitors in shooting events to train in advance of the 2008 and 2012 Olympic and Paralympic Games; and if she will make a statement. [154845]

Mr. Coaker *[holding answer 10 September 2007]:* I have no plans to amend the legislation in this way. I am currently considering proposals to use the existing powers in section 5 of the Firearms Act 1968 to allow a small number of potential Olympic pistol shooters to practise in Great Britain ahead of the Games.

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department if she will take steps to ensure that the trafficking of human beings is recognised as a separate and distinct category for the compilation of crime statistics. [154951]

Mr. Coaker *[holding answer 10 September 2007]:* Crime statistics for trafficking for sexual exploitation under the Sexual Offences Act 2003 are already complied and published in the "Crime in England and Wales" yearly publication.

Mr. Steen: To ask the Secretary of State for the Home Department if she will take steps to ensure that the tackling of human trafficking is included in the immigration services business plan. [154952]

Mr. Coaker *[holding answer 10 September 2007]:* The tackling of organised immigration crime, including trafficking, is included in the Enforcement and Compliance Strategy and Border and Immigration Agency's International Strategy published in March 2007 and June 2007 respectively.

Immigration Controls: Health Professions

Mr. Clegg: To ask the Secretary of State for the Home Department whether the conclusions of the race equality impact assessment into the changes in the immigration rules for postgraduate doctors and dentists will be taken into account when reviewing any future rule changes in this area. [149570]

Jacqui Smith: Home Office internal guidance states that anticipating and identifying the potential equality consequences of any policies (including significant rules changes), and ensuring that as far as possible any potential negative consequences are minimised or eliminated should be part of the normal policy making process. We have adopted a best practice approach so, as well as fulfilling the legal requirement to equality assess for race, disability and gender, we consider the impact of policies on all equality strands e.g. gender identity, religion, sexual orientation, and age. Equality assessments draw on previous assessments and other evidence as appropriate.

Mr. Clegg: To ask the Secretary of State for the Home Department whether consultation with overseas doctors will take place before any future changes in immigration rules relating to opportunities for overseas doctors within the NHS. [149614]

Jacqui Smith: In deciding whether to consult on specific immigration rules changes in the future, the Home Office will act entirely in accordance with the Cabinet Office's Code of Practice on Consultation, which makes it clear that Ministers have discretion on whether or not to conduct a formal written consultation exercise on particular proposals.

Notwithstanding this point we are mindful of the concern expressed by a number of organisations regarding the changes to Immigration rules announced in April 2006, by the then Leader of the House, 19 April 2007, *Official Report*, columns 447-48, who undertook to hold a Government debate on this subject as and when parliamentary time allows.

James Dawute

Mr. Benyon: To ask the Secretary of State for the Home Department whether the police investigation into the actions of James Dawute while at the Immigration and Nationality Directorate has concluded. [152100]

Mr. Byrne *[holding answer 24 July 2007]:* Mr. Dawute's conduct while an employee of the Immigration and Nationality Directorate was totally unacceptable. As a result of his actions, Mr. Dawute has had his employment terminated.

The question of criminal proceedings is a matter for the Crown Prosecution Service.

Offensive Weapons

Mr. Ruffley: To ask the Secretary of State for the Home Department how many illegal knives were seized or otherwise received by police forces in each year since 1997, broken down by police authority area. [154982]

Mr. Coaker *[holding answer 10 September 2007]:* This information is not collected centrally.

Offensive Weapons: Cambridgeshire

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department how many knife-related crimes were recorded in Peterborough and Cambridgeshire in each year since 2001; and if she will make a statement. [155322]

Mr. Coaker: From the information collected on recorded crime, it is not possible to identify those offences which are knife related. Such offences are not specifically defined by statute and details of the individual circumstances of offences do not feature in the recorded crime statistics.

Figures are collected for homicides involving the use of sharp instruments but they do not separate identify knife-related offences. As from April 2007, police forces are providing data on serious violence involving knives. Home Office statisticians will assess the quality of the data and it is planned that figures for 2007-08 will be published in the main crime bulletin in July 2008.

Police: Finance

Ms Keeble: To ask the Secretary of State for the Home Department what total amount of funding was provided for each police authority in *(a)* 1997, *(b)* 2002 and *(c)* 2007. [155290]

Mr. McNulty: The information requested is set out in the following table.

The amounts include Government general formula grant, specific grants, capital grant and local funding raised through the police precept on council tax.

Total funding for police authorities in England and Wales

£ million

Police authority	*1997-98*	*2002-03*	*2007-08*
Avon and Somerset	163.9	210.1	286.7
Bedfordshire	61.8	80.5	103.8

North Wales	73.7	102.5	145.5
South Wales	161.8	206.0	266.7
Total Wales	352.2	469.7	629.5
Total England and Wales	7,044.2	9,083.2	12,156.0

Notes:
1. Excludes City of London Police.
2. Total funding is made up of government general formula grant, specific grants, capital grant and local funding raised through the police precept on council tax.

Ms Keeble: To ask the Secretary of State for the Home Department when she expects to announce the 2008-09 funding settlement for police authorities. [155291]

Mr. McNulty: I expect the announcement to take place with the Local Government Finance Provisional Settlement in late November/early December.

Work Permits: Health Professions

Mr. Lilley: To ask the Secretary of State for the Home Department how many work permit applications for foreign *(a)* nurses and *(b)* doctors from each country in North Africa and the Middle East for which figures are available were approved in each year in the period between 1 January 2000 and 31st May 2007. [148076]

Mr. Byrne *[holding answer 9 July 2007]:* The following tables show the number of work permit applications by nurses and doctors which were approved for overseas nationals by country, in the period 1 January 2000 to 31 May 2007 from *(a)* North Africa and *(b)* the Middle East.

	2000			2001			2002			2003

Notes:

1. Figures are rounded to nearest 5
2. Because of rounding, figures may not add up to totals shown

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

COMMUNITIES AND LOCAL GOVERNMENT

Bellwin Scheme

Mrs. Lait: To ask the Secretary of State for Communities and Local Government which local authorities have notified her Department of their intention to apply for Bellwin scheme funding following the recent floods. [153497]

John Healey *[pursuant to the reply, 3 September 2007, Official Report, c. 1637-38W]:* The following authorities had notified an intention to claim for the flooding events in June by the closing date of 31 July:

Amber Valley Borough Council
Barnsley Metropolitan Borough Council
Bassetlaw District Council
Bolsover District Council
Bridgnorth District Council
Chesterfield Borough Council
Derbyshire County Council
Derbyshire Fire and Rescue Service
Derbyshire Dales District Council
Doncaster Metropolitan Borough Council
East Riding of Yorkshire Council
East Lindsey District Council
Erewash Borough Council
Gedling Borough Council
Gloucestershire County Council
Harrogate Borough Council
Hereford and Worcester Fire and Rescue
High Peak Borough Council
Humberside Fire and Rescue Service
Humberside Police Authority
Kingston upon Hull City Council
Leeds City Council

Lichfield District Council
Lincoln City Council
Lincolnshire County Council
Newark and Sherwood District Council
North East Derbyshire District Council
North East Lincolnshire Council
North Lincolnshire
North Yorkshire Fire and Rescue Authority
Nottinghamshire County Council
Pendle Borough Council
Rotherham Metropolitan Borough Council
Scarborough Borough Council
Sheffield City Council
Shrewsbury and Atcham Borough Council
Shropshire County Council
Shropshire Fire and Rescue Service
South Shropshire District Council
South Yorkshire Fire and Rescue Authority
South Yorkshire Police Authority
Stafford Borough Council
Staffordshire Fire and Rescue Service
Warwick District Council
Wakefield Metropolitan District Council
West Mercia Police Authority
West Lindsey District Council
West Yorkshire Fire and Rescue Authority
Worcestershire County Council
Wyre Forest District Council

Authorities have until the end of August to notify incidents occurring in July. To date the following authorities have done so:

Aylesbury Vale District Council
Boston Borough Council
Bridgnorth District Council
Buckinghamshire County Council
Cheltenham Borough Council
Cherwell District Council
Cotswold District Council
Derbyshire Fire and Rescue Service
East Lindsey District Council
East Riding of Yorkshire
Forest of Dean District Council
Gedling Borough Council
Gloucester City Council
Gloucestershire County Council
Hereford and Worcester Fire and Rescue
Herefordshire District Council
High Peak Borough Council
Lichfield District Council
Lincolnshire County Council
London Borough of Sutton
Malvern Hills District Council
Nottinghamshire County Council
Oxfordshire County Council
Oxford City Council
Reading Borough Council
Royal Borough of Windsor and Maidenhead
Scarborough Borough Council
Shropshire County Council
Shrewsbury and Atcham Borough Council
South Shropshire District Council
Stroud District Council
Staffordshire Fire and Rescue Service
Stratford-on-Avon District Council
Telford and Wrekin Borough Council
Tewkesbury Borough Council
Vale of White Horse District Council
Warwick District Council
Warwickshire County Council
West Berkshire Council
West Mercia Police Authority
West Oxfordshire District Council
Woking Borough Council
Wokingham Borough Council
Worcester City Council
Worcestershire County Council
Wychavon District Council
Wycombe District Council
Wyre Forest District Council

Council Tax

Tom Brake: To ask the Secretary of State for Communities and Local Government how much council tax was raised in the last year for which figures are available. [155216]

Mr. Dhanda: The council tax received by local authorities in England in 2006-07 was £19,315 million. This figure excludes amounts funded by council tax benefit and includes both arrears received for previous years and prepayment of council tax for subsequent years.

The data are as reported on QRC4 forms submitted by billing authorities to the Department for Communities and Local Government.

Council Tax: Administration

Tom Brake: To ask the Secretary of State for Communities and Local Government what the cost was of administering the council tax system in the latest year for which figures are available. [155217]

Mr. Dhanda: Net current expenditure by local authorities in England on administering the council tax system for 2005-06 is tabled as follows.

Cost of administering	*£ million*
Council tax collection	330.1
Council tax benefits	273.4
Total	603.6

The data are as reported by local authorities on Revenue Outturn (RO) returns for 2005-06.

Net current expenditure is defined as gross expenditure on employees and running expenses, less income from sales, fees and charges, and 'other income'.

The cost of council tax collection includes any costs relating to collection of arrears of council tax and community charge.

Council Tax: Pensioners

Tom Brake: To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the impact of council tax on pensioners. [155218]

Mr. Dhanda: Keeping council tax under control, in the interests of all taxpayers, is a priority for the Government. Government grant to councils in England since 1997 has increased on a like for like basis by 39 per cent. in real terms up to 2007-08, and it has taken capping action against excessive council tax increases. This has helped bring the average band D (two adult) council tax increase down from almost 13 per cent. in 2003-04 to 4.2 per cent in 2007-08.

As Sir Michael Lyons' recent report on local government recognises, council tax benefit is the key to tackling the perceived unfairness of council tax towards all those on low incomes. The Government are working hard to improve take up and has done a great deal to improve pensioner incomes, spending around £11.5 billion more on pensioners in 2007-08 than if 1997 policies had continued.

Departments: Departmental Coordination

Mrs. May: To ask the Secretary of State for Communities and Local Government what *(a)* ministerial committees and *(b)* permanent groups involving senior civil servants have been set up by her Department to liaise with the Ministers for Women. [155241]

Mr. Dhanda: The Secretary of State for Communities and Local Government sits on numerous ministerial committees, including a number of committees with the Minister for Women and Equality. A list of committees and the ministerial membership is available on the Cabinet Office website:

http://www.cabinetoffice.gov.uk/secretariats/committees/index.asp.

In addition, the Government Equalities Office, who support the Minister for Women and Equality, are represented on the following CLG senior civil servant-led groups:

the Community Empowerment Programme Board; and

Race and Cohesion Strategy Board.

Departments: Public Bodies

John McDonnell: To ask the Secretary of State for Communities and Local Government what her Department's legal, constitutional and management responsibilities are for *(a)* each of its non-departmental public bodies, *(b)* each of its executive agencies and *(c)* the Government Offices for the English Regions. [155337]

Mr. Dhanda: The Department sponsors 13 executive NDPBs/public corporations. Each has a legal status distinct from the Department. Such bodies are led by a chair and board members normally appointed by Ministers in accordance with the Office of the Commissioner for Public Appointments' guidance, and are managed by a chief executive. Ultimately, Ministers and the Department are accountable for these bodies. Hence the Department has put in place proportionate sponsorship arrangements for each in accordance with guidance provided by the Cabinet Office, HM Treasury and others.

The Department sponsors three executive agencies: the Fire Service College, the Planning Inspectorate (PINS) and the Queen Elizabeth II Conference Centre. Each was established by way of administrative action, hence they are not legally separate entities from the Department. The college and the centre were both granted trading fund status by way of Trading Fund Orders; PINS is vote-funded. Each agency has a chief executive and management board, including non-executive directors, reporting directly to Ministers.

The Government offices were also established by administrative action by bringing together in 1994 the existing regional offices of the then Departments of the Environment, Transport, Trade and Industry and Employment. Subsequently, the Home Office, DEFRA and DCMS also joined the network as sponsor Departments.

The Government offices are hence not legally separate entities from those sponsor Departments, who each contribute staff and provide funding to them. Following the Cabinet Office's Performance and Innovation Unit's Report, 'Reaching Out', it was decided that the Deputy Prime Minister should take overall responsibility for the day-to-day management of the Government office network on behalf of the Secretaries of State of all the sponsor Departments. This responsibility has now passed to the Secretary of State for Communities and Local Government.

John McDonnell: To ask the Secretary of State for Communities and Local Government what powers her Department has with regard to each of its non-departmental public bodies, executive agencies and the Government offices for the English regions to *(a)* grant and withdraw delegated personnel responsibilities, *(b)* oversee and control the exercise of delegated personnel responsibilities (including those for pay) and *(c)* ensure compliance with all equality legislation. [155338]

Mr. Dhanda: For the Department's executive NDPBs and executive agencies, delegated personnel responsibilities were granted either in founding legislation or in framework documents approved by Ministers setting out roles and responsibilities. While Ministers ultimately have the right to withdraw delegated personnel responsibilities, as these entities were established to operate at arm's-length of Ministers and the core Department there would be little justification for doing so. Ministers oversee and control the exercise of delegated personnel responsibilities for such bodies by having right of approval over staff terms and conditions, pay and grading proposals and annual pay remits, delegated by the Chief Secretary to the Treasury. Equalities legislation applies to such bodies in the same way that it does to any other public body, and they are obliged to comply as appropriate.

The Secretary of State has been formally delegated responsibility to determine the terms and conditions of staff in the Government offices for the regions outside

the senior civil service, including their remuneration, by the Minister for the Civil Service in accordance with the Civil Service (Management Functions) Act 1992. She exercises this responsibility in the same manner as she does for other staff in her Department.

East of England Development Agency: Publications

Mr. Yeo: To ask the Secretary of State for Communities and Local Government what the *(a)* quarterly and *(b)* annual cost was of producing and distributing the East of England Development Agency magazine Source in the latest period for which figures are available. [155296]

Mr. Dhanda: EEDA produce four editions a year at approximate costs rounded up of £12,000 per edition.

For July 2006 to March 2007 (four editions) the cost for design, print and distribution was £47,857.63.

Flood Control: Expenditure

Mr. Vara: To ask the Secretary of State for Communities and Local Government how much of the £14 million relief package promised by the Prime Minister for those areas affected by the recent flooding has so far been dispensed, broken down by recipient; and for what purpose each recipient received money. [155181]

Mr. Dhanda: On 7 July the Prime Minister announced a £14 million package of immediate support to help local authorities and communities in flood hit areas.

The package comprises of three elements:

£10 million Flood Recovery Grant scheme from Communities and Local Government for the hardest hit local authorities in flood affected areas;

£3 million from Department for Transport to meet claims from local authorities for help with the cost of repairing roads and bridges; and

£1 million which can be drawn on as contingency reserve by the Department for Work and Pensions for use by Jobcentre Plus to support additional demand for Social Fund Community Care Grants.

£10 million in Flood Recovery Grant has already been released to local authorities affected by the June Floods to support their work in helping those in greatest and most immediate need get back on their feet. Thirty nine authorities in total received a payment under the June scheme (full details on the grant paid is available on the CLG website www.communities.gov.uk/floodrecovery). Local authorities have been awarded this grant on the basis of the relative number of households affected (based on available information at the time). It is up to the local authorities to spend the money how they wish in line with local priorities.

The Department for Transport (DFT) has appointed consultants who will work with authorities and advise on the preparation of claims for emergency capital funding support for repairs to bridges and roads. Some work will require detailed assessments to be carried out, which are likely to take authorities a short while. Consequently, no money has yet been distributed. Initial estimates for the local authorities affected by the June and July floods have been requested by 17 September 2007. However authorities are encouraged not to delay urgent remedial work. The cost of repairs will not be excluded from consideration because they proceeded a claim.

As of 7 September, the Department for Work and Pensions had paid Community Care Grants totalling £653,000 to people on qualifying benefits to meet the cost of replacing essential household items. Community Care Grants are non repayable grants to help to support vulnerable people living in the community. For example they can help people remain in the community rather than enter care or to ease exceptional pressures on families. An applicant must be in receipt of income support, income based job seekers allowance or pension credit.

Community Care Grant—as of 7 September 2007

Region	*Number of applications*	*Number of payments made*	*Total cost (£)*
Yorkshire and Humber	1,562	1,112	631,377.87
South East	18	13	7,705.69
South West	42	32	13,842.97
Total	1,622	1,157	652,926.53

Home Information Packs

Mr. Syms: To ask the Secretary of State for Communities and Local Government what her Department's latest estimate is of the number of fully trained and accredited *(a)* home inspectors and *(b)* domestic energy assessors in the South West Government Office Region; and if she will make a statement. [151586]

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what her latest estimate is of the number of qualified and accredited *(a)* domestic energy assessors and *(b)* home inspectors. [152848]

Yvette Cooper: I refer the hon. Members to the dedicated home information packs website for the most recently published national numbers of accredited assessors, together with a regional breakdown:

http://www.homeinformationpacks.gov.uk/industry/163_Assessorinspectornums.html.

We will be providing regular updates on this site.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether a *(a)* spare room, *(b)* study and *(c)* box room will be classified as a bedroom for the purposes of the commencement of home information pack provisions. [152518]

Yvette Cooper: I refer the hon. Member to the answer given on 25 June 2007, *Official Report*, column 164W.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the expected date is for the publication of the reprinted Home Information Pack Toolkit. [152546]

Yvette Cooper: The revised Home Information Pack Toolkit was published, mailed and available to order from 30 July, and available on the HIP website from 27 July.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of home condition reports commissioned to date. [152551]

Yvette Cooper: I refer the hon. Member to the answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 25 June 2007, *Official Report*, column 160W.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether a room formerly used as a bedroom will be classified as a bedroom for the purposes of the commencement of home information pack provisions if the bed is removed from it. [152668]

Yvette Cooper: I refer the hon. Member to the answer given on 25 June 2007, *Official Report*, column 164W.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what plans she has to issue revised statutory instruments relating to home information packs; and what the timescale is for the coming into force of such statutory instruments. [152698]

Yvette Cooper: The Government will continue to monitor HIPs closely to ensure benefits are being passed onto the consumer. The Home Information Pack Regulations (No.2) 2007 were laid on 11 June and came into force on 1 August 2007. The Government intend to make further statutory instruments which will commence HIPs for remaining properties. Any revised statutory instrument would be made in light of the experience following roll-out and would be subject to the standard parliamentary process for such statutory instruments.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether additional funding has been provided to local authority trading standards departments to enforce the home information packs regulations. [152821]

Yvette Cooper: I refer the hon. Member to the answer given on 26 June 2007, *Official Report*, column 633W.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what representations her Department has received from the local authorities co-ordinators of regulatory services on *(a)* home information packs and *(b)* energy performance certificates in the last 12 months. [153516]

Yvette Cooper: We have had regular discussions with all key stakeholders about home information packs and energy performance certificates, including LACORS.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether a home information pack will be required at the point of sale. [153606]

Yvette Cooper: During the transitional period until the end of the year homeowners need to commission a pack and pay for it, or make a commitment to paying for it, before putting their home on the market.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether her Department will retain the revenue from fines for breaching the home information pack regulations. [153722]

Yvette Cooper: No. Local Authority Trading Standards officers will have the power to issue fixed penalty notices where a breach of the home information pack duties is suspected.

Home Information Packs: Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the my hon. Friend the Member for Brentwood and Ongar (Mr. Pickles) of 26 June 2007, *Official Report*, column 633W, on Home Information Packs: Finance, what the financial value is of the additional resources provided to local authority trading standard departments in England in year 2007-08. [152683]

Yvette Cooper: I refer the hon. Member to the answer given on 26 June 2007, *Official Report*, column 633W.

Housing

Andrew George: To ask the Secretary of State for Communities and Local Government *(a)* what the lower quartile price was for new dwellings sold, *(b)* how many new houses were built and *(c)* how many new affordable houses were built in (i) each Government region and (ii) nationally in 2006. [155101]

Mr. Dhanda *[holding answer 10 September 2007]:* Data on *(a)* the lower quartile house price for new dwellings sold, *(b)* the number of new homes built and *(c)* the number of new affordable homes built in each government office region and for England are presented in the following table. Affordable housing supply figures are available by financial year only.

	(a) LQ house price for new dwellings sold in 2006[1] (£)	*(b) Total number of new homes built in 2006[2]*	*(c) Number of new homes built in 2005-06 which are classified as affordable[3,4]*
North East	122,075	7,658	945
North West	123,995	18,563	2,036

	(a) LQ house price for new dwellings sold in 2006[1] (£)	(b) Total number of new homes built in 2006[2]	(c) Number of new homes built in 2005-06 which are classified as affordable[3,4]
Yorkshire and The Humber	119,995	15,490	1,758
East Midlands	122,950	16,906	2,532
West Midlands	126,000	14,873	3,758
East	152,950	21,617	4,155
London	208,218	20,472	7,016
South East	169,000	26,985	6,894
South West	141,500	18,197	3,995
England	137,000	160,761	33,089

[1] *Source:* HM Land Registry
[2] *Source:* National House Building Council, local authorities P2 returns
[3] *Source:* Housing Corporation, local authorities P2 returns, private developers
[4] Affordable housing includes both social rent and intermediate housing (e.g. low cost home ownership).

In addition to the numbers of new build affordable homes shown in the table above a further 11,834 affordable homes were supplied through the acquisition of dwellings from the private sector stock.

Housing: Cornwall

Andrew George: To ask the Secretary of State for Communities and Local Government what estimate she has made of the average age of first time house buyers in *(a)* the West Cornwall and Isles of Scilly constituency of St Ives, *(b)* Cornwall and *(c)* each Government region in each region since 1997, broken down by sex. [155344]

Mr. Dhanda: Data on First Time Buyers (FTBs) are available from the regulated mortgage survey which is supplied to Communities and Local Government by the Council of Mortgage Lenders. However due to a small sample size data on the average age of FTBs at UK level are unreliable. The gender split is unavailable.

The average age of FTBs at the UK level is available on the Council of Mortgage Lenders website at http://www.cml.org.uk/cml/filegrab/2ML2.xls?ref=4624. These figures are in the following table.

	Median age of first time buyers, UK
1997	29
1998	29
1999	30
2000	30
2001	30
2002	31
2003	31
2004	31
2005	30
2006	29

Source:
CML

Housing: Low Incomes

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what minimum equity stake must be purchased under the *(a)* Social Homebuy, *(b)* New Build Homebuy and *(c)* Open Market Homebuy schemes; and what plans her Department has to amend the level of these stakes. [153496]

Yvette Cooper: The minimum equity stake which can be purchased under *(a)* Social Homebuy and *(b)* New Build Homebuy is 25 per cent.

Under *(c)* purchasers buy a property outright supported by an equity loan for up to 25 per cent. of the property's value.

In June of this year the Housing Corporation launched a competition for private investors to join the 2008-11 round of Open Market Homebuy, and they have received initial expressions of interest. Proposals include products which allow buyers to purchase as little as 50 per cent. of a home chosen on the open market.

We also want to offer more social tenants the opportunity to buy a share in their home and will be considering whether we should offer smaller shares to improve affordability. We will announce proposals later this year as part of our response to John Hills' review of social housing.

Mr. Clappison: To ask the Secretary of State for Communities and Local Government how many foreign nationals were granted a social housing tenancy in each of the last 10 years. [155002]

Mr. Dhanda *[holding answer 10 September 2007]:* Information on social dwellings owned by *(a)* local councils and *(b)* registered social landlords which are allocated to non-British citizens is collected in the Continuous Recording of Lettings form (CORE). These data are collected on behalf of Communities and Local Government and the Housing Corporation by the Centre for Housing Research at the University of St. Andrews. A question was added for the 2006-07 collection period to obtain information on the nationality of the tenant.

Using CORE data, the Department has estimated around 5 per cent. of general needs lettings made to new social housing tenants between April and December 2006 were to foreign nationals. We estimate this was equivalent to around 10,000 general needs lettings to new social housing tenants in 2005-06 being made to foreign nationals.

Housing: Middlesbrough

Dr. Kumar: To ask the Secretary of State for Communities and Local Government how many people in Middlesbrough, South and East Cleveland have received assistance under the Homebuy scheme. [143430]

Yvette Cooper: The Homebuy scheme was launched in April 2006. Provisional figures for 2006-07 show that 27 homes were completed under the New Build Homebuy scheme in the Middlesbrough council area and none in Redcar and Cleveland borough council. No purchases were made under Open Market Homebuy in either Middlesbrough or Redcar and Cleveland in 2006-07.

In addition Middlesbrough benefited from two sales under Right to Acquire and one through a Social Homebuy pilot scheme. Redcar and Cleveland also benefited through 16 Right to Acquire sales.

This information is not available on a constituency basis.

For the remainder of 2007-08, we are making changes to the Open Market Homebuy product to offer purchasers greater choice and improve affordability.

From 23 July we are offering a new 17.5 per cent. Government equity loan product, which purchasers will be able to use more flexibly as a deposit and take to any lender on the open market. This will complement the existing scheme of a 12.5 per cent. equity loan matched by a 12.5 per cent. equity loan from one of four mortgage lenders.

Housing: Midlands

Mr. Bone: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of new homes to be built as part of the Milton Keynes and South Midlands spatial strategy which will be occupied by migrant workers from the European Union in *(a)* total, *(b)* Northamptonshire and *(c)* Wellingborough. [155128]

Mr. Dhanda: The Milton Keynes South Midlands Sub Regional Strategy (MKSM SRS) sets out clear targets for the delivery of housing across the growth area. The strategy does not set levels of housing for any specific groups. Housing market assessments have also been carried out for North Northamptonshire and West Northamptonshire to identify areas of housing need. The assessments, initial conclusions acknowledge that migration will indeed influence the pace of housing growth but given patterns of movement within the labour market it is inherently difficult to predict accurate figures for the number and requirement of housing for migrant workers in the county.

Given the growth plans in Northamptonshire, additional employment opportunities for migrant workers are likely to be created in future and the growth presents an opportunity for migrants in terms of work and housing opportunities.

Provision of housing for migrant workers is dealt with at a local level and local authority housing providers will work to build on the initial information provided in the reports previously referred to in order to determine future housing need for migrant workers.

Housing: Valuation

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many domestic dwellings in *(a)* England and *(b)* each local authority area in England are coded by the Valuation Office Agency with the VE value significant code. [152544]

John Healey: The Valuation Office Agency has not undertaken a comprehensive exercise to gather value significant coding information on all domestic dwellings in England.

Infrastructure: Wellingborough

Mr. Bone: To ask the Secretary of State for Communities and Local Government what plans there are to improve infrastructure in Wellingborough under the South Midlands and Milton Keynes spatial strategy; and if she will list the projects to be undertaken and their *(a)* start and *(b)* completion dates. [155126]

Mr. Dhanda: Since 2004, the Government working with partners in the Northamptonshire area have invested £100 million additional funding through the Growth Area Fund in Northamptonshire.

Spending on infrastructure has already commenced in certain areas that will relate to Wellingborough. A £1.3 million scheme for the improvement of the A45/A509 Wilby Way roundabout, near Wellingborough, was approved for CIF grant in 2006. The scheme is due to be completed by April 2008. In addition, £1.5 million has been allocated for town centre improvements in Wellingborough for the period 2006-07 to 2007-08

In addition, from the commencement of the new East Midlands Rail Franchise timetable in December 2008, rail passengers will benefit from a new hourly service between Kettering and London (including Wellingborough), increasing the number of off peak services on the midland main line to five trains per hour.

Land: Databases

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to my hon. Friend the Member for Surrey Heath (Michael Gove) of 25 June 2007, *Official Report*, column 171W, on Land: Databases, if she will place in the Library a copy of the documentation relating to the validation service the Valuation Office Agency provides for local authority IT suppliers. [152701]

John Healey: The VOA validation service for IT suppliers to local authorities on Valuebill developments is delivered by an external contractor. The terms are commercially sensitive and confidential.

Local Government

Tom Brake: To ask the Secretary of State for Communities and Local Government which local planning authorities in each *(a)* region and *(b)* county have local planning reviews or unitary development plan reviews being processed to adoption under the transitional arrangements of the Planning and Compulsory Purchase Act 2004; and what the expected month of adoption is in each case. [152744]

Yvette Cooper: The following local planning authorities are still processing their local plans or UDPs under the transitional arrangements:

Swale LP (inspector's report expected in October and adoption after that);

Tendring LP (inspector's report expected in October and adoption after that);

Carlisle LP (local plan inquiry still in progress);

Warwick LP (adoption expected August);

Bath and NE Somerset LP (adoption expected September);

Caradon LP (adoption expected September);

North Kesteven LP (adoption expected in September);

Sunderland UDP (adoption expected in November).

Adoption of local plans/UDPs is in the gift of councils and therefore these expected timings—and their implementation—are entirely subject to confirmation by the councils concerned.

Tom Brake: To ask the Secretary of State for Communities and Local Government which local planning authorities in each *(a)* region and *(b)* county ceased work on the reviews of their local plans or unitary development plans on the announcement of the intended introduction of local development frameworks; and what the year of adoption was of their preceding adopted local plan. [152745]

Yvette Cooper: The following table provides a list of those authorities who our regional Government offices consider to have ceased work on local plans or UDPs on the announcement of the intended introduction of LDFs and the adoption date of the local plan/UDP which was in force at the time.

Table of authorities:

Region	*Local planning authority*	*Adoption of previous plan*
London	Tower Hamlets	
East Midlands	None	
Yorkshire and Humber	York	Never did local plan
	Barnsley	2000
	Rotherham	1999
	Sheffield	1998
	Doncaster	1998
	Hambleton, North Yorks	1999
North West	None	
West Midlands	Stoke on Trent	1993
	Stafford	1998
	Lichfield	1998
	Staffs Moorlands	1998
	Cannock	1997
	South Staffs	1996
East of England	Fenland	1993
	Huntingdonshire	2002
	Castle Point, Essex	1998
	Southend	1994
	St. Albans	1994
	Breckland, Norfolk	1999
	Kings Lynn and West Norfolk	1998
	Norfolk Waste Local Plan	2000
	South Norfolk	2003
	Forest Heath, Suffolk	1995
	Ipswich	1997
	Mid Suffolk	1998
	Waveney, Suffolk	1996
North East	None	
South West	Purbeck, Dorset	No 1991 Act plan
	Kerrier, Cornwall	No 1991 Act plan
South East	Horsham	1997
	Crawley	2000
	Wealden, Sussex	1998
	Cherwell, Oxon	1996
	West Sussex CC (Waste)	2003

Local Government Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how long the pilot schemes on participatory budgeting will last. [153502]

Mr. Dhanda: The current pilot schemes in Bradford, Newcastle, Sunderland, Salford, Manton and Lewisham will last until March 2008. Sunderland has committed to continue prioritising a proportion of the new deal for Communities budget under a participatory budgeting process until 2011, when the NDC programme is due to finish.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what criteria were used to select local authorities taking part in the participatory budgeting pilots. [153505]

Mr. Dhanda: The 10 participatory budgeting pilots are assisted by the Participatory Budgeting Unit, which this Department helps to support. Before helping to develop a pilot, the Participatory Budgeting Unit applies the following criteria: there must be political support for participatory budgeting as the process can only be undertaken with the approval of senior council officials or elected representatives; an appropriate source of funding must be identified; and there must be the capacity and resources to ensure good quality engagement with the community.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government over what frontline services residents will be given a direct say in her plans for participatory budgeting. [153506]

Mr. Dhanda: In the participatory budgeting pilots, residents are having a say in the spending priorities for the following types of services:

Bradford: services for community and neighbourhood development in deprived areas, tackling safer communities, children and young people, environmental improvements, and health, housing issues, learning, sport and leisure and older people.

Newcastle: services for young people to help social cohesion and sporting activities; and safer, cleaner greener issues, for example, to counteract minor crime, improvements to parks, community cohesion and engagement.

Salford: minor road works to help safety.

Sunderland: funds to strengthen the community and undertake capacity building which includes projects to support young and older people working together, to support and develop young people and help ethnic minorities. Re-profiling of services under a number of themes including community safety, housing, environment, capacity building, job creation and education.

Manton: services funded include play areas, facilities for teenagers, sports and leisure, local police services, abating litter and rubbish.

Lewisham: The spending priorities have not yet been decided. Priorities will be selected under the following headings: encouraging volunteering, supporting young people, addressing community concerns, improving the health of local people, and bringing together diverse communities.

The services over which residents might have a say for the other four pilots have yet to be confirmed.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what form consultation with councils taking part in the participatory budget pilots took. [153686]

Mr. Dhanda: In the cases of Bradford, Newcastle, Sunderland, Salford, Manton and Lewisham (where the participatory budgeting funds have been confirmed), the participatory budgeting unit held discussions with senior officials and/or elected representatives of the local council before assisting the lead organisation in the development of a pilot. A similar approach is being taken in the other pilot areas of St. Helens, Merseyside, Erdington in Birmingham and Thornhill in Southampton.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many local authorities listed increased revenue from *(a)* parking fines and *(b)* fly-tipping fines as an efficiency gain in their annual efficiency returns to her Department. [153689]

John Healey: Our guidance (available at www.communities.gov.uk/index.asp?id=1508167) makes clear that the monetary sum of fines collected should not be counted as efficiency gains in annual efficiency statements.

Planning Permission: Cornwall

Andrew George: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 24 July 2007, *Official Report*, columns 968-9W, on planning permission: Cornwall, what quarterly aggregated statistics her Department collects; what the results are on a *(a)* Cornwall-wide and *(b)* national level in each of the last five years; and where data for individual planning applications are collected. [155076]

Mr. Iain Wright *[holding answer 10 September 2007]:* The department currently collects 150 items of data on development control from local and county planning authorities. Key information on decisions taken on planning permissions during the last five years are given in the table as follows:

Number of planning applications decided and percentage granted: 2002-03 to 2006-07

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Cornwall[1]					
Major decisions	210	200	290	300	320
Percentage granted	65	71	72	74	78
Minor decisions	3,500	3,990	4,180	4,050	3,910
Percentage granted	78	77	74	77	81
Other decisions	7,050	7,570	7,670	6,480	6,620
Percentage granted	84	83	81	81	83
England					
Major decisions	14,730	16,750	18,830	19,610	19,260
Percentage granted	81	78	75	75	75
Minor decisions	144,010	152,070	160,860	157,350	151,120
Percentage granted	81	78	76	76	76
Other decisions	426,810	455,930	465,630	421,740	417,030
Percentage granted	83	82	81	80	80

[1] Consists of Restormel, Carrick, Caradon, Penwith, Kerrier and North Cornwall planning authorities.

Planning: South West Region

Andrew George: To ask the Secretary of State for Communities and Local Government what assessment she has made of the *(a)* viability of Multi-Area Agreements (MAAs) between Cornwall and the Isles of Scilly and *(b)* effectiveness of MAAs in the South West region. [155335]

Mr. Dhanda: We have not received a proposition for a multi area agreement (MAA) between Cornwall and the Isles of Scilly, but would be happy to discuss this further with the areas concerned. MAAs are a new concept and we are at the stage of initial proposals for their possible development. None exist yet to evaluate.

Playing Fields: Planning

Michael Jabez Foster: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 17 July 2007, *Official Report*, column 226W, on playing fields: planning, when the consultation on the review of statutory consultees is expected to take place. [155300]

Mr. Dhanda: I refer the hon. Member to the answer given to the hon. Member for Bath (Mr. Foster) on 17 July 2007, *Official Report*, column 226W, which remains the current position.

Regional Planning and Development: South West Region

Mr. Harper: To ask the Secretary of State for Communities and Local Government (1) what representations the Minister for the South West has made to *(a)* the Department (i) for Transport, (ii) of Health, (iii) of Business, Enterprise and Regulatory Reform, (iv) for Communities and Local Government, (v) for Environment, Food and Rural Affairs and (vi) for Work and Pensions and *(b)* the Wales Office regarding (A) the interests of the South West in the formulation of central government policy and (B) the development of the single regional strategy; [155168]

(2) what discussions the Minister for the South West has had with the Chancellor of the Exchequer and HM Treasury on the comprehensive spending review. [155149]

Mr. Dhanda: The Minister for the South West has had discussions with a range of ministerial colleagues and others on issues impacting on the region.

Mr. Harper: To ask the Secretary of State for Communities and Local Government what the Minister for the South West's most recent assessment is of the priorities for the South West. [155169]

Mr. Dhanda: The priorities for the South West are the provision of more affordable housing and infrastructure improvements which will ensure the region's economy continues to grow at the rate it has over the last 10 years.

Road Traffic Control: Kettering

Mr. Hollobone: To ask the Secretary of State for Communities and Local Government what the grant awarded by her Department in 2007 towards improving the operation and co-ordination of traffic lights in Kettering has been spent on; and what the impact of that spending has been on levels of co-ordination and operation. [155133]

Mr. Dhanda: The grant to which the hon. Member refers is being paid through the Department's Growth Area Fund, and the scheme is called the Kettering Intelligent Transport Scheme (KITS). The scheme was approved in January 2007 and will be delivered by the end of March 2008. To date, delivery has been focussed on the planning required although I understand orders have now been placed and the main works are about to commence. It is therefore not possible to assess the impact at this stage although the scheme was appraised to Treasury Green Book standards prior to the grant being approved.

Rural Areas

Andrew George: To ask the Secretary of State for Communities and Local Government whether she intends formally to establish any rural or non-metropolitan equivalents of city regions. [155336]

Mr. Dhanda: City-regions are currently voluntary local authority partnerships and are not established by the Government.

The review of sub-national economic development and regeneration, undertaken by HM Treasury, The Department for Business, Enterprise and Regulatory Reform and my Department, was published in July 2007 and sets out the economic benefits of sub-regional working. The review states that the Government will work with interested sub-regions to explore the potential for allowing groups of local authorities to establish sub-regional authorities which enable pooling of economic development responsibilities. This offer is open to rural and non-metropolitan areas, as well as city-regions.

Supporting People Programme

Ms Keeble: To ask the Secretary of State for Communities and Local Government what plans she has for the level of financial support provided through the Supporting People programme; and if she will make a statement. [155288]

Mr. Dhanda: Levels of future funding for the Supporting People programme and its distribution are subject to the current Comprehensive Spending Review (CSR). Details about the outcome of CSR07 for the programme will be announced alongside the local government settlement later in the year.

Temporary Accommodation

Paul Holmes: To ask the Secretary of State for Communities and Local Government how many households are living in temporary accommodation. [155230]

Mr. Iain Wright: Information reported each quarter by local authorities about their activities under homelessness legislation includes the number of households accepted by local authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty. The duty owed to an accepted household is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home is found.

The number of households in temporary accommodation is available in our quarterly statistical release on statutory homelessness, which provides data at the national (Table 6) and regional level (Table 7), and is published on our website and placed in the Library each quarter. The latest release was published on 10 September 2007 and contains data for the period April to June 2007:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstaticsby/homelessnessstatistics/publicationshomelessness/

Thames Gateway: Finance

Mr. Amess: To ask the Secretary of State for Communities and Local Government what the budget was for the Thames Gateway project in each year since its inception, broken down by main budget heading. [149731]

Yvette Cooper: The information is as follows:

TG Budgets Resource

	Consumption	*£ million Capital*
2003-04	3	[1]21.6
2004-05	8.2	[2]139.5
2005-06	12.5	[3]149
2006-07	17	130
2007-08	23	155

[1] Including £12.4 million resource investment
[2] Including £18.5 million resource investment
[3] Including £23.8 million resource investment

Since 2003 central Government has invested over £7 billion into the Gateway for major infrastructure, roads, schools, and other facilities, as well as project funding provided by the Department. The Gateway also benefits from the £1.8 billion public sector contribution to the channel tunnel rail link enabling international services via Ebbsfleet from 14 November this year, and domestic services from 2009.

CULTURE, MEDIA AND SPORT

Casinos: Applications

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport how many new applications for casinos made under the Gambling Act 1968 were made in 2006; and how many have been made in 2007. [155319]

Mr. Sutcliffe: Between 1 January 2006 and 28 April 2006, the Gambling Commission received 55 applications for certificates of consent for new casinos under the Gaming Act 1968.

From 28 April 2006, the Gambling Commission could no longer accept applications under the Gaming Act 1968 for certificates of consent in respect of new casinos.

Where a certificate of consent is issued, operators can then apply to the local licensing authority for a casino licence. For applications made under the Gaming Act, 1968 the local licensing authority in England and Wales is the Local Licensing Justices and in Scotland it is the Local Licensing Board. There is no guarantee that the grant of a certificate of consent will result in a casino licence being granted. If a local licensing authority turns down an application for a licence an operator can appeal.

Cricket: Floods

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how much Sport England has given to cricket clubs affected by flood damage during the summer 2007; and if he will make a statement. [155308]

Mr. Sutcliffe: Sport England funding supports projects which provide new capacity/provision rather than like for like repair or maintenance projects. However, funding from the National Sports Foundation, managed on behalf of the Government by Sport England, may support repairs of this nature, but will take into account all proceeds from insurance cover. To date no applications of this nature have been received.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152494]

Margaret Hodge: As I explained in my answer to the hon. Member for Twickenham's question 151837, the Gambling Act 2005 and the London Olympic Games and Paralympic Games Act 2006 contain sunset clauses: the following Acts introduced by my Department do not contain sunset clauses—the Office of Communications Act 2002, the National Heritage Act 2002, the Licensing Act 2003, the Communications Act 2003, the National Lottery (Funding of Endowments) Act 2003, the Dealing in Cultural Objects (Offences) Act 2003, the Legal Deposit Libraries Act 2003, the Horserace Betting and Olympic Lottery Act 2004, the National Lottery Act 2006 and the Digital Switchover (Disclosure of Information) Act 2007.

The appropriateness of a sunset clause for the whole or any part of proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Gambling

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much funding was provided for problem gambling services in the UK by *(a)* the Government and *(b)* the gambling industry in each of the last five years; what recent assessment he

has made of the adequacy of those services; what plans he has to use his powers under the Gambling Act 2005 to ensure that the Responsibility in Gambling Trust receives additional funding to treat adequately any increase in problem gambling in the UK; and if he will make a statement. [154900]

Mr. Sutcliffe *[holding answer 10 September 2007]:* Problem gambling services in Great Britain are mainly funded by the gambling industry, principally through the Responsibility in Gambling Trust (RiGT). The Government do not fund dedicated problem gambling services, but anybody with a gambling problem who seeks help from the NHS will be offered support and, if necessary, treatment. In the past five years, the industry has contributed the following amounts to RiGT:

	Amount (£)
2006-07	3,032,689
2005-06	2,274,567
2004-05	2,281,527
2003-04	1,269,852
2002-03	765,659

British-licensed gambling operators are now required by the Gambling Commission to contribute to problem gambling education, prevention and treatment. I have the power under the Gambling Act 2005 to impose a statutory social responsibility levy on the gambling industry and I will not hesitate to use this if the evidence demands it.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the proposal to include a helpline number on all gambling adverts shown in the UK; whether he plans such a service to be promoted in the future; and if he will make a statement. [154901]

Mr. Sutcliffe *[holding answer 10 September 2007]:* I welcome any steps the gambling industry takes to advertise in a socially responsible way. I am pleased that the British gambling industry has adopted a voluntary code for socially responsible advertising which requires the inclusion of a 'signpost' to the Responsibility in Gambling Trust's (RiGT) public awareness website, www.gambleaware.co.uk. It is up to advertisers if they wish also to include an appropriate helpline number for problem gamblers. I understand that RiGT is currently assessing the effectiveness of phone helplines in raising public awareness of gambling issues and I look forward to seeing the results of their work.

Gambling Act 2005

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what plans there are to review the implementation of the Gambling Act 2005 after it becomes law. [155315]

Mr. Sutcliffe: The Gambling Act 2005 came into force on 1 September 2007. The Gambling Commission's study into the prevalence of gambling, due to be published shortly, is intended to provide a baseline against which the Act as a whole can be reviewed. The next prevalence study is due in 2010.

In the meantime, the Act contains wide-ranging powers to keep crime out of gambling, to keep it fair and to protect children and the vulnerable.

Gambling: Children

Tom Brake: To ask the Secretary of State for Culture, Media and Sport what assessment he made of the aspects of the Responsibility in Gambling Trust and the Royal College of Psychiatrists' submissions to the Gambling Commission consultation on gambling advertisements which highlight their concern at the possible impact on children of allowing the promotion of gambling-related products through sporting events and merchandise; whether his Department has commissioned any research into the likely impact on children of this policy; and if he will make a statement. [155064]

Mr. Sutcliffe *[holding answer 10 September 2007]:* The Responsibility in Gambling Trust and Royal College of Psychiatrists' submissions to the Gambling Commission consultation on gambling advertisements were published on the Gambling Commission website in June 2007 along with the Commission's own response. The Government agree with the Commission's assessment that

"the CAP (Committee on Advertising Practice) and BCAP (Broadcast Committee on Advertising Practice) advertising codes will ensure that the content and placement of advertising is socially responsible".

The Government also agree with their view that licensees should

"use sponsorship in a socially responsible manner"

and that

"the (gambling) industry itself (should) consider whether it should follow the example of the drinks industry by introducing a voluntary self-denying ban on replica children's shirts".

I am pleased that the gambling industry has responded to this by adopting a voluntary code on socially responsible advertising which requires that gambling logos are not used on children's replica sports shirts in sponsorship deals made after 1 September 2007. We have commissioned no specific research on this issue but I have strong powers to limit advertising under the Gambling Act, and if there is evidence that gambling is being advertised in a socially irresponsible way, I will not hesitate to use them.

Gambling: Internet

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport how many internet gambling companies are registered in the UK. [155314]

Mr. Sutcliffe: The Department does not collect information on the total number of companies with a connection to internet gambling that may be registered in the UK for various purposes.

However, to date the Gambling Commission has received 146 applications for operating licences that include provision for internet gambling. Of these applications, 77 have been granted, 68 are pending and one has been refused.

Horserace Totalisator Board

Mr. Wallace: To ask the Secretary of State for Culture, Media and Sport when he expects to announce the privatisation of the Tote. [154971]

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport whether the Government expects to sell the Tote within the next three months. [155151]

Mr. Sutcliffe: The Government are currently at an advanced stage of the discussions on a possible sale of the Tote to a consortium of racing interests and the staff and management of the Tote. The Government will announce the outcome in due course.

Mass Media: Violence

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what research his Department has *(a)* commissioned and *(b)* assessed into links between the portrayal of violence in the media and instances of violence in society. [155294]

Margaret Hodge: The Government recognise concerns about these issues and keep under continuous review the available evidence on the links between portrayals of violence in the media and violence in society. Most recently we have announced a review which will look at ways that parents can protect their children from exposure to inappropriate or potentially harmful content on the internet and in computer games.

Previously we have commissioned research from the University of Stirling on whether there is a link between video games featuring violence and violent behaviour in real life (available on our website). And our sponsored bodies have also commissioned research including, most recently, Harm and Offence in Media Content which was funded by broadcasters and the relevant regulators.

National Lottery: Play

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what proportion of the money available under the Big Lottery Fund Children's Play initiative has been *(a)* committed and *(b)* spent. [155292]

Mr. Sutcliffe: The following figures reflect the proportion of money which has been committed and spent under Big Lottery Fund's Children's Play initiative as of end August 2007.

Programme name	*Current award value (committed)*	£ *Total paid to date (spent)*
Play Infrastructure	14,663,933	4,359,562
Playful Ideas	4,884,167	494,586
Children's Play	46,209,437	1,644,672
Total	65,757,537	6,498,820

The total money available for the Children's Play initiative is £155 million. 42 per cent. of it has been committed and 4.2 per cent. has been spent.

Panathlon Challenge: Sponsorship

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what progress he has made in finding a sponsor for the Panathlon Challenge. [155310]

Mr. Sutcliffe: The Department for Culture, Media and Sport has been unable to assist the Panathlon Challenge in finding an alternative source of sponsorship. Local funding is available through school sport partnerships and county sport partnerships where the Panathlon Challenge meets their requirements for competitive sport.

Play: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what progress has been made towards his Department's target of providing £200 million towards Children's Play; and if he will make a statement. [155293]

Mr. Sutcliffe: My Department has not set a target of providing £200 million towards children's play. However, as part of our response to 'Getting Serious About Play', the review of children's play undertaken by Frank Dobson in 2004, Tessa Jowell, the then Secretary of State, stated that she expected £200 million to be provided for children's play through lottery funding by 2012.

That expectation is being met in England through the Big Lottery Fund £155 million play initiative.

Sport and Recreation Division: Manpower

Richard Younger-Ross: To ask the Secretary of State for Culture, Media and Sport how many members of staff his Department allocates to the Sport and Recreation Division; how much time they spend on *(a)* direct ministerial support, *(b)* non-departmental public body support and *(c)* policy development; how many have experience in project management; how many have experience in contract writing; and what the total administration costs of the Sport and Recreation Division were in the last financial year. [155079]

Mr. Sutcliffe *[holding answer 10 September 2007]:* There are currently 37 posts allocated to Sports Division. Of the current staff in post, 29 have experience of project management while four have experience of contract writing. This small number of

staff is due to the fact that all formal contract writing is undertaken by the Procurement and Property Services Team in the Department's Human and Business Resources Division. On time spent on Policy Development, Ministerial Support and NDPB Support it is estimated that 35 per cent. of total staff time is spent on Policy development, 35 per cent. of time is spent on direct ministerial support while 30 per cent. is spent on NDPB support. The total administration cost for Sport Division in 2006-07 was £1.6 million.

Sport Direct

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what progress is being made towards the establishment of Sport Direct; and how Sport Direct will differ from the Active Places website. [154899]

Mr. Sutcliffe: The Government remain committed to delivering a 'one stop shop' of information to help people find opportunities to play sport in their local area.

We are currently assessing the most effective way of integrating the different sources of sports participation information.

Sports: Drugs

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many publicly-funded athletes in the Olympic disciplines have missed two out-of-competition drug tests. [155311]

Mr. Sutcliffe: UK Sport, the national anti-doping agency, does not disclose information on specific numbers of athletes who have missed drug tests under the Whereabouts system, nor the number of 'strikes' they have received. Under the World Anti-Doping Code, UK Sport is obliged to report specifically on doping violations for individual athletes, and missed tests are not defined as a violation until three have been recorded.

UK Sport does annually report the total number of missed tests across all sports on the national anti-doping programme. In 2006-07, the figure was 126.

Sports: Transport

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the proportion of people who live within 20 minutes of a good multi-sport facility; which mode of transport was used in calculating this figure; what the average distance covered in this time was for the purposes of the calculation; how this target has been assessed; what plans he has to monitor the targets; and what definition his Department uses of a good multi-sport facility. [154898]

Mr. Sutcliffe *[holding answer 10 September 2007]:* For the purposes of this commitment the Government have defined 'multi-sport' as access to at least two different sports facilities that are most in demand. In relation to 'good quality' there is no single nationally recognised measure that can be applied to all sports facilities. However, the Active Places sports facilities database (the main tool for measuring the commitment) holds information about the age of facilities and length of time since last refurbishment. We are using these figures as the measure of quality.

Using the Active Places database Sport England are undertaking strategic mapping of the nation's sports facilities and we know that over 90 per cent. of people in England are within 20 minutes' travel time of at least two different sports facilities that are most in demand by the public (swimming pools, playing fields, synthetic turf pitches, health and fitness centres, sports halls and golf courses). We know that, of the built sports facilities listed on Active Places (pools, halls, health and fitness centres and synthetic turf pitches), 65 per cent. have been built or refurbished in the last 10 years. We expect to see these positive figures maintained in future years.

The Government take the view that those in urban areas should be within 20 minutes' walking distance of a multi-sport environment, while those in rural areas should be within 20 minutes' driving distance by car. Urban and rural areas are defined using the "Rural and Urban Area Classification 2004: Introductory Guide", which was jointly published by The Countryside Agency, Department for Environment, Food and Rural Affairs, Office of the Deputy Prime Minister, Office for National Statistics, and the Welsh Assembly Government. The rural road travel times are based on the average road speeds derived from the Integrated Transport Network produced by Ordnance Survey. The urban walking catchments are based on a straight line 1.34 km distance.

NORTHERN IRELAND

Abortion

Ann Winterton: To ask the Secretary of State for Northern Ireland pursuant to the answer of 16 July 2007, *Official Report*, column 79W, on abortion, whether Parliament will be able to pass legislation changing the law relating to abortion in Northern Ireland once the Northern Ireland Assembly has assumed responsibility for the criminal law. [153304]

Mr. Woodward: When responsibility for the criminal law is devolved, consideration of legislation relating to the law on abortion will be a matter for the devolved authorities in Northern Ireland. As paragraph 13 of the Devolution Memorandum of Understanding (Cm 5240, published in December 2001) makes clear:

"The United Kingdom Parliament retains authority to legislate on any issue, whether devolved or not. It is ultimately for Parliament to decide what use to make of that power. However, the UK Government will proceed in accordance with the convention that the UK Parliament would not normally legislate with regard to devolved matters except with the agreement of the devolved legislature."

The Government's position on the law on abortion in Northern Ireland is as set out in the answer of 16 July 2007, *Official Report*, column 79W.

Crimes of Violence

Mr. Paterson: To ask the Secretary of State for Northern Ireland what discussions he has had with the Police Service of Northern Ireland on recent violent attacks; and if he will make a statement. [155070]

Paul Goggins: We are in regular discussion with the PSNI in relation to a variety of policing matters, including instances of violence.

The PSNI policing plan for 2007-08 includes a target for reducing violent crime by two percentage points. Violent crime this year to date is showing a reduction of 18.2 per cent. in comparison to the same period last year.

Departments: Correspondence

Mr. Carmichael: To ask the Secretary of State for Northern Ireland how many letters he and his predecessors sent in each of the last five years. [153446]

Mr. Woodward: This information is not recorded.

Departments: Information Officers

Mr. Hoban: To ask the Secretary of State for Northern Ireland how many press officers are employed by his Department. [153069]

Mr. Woodward: There are 12 press officers working for the Northern Ireland Office, comprising of a director of communications, deputy director of communications, two principal information officers, four senior information officers and four information officers.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Northern Ireland which Bills introduced by his Department in the last five years contained sunset clauses; and what plans he has for the future use of such clauses. [151830]

Mr. Woodward: The following Acts introduced as Bills by my Department in the last five years have contained sunset clauses (that is to say, provisions that will expire at the end of a set period):

Northern Ireland Assembly (Elections and Periods of Suspension) Act 2003

Section 7 provided that the provisions of the Northern Ireland Act 1998 which have been inserted or substituted by the 2003 Act and section 1(4) of the 2003 Act would expire on 16 November 2003 unless 7(4) applied or an order had been made under section 7(2) of the 2003 Act. These provisions have not expired (save s.31(2) of the NIA 1998, as inserted by the 2003 Act, which has since been substituted by the Northern Ireland (St. Andrews Agreement) Act 2006) because an order was made under s.31(2) of the NIA 1998 so s.7(4) applied.

Police (Northern Ireland) Act 2003

Section 23 of the Police (NI) Act 2003, as amended by Article 10 of the Policing (Miscellaneous Provisions) (NI) Order 2007, provides for the appointment of constables who have a specified policing skill. This provision will expire on 21 April 2009 (i.e. two years after the Policing (Miscellaneous Provisions) (NI) Order 2007 came into operation).

Electoral Registration (Northern Ireland) Act 2005

Section 3 provides that the Act shall cease to be in force 12 months after the day on which it is passed, unless an order has been made under 3(2). No such Order was made and the Act has expired.

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Dr. Cable: To ask the Secretary of State for Northern Ireland which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152495]

Mr. Woodward: The following Acts introduced as Bills by my Department in the last five years have not contained sunset clauses:

Northern Ireland Arms Decommissioning (Amendment) Act 2002
Justice (Northern Ireland Act) 2002
Electoral Fraud (Northern Ireland) Act 2002
Northern Ireland Assembly Elections Act 2003
Northern Ireland (Monitoring Commission etc) Act 2003
Justice (Northern Ireland) Act 2004
Northern Ireland Act 2006
Northern Ireland (Miscellaneous Provisions) Act 2006
Terrorism (Northern Ireland) Act 2006
Northern Ireland (St. Andrews Agreement) Act 2006
Northern Ireland (St. Andrews Agreement) Act 2007
Justice and Security (Northern Ireland) Act 2007

Departments: Manpower

Mr. Carmichael: To ask the Secretary of State for Northern Ireland how many people are employed in his Department to work on ministerial correspondence. [152827]

Mr. Woodward: Three civil servants are employed in my Department to co-ordinate responses to ministerial correspondence. However, in the course of their duties most staff at all grades are involved in the process of drafting responses to ministerial correspondence.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Northern Ireland how many ministerial red boxes the Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150293]

Mr. Woodward: Ministerial boxes are used by successive Ministers over many years. In the last five years my Department has not purchased any new ministerial boxes.

Departments: Official Hospitality

Mr. Carmichael: To ask the Secretary of State for Northern Ireland how many receptions were held at 11 Millbank in each of the last five years. [152826]

Mr. Woodward: Our records show that over the last three years the following number of receptions were held in Millbank. Records are not available for 2003 and 2004.

	Number of receptions held
2005	5
2006	2
2007	[1]

[1] To date

Departments: Press

Mr. Hoban: To ask the Secretary of State for Northern Ireland to which periodicals his Department subscribes. [153061]

Mr. Woodward: The Northern Ireland Office, excluding its Agencies and Executive NDPBs, subscribes to the following periodicals:

Mr. Hoban: To ask the Secretary of State for Northern Ireland how much was spent by his Department on newspapers and magazines in the last 12 months. [153062]

Mr. Woodward: The Northern Ireland Office, excluding its Agencies and Executive NDPBs, spent £68,510 on newspapers in 2006-07 (this is the last 12 months for which audited expenditure figures are available).

Information on magazine expenditure is not easily available as it is grouped with other general publication expenditure. It would not be possible to extract the magazine spend from these figures except at disproportionate cost.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Northern Ireland how much was spent by his Department on redundancy payments in the last 12 months. [153057]

Paul Goggins: There have been no redundancy payments made within the last 12 months.

Departments: Stationery

Mr. Carmichael: To ask the Secretary of State for Northern Ireland how much his Department spent on stationery in each of the last five years. [152834]

Mr. Woodward: The following table shows the amount the Northern Ireland Office (NIO), excluding its agencies and NDPBs, has spent on stationery in each of the last five years.

Stationery expenditure

	£
2002-03	315,435
2003-04	299,858
2004-05	297,183
2005-06	320,590
2006-07	314,784

Departments: Training

Mr. Hoban: To ask the Secretary of State for Northern Ireland how much was spent by his Department on staff away days in the last 12 months. [153058]

Paul Goggins: The Northern Ireland Office spent a total of £81,520.24 on staff development days in the financial year 2006-07.

Mr. Hoban: To ask the Secretary of State for Northern Ireland how much was spent by his Department on *(a)* staff training and *(b)* communication training in the last 12 months. [153059]

Paul Goggins: The Northern Ireland Office spent a total of £1.54 million on staff training and development during the 2006-07 financial year.

Police Service of Northern Ireland: Criminal Investigation

Mr. Paterson: To ask the Secretary of State for Northern Ireland what estimate he has made of the proportion of police time expended on *(a)* historical criminal activity and *(b)* current criminal activity committed since the Belfast Agreement. [155071]

Paul Goggins: It is not possible to provide an estimate of police time expended on historic criminal activity and current criminal activity since the Belfast Agreement. Calculating this would involve considerable time and resources and could be provided only at disproportionate cost.

The Historic Enquiry Team (HET), which includes not only the PSNI but also the Police Ombudsman, PPS and the Forensic Science Agency was established to re-examine all 3,268 murders related to the security situation during the period from 1968 until the signing of the Belfast Agreement and has been allocated £34 million over six years.

Police Service of Northern Ireland: Manpower

Mr. Paterson: To ask the Secretary of State for Northern Ireland what the establishment is of the Police Service of Northern Ireland Full Time Police Officers; how many officers are serving; how many are to be retained; and how many will be recruited over the next three years. [155075]

Paul Goggins: The information requested is contained in the following table.

PSNI regular

	Number
Actual strength September 2007	7,411
Establishment current	7,500
Establishment over next three years	7,500
Recruitment over next three years	[1]440

[1] Per year.

The figure for recruitment has been calculated to maintain the establishment at 7,500, taking into account reductions due to natural wastage and through officers leaving under the voluntary severance scheme.

Police Service of Northern Ireland: Reserve Forces

Mr. Paterson: To ask the Secretary of State for Northern Ireland what the current establishment is of the Police Service of Northern Ireland Part Time Police Reserve; how many officers are currently serving; how many are to be retained; and how many will be recruited over the next three years. [155073]

Paul Goggins: The information requested is contained in the following table.

PSNI part-time reserve

	Number
Actual strength September 2007	858
Establishment current	1,000
Establishment over next three years	1,000
Recruitment over next three years	[1]—

[1] Sufficient to maintain established strength

Mr. Paterson: To ask the Secretary of State for Northern Ireland what the establishment is of the Police Service of Northern Ireland Full Time Police Reserve; how many officers are serving; how many are to be retained; and how many will be recruited over the next three years. [155074]

Paul Goggins: The future establishment of the Full Time Reserve is an operational matter for the Chief Constable. He has advised that he will make an announcement on this shortly.

The information requested is contained in the following table.

PSNI full time reserve

	Number
Actual strength September 2007	674
Establishment current	680
Establishment over next three years	[1]—
Recruitment over next three years	0

[1] To be determined by the chief constable.

Police: Finance

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what the budget was for the Police Service of Northern Ireland and the RUC in each of the last 10 years for which figures are available; and if he will make a statement. [150932]

Paul Goggins: The Police Service of Northern Ireland and RUC budgets for the period 1997-98 to 2006-07, excluding budgets for police pension schemes which are treated separately to other GB forces, are set out in the following table.

Police Service for Northern Ireland budget allocations 1997-98 to 2006-07

	Allocation (£ million)
Cash	
1997-98	656.9
1998-99	656.4
1999-2000	654.9
2000-01	685.5
2001-02	707.5
2002-03	722.5
2003-04	706.8
Resource	
2004-05	865.6
2005-06	808.7
2006-07	850.4

Note:
Prior to the financial year 2004-05 the PSNI budgeted on a cash basis. From 2004-05 PSNI budgets were allocated on a resource basis.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Floods: Worcestershire

Peter Luff: To ask the Secretary of State for Environment, Food and Rural Affairs what assistance has been given to rural communities in Worcestershire to assist them following the July floods, with particular reference to support for *(a)* Worcestershire County Cricket Club and *(b)* Evesham Rowing; and what arrangements have been made to help Worcestershire's farming community. [155054]

Mr. Dhanda *[holding answer 10 September 2007]*: I have been asked to reply.

In total £1,349,500 in Flood Recovery Grant, paid by the Department for Communities and Local Government to support flood affected communities, has been awarded to the district councils in Worcestershire county council. The details of these payments are set out as follows:

£

District council	*Original FRG Round 1 13 July 2007*	*Original FRG Round 2 20 July 2007*	*Extended FRG Round 1 16 August 2007*	*Extended FRG Round 2 24 August 2007*	*Total*
Bromsgrove	0	0	20,000	3,000	23,000
Malvern Hills	50,000	10,000	200,000	50,000	310,000
Redditch	0	0	11,500	11,500	23,000
Worcester	0	0	50,000	10,000	60,000
Wychavon	0	0	600,000	23,500	623,500
Wyre Forest	100,000	0	160,000	50,000	310,000
Total	150,000	10,000	1,041,500	148,000	1,349,500

The regional development agency with responsibility for Worcestershire—Advantage West Midlands (AWM)—has a general £2 million flooding recovery package and has also established a £1 million flooded areas recovery programme to assist the recovery of particularly badly flooded areas. Worcestershire has been allocated £600,000 of capital funds for infrastructure repairs under this scheme.

AWM are supporting businesses, including farmers, affected by flooding through Business Link West Midlands, with a team of more than 40 advisers offering up to five days of free business advice to help restart the estimated 1,000-plus flood-hit businesses in the region. Business Link may be able to offer up to £2,500 worth of subsidised consultancy to help companies devise a flood recovery plan.

Additionally, a flood recovery loan for companies that have carried out recovery plans has been set up, offering loans of up to £20,000 over two years where companies are unable to get all of the finance they need from their own and mainstream commercial sources.

In term of the specific projects mentioned:

AWM have been in contact with Worcestershire Cricket Club over sponsorship and marketing support for events planned to raise income for the club.

A project is being developed with Evesham Riverside to restore the overall attractiveness of the area and to remove debris to open up the navigation of the river so that boats can start to reuse it.

Fuel Poverty

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to revise the UK Fuel Poverty Strategy in light of the upward price movements in the energy market since its publication in November 2001; and if he will make a statement. [155224]

Mr. Woolas: The Energy White Paper, published in May 2007, outlined current developments in our policies and programmes aimed at tackling fuel poverty, building on the UK Fuel Poverty Strategy.

We continue to keep this policy framework under scrutiny and will report on the way forward in our next Annual Report.

Packaging: Compensation

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if he will assess the likely effects on *(a)* plastic bag use and *(b)* the waste stream of a plastic bag tax being introduced at a rate of 10p per bag; [151737]

(2) what recent assessment he has made of the case for a trial of a plastic bag tax. [151738]

Angela Eagle: I have been asked to reply.

The Treasury carried out an assessment of the Irish plastic bag tax following its introduction in 2002. A copy of this assessment is available in the Library of the House.

The Chancellor continues to keep all taxes under review. The Government currently have no plans for a plastic bag tax.

Rural Development Programme

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on implementation of the new rural development programmes in England for the period 2007-13. [155358]

Jonathan Shaw: The European Commission (EC) must approve the Rural Development Programme for England 2007-13 before it can be fully implemented. The draft Programme was submitted to the EC in May and formally declared admissible in June 2007. The approval process normally takes about six months, or more if the EC seeks further information.

We are working to get formal Programme approval before the end of 2007. The Programme will then be fully implemented at the earliest opportunity.

Rural Development Programme: Finance

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs when spending bodies will be allocated their budgets under the Rural Development Programme in England for the period 2007-13; and if he will make a statement. [155359]

Jonathan Shaw: The Rural Development Programme for England will be delivered by Natural England, the Forestry Commission, the Rural Payments Agency and eight separate Regional Development Agencies. These delivery bodies have been made aware of indicative budgets to enable them to meet existing commitments taken forward from the last Rural Development Programme, and help each delivery body plan for new activities. Formal budget allocations cannot be confirmed until the new programme receives European Commission approval.

Water Charges: Low Incomes

Linda Gilroy: To ask the Secretary of State for Environment, Food and Rural Affairs how many successful applications there were for the vulnerable groups tariff in each of the water, and water and sewerage, companies in England in *(a)* 2004-05 and *(b)* 2005-06. [154956]

Mr. Woolas *[holding answer 10 September 2007]:* Ofwat, the economic regulator of the water and sewerage industry in England and Wales, collects data on the number of households receiving assistance under the Vulnerable Groups Regulations, which are set out in the water companies' annual June returns.

The vulnerable groups tariff, under the Water Industry (Charges) (Vulnerable Groups) Regulations 1999, applies to metered customers who meet certain criteria to protect them from paying large water bills.

The numbers of households in England granted assistance with their water bills in 2004-05 and 2005-06 by individual water, and water and sewerage companies are set out in the following table.

	2004-05	*2005-06*
Water and sewerage companies		
Anglian	682	719
Dŵr Cymru	319	426
Northumbrian (North East and Essex and Suffolk)	483	672
Severn Trent	916	1,223
South West	1,645	2,962
Southern	258	324
Thames	1,323	1,780
United Utilities	1,114	1,447
Wessex	481	622
Yorkshire	1,059	1,308
Water only companies		
Bournemouth and W Hampshire	118	96
Bristol	211	391
Cambridge	81	97

TREASURY

Departments: Disciplinary Proceedings

Dr. Cable: To ask the Chancellor of the Exchequer in which locations information relating to formal reprimands of staff for failing to follow departmental procedures in relation to calculating the *(a)* income tax and *(b)* national insurance liabilities of individuals in each of the last five years are held; and if he will make a statement. [153443]

Angela Eagle: In the last five years any information relating to formal reprimands for staff for the former Inland Revenue and HM Revenue and Customs failing to follow departmental procedures in relation to calculating *(a)* income tax and *(b)* national insurance liabilities of individuals may be held locally with any manager in any of the locations dealing with these

particular issues, if at all. Currently HMRC has about 600 buildings in about 300 locations. National Insurance work is handled primarily in Newcastle. Income tax is handled in many locations too numerous to mention throughout the UK.

Departments: Flowers

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on flowers in the last 12 months. [153173]

Angela Eagle: I refer the hon. Gentleman to the answer given on 2 May 2007, *Official Report*, column 1743W by the former Financial Secretary to the Treasury, my hon. Friend the Member for Wentworth (John Healey).

Departments: ICT

Danny Alexander: To ask the Chancellor of the Exchequer (1) how many IT contracts in his Department were put out to competitive tender in each year since 1997; how many bidders there were for each tender; and which company won each tender; [155281]

(2) what the *(a)* estimated and *(b)* actual (i) cost and (ii) duration was of each IT contract tendered out by his Department since 1997. [155282]

Andy Burnham: I refer the hon. Gentleman to the answer the former Financial Secretary to the Treasury, my hon. Friend the Member for Wentworth (John Healey) gave the hon. Member for Yeovil (Mr. Laws) on 20 June 2007, *Official Report*, column 1880W.

Departments: Press

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on newspapers and magazines in the last 12 months. [153170]

Angela Eagle: I refer the hon. Gentleman to the answer I gave on 2 May 2007, *Official Report*, column 1743W to the hon. Member for Rayleigh (Mr. Francois).

Departments: Taxis

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on taxis in the last 12 months. [153174]

Angela Eagle: I refer to the answer the then Financial Secretary to the Treasury, my hon. Friend the Member for Wentworth (Mr. Healey) gave on 28 June 2007, *Official Report*, column 873W to the hon. Member for Rayleigh (Mr. Francois).

Departments: Tribunals

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on industrial tribunals in the last 12 months. [153168]

Angela Eagle: Nil.

Employment

Mr. Frank Field: To ask the Chancellor of the Exchequer (1) which constituencies have seen the greatest *(a)* growth and *(b)* fall in the total number of (i) jobs and (ii) public sector jobs between 1997 and the latest date for which figures are available; [155325]

(2) how many *(a)* jobs and *(b)* public sector jobs there were in each Greater Merseyside constituency in (i) 1997 and (ii) the most recent date for which figures are available. [155324]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 12 September 2007:

As National Statistician, I have been asked to reply to your parliamentary questions about numbers of jobs in Greater Merseyside constituencies and about constituencies showing the greatest changes in numbers of jobs since 1997. (155324,155325)

The attached tables show the available information requested. Separate estimates for public sector jobs are not available.

The information is based on data from the Annual Business Inquiry for 2005 and the former Annual Employment Survey for 1997. As with any sample surveys, estimates are subject to a margin of uncertainty.

Employee jobs by parliamentary constituency

Foreign Workers

Mr. Clappison: To ask the Chancellor of the Exchequer what estimate he has made of the number of inward migrants to the UK intending to stay for 12 months or more who cited work-related purposes as the main reason for migration in each year for which figures are available; and how many work permit holders were given leave to enter the UK in each year that such data have been collected. [154945]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 10 September 2007:

As National Statistician, I have been asked to respond on behalf of the Chancellor of the Exchequer to your question concerning the number of inward migrants to the UK intending to stay for 12 months or more who cited work-related purposes as the main reason for migration in each year for which figures are available; and how many work permit holders were given leave to enter the UK in each year that such data has been collected.

The estimates of inward migration to the UK of those intending to stay 12 months or more are taken from the International Passenger Survey (IPS) and are shown in the attached table 1. The usual ONS definition of 'work related' includes those migrating for business reasons and au pairs, and those with 'a definite job to go to' are shown as a separate sub-category. The ONS definitions include a further category for those 'looking for work' which are not included in the 'work related' category but are shown here for completeness. The data are also broken down by British, European Union and non-EU citizens as work permits are only applicable to non-EU citizens.

Work permit data from the Home Office is shown in the attached Table 2.

Notes

1. The ONS definition of 'work related' includes those with a 'definite job' to go to, au pairs and 'business' reasons but excludes those looking for work, diplomats, military personnel, merchant seaman and flight crews. 'Looking for work' is included separately.
2. 'Looking for work' is not included in the ONS definition of 'work related' but is shown for information. Data are not available for 1995. These are recorded under 'Other reasons for visit' which is not shown in the table.
3. Italicised estimates are not statistically robust (defined as standard error > 30%) but have been included for completeness.
4. Full details of country groupings are available in the Notes to tables section of International Migration Series MN no.32 (http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=507)

Table 2 Work permit holders and dependants given leave to enter, excluding EEA and Swiss nationals, 1991-2006

All nationalities[1,2,3,4]

Year of admission	*Total*	*Employment for 12 months or more*	*Employment for less than 12 months*[5]	*Dependants of work permit holders*
1991	46,920	11,060	21,740	14,120
1992	51,140	9,940	26,320	14,890
1993	48,000	9,350	24,520	14,130
1994	47,500	10,200	23,000	14,300
1995	52,100	11,700	26,100	14,300
1996	58,200	11,400	29,400	17,400
1997	62,975	16,270	27,385	19,320
1998	68,385	20,160	28,020	20,205
1999	76,180	25,090	28,445	22,645
2000[6]	92,050	36,290	30,785	24,970
2001[6]	108,825	50,280	30,785	27,760
2002	120,115	51,525	34,095	34,495
2003	119,180	44,480	36,870	37,830
2004	124,200	42,235	40,420	41,545
2005	137,035	51,165	40,350	45,520
2006	145,120	57,540	39,060	48,515

[1] Includes nationals of Austria, Finland and Sweden before 1 January 1994, but excludes them from this date.
[2] Includes nationals of Liechtenstein before 1 May 1995, but excludes them from this date.
[3] Includes nationals of Switzerland before 1 June 2002, but excludes them from this date.
[4] Includes nationals of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia before 1 May 2004, but excludes them from this date.
[5] Includes the majority of work permit trainees.
[6] A change in procedures may have resulted in some under-recording for the fourth quarter of 2000 and the first quarter of 2001.
Data rounded to the nearest 5, as such the figures may not sum to the totals shown.
Source:
Home Office

General Practitioners: Conditions of Employment

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 5 July 2007, *Official Report*, column 1183W, on general practitioners: conditions of employment, what his Department's (*a*) highest and (*b*) lowest estimate was of the impact a new contract for general practitioners would have on (i) average salaries for general practitioners and (ii) annual additional costs to the public purse as part of the discussions prior to the 2002 Budget. [153457]

Andy Burnham: Government Departments make their assessment of the cost of pay contracts and these are scrutinised by HM Treasury. Estimates of the cost of the contract are available from the Department of Health.

Income Tax: Pensioners

Danny Alexander: To ask the Chancellor of the Exchequer how many and what percentage of (*a*) all pensioners and (*b*) pensioner households pay income tax. [155283]

Jane Kennedy: The information is as follows.

Individual pensioners 2007-08[1]

The following figures are the latest available estimates and are based on the Survey of Personal Incomes 2004-05 and projected forward to 2007-08 in line with Budget 2007 assumptions.

[1] State pension age: males aged 65 and over, females aged 60 and over.

	Pensioners paying income tax
Taxpaying pensioners[1] (£ million)	5.6
All pensioners[2] (£ million)	11.7
Taxpaying proportion (percentage)	48

[1] Projection for the United Kingdom based on the 2004-05 Survey of Personal Incomes and thus subject to sampling and non-sampling error.
[2] Average of Government Actuary's Departments mid-year pensioner populations projections for 2007 and 2008.
Note:
Figures have been rounded to the nearest 0.1 million.

Pensioner households, 2005-06[1]

Projections of pensioner households are not available. The following figures provided are estimates based on the latest available Family Resources Survey (2005-06).

[1] Households in the United Kingdom with at least one person of state pension age; males aged 65 and over, females aged 60 and over.

	Pensioner households paying income tax
Taxpaying pensioner households[1] (£ million)	4.8
All pensioner households[2] (£ million)	8.0
Taxpaying proportion (percentage)	60

[1] Modelled liability to income tax based on the Family Resources Survey for the 2005-06 financial year, and subject to sampling and non-sampling error.
[2] All pensioner households from the Family Resources Survey.
Note:
Figures have been rounded to the nearest 0.1 million.

Lone Parents

Mr. Frank Field: To ask the Chancellor of the Exchequer how many lone parents there were in each local authority in each year for which figures are available, broken down by five year age band. [155349]

Andy Burnham: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 12 September 2007:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking the Chancellor of the Exchequer how many lone parents there were in each local authority in each year for which figures are available, broken down by five year age band. (155349)

Figures are provided for the 1991 and 2001 decennial censuses. As no published tables exist that provide the requested figures, the tables have been specially run and deposited in the House of Commons library.

Manufacturing Industries: Manpower

Mr. Frank Field: To ask the Chancellor of the Exchequer how many people were employed in the manufacturing industries in each local authority in each year for which figures are available, broken down by five year age band. [155348]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 12 September 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question about the numbers of people employed in manufacturing in local authority areas. (155348)

Tables giving the information requested have been placed in the House of Commons Library. The figures in the tables are estimates from the Annual Local Area Labour Force Survey, for the twelve months ending in March of each year from 1996 to 2006.

As with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

Office of Government Commerce: Pay

John McDonnell: To ask the Chancellor of the Exchequer how many bonuses were awarded to senior civil servants working at the Office of Government Commerce in each year between 1997 and 2006; and what the total cost was of those bonuses. [155339]

Andy Burnham: 14 such bonuses were awarded in 2005-06 at a cost of £147,618. The figures for 2006-07 were 22 and £235,208, respectively.

Information relating to earlier years is not available except at disproportionate cost.

Stamp Duties: South East Region

Mr. Fallon: To ask the Chancellor of the Exchequer what representations he has received on the level of stamp duty for first-time home-buyers in the south east; and what steps he is taking in response to such representations. [155152]

Andy Burnham: The Government regularly receive representations on various aspects of the stamp duty land tax system. All taxes are kept under review as part of the Budget process, and all such representations are noted as part of this process.

Taxation: Self-assessment

Danny Alexander: To ask the Chancellor of the Exchequer how many *(a)* women aged 60 to 64, *(b)* women aged 65 and over and *(c)* men aged 65 and over complete a self assessment tax return; and what proportion of each group has a gross income of (i) under £8,000, (ii) £8,000 to £15,000 and (iii) above £15,000. [155280]

Jane Kennedy: The latest figures available are based on a survey of personal incomes undertaken by HM Revenue and Customs on the 2004-05 tax year.

	Women aged 60-64	*Women aged 65 and over*	*Men aged 65 and over*
Number	234,000	445,000	815,000
Gross income (percentage)			
Under £8,000	38	29	13
£8,000 to £15,000	23	26	22
Above £15,000	39	45	65

Tobacco: Counterfeit Manufacturing

Mr. Breed: To ask the Chancellor of the Exchequer (1) pursuant to the answer of 17 July 2007, *Official Report*, column 259W, on tobacco: counterfeit manufacturing, which tobacco companies already use the technology that is being introduced across the tobacco industry on their tobacco products, as of July 2007; and which tobacco companies will be introducing this as a new level of security on their tobacco products by October 2007 as part of the voluntary agreement; [153449]

(2) if he will publish the terms of the voluntary agreement made between HM Revenue and Customs and the tobacco industry in respect of introducing an anti-counterfeit solution to UK duty paid tobacco from October 2007. [153450]

Angela Eagle: Information about the companies currently using the anti-counterfeiting technology cannot be released as this could prejudice law enforcement efforts, and the commercial interests of manufacturers and would breach HM Revenue and Customs' duty of confidentiality towards those companies.

The agreement reached with the tobacco industry is that all cigarette packs intended for the UK duty paid market manufactured from October 2007 will incorporate a covert security mark, and packs of hand-rolling tobacco manufactured from October 2008 at the latest, will also incorporate a covert security mark. The agreement includes providing HMRC with the specialist equipment needed to test the authenticity of cigarette and hand-rolling tobacco packs.

For security reasons, the nature of the technology the industry have agreed to introduce will not be published.

Welfare Tax Credits

Mr. Gauke: To ask the Chancellor of the Exchequer how many finalised tax credit awards for *(a)* 2003-04 and *(b)* 2004-05 were re-opened under the notification procedure set out in section 19 of the Tax Credit Act 2002. [155263]

Jane Kennedy: As enquiries under section 19 can only be opened once an award has been finalised, no inquiries were opened in 2003-04 which was the first year of tax credits.

In 2004-05 around 54,000 inquiries were opened, relating to 2003-04 awards. In 2005-06 around 38,000 inquiries were opened, relating to both 2003-04 and 2004-05 awards.

Mr. Gauke: To ask the Chancellor of the Exchequer pursuant to the written statement of the Financial Secretary of 25 July 2007, *Official Report*, column 62WS, on tax credit administration, (1) how many tax credit cases were re-opened incorrectly in *(a)* 2003-04, *(b)* 2004-05 and *(c)* 2005-06; [155264]

(2) what estimate he has made of *(a)* the amount to be repaid to claimants and *(b)* the administrative cost to HM Revenue and Customs of remedying the errors described; [155265]

(3) when he was first aware of *(a)* the administrative errors described in the written statement and *(b)* the necessity of repaying amounts to claimants; [155266]

(4) when he expects the process of remedying the administrative error identified in the written statement to be completed. [155267]

Mr. Vara: To ask the Chancellor of the Exchequer pursuant to the written ministerial statement by the Financial Secretary to the Treasury on 25 July 2007, *Official Report*, columns 62-63WS, on tax credit administration, when the administrative problem with tax credit awards was first identified; which ministers were informed about the problem; and when those ministers were informed. [155306]

Jane Kennedy: I was advised by HMRC officials in July that there was a potential issue on the finalisation of awards and that they were seeking legal advice.

My July written statement identified that an estimated 160,000 2003-04 and 2004-05 cases were impacted by this issue. Separately HMRC estimated that they would need to write to 90,000 households about their 2005-06 awards.

Since then HMRC have done further work to refine these estimates. Although the total number affected has not changed, HMRC now estimate that as a result of this issue around 100,000 cases in 2003-04, 75,000 cases in 2004-05 and 75,000 cases in 2005-06 will need to be reviewed.

HMRC has started a planned programme of work to review the tax credit awards that may be affected. In all but a small minority of the cases HMRC will be able to correct the procedural error without any change to the payments already made. In an estimated 20,000 cases, HMRC will need to make a repayment. The cost of this is estimated to be £20 million. No family will see their award revised downwards as a result of these reviews.

While any administrative error is deeply regrettable, and must be addressed, the fact remains that tax credits are helping six million families including 10 million children, and have helped to lift 600,000 children out of poverty.

Written Answers to Questions

The following answers were received between Thursday 13 September and Monday 17 September 2007

LEADER OF THE HOUSE

Official Residences

Mrs. May: To ask the Leader of the House what the address is of *(a)* the offices and *(b)* any official residences she is entitled to use in her capacity as a Minister. [155431]

Helen Goodman: The Private Office for the Leader of the House of Commons is currently based at 26 Whitehall, London, SW1A 2WH.

No official residence has been allocated to the Minister.

PRIME MINISTER

Committee on Standards in Public Life

Norman Baker: To ask the Prime Minister what the date was of the last day in office of the former Chairman of the Committee on Standards in Public Life; for what reason his successor has not been announced; and if he will make a statement. [155372]

The Prime Minister: Rita Donaghy CBE took over as interim Chair of the Committee on Standards in Public Life with effect from 26 April 2007. The recruitment process for a permanent Chair is under way.

Poverty

Richard Ottaway: To ask the Prime Minister what steps he plans to take to fight poverty in the next 12 months. [147802]

Mr. Plaskitt: I have been asked to reply.

For individuals and families, work is the best route out of poverty.

Pathways to Work will be rolled out across Britain by April 2008 and this will support the introduction of the new Employment and Support Allowance later in 2008. Both of these measures will encourage and support incapacity benefit claimants into work.

Furthermore, our Welfare Reform Green Paper "In work, better off" Cm7130, published on 18 July 2007, sets out how the Government aims to continue to move towards full employment, giving everyone the chance to work and contribute to society.

Earlier this year DWP published Working for Children, our strategy for parental employment, and this year's Budget announced that the child element of child tax credit will rise by £150 from April 2008. This, along with a package of reforms to the personal tax and benefit system in Budget 2007, will help lift 200,000 children out of poverty by 2008-09. As part of the 2007 comprehensive spending review, DWP is working closely with HM Treasury, the Department for Families, Children and Schools, and other government departments on producing a child poverty Delivery Agreement.

For pensioners, our strategy is to target help on the poorest pensioners, while providing a solid foundation of support for all. This approach has been successful but we are not complacent, and realise there is more to do to ensure that pensioners get the money they are entitled to by raising awareness and encouraging people to claim.

We also intend to strengthen State Pensions as a credible foundation for private saving. The Pensions Bill, which is currently before Parliament, will make State Pensions more universal and more generous, and will include a commitment to uprate the Pension Credit Minimum Guarantee in line with earnings growth, locking in the gains made in combating poverty.

INTERNATIONAL DEVELOPMENT

Democratic Republic of Congo

Mr. Joyce: To ask the Secretary of State for International Development what support the UK plans to provide to local civil society organisations working in the field of governance and democracy in the Democratic Republic of Congo. [154886]

Mr. Thomas: The UK has an existing three-year £24 million community recovery programme in three provinces in DRC, which started in April 2007 and is being implemented by three international NGOs (the International Rescue Committee, the International Foundation for Care and Self-Help (IFESH) and CARE). The programme includes work on local governance and will support the creation of community level development committees that collectively plan and manage development projects such as re-building clinics, schools and bridges destroyed by fighting.

DFID has established a central Governance and Transparency Fund which will commit up to £100 million to civil society organisations working in the area of governance and transparency. Overall, civil society organisations are developing nearly 300 projects and final selection will take place later this year. The DFID office in DRC has been active in encouraging civil society organisations based in DRC to apply to this fund.

We are also working with the United Nations Development Programme (UNDP) to develop a democracy and accountability programme of around £40 million. Through this programme UNDP will establish a mechanism to provide sustainable funding to a range of civil society organisations (local, international and faith-based) working on governance and democracy themes. We expect this to become operational in 2008.

Eritrea: Overseas Aid

Mark Pritchard: To ask the Secretary of State for International Development if he will make UK aid and development funds for Eritrea conditional on the improvement of the observance of *(a)* human rights and *(b)* religious freedoms in that country in 2008. [155407]

Mr. Thomas: DFID does not have a development programme in Eritrea because it has not been possible to establish the basis for a development partnership with the Eritrean Government in light of human rights abuses and other problems. We do have a humanitarian programme targeted directly at those in need, which is channelled through international relief agencies.

MINISTER FOR WOMEN

Breastfeeding

Mr. Bone: To ask the Minister for Women and Equality what discussions she has had with ministerial colleagues on initiatives to support women who are breastfeeding; and if she will make a statement. [147868]

Mr. Plaskitt *[holding answer 5 July 2007]:* I have been asked to reply.

I expect to discuss these issues within Government in the coming months.

Departments: Ministerial Red Boxes

John Hemming: To ask the Minister for Women and Equality how many ministerial red boxes were provided to her office in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150405]

Ms Harman: Minister for Women red boxes are purchased by the Department in which she is based and are therefore counted in the figures provided by those individual Departments.

In the last five years the Minister for Women has been based in:

May 2006 to June 2007: CLG

2001 to 2005: DTI

Cabinet Minister for Women based in DCMS from May 2004 to May 2005.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence what the status is of Taliban leader Naim Atallah, allegedly responsible for the killing of Captain David Hicks of the 1st Battalion the Royal Anglian Regiment, who was captured by British Forces in Helmand Province in August. [155143]

Mr. Bob Ainsworth *[holding answer 12 September 2007]:* Captain Hicks was killed when his patrol operating base located to the North East of Sangin, in Helmand Province, came under attack on 11 August 2007. The investigation into his death is continuing.

Persons detained by British Forces are transferred to the Afghan Authorities. For reasons of operational security I am not prepared to comment in detail on individual cases.

Mr. Paterson: To ask the Secretary of State for Defence how many Wimik land rovers issued to British forces in Afghanistan were written off in each of the last three years; how many were written off as a result of *(a)* accidental damage or mechanical failure and *(b)* enemy action; and how many written off as a result of enemy action were the subject of mine or improvised explosive device strikes. [155174]

Mr. Bob Ainsworth *[holding answer 12 September 2007]:* Since the deployment of weapons-mounted installation kit Land Rover vehicles in summer 2006 to Afghanistan, a total of 19 have been lost as a result of operational use. Those losses have occurred either as a result of direct enemy action or denial operations by UK forces where vehicles have been extensively damaged (either through enemy action or accidents) and cannot be recovered.

Mr. Paterson: To ask the Secretary of State for Defence how many Wimik land rovers were issued to British forces in Afghanistan in each of the last three years. [155175]

Des Browne *[holding answer 12 September 2007]:* Weapon-Mount Installation Kit (WMIK) equipped Land Rovers were first deployed to Afghanistan in summer 2006. I am withholding the number of vehicles deployed as disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Mr. Paterson: To ask the Secretary of State for Defence how many British Forces personnel in Afghanistan were *(a)* seriously injured and *(b)* killed while crewing Wimik land rovers as a result of (i) accidental damage or mechanical failure and (ii) enemy action in each of the last three years; and of those injured or killed by enemy action, in how many cases this was as a result of mine/IED strikes. [155182]

Mr. Bob Ainsworth *[holding answer 12 September 2007]:* As of 10 September 2007, five personnel have been killed in WMIK Land Rovers since these were deployed to Afghanistan in summer 2006. Those deaths all occurred in incidents where the vehicle was involved in an explosion due to enemy action. Investigations are continuing into some incidents and it is not possible to say definitively in each case whether these were caused by mine or IED strikes. The number of service personnel injured in incidents involving WMIK Land Rovers is not recorded centrally and could be provided only at disproportionate cost.

Armed Forces: Compensation

Mr. Marshall: To ask the Secretary of State for Defence what plans he has to increase the compensation paid to armed forces personnel injured in the line of duty; and if he will make a statement. [155527]

Des Browne: The Armed Forces Compensation Scheme was introduced on 6 April 2005 and replaced arrangements under the War Pensions Scheme and Armed Forces Pension Scheme 1975 (AFPS 75) for those injuries, illnesses or deaths caused by Service after this date. It is a modern scheme and provides fair and simple arrangements, which focus help on the more severely disabled. For the first time, a tax-free lump sum is payable in-service to personnel to compensate for pain and suffering based on a range of tariffs graduated according to the seriousness of the condition. A tax-free inflation proof guaranteed income payment, payable for life, is also payable on discharge for those who suffer the more serious injuries. This has the potential to be worth many hundreds of thousands of pounds over the lifetime of the claimant.

We continually monitor the scheme in order to ensure that we provide the best of care for our serving personnel and veterans. As a part of this monitoring process, and in light of recent operational experience I have commissioned a review that is looking at one aspect of the scheme, which is the rules relating to the compensation paid to those personnel who receive multiple injuries as a result of a single incident. I hope to be able to announce the outcome of the review shortly.

Armed Forces: Correspondence

Mr. Oaten: To ask the Secretary of State for Defence whether regulations are in place governing communications from officers commanding military establishments to *(a)* the hon. Member in whose constituency the establishment is located, *(b)* other hon. Members and *(c)* others. [155391]

Des Browne: The regulations in place that govern communications between Service personnel and any Member of Parliament are set out in the Queen's Regulations for each of the Services, copies of which are available in the Library of the House.

The instruction governing communication between all MOD personnel and the media, and for writing or speaking in public, was updated and reissued in August 2007 as a Defence Instructions and Notice (2007DIN03-006). This document is on the MOD website and a copy will be placed in the Library of the House. Queen's Regulations are currently being revised to reflect the updated instruction.

Arms Trade: Channel Islands

Mr. Ellwood: To ask the Secretary of State for Defence what types of military exports have been purchased by the Channel Islands in the last three years from the UK; and what the costs were of such purchases. [155053]

Mr. Bob Ainsworth *[holding answer 10 September 2007]:* Information on the types of exports under licence and the total value of single individual export licences issued, including those for the Channel Islands, in each calendar year up to 2004, is included in the printed version of the Strategic Export Controls Annual Report. Thereafter the information is also provided in a CD-ROM that accompanies the Report, and at www.fco.gov.uk. Copies of the reports and the CD-ROMs are available in the Library of the House. Information is also available in the Government's Strategic Export Controls Quarterly Reports, also available from the FCO website.

The Channel Islands are part of the UK's Customs and Statistical territories. As such, there is no requirement to record the value of items delivered under export licence to the Channel Islands.

Army Board

Mr. Kevan Jones: To ask the Secretary of State for Defence how many internal flights were taken by the *(a)* Adjutant General, *(b)* Chief of the General Staff, *(c)* non-ministerial members of the Army Board and *(d)* Assistant Chief of the General Staff in 2006; how many of those flights were with (i) military and (ii) commercial carriers; and what the cost was. [127568]

Derek Twigg *[pursuant to the reply, 11 June 2007, Official Report, c. 752W]:* I stated that the number of military flights taken by the Chief of the General Staff consisted of 26 RAF rotary and fixed wing and 35 Army rotary wing flights. These figures were incorrect and should have read as 23 RAF and 14 Army flights. The error occurred due to double counting.

Army: Training

Dr. Fox: To ask the Secretary of State for Defence how many training exercises for *(a)* active duty regular forces and *(b)* the Territorial Army were suspended due to the recent foot and mouth outbreak; and what steps are being taken to reschedule those exercises. [155400]

Des Browne: There was one military training exercise only cancelled due to the recent foot and mouth outbreak and this was an Annual Personal Weapons Test for members of the Honourable Artillery Company (HAC). It was not essential for this exercise to occur over this period and it has now been rescheduled for later this year.

Defence Export Services Organisation: UK Trade and Investment

Mr. Gerald Howarth: To ask the Secretary of State for Defence which *(a)* defence companies and *(b)* trade organisations he consulted before the decision was made to transfer the responsibilities of the Defence Export Services Organisation to UK Trade and Investment; and when they were notified of the intention to effect that transfer. [154919]

Des Browne *[holding answer 10 September 2007]:* The Prime Minister's decision to move responsibility for supporting defence exports from the Defence

Export Services Organisation to UK Trade and Investment (UKTI) was announced in a written statement to Parliament on the afternoon of 25 July. This was a Machinery of Government change and in such circumstances, it is not unusual for announcements to be made quickly and without prior discussion with those outside Government. However, the current and future Chairs of the National Defence Industries Council, Sir John Rose and Mr. Mike Turner, were informed by telephone that morning.

MOD, UKTI and the Department for Business, Enterprise and Regulatory Reform are engaging with the defence industry and trade associations as part of the process of developing an implementation plan.

Departments: Energy

Dr. Fox: To ask the Secretary of State for Defence what role his Department has in the Joint Energy Security of Supply Working Group. [155398]

Derek Twigg: The MOD did not play a role in the Joint Energy Security of Supply Working Group (which no longer exists); however the MOD regularly consults across Government on energy security matters.

Falkland Islands: Armed Conflict

Bob Russell: To ask the Secretary of State for Defence if he will amend the criteria to enable the South Atlantic Medal 1982 to be awarded to those who served on RMS St Helena in support of the UK Government; how many peopled served on the RMS St Helena during the Falklands War; and if he will make a statement. [155202]

Derek Twigg *[holding answer 12 September 2007]:* RMS St. Helena, operating in company with the Royal Navy mine-sweepers HMS Brecon and HMS Ledbury, served in the waters surrounding the Falkland Islands after hostilities had ceased on 14 June 1982.

None of the three vessels accrued the necessary length of qualifying service to meet the eligibility criteria for the South Atlantic Medal 1982. I refer the hon. Member to the reply I gave to the Member for Hartlepool (Mr. Wright MP) ,on 11 January 2007, *Official Report*, column 711W, when I said that the eligibility criteria for the South Atlantic Medal 1982 were carefully and extensively considered at the time this medal was instituted. There are no plans to review these criteria.

Available MOD records do not indicate how many Royal Navy personnel served on RMS St. Helena at the time of the Falklands war, but there were approximately 32 civilians.

Iraq: Armed Forces

Michael Gove: To ask the Secretary of State for Defence how many Iraqi citizens have been trained at Sandhurst since 2003; how much the Government has spent on supporting the training of Iraqi officers at RMA Sandhurst; and if he will make a statement. [155255]

Mr. Bob Ainsworth *[holding answer 12 September 2007]:* Eight Iraqi officer cadets have attended, or are attending, training at Sandhurst since 2003. The Government have spent £360,795 on supporting their training, inclusive of flights to and from the UK and English language tuition. This initiative complements our wider training and mentoring efforts aimed at building the capability of Iraqi Security Forces, so that they are increasingly able to take responsibility for security in Iraq.

Iraq: Peacekeeping Operations

Andrew Mackinlay: To ask the Secretary of State for Defence what assessment he has made of the extent and scale of ordnance, explosives and other weaponry used against UK forces in Iraq and Afghanistan over the past 12 months which his Department believes to have originated in, or passed through, Iran. [155537]

Des Browne: There is evidence that armaments, in particular improvised explosive devices, that originate in Iran are being deployed against our troops in southern Iraq and in Afghanistan. We have made it clear that any Iranian links to illegal armed groups in Afghanistan and Iraq, either through supply of munitions, training or funding, is completely unacceptable.

Dr. Fox: To ask the Secretary of State for Defence what definition he uses of overwatch, as used to describe the role of British armed forces in Southern Iraq. [155150]

Des Browne *[holding answer 12 September 2007]:* Overwatch is a term used by UK military planners in Multi-National Division South-East to describe the force posture by coalition forces within a given province in Iraq, in relation to the progressive transfer of security responsibility to Iraqi security forces.

There are three phases of overwatch: tactical, operational and finally strategic. As each province passes through these phases, the division of responsibility between coalition and Iraqi security forces is adjusted to take account of the changing security situation and increasing capabilities of the Iraqi armed forces.

In the UK's area of responsibility in Iraq, three of the four provinces (Al Muthanna, Dhi Qar, and Maysan) are currently in the operational overwatch phase. Security in the fourth province, Basra, will remain the responsibility of coalition forces until the conditions are appropriate to transfer responsibility to the Iraqi Security Forces.

Kenley Airfield

Richard Ottaway: To ask the Secretary of State for Defence what the expected cost is of the proposed fence at Kenley Airfield, Croydon. [155507]

Des Browne: The expected cost of the proposed fence at Kenley Airfield, Croydon, the erection of which is subject to planning permission, is approximately £154,000 including VAT.

NATO: Pipelines

Dr. Fox: To ask the Secretary of State for Defence what the status is of the NATO Pipeline System; and if he will make a statement. [155399]

Mr. Bob Ainsworth: The NATO Pipeline System was developed to ensure that NATO's requirements for petroleum products and their distribution could be met at all times. The system comprises 10 separate fuel storage and distribution systems with a total of 12,000 km of pipeline linking storage depots, air bases, civil airports, refineries and ingress points. Of these systems, two are multi-national systems and eight are national systems.

One of the eight national systems, the Government Pipeline and Storage System (GPSS), is owned by MOD and operated by the Oil and Pipelines Agency, a non-departmental public body. Although owned by MOD, the GPSS is a key element of the UK's critical national infrastructure. GPSS irreducible spare capacity is exploited for commercial use with military/commercial throughput split approximately 20:80. On the basis of commercial receipts, the MOD moves and stores its aviation fuel at no cost.

Territorial Army: Anniversaries

Dr. Murrison: To ask the Secretary of State for Defence what funding he intends to make available to *(a)* regional and *(b)* local organisations to mark the centenary of the Territorial Army; and if he will make a statement. [155233]

Mr. Bob Ainsworth *[holding answer 12 September 2007]:* The events marking the centenary of the Territorial Army will be funded from a combination of public resources and suitable non-public donations and sponsorship. The planning of events is continuing and I will announce further details later this year.

Dr. Murrison: To ask the Secretary of State for Defence (1) if he will list the projects being planned to mark the centenary of the Territorial Army; and if he will make a statement; [155436]

(2) what budget has been allocated to celebrations to mark the centenary of the Territorial Army; and if he will make a statement. [155437]

Mr. Bob Ainsworth: As outlined in my predecessor's written statement of 12 June 2007, *Official Report*, column 41WS, the programme of events will start with a media launch to raise awareness of this key anniversary. The main national level event will take place on Horse Guards Parade and at St. James' Palace on Saturday 21 June 2008. Further major events will be occurring between May to September next year around the country and are anticipated to include a commemorative service in St. Paul's Cathedral and primary events in regional capitals.

National events are further being supported by a range of regional and local activities, with a broad emphasis on TA veterans and members of the TA currently deployed on operations. The final programme is currently in the latter stages of development and the broad outline of this will be available in the early autumn.

The majority of TA100 activities around the country will be in conjunction with existing, planned representational or Army-in-Society events, which will be re-profiled or enhanced, if necessary, for the purposes of this milestone occasion thus minimising costs.

A substantial proportion of the cost of the celebrations will be met from corporate and private donations. The publicly funded element which has yet to be finally determined will be drawn in part from the Department's central commemorations team and in part from allocations. TA manpower to support the events will be resourced from allocated man training days. There will be no impact on operations, preparing for operations or core training.

Type 45 Destroyers

Dr. Julian Lewis: To ask the Secretary of State for Defence what economies of scale he estimates could be made, per warship, if a flotilla of *(a)* six, *(b)* seven and *(c)* eight Type 45 Destroyers were to be built. [151187]

Des Browne *[holding answer 25 July 2007]:* The data to make accurate comparative calculations over Type 45 Destroyer fleet sizes are not available. However, value-for-money will be one of many considerations in the decision on future Type 45 orders.

Woolwich Barracks

Dr. Fox: To ask the Secretary of State for Defence if he will make a statement on the future of Woolwich barracks. [155144]

Derek Twigg *[holding answer 12 September 2007]:* My predecessor announced in September 2005 that Woolwich Barracks would be retained and would become the future home for Public Duties Incremental Companies, their supporting elements from Chelsea and an infantry battalion from Cavalry Barracks, Hounslow.

The work on the redevelopment of Woolwich Barracks to accommodate these units is expected to start within the next few months following recent planning approval.

INNOVATION, UNIVERSITIES AND SKILLS

Departmental Responsibilities

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills which responsibilities of the former *(a)* Department for Education and Skills and *(b)* Department of Trade and Industry his Department holds; whether responsibilities have been transferred to his Department from any other Department; and for which (i) agencies and (ii) other bodies his Department is responsible for. [147747]

Mr. Lammy: All of these details are contained in the Machinery of Government statement of the 29 June which has been placed in the House Library.

Departments: Information Officers

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many press officers are employed by his Department. [153242]

Mr. Lammy: At present, DIUS has a staff of four permanent press officers. Currently we are using nine additional press officers supplied through the Central Office of Information.

Departments: Marketing

Mrs. May: To ask the Secretary of State for Innovation, Universities and Skills on what date a sign for his Department's headquarters was commissioned. [147881]

Mr. Lammy: Interim signage for the Department using an interim logo was commissioned on 27 June so that it was available for use in departmental buildings on 28 June. The Department's logo was then commissioned on 27 June.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for Innovation, Universities and Skills what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150441]

Mr. Lammy: The information requested has been included as part of the response given by my hon. Friend the Parliamentary Under-Secretary of State for Children, Young People and Families on 3 September 2007, *Official Report*, columns 1712-13W.

Departments: Publicity

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills (1) what assessment he has made of the cost-effectiveness of advertising commissioned over the last 12 months for policy areas now within his Department's responsibility; [148511]

(2) what assessment he has made of the cost-effectiveness of advertising commissioned in areas by his Department and other Government Departments now within his Department's responsibility in the last 12 months. [148677]

Mr. Lammy: The Department for Innovation, Universities and Skills was created on 28 June. I refer the hon. Member to the replies given by my hon. Friend the Parliamentary Under-Secretary of State for Children, Young People and Families on 3 September 2007, *Official Report*, column 1713W and my hon. Friend the Parliamentary Under-Secretary of State for Business, Enterprise and Regulatory Reform on 17 July 2007, *Official Report*, column 279W.

Further Education: Leeds

John Battle: To ask the Secretary of State for Innovation, Universities and Skills if he will list the further education provision available for post 16-year-olds within the Leeds, West constituency. [148649]

Mr. Lammy: The Department does not hold details of all the publicly funded post-16 provision at local or regional levels. I am therefore copying this to Mark Haysom, the Learning and Skills Council's chief executive so that he can respond with the information you have requested. A copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 14 September 2007:

I am writing in response to your recent Parliamentary Question which asked the Secretary of State for Innovation, Universities and Skills to list the further education provision available for post 16 year olds specifically within the Leeds West Constituency.

The 05/06 data shows well over 6,000 Leeds West residents are currently in LSC funded FE learning provision, with about a fifth of these being aged 16-18. The vast majority of these are with Leeds based providers.

However, although there are a number of FE learning centres on the periphery of Leeds West, there is no locally based provision in the constituency.

Leeds West borders the Leeds city area to the east, where most provision is found, and Horsforth to the North West, where some Park Lane College provision is available.

Higher Education: Admissions

Sarah Teather: To ask the Secretary of State for Innovation, Universities and Skills how many students his Department has estimated will enrol in courses at higher education institutions in each academic year up to 2009-10. [155091]

Bill Rammell *[holding answer 10 September 2007]:* Current projections show the numbers of students rising from 1,508,000 in 2006/07 to 1,554,000 in 2007/08.

The following table shows recent years' outturn figures.

Academic year	*Total full-time equivalent students*
2001/02	1,320,000
2002/03	1,380,000
2003/04	1,425,000
2004/05	1,449,000
2005/06	1,480,000

These figures are on a full-time equivalent basis, and cover all (UK, EU and overseas domiciled) students, studying at higher education institutions (HEIs) and further education colleges (FECs) in England.

Estimates of likely numbers of students beyond 2007/08 have not yet been made, and will depend on the final settlement of the current Comprehensive Spending Review.

Higher Education: Overseas Trade

Bob Spink: To ask the Secretary of State for Innovation, Universities and Skills whether the United Kingdom is a net importer or exporter of higher education. [155172]

Bill Rammell *[holding answer 12 September 2007]:* The British Council published a report[1] earlier this month indicating that the value of UK education and training exports was estimated to be in the region of £28 billion a year. We do not know what the value of education imports might be and have no way of calculating it. However, given that the numbers of international students who come to the UK to study greatly exceeds the numbers of UK students studying abroad, the UK is considered to be a net exporter of higher education.

[1] "The value of UK education and training exports: an update" Dr. Pamela Lenton, University of Sheffield, September 2007.

Higher Education: Radioactive Materials

Mark Pritchard: To ask the Secretary of State for Innovation, Universities and Skills what advice the Government have given to universities and education research facilities on the storage of radiological materials. [155404]

Mr. Woolas: I have been asked to reply.

If an organisation in England and Wales wishes to use radioactive substances on its premises, it will be regulated by the Environment Agency under the Radioactive Substances Act 1993 and the Health and Safety Executive under the Ionising Radiations Regulations 1999.

Responsibility for storage facilities rests primarily with the user organisation itself. Regulatory guidance on radioactive substances, including storage, is provided by the Environment Agency and the Health and Safety Executive.

The Environment Agency also chairs a small users liaison group, which includes a number of professional bodies such as the Association of University Radiation Protection Officers. This provides a direct link to the Environment Agency in allowing for the dissemination of information and advice, and providing an opportunity for non-nuclear users of radioactive substances to seek regulatory guidance.

Learning and Skills

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 6 February 2007, *Official Report*, column 856W, on Learning and Skills, when he expects the Learning and Skills Council (LSC) to publish data on the destinations of learners after completion of their LSC-funded programmes for the period 2002 to 2006. [154872]

Bill Rammell: I refer the hon. Member to my letter dated June 2007, copies of which have been placed in the Library.

Students: Fees and Charges

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills whether his recent announcement on graduate loan repayments applies to both maintenance and tuition fee loans; and what the projected cost is of the initiative. [149093]

Bill Rammell: The recent announcement on giving graduates the choice of a repayment break of up to five years applies to both maintenance and tuition fee loans.

From the 2008/09 academic year, a student who is a new entrant to higher education and eligible for a maintenance loan or fee loan will be entitled to take a repayment break of up to five years. It is projected that giving graduates a choice of a repayment break in resource terms will cost of around £165 million in 2010-11 in steady state.

Students: Science

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills (1) what estimate he has made of how many and what percentage of *(a)* female and *(b)* male (i) physics, (ii) chemistry, (iii) biochemistry, (iv) psychology and (v) sports science students went into (A) UK graduate level employment, (B) UK non-graduate level employment, (C) employment overseas, (D) a combination of employment and study and (E) further study in each of the last 10 years; [150157]

(2) what estimate he has made of how many and what percentage of *(a)* female and *(b)* male students went into (i) UK graduate level employment, (ii) UK non-graduate level employment, (iii) employment overseas, (iv) a combination of employment and study and (v) further study in each of the last 10 years. [150158]

Bill Rammell: The available information on full-time graduates is given in tables which have been placed in the Library. The figures have been taken from the higher education leavers survey which is carried out annually by the Higher Education Statistics Agency (HESA). Up to and including 2001-02 this was the First Destination Supplement (FDS). From 2002/03, this was replaced by a new survey called the Destination of Leavers from Higher Education (DHLE). In addition to this, a new classification for recording subject of study was introduced in 2002-03. Hence, figures from 2003/03 onwards are not comparable to earlier years.

COMMUNITIES AND LOCAL GOVERNMENT

Council Tax

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many people were prosecuted for the non-payment of council tax, broken down by *(a)* region and *(b)* ethnicity of the defendant in each of the last five years for which records are available; and how much in council tax arrears was written off by local authorities over the same period. [155561]

Mr. Dhanda: Communities and Local Government does not collect information on the number of taxpayers against whom billing authorities take enforcement action for non-payment of council tax.

Communities and Local Government does not have an estimate available on the amount of council tax arrears written off by local authorities.

Council Tax: Greater London

Mr. Burstow: To ask the Secretary of State for Communities and Local Government what the ratio between central Government funding and council tax revenue was for *(a)* all London boroughs and *(b)* each London borough in each of the last 10 years. [155553]

Mr. Dhanda: The ratio between central Government funding and council tax revenue for London boroughs over the last 10 years is shown in the following table.

Central Government funding is defined here as the sum of formula grant (revenue support grant, police grant and redistributed non-domestic rates) and specific grants inside Aggregate External Finance (AEF), i.e. revenue grants paid for council's core services. In past years, where applicable, the SSA Reduction Grant and Central Support Protection Grant have also been included.

Council tax revenue is defined here as the local authority council tax requirement (i.e. the council tax used to finance revenue expenditure), not council tax collected.

Comparisons across years may not be valid due to changing local authority responsibilities and changes in funding and function.

Figures exclude grants outside AEF (i.e. where funding is not for authorities' core services, but is passed to a third party, for example, rent allowances and rebates), capital grants, funding for the local authorities' housing management responsibilities and those grant programmes (such as European funding) where authorities are simply one of the recipients of funding paid towards an area.

Ratio between central Government funding and council tax revenue for London boroughs, 1997-98 to 2006-07

	1997-98	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07[1]
London boroughs	3.7	3.7	3.7	3.8	3.9	3.8	3.7	3.6	3.7	3.8

[1] Based on provisional outturn figures.

Source:
Communities and Local Government Revenue Outturn (RO) returns—RS data.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many people have been appointed to her Department outside civil service grades in the last 30 days. [153227]

Mr. Iain Wright: In the 30 days to the tabling of this question on 25 July, no staff were appointed outside civil service grades to the central part of the Department for Communities and Local Government, that is excluding the Departments sponsor bodies and executive agencies.

Devolution: Rural Areas

Andrew George: To ask the Secretary of State for Communities and Local Government what assessment she has made of *(a)* the merits of devolution outside the city regions and *(b)* Cornwall and the Isles of Scilly's suitability for devolved powers. [155556]

Mr. Dhanda: The Government's approach was set out in the Local Government White Paper published on 26 October 2006 and in the review of sub-national economic development and regeneration published on 17 July 2007. The review builds on the White Paper by proposing increased powers and stronger incentives for all local authorities, including those in Cornwall and the Isles of Scilly, to improve the prosperity of their communities.

Empty Property

Paul Holmes: To ask the Secretary of State for Communities and Local Government how many homes in *(a)* private and *(b)* public ownership were empty for more than six months in each year since 1997. [155229]

Mr. Iain Wright *[holding answer 12 September 2007]:* The information requested is as follows:

As at 1 April each year	*Private (including RSLs)*[1,2]	*Public (local authority only)*[1,3]
1997	245,227	33,529
1998	233,237	26,645
1999	227,921	28,730
2000	296,053	33,126
2001	329,874	31,411
2002	327,677	30,892
2003	332,145	23,925
2004	320,650	20,670
2005	306,960	17,840
2006	306,788	16,028

[1] Private vacancies (over six months) reported through the Housing Strategy Statistical Appendix (HSSA).

[2] Registered social landlord long-term vacancies are based on a proxy measure—"RSL vacants not available for rent" as reported through the Regulatory Statistical Return.

[3] Local authority vacancies (over six months) reported through the HSSA up to 2004-05 and from the Business Plan Statistical Appendix (BPSA) for 2005-06.

Figures for the private and local authority tenures are presented for those dwellings empty for more than six months as reported by local authorities. Figures for registered social landlord vacancies are based on numbers of vacancies not available for rent.

Energy: Conservation

Bob Russell: To ask the Secretary of State for Communities and Local Government if she will make it a requirement for local authorities to publish an annual report listing the *(a)* new and *(b)* existing buildings in their area which in the previous 12 months have installed energy (i) reducing and (ii) producing measures; and if she will make a statement. [155478]

Mr. Dhanda: The Government have no plans to introduce a requirement for local authorities to produce such an annual report. However Communities and Local Government has published a report (as it is required to do every two years under the Sustainable and Secure Building Act 2004) which covers, among other things, the overall changes in the efficiency with which energy is used in buildings, and the extent to which such buildings have their own facilities for generating energy:

http://www.communities.gov.uk/publications/planningandbuilding/monitoringsustainability.

Additionally, the Department for Environment, Food and Rural Affairs has been seeking views on its proposals for an indicator for the post-2008 local government performance framework to measure percentage reductions in per capita CO_2 emissions in the local area. The calculation of the proposed indicator includes emissions from the majority of buildings in the area:

www.defra.gov.uk/environment/localgovindicators/index.htm.

The indicators to be included in the post-2008 local government performance framework will be published alongside the comprehensive spending review later this autumn.

Fire Services

Mr. Hollobone: To ask the Secretary of State for Communities and Local Government what discussions have taken place with fire brigades on the implications for fire and rescue services of the changes in the requirements for vehicle signage in the UK following conclusion of the European Agreement concerning the international carriage of dangerous goods by road and rail. [155488]

Mr. Dhanda: No such discussions have taken place with specific fire brigades, but discussions have taken place with the Chief Fire Officers Association, which is the professional voice of the UK fire and rescue service. No changes in vehicle signage are currently planned for the carriage of dangerous goods within the UK.

Fire Services: Manpower

Mr. Bone: To ask the Secretary of State for Communities and Local Government how many part-time and full-time firefighters there were in *(a)* England, *(b)* Northamptonshire and *(c)* Wellingborough in each year since 1997. [155519]

Mr. Dhanda: The number of part-time and full-time firelighters[1] in England in each year since 1997 was as follows. Information on the number of firelighters at the constituency level is not available:

[1] Number of uniformed personnel

As at 31 March	Retained (part-time)	Whole-time (full-time)
1997	13,016	32,033
1998	12,847	31,855
1999	13,022	31,918
2000	13,021	31,616
2001	13,097	31,597
2002	13,013	31,592
2003	13,044	31,614
2004	13,015	31,856
2005	13,543	31,051
2006	13,927	30,744

The number of part-time and full-time firelighters[1] in Northamptonshire in each year since 1997 was as follows:

[1] Number of uniformed personnel

As at 31 March	Retained (part-time)	Whole-time (full-time)
1997	221	286
1998	226	294
1999	221	293
2000	221	296
2001	221	296
2002	242	292
2003	228	307
2004	220	311
2005	237	302
2006	229	288

Source:
ODPM annual returns

Flood Control

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the Government's Foresight report on future flood risk. [153713]

Ian Pearson: I have been asked to reply.

Copies of Foresight reports are routinely placed in both Libraries in the Houses of Parliament. I have however arranged for an additional copy of the Government's Foresight report on future flood risk to be placed in the Library.

Floods: EU Grants and Loans

Mr. Paice: To ask the Secretary of State for Communities and Local Government what progress the Government have made in securing funds from the EU Solidarity Fund in relation to the summer 2007 floods. [155566]

Mr. Dhanda: An application for support from the European Union Solidarity Fund was lodged with the European Commission on 20 August 2007 and we continue to liaise closely with the Commission on this issue.

Floods: Gloucestershire

Martin Horwood: To ask the Secretary of State for Communities and Local Government what financial assistance has been given to (*a*) Cheltenham and (*b*) Gloucestershire in relation to this summer's serious floods; which organisations received money; and what the money was intended to pay for. [155541]

Mr. Dhanda: In total £2,623,000 in Flood Recovery Grant, paid by the Department for Communities and Local Government to support flood affected communities, has been awarded to the councils within Gloucestershire. The details of these payments are set out as follows:

£

Council	Original FRG round 1—12 July 2007	Original FRG round 2—20 July 2007	Extended FRG round 1—16 August 2007	Extended FRG round 2—23 August 2007	Total
Forest of Dean District Council	0	0	20,000	3,000	23,000
Stroud District Council	0	0	50,000	10,000	60,000
Tewkesbury Borough Council	0	0	600,000	23,500	623,500
Cotswold District Council	0	0	600,000	23,500	623,500
Gloucester City Council	20,000	3,000	600,000	23,500	646,500
Cheltenham Borough Council	20,000	3,000	600,000	23,500	646,500
Total	40,000	6,000	2,470,000	107,900	2,623,000

Local authorities have flexibility to decide how to best to use the grant based on their own local circumstances. In practice, this has included:

Support payments to flood affected households;

Purchase and provision to flood affected households of new household items (e.g. fridges, cookers, washing machines);

Provision of temporary caravans to allow people to remain within their communities while houses are repaired; and

Other priorities set through consultation with flood-affected householders and communities.

Gloucestershire county council was allocated £1,007,900 from the Department for Children, Schools and Families (DCSF). None of the other local authorities within Gloucestershire provide education or children's services and thus were not eligible for this funding.

The Department for Transport has £3 million available to support longer term infrastructure costs in flood affected areas. There are on-going discussions with Gloucestershire county council about this resource.

The following are more general support that residents and businesses in Cheltenham and Gloucestershire can access:

The regional development agency with responsibility for Cheltenham and Gloucestershire has a £2 million flooding recovery package for the region and eligible businesses are able to claim up to a maximum of £2,500.

Department for Work and Pensions is helping people on income related benefits or the lowest of incomes affected by the flooding with essential costs through Community Care Grants and repayable interest-free Crisis Loans.

Also, the Department for Culture, Media and Sport have made £1 million available to promote rural destinations and visitor attractions in flood affected areas.

Floods: Temporary Accommodation

Mr. Paice: To ask the Secretary of State for Communities and Local Government how many people are *(a)* still living and *(b)* have lived in emergency accommodation as a result of the summer 2007 floods, broken down by (i) county and (ii) type of accommodation. [155562]

Mr. Dhanda: The information requested is not available in a comprehensive format centrally.

Information in respect of the housing situation is provided on a weekly basis on situation update forms by the Government offices for the regions based on information supplied to them by local authorities and other organisations.

The situation update forms do not include a detailed breakdown of all households who were or are living in temporary accommodation or the type of accommodation and may not include information where displaced households have made private arrangements.

Housing: Sales

Mr. Walter: To ask the Secretary of State for Communities and Local Government what estimate she has made of the proportion of homes sold through property location agents. [155413]

Mr. Dhanda: The information requested is not held centrally.

Housing: South West Region

Mr. Ellwood: To ask the Secretary of State for Communities and Local Government what housing targets have been set for *(a)* Bournemouth, *(b)* Dorset and *(c)* the South West. [155459]

Mr. Dhanda: The draft South West Regional Spatial Strategy, which recently completed its examination in public, states a range for 2006-26 of *(a)* between 680 and 780 dwellings per annum for Bournemouth *(b)* between 1,925 and 2,780 dwellings per annum for Dorset and *(c)* between 22,895 and 23,060 dwellings per annum for the South West.

Mortgages: Insurance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the take-up rate was of mortgage payment protection insurance by new homebuyers in each year since 1997. [153692]

Mr. Iain Wright: The take-up rate of mortgage payment protection insurance (MPPI) for new mortgages is given in the following table. These figures are published by the Council of Mortgage Lenders in table PP12 on their website at:

http://www.cml.org.uk/cml/statistics

Percentage of new mortgages with MPPI sold or provided for free, UK

	Percentage of all new mortgages with MPPI
2000	34
2001	33
2002	35
2003	33
2004	27
2005	25
2006	22

Source:
CML Research, Association of British Insurers

Planning: Appeals

Mr. Bone: To ask the Secretary of State for Communities and Local Government how many planning decisions were appealed against in each year since 1996; and how many such appeals were successful. [155483]

Mr. Dhanda: Data held by the Planning Inspectorate are not reliable prior to April 2000. The following table shows the number of planning appeals *(a)* received *(b)* decided and *(c)* allowed (successful) in each calendar year from 2000 to 2007 where data for January to June has been supplied.

	(a) Number of appeals received	*(b) Number of appeals decided*	*(c) Number of appeals allowed*
2000	15,754	13,260	4,658
2001	16,413	14,044	5,025
2002	18,273	13,816	5,111
2003	20,593	18,056	6,018
2004	25,136	16,504	5,412
2005	20,765	22,362	7,208
2006	23,054	19,827	6,574
2007 (January to June)	11,335	10,055	3,516

TRANSPORT

Aviation: Baggage

Mr. Marshall: To ask the Secretary of State for Transport what plans she has to seek an increase in the baggage liability limitations applicable to airline passengers; and if she will make a statement. [155529]

Jim Fitzpatrick: None. It is mishandling of baggage that attracts complaints rather than the amount of compensation payable in redress. Baggage liabilities are governed by the 1999 Montreal Convention which came into force for the UK in June 2004. Revisiting the Convention would require international support. As this is a recent international instrument and remains to be ratified in many countries this is unlikely to be realistic in the short term.

Bus Services

Susan Kramer: To ask the Secretary of State for Transport by how much the (*a*) total and (*b*) average per person use of (i) bus and (ii) light rail in (A) England and (B) each region changed between (1) 2000, (2) 1995, (3) 1990, (4) 1980 and (5) 1970 and the latest year for which figures are available. [152382]

Ms Rosie Winterton: The following tables show patronage figures, by region, for bus and light rail, for each of the financial years 1990-91, 1995-96, 2000-01 and 2005-06. Data disaggregated by region or country of Great Britain are not available for years prior to 1985-86.

Total bus patronage

Millions of boardings

	1990-01	*1995-96*	*2000-01*	*2005-06*
North East	376	284	249	207
North West	691	596	506	500
Yorkshire and the Humber	544	454	397	366
East Midlands	247	217	216	201
West Midlands	517	470	459	405
East of England	173	160	183	161
Greater London	1,166	1,193	1,347	1,810
South East	299	278	297	293
Southwest	215	201	188	181
All England	4,227	3,853	3,842	4,125

Total Light Rail patronage

Millions of boardings

	1990-01	*1995-96*	*2000-01*	*2005-06*
North East	44	36	33	36

Departments: Customer Services

Mrs. Villiers: To ask the Secretary of State for Transport (1) how much revenue each of her Department's executive agencies received from customer services calls in each of the last five years; [155512]

(2) how much was (*a*) spent on and (*b*) recouped by the customer services departments of each of her Department's executive agencies in each of the last five years. [155513]

Jim Fitzpatrick: Where the Department's executive agencies have a separate and distinct customer services department or enquiry unit, the costs incurred and income recouped over the last five years is shown in the following tables. Income recouped is interpreted as meaning revenue received from customer service calls.

Revenue

£

	DVLA	*DSA*	*VOSA*
2002-03	585,077	[1]—	0
2003-04	384,754	[1]—	0
2004-05	1,309,208	[1]—	10,386
2005-06	3,021,010	[1]—	63,407
2006-07	3,884,413	[1]—	72,397

[1] DSA has not recouped any money from its customer services calls

The amount of revenue share has grown through this period in line with increased call volumes, and the increase in the amount of revenue share provided by telecoms suppliers.

In line with the David Varney recommendations DfT intends to migrate its major service numbers to the new 0300 number range, dedicated to the Government and not-for-profit sector, as soon as they are available later this year. This will cease any revenue share arrangements and customers will pay no more than they pay for calls to 01 or 02 numbers.

Costs

			£
	DVLA	*DSA*	*VOSA*
2002-03	10,704,277	325,000	[1]
2003-04	15,081,330	428,000	[1]
2004-05	15,791,841	1,066,000	[1]
2005-06	15,706,096	573,000	[1]
2006-07	18,334,446	644,000	[1]

[1] VOSA does not hold separate data on costs of its Enquiry Unit

Departments: Gateway Reviews

Mrs. Villiers: To ask the Secretary of State for Transport what percentage of gateway reviews returned (a) red, (b) amber and (c) green colour coding in each of the last five years. [155509]

Jim Fitzpatrick: This information is provided in the following table. To clarify, Gateway reviews assign a 'red', 'amber' or 'green' status on the basis of how quickly a recommendation should be actioned before moving into the next project phase. They do not measure a project's status or likelihood of success.

Report colour code	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*Total*	*Total percentage*
Red	0	6	23	29	36	26	120	41.8
Amber	5	14	36	34	26	15	130	45.3
Green	3	3	12	10	6	3	37	12.9
Total	8	23	71	73	68	44	287	100
Percentage breakdown								
Red	0	26	32	49	53	59	42	
Amber	63	61	51	47	38	34	45	
Green	38	13	17	14	9	7	13	

Mrs. Villiers: To ask the Secretary of State for Transport how much her Department spent in total on Gateway reviews in each of the last five years. [155510]

Jim Fitzpatrick: Prior to April of this year there were no direct charges for Gateway reviews. The Office of Government Commerce did introduce a payment scheme for reviews at the beginning of this financial year; however, the Department has yet to make any payments under this mechanism.

Other costs have been incurred by the involvement of external consultants in a small number of reviews; however, these ad hoc and infrequent charges are not recorded centrally.

Finally, there are also costs involved in the administration of reviews by departmental staff; however, because this varies significantly with the type of review being conducted, this could be calculated only at disproportionate cost.

Mrs. Villiers: To ask the Secretary of State for Transport what percentage of the cost of a gateway review is met by *(a)* her Department, *(b)* the budget for the project into which the review has been commissioned and *(c)* the companies contracted in to carry out the work on the project. [155511]

Jim Fitzpatrick: The Department supports the philosophy that Gateway reviews should be free at the point of delivery. All costs associated with a review are met from the Department's budget as part of its corporate assurance and governance processes.

In a small number of cases a project has specifically requested the involvement of an external consultant. The cost of consultants has been included in the project itself.

Departments: Private Finance Initiative

Dr. Cable: To ask the Secretary of State for Transport what the value is of the unitary payments of each private finance initiative scheme overseen by her Department over the lifetime of the contract, expressed in constant 2007-08 prices, and discounted to present value. [155028]

Jim Fitzpatrick *[holding answer 10 September 2007]:* The HM Treasury website provides updated details (on a six monthly basis) of unitary payments on PFI projects overseen by the Department for Transport. These were most recently updated in July 2007, with unitary charge payment projections extending until 2033-34. This information is available at:

http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm .

Unitary charge payments should be expressed in 2007-08 prices. An appropriate inflation rate to use to express payments in 2007-08 prices is 2.8 per cent. This is HM Treasury's projection for RPI inflation consistent with CPI inflation remaining at its 2 per cent. target. The first year corrected for inflation should be 2008-09.

Unitary charge payments are projections covering more than the repayment of the capital value of a project and are conditional on the performance of the private sector contractor. The unitary charge payments often cover maintenance, cleaning and other services.

Heathrow Airport

Justine Greening: To ask the Secretary of State for Transport in relation to the Heathrow project board meeting note of 16 April 2007, item 8, what comments were received from BAA for inclusion in the public consultation document on expanding Heathrow airport; and if she will make a statement. [155110]

Jim Fitzpatrick *[holding answer 10 September 2007]*: It is Government policy to work with BAA and other relevant bodies to see whether the further development of Heathrow is possible within strict environmental limits. It would be impossible to assess the viability of the further growth of Heathrow without the input of the airport operator. We expect to be consulting publicly later this year and for the reasons already explained in correspondence with the hon. Member, we do not believe it is in the public interest to release information on draft documents ahead of that consultation.

Lorry Drivers: Foreigners

Mrs. Dunwoody: To ask the Secretary of State for Transport how many foreign vehicles were inspected at the roadside in *(a)* 2005-06 and *(b)* 2006-07; how many were served with an immediate prohibition; how many of these prohibitions related to drivers' hours; what the countries of origins were of these drivers; and how many prosecutions followed these roadside stops. [155387]

Jim Fitzpatrick: The relevant statistics relating to the Department's Vehicle and Operator Services Agency (VOSA) are:

	2005-06	*2006-07 (to date)*
Roadworthiness inspections	15,183	31,321
Traffic offence inspections	18,251	27,449

Foreign vehicles issued with an immediate prohibition were:

	2005-06	*2006-07 (to date)*
Roadworthiness	5,442	13,348
Drivers hours	4,433	6,443
Overloading	1,436	2,631

VOSA does not record the nationality of drivers. There were no prosecutions for these specific offences because it is not possible—either for VOSA or the police—to require non-UK residents to return to the UK to attend court on such matters. The introduction of graduated fixed penalties and deposits next year will, however, ensure that they do pay the relevant penalty.

The police do have the power of arrest and use it to deal with serious offences. We do not have any statistics relating to enforcement action taken by the police. Such statistics as may be available relating to the prosecution of foreign nationals would be held by the Ministry of Justice.

M25

Mrs. Villiers: To ask the Secretary of State for Transport how much has been spent on the M25 widening project at the most recent date. [155154]

Jim Fitzpatrick *[holding answer 12 September 2007]*: A total of £57 million has been spent on the M25 widening project up to and including 31 July 2007.

Mrs. Villiers: To ask the Secretary of State for Transport which of the M25 widening projects are *(a)* on schedule and *(b)* late. [155157]

Jim Fitzpatrick *[holding answer 12 September 2007]*: Construction of M25 junction 1b-3 (section 3) started in June 2007 and is currently expected to complete ahead of schedule in summer 2008.

The remaining four sections were included in the Design Build Finance and Operate contract which is on schedule to be awarded at the end of 2008.

The actual dates for the improvements will be determined by the successful contractor and all four sections are expected to complete by 2016 subject to the satisfactory completion of the necessary statutory processes.

Railways: Death

Mr. Steen: To ask the Secretary of State for Transport how many members of the public lost their lives on the railway in the last three years; and how many deaths *(a)* occurred on Network Rail's Western Route and *(b)* are (i) suspected to be and (ii) confirmed as the result of suicide. [155455]

Mr. Tom Harris: This information is not held by the Department for Transport but by the British Transport Police who can be contacted at:

British Transport Police
25 Camden Road
London
NW1 9LN
E-mail: general.enquiries@btp.pnn.police.uk

Road Traffic

Martin Horwood: To ask the Secretary of State for Transport how many *(a)* motor vehicles, *(b)* cars and taxis, *(c)* motorcycles, *(d)* buses and coaches, *(e)* light vans, *(f)* other goods vehicles and *(g)* pedal cycles there were on the roads in each region of the UK in each of the last five years. [155498]

Jim Fitzpatrick: The data available from the DVLA vehicle register (which does not include pedal cycles) are shown in the tables which have been placed in the Libraries of the House. The tables show the number of licensed vehicles, registered to keepers residing in each Government Office Region in Great Britain, over the last five years.

The totals include vehicles where the region of residence of the registered keeper cannot be identified.

Roads: Accidents

Martin Horwood: To ask the Secretary of State for Transport how many traffic accidents there were involving *(a)* buses, *(b)* pedestrians and *(c)* cyclists in (i) Cheltenham constituency and (ii) other Gloucestershire constituencies in each of the last five years. [155497]

Jim Fitzpatrick: The number of reported personal injury road accidents involving at least one *(a)* bus, *(b)* pedestrian casualty and *(c)* pedal cyclist in the Cheltenham constituency and the other five constituencies in Gloucestershire from 2002 to 2006 are shown in the table.

Accidents involving	Cheltenham	Cotswold	Forest of Dean	Gloucester	Stroud	Tewkesbury
					Number of accidents	
2002						
Bus	11	2	3	28	4	5
Pedestrian casualty	58	30	19	75	38	22
Pedal cycle	56	22	12	56	25	29
2003						
Bus	6	4	7	22	8	6
Pedestrian casualty	51	23	25	78	37	36
Pedal cycle	40	20	10	74	15	25
2004						
Bus	13	2	4	12	4	7
Pedestrian casualty	50	22	30	70	45	32
Pedal cycle	51	8	6	69	29	26
2005						
Bus	4	7	6	11	8	5
Pedestrian casualty	47	30	31	62	35	21
Pedal cycle	49	16	12	70	31	34
2006						
Bus	7	1	3	13	3	3
Pedestrian casualty	42	22	22	40	42	23
Pedal cycle	43	12	15	59	20	21

Roads: Construction

Mrs. Villiers: To ask the Secretary of State for Transport what consultations she has held since taking office on motorway widening schemes. [155156]

Jim Fitzpatrick *[holding answer 12 September 2007]:* Since June the Highways Agency has undertaken public consultation on two motorway widening schemes, M25 widening junction 16-23, and A453 widening (M1 junction 24 to A52 Nottingham).

Taxis: Licensing

Mr. Harper: To ask the Secretary of State for Transport what estimate she has made of the effect on costs to local authorities of the abolition by the Road Safety Act 2006 of the exemption from the private hire taxi licensing regime for vehicles hired on a long-term basis. [155428]

Ms Rosie Winterton: The inclusion in the Road Safety Act 2006 of the repeal of the exemption from private hire vehicle (PHV) licensing requirements of contracts lasting for a period of not less than seven days was motivated by the paramount need to ensure the safety of those being carried under contracts for the hire of a PHV.

PHV licence fees are set by local licensing authorities and vary widely from area to area. Making reasonable assumptions about the total numbers of currently unlicensed drivers, vehicles and operators likely to be involved, and about average licence fees, we estimate that the total cost across all those sectors using PHV contracts will be about £1 million. We have not made a separate estimate of costs likely to be borne by local authorities.

It should be noted that many contracts will already be carried out by drivers, vehicles and operators that are already licensed or to whom the contact exemption did not apply. Furthermore, the proportion of licensing costs which will be passed on to those awarding contracts will depend on contracts terms in each case.

Transport: Hazardous Substances

Mr. Hollobone: To ask the Secretary of State for Transport what plans there are to replace vehicle signage compliant with the United Kingdom Hazard Information System with vehicle signage compliant with the European Agreement concerning the international carriage of dangerous goods by road and rail. [155486]

Jim Fitzpatrick: The emergency services expressed clear views of the advantages given by the Emergency Action Codes (EACs) over Hazard Identification Numbers (HINs) in the first few minutes of responding to an incident involving dangerous goods when HSE consulted on this issue for the Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2004. It is proposed to consult on the continued use of EACs in the development of the 2011 revision of the Carriage of Dangerous Goods regulations. We are not required to replace the EAC codes as EC Directives permit member states to maintain existing national provisions.

Transport: Wellingborough

Mr. Bone: To ask the Secretary of State for Transport what plans there are to improve transport infrastructure in Wellingborough under the South Midlands and Milton Keynes spatial strategy; and if she will list the projects to be undertaken and their *(a)* start and *(b)* completion dates. [155127]

Ms Rosie Winterton *[holding answer 12 September 2007]:* The principles of infrastructure delivery, as set out in the North Northamptonshire core spatial

strategy, will be considered at the independent public examination which is due to commence on 23 October.

During the next few months, Wellingborough will benefit from improvements to the A45 Wilby Way Roundabout and the commencement of the new East Midlands Rail franchise timetable, which will introduce a new hourly service between Kettering, Wellingborough and London.

In the longer term, both the work that Northamptonshire county council is doing in preparing its transport strategy for growth, and with the Department and other partners to resolve the particular issues associated with the A14 trunk road, will highlight potential scheme priorities but more detailed appraisal is required before any firm indication on specific target dates can be given.

CHILDREN, SCHOOLS AND FAMILIES

Academies: Finance

Mr. Wallace: To ask the Secretary of State for Children, Schools and Families if he will allow *(a)* independent schools, *(b)* successful secondary schools and *(c)* further education colleges to sponsor city academies. [154975]

Jim Knight: Yes.

Academies: Isle of Sheppey

Derek Wyatt: To ask the Secretary of State for Children, Schools and Families whether any of the funding commitments to the proposed federated academy on the Isle of Sheppey are dependent on the sale of local school property for development. [155397]

Jim Knight: Kent county council has committed to using the capital resources at its disposal to contribute £4 million to the budget for establishing an academy on the Isle of Sheppey. On the basis of information it has supplied, this sum may be realised in total or in part by land sales at school sites in Sheppey or elsewhere in Kent. Any land sale at a school site will be managed in accordance with the relevant guidance and legislation.

Derek Wyatt: To ask the Secretary of State for Children, Schools and Families what *(a)* organisations and *(b)* individuals have lead responsibilities for taking forward the plans for a federated academy on the Isle of Sheppey. [155410]

Jim Knight: Dulwich college, as lead sponsor, is responsible for taking forward the educational proposals for the Sheppey academy. It is represented on the Project Steering Group by Ralph Mainard, deputy master.

In line with national academies policy, the project to develop and deliver the building programme will be managed by Kent's Local Education Partnership. On the basis of information supplied by Kent county council (KCC), a preferred consortia is due to be selected to form the Local Education Partnership with KCC and Partnerships for Schools in the fourth quarter of 2007. The project to develop and deliver the academy will form part of the national wave 4 programme. Since the procurement is not yet complete, it is not possible to comment on which individual will have lead responsibility for this aspect of the project.

Derek Wyatt: To ask the Secretary of State for Children, Schools and Families whether the team in charge of the development of the federated academy on the Isle of Sheppey has met the Commission for Architecture and the Built Environment. [155411]

Jim Knight: The procurement of the Kent Local Education Partnership is not yet complete. However, all schools that are developed and delivered by the LEP will be subject to formal review, in line with national policy, by both CABE and Partnerships for Schools.

Derek Wyatt: To ask the Secretary of State for Children, Schools and Families what plans there are to appoint a client design adviser to the executive team responsible for the development of the federated academy on the Isle of Sheppey. [155412]

Jim Knight: Kent county council has appointed Gensler as client design adviser for this academy project.

Curriculum: Citizenship

Bob Russell: To ask the Secretary of State for Children, Schools and Families if he will take steps to ensure that the citizenship curriculum includes the teaching of *(a)* the words of the National Anthem and *(b)* knowledge of the flags and patron saints of the nations of the United Kingdom; and if he will make a statement. [154835]

Jim Knight *[holding answer 10 September 2007]:* The flags, patron saints and the national anthem of the United Kingdom are not a separate element of the citizenship curriculum and there are currently no plans to change this. However, understanding the origins and implications of the diverse national, regional, religious and ethnic identities in the United Kingdom is an important part of citizenship curriculum, which has been statutory for 11-16 year olds since 2002. Following the recommendation in Sir Keith Ajegbo's recent review of "Diversity and Citizenship in the Curriculum", from September 2008 the revised citizenship curriculum for secondary schools will include a new strand entitled "Identity and Diversity: living together in the UK". In this context, pupils will have the opportunity to explore what it means to be a UK citizen and the unique qualities that are part of our shared identity. They may consider the political, religious, social and constitutional systems that affect their lives and communities and that may include learning about the flags, patron saints and the national anthem.

General Certificate of Secondary Education: Science

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families if he will make a statement on the decision by the Joint Council for Qualifications to increase the proportion of lower demand questions in the GCSE science examinations. [154944]

Jim Knight *[holding answer 10 September 2007]:* It is for the Qualifications and Curriculum Authority (QCA) as the independent regulator to ensure that standards at GCSE are maintained. The changes referred to follow a review of standards in GCSE double award science published in March 2007 and covering the five-year period 2000-05. QCA was involved in the process and believes that the changes in the proportions of questions will not affect the overall standard of the GCSE, while allowing lower achievers to demonstrate positive achievement.

Pupil Exclusions: West Yorkshire

Greg Mulholland: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary school children in (i) Leeds and (ii) West Yorkshire were excluded from school for a period of five days or fewer in each of the last five years. [154862]

Jim Knight *[holding answer 10 September 2007]:* The requested information can be provided at disproportionate cost.

Data on the number of fixed period exclusions in 2005/06 by local authority was published in June 2007:
http://www.dfes.gov.uk/rsgateway/DB/SFR/s000733/index.shtml

Data for 2004/05 was published in June 2006:
http://www.dfes.gov.uk/rsgateway/DB/SFR/s000662/index.shtml

Greg Mulholland: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary school children in (i) Leeds and (ii) West Yorkshire were permanently excluded from school in each of the last five years; in how many of these cases the decision was appealed; and in how many cases the appeal was successful. [154863]

Jim Knight *[holding answer 10 September 2007]:* The number of pupils permanently excluded from school in (a) Leeds and (b) Yorkshire and The Humber are shown in the table:

Maintained Primary, Secondary and Special Schools[1]: Number of Permanent Exclusions, 2001/02 to 2005/06

Leeds Local Authority Area

	Primary		Secondary		Special		Total (rounded)	
	Number of permanent exclusions	Percentage of school population[2]	Number of permanent exclusions	Percentage of school population[2]	Number of permanent exclusions	Percentage of school population[2]	Number of permanent exclusions	Percentage of school population[2]
2001/02	0	0.00	111	0.23	0	0.00	110	0.10
2002/03	10	0.01	130	0.28	10	1.06	150	0.13
2003/04	7	0.01	172	0.36	0	0.00	180	0.16
2004/05	*	*	118	0.25	0	0.00	120	0.11
2005/06	3	0.00	85	0.18	*	*	90	0.08

* = Figures below 3 are suppressed.
[1] Includes middle schools as deemed.
[2] The number of permanent exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils) in January each year.

Yorkshire and the Humber

	Primary		Secondary		Special		Total (rounded)	
	Number of permanent exclusions	Percentage of school population[2]	Number of permanent exclusions	Percentage of school population[2]	Number of permanent exclusions	Percentage of school population[2]	Number of permanent exclusions	Percentage of school population[2]
2001/02	110	0.02	780	0.23	30	0.34	920	0.11
2002/03	100	0.02	750	0.22	30	0.32	880	0.11
2003/04	100	0.02	790	0.23	20	0.25	910	0.11
2004/05	80	0.02	740	0.21	20	0.23	840	0.10
2005/06	80	0.02	680	0.20	10	0.17	770	0.10

[1] Includes middle schools as deemed.
[2] The number of permanent exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils) in January each year.
Note:
Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

The number of appeals against permanent exclusion from schools for (a) Leeds and (b) Yorkshire and the Humber are shown in the table:

Maintained Primary, Secondary and Special Schools[1]: Appeals Against Permanent Exclusion, 2001/02 to 2005/06

Leeds Local Authority Area

	2001/02	2002/03	2003/04	2004/05	2005/06
Number of appeals lodged	12	23	27	36	28
Number of appeals heard	12	23	27	36	28
Percentage of appeals heard	100.00	100.00	100.00	100.00	100.00
Number of appeals decided in favour of the parent/pupil	*	4	3	8	4
Percentage of appeals decided in favour of the parent/pupil[2]	16.67	17.39	12.50	22.22	14.29

* = Figures below 3 are suppressed.
[1] Excludes non-maintained special schools.
[2] Shown as a percentage of the appeals heard.

	Yorkshire and the Humber				
	2001/02	2002/03	2003/04	2004/05	2005/06
Number of appeals lodged	137	104	129	127	107
Number of appeals heard	132	99	124	125	101
Percentage of appeals heard	96.35	95.19	96.12	98.43	94.39
Number of appeals decided in favour of the parent/pupil	18	169	18	27	25
Percentage of appeals decided in favour of the parent/pupil[2]	13.64	16.16	14.52	21.26	24.75

[1] Excludes non-maintained special schools. [2] Shown as a percentage of the appeals heard.

Pupils: Per Capita Costs

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families what the average total amount of spending on each student throughout their school lives was for the 2007 GCSE cohort; and how many students from that cohort finished compulsory school with no GCSE qualifications or equivalent. [155081]

Jim Knight *[holding answer 10 September 2007]:* The information requested is provided as follows:

(a) For pupils who completed their GCSEs in 2007, their schools will have on average received £40,000 in real terms revenue funding per pupil over the eleven years of their schooling from the age of 5 to 15.

(b) Students that finished compulsory school with no GCSE qualifications or equivalent in 2006 in contained within the following table:

	Number
Pupils at the end of Key Stage 4	645,931
Achieving no passes at GCSE or equivalent[1]	[2]14,346

[1] Including entry level qualifications, which are below grade G at GCSE.
[2] 2.2 per cent. of the cohort

Note:
These figures are based on final 2006 data; provisional 2007 data will be published on 18 October 2007.

Schools: Capital Investment

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families what the capital investment in schools in the City of York was in each year since 1996-97. [154938]

Jim Knight *[holding answer 10 September 2007]:* Records are not maintained centrally of local authority capital expenditure on schools, as this is decided in accordance with local asset management plans and will depend upon local authorities' total sources of available funding. Capital allocations to York city council and schools in its area in each year since 1996-97 are set in the following table:

	£ million
1996-97	0.8
1997-98	1.3
1998-99	1.8
1999-2000	4.5
2000-01	7.4
2001-02	4.8
2002-03	25.5
2003-04	9.7
2004-05	9.4
2005-06	8.7
2006-07	28.5
2007-08	6.4

The large allocations in 2002-03 and 2006-07 result, respectively, from a PFI allocation of £15.4 million and successful Targeted Capital Fund (TCP) bids of £22.2 million. TCP allocations were made throughout the period 2001-02 to 2006-07. Although no TCP allocation was made in 2007-08, there is building work in progress this year resulting from the earlier allocations.

Schools: Standards

Mr. Todd: To ask the Secretary of State for Children, Schools and Families what proportion of *(a)* primary schools, *(b)* junior schools and *(c)* infant schools have been (i) placed in special measures and (ii) given notice to improve in 2006-07; and whether he has commissioned research on the frequency of these events in the three school types. [154860]

Jim Knight *[holding answer 10 September 2007]:* The following table gives the information requested.

Ofsted category	Primary schools placed into category during the 2006/07 academic year	Infant schools placed into category during the 2006/07 academic year	Junior schools placed into category during the 2006/07 academic year	Percentage All[1] primary schools placed into category during the 2006/07 academic year
Special Measures	0.8	0.2	1.4	0.7
Significant Improvement (Notice to Improve)	1.0	0.2	2.2	1.0

[1] Includes first schools and middle deemed primary schools.

The Department has not commissioned research in this area, but will discuss the matter with Ofsted.

Teachers: Languages

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many teachers of modern foreign languages in secondary schools have degree level qualifications in *(a)* Mandarin and *(b)* Urdu. [155253]

Jim Knight *[holding answer 12 September 2007]:* The information requested is not collected centrally.

Teenage Pregnancy

David Taylor: To ask the Secretary of State for Children, Schools and Families what progress has been made in reducing pregnancy rates among under 18-year-olds since 2005; and if he will make a statement. [155396]

Beverley Hughes: The latest annual under-18 conception data, published in February 2007, relate to conceptions that occurred in 2005. This data showed that the under-18 conception rate had fallen by 11.8 per cent. since 1998 (the baseline year for the Teenage Pregnancy Strategy), to its lowest level for over 20 years. The under-16 conception rate has also fallen—by 12.1 per cent. between 1998 and 2005.

First quarter 2006 data show an encouraging continued downward trend in both the under-18 and under-16 conception rates. While trends in quarterly conception rates should be interpreted with caution, first quarter 2006 rates are the lowest first quarter rates since 1993, when the statistical series started.

We have issued guidance to local authorities and primary care trusts on what we consider to be the key ingredients of local strategies, based on evidence from those local areas which have had most success in reducing teenage conception rates. All areas have been asked to use this guidance to accelerate progress to the levels of the best—if all areas had performed as well as the top quartile, the national reduction would be 26 per cent., more than twice the reduction actually achieved.

Truancy

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) when and for what reasons the decision to end nationally co-ordinated truancy sweeps was taken; [155176]

(2) what measures his Department has in place to monitor the effectiveness of truancy sweeps; and what his most recent assessment is of the effectiveness of such sweeps. [155278]

Jim Knight *[holding answer 12 September 2007]:* The Department began co-ordinating voluntary twice-yearly national truancy sweeps in May 2002. Each sweep focused local authority activity within the three-week period on which our data collections were based.

We took the decision in January 2007 to end this national co-ordination and data collection. Many local authorities had by then established local sweeps which were better aligned to local police service schedules, operating more frequently and effectively than within a centrally prescribed three-week period.

Having given local authorities the flexibility to make more effective local arrangements, we do not attempt to closely monitor these but instead gather and share their effective practice with others. Since April 2007, police community service officers have the power to remove absentee pupils from a public place. Later this month, we will publish updated guidance on effective practice in planning and undertaking truancy sweeps to reflect these powers.

HEALTH

Ambulance Services: Death

Peter Bottomley: To ask the Secretary of State for Health if he will list the conditions for which extended travel times on blue light emergency ambulance journeys are *(a)* material and *(b)* immaterial to mortality. [155522]

Mr. Bradshaw: The way the national health service responds to emergencies needs to focus not just on getting the patient to a location but also on taking care of the patient. This is why it is necessary to focus on a range of measures, including response times by the ambulance service, its ability to administer a wide range of treatment and provision of urgent and social care in the community.

The aim should always be to provide high quality care for patients close to home where this is clinically safe. Some patients may require more specialised care at centres with clinicians who have the right expertise and equipment.

Local health services need to decide the shape of local urgent and emergency care services so that they are responsive to the needs of the local population.

Ambulance Services: Personnel

Mr. Hollobone: To ask the Secretary of State for Health what proportion of response staff in each ambulance NHS trust are *(a)* ambulance technicians, *(b)* paramedics and *(c)* emergency care practitioners. [155131]

Alan Johnson *[holding answer 12 September 2007]:* Data is available for ambulance staff breakdown, as at September 2006, through the Information Centre for health and social care 2006 Non-Medical Workforce Census. The following table sets out the proportion of ambulance technicians, paramedics and emergency care practitioners against the total number of employed staff for each ambulance trust. Response staff as a category is not collected and is therefore not available as part of the census return.

Ambulance trusts are currently producing individual five-year workforce outlook plans, providing more up-to-date information, which might show a different staffing position to the census.

Headcount percentages

	Total staff	*Of which:* *Ambulance technician*	*Ambulance paramedic*	*Emergency care practitioner*
Total Ambulance Trusts	100	21.4	25.4	1.3
East Midlands Ambulance Service NHS Trust	100	30.0	23.0	0.5
East of England Ambulance Service NHS Trust	100	19.1	21.6	3.5
Great Western Ambulance Service NHS Trust	100	24.6	28.0	1.4
London Ambulance Service	100	31.7	23.9	1.0
North East Ambulance Service NHS Trust	100	23.6	23.5	0.0
North West Ambulance Service NHS Trust	100	12.4	26.6	0.9
South Central Ambulance Service NHS Trust	100	19.5	21.6	1.2
South East Coast Ambulance Service NHS Trust	100	27.7	26.8	0.6
South Western Ambulance NHS Trust	100	4.1	37.5	1.0
Staffordshire Ambulance Service	100	31.2	39.1	0.0
West Midlands Ambulance Service NHS Trust	100	21.4	28.2	2.3
Yorkshire Ambulance Service NHS Trust	100	18.8	21.4	0.9

Note:
South Western Ambulance NHS Trust's Ambulance Technician figures are low in comparison to other Ambulance trusts. This is likely to be due to the re-coding of Ambulance staff in 2006. These figures have been clarified and signed off by the Trust.
Source:
The Information Centre for health and social care 2006 Non-Medical Workforce Census.

Dental Services

Andrew George: To ask the Secretary of State for Health what targets his Department set for access to NHS dentists under the new dental contract. [155557]

Ann Keen: The Department does not set targets for levels of access. Primary care trusts are responsible for assessing local needs and providing or commissioning dental services that reflect these needs.

Andrew George: To ask the Secretary of State for Health what proportion of *(a)* adults and *(b)* children in each primary care trust have access to NHS dentistry. [155558]

Ann Keen: Information is collected centrally and published regularly on the number of adults and children who receive care or treatment from an national health service dentist in a given area over a 24 month period and the percentage of the adult and child population this represents.

Information on the percentage of adults and children who received care or treatment, by primary care trust, in the 24-month period ending 31 March 2007 is contained in table C2 of annex 3 of the "NHS Dental Statistics for England 2006-07" report. This is the most recent period for which data are available.

This report is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dental0607

Dental Services: Cornwall

Andrew George: To ask the Secretary of State for Health how many and what proportion of dentist surgeries offered NHS services in Cornwall in each of the last 10 years. [155559]

Mr. Bradshaw: The number of national health service dental surgeries in the primary care trusts (PCTs) within Cornwall are provided in the following table up to 31 March 2007. Information on the number of private dental surgeries is not collected centrally and therefore the proportion of dental surgeries offering NHS services cannot be calculated.

Number of NHS dental surgeries in the primary care trusts within Cornwall as at the specified dates

	30 September									*31 March*	
	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
West of Cornwall	29	29	26	24	23	23	23	22	22	24	[1]—
North and East Cornwall	25	24	23	23	23	23	21	23	23	24	[1]—
Central Cornwall	34	35	35	40	38	38	40	39	39	42	[1]—
Cornwall and Isles of Scilly	[1]—	[1]—	[1]—	[1]—	[1]—	[1]—	[1]—	[1]—	[1]—	[1]—	85

[1] Not applicable. On 1 October 2006, West of Cornwall PCT, North and East Cornwall PCT and Central Cornwall PCT merged to become Cornwall and Isles of Scilly PCT.
Notes:
1. The areas have been defined using practice postcodes within the PCT area.
2. The figures provide a snapshot of the number of addresses with open contracts at the specified time.
3. No account is taken to the amount of service, if any, that each dentist provides.
Sources:
The Information Centre for health and social care.
NHS Business Services Authority.

Andrew George: To ask the Secretary of State for Health what proportion of *(a)* adults and *(b)* children were treated by NHS dentists in Cornwall, broken down by the smallest available areas for which data are available in each of the last five years. [155560]

Mr. Bradshaw: Information is not held centrally in the form requested. For the period up to 31 March 2006, information is available on the proportion of patients registered with a dental practice to receive national health service care and treatment.

The proportion of patients registered, by adult/child, as at 31 March 2001 to 31 March 2006 are available in Annex B of the "NHS Dental Activity and Workforce Report England: 31 March 2006". Information is available at strategic health authority (SHA) and primary care trust (PCT) level in England.

This report is available in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006.

Since April 2006, patients no longer have to register with a dental practice to receive NHS care and treatment. Instead, data are collected on the number of patients receiving NHS dental services (patients seen) in a given area over a 24-month period. This is not directly comparable to the registration data for earlier years when patients registered for a 15-month period.

The number of patients seen, by adult/child, in the previous 24 months as a percentage of the population, ending 31 March 2006 and 31 March 2007 are available in Table C1 of Annex 3 of the "NHS Dental Statistics for England 2006-07" report. Information is available at SHA and PCT level in England.

This report is available in the Library and is also available at:

http://www.ic.nhs.uk/pubs/dental0607.

In both reports, data at PCT level are the smallest regional area for which information is available.

Departments: Departmental Coordination

Mrs. May: To ask the Secretary of State for Health what *(a)* ministerial committees and *(b)* permanent groups involving senior civil servants have been set up by his Department to liaise with the Ministers for Women. [155245]

Mr. Bradshaw *[holding answer 12 September 2007]:* As with all cross cutting issues, Ministers and officials in this Department liaise with the Ministers for Women as necessary. There are no specific ministerial committees or permanent groups involving senior civil servants set up to do this.

Dietary Supplements: EC Law

Mr. Brady: To ask the Secretary of State for Health what guidance his Department has issued on the addition of fluorosilicates to the public water supply in relation to the requirements of the EU Food Supplements Directive. [155453]

Ann Keen: We are aware that the European Commission has published an orientation paper on setting maximum and minimum amounts of vitamins and minerals in foodstuffs. The proposals seem compatible with the target concentration of 1 mg per litre used in fluoridation schemes in the United Kingdom, but we will monitor the progress of this consultation to see if any guidance is necessary.

Family Planning

Richard Ottaway: To ask the Secretary of State for Health what percentage of general practitioners have received formal training in the provision of family planning services. [155508]

Mr. Bradshaw: This information is not collected centrally.

Fluoride: Drinking Water

Mr. Brady: To ask the Secretary of State for Health what guidance his Department has issued on the making of medical claims by NHS employees in relation to the fluoridation of the public water supply. [155454]

Ann Keen: The Department has not issued any specific guidance, but we would welcome discussion of any evidence-based claims about the effects of the fluoridation of water.

Health Services: Foreigners

Mr. Wallace: To ask the Secretary of State for Health what funds the UK has sought from *(a)* Poland, *(b)* Romania, *(c)* Hungary and *(d)* Brazil for treatment of their citizens by the NHS in each of the last three years. [155470]

Mr. Bradshaw: Romania, Hungary and Poland are new member states so discussions are taking place with them to establish the arrangements for settling claims for health care made under the European Union regulations.

There is no agreement with Brazil and any Brazilian nationals requiring national health service treatment would be required to pay.

Health Services: Overseas Residence

Mr. Wallace: To ask the Secretary of State for Health what discussions he has had with *(a)* French and *(b)* Spanish governments on health care costs of UK citizens resident in each such country. [155469]

Mr. Bradshaw: There are regular discussions with these governments on the operating of the European economic area (EEA) regulations under which the United Kingdom is responsible for the cost of health care for those UK citizens in EEA countries who are in receipt of UK pension and are not entitled to a pension from the country in which they are resident.

Home Care Services

Mr. Bone: To ask the Secretary of State for Health what guidance is given to primary care trusts on the funding of the care of patients that are incapacitated and would rather stay at home and be cared for at home, but would cost less if they were moved to a residential home. [155438]

Mr. Bradshaw: No specific guidance has been issued to primary care trusts (PCTs). The White Paper, "Our health, our care, our say", outlines the Government's expectation that, wherever possible, PCTs and local authorities provide appropriate health and care services in the community to support people to live independently in their own homes for as long as possible.

Infant Foods: Fluoride

Mr. Brady: To ask the Secretary of State for Health what guidance his Department has issued on the use of fluoridated water to make infant formula milk. [155452]

Ann Keen: We are evaluating advice issued by the American Dental Association that fluoridated water should not be used to make up powdered infant formula because of the risk of dental fluorosis. We need to judge whether the advice is relevant to the United Kingdom where there is a lower limit on the concentration of fluoride permitted in water than in the United States of America. The Department's advice to parents concerned about fluorosis is that breastfeeding is the best option. Where this is not possible, concerned parents could consider using ready-to-use infant formula which has a low fluoride content.

Infant Mortality: Incinerators

Norman Baker: To ask the Secretary of State for Health what assessment he has made of the correlation between the presence of a functioning incinerator and the incidence of infant mortality in that area. [155374]

Mr. Bradshaw: In November 2005 the Health Protection Agency issued advice on the public health impact of Municipal Solid Waste Incineration and this is available on their website at:

www.hpa.org.uk/chemicals/ippc/incineration_posn_statement.pdf.

This information has also been placed in the Library.

Emissions from modern waste incinerators in the United Kingdom are subject to stringent health controls.

NHS Accountancy

Mr. Hancock: To ask the Secretary of State for Health on which dates the annual accounts of the NHS were published in each of the last five years. [151515]

Mr. Bradshaw *[pursuant to the reply, 26 July 2007, c. 1443-44W]:* All national health service bodies are required to publish their accounts locally. The accounts must be presented at a public meeting held no later than 30 September following the end of the financial year (31 March).

The National Audit Office publish the NHS summarised accounts for strategic health authorities, primary care trusts and NHS trusts. The publication dates for the last five financial years were:

2001-02: 21 March 2003
2002-03: 28 April 2004
2003-04: 24 June 2005
2004-05: 7 June 2006
2005-06: 6 July 2007

NHS: Foreign Workers

Mr. Vara: To ask the Secretary of State for Health how many nurses from overseas countries have *(a)* entered the UK to work in the NHS and *(b)* subsequently returned to their own country in each of the last 10 years, broken down by country of origin. [155572]

Mr. Bradshaw: This information is not collected centrally.

The Nursing and Midwifery Council collects data on the number of overseas nurses who register with them each year. It does not collect data on whether these nurses entered the United Kingdom, returned to their own country or worked in the national health service.

The data are available at: www.nmc-uk.org.

NHS: Labour Party

Peter Bottomley: To ask the Secretary of State for Health on how many of the 10 strategic health authority visits by Lord Darzi's review group the NHS has agreed a filming opportunity for the Labour Party. [155524]

Mr. Bradshaw: None.

NHS: Public Participation

Mrs. Gillan: To ask the Secretary of State for Health whether the operation of citizens' juries on the NHS will *(a)* reflect and *(b)* affect the terms of the devolution settlement in Wales. [155192]

Alan Johnson *[holding answer 12 September 2007]:* Under the devolution settlement responsibility for health policy and healthcare delivery within Wales is devolved to the National Assembly for Wales (NAW). It is a matter for the NAW whether they wish to use citizens' juries to consider issues affecting the national health service in Wales.

Prescriptions: Fees and Charges

Mr. Marsden: To ask the Secretary of State for Health (1) what plans his Department has to consult with asthma sufferers as part of its review of prescription charges; [155473]

(2) what plans his Department has to review the cost of prescriptions for medication to treat asthma. [155474]

Mr. Bradshaw: I refer the hon. Member to the written ministerial statement given to the House on 23 July 2007, *Official Report*, column 44WS.

Pressure Sores

Mr. Burstow: To ask the Secretary of State for Health (1) what training healthcare staff receive on the prevention, detection and treatment of pressure sores; and what part of this training is a mandatory requirement; [155549]

(2) if he will make it his policy to introduce mandatory reporting of incidents of pressure ulcers; and if he will make a statement; [155551]

(3) what guidance and standards his Department has issued in respect of the prevention, management and treatment of pressure sores for all care settings; and how many care homes, nursing homes, hospitals and primary care trusts meet such guidance and standards. [155552]

Mr. Bradshaw: Education and training of healthcare staff, including the prevention, detection and treatment of pressure ulcers, is the responsibility of their employers. Tissue viability is a vital component of nursing care for patients, and one in which there is a strong body of evidence about effective treatment.

Nurses receive training in this during their preparation for registration, and as part of their continuing professional development. They have access to specialist tissue viability nurses who provide training as well as expert advice in the care of individual patients. To reinforce the necessity for continuing learning, regulatory bodies, such as the Nursing and Midwifery Council, require healthcare professionals to maintain competence in their field of practice as a condition of their continued registration.

There are no central plans to require healthcare staff to report incidents of pressure sores. However, National Institute for Health and Clinical Excellence (NICE) guidance on tissue viability requires that pressure ulceration over grade 2 be treated as a local clinical incident. Tissue viability is considered a nurse-sensitive indicator and is viewed by trusts as an important pointer to the quality of patient care.

"Essence of Care", published in 2003, sets benchmarks for pressure ulcers in health and social care settings, and helps healthcare professionals to devise appropriate care plans. NICE has published detailed clinical guidelines on pressure ulcer management in primary and secondary care. It is the responsibility of local health bodies to ensure that this guidance is implemented.

In respect of care homes, regulation 13(6) of the Care Home Regulations 2001, states:

> "The registered person shall make arrangements, by training staff or by other measures, to prevent service users being harmed or suffering abuse or being placed at risk of harm or abuse."

In addition, there are other general training requirements in regulation 18 to ensure staff receive training appropriate to the work they perform, including, where relevant, the prevention and treatment of pressure sores.

Under regulation 17 of the Care Homes Regulations 2001, care homes for adults are required to keep a record for each service user, which includes the incidence of pressure sores and of treatment provided to the service user.

The requirements in the regulations are further clarified in the National Minimum Standards. The relevant standards are standard 30 in the Care Homes for Older People standards and standard 35 in the Care Homes for Adults standards. As at 31 March 2005 over 71 per cent. of older people's care homes and care homes for adults met the relevant standards.

Mr. Burstow: To ask the Secretary of State for Health what research his Department funded into pressure sores in each of the last 10 years. [155550]

Mr. Bradshaw: The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service and through its health technology assessment programme has funded two projects on pressure sores at a total cost of £1.1 million. They are:

> a randomised controlled trial comparing alternating pressure overlays with alternating pressure mattresses for pressure sore prevention and treatment; and
>
> a systematic review of wound care management.

Over the last 10 years, the main part of the Department's total expenditure on health research has been devolved to and managed by NHS organisations. Details of individual NHS supported research projects including a number concerned with the causes and treatment of pressure sores are available on the national research register at:

> www.dh.gov.uk/research

Worthing Hospital

Peter Bottomley: To ask the Secretary of State for Health when a Minister from his Department last visited Worthing Hospital. [155525]

Mr. Bradshaw: We are not aware of a Health Minister having visited Worthing Hospital in the last 10 years.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated *(a)* number and *(b)* value is of new payment entitlements following the abolition of the fruit, vegetable and potato authorisation system in England under the rules of the single payment scheme. [155350]

Jonathan Shaw *[holding answer 12 September 2007]:* As I announced on 29 August 2007, the system of fruit, vegetable and potato authorisations under the single payment scheme (SPS) will be abolished from 2008. A consultation will follow shortly on implementation of the other SPS aspects of the reforms of the EU fruit and vegetable regime agreed earlier this year. This will include when orchard and nursery land will become eligible under the scheme and the criteria under which any new entitlements will be allocated in respect of such land.

Animals: Disease Control

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff there were in *(a)* complement and *(b)* post at the Health and Safety Executive allocated to the task of monitoring safe practices in accordance with statutory requirements at UK bio-containment facilities on 31 December in each of the last five years. [154853]

Mrs. McGuire *[holding answer 10 September 2007]:* I have been asked to reply.

In each of the last five financial years the number of specialist inspectors employed on this work in the Biological Agents Unit of the Health and Safety Executive (HSE) was as follows:

Specialist inspectors

	Number
2002-03	16
2003-04	16
2004-05	13
2005-06	13
2006-07	16

HSE considers the Unit fully staffed at 16 specialist inspectors. The shortfalls in 2004-05 and 2005-06 arose from staff turnover.

HSE's responsibilities do not extend to the bio-security of animal pathogen laboratories.

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs (1) on how many occasions in each month in the last five years *(a)* the high security unit, *(b)* incinerators and *(c)* effluent treatment plant at the Compton and Pirbright facilities of the Institute for Animal Health were closed down for safety reasons; and how long the closures were in each case; [154854]

(2) whether the *(a)* Pirbright and *(b)* Compton site of the Institute for Animal Health is in compliance with the statutory requirements for (i) legionella, (ii) asbestos, (iii) five year fixed wiring tests and (iv) fire survey statutory regulations; [154859]

(3) on how many occasions in each month in the last five years there were recorded instances of the negative building operating pressure in *(a)* bio-containment facilities at Compton and Pirbright and *(b)* the High Security Unit at Compton (i) being accidentally reversed, (ii) falling below normal levels and (iii) experiencing noticeable periods of loss of negative pressure. [154871]

Ian Pearson *[holding answer 10 September]:* I have been asked to reply.

These are matters for the Institute of Animal Health which is an independent company limited by guarantee with charitable status. I have drawn the attention of the Chairman of the Governing Board to the hon. Member's questions.

Bees: Diseases

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of bee colonies in the UK affected by colony collapse disorder. [155352]

Jonathan Shaw *[holding answer 12 September 2007]:* Colony collapse disorder (CCD) is a generic name given to a number of major colony losses reported by no more than around 60 commercial bee farmers spread across 25 states in the USA. Currently, the UK is not suffering from similar bee health-related problems on the same scale. Nevertheless, the National Bee Unit (NBU) at DEFRA's Central Science Laboratory is maintaining close contact with researchers from the USA who are investigating possible causes.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many people have been appointed to his Department outside of Civil Service grades in the last 30 days. [153098]

Jonathan Shaw: The only appointments made outside civil service grades are board appointments. My Department publishes information annually on appointments to the public bodies for which it is responsible. Data for 2006-07 are in the process of being collated, and will be published shortly.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on redundancy payments in the last 12 months. [153088]

Jonathan Shaw: In the 12 months from July 2006 to June 2007 there were 318 redundancies from my Department and its Executive Agencies.

During that period, £11.3 million was spent on payments relating to these redundancies. A further £15.6 million was set aside for related payments which would fall due after that period in cases where the redundancies were in the form of early retirement, or where single payments were due to staff whose last day of service fell on or after 30 June 2007.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on *(a)* staff training and *(b)* communication training in the last 12 months. [153090]

Jonathan Shaw: The staff training expenditure for the Department for Environment, Food and Rural Affairs for 2006-07 was £3.9 million. To identify the expenditure on communications training would incur disproportionate costs as this information is not held centrally.

Dogs: Licensing

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has made a recent assessment of the merits of the reintroduction of dog licensing. [155345]

Jonathan Shaw *[holding answer 12 September 2007]:* We currently have no plans to reintroduce a dog licence. The Government support the approach taken

by responsible dog owners who voluntarily have their pets permanently identified and registered on nationwide databases. The effectiveness of a dog licensing system is questionable; in the last year licences were administered (1988) only 44 per cent. of dog owners applied for a licence. There is no evidence to suggest that the opinion of dog owners has changed and that any new scheme introduced would be adopted by the majority of dog owners.

Energy: Conservation

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how much central government funding has been spent on energy efficiency measures in *(a)* council, *(b)* housing association and *(c)* private homes in York in each year since 1997. [155492]

Mr. Woolas: The Information requested, where available, is given in the following table:

Local Authority Housing Investment

	Investment (£ million)
1997-98	1,534,000
1998-99	1,625,000
1999-2000	1,267,000
2000-01	1,349,000
2001-02	1,944,000
2002-03	1,529,000
2003-04	2,227,000
2004-05	1,767,000
2005-06	2,096,000
2006-07	[1]

[1] Data not yet available.

Information is not currently available for housing association homes.

These figures cover double-glazing, cavity wall insulation, loft insulation and heating improvements. This work has been completed by the local authority as part of an overall modernisation programme for housing under the Communities and Local Government's Decent Homes scheme.

Defra's main programme for improving the energy efficiency of vulnerable households is the Warm Front scheme, which provides grants for heating and insulation measures. Warm Front spending on measures in York is set out in the following table:

Private Households

	Investment (£000)
1997-98	94,000
1998-99	202,000
1999-2000	82,000
2000-01	46,677
2001-02	176,359
2002-03	111,675
2003-04	98,963
2004-05	319,461
2005-06	319,461
2006-07	536,997
Year to date	214,107

Environment Agency: Official Hospitality

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Environment Agency spent on *(a)* hotel bills, *(b)* trips to the Belfry Golf Course, *(c)* trips to Henley Regatta, *(d)* other hospitality and *(e)* other corporate costs in each year since 1997. [149295]

Mr. Woolas *[holding answer 12 July 2007]:* This is a matter for the Environment Agency and I have asked them to write to you direct with the information you requested.

Flood Control: Northamptonshire

Mr. Bone: To ask the Secretary of State for Environment, Food and Rural Affairs what plans there are to improve flood defences in North Northamptonshire. [155484]

Mr. Woolas: In 2007-08 the Environment Agency plans to spend £0.6 million on routine maintenance in the Corby, Wellingborough and Kettering areas. Over the period from 2008-09 to 2010-11 it is planned to commit a further £1.8 million in this area to maintain watercourses and assets.

The Environment Agency also has a programme of capital improvements to flood defences. In 2007-08 £0.14 million will be spent on improving flood storage facilities downstream of Northampton and at Weldon. Over the next 10 years from 2008-09 a further £4.8 million is included in the Agency's capital programme to deliver flood defence improvements identified in the Nene Catchment Flood Management Plan, the Nene Strategy (Kettering and Wellingborough) and the Nene Flood Defence Structures refurbishment programme.

In North Northamptonshire further strategic flood risk measures will be necessary to mitigate proposed future development and housing growth. The Environment Agency, working in partnership with North Northamptonshire Planning Unit, will seek to secure up to £50 million from developer and local authority contributions to fund and build the new flood defences required to provide sustainable flood risk management infrastructure ahead of development.

Floods

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the economic impact of the summer 2007 floods on the *(a)* agriculture industry, *(b)* horticulture industry, *(c)* local government and *(d)* tourism industry. [155565]

Mr. Dhanda: I have been asked to reply.

We do not hold centrally the information requested on the economic impact of the summer 2007 floods and a full answer could be provided only at disproportionate cost.

Our application for the European Union Solidarity Fund European was submitted on 20 August. A provisional assessment of damage caused by the June and July floods lies at above €4 billion. While this is

currently the best working estimate based on work with local authorities and other agencies, the final and confirmed costs will not be known for some time.

Data on the economic impact on the agriculture and horticulture industries of the summer 2007 floods are not yet available. I understand that the Department for Environment, Food and Rural Affairs (DEFRA) have commissioned work to estimate the value of immediate crop and livestock losses from flooding, and will publish this when it is complete later in the year.

Following the floods 50 local authorities have registered for assistance from the Bellwin Scheme for June and 52 have registered for July. 20 local authorities have registered for both schemes. Once we have assessed the claims from these local authorities we will have information on the uninsurable costs they have incurred as a result of the floods. For the last nationwide flooding scheme in 2000, we paid out £21 million to 76 local authorities. We do not know yet what the level of costs will be this time.

A full estimate of the costs to the tourism industry of the floods has not been completed. It is of the nature of tourism that the impact on future holiday bookings will take time to emerge. However, the British Holiday and Home Parks Association estimates losses of around £25 million. Worcestershire estimates losses of between £100 to £150 million and Advantage West Midlands have reported losses of £20 million. Data on Hull and East Yorkshire suggest tourism costs of £4.75 million. A full assessment of the total impact on the tourism industry will not be available for some time.

Floods: Insurance

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the amount of uninsured losses arising from the summer 2007 floods. [155563]

Mr. Dhanda: I have been asked to reply.

The information requested on the amount of uninsured losses arising from the summer 2007 floods is not held centrally and could be provided only at disproportionate cost.

Floods: Worcestershire

Peter Luff: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions on *(a)* the insurability of properties in Worcestershire and *(b)* the availability of loss adjusters the Government are having with insurance companies following the July floods. [155055]

Mr. Woolas *[holding answer 10 September 2007]:* Myself and ministerial colleagues from other departments met with the Association of British Insurers (ABI) on 10 July and there has been a continuing dialogue with both the ABI and individual insurers. The ABI has confirmed that its members are continuing to adhere to the statement of principles and this should ensure continued widespread availability of domestic flood insurance cover.

Officials have met regularly with the ABI and representatives from other Government departments, forming a flood recovery and insurance working group to exchange information and help to identify and resolve potential bottlenecks in the recovery process. The ABI is working with its members to manage the extra claims which have arisen to ensure they are processed as quickly as possible and additional loss adjusters have been brought in from other countries.

Fly Tipping

Mr. Vara: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 24 July 2007, *Official Report*, column 946W, on fly-tipping, how many incidents of fly-tipping were recorded in 2006-07, broken down by local authority; what the estimated cost was of dealing with incidents of fly-tipping in that year in each local authority area; and how many *(a)* prosecutions and *(b)* convictions there were for fly-tipping in each local authority area in the UK in 2006-07. [155579]

Joan Ruddock: Fly-tipping data for 2006-07 are currently being prepared and are not yet available. I will arrange for copies to be placed in the Library of the House when they have been finalised.

Foot and Mouth Disease

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs which recommendations of the Spratt Review into the outbreak of foot and mouth disease the Government do not intend to take forward in full. [155576]

Jonathan Shaw: DEFRA agrees with all recommendations of the "Independent Review of the safety of UK facilities handling foot and mouth disease virus" by Professor Brian Spratt.

In regard to Recommendation 1, we agree in principle but there is uncertainty as to whether any further work could conclusively identify the source of the virus. At present, we do not believe that it would add to our understanding of the risk mitigation measures that need to be put in place as a result of the Pirbright escape but we will keep that assessment under review.

Professor Spratt's report and the Government response are available on the DEFRA website and in the Libraries of the House.

Mr. Cox: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the cost to the Government of the measures put in place during the most recent outbreak of foot and mouth disease. [155035]

Jonathan Shaw *[holding answer 10 September 2007]:* To date, the total cost to the Department of dealing with the recent outbreak of foot and mouth disease is approximately £8.7 million. This figure is subject to amendment as more data become available.

Mr. Cox: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the total financial cost to the cattle industry of the latest outbreak of foot and mouth disease. [155038]

Jonathan Shaw *[holding answer 10 September 2007]*: My Department has made an initial estimate of the total costs of the outbreak to the UK of £20 million, based on an economic model that has been developed for foot and mouth disease. The full impact will depend on domestic and international restrictions that remain in place and the estimate may be revised as further data become available. Disaggregated estimates of the cost for the cattle industry would be subject to very considerable margins for error.

Government Laboratories: Security

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what biosecurity breaches have occurred over the last five years at Government-funded laboratories conducting research into infectious animal diseases; and what penalties have been imposed on those responsible. [155361]

Jonathan Shaw *[holding answer 12 September 2007]*: Licences issued by DEFRA to laboratories which handle specified animal pathogens under the Specified Animal Pathogens Order (SAPO) 1998 impose strict requirements in relation to biosecurity. Under the Animal Health Act 1981, it is an offence to breach a term of a licence.

No such offences have been confirmed, and so no penalties have been imposed, at a Government-funded laboratory conducting research into infectious animal diseases, whether funded by DEFRA or another Department, in the last five years. Regular inspection and ongoing liaison with SAPO-licensed laboratories seeks to ensure that potential deficiencies in biosecurity are identified quickly and remedial action is taken.

The Health and Safety Executive has published a report on potential breaches of biosecurity at Pirbright following the recent outbreak of foot and mouth disease in Surrey. This report is available from the DEFRA website and the Libraries of the House. SAPO legislation is enforced by local authorities. Surrey county council are now urgently considering the contents of the reports and will determine what action, if any, is necessary.

Lorries: Exhaust Emissions

Mr. Arbuthnot: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 25 June 2007, *Official Report*, column 85W, on lorries: exhaust emissions, what plans he has to *(a)* to undertake and *(b)* to commission further research into the effects of HGV emissions on (i) special protection areas, (ii) sites of special scientific interest and (iii) sites of importance for nature conservation. [150871]

Joan Ruddock: There are no plans, at present, for my Department to undertake or commission further research into the effects of HGV emissions on any of the areas mentioned in (i) – (iii).

However, Defra has committed, through the Air Quality Strategy review launched in July, to carrying out further analysis over the next year and considering how best to ensure the protection of ecosystems against air pollution in the medium to the long term. Decisions on the funding of future research will be taken once this work is complete.

Milk Marketing Board: Gloucestershire

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs when the Milk Marketing Board TB testing station in Longford, Gloucestershire was closed; what the reasons were for its closure; and where its records have been kept since its closure. [154870]

Jonathan Shaw: *[holding answer 10 September 2007]*: The Milk Marketing Boards (MMB) were abolished in 1994. While Defra took on some responsibilities for the Residuary Milk Marketing Boards, the records we retain do not relate to testing regimes.

Milk: Overseas Trade

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons were for his Department commissioning Agra Leas Consulting to produce a report into the potential for future GB-European trade in liquid milk. [155360]

Jonathan Shaw *[holding answer 12 September 2007]*: DEFRA commissioned this work to clarify the various economic, logistical and technological barriers and risks apparently resulting in limited trade in liquid milk between GB and the rest of Europe (including Ireland). The report was also commissioned to provide an evidence base for the industry to use to identify further threats and opportunities with regard to global trade.

National Bee Unit: Finance

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding the National Bee Unit received in each of the last five years; and how much it will receive in the next financial year. [155354]

Jonathan Shaw *[holding answer 12 September 2007]*: Expenditure on the National Bee Unit (NBU) by DEFRA and the Welsh Assembly Government are as follows:

Financial year	*Expenditure (£)*
2003-04	1,518,000
2004-05	1,518,000
2005-06	1,518,000
2006-07	1,518,000
2007-08	1,518,000

These figures do not include any expenditure on specific research projects, although some of the NBU's activity is in support of research initiatives. DEFRA's annual expenditure on bee health research has averaged around £210,000 since 2001.

There is an ongoing review of expenditure on all DEFRA programmes, including bee health. Future funding will need to be considered alongside the full range of priorities facing the Department but we will not take decisions that could compromise biosecurity and the sustainability of bee health in England.

National Bee Unit: Inspections

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs for how many beekeepers each National Bee Unit inspector is responsible in the six months of the year when inspections are undertaken. [155353]

Jonathan Shaw *[holding answer 12 September 2007]:* The number of beekeepers for which bee inspectors have responsibility varies according to the inspector's allocated area and whether they are employed on a part-time or full-time basis. In 2006, 5092 apiary visits were carried out. Many inspectors conducted around 100 to 150 visits, and some 200 to 250 visits, per season. In addition, regional bee inspectors are available all year and can carry out inspections outside the traditional season. Inspections are targeted in areas where disease risk and colony density are highest and about 10 per cent. of the total number of apiaries is inspected each year.

Pirbright Laboratory: Standards

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs when the last inspection of biosecurity standards at the Pirbright Laboratory in Surrey took place before August 2007; and what the outcome was of that inspection. [155351]

Jonathan Shaw *[holding answer 12 September 2007]:* DEFRA inspects laboratories which are licensed to handle specified animal pathogens under the Specified Animal Pathogens Order (SAPO) 1998. The laboratory at the Institute for Animal Health (IAH) in Pirbright was last inspected under SAPO in December 2006. Some issues relating to biosecurity were identified. IAH was required to submit action plans for addressing them and the progress of these plans was closely monitored.

Marine Bill

Mr. Fallon: To ask the Secretary of State for Environment, Food and Rural Affairs by what date he expects to bring forward a Marine Bill. [155313]

Jonathan Shaw *[holding answer 12 September 2007]:* I refer the hon. Member to the reply given by my right hon. Friend, the Secretary of State on 19 July 2007, *Official Report*, column 505W.

Warm Front Scheme: Finance

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the merits of the recommendation in the Fuel Poverty Advisory Group for England's fifth annual report that funding for the Warm Front scheme be maintained at the 2007-08 level of £351 million per annum until 2011; and if he will make a statement. [155222]

Mr. Woolas *[holding answer 12 September 2007]:* The Government's response to the recommendations made by the Fuel Poverty Advisory Group in its annual report, which was published in April 2007, will be available in the fifth annual progress report.

CULTURE, MEDIA AND SPORT

Arts: Minorities

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport what proportion of people from *(a)* black and minority ethnic, *(b)* disabled and *(c)* socially excluded groups were considered to be (i) attending and (ii) participating in arts opportunities when (A) baseline figures were set and (B) the latest departmental estimate was made; what assessment he has made of progress made towards his Department's public service agreement target to increase significantly the take-up of arts opportunities by new users from priority groups; and if he will make a statement. [155086]

Margaret Hodge *[holding answer 10 September 2007]:* The baseline estimates set in December 2006 were as follows:

(i) Attendance at two different types of arts events by priority groups during the past 12 months:

(a) 23.5 per cent. of people from black and minority ethnic groups,

(b) 24.1 per cent. of people with a limiting disability,

(c) 17.4 per cent. of people from socially excluded groups.

(ii) Participation in two different types of arts activities by priority groups during the past 12 months:

(a) 20.8 per cent. of people from black and minority ethnic groups,

(b) 18.9 per cent. of people with a limiting disability,

(c) 15.3 per cent. of people from socially excluded groups.

A progress report, published in June 2007, showed no statistically significant change to these figures. However, this is only the first progress report on the target and this Department is intensifying its work with Arts Council England to broaden access and increase engagement with the arts among under-represented groups. Progress on the target will be monitored on a regular basis until the final assessment is available in late 2008.

Artworks: Prime Minister

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport what the *(a)* title and *(b)* artist is of each piece of artwork that has been (i) added and (ii) removed from Number 10 Downing street and the Prime Minister's offices since 27 June 2007. [153347]

Margaret Hodge: Other than some works of art that were temporarily removed from 10 Downing street during building works and subsequently returned, the only work removed from 10 Downing street since 27 June 2007 has been a painting (Paris-Plage, Picardy by William Frederick Mayor) removed by the Government Art Collection for display in another Government building. No works of art have been installed at 10 Downing street since this date.

Hotels: Insolvency

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate his Department has made of the number of *(a)* hotels and

(b) bed and breakfasts that have declared themselves insolvent since 1997, broken down by region; and if he will make a statement. [148543]

Margaret Hodge: The Insolvency Service maintains records of bankruptcies and liquidations for residential accommodation businesses. These figures include care homes, as well as hotels, bed and breakfasts and other holiday accommodation providers.

	Bankruptcies	*Compulsory liquidations*	*Voluntary liquidations*	*Annual total*
1997	154	24	0	178
1998	125	31	0	156
1999	100	39	0	139
2000	100	42	0	142
2001	76	23	0	96
2002	67	31	39	137
2003	72	25	27	124
2004	42	14	34	90
2005	42	22	37	101
2006 (first three quarters)	33	15	30	78

These are national figures, and regional analyses are not maintained. HM Revenue and Customs' trade intelligence shows that 750 new hotel and bed and breakfast businesses have started trading in the same period since 1997.

Monuments: Legislation

Bob Russell: To ask the Secretary of State for Culture, Media and Sport if he will bring forward legislation to amend the Ancient Monuments and Archaeological Areas Act 1979 to require public consultation when there is an application for Scheduled Monument Consent. [154837]

Margaret Hodge *[holding answer 10 September 2007]:* Under the 1979 Act, the Secretary of State is required, before determining whether or not to grant Scheduled Monument Consent, to afford to the applicant, and any other person to whom it appears to the Secretary of State to be expedient to afford it, an opportunity of making representations. The Secretary of State is obliged to consider any representations made to him by any person on that application and also to consult English Heritage.

As set out in the White Paper, Heritage Protection for the 21st Century (March 2007), the Government plan to merge Scheduled Monument Consent and Listed Building Consent, to create a new historic asset consent, administered, in the first instance, by the Local Planning Authority. In respect of assets which were previously scheduled monuments the Local Planning Authority would be required to consult English Heritage and the national amenity societies on any application, and to take into consideration any representations received from these and any other parties, before determining a consent application.

Primary legislation will be required to implement the proposals set out in the White Paper, and we plan to publish a draft Heritage Protection Bill in the next session.

Olympic Games: Tourism

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport how much funding has been allocated to a tourism strategy for the 2012 Olympics. [155439]

Margaret Hodge: The Government recognise the importance of tourism to the success of the 2012 games, and to their economic legacy. VisitBritain's activities in marketing and working in partnership with the industry will form a major part of the forthcoming tourism strategy for the games, and appropriate levels of funding for this work will be allocated in the context of the current Comprehensive Spending Review.

Tourism: Foot and Mouth Disease

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what assessment has been made by the Government of the impact on tourism caused by the recent outbreaks of foot and mouth disease; and if he will make a statement. [155052]

Margaret Hodge *[holding answer 10 September 2007]:* The Government worked closely with the Tourism Industry Emergency Response Group (Chaired by Visit Britain) in monitoring the impact on tourism and in ensuring that both visitors and those providing visitor attractions had accurate information about access to the countryside, thus minimising any adverse impact.

Monitoring by Tourism South East suggests that 88 per cent. of tourism businesses in and around the Surveillance Zones enjoyed business as usual, with only a minority of accommodation providers reporting cancellations or falls in advance bookings. Animal based attractions and events such as agricultural shows and farmers' markets were mainly affected by putting precautions in place, and animal based events elsewhere in the country were affected by the ban on certain animal movements.

It is not possible to quantify the impact further as the outbreak coincided with wet weather and severe flooding, which were considered to have a greater impact on tourism. In recognition of the cumulative impact of these events on rural areas, on 14 August the Government announced a £1 million campaign to support the domestic tourism industry, particularly in the countryside and those regions affected by flooding.

DUCHY OF LANCASTER

Charities: Political Activities

Greg Clark: To ask the Chancellor of the Duchy of Lancaster whether his Department's Ministers have met Baroness Kennedy of The Shaws to discuss the rules relating to political campaigning by charities. [154912]

Phil Hope *[holding answer 10 September 2007]:* Cabinet Office Ministers have not met Baroness Kennedy of The Shaws to discuss the rules relating to political campaigning by charities.

Ministers

Mr. Heath: To ask the Chancellor of the Duchy of Lancaster how many Government *(a)* Departments and *(b)* Ministers there were in each of the last 10 years. [155495]

Edward Miliband: The Cabinet Office publishes a "List of Ministerial Responsibilities" after significant changes to the Government and Ministers' responsibilities. Smaller changes are published as necessary, by way of amendments to the list. Copies of previous editions of the "List of Ministerial Responsibilities" are available for reference in the Libraries of the House.

Olympic Games: Greater London

Mr. Whittingdale: To ask the Minister for the Olympics what assessment she has made of the likelihood that the proposed venue for Olympic shooting events at the Royal Artillery Barracks will meet the necessary safety requirement for clay-pigeon shooting; and if she will make a statement. [154846]

Tessa Jowell *[holding answer 10 September 2007]:* The London Organising Committee for the Olympic Games is continuing its work to assess further the precise design requirements for the temporary shooting venue at the Royal Artillery Barracks. This includes a full examination of the necessary safety requirements and all the facilities will meet both local and international safety standards. This work is still in progress.

Lembit Öpik: To ask the Minister for the Olympics what steps she has taken to ensure that small businesses benefit from the 2012 Olympics; and what estimate has been made of the number of small businesses who will benefit from these games. [155200]

Tessa Jowell *[holding answer 12 September 2007]:* Olympic Delivery Authority (ODA) will buy and manage up to 2,000 direct contracts with businesses who will in turn manage up to 50,000 agreements across their own supply chains. The ODA estimates that approximately half of the contracts that have been awarded to date have gone to SMEs and intends to issue details of the exact number and an analysis of contracts issued in the near future. Contracts will be awarded to those judged to be the best suppliers and service providers. The Department for Business, Enterprise and Regulatory Reform is mobilising its full range of business support tools, such as its Business Link services, available in all English regions. Similar support services are available in the devolved Administrations. This helps those companies who wish to get fit to supply, not just games-related contracts but also the £125 billion per annum public procurement opportunities.

All businesses can register their interest in these contracts on the business section of the ODA's website www.london2012.com/business which details all contract opportunities and includes advance notice of future opportunities. The ODA published in June 2007 its Supplier Guide for businesses interested in pursuing Olympic-related contracts, also available online.

Lembit Öpik: To ask the Minister for the Olympics what assistance is being provided to employers in London in relation to training local people, in respect of the skills and services that will be required in preparing for and staging the 2012 Olympics. [155201]

Tessa Jowell *[holding answer 12 September 2007]:* The London Employers Accord pilots will link the skills needs of employers with training providers to provide job ready employees. It offers a flexible and employer-led recruitment channel in return for employers' commitment to those furthest away from the labour market. The pilots involve approximately 20 companies across nine sectors, including construction and hospitality. As the Prime Minister stated at the TUC conference on Monday 10 September we anticipate that this will help around 5,000 Londoners into work by 2012.

In addition, the Train to Gain service run by the Learning and Skills Council is designed to help SMEs get the training they need to succeed. It gives every employer access to a free skills brokerage service offering independent and impartial advice and matching training needs with training providers.

A significant amount of activity is also under way, through the Local Employment and Skills Taskforce Action Plan, to help train local people for 2012 across many sectors including construction and hospitality.

Hugh Robertson: To ask the Minister for the Olympics how many public affairs consultancies have been shortlisted for the position of London 2012 Public Affairs Advisor; and whether any of those agencies have declared *(a)* a party political donation to the Labour Party in the last three years and *(b)* attendance at the Labour Party fundraiser at Wembley in July as part of the tendering process. [155309]

Tessa Jowell *[holding answer 12 September 2007]:* The London Organising Committee for the Olympic Games and Paralympic Games (LOCOG) is currently undertaking a procurement process for public affairs services and support. LOCOG is a privately financed company.

In line with the commitment they have made to extending the opportunities created by the games as widely as possible, LOCOG openly invited all relevant companies to tender through its website. LOCOG is committed to conducting a fair procurement process.

From a list of 28 companies that expressed an interest and submitted a pre-qualification questionnaire, nine have been invited to tender. It would be inappropriate for LOCOG to disclose the names of parties on that list while the procurement process is ongoing. In relation to parts *(a)* and *(b)*; these specific questions have not been asked as part of the tender, and therefore will form no part of the evaluation. However all applicants must declare any conflicts of interest, and outline the code of ethics to which they subscribe.

V Charity: Finance

Greg Clark: To ask the Chancellor of the Duchy of Lancaster following the Final Report of the Third Sector Review, how much in public funds was allocated to 'v' *(a)* in each financial year since it was established and *(b)* in each year covered by the comprehensive spending review 2007. [154914]

Phil Hope *[holding answer 10 September 2007]*: The youth volunteering organisation, v, was launched in May 2006, following the recommendations of the Russell Commission report on youth action and engagement, published in March 2005.

In the financial year 2006-07, £25,643,000 was allocated to v. This includes £7.5 million provided on a match funded basis with the private sector.

In the financial year 2007-08, just over £39 million is allocated to v. This includes funding for the Millennium Volunteers programme. In addition to this, there is funding available to v to be provided on a match funded basis with the private sector.

The initial funding, allocated to the implementation of the recommendations of the Russell Commission report on youth action and engagement, announced in Budget 2005 was for the 2004 spending review period.

As set out in the final report of the review of the third sector in social and economic regeneration, published in July 2007, the Government will invest around £117 million in v over the 2007 comprehensive spending review (CSR) years, which includes funding for the successor to the Millennium Volunteers programme. This £117 million is currently expected to be allocated on the basis of £39 million in each of the CSR years.

The Government will in addition maintain the arrangement where they match contributions from the private sector over the 2007 CSR years.

Voluntary Organisations: Finance

Greg Clark: To ask the Chancellor of the Duchy of Lancaster which organisations have been allocated funds from the Office of the Third Sector Strategic Partners Programme in 2007-08; and how much each organisation has been allocated. [154913]

Phil Hope *[holding answer 10 September 2007]*: The Strategic Partners Programme began in April 2006 and the names of all partners were publicised at the time of their awards and are available on the Cabinet Office website. Strategic funding is highly valued by the sector. It represents long-term cooperation between Government and the sector.

In 2007-08 the following organisations have been allocated funds by Office of the Third Sector under the Strategic Partners Programme (2007-08). They are:

	£
Association of Chief Executives of Voluntary Organisations (ACEVO)	205,000
BASSAC	151,225
Charities Evaluation Service	151,036
Charity Trustee Networks	92,250
Community Action Network (CAN)	120,694
Community Development Exchange (CDX)	246,441
Community Matters	255,223
Consortium of Lesbian, Gay, Bisexual and Transgender VCOs	92,250
Council of Ethnic Minority Voluntary Organisations (CEMVO)	256,250
Development Trusts Association (DTA)	142,072
Foyer Federation	115,313
National Association for Voluntary and Community Action (NAVCA)	414,394
Scarman Trust	153,750
National Councils for Voluntary Youth Services (NCVYS)	236,237
Action with Communities in Rural England (ACRE)	205,000
Urban Forum	93,788
Voice 4 Change England	256,250
Third Sector European Network	82,256
Church Urban Fund	88,329
Faith Action	256,250
Women's Resource Centre	192,188
National Council for Voluntary Organisations (NCVO)	1,014,887
Community Service Volunteers (CSV)	1,025,000
BTCV	307,500
Mentoring and Befriending Foundation (MBF)	1,025,000
TimeBank	512,500
Volunteering England	1,537,500
Association of Charitable Foundations	123,000
Beacon Fellowship Trust	92,300
Institute of Fundraising	256,300
Citizenship Foundation	205,000
Community Foundation Network	205,000
British Youth Council	92,300
National Youth Agency	307,500
Youth Action Network	153,800
YouthNet	461,300
V	2,050,000
Plunkett Foundation	62,000
Social Enterprise Coalition	557,000
Social Enterprise London	92,000
School for Social Entrepreneurs	76,000
Social Firms UK	101,000
Co-operatives UK	107,000
Prowess	30,000
Women's Royal Voluntary Service	1,000,000

Greg Clark: To ask the Chancellor of the Duchy of Lancaster what the level of Government funding was for the main voluntary sector umbrella groups in each financial year since 1996-97. [154916]

Phil Hope *[holding answer 10 September 2007]*: The amount of funding provided by the Office of the Third Sector (and formerly the Active Communities Directorate pre 2006-07) is as follows:

	£
1998-99	3,055,412
1999-2000	3,816,680
00-01	3,917,562
01-02	3,496,180
02-03	2,038,373
03-04	5,554,838
04-05	6,896,491
05-06	10,603,062
06-07	10,073,002
07-08	7,895,905
Total	57,347,505

These figures include funding to umbrella organisations defined as national voluntary and community sector organisations (VCS) who provide support to their members (other VCS organisations).

The above includes strategic funding to VCS umbrella groups and different project grants for specific purposes. For example, significant grants to umbrella organisations:

in 2005-06 for start of infrastructure development before the creation of CapacityBuilders NDPB to co-ordinate capacity building funding;

a one-off grant in 2006-07 to the Scout Association to fund the celebration of the association's centenary.

TREASURY

Armed Forces: Compensation

Bob Russell: To ask the Chancellor of the Exchequer if he will introduce a windfall tax on the armaments industry to fund *(a)* enhanced compensation payments for members of the armed forces injured in Afghanistan and Iraq and *(b)* charities engaged in assisting serving and former members of the armed forces and their families. [155482]

Andy Burnham: We have no plans to introduce such a tax.

Bank Notes: Scotland

Jo Swinson: To ask the Chancellor of the Exchequer (1) how many complaints he has received on non-acceptance of Scottish bank notes in other home nations of the UK in each of the last five years; [155421]

(2) what estimate he has made of the total value of transactions using Scottish bank notes in the UK, excluding Scotland, in each of the last five years; [155422]

(3) what recent estimate he has made of the total value of Scottish bank notes in circulation in the UK, excluding Scotland; [155423]

(4) what steps he is taking to promote the acceptance of Scottish bank notes by retailers in home nations of the UK other than Scotland; and what legislation governs the issue and usage of Scottish bank notes across the UK. [155424]

Angela Eagle: Between 2002 and 2007 the Treasury has received a total of 63 complaints regarding the non-acceptance of Scottish bank notes in England and Wales.

No estimate has been made by the Treasury of the value of Scottish banknotes used in UK transactions.

No estimate has been made of the value of Scottish banknotes in the UK excluding Scotland.

Responsibility for promoting recognition and encouraging the acceptance of Scottish and Northern Ireland banknotes lies with the issuing banks.

The acceptability of any banknotes will be influenced by the parties' familiarity with the banknotes and consequent ability to authenticate them as genuine as well as their ability to obtain value for the banknote.

The four banknote denominations issued by the Bank of England account for around 90 per cent. of banknotes issued in the United Kingdom. In contrast, the three commercial note issuing banks in Scotland and four in Northern Ireland collectively issue 39 banknotes designs. Consequently, some Scottish and Northern Ireland banknotes may not be as readily recognised and accepted in England and Wales as Bank of England banknotes.

Powers for the Scottish issuing banks to issue notes are set out in the Bank Notes (Scotland) Act 1845.

Child Benefit: EC Nationals

Mr. Hollobone: To ask the Chancellor of the Exchequer what the most recent estimate is of the annual cost of paying child benefit to EU nationals who are resident in the UK though their children are not. [155543]

Jane Kennedy: I refer the hon. Member to the answer given on 18 May 2007, *Official Report*, column 951W, to the hon. Member for Cannock Chase (Dr. Wright).

Child Benefit: Yorkshire and Humberside

Hugh Bayley: To ask the Chancellor of the Exchequer in respect of how many children in *(a)* Yorkshire and Humber and *(b)* City of York child benefit was received (i) in 1997 and (ii) at the latest date for which figures are available; and what the weekly value of child benefit was in (A) 1997 and (B) the latest date for which figures are available. [152206]

Jane Kennedy: August 1999 is the earliest date for which child benefit data are available below national level.

The following table shows the number of children for whom child benefit was claimed in *(a)* Yorkshire and the Humber and *(b)* City of York in August 1999 and August 2006.

Number of children for whom child benefit was claimed: August 1999 and August 2006

Thousands

	Yorkshire and the Humber	*City of York*
August 1999	1,129.7	36.0
August 2006	1,113.1	34.8

The weekly value of child benefit in 1996-97 was £10.80 for the first child and £8.80 for each subsequent child. In 2006-07 these rates were £17.45 and £11.70 respectively.

Hugh Bayley: To ask the Chancellor of the Exchequer how many children in *(a)* Yorkshire and Humber and *(b)* the City of York received child benefit (i) in 1997 and (ii) at the latest date for which figures are available; what the weekly value is of child benefit; and what it was in 1997. [155430]

Jane Kennedy: I refer the hon. Gentleman to the answer I gave him on 13 September (UIN 152206).

Civil Servants: York

Hugh Bayley: To ask the Chancellor of the Exchequer how many full-time equivalent civil servants were employed in City of York by each Government Department or Executive agency in each year since 1996-97. [155491]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 September 2007:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning how many full-time equivalent civil servants were employed in City of York by each Government department or executive agency in each year since 1996-97. (155491)

Civil Service employment statistics are published only at the level of the Government Offices for the Regions. In order to provide the information requested for York, an ad hoc analysis has been required. This analysis is based on the Mandate survey which currently provides approximately 90 per cent coverage of Civil Service departments and agencies. For years prior to 2003 the coverage is lower. For comparison purposes, employment numbers for the Yorkshire and Humber region are therefore presented alongside the statistics for York i) as published for the total Civil Service and ii) as available from the Mandate survey. The breakdown by department and agency (as available from Mandate) is provided in the attached spreadsheet.

Civil Service Employment—Permanent Non-Industrial Employees 1997-2006

Year (1 April unless otherwise stated)	*Civil Service—Yorkshire and The Humber*	*Civil Service (Mandate only)—Yorkshire and The Humber*	*Civil Service (Mandate only)—York*
1997	32,270	17,350	1,560
1998	32,010	17,450	1,460
1999	31,860	17,320	1,490
2000	33,060	18,120	1,630
2001	33,890	19,370	1,760
2002	35,050	22,490	2,140
2003	35,570	25,190	2,420
2004	39,140	27,270	2,760
2005	38,670	34,200	2,850
2006 (30 September)	36,920	33,160	2,680

Departments: Manpower

Mr. Hoban: To ask the Chancellor of the Exchequer how many people have been appointed to his Department outside Civil Services grades in the last 30 days. [153175]

Angela Eagle: Two temporary workers were hired between 25 June and 25 July 2007.

Departments: Minister for Women

Mrs. May: To ask the Chancellor of the Exchequer what *(a)* ministerial committees and *(b)* permanent groups involving senior civil servants have been set up by the Treasury to liaise with the Ministers for Women. [155432]

Angela Eagle: No ministerial committees or permanent groups of senior civil servants have been set up to liaise with the Ministers for Women. As with all cross cutting issues, Ministers and officials in this Department liaise with the Ministers for Women as necessary.

Departments: Press

Mr. Hoban: To ask the Chancellor of the Exchequer to which periodicals his Department subscribes. [153169]

Angela Eagle: Records show HM Treasury Library subscribes to the following periodicals on behalf of the Department:

HM Treasury teams are permitted to subscribe directly to periodicals of specific interest to their area. A centralised list of such titles can be compiled only at disproportionate cost.

Departments: Training

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on *(a)* staff training and *(b)* communication training in the last 12 months. [153167]

Angela Eagle: HM Treasury spent £1,716,000 on staff training during 2006-07, including any communication training. A separate figure for spending on communication training could be provided only at disproportionate cost.

Excise Duties

Mrs. Dean: To ask the Chancellor of the Exchequer (1) if he will abolish the differential between the duty paid on cider and that paid on beer; [155385]

(2) what the reasons are for the differential between the duty payable on cider and that paid on beer; and what assessment he has made of the effect of the differential on the level of sales of each product in the last two years. [155386]

Angela Eagle: Decisions about the appropriate levels of excise duty are made on a Budget-by-Budget basis, taking into account all relevant factors.

Forfeiture: Motor Vehicles

Keith Vaz: To ask the Chancellor of the Exchequer what guidelines are given to Customs officers on the impounding of vehicles. [151298]

Jane Kennedy: Customs officers are instructed that a vehicle may be seized if it is or has been used to carry goods that are liable to forfeiture or if it is constructed,

adapted, altered or fitted for the purpose of concealing goods and is or has been within the limits of a port, aerodrome or while in Northern Ireland, within the prescribed area.

Where a vehicle has been used to carry excise goods from another member state that are not for own use, but instead are intended to be sold to others on a reimbursement basis, then provided there are no aggravating circumstances and it is the first offence, Officers are instructed not to seize the vehicle but to warn the driver and owner that it is liable to forfeiture.

If a vehicle has been used to carry prohibited items then, providing the quantities involved are small and the vehicle was incidental to the offence, officers are instructed the vehicle should not normally be seized.

Where any vehicle has been seized, it maybe restored under the powers set out in section 152 of the Customs and Excise Management Act, subject to such terms and conditions as the Commissioners may think fit.

Anyone who has goods or a vehicle seized and wishes to claim they were not liable to forfeiture may challenge the legality of the seizure by writing to any HMRC office with details of their claim within one month of the seizure. Anyone who requests restoration and is unhappy with the decision they receive may ask for that decision to be reviewed and, if still dissatisfied, may appeal the decision to the VAT and Duties Tribunal.

Immigration

Damian Green: To ask the Chancellor of the Exchequer what projections the Government have made of levels of net immigration in *(a)* 2008, *(b)* 2013, *(c)* 2018 and *(d)* 2023; and if he will make a statement. [155542]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 September 2007:

As National Statistician I have been asked to reply to your question regarding what projections have been made for net in-migration for the years (a) 2008 (b) 2013 (c) 2018 and (d) 2023. (155542)

The most recent assumptions made about the future level of migration are those published in October 2005 as part of the 2004-based national population projections. A long-term assumption of net inward migration of 145,000 was made for the United Kingdom. This assumption applies from 2007-08 onwards and therefore all of the years listed above have a projected net in-migration of 145,000.

New assumptions will be made for the 2006-based national population projections. Details of these assumptions will be released in the next edition of Population Trends, on 27 September 2007. The 2006-based population projections will be published on the National Statistics website on 23 October 2007.

Immigration: EC Enlargement

Mr. Vara: To ask the Chancellor of the Exchequer how many people from the 2004 EU accession countries entered the UK in each year since the accession, broken down by country of origin; what the average length of stay was estimated to be of such visitors; and how many have subsequently returned to their home country. [155571]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 September 2007:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking about the number of people from the 2004 EU Accession Countries who entered the UK in each year by country of origin, what the average length of stay was estimated to be for such visitors, and how many have subsequently returned to their home country. (155571)

Visits to the UK by overseas residents are estimated from data collected on the International Passenger Survey (IPS). A visit is defined as being a stay of less than 12 months. The survey is conducted at major airports, and on major sea and tunnel routes, and the data collected are weighted up to national passenger figures provided by CAA and BAA, Department for Transport, Eurotunnel and Eurostar.

The IPS is a continuous survey carried out throughout the year. Approximately 1 in 500 passengers passing through airports, seaports and die tunnel are sampled and both overseas residents and UK residents are interviewed. The survey measures the numbers of visits to the UK by overseas residents and overseas by UK residents and how much is spent on each of these visits. As it measures visits, any one person travelling a number of times will be counted each time they travel.

The information contained within the attached table shows the estimated number of visits by residents of those countries who joined the European Union in 2004, and the average length of visit.

Those people entering the UK who stay for 12 months or more are defined as long term international in-migrants and are treated separately from visitors (staying under 12 months). Estimates of AS migration by country of last residence, for 2004 and 2005 are available from the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=507, Table 2.2

Estimates for 2006 will-be published on 15 November 2007.

No data are available on the numbers of migrants who subsequently return to their country of previous residence. Data on numbers of out-migrants in any year to A8 countries are available from the link above.

Estimated number of visits to the United Kingdom by residents of the 2004 EU accession countries and average length of stay, 2004-06

Taxation

Dr. Cable: To ask the Chancellor of the Exchequer if he will estimate *(a)* direct and *(b)* indirect taxes as a percentage of gross income for households with an income (i) lower and (ii) higher than (A) 95 per cent. of all households, (B) 99 per cent. of all households, (C) 75 per cent. of all households and (D) 25 per cent. of all households for each year since 1997; and if he will make a statement. [155376]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 September 2007:

As National Statistician, I have been asked to reply to your recent question asking what estimate *(a)* direct and *(b)* indirect taxes as a percentage of gross income for households with an income (i) lower and (ii) higher than (A) 95 per cent of all households, (B) 99 per cent of all households, (C) 75 per cent of all households and (D) 25 per cent of all households for each year since 1997. (155376)

Estimates of household income and payments of direct and indirect taxes appear in the ONS analysis 'The effects of taxes and benefits on household income'. The latest analysis for 2005/06 was published, on the National Statistics website on 17th May 2007 at http://www.statistics.gov.uk/taxesbenefits The analysis is based on data from the Expenditure and Food Survey, which is a survey of approximately 7,000 households in the UK. The estimates of direct and indirect tax payments for the groups of households requested, have been calculated from the data underlying the annual taxes and benefits analyses., and these estimates appear in the table below.

Gross income includes income from wages, occupational pensions, self-employment income, investment income, and income from state benefits. Direct taxes include income tax, national insurance contributions and council tax. The indirect taxes include VAT, duties, and a number of smaller items such as television licences. Indirect taxes also include intermediate taxes—these are indirect taxes paid by companies which are deemed to be passed onto households through the prices they pay for goods and services. A more detailed breakdown showing each of the different taxes appears in the annual article.

Indirect taxes, when expressed as a proportion of gross income appears particularly high for those on lower income, although this result needs to be interpreted carefully. Estimates of indirect taxes are estimated based on household expenditure. It should be remembered that measured expenditure will not necessarily balance with measured income for the year. This is especially true for low income households where average measured income is significantly lower than average measured expenditure. For these households, indirect taxes (which reflect expenditure) are not being met solely from current income, and so indirect taxes are very high when expressed as a proportion of gross income.

There are a number of possible reasons why for some households expenditure might exceed income. Households with low incomes may draw on their savings or borrow in order to finance their expenditure. In addition, the lower income households in particular include some groups who have, or report, very little income, for example, self-employed people starting a business or someone who has just been made redundant. Some types of receipts are not included as income in the EFS e.g. inheritance and severance payments are regarded as lump sums and therefore are not considered to be current income. In some cases, the information given on expenditure is not consistent with that on income because of timing differences.

The annual effects of taxes and benefits article is focused primarily on the differential effect of taxes and benefits on different parts of the income distribution, rather than on changes over time. There have been some changes to the way in which the figures are compiled. Up until 2001/02, charges for water, environmental and sewage services were treated as local taxes, whereas from 2002/03 onwards they were excluded. The local tax category now just includes council tax and Northern Ireland rates.

There was also a change to the way that tax credits were treated. Up until 2002/03 tax credits were treated as cash benefits. From 2003/04, they are classified as negative income tax, but only to the extent that income tax less tax credits remains greater than or equal to zero for each family. So for households paying relatively little or no income tax, tax credit payments are still regarded either partially or wholly, as cash benefits. The effect of these changes would be a small reduction in the calculated tax burden in the years following these changes.

Figures for the top 1% of households in particular should be treated with some caution, as they are based on a small sub-sample of the survey. These estimates will be more affected by sampling variability.

Taxes as a percentage of gross income[1], United Kingdom, 1996-97-2005-06

Office for National Statistics.

Valuation Office: ICT

Alistair Burt: To ask the Chancellor of the Exchequer what assessment has been made of the value for money of the Aspire contract in relation to services provided to the Valuation Office Agency. [151326]

Jane Kennedy: The Aspire contract is output based and the value for money of this type of contract was assessed under the original competition. To ensure value for money is maintained there is a rolling benchmark programme to measure Aspire charges against the market.

VAT: Home Information Packs

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 25 June 2007, *Official Report*, column 400W, on VAT: home information packs, if he will list each *(a)* authorised and *(b)* required item of a home information pack that is liable for VAT if included. [151198]

Jane Kennedy: The normal VAT liability rules will apply when the constituent parts of a Home Information Pack (HIP) are purchased from a VAT registered business. VAT will usually be chargeable, although local authority and Land Registry search fees are normally VAT free.

VAT will also be due on any fee charged by a VAT registered agent in connection with the compilation of a HIP.

Welfare Tax Credits

Mike Wood: To ask the Chancellor of the Exchequer what estimate he has made of the proportion of the cost of administering the *(a)* working and *(b)* child tax credit systems that relates directly to the updating of claims. [152732]

Jane Kennedy: Information on administrative costs for tax credits can be seen in the Comptroller and Auditor General's Standard Report on HM Revenue and Customs 2006-07 accounts available at

www.nao.gov.uk.

JUSTICE

Citizens' Juries

Nick Herbert: To ask the Secretary of State for Justice how participants in citizens' juries will be chosen; and who is responsible for the *(a)* process and *(b)* decisions. [155547]

Mr. Straw: The choice of participants is dependent on the objectives for the jury and the subject matter. This might require a representative sample of the population, a random sample or perhaps particular groups as in the DCSFs recent citizens' juries which involved young people, parents, teachers and local community stakeholders.

(a) The Department or organisation running the citizens' jury or other engagement process will retain responsibility for the process, even when a third party may have been engaged to deliver such a process.

(b) Each citizens' jury or other engagement process should make clear to the participants where the final decision will be taken.

Nick Herbert: To ask the Secretary of State for Justice whether the operation of citizens' juries will comply with the Code of Practice on Consultation. [155548]

Mr. Straw: Where the Government are consulting with the public it will comply with the Code of Practice. However, where citizens' juries are used to explore ideas and initial policy thinking rather than gain feedback on specific proposals the question of compliance or otherwise with the code may not arise. Any engagement has to be serious and help to strengthen the relationship between government and the public. This will mean adherence to good engagement principles.

Nick Herbert: To ask the Secretary of State for Justice what plans he has to publish *(a)* transcripts and *(b)* reports of citizens' juries. [155554]

Mr. Straw: The Government expect that the conclusions of citizens' juries will be made available. However decisions on whether this should be in the form of transcripts and reports is a matter for the individual Department with policy lead.

Nick Herbert: To ask the Secretary of State for Justice if he will list the dates and subject matters of citizens' juries to be held by the Government. [155555]

Mr. Straw: To date, the following citizens' juries have been or are planned to be held:

DCSF, 6 September, considered issues affecting children.

Home Office, 12 September, considered crime and community.

Department of Health, 18 September, on the NHS supporting the work of the Darzi review.

Other engagement activities are being organised as part of the Governance of Britain constitutional reform programme.

Community Service Orders

John McDonnell: To ask the Secretary of State for Justice what the average waiting time for offenders joining unpaid work groups has been since January, broken down by probation area. [155366]

Mr. Hanson: Probation service national standards require that the first work session is undertaken within 10 days of sentence. Data are collected nationally about the first appointment only where it is designated as a pre-placement work session, that is, an induction and briefing session. For those probation areas where it is available, the average number of days in the period January to June, between this session and joining the unpaid work groups is set out in the following table.

Area	*Waiting time*
Avon and Somerset	—
Bedfordshire	11.8
Cambridgeshire	—
Cheshire	6.2
County Durham	0
Cumbria	5
Derbyshire	6.2
Devon and Cornwall	4.1
Dorset	0
Dyfed Powys	5
Essex	8
Gloucestershire	13.9
Greater Manchester	4
Gwent	6

Area	Waiting time
Hampshire	9
Hertfordshire	3.6
Humberside	6
Kent	5.5
Lancashire	7
Leicestershire and Rutland	10.8
Lincolnshire	—
London	5
Merseyside	4.3
Norfolk	1
North Wales	1.4
North Yorkshire	—
Northamptonshire	4
Northumbria	0
Nottinghamshire	9.8
South Wales	6.5
South Yorkshire	6.2
Staffordshire	3
Suffolk	3
Surrey	6.5
Sussex	8.8
Teesside	0
Thames Valley	11.6
Warwickshire	5.2
West Mercia	0
West Midlands	5
West Yorkshire	5.6
Wiltshire	6.5

John McDonnell: To ask the Secretary of State for Justice how many unpaid work appointments have been cancelled since January, broken down by probation area. [155367]

Mr. Hanson: Across all probation areas a total of 29,852 work appointments were cancelled between 1 January 2007 and 30 June 2007. This compares with 644,697 appointments which were kept, which is a cancellation rate of 4.6 per cent. The number of unpaid work appointments cancelled in each probation area is set out in the following table.

Area	Appointment cancelled
Avon and Somerset	848
Bedfordshire	313
Cambridgeshire	777
Cheshire	1,737
County Durham	41
Cumbria	483
Derbyshire	62
Devon and Cornwall	311
Dorset	164
Dyfed Powys	21
Essex	747
Gloucestershire	182
Greater Manchester	472
Gwent	884
Hampshire	1,927
Hertfordshire	939
Humberside	107
Kent	1,589
Lancashire	328
Leicestershire and Rutland	489
Lincolnshire	204
London	3,786
Merseyside	768
Norfolk	1,183
North Wales	318
North Yorkshire	203
Northamptonshire	177
Northumbria	237
Nottinghamshire	301
South Wales	121
South Yorkshire	445
Staffordshire	1,346
Suffolk	959
Surrey	181
Sussex	657
Teesside	30
Thames Valley	4,287
Warwickshire	34
West Mercia	1,152
West Midlands	1,090
West Yorkshire	25
Wiltshire	30

John McDonnell: To ask the Secretary of State for Justice what estimate he has made of the adequacy of supply of unpaid work supervisors between January and August, broken down by probation area. [155368]

Mr. Hanson: The probation Human Resources Workforce Information Report for June 2007 records that at the end of December 2006 there were 31.29 full-time equivalent vacancies related to unpaid work supervision that were the subject of an active recruitment process. These data are not broken down by probation area.

Mr. Gerrard: To ask the Secretary of State for Justice how many hours of unpaid work were ordered by the courts during 2006-07. [155379]

Mr. Hanson: There were 9,162,000 (rounded) hours of unpaid work ordered by the courts on unpaid work requirements commencing probation supervision between 1 April 2006 and 31 March 2007.

This figure has been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mr. Gerrard: To ask the Secretary of State for Justice how many orders for unpaid work were completed during 2006-07. [155380]

Mr. Hanson: There were 42,210 unpaid work requirements completed during 2006-07.

This figure has been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mr. Gerrard: To ask the Secretary of State for Justice how many offenders were sentenced to unpaid work during 2006-07. [155381]

Mr. Hanson: There were 94,349 offenders who commenced unpaid work requirements under probation supervision during 2006-07 following sentence by the courts.

This figure has been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mr. Gerrard: To ask the Secretary of State for Justice whether any national probation areas have experienced difficulties in transporting offenders to unpaid work placements since January 2007. [155382]

Mr. Hanson: We do not collect information centrally about the transport of offenders to unpaid work placements. From time to time it is possible that difficulties may arise as a result of staff being unavailable at short notice, or mechanical difficulties with vehicles, for example.

Mr. Gerrard: To ask the Secretary of State for Justice how many offenders have been stood down during any period of unpaid work in *(a)* North Yorkshire, *(b)* Cheshire, *(c)* Warwickshire, *(d)* Avon and Somerset, *(e)* Wiltshire, *(f)* Essex, *(g)* Dorset, *(h)* Norfolk, *(i)* Cheshire, *(j)* Devon, *(k)* Greater London and *(l)* Gwent probation areas since January. [155383]

John McDonnell: To ask the Secretary of State for Justice whether any unpaid work groups have been stood down in *(a)* North Yorkshire, *(b)* Cheshire, *(c)* Warwickshire, *(d)* Avon and Somerset, *(e)* Wiltshire, *(f)* Essex, *(g)* Dorset, *(h)* Norfolk, *(i)* Devon, *(j)* Greater London and *(k)* Gwent probation area since January. [155369]

Mr. Hanson: The total number of offenders who have been stood down from unpaid work is not available centrally, but the National Offender Management Service monitors the number of unpaid work days lost as a result of offenders being instructed in advance not to attend, or having been sent home after reporting for work, as a result of operational difficulties. This is expressed as a percentage of the total days worked. For the areas requested the percentage of days lost is as follows:

Probation area	*Percentage of days lost, January to June 2007*
North Yorkshire	3
Cheshire	12
Warwickshire	0.6
Avon and Somerset	8.5
Wiltshire	0.5
Essex	5.3
Dorset	2.8
Norfolk	8.8
Devon and Cornwall	3.1
London	4.7
Gwent	10.8

Nationally the total number of unpaid work days lost as a result of offenders being instructed not to attend on particular days, or being stood down having reported for work is 4.8 per cent. of the total days worked.

Mr. Garnier: To ask the Secretary of State for Justice how many offenders sentenced to unpaid work since 1 January 2007 have been unable to commence their sentences owing to a lack of supervising staff or placements. [155568]

Mr. Hanson: Between January and the end of June national data indicate that 40,218 offenders have undertaken an initial pre-placement session of unpaid work. Of these offenders 38,808 are recorded as having received an instruction to attend for subsequent sessions of unpaid work. This would suggest that 1,410 or 3.5 per cent. of offenders did not immediately commence their sentences. Those offenders who were not instructed following the initial session of unpaid work would have been instructed to attend on a subsequent date, unless the requirement was terminated as a result of breach action, or the requirement was revoked for another reason.

Crime: Victims

Mr. Burrowes: To ask the Secretary of State for Justice (1) how many payments of compensation to victims were ordered by courts for *(a)* young and *(b)* adult offenders in each of the last three years; [155392]

(2) how many payments of compensation to victims have been made by *(a)* young and *(b)* adult offenders in each of the last three years. [155393]

Mr. Hanson: The information requested on compensation orders imposed by the courts, for the years 2003-05, is contained in the following table.

Data are collected by HM Court Service on the value of financial penalties (including compensation) paid but do not enable the number of payments to be identified.

Offenders[1] ordered to pay compensation at all courts by age group, England and Wales, 2003-05

Age group	*Number of offenders ordered to pay compensation*
Under 18	
2003	18,770
2004	20,773
2005	22,511
18 and over	
2003	101,695
2004	102,470
2005	109,176
All ages	
2003	120,465
2004	123,243
2005	131,687

[1] Principal offence basis.

RDS-NOMS, Ministry of Justice

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Custody Plus Scheme

Mr. Bellingham: To ask the Secretary of State for Justice what plans he has to introduce Custody Plus. [155503]

Mr. Hanson: No decision has yet been taken as to when Custody Plus will be introduced.

Departments: Delivery Services

Mr. Jenkins: To ask the Secretary of State for Justice what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150455]

Maria Eagle: Since the Ministry of Justice was only formed on 9 May 2007, my response refers to the former Department for Constitutional Affairs (DCA) and those bodies which were formerly part of the Home Office which are now part of the new Department.

DCA

(a) Information about the volume of correspondence sent by Royal Mail is not held centrally and could be obtained only at disproportionate cost.

(b) Regarding the use of other commercial delivery services, for the last five years the former DCA used one other licensed carrier, DX Network Services.

Information relating to the whole of the period is not held. Information for the last two years is as follows:

	Item
2006-07	6,920,400
2005-06	4,303,257

These figures are based on the results of an annual sampling exercise extrapolated to provide an annual usage figure.

DX Network Services provides a cost effective and efficient mail service between courts, to the legal profession and other business addresses.

Office for Criminal Justice Reform (OCJR)

Information about the volume of correspondence sent by Royal Mail and other commercial delivery services is not available.

National Offender Management Service (NOMS)

Information about the volume of correspondence sent by Royal Mail and other commercial delivery services is not available.

HM Prison Service (HMPS)

Information about the volume of correspondence sent by Royal Mail and other commercial delivery services is not available.

Postage is handled on an individual prison basis and there are no central contracts for mail collection and distribution; volumes are not recorded either.

Drugs: Misuse

Paul Flynn: To ask the Secretary of State for Justice what estimate he has made of the number of people convicted of drug offences as a result of the Misuse of Drugs Act 2005; and how many such people have received a prison sentence. [152257]

Maria Eagle: Regulations under the Misuse of Drugs (Designation) (Amendment) Order 2005 came into force on 18 July 2005 and reclassified magic mushrooms as class A drugs. The following table shows the number of defendants convicted at all courts, sentenced, and sentenced to immediate custody for drug offences related to "other class A drugs" in England and Wales for the years 1996-2005.

It is not possible to identify which convictions related specifically to magic mushrooms because all offences for the less commonly used class A drugs are grouped together and therefore cannot be separately identified. Additionally, as the regulations came into force in 2005 it is likely that they would have had an impact only on the number of convictions from 2006 onwards.

Data for 2006 will be available in the autumn.

Number of defendants proceeded against at magistrates courts for offences in relation to the production, supply, possession, and possession with intent to supply as well as the use of premises for the production of "other class A" drugs, England and Wales 2001-05[1, 2, 3, 4, 5]

	Proceeded against	*Found guilty*	*Sentenced*	*Of which Immediate custody*
1996	988	1,071	1,066	475
1997	1,147	1,123	1,117	489
1998	1,395	1,181	1,158	453
1999	1,478	1,180	1,153	425
2000[4]	1,354	1,029	1,071	382
2001	1,720	1,355	1,341	500
2002	2,014	1,542	1,503	538
2003	1,928	1,571	1,556	561
2004	1,763	1,521	1,510	625
2005	1,575	1,507	1,505	570

[1] These data are provided on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Offences under sections 4(2), 4(3), 0(2), 5(3) and 8 of the Misuse of Drugs Act 1971 respectively.

[4] Staffordshire Police Force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

[5] Does not include convictions for separately classified class A drugs such as cocaine, heroin, methadone, morphine, LSD and ecstasy.

Court proceedings database—Office for Criminal Justice Reform.

Electoral Systems

Mr. Heath: To ask the Secretary of State for Justice when the Government will publish its review of electoral systems in use in the United Kingdom; and if he will make a statement. [155490]

Mr. Wills: It is anticipated that the review of voting systems will be completed by the end of the year.

Firearms: Cambridgeshire

Mr. Stewart Jackson: To ask the Secretary of State for Justice how many firearm-related offences were recorded in Peterborough and Cambridgeshire in each year since 2001; and if he will make a statement. [155323]

Mr. Coaker *[holding answer 12 September 2007]:* I have been asked to reply.

Firearms are taken to be involved in an incident if they are fired, used as a blunt instrument against a person or used as a threat. The number of offences recorded by Cambridgeshire Constabulary in which firearms (excluding air weapons) were reported to have been used between 2001-02 and 2005-06 is given in the following table. These centrally-collected data cannot be broken down to a more local level. Figures for 2006-07 are scheduled to be published in January 2008.

Crimes recorded in which firearms (excluding air weapons) were reported to have been used[1]: Cambridgeshire constabulary 2001-02 to 2005-06[2]

	Number of firearm offences
2001-02[2]	49
2002-03[3]	57
2003-04	34
2004-05	50
2005-06	34

[1] By the weapon being fired, used as a blunt instrument against a person or used in a threat.
[2] Data for 2006-07 will be published in January 2008.
[3] Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard before 1 April 2002.
Note:
The National Crime Recording Standard was introduced nationally in April 2002 and figures for some crime categories may have been inflated by this. Figures from 2002-03 onwards are not directly comparable with those for earlier years.

Legal Aid

Mr. Marsden: To ask the Secretary of State for Justice what contingency plans are in place to meet the needs and requirements of legal aid clients in circumstances where significant numbers of legal aid providers cease operating. [155475]

Mr. Wills: The Legal Services Commission (LSC) does not expect significant numbers of legal aid providers to cease operating in the foreseeable future. Where providers do withdraw from legal aid work, for example when contracts are re-tendered, the LSC is well experienced in finding alternative suppliers.

Legal Aid: Fees and Charges

Mr. Marsden: To ask the Secretary of State for Justice what research his Department has conducted on the impact of fixed legal aid fees on the provision of legal aid since the publication of Lord Carter's review of legal aid procurement in 2006. [155450]

Mr. Wills: Each fixed fee scheme published by the Legal Services Commission (LSC) is accompanied by an impact assessment that shows the result of internal work undertaken by the LSC. The LSC also commissioned research from Otterburn Legal Consulting Ltd which considered the impact on criminal firms of the new fee schemes.

The LSC published the final report in April and it is available on the LSC's website at:

http://www.legalservices.gov.uk/docs/consultations/Otterburn_Report-background-note2.pdf

In addition the LSC and my Department commissioned work by NERA Economic Consulting which looks at the impact of fixed fees as part of a wider examination of the possibility of minimum thresholds for legal aid work. The LSC will publish this research on its website when the work has been finalised.

Lord Chancellor: Pay

Nick Herbert: To ask the Secretary of State for Justice how much was paid to the last Lord Chancellor as a lump sum on termination of his employment. [155580]

Mr. Straw: To date no payment has been made over to the former Lord Chancellor, my right hon. Friend Lord Falconer. As I told the House on 23 July, I will make a statement on this matter in due course.

Magistrates Courts: ICT

Mr. Bellingham: To ask the Secretary of State for Justice when the Libra computer system will be operational in all magistrates courts in England and Wales. [155505]

Maria Eagle: Libra deployment is currently scheduled to complete in December 2008.

Mobile Phones: Driving Offences

Mr. Amess: To ask the Secretary of State for Justice how many *(a)* males and *(b)* females have been (i) arrested and (ii) prosecuted for using their mobile phones while driving since the legislation banning their use while driving was introduced, broken down by age group. [152859]

Maria Eagle: Information requested on arrests for summary motoring offences of 'use of a hand-held mobile phone while driving' is not collected centrally.

Available information taken from the court proceedings database held by the Office for Criminal Justice Reform, for 2004 (latest available) is provided in the following table. 2005 data will be available in the autumn of 2007.

Proceedings[1,2] at magistrates courts for offences of using a hand held mobile phone whilst driving[3] by sex and age group of offender, England and Wales, 2004[4]

Number of offences

Sex	All ages	Under 18	18 and under 21	21 and under 25	25[5]	26 and under 30	30 and under 35	35 and under 40	40 and under 50	50 and under 60	60 and over
Males	728	6	35	83	148	73	152	91	92	40	8
Females	61		5	5	16	11	9	7	5	3	—
Persons	789	6	40	88	164	84	161	98	97	43	8

[1] The table shows the number of offences dealt with and not the number of persons appearing in court.
[2] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.
[3] Offences under the Road Vehicles (Construction and Use) Regulations 1986, Regulations 110 (1), 110 (2 and 110 (3).
[4] The offences were introduced as from 1 December 2003. The court proceedings database records only one proceeding in that year.
[5] Age 25 separate as used as a default age when date of birth is not known.

Notes:
1. In 2003 1,888 fixed penalty notices were issued for offences of 'using a hand held mobile phone whilst driving'. In 2004 the figure was 73,976.
2. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, may be less than complete. Work is under way to ensure that the magistrates courts case management system being implemented by the Ministry of Justice reports all motoring offences to the Office for Criminal Justice Reform. This will enable more complete figures to be disseminated.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used

Source:
Court proceedings database held by OCJR.

Offenders: Organised Crime

Mr. Garnier: To ask the Secretary of State for Justice whether any probation areas in England and Wales have issued policy statements since 1 January 2006 on *(a)* the existence of or the attitude to be taken towards gang membership and *(b)* the reporting arrangements for offenders believed to be gang members or affected by gang membership. [155569]

Mr. Hanson: No such statements have been issued, although some probation areas have developed and disseminated relevant good practice guidance. The National Offender Management Service is organising a national seminar this autumn for practitioners to share current examples of good practice and to develop a best practice guide for offender managers nationally.

Open Prisons

Mr. McLoughlin: To ask the Secretary of State for Justice (1) how many people detained at open prisons have been granted permission to keep and use a car for work assignments; and how many have been convicted of *(a)* murder, *(b)* grievous bodily harm, *(c)* sexual offences and *(d)* rape; [155312]

(2) what criteria are taken into account when considering whether to grant a prisoner detained at an open prison permission to keep and use a car for work assignments; and whether the nature of the crime committed is taken into account. [155313]

Mr. Hanson: Prisoners entering the open estate are subject to rigorous risk assessment. A further risk assessment is undertaken before being allowed to use a motor vehicle to attend work placements.

Work placements are designed to promote successful reintegration into the community, reduce the likelihood of re-offending and improve the resettlement outcomes of prisoners. The resettlement regime provides prisoners with increasing levels of personal responsibility, ensures that they are tested rigorously on any risk areas in an environment closer to that found on release and in particular equips them with readily transferable skills and practical experiences which they can take to employers in their home areas once discharged.

As at 10 September 2007, 202 prisoners in open conditions have permission to keep and use a car for work purposes under the above regime and one prisoner keeps and uses a motorcycle. Of these, 33 have been convicted of murder, seven of grievous bodily harm and one of rape and murder. Public protection is our greatest priority.

Prison Service: Public Appointments

Mr. Bellingham: To ask the Secretary of State for Justice how managed moves authorised by the Deputy Director General of HM Prison Service are monitored; who is responsible for monitoring them; to whom they report; and if he will make a statement. [153677]

Maria Eagle: There is no separate monitoring arrangement for managed appointments at senior manager level. The appointment of senior managers to operational positions, including all governor and deputy governor posts is published weekly on the Prison Service intranet. When an appointment has been managed this is clearly indicated.

Mr. Bellingham: To ask the Secretary of State for Justice what proportion of staff moves to *(a)* deputy governor and *(b)* governor grades were by managed appointment in each of the last five years; and if he will make a statement. [153674]

Mr. Hanson: Out of a total of 146 vacancies in governing governor posts, since October 2003 to date, 52 governing governor posts have been appointed via managed moves (36 per cent.) and 94 as a result of open competition; out of a total of 60 deputy governor posts, 13 were appointed via managed moves (22 per cent.) and 47 via open competition.

	Move type	Governor grades	Deputy governor	Total
2003	Open competition	3	2	5
	Managed moved	0	0	0
2004	Open competition	30	11	41
	Managed moved	12	2	14
2005	Open competition	21	13	34
	Managed moved	11	5	16
2006	Open competition	27	15	42
	Managed moved	18	2	19
2007	Open competition	13	6	19
	Managed moved	11	4	15
Total	Open competition	94	47	141
	Managed moved	52	13	65
Total posts filled		146	50	206

Figures are not available before 12 October 2003 when the Career and Succession Planning Unit was established (now Succession Management Unit). These figures do not accurately cover all deputy governor posts as the unit is only responsible for senior operational manager grades A-D. The table therefore reflects all deputy governor moves at D level or above. Figures are not held for E level deputy posts.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Companies House

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how Companies House is expected to report on its activities to *(a)* the public and *(b)* Parliament following the introduction of the Companies Act 2006. [155588]

Mr. Timms: Companies House will continue to report on its activities to the public and to Parliament by means of its annual report and accounts.

Departments: Aviation

Mr. Prisk: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 26 June 2007, *Official Report*, columns 619-20W, on Departments: Aviation, how many flights to overseas destinations were taken by officials from *(a)* outside his core Department and its predecessor, *(b)* the Patent Office and *(c)* the Competition Commission in each of the last three calendar years; and what the total cost was of such flights. [148417]

Mr. Thomas *[holding answer 10 July 2007]*: In each of the last three calendar years, the number of flights taken to overseas destinations and the cost of those flights was:

Competition Commission

	Number of Flights	Flight Costs (£)
2006	37	31,835
2005	50	36,103
2004	51	31,054

Intellectual Property Office (formerly Patent Office)

	Number of Flights	Flight Costs (£)
2006	190	137,075
2005	254	144,041
2004	226	113,192

National Weights and Measures Laboratory (NWML)

	Number of Flights	Flight Costs (£)
2006	2	166
2005	17	2,598
2004	13	1,816

These figures were included within the departmental figure provided in the answer of 26 June 2007, *Official Report*, columns 619-20W. Figures are not available for flights taken by officials from outside the core Department and its Agencies. The figures provided are from the Department's travel agent Carlson Wagonlit. The figures do not include any flights that may be booked through other travel agents as this is not separately captured or recorded.

The number of flights corresponds with the number of tickets issued and may include a number of flights to different destinations made on the same business trip. The number of flights may also include tickets from an overseas destination to the UK if the flight is on a different carrier from the outward flight, or if the return leg is in a different class of travel with the same or a different carrier.

Departments: Recruitment

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people have been appointed to his Department outside Civil Service grades in the last 30 days. [153133]

Mr. Thomas: The information requested is not held centrally and could be provided at disproportionate cost only.

Electricity Generation: Wind Power

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the total cost to energy companies of supplying power lines and other infrastructure to connect wind turbines to the national grid in each of the last 10 years; and what forecast he has made of the equivalent costs over the next 10 years. [155514]

Mr. Timms: Investment in electricity networks is made by the Transmission Owners and Distribution Network Operators under the regulatory supervision of Ofgem. Investments will in most cases reflect the cumulative effect of a number of generators of all types seeking to connect.

In terms of investment over the next few years, Ofgem have agreed £560 million of investment in the transmission network specifically to connect new renewable generation in Scotland and the North of England. In the Transmission Price Control, which covers the five year period from 1 April 2007, a further £3.8 billion of investment in the transmission network was agreed. This figure includes both refurbishment and the costs of connecting new generators of all types and may increase if warranted by generator demand.

Industrial Disputes: Arbitration

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of mediated employment disputes were successfully concluded at that stage in the latest period for which figures are available. [151290]

Mr. McFadden: Mediation is a widely used term which covers a number of activities related to the resolution of disputes or the management of conflict. ACAS staff are involved in working in a number of areas which sit under this umbrella term. These are:

Conciliation in employment tribunal cases

Conciliation in collective disputes

Mediation in work-place disputes

Mediation in collective disputes.

Conciliation in employment tribunal cases

In almost all cases where a claim is submitted to an employment tribunal, ACAS has a statutory duty to promote a resolution that both sides find acceptable instead of going to a tribunal hearing.

In 2006-07 ACAS received a total of 105,177 employment tribunal claims for conciliation. During the same period 38 per cent. of claims were subject to a legally binding settlement brokered by ACAS, 31 per cent. of claims were withdrawn following discussion of the case with the ACAS conciliator, and 27 per cent. of claims proceeded to an employment tribunal for hearing. 4 per cent. of claims were disposed of in other ways.

During the period, and in addition, ACAS brokered a resolution to 57,476 potential claims, of which 56,159 were potential local authority equal pay claims.

Conciliation in collective disputes

ACAS also assists parties to resolve their differences where a dispute arises between an employer and trades union or other work force representation group, or between groups of workers.

In 2006-07 ACAS was involved in 912 collective disputes. During the same period, 835 were completed, 91 per cent. successfully.

Mediation in work place disputes

In 2006-07 ACAS accepted 134 individual work place disputes for mediation. 99 of these were resolved through mediation, and in a further eight cases progress was made, giving a total success rate of 80 per cent.

Mediation in collective disputes

Where a collective dispute is resolved by means of a reference to an independent mediator who is empowered to write a formal report making recommendations, ACAS will appoint a mediator from its list of independent arbitrator/mediators.

In 2006-07 ACAS received two requests for collective mediation, both of which were resolved.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects to reply to the letter from the hon. Member for Walsall North of 16 July on a constituent, Ref 625784; and what the reasons are for the time taken to reply. [155017]

Mr. Thomas *[holding answer 10 September 2007]*: The response to my hon. Friend was delayed by administrative issues. The response was sent on 11 September 2007.

Mr. Winnick: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects to reply to the letter from the hon. Member for Walsall North of 5 July on a constituent, Ref 624991; and what the reasons are for the time taken to reply. [155019]

Mr. Thomas *[holding answer 10 September 2007]*: The response to my hon. Friend was delayed by administrative issues. The response from my hon. Friend the Minister of State for Employment Relations and Postal Services was sent on 12 September 2007.

Renewable Energy

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations he has received from *(a)* the Department for the Environment, Food and Rural Affairs, *(b)* other Government departments, *(c)* the private sector and *(d)* non-governmental organisations on proposed stakeholder participation in developing policies to meet the UK's commitment to the EU 20 per cent. renewable energy target; and what recent changes his Department has made to its plans. [155415]

Mr. Timms: The Government have received two requests from industry to set up a 2020 renewables taskforce. Rather than setting up a new body we are now working with the Renewables Advisory Board (RAB), which was set up to improve Government understanding of the obstacles and opportunities for the development of renewable technologies in the UK. The Government have also received correspondence calling for a transparent process of policy development. This is entirely in line with our plans for a full and transparent public consultation following publication of the draft Renewables Directive by the European Commission.

Ben Chapman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the renewables obligation will be banded in order to provide different levels of support for different renewable energy technologies. [155500]

Mr. Timms: Yes. We confirmed in the Energy White Paper 2007 our intention to introduce banding.

A consultation on the reform of the renewables obligation including the practicalities of implementing a banded system closed on 6 September 2007 and we will be considering the responses to this consultation before setting out our response.

Seals: Animal Products

Norman Baker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will introduce a national ban on the import and sale of seal products. [155371]

Mr. Thomas: National measures would be impossible to enforce under EU single market rules so the Government are instead pressing hard for EU-wide action. The European Commission is currently conducting a study of the Canadian seal hunt in order to assess the need for EU-wide measures.

Wind Power

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many wind turbines were installed in the United Kingdom in each of the last 10 years; what total installed wind turbine capacity was in each such year; and what forecast he has made of such capacity in each of the next 10 years. [155539]

Mr. Timms: The Department does not keep statistics on the number of wind turbines installed though we do have figures for the number of wind farm sites for the past eight years and the installed capacity from wind farms for the past 10 years.

These figures are published annually in the Digest of United Kingdom Energy Statistics (DUKES) and can be found in the following tables:

Number of sites

	Onshore wind	*Offshore wind*	*Total*
1999	91	0	91
2000	104	0	104
2001	108	1	109
2002	115	1	116
2003	184	3	187
2004	168	4	172
2005	206	5	211
2006	327	6	333

Installed capacity (MWe), end December each year

	Wind (onshore)	*Wind (offshore)*	*Total*
1997	321.68	—	322
1998	331.32	—	331
1999	356.99	—	357
2000	408.0	3.8	412
2001	423.4	3.8	427
2002	530.6	3.8	534
2003	678.4	63.8	742
2004	809.4	123.8	933
2005	1,351.2	213.8	1,565
2006	1,650.7	303.8	1,955

BERR does not have forecasts on the capacity of wind turbines over the next 10 years. Based on the Energy White Paper central case, the projected wind capacity figures—for installed capacity—and rounded to the nearest whole number, are:

2010: 5 GW
2015: 11 GW and
2020: 13 GW.

Wind Power: Subsidies

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the total subsidy paid to the owners of wind turbines under the Renewables Obligation Certificate Scheme has been in each of the last 10 years; and what forecast he has made of such payments for each of the next 10 years. [155515]

Mr. Timms: The Renewables Obligation does not pay a direct subsidy to generators but instead places an obligation on licensed electricity suppliers to source a specific and annually increasing proportion of their sales from renewable sources. Suppliers meet their obligation by presenting Renewable Obligation Certificates (ROCs) which are issued to generators for eligible renewable generation; paying a buy-out price; or a combination of both. Money from the buy-out fund is recycled pro-rata to suppliers presenting ROCs.

The ROC price is therefore set by the market but a nominal value of the ROC to the supplier can be calculated by adding the buy-out price to the recycled buy-out fund attributable to each ROC. Multiplying this by the number of ROCs issued for wind generated renewable electricity gives an indication of the support provided.

The Renewables Obligation came into force for 2002-03 so figures are not available before that date. For 2002-03 to 2004-05 the figures are finalised and for 2005-06 the figures are estimated. The figures going forward are based on estimated wind generation and ROC price as part of a modelling framework developed for us by Oxera Consulting Ltd and published alongside our recent consultation on reform of the Renewables Obligation.

	Wind generated renewable electricity (TWh)	*Equivalent support provided (£ million)*
2002-03	1.1	53.5
2003-04	1.3	69.3
2004-05	2.0	96.6
2005-06	2.8	120.4
2006-07	4.2	210.4
2007-08	5.3	257.5
2008-09	6.5	300.5
2009-10	10.6	529.3
2010-11	14.5	659.9
2011-12	18.1	802.6
2012-13	22.7	1,016.1
2013-14	25.0	1,117.9
2014-15	27.3	1,218.3
2015-16	29.1	1,299.2
2016-17	30.1	1,337.2
2017-18	30.9	1,371.3

WORK AND PENSIONS

Child Support Agency

Mr. Kevan Jones: To ask the Secretary of State for Work and Pensions what *(a)* documents and *(b)* procedures govern the relationship between the Department and the Child Support Agency. [152805]

Mr. Plaskitt *[holding answer 26 July 2007]:* The Department for Work and Pensions (DWP) Departmental Framework sets out the governance arrangements in place across the Department including in its relationship with the Child Support Agency (CSA). The Departmental Framework is underpinned by corporate frameworks, instructions and policies that apply across DWP and its agencies.

A copy of the Departmental framework can be found at:

http://www.dwp.gov.uk/aboutus/departmental_framework.asp

The Chief Executive of the CSA is a member of the DWP Executive Team. The CSA's main targets are set by the Secretary of State having taken advice from the Director General of Work, Welfare and Equality Group and performance against these and other internal operational targets and objectives takes place within the Department's overall performance management framework. This includes regular Performance Accountability Reviews between the Permanent Secretary and the CSA Chief Executive and Board.

The Agency has four Secretary of State targets for 2007-08, which can be found in the Agency's business plan for that year a copy of which can be found in the House of Commons Library.

Child Support Agency: Complaints

Mr. Kevan Jones: To ask the Secretary of State for Work and Pensions what steps are available for hon. Members to take when dissatisfied with the response by the Child Support Agency to their representations. [152068]

Mr. Plaskitt *[holding answer 12 July 2007]:* The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Duncan Gilchrist, dated 13 September 2007:

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on annual leave I am responding, with his authority, on his behalf.

You asked the Secretary of State for Work and Pensions, what steps are in place to enable hon. Members to raise their dissatisfaction with the work of the Child Support Agency. [152068]

There is not one specific route for a Member of Parliament (MP) to take should they want to raise their dissatisfaction with the work of the Child Support Agency (CSA). The route taken would depend on the circumstances or reasons for the dissatisfaction, and the avenues that had previously been used.

MPs can write to the CSA Chief Executive or contact the CSA MP Hotline. If these options have been explored, the following options are available:

Write to the Minister with responsibility for Child Support. The MP can decide to write to the Minister at any time, by-passing the Agency's complaints process entirely. The Minister will reply for policy issues. Any operational or case specific enquiries are referred to the Chief Executive to reply as he is in the best position to do so.

The case can be raised with the Independent Case Examiner (ICE). In order to raise a case with the ICE, the Agency has to have had the opportunity to answer the complaint, usually through a response from the Chief Executive.

Raise the case with the Parliamentary Ombudsman.

Raise a Parliamentary Question.

Raise an Adjournment Debate.

Relevant contact details have been included as Annex A to this letter for your reference.

I hope you find this answer helpful.

Child Support Agency: Costs

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the net cost of the Child Support Agency in each year since 1993-94, including administrative costs and the effect of reduced benefit payments; and if he will make a statement. [146448]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Duncan Gilchrist dated 9 October 2007:

In reply to your recent parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on annual leave I am responding, with his authority, on his behalf.

You asked the Secretary of State for Work and Pensions, what estimate he has made of the net cost of the Child Support Agency in each year since 1993-94 including administrative costs and the effect of reduced benefit payments; and if he will make a statement.

The information available, including the amount of maintenance paid to the Secretary of State in respect of parents with care on Income Support and Income-based Jobseekers Allowance, is presented in the attached table.

The amounts of benefit saved has declined each year since 2003-04. This is because the proportion of benefit cases within our overall caseload has decreased. The introduction of the Child Maintenance Premium in 2003 has also meant that the amount passed to the Secretary of State on each case has decreased as parents with care on benefit are entitled to keep a proportion of the money paid to them by non-resident parents.

I hope you find this response helpful.

Net cost of the Child Support Agency in each year since 1993-94 including administrative costs and annual savings in benefits

£ million

	Annual agency net administration costs	*Annual savings in benefit*
2005-06	465.22	103.71
2004-05	425.59	117.30
2003-04	451.60	141.30
2002-03	428.90	146.50
2001-02	361.90	137.50
2000-01	298.30	143.00
1999-2000	266.70	148.00
1998-99	231.20	[1]
1997-98	225.90	[1]
1996-97	224.50	[1]
1995-96	199.30	[1]
1994-95	192.40	[1]

[1] Not available.

Notes:

1. We are unable to provide figures for 1993-94, as audited accounts were not published for that year; therefore the information is not available.
2. Details of the annual savings in benefits are unavailable before 1999-2000.
3. Annual saving in benefit relates to maintenance collected and passed to the Secretary of State rather than the parent with care.
4. Information from 1994-95 to 2005-06 is sourced from the Child Support Agency's published Annual Report and Accounts, and differs slightly from the published Quarterly Summary Statistics, which uses monthly figures, not subjected to year-end adjustment.
5. In 2005-06, following National Audit Office advice, the Agency's accounting boundaries were changed to include Child Support Reform Programme costs in the Agency's Annual Report and Accounts. The 2005-06 accounts and the 2004-05 comparatives were changed. In line with this policy the table above includes Child Support Reform costs from 1999-2000.
6. Figures are rounded.

Child Support Agency: Debt Collection

Mr. Laws: To ask the Secretary of State for Work and Pensions what powers the Child Support Agency has to recover arrears which are more than six years old; and if he will make a statement. [146137]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 13 September 2007:

In reply to your recent Parliamentary Questions regarding the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what powers the Child Support Agency has to recover arrears which are more than six years old; and if he will make a statement.

The Child Support (Collection and Enforcement) Regulations 1992 were recently amended to remove the six-year limitation period for applying to the court for a liability order in England and Wales. The amended legislation came into force on 12 July 2006 and the effect is that debts of child support that have accrued since 12 July 2000 can be pursued through the courts.

Where arrears are outstanding for periods prior to 12 July 2000 the Child Support Agency may instigate debt recovery by alternative measures, which include imposing a Deduction from Earnings Order or employing external debt collection agencies to recover outstanding debt.

The position regarding civil recovery of child support debt in Scotland remains unchanged, with a twenty year limitation period on applications for liability orders set by the Prescription and Limitation (Scotland) Act 1973.

I hope you find this answer helpful.

Child Support Agency: Expenditure

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the cost in *(a)* cash and *(b)* real terms of running the Child Support Agency and its successor for each year from 1996-97; what forecast of costs he has made for each year up to 2012-13; and if he will make a statement; [146183]

(2) what the running costs of the Child Support Agency (CSA) were in each year from 1993-94 to 2006-07; what estimate he has made of the running costs of the CSA and its successor organisation in each year from 2007-08 to 2014-15; and if he will make a statement. [146441]

Mr. Plaskitt: The estimate of the cash requirements for the agency both historically and in the future is determined as part of the overall cash requirement for the Department. The overall estimate is not broken down on an agency basis, but is instead derived from overall departmental spend against its bank account, on a historic basis. We are therefore unable to provide the separate cash costs of running the agency.

The following table provides details of Child Support Agency actual and forecast net administration costs from 1996-97 to 2007-08 including, from 1999-2000, the costs of child support reform and the operational improvement plan.

From 2008-09 the Government intend that the Child Maintenance and Enforcement Commission will undertake the agency's activity. The exact future steady state costs of that organisation will depend on what choices parents make; how the Commission will finally configure its services; and the details of the transitional arrangements to the new scheme. All of these factors are subject to significant uncertainties. Consequently, precise year-by-year estimates are not currently available. It is estimated that, in steady state, the statutory maintenance service is expected to lead to a reduction in administrative costs of around £200 million per annum.

Child Support Agency's actual and forecast net administration costs years 1996-97 to 2007-08

Financial year	*£ million*
1996-97	224.50
1997-98	225.90
1998-99	231.20
1999-2000	266.70
2000-01	298.30
2001-02	361.90
2002-03	428.90
2003-04	451.60
2004-05	425.59
2005-06	465.22
2006-07	[1]520.34
2007-08	[1]570.00

[1] Forecast figures, may be subject to change.

Notes:

1. All information from the 2005-06 and earlier years is sourced from the Child Support Agency annual report and accounts.
2. In 2005-06 following National Audit Office advice the agency's accounting boundaries were changed resulting in the inclusion of Child Support Reform Programme costs in the agency's annual accounts. The 2005-06 accounts and the 2004-05 comparatives were changed accordingly. In line with this policy the table includes Child Support Reform costs from 1999-2000.
3. The 2006-07 net administration costs and maintenance collections may be subject to change and will be confirmed when the Child Support Agency annual report and accounts are published following the summer recess 2007.

Child Support Agency: Lone Parents

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of Child Support Agency applications are for cases where only one parent is named on the birth certificate; and if he will make a statement. [146438]

Mr. Plaskitt: The information requested is not available.

Child Support Agency: Manpower

Mr. Laws: To ask the Secretary of State for Work and Pensions how many staff were allocated a Child Support Agency enforcement worker in each quarter from 1997 to June 2007; and if he will make a statement. [146440]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Duncan Gilchrist, dated 17 September 2007:

In reply to your recent Parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on annual leave I am responding, with his authority, on his behalf.

You asked the Secretary of State for Work and Pensions, how many staff were allocated a Child Support Agency enforcement worker in each quarter from 1997 to June 2007; and if he will make a statement. [146440]

We contacted your office to clarify your question and were advised that you wanted to know the numbers of people working in enforcement activities in each quarter from 1997 to June 2007.

The information available is set out in the attached table.

Prior to the Operational Improvement Plan (OIP), the Agency had a small centrally managed team engaged in legal enforcement work which involved the Civil Enforcement of debt following the failure of Bailiff action, 3rd Party Debt Orders, Charging Orders and Orders for Sale and their Scottish equivalents. This also involved committal to prison or driving license removal.

Debt Enforcement is responsible for the initial handling of cases when payment breaks down or is not achieved. This involves Deduction from Earnings Orders when appropriate and secures legal recognition of debt through obtaining Liability Orders as well as initiating bailiff action in respect of those debts. Historically, this was carried out by a variety of different teams throughout the Agency.

The first year of the OIP focused on organisational and operational restructuring, and the training of our people to increase capacity and capability.

In the OIP we committed to increasing the resource on both types of enforcement work by 600 people. This was achieved by July 2006.

This is the first step to meet the OIP commitment to quadruple the number of people deployed on enforcement work by March 2009. The Agency has contracted out the recovery of debt on 50,000 cases, effectively increasing the total resource devoted to enforcing Child Support maintenance and getting more money to more children. The largest proportionate increase has been in the Agency Legal Enforcement Teams, which have also taken on a greater workload; there has been a substantial increase in the amount of court based enforcement activity in the first year of the OIP. The Agency now has 2861 people (Full Time Equivalent) working in our new Enforcement lines of business; Debt and Legal.

More investment in enforcement activity will continue as we make progress in clearing uncleared applications and are able to re-deploy more people on to this work.

I hope you find this response helpful.

Number of people working in enforcement activities in each quarter from 1997 to June 2007

Quarter ending	*Number of people working in enforcement associated roles*	*Number of people working in central enforcement activities*
2001		
September	1,265	97
December	1,315	111
2002		
March	1,339	124
June	1,365	133

September	—	2,494
December	—	2,966
2007		
March	—	2,861
June	—	n/a

n/a = Not available.

Notes:

1. Information prior to September 2001 is not available.
2. The numbers given are the numbers employed by the Agency on full-time equivalent basis (FTE).
3. Enforcement includes, debt enforcement which is responsible for the initial handling of cases when payment breaks down or is not achieved, including deduction from earning orders and liability orders and legal enforcement work involves the civil enforcement of debt following the failure of bailiff action, through 3rd party debt orders, charging orders and orders for sale and their Scottish equivalents.
4. For the period prior to June 2006, details include people in each area and the CSA Central Enforcement teams engaged in a variety of activities including, but not exclusively enforcement work.
5. From September 2006, figures relate to two new lines of business, debt enforcement and legal enforcement.

Child Support Agency: Payments

Mr. Touhig: To ask the Secretary of State for Work and Pensions how many cases resulted in the Child Support Agency (CSA) in each of the last three years; how many such payments the CSA made in each year; and what the total amount of such payments was in each year. [151853]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Duncan Gilchrist, dated 13 September 2007:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on annual leave I am responding, with his authority, on his behalf.

You asked the Secretary of State for Work and Pensions, how many cases resulted in the Child Support Agency making a conciliatory payment in each of the last three years; how many such payments the CSA made in each year; and what the total amount of such payments was in each year. [151853]

The information provided in the table below reflects the total number of consolatory awards, not the number of cases where a payment has been made. A client may have been awarded separate payments in respect of, for example, embarrassment and

severe distress. Figures quoted in the table will therefore count two awards against the one case. It is unfortunately not possible to provide the number of cases where a consolatory payment has been made, as we do not routinely collect this information.

Total amount of consolatory awards to clients

	2004-05	2005-06	2006-07
Consolatory payments (£m)	0.582	0.608	0.666
Total number of consolatory awards made	9,001	9,208	9,194

Child Support Agency: Standards

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many unprocessed Child Support Agency cases there were in *(a)* Eastbourne and *(b)* East Sussex in each of the last 12 months. [151402]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Duncan Gilchrist, dated 17 September 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on annual leave I am responding, with his authority, on his behalf.

You asked the Secretary of State for Work and Pensions, how many unprocessed Child Support Agency cases there were in (a) Eastbourne and (b) East Sussex in each of the last 12 months.[151402]

The information requested is provided in the attached table.

The Agency begins to process new applications as soon as they are received and continues until they have been cleared. Uncleared applications will be at varying stages in the application processes, with very few being completely unprocessed.

This table does not include those cases where the parent/person with care's residential postcode is not recorded. In some of these cases, the Agency holds a residential address without a postcode; a "contact" address; or a business address. We have excluded cases that have not yet reached the stage in the process where the postcode information has been confirmed, as it is not possible to associate them to a local authority. At June 2007 there were 22,600 uncleared applications with an 'unknown' Local Authority. This equates to 13% of all uncleared cases in June 2007.

Figures are rounded to the nearest 10. As the quality of the management information within the Agency improves, the figures are subject to revision and information in the table, therefore, may differ slightly from previously released figures.

I hope you find this answer helpful.

Volume of uncleared applications in East Sussex local authority: new and old scheme from July 2006 to June 2007

	Number
2006	
July	1,280
August	1,290
September	1,290
October	1,330
November	1,330
December	1,320
2007	
January	1,300
February	1,280
March	1,250
April	1,230
May	1,220
June	1,240

Volume of uncleared applications in Eastbourne parliamentary constituency: new and old scheme from July 2006 to June 2007

	Number
2006	
July	310
August	320
September	320
October	320
November	330
December	330
2007	
January	330
February	330
March	320
April	310
May	310
June	320

Notes:

1. These tables counts applications for child support. Not all applications become live cases.
2. A potential new application is defined as cleared when it:
has had a calculation and a payment arrangement set up (new scheme only) or has had an assessment (old scheme only);
has been closed;
has been identified as having had a good cause decision accepted;
has been identified as being subject to a reduced benefit decision;
has been identified as a change of circumstances to an existing case, as opposed to a new application (new scheme only).
3. Volumes are rounded to the nearest 10.
4. The figures are subject to revision and therefore may differ slightly from previously released figures.

Children: Maintenance

Mr. Laws: To ask the Secretary of State for Work and Pensions what restrictions there are on the Child Support Agency accessing HM Revenue and Customs information about non-resident parents' *(a)* income, *(b)* employment status and *(c)* home address; and if he will make a statement. [146432]

Mr. Plaskitt: The Child Support Agency can only access HM Revenue and Customs information about non-resident parents' *(a)* income *(b)* employment status and *(c)* home address subject to meeting the requirements of the legal information gateways set out in the Child Support Act 1991, the Social Security Administration Act 1992, the Social Security Act 1998, the Tax Credits Act 2002, and the Data Protection Act 1998.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many non-resident parents being pursued by the Child Support Agency *(a)* have moved abroad and *(b)* are untraceable; and if he will make a statement. [146443]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 17 September 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many non-resident parents being pursued by the Child Support Agency (a) have moved abroad and (b) are untraceable; and if he will make a statement. [146443]

Information on the number of non-resident parents who are untraceable is not available. The number of non-resident parents currently residing abroad but within our jurisdiction is reported in the Agency Quarterly Summary Statistics and, as of March 2007, currently stands at 6,600. We do not have any information on any non-resident parents living abroad outside our jurisdiction.

I hope you find this answer helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions what the Child Support Agency compliance rates are in cases where the parent with care is on benefits with *(a)* a complete clawback of maintenance and *(b)* a £10 per week disregard of maintenance; and if he will make a statement. [146445]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 13 September 2007:

In reply to your recent parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what the Child Support Agency compliance rates are in cases where the parent with care is on benefits with *(a)* a complete clawback of maintenance and *(b)* a £10 per week disregard of maintenance; and if he will make a statement.

Information on the numbers of parents with care on income based benefits is only available to August 2006. The compliance rate for new scheme cases where the parent with care was in receipt of income based benefits and therefore eligible to receive the £10 child maintenance premium was 65 per cent. in the quarter ending August 2006. The compliance rate for old scheme cases where the parent with care was on income based benefits and therefore not eligible to receive the child maintenance premium was 64 per cent. in the quarter ending August 2006.

I hope you find this helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions how much income support was recovered by the Child Support Agency in each year from 1993-94 to 2007-08; and if he will make a statement. [146446]

Mr. Plaskitt: The information requested is not available in the format that you have requested. Although the agency publish total payments made to the Secretary of state in the annual report and accounts, the amount of child maintenance recovered to the Secretary of state cannot be fully broken down by each benefit.

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of parents with care who received any form of regular child maintenance from the non-resident parent in each year from 1990-91 to 2007-08; and if he will make a statement. [146447]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Duncan Gilchrist, dated 13 September 2007:

In reply to your recent parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on annual leave I am responding, with his authority, on his behalf.

You asked the Secretary of work and Pensions, what estimate he has made of the proportion of parents with care who received any form of regular child maintenance from the non-resident parent in each year from 1990-91 to 2007-08; and if he will make a statement. [146447]

The information requested can be obtain from Table 7.2 of the March 2007 Child Support Agency Quarterly Summary of Statistics. A copy of this is available in the House of Commons Library, or on the internet via the following link:

www.dwp.gov.uk/asd/asd1/child_support/csa_quarterly_jun07.asp.

I hope you find this answer helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions in how many and what percentage of cases that were dealt with by the Child Support Agency in the last 12 months it was impossible to establish the identity of the non-resident parent due to failure to register parenthood jointly on the birth certificate; and if he will make a statement. [146628]

Mr. Plaskitt: The information requested is not available.

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of non-resident parents whose child maintenance payments will rise by more than *(a)* 10 per cent., *(b)* 20 per cent., *(c)* 30 per cent. and *(d)* 50 per cent. under the new arrangements for the Child Maintenance and Enforcement Commission; and if he will make a statement. [146631]

Mr. Plaskitt: With the increased focus on voluntary arrangements and the ending of the requirement that parents with care on benefit be treated as applying for child maintenance, not all of the current Child Support Agency caseload will choose to use the statutory maintenance service. In many cases parents will choose to make voluntary arrangements supported by an information and support service. Since these arrangements are a matter for parents to agree upon it is not possible to estimate the proportion of non-resident parents whose child maintenance payments will rise by more than certain percentages.

Where parents do choose to use the statutory maintenance arrangements the proposed statutory maintenance formula has been chosen to broadly replicate the current system. Figures on the amount paid under the second child support scheme and

statutory maintenance arrangements under different income levels and for different family sizes can be found in table 2, page 19 of the regulatory impact assessment which accompanied the Child Maintenance and Other Payment Bill.

Mr. Laws: To ask the Secretary of State for Work and Pensions what the current rate of deduction for child maintenance is for non-resident parents on benefits by the Child Support Agency; when the rate was fixed; what the rate would be worth if uprated by the retail price index; and if he will make a statement. [147081]

Mr. Plaskitt: The current flat rate of deduction in respect of child maintenance from non-resident parents who are in receipt of benefit is £5 per week. The current flat rate was fixed when the Child Support, Pensions and Social Security Act 2000 was granted Royal Assent in July 2000.

We estimate that if the £5 flat rate had been uprated each March, in line with the retail price index, it would currently be £5.99 per week.

Children: Poverty

Chris Grayling: To ask the Secretary of State for Work and Pensions what the Government's targets were for lifting children out of poverty in each year since 1997; and whether each target was met. [150048]

Caroline Flint: We do not have annual child poverty targets; however we have set challenging goals to halve child poverty by 2010 and eradicate it by 2020.

Council Tax Benefits

Tom Brake: To ask the Secretary of State for Work and Pensions how many *(a)* people, *(b)* senior citizens and *(c)* families (i) were entitled to and (ii) received council tax benefit in each borough in the last period for which figures are available. [155215]

Mr. Plaskitt *[holding answer 12 September 2007]:* The latest estimates of the take-up of the main income-related benefits: income support, pension credit, housing benefit, council tax benefit and jobseeker's allowance (income-based) in Great Britain can be found in the DWP report entitled "Income Related Benefits Estimates of Take-Up in 2004/2005".Copies of the publication are available in the Library.

The available information about the number of families receiving council tax benefit in each local authority has been placed in the Library.

Andrew Stunell: To ask the Secretary of State for Work and Pensions how many households are in receipt of council tax benefit, broken down by region; and what estimate he has made of the number of households eligible to receive council tax benefit. [155582]

Mr. Plaskitt: The latest estimates of the take-up of the main income-related benefits—income support, pension credit, housing benefit, council tax benefit and jobseeker's allowance (income-based)—in Great Britain can be found in the DWP report entitled 'Income Related Benefits Estimates of Take-Up in 2004-05'.Copies of the publication are available in the Library.

The available information is in the following table.

Council tax benefit caseloads by Government office region, February 2007

	Total CTB claimants
All GB	5,096,570
North East	295,620
North West	686,640
Yorkshire and Humber	461,040
East Midlands	338,270
West Midlands	506,650
East	390,900
London	728,470
South East	504,029
South West	268,810
Wales	282,240
Scotland	533,920

Notes:
1. The data refer to benefit units, which may be a single person or a couple.
2. Caseload has been rounded to the nearest 10.
3. Figures for any non-responding authorities have been estimated.
4. CTB figures exclude any second adult rebate cases.
5. The totals may not sum due to rounding.

Source:
Housing benefit and council tax benefit management information system quarterly 100 per cent. caseload stock-count taken in February 2007.

Council Tax Benefits: Ethnic Groups

Andrew Stunell: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of black and minority ethnic households that are *(a)* eligible for and *(b)* in receipt of council tax benefit. [155581]

Mr. Plaskitt: The information is not available.

Council Tax Benefits: Forms

Tom Brake: To ask the Secretary of State for Work and Pensions what the *(a)* minimum and *(b)* maximum number is of pages of the council tax benefit form a person is required to complete to claim the benefit. [155214]

Mr. Plaskitt *[holding answer 12 September 2007]:* DWP issues model claim forms for council tax benefit (CTB). The minimum number of pages a claimant has to complete on a DWP CTB form is two, where they are reclaiming CTB after a break of less than 12 weeks.

The minimum number of pages a claimant who is making a brand new claim for CTB has to complete is three. This applies to customers who are also getting or have applied for pension credit.

The maximum number of pages a claimant has to complete to claim CTB is 27. This is where the customer is making a brand new claim for CTB, and is not claiming alongside another means-tested benefit. If housing benefit is also claimed at the same time as CTB, the total number of pages to claim both benefits could be a maximum of 33.

Council Tax Benefits: Low Incomes

Harry Cohen: To ask the Secretary of State for Work and Pensions if he will bring forward proposals to change the council tax benefit system to redistribute unclaimed benefit to the poorest households. [153736]

Mr. Plaskitt: We have no plans to change the council tax benefit system to redistribute unclaimed benefit to the poorest households.

Council Tax Benefits: Scotland

Mr. Byers: To ask the Secretary of State for Work and Pensions how much was provided to the Scottish Executive for the payment of council tax benefit in each of the last five years. [151499]

Mr. Plaskitt *[holding answer 23 July 2007]:* The information is in the following table:

Council Tax Benefit Subsidy Paid to Scottish Local Authorities

	£ million
2001-02	288
2002-03	294
2003-04	307
2004-05	345
2005-06	354

Notes:
1. Local authorities pay council tax benefit (CTB) to eligible claimants and central Government fund the payments by way of CTB subsidy paid to the authorities.
2. Payment of CTB subsidy is made to individual local authorities, not the Scottish Executive, based on audited claims made by the authorities.
3. Benefit which is paid in accordance with CTB rules is subsidised at 100 per cent., but lower rates of subsidy are paid where there has been an overpayment of benefit, caused by, for example, claimant error or fraud.

Source: Audited subsidy claims submitted to DWP by local authorities.

Departments: Accountancy

Chris Grayling: To ask the Secretary of State for Work and Pensions on how many occasions the Department had its accounts qualified by auditors in the last 10 years. [154880]

Mr. Mike O'Brien *[holding answer 10 September 2007]:* In his report on the 2006-07 accounts, published on 25 July, the Comptroller and Auditor General said:

This is the 18 successive year in which I have qualified the Department's accounts. I am please to report, however, that this year has seen further real progress towards removing or tackling these long-standing qualifications, building on initiatives put in train last year.

"The Department's staff have continued to demonstrate real determination to resolve the underlying causes of these qualifications. Indeed I have been able to remove two aspects of the long-standing limitation of scope qualification on customer overpayment debt balances, which is a tribute to the clear leadership evident within the Department in tackling these issues."

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Work and Pensions how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151980]

Mrs. McGuire: The Department for Works and Pensions spent the following amount on hire charges relating to the provision of mobile air conditioning units:

	£
2002-03	0
2003-04	7,641.00
2004-05	10,824.00
2005-06	705.00
2006-07	278.00

The Department entered into a 20 year PFI Contract with Land Securities Trillium (LST) in 1998 known as the PRIME Contract, which was expanded in 2003 following the merger of Department of Social Security and the Employment Service. The contract is for the provision of fully serviced accommodation and the Department pays an all-inclusive unitary charge to LST for this provision.

This unitary charge includes the provision, if required, for mobile air conditioning units. Therefore, the costs identified are for the provision of a unit that falls outside of the scope of the PRIME Contract, and is therefore relatively small. An example of a requirement outside the scope would be a site not included within the PRIME portfolio, where facility management responsibility is retained by the Department.

Departments: Aviation

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much was spent by his Department on *(a)* first class and *(b)* business class flights in the last 12 months. [153183]

Mrs. McGuire: The Department has spent in the last 12 months:

(a) £6,374 on first class flights

(b) £1,415,556 on business class flights

Departments: Crime

Mr. Clegg: To ask the Secretary of State for Work and Pensions which criminal offences have been introduced by his Department in primary legislation since October 2006. [149705]

Mrs. McGuire: The only criminal offence created by Department for Work and Pensions primary legislation made since October 2006 is contained in section 43 of the Welfare Reform Act 2007.

This provision, when in force, will make it a criminal offence for a local authority employee to make an unauthorised disclosure of benefit information obtained under section 42 of the 2007 Act. A person guilty of an offence under section 43 is liable to a maximum of two years imprisonment in the Crown court or (subject to section 43(8)) 12 months imprisonment before the magistrates court or a fine or both.

Section 43 replaces a very similar provision in the Local Government Act 2000.

Departments: Delivery Services

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150463]

Mrs. McGuire: The information for *(a)* is listed in the following table. It does not include output of mail items sent from the Department's local offices as this information is not held centrally and could be obtained only by incurring disproportionate costs. Royal Mail collect, sort and deliver mail from majority of DWP sites including the collection of first class mail from a DWP supplier who produces mail on behalf of the Department.

	Volume
2002	121,754,264
2003	116,806,028
2004	105,367,565
2005	84,532,423
2006	89,694,433

(b) DWP uses other commercial delivery services secured through competitive tender awarded on the basis of value for money and increased efficiency.

UK Mail were recently awarded a contract following a competition to handle items of DWP second class mail collected from two regional distribution centres which is passed to Royal Mail for final mile delivery under downstream access. DWP will achieve significant savings over the duration of this contract.

The Department sends approximately 18 million items per year between DWP offices through a courier service. This includes the distribution of internal mail and stationery from our print suppliers. We are unable to provide more accurate information as these data are not held centrally and to obtain them would incur disproportionate costs.

The Department has an annual average volume of 1.5 million items of international mail dealt with from various sites by a company called "Spring". Again, we are unable to provide more accurate data as the information is not held centrally and to obtain it would incur disproportionate costs.

Departments: Departmental Records

Harry Cohen: To ask the Secretary of State for Work and Pensions pursuant to the answer of 16 July 2007, *Official Report*, column 84W, on Departments: Departmental Records, what estimate he has made of the annual increase of files in storage since 2004; what the basis is on which files are kept and accessed; for how long they are kept; and what the criteria for disposal are. [152738]

Mrs. McGuire: The original file holding in central sites in July 2004 was 16,700,00.

	File holding Heywood site
July 2007	44,425,291
July 2006	35,055,824
July 2005	25,003,306
July 2004	16,714,353

The number of files held by the Department for Work and Pensions (DWP) and its agencies at July 2007 is approximately 52.7 million (this includes 7.3 million DCS files are held at Nelson store).

DWP employs a policy to actively maintain and retain customer information and documentation for as long as they are required for departmental business purposes.

Documentation relating to customer claims for benefit are retained for as long as the decision to pay or not pay on the claim remains current and 14 months after it is superseded, withdrawn or refused.

The retention of corporate documentation is determined by business need, taking into account any statutory, legal considerations. Corporate information, such as Registered Files are retained, reviewed and disposed of in accordance with the Public Records Acts 1958 and 1967 and in consultation with the National Archives.

This takes regard to the requirements of the Data Protection Act 1998 and Freedom of Information Act 2000, however, retention periods are determined to meet DWP business purposes.

Access to all records is strictly determined by departmental business reasons. Operational procedures are in place to control this.

Harry Cohen: To ask the Secretary of State for Work and Pensions pursuant to the answer of 16 July 2007, *Official Report*, column 84W, on Departments: Departmental Records, what mechanisms are in place to prevent the duplication of files for the same claimants. [153704]

Mrs. McGuire: Customer details are entered onto DWP's electronic file system using the national insurance number as the key unique identifier and this will prevent the duplication of customer files.

Each business unit and benefit type within that unit will retain its own record/file for each individual. Within DWP guidance there is a requirement to consider previous records and either maintain all documents within one file or ensure that the earlier files are marked for destruction depending on how long ago the previous claim went dormant.

In addition there may be occasions for urgent cases when a duplicate file may be raised with the intention that is linked with the original at the first opportunity. Depending on linking rules some benefits will legitimately have more than one record.

Departments: Incapacity Benefit

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many employees of his Department in receipt of statutory sick pay moved on to incapacity benefit in each year since 1997, broken down by disease group. [152146]

Caroline Flint: Unfortunately this information cannot be calculated in the timescale and would be at disproportionate cost. The Payroll system does not hold data on staff who move from SSP to incapacity benefit. The Data Matching Service have advised that it would be a disproportionate cost to get this information from the PSCS system.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many press officers are employed by his Department. [153181]

Mrs. McGuire: As at 30 July 2007, 16 national press officers and 26 regional press officers were employed by the Department.

Departments: New Deal Schemes

Mr. Clappison: To ask the Secretary of State for Work and Pensions (1) how many individuals recruited by his Department from new deal programmes since the inception of the scheme left within *(a)* six and *(b)* 12 months; [152158]

(2) how many individuals his Department has recruited from new deal schemes since the inception of the new deal, broken down by scheme. [152159]

Mrs. McGuire: We are unable to provide the number of individuals the Department has recruited from new deal schemes, by specific scheme, as this information is not collected.

Departments: Pensions

David Simpson: To ask the Secretary of State for Work and Pensions how many and what percentage of staff in his Department are making additional voluntary contributions to their pensions; and what steps he has taken in the last year to encourage more people to make such contributions. [147319]

Mr. Plaskitt: 2,189 members of staff in the Department for Work and Pensions (1.74 per cent. of the total number of staff employed by the department) currently make additional voluntary contributions through deductions from their pay.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much was spent by his Department on newspapers and magazines in the last 12 months. [153185]

Mrs. McGuire: The DWP spent a total of £126,393.63 on periodicals and newspapers in the last 12 months.

Departments: Railways

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much was spent by his Department on first class train tickets in the last 12 months. [153184]

Mrs. McGuire: The Department spent £9.48 million on first class rail tickets in the last 12 months.

Departments: Sick Leave

Mr. Clappison: To ask the Secretary of State for Work and Pensions what the average duration was of an absence from work through sickness in his Department in each year since 1997. [152150]

Mrs. McGuire: Official figures on the level of sickness absence in the civil service are reported by the Cabinet Office annually in a report titled 'Analysis of Sickness Absence in the Civil Service'. However, the Cabinet Office does not report 'average duration' at summary level in this report, therefore the figures quoted in the table are taken from data held internally. Data on 'average durations' have been recorded internally since 2002-03.

Financial year	*Average duration working days*
2006-07	6.3
2005-06	6.5
2004-05	7.1
2003-04	6.7
2002-03	6.2

The figures for 'average duration' are based on April to March working days.

Departments: Sick Pay

Mr. Clappison: To ask the Secretary of State for Work and Pensions (1) what total amount of statutory sick pay was received by employees of his Department in each year since 1997; [152147]

(2) how many and what proportion of employees in his Department were in receipt of statutory sick pay in each year since 1997; [152161]

(3) how much occupational sick pay has been paid to employees of his Department in each year since 1997. [152162]

Caroline Flint: A new system has been rolling out since November 2006 and the information cannot be provided from legacy systems without disproportionate cost. On the new system the information will not be available until the end of the financial year.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much was spent by his Department on industrial tribunals in the last 12 months. [153187]

Mrs. McGuire: The total amount spent by the Department for Work and Pensions in legal costs (representing the amount spent on case workers, lawyers and barristers) in defending Employment Tribunal claims between 1 July 2006 and 30 June 2007 is £2,907,334.90.

Departments: Westmorland

Tim Farron: To ask the Secretary of State for Work and Pensions if he will consider locating or relocating additional departmental jobs to Westmorland and Lonsdale. [152842]

Mrs. McGuire: The Department currently employs 26.91 (full-time equivalent) staff within the Westmorland and Lonsdale constituency at the Jobcentre Plus office in Kendal. The Department has no plans at this time to either expand on or reduce the service delivered from this Jobcentre Plus office.

Disability Aids: Departmental Cooperation

Mr. Boswell: To ask the Secretary of State for Work and Pensions what steps he is taking to improve the delineation of responsibility between the Social Fund and other public agencies in connection with the provision of disability aids and adaptations. [154831]

Mr. Plaskitt *[holding answer 10 September 2007]:* The Social Fund is flexible and capable of covering a wide range of individual circumstances. In particular, the Social Fund Community Care Grant complements the help of other supporting agencies such as the national health service and local authorities in fulfilling general aims for community care.

It is the responsibility of local Social Services Departments to carry out assessments and provide assistance with necessary aids and adaptations for disabled people. Guidance to Social Fund decision makers makes it clear that a Community Care Grant should be considered in the normal way where expenses do not fall within the statutory responsibility of a local authority.

Disability Living Allowance

Mike Wood: To ask the Secretary of State for Work and Pensions how many claims for disability living allowance there were between April 2006 and January 2007. [152731]

Mrs. McGuire: Between April 2006 and January 2007 there were 355,090 claims received for disability living allowance.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many claims for disability living allowance were made in each year since 1997; what proportion were approved; and if he will make a statement. [153583]

Mrs. McGuire: The available information is in the following table.

Disability living allowance (DLA) new claims

Year ended November	*Total DLA claims received*	*Percentage of claims approved*
1997	490,620	45.1
1998	396,830	45.5
1999	393,090	45.4
2000	405,530	50.7
2001	413,070	51.1
2002	422,830	52.8
2003	436,720	50.7
2004	439,750	48.2
2005	428,960	46.2
2006	427,080	45.5

Notes:
1. These data are drawn from management information and should not be used in conjunction with sample statistics drawn from the benefit administration systems.
2. Figures are rounded to the nearest 10;
Source:
DCS Computer System

Mr. Harper: To ask the Secretary of State for Work and Pensions in what circumstances an individual's eligibility for disability living allowance is reassessed; and if he will make a statement. [153587]

Mrs. McGuire: Eligibility to disability living allowance is reassessed when an award is due to end and a further claim is submitted, or when the customer asks for the decision to be looked at again or when information is received suggesting that there has been a change of circumstances since the original award of benefit was made.

Mr. Harper: To ask the Secretary of State for Work and Pensions what the earnings disregard for disability living allowance was in April of each year since 1997. [153588]

Mrs. McGuire: Disability living allowance is not an income-related benefit. Earnings are not taken into account when entitlement is assessed and there is therefore no earnings disregard.

Disability Living Allowance: Appeals

Mike Wood: To ask the Secretary of State for Work and Pensions how many disability living allowance claimants appealed against decisions made on their claims between April 2006 and January 2007. [152752]

Mrs. McGuire: From 1 April 2006 to 31 January 2007, 79,237 appeals were registered on the disability living allowance computer system.

Employment

Mr. Clappison: To ask the Secretary of State for Work and Pensions what plans he has to list the groups in the working age population which he thinks should not be expected to work. [152596]

Mr. Plaskitt: A key element of the Government's strategy to increase the overall employment rate is to extend employment and skills support to those who are economically inactive.

Establishing a list of groups that are not expected to work might limit the aspirations of those who, where appropriate and with the right support, could re-enter the labour market and then move back into work. In our Welfare Reform Green Paper "In work, better off" Cm 7130, published on 18 July 2007, we have reiterated our aim of extending the opportunity to work to all.

Employment Schemes

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions what assessment he plans to make of the analysis of the barriers to work set out in the National Audit Office report Helping People from Workless Households into Work, HC 609. [152280]

Caroline Flint: We welcome the National Audit Office report "Helping People from Workless Households into Work". As the report describes, there are now more people in work than ever before and the existing range of employment programmes have been a success. They are also right that there remain three

million workless households with too many children living in poverty. This is why we have put forward new proposals in the Green Paper, "In work, better off: next steps to full employment", to deliver a step change in the employment and skills support we offer to the most disadvantaged in the labour market.

We will consider their analysis of the barriers to work and the recommendations they have made.

Employment Services

Mr. Clappison: To ask the Secretary of State for Work and Pensions what plans he has for pilot studies of private and voluntary sector involvement in the provision of employment support; what the timetable is for such pilots; and if he will make a statement. [150855]

Caroline Flint: Private and third sector organisations already play an important role in delivering employment support to people who are out of work. Examples of this include the new deal for disabled people, employment zones, and pathways to work, for which we are currently letting contracts. We will continue to learn from all of these different types of involvement and consider how we can provide better incentives and rewards for providers.

As our Green Paper "In work, better off" Cm7130, published on 18 July 2007, sets out, we are currently developing a more strategic approach to the commissioning of employment programmes. Over the coming months we will be talking to a wide variety of providers and others and drawing on evidence from the UK and elsewhere to inform this approach. We also propose to test certain approaches, such as rewarding providers who are successful in moving people into sustained employment with increased funds to invest in further activity.

Employment: Disabled

Mr. Clappison: To ask the Secretary of State for Work and Pensions what progress has been made in piloting the redesigned personal capability assessment; and what evaluations he has made of the results of the pilots. [150856]

Caroline Flint: Following the early testing of the revised personal capability assessment that was carried out last year and reported in February 2007, we have completed a more extensive, Phase 2 test on a larger and more representative sample of cases. The outcome of this is currently being evaluated, and we expect to publish a report of Phase 2 evaluation in the late summer or early autumn.

Employment: Pensioners

Mr. Clappison: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of individuals in employment over state pension age who want to work; and what research he has *(a)* commissioned and *(b)* evaluated on employment of people over the state pension age. [152598]

Mr. Mike O'Brien: The number of people working past state pension age has been increasing, and currently stands at just under 1.2 million. Research has shown that there are a number of reasons why people want to continue working. Around one third of those people aged under 70 who retired after state pension age gave enjoying their job/working as one reason for retiring after SPA in 2002 research (DWP RR200). Financial reasons play an important part but also orientation towards work, job satisfaction and valued social networks formed through work are influential. Health status has an important influence over whether people are able to work after SPA.

DWP commissioned and published research reports on this area are listed as follows:

- Factors affecting labour market participation of older workers (DWP RR 200): a quantitative survey of 2,800 people aged 50 to 69;
- Factors affecting labour market participation of older workers: qualitative research (DWP RR 281): a qualitative study with in-depth interviews and focus groups with individuals aged 50 to 69;
- Working after state pension age: quantitative analysis (DWP RR 182): analysis of quantitative surveys such as the Labour Force Survey, Family Resources Survey, British Household Panel Survey looking as the circumstances under which people work after SPA;
- Working after state pension age: qualitative research (DWP RR 208): in-depth interviews and focus groups with people approaching and over SPA including those in work and those not working.

Our evaluation of this research has informed policy developments in this area.

We have commissioned, but not yet published, research to examine how we can best enable the 60 to 64 age group to take up or remain in work. The research is due to be published late in 2007.

Employment: Retail Trade

Mr. Weir: To ask the Secretary of State for Work and Pensions which retailers have been chosen *(a)* in Scotland and *(b)* throughout the UK to supply the incentive vouchers used by engagement consultants employed by Working Links to attract potential recruits under the scheme since its commencement. [152362]

Caroline Flint: The information is not available.

Government Departments: New Deal Schemes

Mr. Clappison: To ask the Secretary of State for Work and Pensions whether his Department keeps a record of the recruitment of individuals from New Deal programmes by other Government departments. [152445]

Mr. Plaskitt: The Department does not keep a record of how many individuals, from new deal programmes, have been recruited by other Government Departments.

Housing Benefit

Mrs. Lait: To ask the Secretary of State for Work and Pensions on what year rental valuations are based for the purpose of calculating housing benefits. [152548]

Mr. Plaskitt: Rental valuations for the purpose of calculating housing benefits are not based on a specific year.

Housing Benefit: Islington

Jeremy Corbyn: To ask the Secretary of State for Work and Pensions what the average level of housing benefit paid to *(a)* local authority tenants, *(b)* housing association tenants and *(c)* private sector tenants in the borough of Islington was in (i) the last 12 months and (ii) each of the last three years. [150509]

Mr. Plaskitt *[holding answer 18 July 2007]:* The available information is in the following tables.

Average weekly amount of housing benefit by tenure in the London borough of Islington in the last available 12 months

£ per week

	Local authority tenants	*Registered social landlord tenants*	*Private tenants*
February 2006	77.51	89.85	127.00
May 2006	82.77	91.75	129.51
August 2006	82.95	94.18	131.64
November 2006	82.79	95.17	133.87

Average weekly amount of housing benefit by tenure in the London borough of Islington in the last available three years

£ per week

	Local authority tenants	*Registered social landlord tenants*	*Private tenants*
November 2004	75.14	83.13	118.71
November 2005	77.55	89.17	126.52
November 2006	82.79	95.17	133.87

Notes:
1. The data refer to benefit units, which may be a single person or a couple.
2. Average amounts have been rounded to the nearest penny.
3. Figures for any non-responding authorities have been estimated.
4. Housing benefit excludes any extended payment cases.

Source:
Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in the quarters shown.

Incapacity Benefit

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions how many officials an incapacity benefit claimant has to deal with on average before he or she can claim the benefit; and if he will make a statement. [155227]

Mrs. McGuire *[holding answer 12 September 2007]:* Customers who wish to claim incapacity benefit can do so in several ways. They can telephone a Jobcentre Plus Contact Centre and speak to an official or arrange to see an official in a Jobcentre or obtain a claim form from Jobcentre Plus and return it by post or complete a claim form online via the Jobcentre Plus website.

Generally therefore, a customer would only contact a single Jobcentre Plus official in order to make a claim to incapacity benefit.

Incapacity Benefits: Mortgages

Sarah Teather: To ask the Secretary of State for Work and Pensions what support is available to assist *(a)* able-bodied and *(b)* disabled people who stop work at short notice due to incapacity in paying the interest on their mortgages; and what limits are placed on this support relating to (i) weekly payments, (ii) the size of mortgage covered and (iii) timespan for which support is available. [152795]

Mr. Plaskitt *[holding answer 26 July 2007]:* There is no difference between income support and jobseeker's allowance regarding the level of assistance with housing costs for disabled and non-disabled claimants who leave work. Claimants who took out a mortgage after 2 October 1995 must wait 39 weeks before assistance with their housing costs is paid.

People who have caring responsibilities, or who have been refused payments under an insurance policy due to either a pre-existing medical condition or because they were infected with HIV may receive such assistance earlier.

Generally no assistance is available where a person takes a loan out while in receipt of benefit and no assistance is provided towards arrears, capital repayments or insurance premiums. Help can be given towards the interest on the first £100,000 of the outstanding loan. Such assistance with housing costs is available until entitlement to income support or income-based jobseeker's allowance ceases.

Similar rules apply to people on pension credit. However, they do not have to serve a waiting period before assistance with housing costs can be paid.

The capital limit of £100,000 does not apply to loans taken out to adapt the existing dwelling for the needs of a disabled person.

A claimant may take out a loan during their benefit claim in order to move to a new property that is more suitable for the needs of a disabled person. However, in these cases the capital limit of £100,000 would still apply.

Jobcentre Plus: Closures

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus offices closed in each year since 2001, broken down by Parliamentary constituency. [152791]

Mr. Plaskitt *[holding answer 26 July 2007]:* The information requested is available only at disproportionate cost.

Mr. Carmichael: To ask the Secretary of State for Work and Pensions whether there are plans to close Jobcentre Plus offices in Scotland. [153444]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 17 September 2007:

The Secretary of State has asked me to reply to your question asking whether there are plans to close Jobcentre Plus offices in Scotland. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Over the last five years Jobcentre Plus has undertaken a programme of major refurbishment to modernise its office network and introduce improved business processes to support customers. This programme commenced in 2002 when Jobcentre Plus integrated the services formerly provided by the Employment Service and parts of the Benefit Agency. We inherited around 1,500 offices from these two organisations, many of which were unsuitable for Jobcentre Plus either in terms of their location or their physical structure.

I can confirm there are definite plans to close three Jobcentre Plus offices in Scotland: Portobello; Dundee (Seagate); and Perth. These offices currently deal with benefit processing only and therefore are not open to the public. The work is being migrated to our Benefit Delivery Centre network.

Since its inception Jobcentre Plus has continuously improved its services to customers through modern telephony and e-services. This allows us to review our network of offices to focus our resources where they are most needed.

I hope this is helpful

Jobcentre Plus: Manpower

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people were employed by *(a)* the Employment Service and *(b)* Jobcentre Plus in each year since 2002, broken down by region. [150039]

Mr. Mike O'Brien: Regional breakdown is not available for 2002 and 2003. The number of full-time equivalents (FTE) employed by Jobcentre Plus (formed in 2002) in each of these years is 86,910 and 82,904 respectively.

The available information for 2004 to 2007 is in the following table.

	FTE as at March:			
Region	*2004*	*2005*	*2006*	*2007*
East Midlands	4,647.87	4,379.46	4,328.26	4,315.52
East of England	5,105.77	4,833.82	4,566.04	4,226.43
London	11,400.74	10,401.92	9,367.19	8,788.02
North East	4,949.76	4,650.66	4,475.21	4,258.80
North West	10,810.76	10,011.12	9,544.17	9,254.00
Scotland	8,508.70	7,817.84	7,123.28	6,738.43
South East	6,666.49	6,111.41	5,432.48	5,279.61
South West	5,012.37	4,694.79	4,448.53	4,254.78
Wales	4,878.71	4,675.03	4,520.56	4,414.25
West Midlands	6,851.50	6,318.87	5,946.79	5,869.54
Yorkshire and the Humber	7,327.12	6,911.23	6,117.87	6,104.38
Other[1]	3,936.98	3,668.32	5,351.04	4,441.81
Grand total	80,096.77	74,474.47	71,221.42	67,945.57

[1] Figure includes staff in central support teams and the national directorates where a regional breakdown is not available.

Jobcentre Plus Management Information Portal

Jobcentre Plus: Standards

Lynne Jones: To ask the Secretary of State for Work and Pensions what representations he has received on the *(a)* accessibility and *(b)* efficiency of Jobcentre Plus services since the move to centralised contact and processing centres; and if he will make a statement. [151494]

Mr. Plaskitt: Ministers and officials meet regularly with stakeholders regarding the services we provide. Specifically we have received representations from the House of Commons Work and Pensions Select Committee Report in March 2006, and the Citizen's Advice Bureau report on 19 July 2007.

In light of the Select Committee report and feedback, Jobcentre Plus commissioned independent research around the accessibility of Jobcentre Plus services with key stakeholder groups. These groups included benefit claimants with hearing impairments, speech impediments, learning difficulties, mental health issues and non-English speakers and Jobcentre Plus staff.

The findings from this research were published on 19 July 2007. The full report "The Use of Jobcentre Plus Telephony and Face-to-face First Contact Services by Customers with Specific Communication Barriers" (Research Report No. 446) is now available on the DWP website and copies have been placed in the Library.

Jobcentre Plus: Unemployment Benefits

Lynne Jones: To ask the Secretary of State for Work and Pensions what advice on benefit entitlement is available at Jobcentre Plus offices; and how that advice may be accessed. [151495]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide my hon. Friend with the information requested.

Letter from Lesley Strathie, dated 13 September 2007:

The Secretary of State has asked me to reply to your question asking what advice on benefit entitlement is available at Jobcentre Plus offices and how that advice may be accessed. This

is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus offices provide comprehensive advice on all benefits. General advice can be obtained through a range of leaflets available online, in our offices and by post. Benefit information is also available face to face and by telephone. For customers who are hard of hearing or have speech difficulties, a textphone is available. Interpreting services are also available when required.

When a customer telephones Jobcentre Plus to make a claim to benefit, or has a meeting with a Personal Adviser, we are able to provide more personalised advice on jobs and benefits. Of course, a customer's entitlement can only be determined when a claim to a benefit has been properly made.

I hope this is helpful.

Jobcentres: Scotland

Mr. Carmichael: To ask the Secretary of State for Work and Pensions which Scottish Jobcentre Plus offices with *(a)* full-time and *(b)* part-time opening hours were closed in each of the last five years. [152839]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 13 September 2007:

The Secretary of State has asked me to reply to your question asking which Scottish Jobcentre Plus offices were closed in each of the last five years, with full-time and part-time opening hours. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Over the last five years Jobcentre Plus has undertaken a programme of major refurbishment to modernise its office and introduce improved business processes to support customers. This programme commenced in 2002 when Jobcentre Plus integrated the services formerly provided by the Employment Service and parts of the Benefit Agency. We inherited around 1,500 offices from these two organisations, many of which were unsuitable for Jobcentre Plus either in terms of their location or their physical structure. In drawing up local Service Delivery Plans for our modernisation programme the offices considered "unsuitable" were earmarked for closure. I attach a list of offices closed in Scotland in the last five years, stating whether they were full or part time.

Since its inception Jobcentre Plus has continuously improved its services to customers through modern telephony and e-services. This allows us to review our network of offices to focus our resources where they are most needed. I am committed to consulting local people and other stakeholders if this means we have to revise our original Service Delivery Plans.

I hope this is helpful.

Jobseeker's Allowance

Andrew Selous: To ask the Secretary of State for Work and Pensions how many jobseeker's allowance claims were repeat claims *(a)* in the last year for which figures are available and *(b)* in each of the preceding five years; and how many claimants claimed jobseeker's allowance more than twice in each year. [154927]

Mr. Plaskitt *[holding answer 10 September 2007]:* The available information is in the following tables.

Number of repeat jobseeker's allowance claims where an award has been made

	Number
2001-02	1,596,500
2002-03	1,687,400
2003-04	1,643,300
2004-05	1,563,100
2005-06	1,576,700
2006-07	1,596,000

Notes:
1. 100 per cent. administrative data are only available since June 1999.
2. A claim has been defined as a repeat claim if the jobseeker has previously (since June 1999) made a claim for JSA.
3. Figures rounded to the nearest 100.
4. Figures include credits-only awards of jobseeker's allowance.

Source:
National Benefits Database.

Number of people making a claim for jobseeker's allowance more than twice in the year where an award has been made

	Number
2001-02	114,200
2002-03	119,500
2003-04	107,200
2004-05	96,100
2005-06	88,500
2006-07	93,300

Notes:
1. Figures rounded to the nearest 100.
2. The figures give the number of people who have made more than two claims for JSA within a single year.
3. Figures include credits-only awards of jobseeker's allowance.

Source:
National Benefits Database.

Jobseeker's Allowance: Basic Skills

Andrew Selous: To ask the Secretary of State for Work and Pensions (1) what percentage of jobseeker's allowance claimants identified with basic skills needs by JobCentre Plus screening acquired a basic skills qualification in *(a)* the latest year for which figures are available and *(b)* in each of the preceding five years; [154920]

(2) how many jobseeker's allowance claimants were identified as having basic skills needs as a result of screening at six months from the start of their claim *(a)* in the latest year for which figures are available and *(b)* in each of the preceding five years. [154921]

Mr. Plaskitt *[holding answer 10 September 2007]:* The information is not available in the format requested, other than at disproportionate cost.

Jobseeker's Allowance: West Midlands

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people claimed jobseeker's allowance in *(a)* the Black Country district and *(b)* the Marches district in each month between June 2006 and June 2007. [154834]

Mr. Plaskitt *[holding answer 10 September 2007]:* The information is in the following table.

Jobseeker's allowance claimants June 2006 to June 2007

	Black Country Jobcentre Plus district	*Marches Jobcentre Plus district*
June 2006	31,336	12,809
July 2006	32,169	12,840
August 2006	32,399	12,845
September 2006	32,554	12,674
October 2006	31,211	12,159
November 2006	30,652	12,288
December 2006	30,694	12,492
January 2007	31,610	13,490
February 2007	31,496	13,838
March 2007	30,632	13,711
April 2007	29,587	13,111
May 2007	28,835	12,496
June 2007	27,564	11,992

Notes:
1. Figures are unrounded.
2. Figures include clerically held cases.

Source:
100 per cent. count of claimants of unemployment-related benefits, Jobcentre Plus Computer Systems.

Labour Market

Mr. Clappison: To ask the Secretary of State for Work and Pensions what the *(a)* 20 parliamentary constituencies and *(b)* 20 local authorities were with the highest number of job vacancies in the latest period for which figures are available; and how many job vacancies there were in each case. [152644]

Caroline Flint *[holding answer 26 July 2007]:* The information requested is not available.

Labour Migration

Mr. Clappison: To ask the Secretary of State for Work and Pensions what representations he has *(a)* made to and *(b)* received from the Migration Advisory Committee since its inception; how many times (i) he and (ii) Ministers in his Department have met the Committee; what communication he has otherwise had with it; and what decisions he has taken which have been informed by the Committee. [152595]

Mrs. McGuire: None. The Committee has not yet met.

Local Employment Partnerships

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions how environmental sustainability will be taken into account in developing the 30 local employment partnerships announced on 18 July 2007, *Official Report*, column 284. [152216]

Caroline Flint: The Green Paper "In Work, better off", published on 18 July 2007, sets out Government proposals on the next steps towards achieving full employment. A key element of this is a new partnership with employers, through Local Employment Partnerships (LEPs). These do not aim to create new jobs but to open up more of the many job opportunities already coming up in the economy to long-term unemployed people and other priority jobless groups.

LEPs will prepare individuals for the world of work, provide the chance to apply for a wider range of jobs and help with the skills and motivation needed to be successful. The detailed design of the programme is currently being developed. However, in conjunction with other initiatives such as DWP's 'city strategy', an important element of Government policy is to promote sustainable and cohesive communities. This means tackling the concentrations of worklessness in certain areas and raising employment rates by enabling more local people to take up the jobs coming up in a local area. This will allow individuals to better support themselves and their families and play a full role in society, as well as supporting wider goals around eliminating child poverty and improving health and well being.

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions pursuant to his oral statement of 18 July 2007, *Official Report*, column 280, what his definition is of high-quality wrap-around childcare. [152217]

Caroline Flint: High quality childcare is that provided in a setting where parents are happy to leave their children knowing they are safe and well cared for in a stimulating environment. It is provision where staff are properly qualified and well-motivated and where the inspection regime provides the reassurances parents need.

Wrap-around childcare is care that is available to parents at either end of the school day, enabling them to consider employment and to balance work and family life.

Low Incomes

Mr. Gauke: To ask the Secretary of State for Work and Pensions how many people lived in households earning *(a)* less than 30 per cent., *(b)* less than 40 per cent., *(c)* less than 50 per cent., and *(d)* less than 60 per cent. of (i) median and (ii) mean income in (A) 1997 and (B) 2006. [152038]

Caroline Flint *[holding answer 23 July 2007]:* Specific information regarding low income for the United Kingdom is available in "Households Below Average Income 1994/95-2005/06 (Revised)".

The estimates for numbers below 30 and 40 per cent. of median and mean income are not available. Figures below the 40 per cent. of income thresholds are not reliable as sample sizes are too small.

The available information is shown in the following tables:

Table 1: Number of individuals (million) below 50 per cent. of median and mean income: 1996-97 and 2005-06

	Below 50 per cent. of median income		*Below 50 per cent. of mean income*	
	Before housing costs	*After housing costs*	*Before housing costs*	*After housing costs*
1996-97	5.9	9.4	10.8	14.2
2005-06	5.9	8.6	11.1	13.6

Table 2: Number of individuals (million) below 60 per cent. of median and mean income: 1996-97 and 2005-06

	Below 60 per cent. of median income		Below 60 per cent. of mean income	
	Before housing costs	After housing costs	Before housing costs	After housing costs
1996-97	10.8	14.0	16.6	18.4
2005-06	10.4	12.8	17.3	19.0

Members: Correspondence

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions when a reply will be sent to the constituent of the hon. Member for the Isle of Wight whose reference is CSA 321031224246/NR 185956A. [152816]

Mr. Plaskitt *[holding answer 26 July 2007]:* The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Duncan Gilchrist, dated 8 October 2007:

In reply to your recent parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on annual leave I am responding, with his authority, on his behalf.

You ask the Secretary of State for Work and Pensions, when a reply will be sent to the constituent of the hon. Member for the Isle of Wight whose reference is CSA 321031224246/NR 185956A. [152816]

As details about individual cases are confidential I have written to you separately about this case.

Migrant Workers: Labour Market

Mr. Clappison: To ask the Secretary of State for Work and Pensions what research he has *(a)* commissioned and *(b)* evaluated on the impact of migration on the labour market; and what assessment he has made of the impact of migration on measures to promote welfare to work. [152594]

Mr. Plaskitt: In February 2006, DWP published a working paper on the impact of free movement of workers from Central and Eastern Europe on the UK labour market. This is available in the Library.

DWP also contribute to the quarterly accession monitoring report which is published on the Home Office website.

We are continuing to monitor the impact of accession country migration on the UK labour market.

In the last year, despite the effect of EU expansion on the number of workers from the new member states registering to work in the UK, the claimant unemployment count has fallen by over 90,000.

The availability of new workers from abroad does not reduce the need to ensure that domestic workers have the skills and support they need to compete effectively in the labour market. Over the last 10 years the Government has significantly increased its investment in helping people move back into work, and the recent Green Paper "In work, better off: next steps to full employment" sets out proposals to further extend the opportunity for individuals to take up one of the 600,000 vacancies that come up each and every month.

Minimum Wage

Chris Grayling: To ask the Secretary of State for Work and Pensions how many hours a week *(a)* a lone parent with one child and *(b)* a couple with two children earning the minimum wage would have to work to clear the poverty line. [150049]

Caroline Flint: The hours a week that families with children would need to work to escape poverty would depend on the individual circumstances of the household, for example the number and age of dependent children, housing costs or benefit, and the wage that any working adult receives. Therefore, the information requested is not available.

National Insurance

Chris Grayling: To ask the Secretary of State for Work and Pensions (1) how many national insurance numbers there are in the national insurance database; [149960]

(2) how many people are registered in the national insurance database. [149961]

Mr. Plaskitt: From the latest information available there are 76,719,264 national insurance numbers on the customer information system, not including child reference numbers.

Chris Grayling: To ask the Secretary of State for Work and Pensions how many duplicate national insurance numbers there are in the national insurance database. [149969]

Mr. Plaskitt: From March 2007, DWP's Customer Information System replaced the Departmental Central Index as the national insurance database. Due to the way the Customer Information System is set up, the same national insurance number cannot be allocated twice. However, from time to time we identify national insurance numbers that are being used by more than one person, usually through transcription errors.

The number of instances where this has occurred is shown in the following table.

Cases of a national insurance number being used by more than one individual

	Number of cases
2001	2,539
2002	2,418
2003	2,533
2004	1,896
2005	1,991
2006	1,984

Note:
In these cases we take corrective action with Her Majesty's Revenue and Customs (HMRC) to correct the account.

National Insurance Credits

Chris Grayling: To ask the Secretary of State for Work and Pensions pursuant to his written ministerial statement of 23 July 2007, *Official Report*, columns 47-48WS, on national insurance credits, what his estimate is of the total amount of *(a)* overpayments and *(b)* underpayments. [152934]

Mr. Plaskitt: Initial estimates are that annual potential overpayments could be around £90 million.

Initial estimates of potential underpayments are around £65 million.

These estimates do not take into account any entitlement to, or payment of, income-related benefits which would affect the amounts over or under paid.

National Insurance: Fraud

Dr. Cable: To ask the Secretary of State for Work and Pensions how many cases have been reported of *(a)* an individual using more than one national insurance number and *(b)* a national insurance number being used by more than one individual in each year since 1997; and if he will make a statement. [152713]

Mr. Plaskitt: I refer the hon. Member to the written answer I gave the hon. Member for Bury St. Edmunds (Mr. Ruffley) on 6 February 2007, *Official Report*, column 870W.

National Insurance: Romania

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many national insurance numbers have been issued to *(a)* Romanian and *(b)* Bulgarian citizens since 1 January. [151633]

Mr. Plaskitt: The available information is in the following table.

National Insurance number registrations to Romanian and Bulgarian citizens between 1 January 2007 and 5 April 2007.

	Number
Bulgaria	1,680
Romania	2,660

Notes:
1. Numbers are rounded to the nearest 10.
2. Numbers are based on 100 per cent data from the National Insurance Recording System (NIRS).

Source:
100 per cent sample at 14 May 2007 from the National Insurance Recording System (NIRS).

New Deal for Young People

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many participants on the New Deal for Young People were taking part in the scheme for the second or subsequent time in each month since 1998. [149117]

Mr. Plaskitt: The information is in the following table.

Month of participation	*Total number of participants*	*Number participating for second or subsequent time*
July 1998	102,490	180
August 1998	112,800	290
September 1998	120,050	450
October 1998	126,090	700
November 1998	129,940	890
December 1998	133,130	1,110
January 1999	138,490	1,590
February 1999	141,760	2,040
March 1999	144,530	2,610
April 1999	145,560	3,440
May 1999	145,730	4,440
June 1999	144,410	5,460
July 1999	145,990	7,630
August 1999	143,560	9,270
September 1999	138,050	10,910
October 1999	131,360	12,800
November 1999	126,800	14,610
December 1999	127,700	17,240
January 2000	129,470	20,090
February 2000	128,730	22,310
March 2000	128,350	24,640
April 2000	127,090	26,350
May 2000	126,120	28,250

November 2005	81,310	30,510
December 2005	83,440	31,230
January 2006	86,770	31,920
February 2006	88,390	32,310
March 2006	91,840	33,000
April 2006	93,660	33,500
May 2006	95,930	34,140
June 2006	95,340	34,080
July 2006	97,780	34,760
August 2006	97,790	34,910
September 2006	93,320	33,880
October 2006	90,360	33,340
November 2006	88,380	33,180

Notes:
1. Latest data are to November 2006.
2. All data have been rounded to nearest 10.
3. A person participating on the programme for more than one month will be included in the table for each month that they are participating.

Information Directorate, DWP

New Deal for Young People: Standards

Mr. Clappison: To ask the Secretary of State for Work and Pensions what assessment he has made of the interim results of the outcome-related funding pilots currently running in the New Deal for Young People contracts in *(a)* Kent, *(b)* the Black Country and *(c)* Scotland; and if he will make a statement. [150854]

Caroline Flint: The requested information is not available.

New Deal Schemes

Chris Grayling: To ask the Secretary of State for Work and Pensions what percentage of people leaving *(a)* the new deal scheme, *(b)* the new deal for lone parents scheme and *(c)* the new deal 25 plus scheme claimed benefits within a year of leaving the scheme in each year since 1998. [150062]

Caroline Flint: The information is in the following table.

Percentage of new deal leavers who recommenced claiming benefits within 12 months of leaving the programme

	All new deals	New deal for lone parents	Percentage New deal 25 plus
1998	35	19	30
1999	39	19	33
2000	40	19	35
2001	39	19	35
2002	38	21	37
2003	36	20	37
2004	34	19	38
2005	32	19	36

Notes:
1. Latest data are to November 2006, therefore, allowing for a 12-month gap, only new deal leavers to November 2005 are included.
2. The benefits included are bereavement benefit, incapacity benefit, invalid care allowance, income support, jobseeker's allowance, severe disablement allowance and widow's benefit.
3. A benefit claim has only been included if it is a new claim after leaving the new deal spell. People can leave new deal and continue a benefit claim; these people are not included as recommencing a claim to benefit.

Information Directorate, DWP

New Deal Schemes: Standards

Harry Cohen: To ask the Secretary of State for Work and Pensions whether his Department has compared the relative performances in returning numbers of people to work of the New Deal self-employment programme and other employment programmes; whether there are any plans to expand the New Deal programme; and if he will make a statement. [153706]

Mr. Plaskitt: I refer my hon. Friend to the written answer given to my hon. Friends the Members for City of Durham (Dr. Blackman-Woods) and for Carlisle (Mr. Martlew) on 23 March 2007, *Official Report*, columns 1184-86W.

We have laid out our plans for the future of new deal in our Green Paper "In Work, better off: next steps to full employment" which was published on 18 July and which is available in the Library.

New Deal Schemes: Training

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people participated in new deal training in each of the last 36 months. [152619]

Mr. Plaskitt: Information is only available for training undertaken through new deal for young people and new deal 25 plus.

The available information is in the following table.

New deal training participants

Month of participation	New deal for young people	New deal 25 plus	Total
December 2003	9,660	6,490	16,150
January 2004	9,600	6,620	16,220
February 2004	9,690	6,670	16,360

New deal training participants

Month of participation	*New deal for young people*	*New deal 25 plus*	*Total*
March 2004	9,550	6,630	16,180
April 2004	9,270	6,390	15,660
May 2004	9,230	6,320	15,550
June 2004	9,170	6,350	15,520
July 2004	8,990	6,300	15,290
August 2004	8,690	6,270	14,960
September 2004	8,910	6,350	15,260
October 2004	8,970	6,550	15,520
November 2004	9,000	6,620	15,620
December 2004	8,660	6,330	14,990
January 2005	8,830	6,430	15,260
February 2005	9,150	6,760	15,910
March 2005	9,100	6,760	15,860
April 2005	8,720	6,500	15,220
May 2005	8,490	6,040	14,530
June 2005	8,120	5,800	13,920
July 2005	7,620	5,370	12,990
August 2005	7,130	4,990	12,120
September 2005	6,740	4,610	11,350
October 2005	6,300	4,460	10,760
November 2005	6,280	4,390	10,670
December 2005	6,270	4,230	10,500
January 2006	6,310	4,290	10,600
February 2006	6,640	4,480	11,120
March 2006	6,780	4,660	11,440
April 2006	6,850	4,610	11,460
May 2006	6,800	4,350	11,150
June 2006	7,170	4,310	11,480
July 2006	6,940	3,840	10,780
August 2006	7,670	4,010	11,680
September 2006	8,340	4,240	12,580
October 2006	8,800	4,940	13,740
November 2006	9,090	5,410	14,500

Notes:
1. New deal for young people figures include all those participating in the full-time education and training option.
2. New deal 25 plus figures include all those participating in the intensive activity period (IAP) basic employability training/basic skills, IAP education and training opportunity or IAP training.
3. A person participating for more than one month will be included in the table for each month that they are participating.
4. Latest data are to November 2006.
5. Figures are rounded to the nearest 10.

Information Directorate, Department for Work and Pensions

New Deal Schemes: York

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many people in City of York constituency have found work through each of the Government's new deal programmes since their introduction. [151630]

Caroline Flint: The available information is in the following table.

New deal in the City of York

Programme	*Individuals into jobs*
New deal for young people	1,080
New deal 25 plus	500
New deal for lone parents	1,050
New deal 50 plus	280
New deal for partners	
Total	2,910

Notes:
1. New deal for disabled people data are not available at constituency level.
2. New deal for partners data are five or less.
3. Data are rounded to the nearest 10.
4. Latest data are to the end of November 2006.
5. New deal 50 plus data include all employment credit starts up to March 2003, and all individuals into employment from April 2003. Some individuals may be counted more than once in these figures.
6. Programme start dates are: new deal for young people: January 1998; new deal 25 plus: July 1998; new deal for lone parents: October 1998; new deal 50 plus: April 2000; new deal for partners: May 1999.

Source:
Information Directorate, DWP, 2007

Occupational Pensions

Chris Grayling: To ask the Secretary of State for Work and Pensions how many adults were members of occupational pension schemes in each year from 1997 to 2007. [150046]

Mr. Mike O'Brien: Information is not available in the form requested because the Occupational Pension Scheme Survey was carried out at four to five-year intervals until 2004 when it became annual.

Pathways to Work: Interviews

Mr. Clappison: To ask the Secretary of State for Work and Pensions what proportion of work-focused interviews in the Pathways to Work programme have been given by *(a)* private sector providers and *(b)* voluntary sector providers since the programme's inception. [151483]

Caroline Flint: Jobcentre Plus currently delivers Pathways to work in 40 per cent. of the country. Private, voluntary and public sector providers have been invited to bid for contracts in the remaining 60 per cent. of the country, but provision in these areas has not yet commenced. Therefore, since Pathways to Work pilots began in 2003, Jobcentre Plus has delivered all work focused interviews.

Pathways to Work: Psychiatry

Mr. Clappison: To ask the Secretary of State for Work and Pensions what assessment he has made of the demand for *(a)* cognitive behavioural therapists and *(b)* other appropriate therapists in the implementation of the Pathways to Work programme; and what steps he has taken to meet the requirement. [150852]

Caroline Flint: No specific assessment has been made. The number of cognitive behavioural therapy-trained staff in each area varies according to local needs and how the condition management programme (CMPs) are delivered. Referral to the CMP will not be necessary for all incapacity benefit customers, nor will it be the first option to consider. Referral will only be appropriate if the customer feels that they cannot return to work yet because of their condition. The incapacity benefit personal adviser will discuss the

range of other appropriate therapies and support available to the customer at work focused-interviews. Regular contact between the CMP Manager and the Pathways to Work manager is designed to improve the delivery of the programme and enhance the customer experience.

This Department does not directly recruit practitioners of cognitive behavioural therapy or any other therapists.

Pension Centres

Chris Grayling: To ask the Secretary of State for Work and Pensions what the overall cost is of the 24 new pension centres. [150042]

Mr. Mike O'Brien: The Pension Service currently has a network of 18 pension centres.

The latest available figure for the overall cost of The Pension Service pension centres is £263 million, which covers the period April 2006 to March 2007. This is made up of £208 million for staff and £55 million for other costs.

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people are employed in the 24 new regional pension centres. [150043]

Mr. Mike O'Brien: The Pension Service currently has a network of 18 pension centres.

The latest available figure for the total number of staff employed in these pension centres at the end of May 2007 was 9,145. Due to various working patterns such as part-year contracts and reduced hours, this figure equates to 8,327 whole time equivalent staff.

Pension Credit

Dan Norris: To ask the Secretary of State for Work and Pensions what steps his Department plans to take further to encourage eligible pensioners to claim the pension credit to which they are entitled. [149904]

Mr. Mike O'Brien: The Pension Service is undertaking a wide range of steps to encourage eligible pensioners to claim pension credit.

In our 2007-08 direct mailing programme, we plan to issue over 1 million letters to encourage and remind potential eligible pensioners to apply for pension credit. This will coincide with press advertising and leaflet inserts in newspapers and magazines, which will be aimed at securing the support of friends and family to encourage take-up of pension credit in areas with relatively high numbers of potentially eligible non-recipients.

To provide a better insight into our customer base, the Pension Service is making use of advanced data analysis techniques to target eligible pensioners to pension credit. The Department sourced data from Experian, a private company who are the UK's largest originators and owners of geo-demographic consumer data, and linked 15 million older peoples' accounts to provide better insight into our customer base. This tool will help us reach customer groups with low pension credit take up.

We are continuing to expand our partnership working through Joint Working Partnerships between the Pension Service local service, local authorities and the voluntary sector. The Pension Service currently has 180 operational Joint Working Partnerships with primary tier local authorities with a further 22 agreed or in the implementation stages. These partnerships help us to identify harder-to-reach customers and deliver a full and joined up services to older people.

We are also working in partnership with local authorities and the voluntary sector on our alternative office network. Alternative offices operate through partnership agreements between the Pension Service, local authorities and the voluntary sector. These offices accept applications from people aged 60 or over for social security benefits.

In addition, our local service plan to carry out around 680,000 face to face visits during 2007-08, offering a full entitlement check to the poorest and most needy older people. We will also carry out an extensive outbound telephone campaign to those who fail to respond to written invitations to apply, or who drop-out part way through the pension credit application process.

All of this activity will be supported by information on the Pension Service, DWP and DirectGov (the UK Government's digital service for all public service information and services) websites about our products and services, and continued close working with national and regional press officers to make the most of publicity and media opportunities.

Finally, as part of the transformation of the Pension Service, people can now claim state pension and pension credit over the phone. If a customer is eligible for pension credit we can also take an application for housing benefit, council tax benefit and carer's allowance during the same phone call. As part of the future programme of transformation, state pension customers will be encouraged to claim pension credit, if appropriate, when they call to notify key changes of circumstances.

Pensioners: Council Tax Benefits

Harry Cohen: To ask the Secretary of State for Work and Pensions if he will bring forward proposals to raise the council tax benefit savings limit for pensioners. [153735]

Mr. Plaskitt: I refer the hon. Member to the written answer I gave the hon. Member for Hartlepool (Mr. Wright) on 19 June 2007, *Official Report*, column 1735W.

Pensioners: Income

Chris Grayling: To ask the Secretary of State for Work and Pensions what the average income of adults over the age of 65 was in each region in each year since 1997 in real terms. [150059]

Mr. Mike O'Brien: The information that is available is shown in the following table.

Average gross income of all pensioner units where the head is aged 65 or over by region (£ per week, 2005-06 prices)

	1997-98 to 1999-2000	*1998-99 to 2000-01*	*1999-2000 to 2001-02*	*2000-01 to 2002-03*	*2001-02 to 2003-04*	*2002-03 to 2004-05*	*2003-04 to 2005-06*
North East	223	225	234	252	264	279	272
North West	244	256	261	270	276	284	288
Yorkshire and Humber	247	259	263	268	280	289	296
East Midlands	228	234	241	256	264	277	278
West Midlands	247	259	266	273	270	277	292
Eastern	280	288	304	306	312	317	333
London	295	317	332	325	323	325	339
South East	300	314	339	357	355	359	373
South West	269	286	289	299	299	314	321
Wales	238	241	250	259	275	285	293
Scotland	258	258	265	266	274	288	293
England	264	277	288	296	299	307	316
Great Britain	262	273	284	291	296	304	313

Notes:
1. Gross income is income from all sources received by the pensioner unit including income from social security benefits, earnings from employment, any private pension, and tax credits.
2. Based on survey data and as such subject to a degree of sampling and non sampling error. Figures are based on the average of three years' data as single year estimates do not provide a robust guide to year-on-year changes. Users should not read too much into small differences between regions.
3. Figures are for Great Britain.
4. Figures have been rounded to the nearest £.
5. Pensioner units are either pensioner couples or single pensioners.
6. The head of the benefit unit in most cases will be the same as the head of household. Head of household is classified as the highest income householder (person in whose name the property is owned or rented) without regard to gender. For households where the pensioner benefit unit does not include the head of household, the head of benefit unit will be the first person interviewed in the benefit unit.

Pensioners' Income Series 2005-06 (Revised)

Pensions Regulator

Mr. Waterson: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of the powers of the Pensions Regulator; and if he will make a statement. [151383]

Mr. Mike O'Brien: Judging by the recent high profile successes, the regulator has not so far found its powers a barrier to achieving its statutory objectives. The threat of the potential use of its powers has been effective in enabling the regulator to achieve successful outcomes—an approach that is in line with its risk-based regulatory approach.

The regulator approach is to use its powers where it judges it is appropriate to do so—and it has already made significant use of the wide range of powers available to it. We do, however, keep the regulator's powers under review to ensure that it is able to fully discharge its statutory objectives.

The regulator places a great deal of emphasis on its educative role and this also has proved to be a powerful tool in influencing behaviours and outcomes within the pensions and business community.

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many *(a)* financial support direction and *(b)* contribution notices the Pensions Regulator has imposed. [151384]

Mr. Mike O'Brien: The Regulator's Determinations Panel has recently determined to issue a Financial Support Direction (FSD). An appeal has subsequently been made to the Pensions Regulator Tribunal. If the appeal is unsuccessful, the FSD will come into effect from the date of determination of that appeal.

As at 20 July 2007, the regulator has yet to issue a contribution notice.

Pensions: Council Tax

Tom Brake: To ask the Secretary of State for Work and Pensions what account he takes of changes in the level of council tax in setting pension rates. [155419]

Mr. Mike O'Brien: The Secretary of State is required by law to review the levels of state pension and to increase those levels at least in line with prices. It has been the practice for many years to increase state pension in line with the September Retail Prices Index although for some years in the recent past it has increased by more.

In calculating the Retail Prices Index, account is taken of variations in a wide range of goods and services to reflect the typical change in costs, both increases and decreases, that people face from year to year. This includes average council tax bills for households in Great Britain.

Pensions: Lil-Lets UK Ltd

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what representations he has received on the pensions funds situation of Lil-Lets UK Ltd, following the closure of the production facilities by the parent company Electra. [152673]

Mr. Mike O'Brien: I have received no representations on this matter.

Pensions: York

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the average value of benefits in kind provided by the state was to *(a)* single pensioners and *(b)* pensioner couples in York in 1996-97 and each year since then in respect of (i) NHS services, (ii) social services, (iii) travel concessions, (iv) television licences, (v) insulation and home repairs and improvements and (vi) other services. [151531]

Mr. Mike O'Brien: A wide range of services and benefits in kind are available to older people and these are administered both centrally and locally. As a result, the information is not available in the format requested: some information is not collected and some could be obtained only at disproportionate cost. The information which is available is given as follows.

(i) *NHS services*

People aged 60 and over are able to claim free prescriptions and eye tests on the grounds of age.

Information on the value of medicines provided by the national health service (NHS) to pensioners in York cannot be provided as the information is only available at primary care trust level and there has never been an NHS organisation serving simply the York area. However, information is available for York and Selby Primary Care Trust which existed from October 2000 to September 2006.

The following table shows the estimated net ingredient cost (NIC) of medicines dispensed by the NHS in the community, to patients aged 60 and over, in the York and Selby PCT.

Financial year	*NIC (£)*[1]
2000-01 (October 2000 to March 2001)	7,113,267
2001-02	16,031,265
2002-03	18,234,442
2003-04	20,141,851
2004-05	21,771,804
2005-06	21,842,267

[1] These figures have been taken from the Prescription Cost Analysis database and are estimates based on a sample of prescriptions.

Free NHS sight tests were made available to people aged 60 and over from 1 April 1999. Information on the average value of NHS sight tests provided to people aged 60 and over within the area of the former York and Selby PCT is only available on a consistent basis for the three years 2003-04 to 2005-06 and is set out in the following table:

Financial year	*Number of free NHS sight tests given to people aged 60 and over*	*Estimated cost of NHS sight tests to people aged 60 and over (£)*
2003-04	26,254	453,144
2004-05	26,619	474,351
2005-06	25,057	460,798

Information on the age of adults who qualify for help with other NHS services or the value of such services, such as optical vouchers or relief from dental charges, is not collected centrally.

(ii) *Social services*

Social services information is not available broken down into single pensioners and pensioner couples. The following table shows the gross current expenditure by York council on social services for people aged 65 or over from 1996-97 to 2005-06.

Gross current expenditure[1] by York council on older people (aged 65 or over)

Year (1 April to 31 March)	*Gross current expenditure (£ thousand)*
1996-97	15,200
1997-98	16,300
1998-99	17,400
1999-2000	18,700
2000-01	19,100
2001-02	19,400
2002-03[2]	23,500
2003-04[3]	21,900
2004-05	25,600
2005-06	27,500

[1] Gross expenditure includes income from client contributions, but excludes capital charges and certain income items which count as expenditure elsewhere in the public sector, such as contributions from primary care trusts. This is to avoid double counting within the aggregate public sector accounts of the money involved.
[2] From 2002-03 onwards, the data include clients who transferred to council with social services responsibilities (CSSR) support on 8 April 2002, who were formally in receipt of higher rates of income support under the Department for Work and Pensions preserved rights scheme.
[3] From 2003-04, additional funding was made available to CSSRs via the Supporting People grant.
Source:
RO3 and PSS EX1 returns

(iii) *Travel concessions*

Travel concessions are provided through local authorities and information is not held centrally. Funding is through Formula Grant, a block grant, which local authorities are free to spend on any service. Local authorities have flexibility to enhance their schemes beyond the statutory minimum, so there are local variations in what is offered and take-up of concessionary travel schemes varies from one area to another.

As announced in the 2006 Budget, the national bus concession will be introduced in April 2008. The Concessionary Bus Travel Act 2007 improves the geographic coverage to give those who are eligible free off-peak local bus travel in any part of England. Eligibility on age or disability remains unchanged.

(iv) *Television licences*

Free television licences for people aged 75 or over were introduced in November 2000. TV Licensing, who administer free licences as agents for the BBC, are not able to provide geographical breakdowns of licences issued. However, figures, shown in the following table, are available for the number of households with at least one person aged 75 or over claiming winter fuel payments in York local authority. These people would be eligible for a free television licence.

York local authority area

	Number of households with someone aged 75 or over
2004-05	11,685
2005-06	11,930
2006-07[1]	12,070

[1] Main payment run only

Television licence fees for each year since the concession was introduced are shown in the table as follows:

	TV licence fees (£)	
	Colour	Black and white
2000-01	104.00	34.50
2001-02	109.00	36.50
2002-03	112.00	37.50
2003-04	116.00	38.50
2004-05	121.00	40.50
2005-06	126.50	42.00
2006-07	131.50	44.00
2007-08	135.50	45.50

(v) *Insulation*

The Warm Front Scheme is the Government's main programme for tackling fuel poverty in vulnerable households in the private sector in England. Warm Front provides grants for heating, insulation and energy efficiency measures. The following table displays the number of pensioner households that have received Warm Front assistance in the York local authority area since the Scheme's inception in 2000, and the average spend on each of those households.

	Number of single pensioner households assisted in York	Average spend per single pensioner household assisted (£)	Number of two pensioners households assisted in York	Average spend per 2 pensioner household assisted (£)
2000-01	63	345.50	16	791.74
2001-02	170	502.44	43	1,156.06
2002-03	184	611.81	46	1,424.28
2003-04	82	748.75	21	1,701.55
2004-05	87	693.71	22	1,596.59
2005-06	199	778.45	102	765.08
2006-07	364	753.92	252	657.25

Personal Income

Dr. Cable: To ask the Secretary of State for Work and Pensions what the percentage change in net income of each income decile has been in the UK since 1997; and if he will make a statement. [151913]

Caroline Flint: Specific information regarding low income for the United Kingdom is available in "Households Below Average Income 1994/95-2005/06 (Revised)".

The available information is shown in the following table.

Percentage change in income decile medians between 1996-97 and 2005-06, in 2005-06 prices

	Increase (percentage) 1996-97 to 2005-06	
Decile	Income before housing costs	Income after housing costs
1	12	15
2	24	35
3	24	38
4	22	32
5	20	28

Sick Leave

Mr. Clappison: To ask the Secretary of State for Work and Pensions what the *(a)* national average rate of absence from work, *(b)* public sector average rate of absence from work through sickness and *(c)* average rate of absence from work through sickness for the Department for Work and Pensions was in each of the last 10 years. [152156]

Mr. Plaskitt: Varying information on sickness absence performance is available.

The following table is based on information from the Chartered Institute for Personnel Development's (CIPD) annual survey on absence management and represents the average number of days sickness absence per employee per year:

	National Average	Public Sector
1998	n/a	n/a
1999	9.4	n/a
2000	8.7	n/a
2001	10	n/a
2002	8.9	10.6
2003	9.1	10.7
2004	8.4	10.3
2005	8.0	9.9
2006	8.4	10.3

The Department for Work and Pensions (DWP). DWP was created in June 2001. The information provided before 2001 relates only to the former Department for Social Security (the main predecessor to the DWP). Information relating to the old Employment Department is unavailable.

	Department for Work and Pensions
1998	10.8
1999	10.9
2000	11.0
2001	11.1
2002	10.8
2003	11.6
2004	9.6
2005	10.1
2006	n/a

Kelvin Hopkins: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of long-term sick leave which is due to arthritis and other musculoskeletal problems. [153303]

Mrs. McGuire: In 2005-06, an estimated 9.5 million working days were lost to musculoskeletal disorders.

This averages out at an estimated 17 days lost in each case, and is nearly a third of the estimated 30.5 million working days that were lost, in total, to work-related ill heath and injury in 2005-06.

We do not have estimates separately available for days lost specifically to arthritis.

Sick Pay: General Practitioners

Mr. Clappison: To ask the Secretary of State for Work and Pensions what progress has been made in the provision of employment advisers in GP surgeries to advise on sick notes for statutory sick pay; and what evaluation he has made of pilot studies on such provision. [151482]

Caroline Flint: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 13 September 2007:

The Secretary of State has asked me to reply to your question asking what progress has been made on the provision of employment advisers in GP surgeries to advise on sick notes for statutory sick pay and what evaluation has been made of the pilot. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

We are currently piloting a Pathways Advisory Service (PAS) in GP surgeries within some Pathways to Work districts. The intention of this pilot is to test a gateway service where the personal adviser based within the surgery will provide advice on a range of work-related issues which patients may raise, and signpost them to appropriate Jobcentre Plus or external provision. Access to the PAS is voluntary, by self-referral or recommendation from a health professional and is open to any patient, although it is focused primarily on those claiming incapacity benefit or statutory sick pay. The PAS is being piloted in eight locations.

While Jobcentre Plus advisers will support customers on statutory sick pay, they do not give advice on sick notes. They do not become involved with the individual's health situation or discussions around sickness certification, other than that which the individual is happy to divulge.

The PAS is being evaluated by an independent research partnership, the University of York's Social Policy Research Unit and the National Centre for Social Research. The evaluation is due to report early in 2008.

I hope this is helpful.

Social Fund

Mr. Boswell: To ask the Secretary of State for Work and Pensions what steps he is taking in liaison with the Social Fund Commissioner to improve the accuracy of decision-making with regard to the Social Fund. [154832]

Mr. Plaskitt *[holding answer 10 September 2007]:* Jobcentre Plus and the Independent Review Service are currently developing a quality framework with the aim of improving the accuracy of Social Fund decision-making.

Social Security Benefits

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what the amount of customer error underpayments was for *(a)* pension credit, *(b)* jobseeker's allowance and *(c)* income support due to incorrect declaration of (i) full-time earnings, (ii) part-time earnings, (iii) partner earnings, (iv) capital, (v) dependants, (vi) income, (vii) a partner, (viii) identification, (ix) address, (x) housing costs, (xi) other benefits, (xii) college, (xiii) hospitalisation, (xiv) maintenance payments, (xv) non-dependants, (xvi) a prison stay and (xvii) other in each year since 1997. [147684]

Mr. Plaskitt: The information is not available prior to 2003-04. The available information is in the following tables.

Estimated customer error underpayments in 2003-04

£ million

Other	11	0	1

Notes:
1. All the figures are estimates, derived from a random sample of benefit claims and are subject to sampling and other uncertainties.
2. All estimates have been rounded to the nearest £1 million.
3. Pension credit was introduced in October 2003 as a replacement for the minimum income guarantee (MIG). Estimates for 2003-04 are for MIG and pension credit combined.
4. The estimates presented for 2005-06 do not distinguish between full-time and part-time earnings.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what the amount of customer error and fraud overpayments were for *(a)* pension credit, *(b)* jobseeker's allowance and *(c)* income support due to incorrect declaration of (i) full-time earnings, (ii) part-time earnings, (iii) partner earnings, (iv) capital, (v) dependants, (vi) income, (vii) a partner, (viii) identification, (ix) address, (x) housing costs, (xi) other benefits, (xii) college, (xiii) hospitalisation, (xiv) maintenance payments, (xv) non-dependants, (xvi) a prison stay and (xvii) other in each year since 1997. [147685]

Mr. Plaskitt: Information is not available for 1997-98 and 1999-2000. The available information is in the following tables.

Estimated fraud and customer error overpayments in 1998-99

Notes:

1. All the figures are estimates, derived from a random sample of benefit claims and are subject to sampling and other uncertainties.
2. All estimates have been rounded to the nearest £1 million.
3. Estimates are not available in this form for 1997-98 and 1999-2000.
4. Pension credit was introduced in October 2003 as a replacement for the minimum income guarantee (MIG). Estimates for 2003-04 are for MIG and pension credit combined.
5. All income support pensioners estimates have been presented separately from income support working age, for comparison with the minimum income guarantee and pension credit.
6. Prior to 2002-03, separate estimates for hospitalisation, maintenance payments, non-dependants and prison stays have been included in the 'other' category, as was 'college' for 1998-99.
7. The estimates presented for 2005-06 do not distinguish between full-time and part-time earnings.

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people received *(a)* housing benefit, *(b)* incapacity benefit, *(c)* jobseeker's allowance, *(d)* carer's allowance and *(e)* disability living allowance in each of the last 10 years, broken down by region. [150064]

Mr. Plaskitt: The information has been placed in the Library.

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many of those in receipt of *(a)* income support, *(b)* incapacity benefit and *(c)* jobseeker's allowance in each year since 1997 had been on benefit for more than 12 months; and what proportion of claimants those figures represent in each year. [152041]

Mr. Plaskitt: The available information is in the following tables.

Income support (IS) claimants with duration of more than 12 months

Quarter ending November	Number	Percentage
1997	1,701,600	74.6
1998	1,678,400	75.4
1999	1,688,240	74.9
2000	1,732,340	76.7
2001	1,767,800	78.3
2002	1,763,670	78.6
2003	1,754,780	79.1
2004	1,740,100	80.3
2005	1,712,620	80.5
2006	1,702,540	79.9

Notes:
1. November 1997 and November 1998 figures are produced from 5 per cent. data, uprated to WPLS totals and rounded to the nearest 100.
2. Figures after November 1999 are produced from WPLS and rounded to the nearest 10.
3. Percentages are rounded to 1 decimal place.
Source:
DWP Information Directorate 100 per cent. WPLS and 5 per cent sample.

Incapacity benefit (IB)/Severe disablement allowance (SDA) claimants with claim durations of more than 12 months

Quarter ending November	Number	Percentage
1997	2,264,200	79.8
1998	2,279,500	82.4
1999	2,229,340	81.4
2000	2,269,640	82.1
2001	2,312,960	83.0
2002	2,327,100	82.6
2003	2,362,260	83.7
2004	2,367,820	84.1

Incapacity benefit (IB)/Severe disablement allowance (SDA) claimants with claim durations of more than 12 months

Quarter ending November	Number	Percentage
2005	2,352,650	85.5
2006	2,314,110	85.2

Notes:
1. November 1997 and November 1998 figures are produced from 5 per cent. data, uprated to WPLS totals and rounded to the nearest 100.
2. Figures after November 1999 are produced from WPLS and rounded to the nearest 10.
3. Percentages are rounded to 1 decimal place.
Source:
DWP Information Directorate 100 per cent WPLS and 5 per cent sample.

Jobseeker's Allowance (JSA) claimants with claim durations of more than 12 months

Quarter ending November	Number	Percentage
1997	385,620	29.2
1998	317,780	26.1
1999	260,635	23.8
2000	204,475	21.4
2001	161,130	18.3
2002	135,750	15.8
2003	130,435	15.5
2004	119,135	15.5
2005	120,060	14.3
2006	152,770	17.1

Notes:
1. Caseload figures have been rounded to the nearest 5.
2. Percentages are rounded to 1 decimal place.
Source:
100 per cent. count of claimants of unemployment-related benefits, Jobcentre Plus Computer Systems.

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of disabled people receiving *(a)* disability living allowance, *(b)* severe disablement allowance, *(c)* housing benefit, *(d)* independent living fund, *(e)* incapacity benefit, *(f)* community care grant, *(g)* disabled facilities grant, *(h)* industrial injuries disablement benefit, *(i)* carers' allowance and *(j)* income support. [153589]

Mrs. McGuire: The available information is in the following table.

Numbers of disabled people in receipt of benefits: GB

	Date	Claimants
Disability Living Allowance (DLA)	November 2006	2,845,750
Severe Disablement Allowance (SDA)	November 2006	273,190
Housing Benefit (HB) with Disability Premium	May 2004	946,000
Independent Living Fund (ILF)	July 2007	20,003
Incapacity Benefit (IB)	November 2006	2,441,030
Community Care Grant (CCG)	2005-06	95,910
Industrial Injuries Disablement Benefit (IIDB)	September 2006	336,020
Carers' Allowance (CA)	November 2006	458,930

Numbers of disabled people in receipt of benefits: GB

	Date	Claimants
Income Support (IS) with Disability Premium	November 2006	1,114,020

Notes:
1. IS figures exclude residual MIG claimants.
2. IS, SDA, IB, DLA, CA and IIDB figures are rounded to the nearest 10 and HB figures are rounded to the nearest thousand.
3. HB figures are based on one per cent samples and are subject to sampling variation while IS, SDA, IB, DLA, CA are based on 100 per cent. data.
4. HB data excludes any Extended Payment cases.
5. For HB and IS, disabled claimants have been defined as those in receipt of a disability premium.
6. Totals for DLA, CA and IIDB show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended, for example if they are in hospital.
7. Community Care Grants are not on-going benefits but one-off payments. Some applicants may make more than one successful application during one year.
8. The initial decision on a Community Care Grant application may, at the applicant's request, be reviewed by Jobcentre Plus and then possibly also by the Independent Review Service for the Social Fund.
9. Community Care Grant applications included those where:
The applicant was disabled.
The final decision was in 2005-06. (The final decision on an application is the initial decision if the application was not reviewed or the final review decision if the application went to review.)
The application was successful (that is, an award was made either initially and/or on review).
From these applications, the number of successful disabled applicants has been counted.
10. The figure for Community Care Grants has been rounded to the nearest 10.
Sources:
1. 100 per cent. Work and Pensions Longitudinal Study.
2. Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample.
3. Information Directorate 100 per cent. QSE data.
4. Independent Living Funds.
5. Scan of the Community Care Grant final decisions taken in 2005-06 and held on the Social Fund Computer System on 30 September 2006.

The Disabled Facilities Grant is a matter for my right hon. Friend the Secretary of State for Communities and Local Government.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many people of working age were *(a)* claiming out-of-work benefits, *(b)* claiming unemployment benefit, *(c)* lone parents claiming income support, *(d)* claiming incapacity benefit and *(e)* claiming any other out-of-work benefit in (i) May 1992, (ii) May 1997 and (iii) May 1999. [155082]

Mr. Plaskitt *[holding answer 10 September 2007]*: The available information is in the following table.

Number of claimants of out-of-work benefits in Great Britain

	Quarter ending		
	May 1992	May 1997	May 1999
Total claiming out of work benefits	n/a	5,442,700	5,033,100
Unemployed	2,592,600	1,556,000	1,220,300
Incapacity benefits	1,891,200	2,616,300	2,653,900
Income support lone parents	956,700	1,014,200	936,600
Other income support	n/a	256,200	222,300

n/a=figures not available
Notes:
1. Figures are rounded to the nearest 100.
2. Figures constructed using NOMIS claimant count data, 5 per cent. and 1 per cent. sample data.
3. Incapacity benefit (IB) replaced invalidity benefit (IVB) and sickness benefit (SB) in April 1995.
4. All figures are GB (not seasonally adjusted), except jobseeker's allowance (JSA) which is seasonally adjusted.
5. Incapacity benefits category is made up of IVB, SB and severe disability allowance (SDA) claimants for May 1992, and IB/SDA claimants thereafter.
6. Unemployed category is taken from the seasonally adjusted JSA claimant count for GB published by ONS. Time series data are available from www.nomisweb.co.uk. This 100 per cent. series is the most reliable and up-to-date source for claimant unemployment.
7. This table includes the main out-of-work client group categories, with the exception of carers who are not subject to activation policies in the same way as other groups.
8. This series consists of an earlier consistent series for caseload created by combining older information, available from the previously published 5 per cent. sample data, with the WPLS data. The series are published by DWP at http://www.dwp.gov.uk/asd/asd1/tabtools/timeseriesIBSDA.xls and http://www.dwp.gov.uk/asd/asd1/tabtools/timeseriesIS.xls.
9. Figures contain a small number of overlap cases of Lone parents on income support who are also receiving incapacity benefits.
10. Figures exclude around 86,000 claimants in receipt of income support and carers allowance.
Source:
Department for Work and Pensions, Information Directorate, 5 per cent. sample scans of IS, IB, SDA, and seasonally adjusted count of unemployment-related benefits, Jobcentre Plus computer systems.

Social Security Benefits: EC Nationals

Mr. Clappison: To ask the Secretary of State for Work and Pensions if he will break down by nationality the number of national insurance numbers issued to EU citizens since 1st January 2004. [151635]

Mr. Plaskitt: The available information is in the following table.

National insurance number registrations to EU citizens between 1 January 2004 and 5 April 2007.

	Number
Austria	4,640
Belgium	5,730
Bulgaria	12,440
Cyprus	3,070
Czech Rep	32,730
Denmark	7,230
Finland	4,330
France	55,130
Germany	42,200
Greece	10,720
Hungary	23,730
Italy	34,940
Luxembourg	220
Malta	1,810
Netherlands	24,060
Poland	460,780
Portugal	39,640
Rep of Estonia	6,900
Rep of Ireland	32,210
Rep of Latvia	32,230
Rep of Lithuania	72,230
Rep of Slovenia	1,880
Romania	11,730
Slovak Rep	68,220
All EU	1,038,470

Notes:
1. Numbers are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Numbers are based on 100 per cent. data from the national insurance recording system (NIRS).

Source:
100 per cent. sample at 14 May 2007 from the national insurance recording system (NIRS).

Social Security Benefits: Fraud

Chris Grayling: To ask the Secretary of State for Work and Pensions how much was lost due to *(a)* benefit fraud and *(b)* error in the granting of benefits in each year since 1997. [150050]

Mr. Clappison: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of *(a)* fraud and *(b)* error in benefit payments administered by his Department in each year since 1997. [151634]

Mr. Plaskitt: Reliable estimates are not available from 1997-98 to 1999-2000. The available information is in the following table.

Fraud and error in benefit payments

	Fraud	*£ billion Error*
2000-01	2.2	1.1
2001-02	2.2	1.2
2002-03	1.8	1.3
2003-04	1.0	1.6
2004-05	0.8	1.7
2005-06	0.7	1.9

Notes:
1. The 2005-06 results in the table were first published as National Statistics in February 2007. However, the forthcoming DWP Resource Account will include a restatement of a previous estimate of 2005-06 overpayments, which will differ slightly from this estimate. The 2005-06 results are also being rebaselined, and an updated version will be published as National Statistics later in 2007.
2. From 2003-04 the methodology for estimating fraud and error changed, and pre 2003-04 estimates are not directly comparable with those since.

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost to the public purse of fraudulent claims for *(a)* pension credit, *(b)* winter fuel payment, *(c)* attendance allowance, *(d)* disability living allowance, *(e)* carer's allowance, *(f)* housing benefit, *(g)* statutory sick pay, *(h)* incapacity benefit, *(i)* income support and *(j)* jobseeker's allowance in each year from 1997 to 2007. [152742]

Mr. Plaskitt: Estimates of fraud and error in income support, jobseeker's allowance, pension credit and housing benefit can be found in National Statistics reports, and additional tables on the Department's website at:

http://www.dwp.gov.uk/asd/asd2/fraud_error.asp.

No estimates are available for attendance allowance, winter fuel payments or statutory sick pay. The available estimates for other benefits are in the following tables. These estimates are consistent with the methodology used for those presented for 2003-04 onwards in the Department's resource accounts. For some benefits, estimates before 2003-04 will differ from figures published earlier due to improved assumptions and methodology.

Estimates of fraud in carer's allowance

	Percentage of overspend	*Overpaid (£ million)*
1996-97	3.9	30
1997-98	3.9	30
1998-99	3.9	30
1999-2000	3.9	30
2000-01	3.9	30
2001-02	3.9	40
2002-03	3.9	40
2003-04	3.9	40
2004-05	3.9	40
2005-06	3.9	40

Notes:
1. Carer's allowance is not reviewed regularly. These estimates are based on the assumption that the percentage of expenditure overpaid has remained constant since it was last reviewed in 1996.
2. Estimates are rounded to the nearest £10 million. The totals may appear different from the sum of the components due to this rounding.

Estimates of fraud in incapacity benefit

	Percentage of overspend	Overpaid (£ million)
2000-01	0.1	10
2001-02	0.1	10
2002-03	0.1	10
2003-04	0.1	10
2004-05	0.1	10
2005-06	0.1	10

Notes
1. Fraud and error in incapacity benefit is not measured every year. The last full review was in 2000-01. As there has been no measurement in other years, it is assumed that the percentage level of fraud and customer error have remained constant. All of the fraud and customer error estimates are calculated by applying the percentage overpaid in 2000-01 to the annual expenditure on incapacity benefit.
2. As the measurement system is based on the examination of a sample of the incapacity benefit caseload, the estimates are subject to a degree of statistical uncertainty.
3. Estimates rounded to the nearest 0.1 per cent. or £10 million. The totals may appear different from the sum of the components due to this rounding.

Estimates of fraud in disability living allowance

	Percentage of overspend	Overpaid (£ million)
2001-02	0.5	30
2002-03	0.5	30
2003-04	0.5	40
2004-05	0.5	40
2005-06	0.5	40

Notes
1. DLA was last reviewed in 2005. Estimates for 2003-04 onwards, as presented in the Department's Resource Accounts are based on the assumption that the proportion of expenditure overpaid has not changed.
2. The 2004-05 DLA National Benefit Review identified cases where the change in customer's needs have been so gradual that it would be unreasonable to expect them to know at which point their entitlement to DLA might have changed. These cases do not result in a recoverable overpayment as we cannot quantify or define when the customer's change occurred.
3. Because legislation requires the Secretary of State to prove that entitlement to DLA is incorrect, rather than requiring the customer to inform us that their needs have changed, cases in this subcategory are legally correct. The difference between what claimants in these cases are receiving in DLA and what they would receive if their benefit was reassessed is estimated to be around £600 million a year.
4. Estimates rounded to the nearest 0.1 per cent. or £10 million. The totals may appear different from the sum of the components due to this rounding.

Mr. Clappison: To ask the Secretary of State for Work and Pensions if he will list the initiatives taken by the Government since 1997 to tackle benefit fraud; and what the *(a)* cost of the initiative, *(b)* value of the fraud discovered and *(c)* number of prosecutions resulting from the initiative was in each case. [153052]

Mr. Plaskitt: It is not possible to separate the total cost of the fraud reduction elements of the Department's work. The Department's overall aim is to have a benefit system which is accurate from first claim to final payment. This means safeguarding the benefit system from loss due to fraud is integral to the work of staff in benefits administration as well as those working specifically on fraud.

Since 1997, the Department has developed and implemented a comprehensive strategy for reducing fraud. On 13 October 2005, the Government published their strategy paper "Reducing Fraud in the Benefit System - Achievements and Ambitions". Fraud is now at its lowest ever recorded; figures for 2005-06 show fraud estimated to be £0.7 billion (0.6 per cent. of benefit spend) around two thirds lower than estimated for 2000-01 (£2 billion, 2 per cent. of benefit spend).

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many people who were investigated for benefit fraud were subsequently *(a)* cautioned and *(b)* prosecuted and convicted in each year since 1997; and how many of those convicted received (i) a custodial sentence, (ii) a community sentence and (iii) a discharge in each year. [153054]

Mr. Plaskitt: Information is not available before 1999-2000. The available information is in the following tables.

Number of people investigated for benefit fraud who were subsequently cautioned or convicted

	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Cautions	5,548	7,841	7,029	7,084	8,131	9,995	10,543	11,976
Convictions	8,768	11,136	10,911	9,044	8,724	8,097	8,103	6,332

Number of DWP fraud convictions that led to custodial sentences, community sentences and discharges

	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Imprisonment	445	523	501	345	381	344	411	262
Imprisonment Suspended	99	125	158	93	111	133	250	481
Community Service	2,178	2,667	3,017	2,762	2,524	2,423	2,833	2,353
Conditional Discharge	2,492	3,283	3,113	2,622	2,864	2,589	2,374	1,704
Absolute Discharge	126	114	155	99	80	70	71	67

Notes:
1. Figures include general matching service and instrument of payment cases.
2. Figures exclude organised fraud cases.
Source
DWP Fraud Information by Sector computer system.

Mr. Clappison: To ask the Secretary of State for Work and Pensions what the total value of benefit fraud was in respect of cases investigated resulting in *(a)* cautions and *(b)* prosecutions in each year since 1997; and what those values were broken down by benefit. [153055]

Mr. Plaskitt: The information is not available in the format requested.

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many cases of *(a)* housing benefit and *(b)* council tax benefit fraud were detected

in each year since 1997; and how many successful prosecutions were brought in each year. [153056]

Mr. Plaskitt: Figures for detected fraud by local authorities are not available. The available information is in the following table:

Successful Prosecutions by Local Authorities for Housing Benefit and Council Tax Benefit Fraud

	Number
1997-98	700
1998-99	800
1999-2000	860
2000-01	1,100
2001-02	1,732
2002-03	2,503
2003-04	3,747
2004-05	4,688
2005-06	6,234
2006-07	5,727

Source:
From 2001-02 onwards the numbers of prosecutions are taken from subsidy claim forms. Prior to this the numbers are taken from management information returns.

Social Security Benefits: ICT

Mr. Clappison: To ask the Secretary of State for Work and Pensions what changes *(a)* have been made and *(b)* are planned to IT systems in order to enable the delivery of the employment and support allowance. [150851]

Caroline Flint: No changes have made to IT systems to enable the Delivery of employment and support allowance at this stage.

The Employment and Support Allowance IS/IT Feasibility Study recommended a technical solution for the employment and support allowance which builds on existing successful IS/IT developments within DWP. This is mainly made up of a:

Siebel front-end based on the re-use of Pensions Transformation Project Customer Account Management.

New legacy mainframe-based service built on an extension of jobseeker's allowance payment system for payment and award functionality.

This is the bulk of the IS/IT change required for employment and support allowance (ESA) introduction.

However, like any major welfare reform the ESA programme will have wide-ranging impacts throughout DWP, other Government Departments and local authorities. To date, the programme has identified and engaged a range of internal and external stakeholders and have IS/IT plans at various stages of maturity.

Social Security Benefits: Lone Parents

Dr. Gibson: To ask the Secretary of State for Work and Pensions how many single *(a)* women and *(b)* men with children had their benefits withdrawn in each of the last five years. [148304]

Mr. Plaskitt: The information is not available.

State Retirement Pensions: Overseas Residence

Dr. Cable: To ask the Secretary of State for Work and Pensions how many UK state pensions were paid to people residing in each country outside the European Economic Area with which the UK does not have a reciprocal social security arrangement covering uprating of UK state pensions in each year since 1997, broken down by country. [152709]

Mr. Mike O'Brien: The information is lengthy and detailed and therefore has been placed in the Library.

Unemployment Benefits

Mark Pritchard: To ask the Secretary of State for Work and Pensions what research his Department has undertaken into the merits of time-limited unemployment benefits. [149483]

Mr. Plaskitt: The Department has not carried out any recent research into the merits of time-limiting unemployment benefits.

Unemployment Benefits: East Sussex

Mr. Waterson: To ask the Secretary of State for Work and Pensions how much was spent on benefits for unemployed people in *(a)* Eastbourne and *(b)* East Sussex in (i) April 1997 and (ii) in the most recent month for which figures are available, broken down by type of benefit. [151412]

Mr. Plaskitt: The information available is in the following table.

Spend on benefits for unemployed people in (a) Eastbourne and (b) East Sussex in (i) 1997-98 and (ii) 2006-07

	£ million (2007-08 prices)	
	1997-98	*2006-07*
Eastbourne Local Authority District		
Jobseeker's Allowance (Income-based)	5.2	3.8
Jobseeker's Allowance (Contribution-based)	0.9	0.3
East Sussex County		
Jobseeker's Allowance (Income-based)	27.6	15.5
Jobseeker's Allowance (Contribution-based)	4.1	2.3

Notes:
1. Figures are rounded to the nearest £100,000.
2. Figures are consistent with Budget 2007 published expenditure.
3. Figures cover the financial years 1997-98, and 2006-07; monthly figures are not comparable due to seasonality of unemployment.
4. Figures for 2006-07 are estimates, including partially forecast information.
5. Expenditure at this level is estimated using 5 per cent. samples and figures are therefore subject to sampling variation.
6. Jobseeker's allowance (income-based) figures include claimants in receipt of income-based jobseeker's allowance who would also be entitled to the contributory element.
7. Jobseeker's allowance (contribution-based) figures include claimants in receipt of income-based jobseeker's allowance who would also be entitled to the contributory element. Only the amount of income-based award above the level of contribution-based award is included in this.
8. A significant proportion of jobseeker's allowance recipients also receive housing benefit and council tax benefit. Information on expenditure on these benefits is not available at this level.
9. East Sussex county does not include Brighton and Hove unitary authority.

DWP Expenditure tables and Information Directorate, 5 per cent. samples.

Unemployment Benefits: York

Hugh Bayley: To ask the Secretary of State for Work and Pensions what his estimate is of the cost of benefits paid to people who were unemployed and seeking work in the City of York in *(a)* 1996 and *(b)* 2006-07, at 2006-07 prices. [155276]

Mr. Plaskitt *[holding answer 12 September 2007]:* The cost of benefits paid to people who were unemployed and seeking work in the City of York constituency was £9.9 million in 1996-97 in 2006-07 prices, and is estimated to be £4.3 million in 2006-07.

Source:

Department for Work and Pensions Information Directorate 5 per cent. and 100 per cent. Work and Pensions Longitudinal Study data and Department for Work and Pensions Benefit Expenditure Forecasts.

Unemployment: Social Rented Housing

Mr. Clappison: To ask the Secretary of State for Work and Pensions what research he has *(a)* commissioned and *(b)* evaluated on the incidence of unemployment and economic inactivity in social housing tenants. [152593]

Mr. Plaskitt: DWP provided a significant amount of analysis for Professor John Hills, who carried out an assessment of the role of social housing in the 21 century.

The Department has commissioned the Centre for Regional Economic and Social Research at Sheffield Hallam university to undertake research into the links between social housing and worklessness. The research is expected to report towards the end of this year.

The Department is also currently carrying out analysis to quantify how much worklessness in the social rented sector is explained by characteristics of social tenants.

Vacancies: York

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many unfilled job vacancies there were at York Jobcentre at *(a)* 1 January and *(b)* 1 July in each year since 2000. [152209]

Caroline Flint: The available information is in the following table.

	Number of unfilled vacancies at York Jobcentre
July 2004	4,510
January 2005	3,650
July 2005	3,180
January 2006	2,650
July 2006	1,580
January 2007	1,190

Notes:

1. Figures have been rounded to the nearest 10.
2. Information is only available at parliamentary constituency level and below from April 2004.
3. Figures are not fully comparable over time and may not indicate developments in the labour market.

There are two Jobcentres in York; Stonebow House and Monkgate. Figures are for York vacancies which are registered at Stonebow House but available to the public at both offices.

DWP Information Directorate Jobcentre Plus Labour Market System.

FOREIGN AND COMMONWEALTH OFFICE

Charter of Fundamental Rights (EU)

Mr. Francois: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will list the representations made to him on the justiciability of the Charter of Fundamental Rights in the United Kingdom, under the auspices of the draft EU treaty on constitutional arrangements; [155583]

(2) what *(a)* political and *(b)* legal agreements were made at the EU Foreign Ministers meeting of 7 and 8 September in relation to the draft EU treaty on constitutional arrangements; and if he will make a statement; [155584]

(3) whether the Government requested changes to the wording of the draft EU treaty on constitutional arrangements in relation to the Charter of Fundamental Rights at the EU Foreign Ministers meeting of 7 and 8 September; [155585]

(4) whether he has had any discussions with representatives of the trade unions on the justiciability of the Charter of Fundamental Rights in the UK under the auspices of the draft EU treaty on constitutional arrangements; [155586]

(5) whether the United Kingdom has an opt out from the Charter of Fundamental Rights appended to the draft EU treaty on constitutional arrangements. [155587]

Mr. Jim Murphy: There has never been a draft EU Treaty on constitutional arrangements. The Treaty establishing a Constitution for Europe, on which the Government proposed a referendum, is now defunct. The mandate for a Reform Treaty agreed by the European Council states clearly:

> "The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called "Constitution", is abandoned".

China: Hacking

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what information the Government have collected on the hacking into of *(a)* Government, *(b)* Parliament and *(c)* UK commerce and industry computers and databases from China; and what action he has taken with the Chinese Government to halt such activity. [155536]

Mr. Jim Murphy: It is the long-standing policy of the Government not to comment on national security issues.

Attacks on computer systems are an increasing worldwide phenomenon, and the need to manage the consequent risks to information held on these systems is taken very seriously by the Government. Both the Centre for the Protection of National Infrastructure and Communications Electronic Security Group (part of Government Communications Headquarters) play a key role in providing IT security advice to UK Government and industry, and a framework of measures is in place to protect vital systems from attacks.

Departments: Minister for Women

Mrs. May: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* ministerial committees and *(b)* permanent groups involving senior civil servants have been set up by his Department to liaise with the Ministers for Women. [155433]

Mr. Jim Murphy: No ministerial committees or permanent groups involving senior civil servants have been set up by the Foreign and Commonwealth Office (FCO) for liaison with the Ministers for Women. As with all cross-cutting issues, FCO Ministers and officials liaise with the Ministers for Women when relevant.

Iraq: Entry Clearances

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in reviewing the applications of Iraqi interpreters who have worked for British forces in Iraq; and if he will make a statement. [155059]

David Miliband: *[holding answer 10 September 2007]*: As my right hon. Friend the Prime Minister said on 8 August, we are extremely grateful for the service of locally employed staff in Iraq and recognise that there are concerns about their safety. Interested Departments, including the Foreign and Commonwealth Office, the Ministry of Defence, the Department for International Development and the Home Office are reviewing, as a matter of urgency, the assistance we provide to Iraqis who work, or have worked, for the Government.

Kosovo

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* action the UK Government has taken and *(b)* discussions it has had since 1 July on the future status of Kosovo; and if he will make a statement. [155535]

Mr. Jim Murphy: The UK has been working with our partners in the Contact Group and with other members of the Security Council to resolve Kosovo's final status. Following Russian opposition to a Security Council resolution implementing UN Special Envoy Ahtisaari's proposals, the Contact Group agreed to establish a further period of discussions between Belgrade and Pristina, facilitated by an EU-US-Russia Troika. The Contact Group will report back to the UN Secretary-General on those discussions by 10 December.

The UK has engaged extensively on the Kosovo issue. The UK has participated in numerous Contact Group discussions with the Troika. My right hon. Friend the Foreign Secretary has also discussed Kosovo with EU Troika representative Ambassador Ischinger, with UN Special Envoy Ahtisaari, in EU Foreign Ministers' meetings and in bilateral discussions with EU colleagues. We have also remained in close touch with Belgrade and Pristina, encouraging them to engage constructively in the process. My right hon. Friend the Foreign Secretary will be chairing a ministerial meeting of the Contact Group, along with the Troika, in New York on 27 September.

Sudan: Peace Negotiations

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the implementation of the Eastern Sudan Peace Agreement; whether the deadlines in Appendix A of the agreement have been met; and if he will make a statement. [151031]

Meg Munn: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Stroud (Mr. Drew) on 3 September 2007, *Official Report*, columns 1587-88W.

Turkey: Kurds

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the killing of Kurdish civilians in Turkey by Turkish armed forces and law enforcement agencies over the last three months; and if he will make a statement. [155534]

Mr. Jim Murphy: We are aware of a number of Kurds having been killed in Turkey over the last three months. The Turkish authorities report that all those killed by the armed forces were terrorists directly involved in combat operations in the ongoing Kurdish separatist struggle in the south-east. We are also aware of a number of Turkish army personnel having been killed in the region, both in security operations and in periodic attacks by separatists on Turkish army targets.

The overall socio-economic situation in the south-east remains difficult and we continue to press the Turkish government to pursue a comprehensive strategy of reforms to resolve outstanding issues.

Zimbabwe: Diplomatic Relations

Mr. Vara: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions British ambassadors, high commissioners or other diplomatic staff have met *(a)* Robert Mugabe and *(b)* other members of the Zimbabwean Government in the last three years, broken down by (i) date and (ii) place of meeting. [155567]

Mr. Jim Murphy: In the last three years, there have been two formal meetings with President Mugabe, when our former and current ambassadors presented credentials at State House. These were in July 2004 and February 2006. Over the same period, a broad range of contacts have taken place between British diplomats and members of the Government of Zimbabwe as well as other Zimbabweans. These have included both formal meetings on issues of interest/concern and

informal encounters at various events where views have been exchanged. A fully comprehensive record of all such meetings and encounters is not maintained.

HOME DEPARTMENT

Asylum

Mr. Randall: To ask the Secretary of State for the Home Department pursuant to the answer of 25 June 2007, *Official Report*, columns 284-85W, on asylum seekers, (1) whether the working group on asylum seekers and failed asylum seekers will include representatives of local authorities with the highest number of failed asylum seekers awaiting deportation; [154988]

(2) what *(a)* resources and *(b)* information the working group on asylum seekers and failed asylum seekers will have available to them; [154989]

(3) what commitment she has made to implement the recommendations of the working group on asylum seekers and failed asylum seekers; and if she will make a statement; [154990]

(4) what powers the working group on asylum seekers and failed asylum seekers will have to obtain information on the costs of supporting failed asylum seekers not funded by her Department from local authorities; [154991]

(5) when the working group on asylum seekers and failed asylum seekers will be established; and on the basis of which criteria its members will be selected. [154992]

Mr. Byrne *[holding answer 10 September 2007]*: Since the original proposal for the establishment of a working group, we have concluded that this would not be the best way to move forward the specific concerns raised by local authorities and other steps have therefore been taken. The Border and Immigration Agency has carried out a formal public consultation on the arrangements for unaccompanied asylum seeking children (UASC) which includes specific proposals addressing local authority concerns about arrangements for leaving care support for former UASC. On concerns relating to local authority support for people with no recourse to public funds, the Agency has been working closely with the No Recourse to Public Funds National Network (NN NRPF) which was established to address the challenges faced by local authorities in dealing with the NRPF issue. In 2006-07 the Border and Immigration Agency provided the network with a funding grant towards the cost of setting up and co-ordinating network activities and work is in progress to further enhance our relationship and partnership working with the network.

The Border and Immigration Agency liaises with authorities locally through the offices of its new Regional Directors. At the national level, the Border and Immigration Agency has established a Local Authority Taskforce, working in partnership with a number of individual local authorities focussing on issues related to people subject to immigration control, and also engages with local authorities through the National Asylum Support Forum and the LGA (Local Government Association) Asylum and Refugee Task Group.

Border and Immigration Agency: Higher Civil Servants

Mr. Steen: To ask the Secretary of State for the Home Department how many assistant directors of immigration services are in post; and where they are based. [155141]

Mr. Byrne *[holding answer 12 September 2007]*: The number of Border and Immigration Agency permanent staff who would normally be described as assistant director, is recorded in the Home Office computerised personnel system ADELPHI as 357 on a full-time equivalency basis.

Border and Immigration Agency: Standards

Mr. Steen: To ask the Secretary of State for the Home Department what performance indicators are used for the immigration services. [155140]

Mr. Byrne *[holding answer 12 September 2007]*: The Border and Immigration Agency published its business plan on 14 June. This includes the key measures of performance that have been set in 2007-08 as it transitions from the Immigration and Nationality Directorate to a fully operational agency. A copy of the Business plan has been placed in the House Library.

Departments: Manpower

Mr. Heald: To ask the Secretary of State for the Home Department pursuant to the answer of 17 June 2007, *Official Report*, column 670W, on Departments: Manpower, what the estimated yearly cost is of employing the 99 staff referred to. [146884]

Mr. Byrne: Based on the grades of the 99 members of staff, and the average yearly cost to the Department of employing persons at each grade, we estimate that the yearly cost of employing the 99 members of staff to be in the region of £3,288,600. These staff have either found new posts or are undertaking work for the Department.

Departments: Training

Mr. Hoban: To ask the Secretary of State for the Home Department how much was spent by her Department on staff away days in the last 12 months. [153138]

Mr. Byrne: The Home Office accounting system does not separately identify expenditure on staff away days. To provide the detail requested would incur disproportionate cost.

EU Law: Human Trafficking

Mr. Vara: To ask the Secretary of State for the Home Department pursuant to the answer given on 12 July 2007, *Official Report*, column 1635W, on EU Law: Human Trafficking, what changes to domestic legislation processes and guidance are required before the UK will ratify the treaty; what progress has been made to date on each of those changes; and what the anticipated date is by which all such changes will be complete. [155307]

Mr. Coaker *[holding answer 12 September 2007]:* A dedicated project team within the Border and Immigration Agency has been set up to lead implementation of the convention and is reporting to a cross-Government project board and ministerial group. The UK is already largely compliant with the provisions of the convention but part of the ongoing work is to establish exactly what legislation, guidance and training is required to make us fully compliant. As we develop implementation options we will consult with stakeholders within and outside Government, including via our established non-governmental organisation (NGO) stakeholder group, chaired by myself and the Solicitor-General. It is recognised that it will take some time to move from signature to ratification of the convention as the Government are committed to implementing the convention fully and in accordance with our ongoing strategy on trafficking outlined in the UK's Action Plan on Tackling Human Trafficking.

Genetics: Databases

Damian Green: To ask the Secretary of State for the Home Department what percentage of those imprisoned since 1997 have their records on the national DNA database. [155257]

Mr. McNulty *[holding answer 12 September 2007]:* I refer the hon. Member to the reply given to the right hon. Member for Haltemprice and Howden (David Davis) on 9 January 2007, *Official Report*, column 541W.

Illegal Immigrants

Damian Green: To ask the Secretary of State for the Home Department how many injuries were caused to lorry drivers by attempted illegal immigrants at the Channel ports in *(a)* 2006, *(b)* 2005 and *(c)* 2004; how many have been caused in 2007; and if she will make a statement. [155256]

Mr. Byrne *[holding answer 12 September 2007]:* The Border and Immigration Agency is not advised of the incidents of injuries sustained by lorry drivers from illegal immigrants attempting to enter the United Kingdom and consequently does not compile statistics. Such incidents should be reported to the police authorities in the appropriate country.

Damian Green: To ask the Secretary of State for the Home Department how many attempted illegal immigrants were detected in lorries passing through the Channel ports in *(a)* the first six months of 2007, *(b)* the final six months of 2006, *(c)* the first six months of 2006, *(d)* the final six months of 2005 and *(e)* the first six months of 2005. [155260]

Mr. Byrne *[holding answer 12 September 2007]:* These statistics are not published.

National statistics were published in the Control of Immigration: Statistics United Kingdom 2006 Command Paper on 21 August. Copies of this publication will be available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Locally collated management information shows the number of illegal immigrants who were detected in lorries entering the UK through our channel ports as follows:

	Number
January-June 2005	105
July-December 2005	87
January-June 2006	99
July-December 2006	122
January-June 2007	114

Locally collated management information also shows the following attempts to reach the UK by departure through continental channel ports. These individuals were prevented from reaching the UK by UK Immigration staff at our juxtaposed controls as well as by French security.

	Number
January-June 2005	6,085
July-December 2005	7,172
January-June 2006	7,198
July-December 2006	8,099
January-June 2007	5,871

The statistical information provided is based on locally collated management information and as such is subject to change.

Immigrants: Criminal Records

Mr. Steen: To ask the Secretary of State for the Home Department how many entry refusals there were of *(a)* EU and *(b)* non-EU nationals on the basis of their criminal records in each of the last three years; and what the estimated cost was to public funds of those refusals. [154949]

Mr. Byrne *[holding answer 10 September 2007]:* Published statistics are not broken down to the same level of detail. National refusal statistics were published in the Control of Immigration: Statistics United Kingdom 2006 Command Paper on 21 August. Copies of this publication will be available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

The following information is based on locally collated management information and as such is subject to change.

Port refusal made under the given refusal codes, all ports, 2004-06

	Nationality group	*Port refusal—Convicted of a criminal offence in the UK/abroad*
2004	EU nationals	6
	Non-EU nationals	79
2005	EU nationals	2
	Non-EU nationals	203
2006	EU nationals	2
	Non-EU nationals	146

The information requested in relation to the estimated costs to public funds could be obtained only by the detailed examination of individual case records at disproportionate cost.

Immigration: Skilled Workers

Damian Green: To ask the Secretary of State for the Home Department what recent estimate her Department has made of the number of people resident in the United Kingdom who will be affected by the retrospective changes to the Highly Skilled Migrant Programme; and if she will make a statement. [155538]

Mr. Byrne: The November 2006 changes to the Highly Skilled Migrant Programme affect all those making applications for initial leave or extensions of leave under the Highly Skilled Migrant Programme from the date the new rules came into effect. They are not retrospective.

Immigration Officers: Corruption

Mr. Steen: To ask the Secretary of State for the Home Department how many immigration officers were prosecuted for corruption in each of the last five years. [155138]

Mr. Byrne *[holding answer 12 September 2007]:* No immigration officers have been prosecuted for corruption in the last five years.

Immigration: Ministers of Religion

Damian Green: To ask the Secretary of State for the Home Department if she will break down the Ministers of Religion in Table 2.2 of Control of Immigration Statistics UK 2006, by faith group. [155259]

Mr. Byrne *[holding answer 12 September 2007]:* The requested breakdown is not available.

Police Custody: Death

Mr. Clegg: To ask the Secretary of State for the Home Department how many deaths there were in police custody in each of the last five years. [155346]

Jacqui Smith *[holding answer 12 September 2007]:* Responsibility for the collation and publication of statistics relating to deaths in police custody rests with the Independent Police Complaints Commission.

Police: Manpower

Ms Keeble: To ask the Secretary of State for the Home Department how many *(a)* police officers, *(b)* police community support officers and *(c)* civilians staff were employed per capita of general population in each police authority in (i) 1997, (ii) 2002 and (iii) 2007. [155289]

Mr. McNulty *[holding answer 12 September 2007]:* The requested information is shown in the following tables.

Police officers per 100,000 population[1] (FTE)[2] by police force as at 31 March 1997, 2002 and 2007[3, 4]

	As at 31 March each year		
Police force	*1997*	*2002*	*2007*
Avon and Somerset	202	209	224
Bedfordshire	198	189	207
Cambridgeshire	183	192	187
Cheshire	208	209	225
Cleveland	263	270	315

Gwent	81	103	145
North Wales	72	97	112
South Wales	98	120	128

[1] Civilian staff have been referred to as police staff since March 2003. Figures exclude traffic wardens, police community support officers and designated officers (s.38)
[2] Total strength is based on full-time equivalent figures that have been rounded to the nearest whole number, because of rounding there may be an apparent discrepancy between these totals and the totals in other tables. Figures exclude those staff on career breaks or maternity/paternity unless otherwise stated.
[3] Boundary changes on 1 April 1996 transferred resources for the policing of the Rhmney Valley from South Wales police to Gwent police.
[4] Boundary changes on 1 April 2000 transferred some resources from the Metropolitan police to Essex, Hertfordshire and Surrey police forces.
[5] Officers per 100,000 population for City of London and Metropolitan police are combined.

Police: Personal Records

Mr. Clegg: To ask the Secretary of State for the Home Department how many police officer profiles were removed from the database on retirement or resignation in each year since 2000. [155341]

Jacqui Smith *[holding answer 12 September 2007]:* There is no Home Office managed national database on officers that have retired or resigned.

Most forces are party to the Emergency Services Collaborative Framework Agreement for the provision of Temporary Staffing Services which is operated on behalf of the emergency services by two employment agencies (Adecco and Reed).

Proof of Identity: Genetics

Jo Swinson: To ask the Secretary of State for the Home Department pursuant to the answer of 23 July 2007, *Official Report*, column 694W, on genetics, what the average length of time taken by her Department's agencies to identify an individual through analysis of DNA was in each of the last five years. [155420]

Meg Hillier: The process for matching DNA from individuals with that from crime scenes is as follows. When someone is arrested for a recordable offence a sample is taken, usually by means of a cheek swab, which is sent to a laboratory. The sample is analysed to produce a numerical code which represents a number of areas of the individual's DNA. This code is sent to the National DNA Database. If it passes quality assurance checks it is loaded onto the database, together with demographic information such as the person's name and date of birth. Crime scene investigation leads to discovery of traces of biological material such as semen, blood or saliva, which will in some cases allow a numerical code representing DNA from an individual who has left that trace at the crime scene to be produced. A match may occur either when a profile from a crime scene is loaded onto the database and is found to match a profile from an individual, or vice versa. Matching may also occur between profiles from different crime scenes, indicating that the same person was present at more than one crime scene, even if that person cannot yet be identified. The database operates continuously and matches are automatically notified to police forces electronically or by fax as soon as they are made. The question is understood to refer to the length of time a crime scene profile or a profile from an individual remains on the database before a match occurs. Data on this are not recorded.

Written Answers to Questions

The following answers were received between Tuesday 18 September and Monday 1 October 2007

DUCHY OF LANCASTER

Public Service

Mr. Wallace: To ask the Chancellor of the Duchy of Lancaster whether his Department has carried out any studies into Public Service Entitlement since 2004. [154974]

Edward Miliband *[holding answer 10 September 2007]:* In 2004, the Office of Public Services Reform undertook a review of understanding and enforcement among public service providers and business of rules on eligibility for public services. Since then, the Cabinet Office has supported interdepartmental ministerial consideration of related issues, including during the development of "Enforcing the rules: A new strategy to ensure and enforce compliance with our immigration laws", which was published by the Home Office in March 2007.

INTERNATIONAL DEVELOPMENT

Departments: Departmental Coordination

Mrs. May: To ask the Secretary of State for International Development what *(a)* ministerial committees and *(b)* permanent groups involving senior civil servants have been set up by his Department to liaise with the Ministers for Women. [155244]

Mr. Douglas Alexander *[holding answer 12 September 2007]:* No committees or groups have been set up specifically to liaise with the Ministers for Women. As with all cross-cutting issues, Ministers and officials in DFID liaise with the Ministers for Women as necessary.

TRANSPORT

Aviation: Baggage

Mr. Marshall: To ask the Secretary of State for Transport how many complaints she has received from airline passengers in relation to delayed and lost baggage in each of the last six months; and if she will make a statement. [155528]

Jim Fitzpatrick *[holding answer 17 September 2007]:* The Department receives few direct complaints from airline passengers. This is because the Air Transport Users' Council (AUC) is the passenger complaints body in the UK for airline services.

Figures from the AUC show that in the last six months it received some 3361 written complaints. Of these 234 related to lost or delayed baggage.

Passenger rights in respect of the loss, damage or delay to baggage are protected by international legislation. Under the 1999 Montreal Convention which came into force for the UK in June 2004 the carrier is prima facie liable for luggage that has been delayed, damaged or lost (unless the carrier can establish a defence under the Convention). The liability for delay, loss or damage to baggage is limited to 1,000 Special Drawing Rights (SDRs) - approximately £820. These are maximum limits. Claims are assessed individually.

Bus Services

Susan Kramer: To ask the Secretary of State for Transport what the average *(a)* number of trips and *(b)* trip length taken each year (i) by bus and (ii) in total was for people in each income decile and in each region in each year in which a national travel survey has been published. [152143]

Ms Rosie Winterton: Data available from the National Travel Survey are given in the tables which have been placed in the Libraries of the House. The National Travel Survey provides detailed information on personal travel in Great Britain. The sample size was increased in 2002; since 2002 the survey has been based on a random sample of around 8,000 responding private households each year.

Due to small sample sizes at the level of disaggregation requested, data from several survey years have been combined to produce more reliable estimates.

In 2006 a weighting strategy was introduced to the NTS to improve the reliability of the data. This weighting methodology has been applied to data back to 1995 so figures for earlier years are not directly comparable with data for 1995 onwards.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on redundancy payments in the last 12 months. [153204]

Ms Rosie Winterton: The Department and its agencies had no compulsory redundancies in the 12 months ending March 2007.

For the cost of the voluntary exit scheme for the 12 months ending March 2007, I refer the hon. Member to the answer given by the then Parliamentary Under-Secretary of State for Transport, the hon. Member for Lincoln (Gillian Merron), on 2 March 2007, *Official Report*, columns 1571-2W to the hon. Member for Putney (Justine Greening).

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on industrial tribunals in the last 12 months. [153207]

Jim Fitzpatrick: During 2006-07, the Department has identified incurred costs at industrial tribunals amounting to £176,456.

Figures for DSA and MCGA are not available.

Heathrow Airport: Complaints

Mr. Marshall: To ask the Secretary of State for Transport how many complaints she has received from passengers about Heathrow Airport in each of the last three months; and if she will make a statement. [155520]

Jim Fitzpatrick *[holding answer 17 September 2007]:* The Department for Transport received three complaints from passengers about Heathrow Airport in June, four complaints in July, and six complaints in August. These related largely to the management of outbound security.

M25

Mrs. Villiers: To ask the Secretary of State for Transport what the projected cost is of each of the sections of the project to widen the M25. [155155]

Mr. Tom Harris *[holding answer 12 September 2007]:* The latest Ministerially approved estimate for each of the sections of the M25 widening is as follows:

M25 Widening	*£ million Ministerially approved estimate*
Section 1 - Junctions 16 -23	697
Section 2 - Junctions 5 -7	214
Section 3 - Junctions 1b - 3	62
Section 4 - Junction 27 - 30	402
Section 5 - Junction 23 - 27	419

The ministerially approved estimate for M25 Junction 27-30 (Section 4) referred to in the table, has recently been revised and will be included in the Environmental Statement for publication next month.

Railways

Mr. Scott: To ask the Secretary of State for Transport what discussions she has held following the report of the Office of Rail Regulation on the increase in rail defects caused by heavier trains introduced over the last two years. [155158]

Ms Rosie Winterton *[holding answer 12 September 2007]:* Department for Transport officials are engaged with Network Rail, train operators and the train manufacturers on the impact trains have on track.

Looking to the future the Department is taking a lead in specifying lighter trains that have been assessed using the latest industry models to optimise the train design.

HEALTH

General Practitioners: Telephone Services

Peter Bottomley: To ask the Secretary of State for Health if he will list by primary care trust the medical GP practices which use 0844 revenue-shaving telephone numbers; and what guidance he has issued on the use of such numbers. [155523]

Mr. Bradshaw: The Department does not collect information on telephone numbers in use by general practitioners practices.

Lord Warner wrote to primary care trust chief executives on 19 December 2006 about the use of non-geographical (084) telephone numbers by NHS services. The letter has been placed in the Library and is also available at:

www.dh.gov.uk/en/Publicationsandstatistics/Lettersandcirculars/Dearcolleagueletters/DH_064287

JUSTICE

Social Security Benefits: Fraud

Mr. Clappison: To ask the Secretary of State for Justice how many individuals convicted of benefit fraud in the last 12 months had *(a)* one, *(b)* two and *(c)* three or more previous convictions. [153053]

Mr. Plaskitt: I have been asked to reply

DWP only keeps records of benefit fraud convictions. These records commenced in April 2002 to support the Loss of Benefit Provisions legislation (Two Strikes) introduced by the Social Security Fraud Act 2001, and information is kept for five years in line with the Rehabilitation of Offenders Act 1974.

Our records show that of 6,061 benefit fraud convictions recorded between 1 September 2006 and 31 August 2007, there were 66 convictions for a second benefit fraud offence and one conviction for a third benefit fraud offence.

TREASURY

Departments: Early Retirement

Mr. Jenkins: To ask the Chancellor of the Exchequer how many of his staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148809]

Angela Eagle: The number and grades of Treasury staff for whom early retirement or early severance was agreed in the last five years and the associated costs are as follows. An analysis of percentage of each grade could be provided only at disproportionate cost.

Financial year	*Cost (£000)*	*Grade of staff*	*Number*
2002-03	1,221	AO	1
		EO	1
		Grade 6/7	1
		Grade 5	1
		Grade 3	2
2003-04	2,926	AO	3
		EO	1
		HEO/SEO	13
		Grade 6/7	1
		Grade 5	1
		Perm Sec	1

Financial year	Cost (£000)	Grade of staff	Number
2004-05	2,178	AA	3
		AO	4
		EO	5
		HEO/SEO	8
		Grade 6/7	5
2005-06	766	AA	1
		AO	1
		EO	4
		HEO/SEO	4
		Grade 6/7	2
		Grade 5	2
2006-07	483	EO	2
		HEO/SEO	2
		Grade 6/7	2
		Grade 5	4

Health Spending Team

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 5 July 2007, *Official Report*, column 1183W, on the Health Spending Team, whether this team has its own specific list of objectives that contribute to his Department's overall objectives. [153649]

Andy Burnham: The health team works in close collaboration with the Department of Health in seeking to ensure the best possible use of the resources allocated to health and social services.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Climate Change

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the Government's policy towards the Sydney Declaration on Climate Change. [155574]

Mr. Woolas *[holding answer 17 September 2007]:* The Secretary of State for the Environment welcomes the Sydney Declaration and is pleased that climate change was on the agenda for the leaders' summit for the first time.

The UK fully supports the view set out in the Sydney Declaration that a post-2012 framework must be based on UNFCCC principles. A concerted action involving all countries should be equitable, effective and follow the principle of common but differentiated responsibilities and respective capabilities—and be underpinned by a shared vision of a long-term goal. The UK remains committed to negotiations under the UNFCCC process and hopes Bali will begin the process of full and comprehensive negotiations on a post-2012 framework which will take place over the next two years.

Energy: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Government spent on energy conservation in *(a)* York and *(b)* Yorkshire in each year since 2004-05. [151561]

Joan Ruddock: Energy conservation is a broad term that could refer to many activities implemented by a wide number of Government institutions. As such, it is not possible to accurately estimate total Government spend in these regions.

DEFRA's main programme for improving the energy efficiency of vulnerable households is the Warm Front Scheme, which provides grants for heating and insulation measures. Warm Front spend on measures in York and Yorkshire is set out in the following table:

£

Financial year	York	Yorkshire (excluding York)	Yorkshire (including York)
2004-05	165,043	22,431,840	22,596,883
2005-06	414,539	17,291,683	17,706,222
2006-07	763,107	35,603,594	36,366,701
Year to date	227,219	16,174,594	16,401,813
Total	1,569,908	91,501,711	93,071,619

Flood Control: Bournemouth

Mr. Ellwood: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to review *(a)* flood defences and *(b)* sea defences in the Bournemouth area following the summer 2007 flooding. [155460]

Mr. Woolas *[holding answer 17 September 2007]:* The recently commenced review of the Shoreline Management Plan, which is being led by Bournemouth borough council in conjunction with the Environment Agency, will consider long term management of flood and coastal erosion risk along this length of coast.

A Strategic Flood Risk Assessment for Bournemouth borough council, Christchurch borough council, East Dorset district council, North Dorset district council and Salisbury district council is also underway. This will investigate and identify the extent and severity of flood risk to Bournemouth to enable the council to steer development away from those areas at highest risk; supplement current policy guidelines and provide a clear risk based approach to development control; and, contribute to the evidence base for the Local Development Framework and Sustainability Appraisal work.

Floods

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* properties and *(b)* businesses were affected by the summer 2007 floods, broken down by county. [155564]

Mr. Woolas *[holding answer 17 September 2007]:* Since the initial flooding in June, local authorities have been providing information about the number of residential

properties and businesses affected by the summer floods. The information is held by local authority and region, rather than by county.

The figures for properties include only those residential properties where the habitable accommodation has been affected (that is, it excludes those where, for example, only garages and/or outbuildings were flooded).

The tables have been placed in the Library of the House.

Fluoridation

Mr. Brady: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the environmental impact of the fluoridation of public water supplies. [155451]

Mr. Woolas *[holding answer 17 September 2007]:* In 2000 the Environment Agency published a non-statutory environmental quality standard (EQS) for fluoride in water. The standard was informed by a review, carried out for the Agency, on the effect of fluoride on a range of aquatic life. This review drew on available research from recognised scientific laboratories and indicated that fluoride affects aquatic life at concentrations at 9.0-350.0mg/l depending on the hardness of the water and the sensitivity of the species tested.

Where public water supplies are fluoridated the concentration of fluoride is maintained at 1.0mg/l, and any discharges of these supplies into the aquatic environment would be further diluted through the process of collection and treatment of waste water. Therefore the environmental impact would not be expected to be significant.

Housing: Energy

Linda Gilroy: To ask the Secretary of State for Environment, Food and Rural Affairs to which organisations and projects the £20 million announced in the Budget 2006 to help local authorities and other to promote energy efficiency and incentivise energy efficiency measures in households has been allocated; and how much has been allocated to each. [155237]

Mr. Woolas *[holding answer 12 September 2007]:* Of the £20 million announced in Budget 2006, £4.75 million was allocated to the energy demand research project, bringing total funding to £9.75 million for trials of household smart meters and displays and a broader range of behavioural measures. Around 40,000 households will be taking part in the trials, together with energy suppliers, metering/feedback device companies, specialist companies, charities and universities.

A further £10 million (£5 million in 2007-08 and £5 million in 2008-09) has been awarded to the Carbon Trust's Partnership for Renewables to create private-public partnerships to develop renewable projects on public sector land. It aims to develop 500 megawatts of capacity, and the programme is currently working with over 200 public sector bodies, including local authorities, the national health service and higher education authorities.

As part of a broader reprioritisation related to wider budget pressures, the remaining funds have been cut to £0.5 million. We are considering options for their best use.

Institute for Animal Health: Waste Disposal

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what consideration was given to prioritising the repair and maintenance of the effluent pipes at Pirbright in the context of the current refurbishment of the site; what the estimated cost is of replacing the effluent pipes; and when his Department first obtained an estimate for such costs. [155573]

Ian Pearson *[holding answer 17 September 2007]:* I have been asked to reply.

The Pirbright Site Redevelopment Programme (PSRP) Board, comprising senior officials from BBSRC, DEFRA, DIUS, the Veterinary Laboratories Agency (VLA) and the Institute for Animal Health (IAH), is responsible for overseeing the redevelopment of the site including the drainage.

Tenders for the drainage system of around £220,000 were received in October 2006. DEFRA provided regulatory approval in early 2007. This scheme was approved by the PSRP Board in May 2007 and work began as planned in July 2007.

Institute for Animal Health

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what central Government funding to the Institute of Animal Health estate was in each year since 1997. [155476]

Ian Pearson *[holding answer 17 September 2007]:* I have been asked to reply.

Central Government funding for the Institute for Animal Health since 1997 was as follows:

IAH funding

£ million

	BBSRC[1]	*DEFRA*	*Other Government Departments*	*Total*
1997-98	11.2	7.6	0.9	19.7
1998-99	9.7	7.9	1.2	19.8
1999-2000	9.0	8.1	1.7	18.8
2000-01	9.4	8.0	1.8	19.2
2001-02	9.5	9.3	1.5	20.3
2002-03	11.8	9.0	0.9	21.7
2003-04	14.6	9.0	0.8	24.4
2004-05	17.3	9.6	1.8	28.7
2005-06	20.2	8.0	2.0	30.2
2006-07[1]	33.6	8.5	2.0	44.1
Total	146.3	85.0	14.6	245.9

[1] BBSRC total includes core strategic grant, competitive grants and capital investment environment

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to answer the letters to him dated 17 July from the right hon. Member for Manchester, Gorton with regard to Mr. S. Chislett. [154979]

Jonathan Shaw *[holding answer 10 September 2007]:* A reply has been sent to my right hon. Friend today. I apologise for the delay in replying which is due to recent high volumes of correspondence.

Recycling

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs how many reports and publications the Department published in 2006-07; and how many of these were printed on 100 per cent. recycled paper. [155481]

Jonathan Shaw *[holding answer 17 September 2007]*: The Government have a duty to explain its policies, decisions and actions; to inform the public about their rights and liabilities; and to provide the public with advice and warnings. DEFRA publishes regularly reports and consultations in accordance with these principles, but to establish the combinations of such publications could be collated only at disproportionate cost. Print procurement policy is to produce the lowest quantity of publications to meet the specific needs of each case, thereby minimising waste. In the case of consultations most are handled on-line and stakeholders may download a copy for local printing. Copies will be supplied to order—printed digitally—on a limited basis, if requested, as will large print and Braille versions.

All the paper used to print reports and publications is based on a material that contains a minimum of 100 per cent. recycled fibre for uncoated papers, and 75 per cent. recycled fibre for coated papers. Print procurement policy is to use uncoated stock except where design, marketing and production requirements require coated stock.

DEFENCE

Armed Forces Compensation Scheme

Dr. Fox: To ask the Secretary of State for Defence (1) how many compensation claims were made under the *(a)* War Pensions Scheme in each year from 1997 to 2006 and *(b)* the Armed Forces Compensation Scheme in each year since 2006; [155145]

(2) how many outstanding claims there were from the *(a)* War Pensions Scheme in each year from 1997 to 2006 and *(b)* the Armed Forces Compensation Scheme in each year since 2006. [155146]

Des Browne *[holding answer 12 September 2007]*: Figures on the number of compensation claims made under the War Pensions Scheme and the Armed Forces Compensation Scheme in each financial year and the total number of claims outstanding as at 31 March each year, including those that may have been registered in previous years, are set out in the following table. Information is not available for the number of claims made prior to 1 April 2000 or on the total number of claims outstanding before 31 March 2001.

	War Pensions Scheme[1,2]		*Armed Forces Compensation Scheme*[1,3]	
Financial year	*Claims made during the year*	*Total number of claims outstanding*[4]	*Claims made during the year*	*Total number of claims outstanding*[4]
2000-01	47,845	12,575	—	—
2001-02	45,965	10,580	—	—
2002-03	43,560	10,000	—	—
2003-04	41,495	9,540	—	—
2004-05	37,250	7,515	—	—
2005-06	39,300	6,925	540	230
2006-07	36,955	6,590	1,910	545

[1] Data have been rounded to the nearest five.
[2] Includes all disablement claims, widows claims, supplementary allowance claims, supplementary allowance reviews, medical expense claims and appeals.
[3] Includes all injury claims, survivors' claims, reconsiderations and appeals.
[4] For the purposes of this table, a claim is recorded outstanding if it has been registered but does not have an outcome.

Claims under both schemes require medical and other evidence to be gathered and assessed before a decision can be taken. The average clearance times for the two schemes in 2006-07 were 49 days for the War Pension Scheme and 34 days for the Armed Forces Compensation Scheme.

Army: Motor Vehicles

Mr. Oaten: To ask the Secretary of State for Defence how many military vehicles for use by the Army were purchased by his Department in 2006-07, broken down by country of manufacture. [155390]

Mr. Bob Ainsworth *[holding answer 17 September 2007]*: This information is not held in the format requested. The total number of vehicles purchased for use by the Army between 1 April 2006 and 31 March 2007 was 6,911. This figure includes some vehicles purchased for use on a tri-service basis. For the purposes of this question, purchased has been defined as 'placed on contract'.

Military vehicle acquisition, however, is complex and, in most cases, no single country is responsible for the delivery of a vehicle. Components are often manufactured by different companies in different countries and then assembled by a systems integrator, who may be based in yet another country.

Iraq: Peacekeeping Operations

Peter Bottomley: To ask the Secretary of State for Defence how many fatalities each unit that has served in Iraq has experienced; and how many of those *(a)* died in Iraq and *(b)* subsequently died of wounds elsewhere. [155268]

Des Browne *[holding answer 12 September 2007]*: The Ministry of Defence publishes data on battle and non-battle fatalities, including their unit, that have resulted from our operations in Iraq since March 2003: details can be found on the Ministry of Defence website:

(http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets/OperationsInIraqBritishFatalities.htm).

This information is updated after each incident.

The following table breaks down the number of military fatalities, by unit, in line with the information published on the website. In addition, one Defence Fire Service contractor has died on operations in Iraq.

Number of fatalities for UK armed forces personnel, Iraq, by Unit as at 6 September 2007

Unit	Total
Total	167
1 (UK) Armoured Division HQ and Signal Regiment	1
1 Argyll and Sutherland Highlanders	1
1 Assault Group	1
1 Black Watch	7
1 Coldstream Guards	2
1 Devonshire and Dorset Light Infantry	1
1 Highlanders (Seaforth, Gordons and Camerons)	1
1 Irish Guards	4

Royal Regiment of Fusiliers	1
Royal Scots Dragoon Guards	2
Tyne-Tees Regiment	1
Welsh Guards	1

Number of fatalities for UK armed forces personnel, who died as a result of their wounds (DOW) after being aeromeded from Iraq[1], by Unit, as at 4 September 2007

Unit	Total
Total	3
1 Staffordshire Regiment	1
12 Regiment Royal Artillery	1
Royal Logistic Corps	1

[1] Two armed forces personnel died as a result of injuries sustained in operational accidents (DOP) and are not included in the above table

Military Aircraft: Helicopters

Dr. Fox: To ask the Secretary of State for Defence what the crew *(a)* requirement and *(b)* strength is for each helicopter type in the (i) Army Air Corps, (ii) Navy and (iii) RAF. [153319]

Mr. Bob Ainsworth: The current *(a)* requirement and *(b)* strength for crew personnel, for each relevant Unit/Squadron, for each helicopter type in the (i) Army Air Corps, (ii) Navy and (iii) RAF are shown in the following tables.

Army Air Corp

Army Air Corp Unit	Helicopter type	Establishment (requirement)	Actual strength
HQ DAAvn	Lynx/Gazelle/ Squirrel/Apache AH1	15	W
SAAvn	Lynx/Gazelle/ Squirrel/Apache AH1	46	44
DHFS (Army)	Squirrel	14	10
1 Regt AAC	Lynx	40	41
3 Regt AAC	Apache AH1	61	31
4 Regt AAC	Apache AH1	61	43

32 Sqn	Augusta 109	3	3

The actual strength of the two Apache Units (three and four Regiment Army Air Corps) reflects the fact that these helicopters are relatively new to service and as such these newly formed units will not achieve 'steady state'[1] until 2010; we are in the process of manning these units and have a number of pilots in the training pipeline. Apache pilot availability is sufficient to meet operational requirements.

[1] Steady state is defined as the point at which the training pipeline is providing sufficient pilots to replace those lost through natural wastage.

Military Bases: Colchester

Bob Russell: To ask the Secretary of State for Defence what plans he has to locate further units of 16 Air Assault Brigade at Colchester Garrison; and if he will make a statement. [155480]

Des Browne *[holding answer 17 September 2007]:* There are no plans to locate further units of 16 Air Assault Brigade at Colchester Garrison.

Territorial Army: Manpower

Mr. Lancaster: To ask the Secretary of State for Defence what the current establishment of each *(a)* regiment, *(b)* corps and *(c)* sub-unit of the Territorial Army is. [152639]

Mr. Bob Ainsworth: I have written to the hon. Member today and will place a copy of my letter in the Library of the House.

HOME DEPARTMENT

Alcoholic Drinks: Children

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded in respect of retailers selling alcohol to those aged under 18 years in each year since 1997; how many police cautions were issued; and what the average fine levied was. [154984]

Mr. Coaker *[holding answer 10 September 2007]:* Information on the number of recorded offences of retailers selling alcohol to those aged under 18 years are summary and are not included in the police recorded crime statistics.

Statistics for the number of police cautions issued and the average fine have been provided by the Ministry of Justice and are given in the table for 1997-2005. Data for 2006 will be available in the autumn of 2007.

Retailers selling alcohol to those aged under 18

	Number of police cautions issued[1,2]	*Average fine (£)*
1997	171	227
1998	76	212
1999	69	194
2000	53	206
2001	48	208
2002	59	249
2003	63	253
2004	101	238
2005	98	246

[1] These data are on a principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative databases generated by the police. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Asylum: Social Security Benefits

Jeremy Corbyn: To ask the Secretary of State for the Home Department what studies have been undertaken into the effect of appellant asylum seekers who have been denied benefits on social services departments. [155332]

Mr. Byrne *[holding answer 12 September 2007]:* Asylum seekers are not eligible to receive income support, jobseekers allowance or other similar benefits. As such, no such studies have been undertaken by the Home Office.

Burglary: Surrey

Mr. Malins: To ask the Secretary of State for the Home Department how many burglaries were *(a)* reported and *(b)* successfully detected in Surrey in each of the last five years for which figures are available. [155326]

Jacqui Smith *[holding answer 12 September 2007]:* The information requested is given in the following table:

Burglary offences recorded in Surrey

Financial year	*Number of offences*	*Number of detections*
2002-03	9,727	844
2003-04	9,200	1,000
2004-05	8,870	959
2005-06	8,410	872
2006-07	8,141	1,001

Cars: Theft

Damian Green: To ask the Secretary of State for the Home Department how many people in England and Wales were charged for the recovery of their stolen vehicle from police, and police approved, car pounds in each of the last five years, broken down by police force; and how much was received by such car pounds in each such year. [155540]

Mr. McNulty *[holding answer 17 September 2007]:* This information is not collected centrally. When the police use their powers to remove and store any vehicle, including a stolen vehicle, that is illegally, dangerously or obstructively parked or broken down or abandoned, they may levy prescribed charges to cover the costs incurred. The charges are currently £105 for the removal and £12 per day for storage.

CCTV: York

Hugh Bayley: To ask the Secretary of State for the Home Department how much central government funding has been spent on closed-circuit television in York since 1997. [155494]

Mr. Coaker *[holding answer 17 September 2007]:* Since 1997, the Home Office has specifically provided the City of York with £268,000 for closed circuit television.

Other years' crime reduction funding has been allocated directly to the local Crime and Disorder Reduction Partnership and Basic Command Unit in York to finance a variety of interventions, including CCTV. Information about the allocation of that funding is not held centrally.

Departments: Pay

Mr. Fallon: To ask the Secretary of State for the Home Department what representations she has received on public pay since her appointment; and if she will make a statement. [155135]

Mr. McNulty *[holding answer 12 September 2007]:* Since my right hon. Friend the Home Secretary's appointment, Home Office Ministers have received correspondence from right hon. and hon. Members, police officers and others on the subject of police pay. The subject has also been raised at some meetings attended by Home Office Ministers. The 2007 police officer pay award has been addressed through the Police Negotiating Board in the usual way. Following the PNB's failure to reach agreement, the issue will now proceed to the Police Arbitration Tribunal, before my right hon. Friend makes her decision. In doing so she will consider very carefully the recommendations that result from this process.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for the Home Department how many overseas visits were made by *(a)* officials and *(b)* Ministers within her responsibility, and at what cost, in each year since 1997. [151646]

Mr. Byrne: Prior to the machinery of Government changes, the Home Office employed approximately 78,000 people. The Department's expenditure on foreign travel and accommodation in each year since 1997 is shown in the following table . Figures for 1997-98 to 2002-03 are for overseas travel only. Details of overseas accommodation for these years could be obtained only at disproportionate cost.

	£ million
1997-98	1.18
1998-99	0.89
1999-00	1.43
2000-01	1.38
2001-02	2.07
2002-03	2.35
2003-04	4.45
2004-05	12.06
2005-06	10.66
2006-07	14.60

The difference in costs over the period reflects the changing nature of the Home Office's business, in particular the growth of international terrorism, migration and international travel. Collaboration and information exchange with other countries on counter-terrorism activities and border control have become increasingly critical to the effective discharge of the Department's responsibilities for asylum, immigration and national security. This has involved higher levels of overseas travel.

Details on the number of visits could be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Deportation: Democratic Republic of Congo

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many people were removed under immigration law to: *(a)* Democratic Republic of Congo and *(b)* Congo (Brazzaville) in each of the last six months; and what plans he has to remove people to either country in future. [155330]

Mr. Byrne *[holding answer 12 September 2007]:* The table shows the number of failed asylum applicants removed to Congo and the Democratic Republic of Congo (DRC) between January and June 2007 inclusive. This is the latest six-month period for which figures are available.

Information on the total number of persons removed between January and June 2007 (including non-asylum cases) is not available for release under National Statistics protocols.

On 23 August 2007, Justice Collins ordered that the removal of all unsuccessful asylum seekers to DRC must be deferred until the Country Guidance case is determined. In line with the High Court's decision of 23 August 2007, the Border and Immigration Agency will not enforce the removal of Congolese asylum seekers to DRC until the Asylum Immigration Tribunal (AIT) has substantively considered the pending Country Guidance case. The High Court's decision, however, applies only to unsuccessful asylum seekers and we shall continue to remove immigration offenders who are Congolese nationals and have no legal right to remain in the UK. There are currently no legal impediments stopping us from removing to Congo those Congolese nationals with no right to remain in the UK.

The Government are committed to providing protection to those individuals who are found to be in fear of persecution. It is only right that we provide that protection, but equally, it is only right that we enforce the return of those who have no right to remain here: this is a key part to upholding a robust and fair asylum system.

Copies of statistics publications are available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Removals, voluntary departures and assisted returns[1] of asylum applicants[2], including dependants, to Congo and the Democratic Republic of Congo, January – June 2007[3,4]

Destination	*January*	*February*	*March*	*April*	*May*	*June*	*Number of removals January-June total*
Congo	5	*	5	5	5	5	25
Democratic Republic of Congo	10	40	10	15	5	10	90

[1] Includes enforced removals, persons departing voluntarily after enforcement action had been initiated against them, persons leaving under assisted voluntary return programmes run by the International Organisation for Migration and those who it is established have left the UK without informing the immigration authorities.
[2] Persons who had sought asylum at some stage, including dependants.
[3] Figures are rounded to the nearest five, (* = 1 or 2), and may not sum to the totals shown because of independent rounding.
[4] Provisional figures.

Entry Clearances

Richard Younger-Ross: To ask the Secretary of State for the Home Department how many non-EU citizens who reside in the UK gained entry to the UK through applying for a UK visa from another European member state. [140545]

Mr. Byrne: The Home Office does not collect the information requested.

Extradition: Russia

Andrew Mackinlay: To ask the Secretary of State for the Home Department if she will list the steps which must be taken, and the requirements which must be met, for the relevant authorities of the Russian Federation successfully to obtain extradition of a person from the UK; and if she will make a statement. [155546]

Meg Hillier *[holding answer 17 September 2007]:* The outcome of individual cases is determined by the provisions of the Extradition Act 2003 (as amended). Within what the law permits, the United Kingdom stands ready to render maximum assistance to all of its extradition partners. It is also open to those partners to consult the Crown Prosecution Service directly about the requirements of UK extradition law.

Fines: Cinemas

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded in respect of cinemas allowing underage children into age-rated films in each year since 1997; how many police cautions were issued; and what the average fine levied was. [154986]

Mr. Coaker *[holding answer 10 September 2007]:* The information requested is not collected centrally.

Fines: Retail Trade

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded in respect of retailers selling video games or DVDs to under-age customers in each year since 1997; how many police cautions were issued; and what the average fine levied was. [154985]

Mr. Coaker *[holding answer 10 September 2007]:* Information on the number of recorded offences of retailers selling video games or DVDs to under-age customers is not collected centrally. This is a summary offence and is not included in the police recorded crime statistics.

Statistics for the number of police cautions issued and the average fine have been provided by the Ministry of Justice and are given in the table for 1997-2005. Data for 2006 will be available in the autumn of 2007.

Retailers selling video games and DVDs to underage customers[1]

	Number of police cautions issued[2, 3]	*Average fine (£)*
1997	1	519
1998	—	440
1999	—	798
2000	—	1,028
2001	—	1,378
2002	—	1,079
2003	1	921
2004	—	775
2005		489

[1] Video Recording Act 1984 S.11 as amended by the Criminal Justice and Public Order Act 1994 S. 88 (4).4 [2] These data are on a principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative databases generated by the police. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Foreign Workers: Work Permits

Chris Grayling: To ask the Secretary of State for the Home Department how many work permits were issued to overseas nationals in each of the last 10 years. [152969]

Mr. Byrne: Work Permit information is published in the 'Foreign labour in the United Kingdom: current patterns and trends' report authored by John Salt and Jane Millar from the 'Migration Research Unit, University College London' and is available at the following link:

http://www.statistics.gov.uk/articles/labour_market_trends/foreign_labour.pdf

Genetics: Databases

Damian Green: To ask the Secretary of State for the Home Department what percentage of individuals on the DNA database are under 16; and if she will make a statement. [155258]

Meg Hillier *[holding answer 12 September 2007]:* On 10 September 2007, 3.38 per cent. of persons on the National DNA Database were currently aged under 16. This figure represents persons sampled by police forces in England and Wales only, and includes some persons who provided a DNA profile voluntarily.

Mr. Clegg: To ask the Secretary of State for the Home Department what the annual cost was of *(a)* storing and *(b)* processing (i) DNA samples and (ii) DNA profiles taken for the National DNA Database in each year since 2000. [155342]

Jacqui Smith *[holding answer 12 September 2007]:* Cost figures for the storage of DNA samples are not centrally available. The costs for retaining DNA samples fall to individual police forces and are dependent on the contractual agreement between the force and the forensic supplier. This information is commercially confidential. The costs of retaining DNA profiles on the National DNA Database are essentially the costs of running and operating the database. These are set out in the National DNA Database Annual Reports for the years 2002-03 to 2005-06, copies of which are available in the House of Commons Library. The Annual Report for 2002-03 was the first annual report produced; and no information is available for the years 2000-01 and 2001-02. The costs of processing DNA samples for the DNA Database are available for the years 2000-01 to 2005-06 and are set out in the following table. In 2006-07, the Home Office ceased the payment of a separate specific grant for funding DNA activity.

	DNA sample processing costs (£m)
2000-01	32.6
2001-02	45.4
2002-03	51.5
2003-04	47.0
2004-05	46.3
2005-06	[1]48.6

[1] The data for 2005-06 is DNA Expansion Programme funding only. It covers the processing costs of suspect offender samples and crime scene samples; and also includes force expenditure on additional forensic staff, vehicles and equipment. A separate figure for processing costs alone is not currently available.

Note:

The data for years 2000-01 to 2004-05 includes DNA Expansion Programme expenditure and expenditure from force budgets. It covers the processing costs of suspect offender samples and crime scene samples.

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department how many arrests have been made by *(a)* the Paladin team, *(b)* the Maxim team and *(c)* the Human Smuggling Unit since their inception; and how many of those arrests have resulted in (i) prosecutions and (ii) convictions. [154948]

Mr. Coaker *[holding answer 10 September 2007]:* The Paladin team was formed in October 2005 and became fully operational in February 2006. Since its inception they have arrested 25 people for trafficking-related incidents. They have had six convictions; all of these convictions are for facilitation. They have cautioned 11 persons—all for "facilitation" or "harbouring"—through their work at the Asylum Screening Unit.

Operation Maxim has been operational since March 2003 and has achieved the following arrests since its inception:

March 2003 to April 2004: 178 arrests

April 2004 to April 2005: 194 arrests

April 2005 to April 2006: 125 arrests

April 2006 to April 2007: 123 arrests

April 2007 to August 2007: 50 arrests.

Maxim prosecution data only cover the last two years and these are:

April 2005 to 2006: 46 persons prosecuted and convicted. Sentenced collectively 121 years and 5 months.

April 2006 to 2007: 37 persons prosecuted and convicted. Sentenced collectively to76 years and 9.5 months.

April 2007 to August 2007: 30 persons prosecuted and convicted. Sentenced collectively to 51 years and 2 months.

Currently the Maxim Organised Immigration Team has a 100 per cent. conviction rate.

The Human Trafficking Unit was launched on 7 March and is part of the Maxim team. Since its inception the unit has made 12 arrests for human trafficking. There are four cases currently on-going within the judicial system. There have been no convictions yet as all these cases are awaiting trial.

Mr. Steen: To ask the Secretary of State for the Home Department what the establishment is of the Serious Organised Crime Agency; how many staff are dealing with human trafficking issues; and if she will make a statement. [155139]

Mr. Coaker *[holding answer 12 September 2007]:* As at 31 July 2007 the SOCA budgeted headcount was 4,164 staff.

The Home Secretary's priorities for SOCA in its first year included that SOCA should devote a higher proportion of its resources and activity to intelligence work than the agencies that it replaced and that Class A drugs and organised immigration crime, in that order, should be its top priorities. Organised immigration crime covers both the organised facilitation of immigrants to the UK (people smuggling) and trafficking of people for criminal exploitation, for example prostitutes or forced labour (human trafficking).

As published in its 2006-07 Annual Report SOCA deployed 11 per cent. of its operational resource against organised immigration crime.

The UK Serious Organised Crime Control Strategy, developed by SOCA on behalf of UK Law Enforcement, has four programmes of activity directly focussing on organised immigration crime. This includes a programme on "Trafficking of people", in particular women and children for the UK vice trade.

Human Trafficking: Children

Mr. Steen: To ask the Secretary of State for the Home Department what extra resources have been given to local authorities to provide safe housing and special support to child victims of trafficking discovered as a result of Operation Pentameter 2. [155456]

Mr. Coaker *[holding answer 17 September 2007]:* Under section 20 of the Children Act 1989, local authorities have a legal duty of care to safeguard any child in need of protection and to provide accommodation.

Special arrangements have been made between local authority children's services and the police to ensure that any children discovered as being sexually exploited during Operation Pentameter 2 will be referred to the appropriate local authority's children's services as a child in need of protection. A letter from the Department of Children, Schools and Families to all directors of children's services alerts them to Operation Pentameter 2 and requests that a designated officer be in place to liaise with the police about child victim referrals.

Identity Cards: Biometrics

Mr. Wallace: To ask the Secretary of State for the Home Department which and how many locations in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland will be used for the capture of UK citizens' biometric data as part of the identity card scheme. [155466]

Meg Hillier *[holding answer 17 September 2007]:* No decision has been made yet on the number or location of biometric enrolment centres for identity cards. However, it is likely that they could be sited in the same location (but not necessarily the same offices) as the 69 local offices being opened throughout the UK for passport interviews.

Where the network of enrolment centres needs to be further expanded, we will first seek to use high street offices that are already used by central and local government.

Kidnapping

John McDonnell: To ask the Secretary of State for the Home Department what the rate of incidents of gang-related kidnappings has been since April 2005, broken down by police area. [155365]

Mr. Coaker *[holding answer 17 September 2007]:* The information is not held centrally.

Mr. Garnier: To ask the Secretary of State for the Home Department what estimate she has made of the number of gang-related kidnappings *(a)* which were unreported and *(b)* where no charges were forthcoming during the financial year 2006-07; and how many gang-related kidnappings occurred during each month of (i) 2005, (ii) 2006 and (iii) 2007, broken down by police area. [155570]

Mr. Coaker *[holding answer 17 September 2007]:* The information is not held centrally.

Minister for Women

Mrs. May: To ask the Secretary of State for the Home Department what *(a)* ministerial committees and *(b)* permanent groups involving senior civil servants have been set up by her Department to liaise with the Ministers for Women. [155435]

Mr. McNulty *[holding answer 17 September 2007]:* My right hon. Friend, the Prime Minister announced the new Cabinet Committee structure on 23 July 2007. The Domestic Affairs (Communities and Equalities) Committee, chaired by the Minister for the Cabinet Office, was one of the new Committees. The terms of reference for DA(CE) are:

"To consider policy relating to community issues, including community cohesion, equalities, wellbeing and public health; and report as necessary to the Committee on Domestic Affairs and the Committee on National Security, International Relations and Development".

In addition to this and as with all cross cutting issues, Ministers and officials in the Home Office liaise with the Ministers for Women as necessary.

Offenders: Deportation

Mr. Hollobone: To ask the Secretary of State for the Home Department how many convicted criminals were deported to their own country in each of the last five years. [155487]

Mr. Byrne *[holding answer 17 September 2007]:* On 14 June the Director General of the Immigration and Nationality Directorate wrote to the Home Affairs Committee to provide the most recent information available on the deportation of foreign national prisoners. In this letter the Director reported that 2,784 foreign national prisoners were deported or removed in the financial year 2006-07. A copy of this letter is available from the Library of the House.

Statistics on the deportation of foreign nationals were last published in 2002. The data are available through the Home Office's Research Development and Statistics website at:

http://www.archive2.official-documents.co.uk/document/cm60/6053/6053.htm.

Published information on persons removed as a result of deportation action has not been available from 2003 onwards due to data quality issues. The Immigration and Nationality Directorate is putting in place new systems to improve its data collection systems for the future in this area.

Offensive Weapons: Greater London

Robert Neill: To ask the Secretary of State for the Home Department how many people under the age of 18 years were murdered as a result of *(a)* gun crime and *(b)* knife crime in each London borough in each of the last 10 years. [155142]

Mr. Coaker *[holding answer 12 September 2007]:* Available information relates to offences currently recorded as homicide that were caused by *(a)* shooting, which includes crossbows as well as guns and *(b)* a sharp instrument, which includes other sharp instruments as well as knives.

The number of homicides recorded by the City of London and Metropolitan Police Services between 1995 and 2005-06, where the victim is aged under 18, is given in the following table. Centrally-collected data cannot be broken down by London borough. Police force area breakdowns for homicides recorded during 2006-07 are scheduled to be published in January 2008.

Offences currently[1] recorded as homicide where victim is aged under 18: City of London and Metropolitan Police 1995 to 2005-06[2]

	Year offence initially recorded as homicide[3]											
Police force area/apparent method	*1995*	*1996*	*1997*	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*
City of London:												
Shooting[4]	—	—	—	—	—	—	—	—	—	—	—	—
Sharp instrument[5]	—	—	—	—	—	—	—	—	—	—	—	—
All methods	1	—	—	—	—	—	—	—	—	—	—	—
Metropolitan:												
Shooting[4]	—	—	2	1	—	—	—	3	—	2	—	—
Sharp instrument[5]	5	5	5	6	3	5	9	6	5	2	1	6
All methods	18	15	22	22	18	12	19	16	23	17	13	17

[1] As at 9 October 2006; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] 2006-07 data will be published in January 2008.
[3] Offences are shown according to the year in which police initially recorded them as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.
[4] Includes shooting by crossbows as well as firearms.
[5] Includes other sharp instruments as well as knives.

Passports

Mr. Clegg: To ask the Secretary of State for the Home Department how much the Government expects to pay Equifax for the contract to provide reference information on passport applicants in *(a)* financial year 2007-08 and *(b)* in each of the next three financial years. [155347]

Jacqui Smith *[holding answer 12 September 2007]:* It is expected that spend on reference data provision in 2007-08 would be in the region of £392,000. The amount is variable depending upon the passport demand. This does not include software development and software/hardware development changes.

Spend in the following three years will be determined by the business model applied, which will drive the volume of checks, and negotiations with the reference information supplier.

Passports: Fraud

Mr. Steen: To ask the Secretary of State for the Home Department how many forged or false passports were seized at Heathrow and Gatwick airports in each of the last three years; and how many of those were from children. [154950]

Mr. Byrne *[holding answer 10 September 2007]:* The activity of Airline Liaison Officers (ALOs) based overseas together with other border control initiatives, has resulted in a fall in Inadequately Documented Arrivals (IDAs) reaching the UK from 11,233 in 2004 to 6,915 in 2006. Over the last five years the ALO Network has assisted in preventing nearly 180,000 IDAs from boarding aircraft.

Under carriers liability legislation, air and sea carriers may be liable for a charge of £2,000 for each person they carry to the UK who is subject to immigration control and who fails to produce either a valid immigration document satisfactorily establishing his identity and nationality or a valid visa, if required. Carriers' liability is now an important complement to our immigration control. Over 60 other countries, including most of Europe, have carrier liability legislation.

Figures for forged and false travel documents detected at Heathrow and Gatwick airports for the past three years are as follows:

Heathrow Airport and Gatwick Airport

	Number
2004	3,305
2005	2,164
2006	1,695

The information provided is based on locally collated management information and as such may be subject to change.

Data relating to the age of those presenting such documentation are not available.

Prisoners: Deportation

Mr. Garnier: To ask the Secretary of State for the Home Department how many prisoners in England and Wales from *(a)* outside and *(b)* within the EU, other than the UK and Ireland, have been identified as liable for deportation. [155429]

Mr. Byrne *[holding answer 17 September 2007]:* The Chief Executive of the Border and Immigration Agency provided the most accurate and robust information available on the issue of foreign national prisoners in her letter to the Home Affairs Committee of 14 June, a copy of which is available in the House Library. The automatic deportation provisions contained within the UK Borders Bill increase certainty by placing a duty on the Secretary of State to make a deportation order for foreign criminals who have been sentenced to either a period of imprisonment of at least 12 months, or a period of imprisonment of any length for a particularly serious crime.

Mr. Bellingham: To ask the Secretary of State for the Home Department what the earliest stage is at which a foreign prisoner becomes liable for deportation during his sentence. [155501]

Mr. Byrne *[holding answer 17 September 2007]:* Foreign nationals are liable for consideration for deportation if they receive a custodial sentence and have either been recommended for deportation by a court or meet the interim criteria as outlined in my written statement to the House of 19 July 2006.

The provisions of the UK Borders Bill increase certainty by placing a duty on the Secretary of State to make a deportation order for foreign criminals who have been sentenced to either a period of imprisonment of at least 12 months, or a period of imprisonment of any length for a particularly serious crime.

Special Branch

Mr. Wallace: To ask the Secretary of State for the Home Department (1) when she expects to complete the review of Special Branch; and if she will make a statement; [155249]

(2) if she will make a statement on the progress of the review of Special Branch; [155467]

(3) whether Special Branch officers serving at ports and airports will continue to be part of the local constabulary. [155468]

Mr. McNulty *[holding answer 12 September and 17 September 2007]:* The review of Special Branch is a matter for the Association of Chief Police Officers, whose Terrorism and Allied Matters Committee is examining the work undertaken by the police service in support of national security intelligence, particularly the role and function of Special Branch. This review will involve wide consultation with experts and practitioners. I understand that it will be completed by the end of the year, and the Association of Chief Police Officers has undertaken to keep me informed.

Separately from this review, and following the announcement by my right hon. Friend the Prime Minister on 25 July that the Government would integrate the vital work of the Border and Immigration Agency, Customs and UK Visas overseas and at the main points of entry to the UK, the Cabinet Secretary is conducting a review on the stages ahead in implementation and whether there is a case for going further, while ensuring value for money. Special Branch will continue to play its full role, based on intelligence, at ports and airports.

Stop and Search: Cambridgeshire

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department how many individuals were the subject of stop forms used by police officers in the Cambridgeshire Constabulary area in each year since 2001; and if she will make a statement. [155320]

Mr. McNulty *[holding answer 12 September 2007]:* Available information held by the Office for Criminal Justice Reform on the number of stops and searches within the Cambridgeshire police force area is given in the table from 2001-02 to 2004-05 (latest available). Statistics for 2005-06 are due to be published later this year.

From 1 April 2005 police forces are required to ensure that a record is made by police officers of all stops. It is hoped to publish statistics on all Stops and Stop and Searches in 2008.

Stops and searches of persons within the Cambridgeshire police force area under section 1 of the Police and Criminal evidence Act 1984 and other legislation[1], from 2001-02 to 2004-05

	Total
2001-02	3,896
2002-03	3,331

Stops and searches of persons within the Cambridgeshire police force area under section 1 of the Police and Criminal evidence Act 1984 and other legislation[1], from 2001-02 to 2004-05

	Total
2003-04	4,079
2004-05	5,647

[1] Other legislation includes stops and searches under the Misuse of Drugs Act 1971 and the Firearms Act 1968; Terrorism Act s43 & s44(1) and s44(2); Criminal Justice and Public Order Act 1994 s60; various poaching and wildlife conservation legislation; s27(1) of the Aviation Security Act 1982; s163 & s164 of the Customs and Excise Management Act 1979; and the Sporting Events (Control of Alcohol etc.) Act 1985.

Note:

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

WORK AND PENSIONS

UK Commission for Employment and Skills

John McDonnell: To ask the Secretary of State for Work and Pensions what the *(a)* annual budget and *(b)* number of staff for the UK Commission for Employment and Skills will be when it is established in 2008. [152911]

Caroline Flint *[holding answer 26 July 2007]:* I have been asked to respond to your query as it falls within my area of responsibility.

To strengthen the employer voice at the heart of the employment and skills system the UK Commission implantation project are working with the devolved administrations to establish a new UK Commission for Employment and Skills. The UK Commission will be a UK-wide body with responsibilities across each of the four nations, and for skills at all levels, as set in the Leitch review of skills: 'Prosperity for all in the global economy—world class skills'

The UK Commission will be primarily advisory, shaping strategy to achieve the Government's world class ambitions and will not have significant executive or operational functions. Sir Michael Rake has been appointed as the chair and we are currently recruiting for a chief executive and commissioners.

The new UK Commission will open on 1 April 2008 and will incorporate those functions that the Sector Skills Development Agency (SSDA) and National Employment Panel (NEP) currently undertake that fall under the remit and responsibility of the new organisation.

At this early stage of developments we are not yet in a position to be able to give defined numbers of staff and therefore an agreed budget.

I am of course happy to provide you with figures and numbers once these have been established and agreed with Departments and senior officials within the new UK Commission.

Average Earnings

Chris Grayling: To ask the Secretary of State for Work and Pensions how many households received less than *(a)* 20 per cent. and *(b)* 30 per cent. of median income in (i) 1997 and (ii) 2006. [152743]

Caroline Flint: The information requested is not available.

Child Support Agency: Debt Collection

Mr. Laws: To ask the Secretary of State for Work and Pensions how many non-resident parents from whom the Child Support Agency is seeking to collect maintenance have arrears of over *(a)* £100,000, *(b)* £50,000, *(c)* £25,000, *(d)* £20,000, *(e)* £15,000, *(f)* £10,000, *(g)* £5,000 and *(h)* £1,000; and if he will make a statement. [146174]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 18 September 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many non-resident parents for whom the Child Support Agency is seeking to collect maintenance have arrears of over (a) £100,000 (b) £50,000 (c) £25,000 (d) £20,000 (e) £15,000 (f) £10,000 (g) £5,000 and (h) £1,000 and if he will make a statement [146174].

The information requested is provided in the attached table.

I hope you find this answer helpful.

Number of non-resident parents (NRP's) with arrears: June 2007

Amount of arrears	Number of NRP's
Up to £1,000	480,390
£1,001 to £5,000	232,810
£5,001 to £10,001	76,660
£10,001 to £15,000	33,110
£15,001 to £20,000	18,790
£20,001 to £25,000	11,370
£25,001 to £50,000	22,760
£50,001 to £100,000	5,320
Over £100,000	120

Notes:

1. The information provided is for all individual non-resident parents (NRP's) at June 2007. Where a NRP is involved in more than one case, their total debt has been used.
2. The table above includes those old-scheme cases with either a full maintenance assessment or an interim maintenance assessment; plus those new-scheme cases with either a full maintenance calculation, or a default maintenance decision.
3. Figures have been rounded to the nearest 10.

Children: Maintenance

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of the information and support service on child maintenance to be established by his Department by October 2008. [155001]

Mr. Plaskitt *[holding answer 10 September 2007]:* It will be up to the Child Maintenance and Enforcement Commission to decide how best to deploy its resources to meet its statutory objectives. The overall level of resources allocated to the Commission will be negotiated in the usual way as part of the Department's planning processes.

Danny Alexander: To ask the Secretary of State for Work and Pensions what consideration he has given to the possibility of contracting out the child maintenance information and support service to the private or voluntary sector; and if he will make a statement. [155004]

Mr. Plaskitt *[holding answer 10 September 2007]:* It is the intention to contract out the information and support service. We expect that the service will be delivered by a combination of private and voluntary sector providers working in partnership.

Bob Russell: To ask the Secretary of State for Work and Pensions if he will estimate how many non-resident parents were required, having had their Child Support Agency maintenance payments deducted from their income by their employer, to pay a second time when the employer's business went into liquidation in each of the last five years for which figures are available; and if he will make a statement. [155203]

Mr. Plaskitt *[holding answer 12 September 2007]:* The information requested is currently not available.

Children: Poverty

Chris Grayling: To ask the Secretary of State for Work and Pensions what his most recent estimate is of the proportion of children living in poverty. [152841]

Caroline Flint: The information requested is in "Households Below Average Income 1994-95—2005-06 (Revised)". The report is available in the Library. The report uses 60 per cent. of median income as the low income threshold. This threshold is the internationally recognised measure of poverty.

Departments: Departmental Co-ordination

Mrs. May: To ask the Secretary of State for Work and Pensions what *(a)* ministerial committees and *(b)* permanent groups involving senior civil servants have been set up by his Department to liaise with the Ministers for Women. [155242]

Barbara Follett *[holding answer 12 September 2007]:* The Secretary of State for Work and Pensions sits on numerous ministerial committees, including a number of committees with the Minister for Women. A list of committees and the ministerial membership is available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/secretariats/committees/index.asp

Senior civil servants from DWP and the Government Equalities Office sit on the following permanent group:

The Ethnic Minority Employment Task Force Senior Officials Group.

Departments: Public Participation

Mr. Harper: To ask the Secretary of State for Work and Pensions what plans his Department has for using citizens' juries as part of the policy making process. [155147]

Mrs. McGuire *[holding answer 12 September 2007]:* Citizens' juries represent one important way of engaging the public and democratic debate about policy decisions. We are examining ways of using them in future decision making in the department.

Employment

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions what assessment he has made of the compatibility of the Welfare to Work proposals set out in In Work, Better Off: Next steps to full employment, Cm 7130, with the Human Rights Act 1998. [152285]

Mr. Mike O'Brien: In developing policy proposals, we are always conscious of the obligations of the Human Rights Act. However, the Government are currently consulting on the proposals for change set out in "In work, Better off: next steps to full employment." These are still at an early stage and a full assessment of human rights considerations would normally be made as and when it was needed as part of final decisions made on the direction of policy following consultation.

Jobcentre Plus

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus districts there are; how many Jobcentre Plus districts reached their job outcome target point total in the last period for which figures are available; and if he will list the districts that did not reach the job outcome target points total in the same period. [148156]

Mr. Mike O'Brien *[holding answer 9 July 2007]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the right hon. Gentleman with the information requested.

Letter from Lesley Strathie, dated 17 September 2007:

The Secretary of State has asked me to reply to your question about the number of Jobcentre Plus districts; how many reached their job outcome target points total in the last period for which figures are available; and to list the districts that did not reach the target points in that period. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

There are currently 50 Jobcentre Plus districts. The most recent JOT figures relate to customers who started work in December 2006. For that period two districts reached their JOT points profile—Derbyshire and Essex. A further 10 districts achieved more than 90 per cent. of their points target. Those districts that did not meet their points target in December were:

90-99 per cent.	*Below 90 per cent.*
Lancashire	Lanarkshire and East Dunbartonshire
Black Country	Ayrshire, Dumfries and Galloway and Inverclyde
Berks, Bucks and Oxfordshire	Glasgow
Surrey and Sussex	South West Wales
West of England	Coventry and Warwickshire
Hampshire	South Yorkshire
Norfolk	South Wales Valleys
The Marches	Forth Valley, Fife and Tayside

90-99 per cent.	Below 90 per cent.
Dorset and Somerset	Highlands, Islands, Clyde Coast and Grampian
Nottinghamshire	South East Wales
	North and Mid Wales
	South Tyne and Wear Valley
	Kent
	Central London
	Staffordshire
	Tees Valley
	Northumbria
	Greater Manchester Central
	West Yorkshire
	City and East London
	Edinburgh and Lothian and Borders
	Bedfordshire and Hertfordshire
	Birmingham and Solihull
	North and North East London
	Liverpool and Wirral
	Cumbria
	Devon and Cornwall
	South London
	North and East Yorkshire and the Humber
	Lambeth, Southwark and Wandsworth
	Leicestershire and Northamptonshire
	Cheshire and Warrington
	West London
	Cambridgeshire and Suffolk
	Greater Manchester East and West
	Lincolnshire and Rutland
	Gloucestershire, Wiltshire and Swindon
	Greater Mersey

It may be helpful if I provide some further context for our JOT performance figures. Since the 2006/07 JOT target was set, more recent historical performance information has become available, suggesting that the target involves a higher degree of challenge than was intended. Given this, the department recognises that the JOT points target was set 8.4% too high. A target level of around 12.4 million points would have been more representative of the degree of challenge intended, rather than the original 13.5 million-point target. However, it was agreed that Jobcentre Plus would continue to report against the original profile for 2006/07. Detailed JOT performance data is published on the Jobcentre Plus website and updated regularly.

I hope this is helpful.

Jobcentre Plus: Manpower

Danny Alexander: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus staff were employed in *(a)* call centres and *(b)* frontline offices in each of the last 10 years. [152057]

Caroline Flint *[holding answer 26 July 2007]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 1 October 2007:

The Secretary of State has asked me to reply to your question asking how many Jobcentre Plus staff were employed in *(a)* contact centres and *(b)* frontline offices, in each of the last 10 years. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Unfortunately we are unable to provide a functional breakdown of Jobcentre Plus staff prior to March 2004.

The following tables provide the number of full-time equivalents (FTEs) employed in (a) Contact Centres and (b) Operational staff in Jobcentres, Jobcentres Plus offices, Social Security Offices and Benefit Delivery Centres and those who provide support for these services, for the period 2004 to 2007. Fraud investigation staff are included in table b. It is not possible to differentiate between those who deal directly with the public and those who perform other supporting functions in the second group of staff.

(a)

	FTE Employed in Customer Contact Directorate	*FTE employed directly in contact centres*
March 2004	2,207.1	2,118.39
March 2005	4,184.7	3,992.56
March 2006	6,227.5	6,075.73
March 2007	6,486.9	6,382.54

(b)

	FTE
March 2004	74,036.4
March 2005	66,808.6
March 2006	59,789.7
March 2007	57,939.5

I hope this is helpful.

Jobseekers Allowance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer of 20 June 2007, *Official Report*, column 1868W, on jobseekers allowance, how many and what percentage of new deal leavers *(a)* moved on to other benefits and *(b)* returned to other benefits on leaving employment (i) between six and 12 months and (ii) more than 12 months after leaving the programme in each year since 1998. [146808]

Mr. Mike O'Brien: Information on people returning to other benefits on leaving employment is not available.

The available requested information is in the following table.

	New deal				
		Moved on to other benefits between 6 and 12 months from date of leaving new deal		*Moved on to other benefits more than 12 months from date of leaving new deal*	
	Number of leavers	*Number*	*Percentage*	*Number*	*Percentage*
1998	97,630	5,340	5	36,840	38
1999	386,580	26,900	7	150,170	39
2000	428,050	31,040	7	155,400	36
2001	403,500	28,170	7	132,790	33

	New deal				
		Moved on to other benefits between 6 and 12 months from date of leaving new deal		Moved on to other benefits more than 12 months from date of leaving new deal	
	Number of leavers	Number	Percentage	Number	Percentage
2002	401,160	28,830	7	109,860	27
2003	435,700	29,580	7	93,470	21
2004	480,330	31,870	7	68,430	14
2005	453,860	29,360	6	22,540	5

Notes:
1. Data are based on all leavers from all new deal programmes.
2. Data on 'other benefits' refers to income support and incapacity benefit only as these are the only benefits linked to an individual being out of work. The data show the number of leavers from new deal making new claims to either of those benefits in the periods concerned.
3. Latest complete year data is for 2005. The number and percentage of people moving to other benefits more than 12 months from the date of leaving new deal is based on benefit data to November 2006 (latest available). It would be expected that these numbers, particularly for later years, would rise as more up-to-date benefit data becomes available.
4. If a person has two separate periods on benefit, one between six and 12 months after leaving new deal, and one more than 12 months after leaving new deal, only the benefit period between six and 12 months is included in the table.

Information Directorate, Department for Work and Pensions

Lone Parents: Pay

John McDonnell: To ask the Secretary of State for Work and Pensions what the average payment made to lone parents was in each of the in-work credit pilot areas; and what the average hourly pay was of the lone parents in work in each pilot area. [152807]

Caroline Flint *[holding answer 26 July 2007]:* The in-work credit was introduced in 22 pilot areas in four staggered phases from April 2004. It is designed to help participants cope with the financial aspects of the transition from welfare to work. Participants are paid £40 per week over and above their total income when they start work for 16 hours or more a week. This is paid for a maximum of 52 weeks. From 1 July 2007 the payment in London was increased to £60 a week to address the higher costs of living in the capital.

In areas other than London it is available to eligible lone parents, and in London it is available to all eligible parents.

Information on the average hourly pay of lone parents in work in each pilot area is not available.

The available information on the average payment made to eligible parents in each of the pilot areas is in the following table.

	In-work credit			
In-work credit districts	*Phase*	*Total number of starts*	*Average total payment per participant (£)*	*Total payment per district (£)*
Leicestershire	2	1,800	1,580	1,971,880
Bedfordshire and Hertfordshire	4	1,810	1,330	1,157,640
Essex	4	2,360	1,320	1,507,640
Berkshire, Buckinghamshire and Oxfordshire	4	2,170	1,380	1,469,600
Hampshire	4	2,120	1,380	1,401,520
Kent	4	2,040	1,380	1,217,720
Surrey and Sussex	4	2,710	1,460	1,876,680
City and East London	3	1,340	1,320	1,210,640
South East London	1	2,600	1,490	2,898,760
North London	1	2,170	1,510	2,503,320
South London	3	2,000	1,420	1,815,560
Central London	2	1,330	1,350	1,329,000
Lambeth, Southwark and Wandsworth	3	2,210	1,370	1,977,400
Brent, Harrow and Hillingdon	3	1,420	1,400	1,373,880
West London	2	1,320	1,500	1,386,440
Lancashire West	2	2,530	1,530	2,742,960
Dudley and Sandwell	2	1,470	1,590	1,615,600
Staffordshire	2	2,230	1,600	2,483,880
Bradford	1	1,880	1,600	2,289,480
Leeds	2	2,440	1,580	2,731,720
Cardiff and Vale	2	1,600	1,590	1,720,560
Edinburgh Lothian and Borders	2	2,410	1,510	2,510,720
Total	—	44,080	1,470	41,323,440

Notes:
1. The areas in the table are those where the in-work credit was originally introduced. Many are now part of larger areas as a result of Jobcentre Plus reorganisation.
2. Up to the end of April 2007, 44,080 people had claimed the in-work credit and 28,030 people had finished their claim for the in-work credit.
3. Calculations of average payments are based on those participants who had finished their claim for the in-work credit.
4. Totals in the final row may not sum to individual figures as they include a very small number of in-work credit claims recorded from other areas.

Data source:
Lone parent evaluation database.

New Deal Schemes

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many people have *(a)* participated in and *(b)* found permanent full-time employment following their participation in each New Deal programme; and what the (i) average duration and (ii) cost as a proportion of the cost of the relevant New Deal programme of each such employment was. [152706]

Mr. Mike O'Brien: Information is available on the number of people placed into work through new deal, but not on the average duration of jobs gained, or whether employment gained was full time and permanent. A proportionate cost calculation cannot therefore be provided.

Information on the number of people participating on each new deal is in the following table.

Participants on new deal

Programme	*People starting*
New Deal for Young People	1,175,100
New Deal 25 plus	684,600
New Deal for Lone Parents	748,000
New Deal for Disabled People	242,400
New Deal 50 plus	80,900
New Deal for Partners	14,800

Source:
New Deal Evaluation Database, DWP Information Directorate

The available information on job sustainability is as follows:

Information on job sustainability is not available for new deal 50 plus and new deal for partners.

A person is defined as leaving new deal for young people and new deal 25 plus to sustained employment if they do not return to claim jobseeker's allowance within 13 weeks.

A person is defined as leaving new deal for lone parents to sustained employment if they have gained a job that lasts at least 13 weeks, as measured within the Work and Pensions Longitudinal Study.

A new deal for disabled people (NDDP) job is regarded as sustained when a person who has been placed into work through an NDDP job broker remains in work for 13 out of 39 weeks. Information on NDDP job sustainability has not been centrally collected since March 2006.

New deal for young people

	Number	*Percentage*
Individuals into jobs to November 2006	732,220	
Of which, into sustained employment	622,660	85

New deal 25 plus

	Number	*Percentage*
Individuals into jobs to November 2006	286,230	
Of which, into sustained employment	235,090	82

New deal for lone parents

	Number	*Percentage*
Individuals into jobs to November 2006	497,630	
Of which, into sustained employment	302,100	61

Notes:
1. Programme start dates are: new deal for young people: January 1998; new deal 25 plus: July 1998; new deal for lone parents: October 1998; new deal for partners: April 1999; new deal 50 plus: April 2000; new deal for disabled people: July 2001.
2. Information on starts to new deal 50 plus is only available from January 2004 onwards.
3. Latest data for all new deals relates to the end of February 2007.

Pension Credit: Eligibility

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will make an estimate of the *(a)* number and *(b)* proportion of pensioners who will be eligible for pension credit in each year up to 2050. [155384]

Mr. Mike O'Brien *[holding answer 17 September 2007]*: The numbers eligible to pension credit in the future are subject to a range of uncertainties. For example, in order to make projections, assumptions have to be made about how Governments will choose to uprate benefits in the future. The following table shows the number and proportion of all pensioner households eligible for pension credit every year to 2050-51.

Projected number and proportion of pensioner households eligible for pension credit from 2005-06 to 2050-51

	Number (millions)	*Proportion (percentage)*
2005-06	4.1	46
2006-07	4.0	46
2007-08	4.1	46
2008-09	4.2	46
2009-10	4.3	46
2010-11	4.3	46
2011-12	4.2	46
2012-13	4.2	46
2013-14	4.1	46
2014-15	4.1	46
2015-16	4.0	45
2016-17	3.9	44
2017-18	3.8	44
2018-19	3.8	43
2019-20	3.7	43
2020-21	3.7	43
2021-22	3.7	42
2022-23	3.7	41
2023-24	3.7	41
2024-25	3.6	40
2025-26	3.5	40
2026-27	3.5	39
2027-28	3.5	39
2028-29	3.6	38
2029-30	3.6	37
2030-31	3.6	37
2031-32	3.7	36
2032-33	3.7	36
2033-34	3.7	35
2034-35	3.7	35
2035-36	3.7	35

Projected number and proportion of pensioner households eligible for pension credit from 2005-06 to 2050-51

	Number (millions)	Proportion (percentage)
2036-37	3.7	35
2037-38	3.6	34
2038-39	3.6	33
2039-40	3.6	33
2040-41	3.5	32
2041-42	3.5	32
2042-43	3.4	32
2043-44	3.4	31
2044-45	3.3	31
2045-46	3.3	31
2046-47	3.2	31
2047-48	3.2	31
2048-49	3.2	30
2049-50	3.1	29
2050-51	3.0	29

Notes:

1. Estimates cover all those aged above women's state pension age (SPA) in the private household population of Great Britain. Pensioner households are defined here as single people aged over women's SPA and couples where at least one partner is over women's SPA.
2. Estimates of the number of pensioner households eligible are rounded to the nearest 0.1 million, and proportions to the nearest 1 per cent.
3. Proportions entitled are based on Pensim2, a dynamic micro-simulation model produced by the Department for Work and Pensions. This model is designed to estimate long-term trends; estimates for individual years are subject to random variation and should be treated with caution. The time series have been smoothed using a three-year moving average.
4. Numbers entitled have been estimated by applying the estimated proportion entitled to the projected household population above women's SPA, which is derived from Government Actuary's Department's 2004-based projections of individuals and trends in private households modelled in Pensim2.
5. Projections are calibrated to National Statistics estimates of eligibility to pension credit in 2005-06, which adjust Family Resources Survey data to take account of possible biases in reporting. The National Statistics are published as a range; the projections have been calibrated to the mid-point of that range.
6. Projections take account of policies introduced in the Pensions Act 2007, including changes in state pension age. They do not include any increase in private saving from the introduction of personal accounts, which would further reduce the numbers eligible for pension credit.

Pensioners: Overseas Residence

Mr. Marshall: To ask the Secretary of State for Work and Pensions how many UK pensioners resident abroad have their pensions *(a)* frozen and *(b)* uprated in line with those living in the UK. [155521]

Mr. Mike O'Brien *[holding answer 17 September 2007]:* As at February 2007, there were 524,730 state pension recipients abroad whose pensions were frozen and there were 534,940 state pension recipients whose pensions were uprated in line with those living in the UK.

Notes:

1. Caseload figures are rounded to the nearest 10.
2. Some additional disclosure control has also been applied.

Source:

DWP Information Directorate: Work and Pensions Longitudinal Study

Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions pursuant to paragraph 14 of the report by the Comptroller and Auditor General on the National Insurance Fund account 2003-04 (HC 197 2004-05), how many deficiency notices were issued by his Department to individuals over state pension age; what proportion of recipients made an initial response; what proportion of respondents made additional contributions; what the value was of those contributions; what his latest estimate is of the resultant arrears of benefit expenditure; and if he will make a statement. [155044]

Mr. Mike O'Brien *[holding answer 10 September 2007]:* The Department for Work and Pensions issued 470,000 deficiency notices to customers.

The response rate to the initial enquiries was estimated to be 70 per cent. To date, the Department for Work and Pensions has received 290,000 enquiries; a 62 per cent. response rate. Customers have up to 2009 or 2010 to respond (depending on their year of birth) as these are the cut-off dates for the payment of the six years voluntary contributions under the provisions of the Deficiency Notice Exercise.

It was estimated that 25 per cent. of the individuals who responded would make additional contributions. The actual number of individuals who have made additional contributions to date is 69,249. This equates to 24 per cent. of the number of individuals who responded.

The value of the additional national insurance contributions which would be paid was estimated to be £32 million. The value of national insurance contributions collected to date is £46.9 million.

The arrears of benefit expenditure including interest on back-dated payments was estimated to be £103 million. The actual amount of benefit including interest paid out to customers under the provisions of the Deficiency Notice Exercise to date is £87.7 million.

Pensions: Compensation

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of the average cost of compensation to pensioners whose pension schemes were underfunded and who are eligible for either Financial Assistance Scheme or Pension Protection Fund compensation. [152649]

Mr. Mike O'Brien *[holding answer 26 July 2007]:* We estimate that the average assistance from the Financial Assistance Scheme (FAS) for those individuals whose pension scheme was underfunded and who are eligible for payments will be around £64,000 for the scheme as extended under the budget announcement.

Information in respect of the Pension Protection Fund (PPF) is not available in the requested format. However as at 25 July 2007 10 schemes have transferred into the PPF and average annual payments to members are: (i) to pensioner members £4,509; (ii) to deferred members £4,999; and (iii) for members receiving a mixture of pension and deferred payment £3,673.

Pensions: Females

Steve Webb: To ask the Secretary of State for Work and Pensions how many married women aged *(a)* 60, *(b)* 61, *(c)* 62, *(d)* 63, *(e)* 64, *(f)* 65, *(g)* 66, *(h)* 67, *(i)* 68 and *(j)* 69 are currently receiving nil basic state pension on their own contribution records; and of these, how many have contribution records of (i) 20 to 24 per cent., (ii) 15 to 19 per cent., (iii) 10 to 14 per cent., (iv) 5 to 9 per cent. and (v) 0 to 4 per cent. [155043]

Mr. Mike O'Brien *[holding answer 10 September 2007]:* The information is not available for married women only. The information that is available is in the following table.

It shows the number of UK women aged between 60 and 69 in 2003-04 who did not satisfy the "25 per cent. rule" for entitlement to a basic state pension on their own contribution records. It also shows for each age group the proportion of the full rate of basic state pension that they accrued during their working life.

Some of these women may be eligible to receive a basic state pension based on their husband's contribution record.

Number of UK women not satisfying the 25 per cent. rule

Thousand

	BSP entitlement at state pension age					
Age in 2003-04	*0-4%*	*5-9%*	*10-14%*	*15-19%*	*20-24%*	*All*
60	3	3	8	10	188	212
61	5	4	10	12	174	205
62	6	5	10	17	148	186
63	7	5	13	19	141	184
64	6	7	15	24	145	196
65	6	8	16	31	131	191
66	6	7	20	31	127	191
67	8	6	20	33	108	174
68	7	9	17	33	107	173
69	7	8	19	37	91	162
All	59	60	148	247	1,360	1,873

Notes:

1. Figures refer to women living in the UK.
2. Figures refer to entitlement based on women's own contribution records.
3. Figures exclude women who satisfy the "25 per cent. Rule" but do not satisfy the "first contribution condition" for basic state pension entitlement, and so also receive nil basic state pension based on their own contribution record.
4. The information is based on the data held on the national insurance record up to and including the 2003-04 tax year at May 2005. It therefore excludes any national insurance contributions paid after that date.

Source:

Lifetime Labour Market Database 2, 2003-04.

Pensions: Postal Services

Peter Luff: To ask the Secretary of State for Work and Pensions (1) for what reasons his Department used a private sector company to deliver pension cheques to sub-post offices during the recent postal disruption due to industrial action; what cost-benefit analysis was made prior to the temporary arrangement to send pension cheques by courier service to sub-post offices; and what the total cost was of the exercise; [155056]

(2) what steps were taken to ensure that the sub-post offices which received pension cheques during the recent postal disruption were within easy access of the intended recipients; what criteria were used to determine which sub-post offices were used; what provisions were made for house-bound and frail pensioners to collect their cheques from sub-post offices; and what revisions he will make to his contingency plan to dispatch pension cheques during any future postal strike. [155057]

Mr. Plaskitt *[holding answers 10 September 2007]:* During the recent postal disruption, the Department used a company with whom it has an existing contract for providing courier services. In the absence of assurance from Royal Mail that deliveries to our customers could be maintained, we used our contingency arrangements to ensure customers (many among the most vulnerable in society) received their payments. A comprehensive cost-benefit analysis was conducted when the cheque contingency plan was developed. This established that the contracted courier could deliver cheques to our customers during local, regional or national postal disruptions, and that Post Office Ltd. could provide additional counter services during such disruptions.

The total cost of the exercise, including VAT, was approximately £2.6 million. This cost included discounts totalling £390,000 negotiated with the suppliers. A quantifiable saving of £250,000 was made by using our contingency arrangements, in not having to incur postal delivery charges. Further unquantifiable savings were made by substantially reducing the number of customer cheque payment queries received in local offices due to the industrial action.

Customer cheques, including those paid to pensioners, were delivered to each cheque customer's nearest post office, as determined by their postal code. Any customers who were unable to collect their cheques, could nominate a temporary agent to do so on their behalf.

The contingency plan was highly effective in ensuring our customers received their cheque payments throughout the disruption caused by the postal workers' dispute, and the contingency will be used again if required.

Poverty: Children

Mr. Harper: To ask the Secretary of State for Work and Pensions what definition his Department uses of child poverty. [153584]

Caroline Flint: The information requested is available in Working for Children Cm7067, page 11, published on 27 March 2007. This is available in the Library.

Social Security Benefits: Fraud

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of the likely reductions in fraudulent benefit claims from the use of voice risk analysis technology. [152741]

Mr. Mike O'Brien: No such estimate has been made. The technology will be evaluated to assess its potential to identify risk in benefit claims following the completion of the pilot exercises.

Social Security Benefits: Internet

Steve Webb: To ask the Secretary of State for Work and Pensions what arrangements he has made for individuals with personal computers using *(a)* Microsoft Windows and *(b)* Apple Macintosh operating systems to make online applications for (i) attendance allowance and (ii) other social security benefits; and if he will make a statement. [155464]

Mr. Mike O'Brien *[holding answer 17 September 2007]*: The Department for Work and Pensions is able to accept online applications for income support, incapacity benefit, jobseeker's allowance, child maintenance, disability living allowance, attendance allowance and state pension. However, this service is not currently available to citizens using Macintosh computers. The service was introduced as a pilot and is currently being reviewed and the suitability of the technical platform will then be considered. Applications for carer's allowance can also be made online using an interface that can be accessed by a computer with either Windows or Macintosh systems.

Claim forms for the majority of social security benefits can be downloaded from the DWP website, irrespective of system, for subsequent postal applications. The Department also offers a telephone application service for a number of benefits.

Access to all online Government services is moving to Directgov, the cross-government portal that will provide the single citizen access point for Government services, which supports both the Windows and Macintosh systems.

Social Security Benefits: New Deals Schemes

Mr. Frank Field: To ask the Secretary of State for Work and Pensions of those people who had left each New Deal for Work, how many and what proportion were claiming benefit for the second or more time in *(a)* 2001, *(b)* 2004 and *(c)* 2007 where claimants had not claimed benefit for (i) up to three months, (ii) between three and six months, (iii) between six and 12 months, (iv) over 12 months and (v) over 24 months, broken down by each New Deal group. [155083]

Caroline Flint *[holding answer 10 September 2007]*: The available information has been placed in the Library.

State Retirement Pensions: Males

Steve Webb: To ask the Secretary of State for Work and Pensions if he will estimate how many men aged *(a)* 65, *(b)* 66, *(c)* 67, *(d)* 68, *(e)* 69, *(f)* 70, *(g)* 71, *(h)* 72, *(i)* 73 and *(j)* 74 are currently receiving state pensions of 98 per cent. or less of the full rate. [155465]

Mr. Mike O'Brien *[holding answer 17 September 2007]*: The information is in the following table.

Age	*Number of males*
65	49,600
66	61,500
67	63,400
68	62,200
69	60,000
70	57,700
71	49,800
72	45,600
73	44,100
74	40,700

Notes:
1. Data are taken from 5 per cent. extract of the Pension Service computer system, therefore figures are subject to a degree of sampling variation. They are also adjusted to be consistent with the overall case load from the Work and Pensions Longitudinal Study.
2. Figures are rounded to the nearest 100.
3. Figures are based on 98 per cent. or less of the full rate of state pension as at September 2006 which was £84.25 per week and exclude cases with no basic state pension in payment.
4. Figures include cases residing abroad where the rate of pension would be frozen and not uprated each year.

Source:
DWP Information Directorate

Tax Credit

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer of 17 May 2007, *Official Report*, column 895W, on tax credit, how many *(a)* individuals and *(b)* households were beneficiaries of (i) both means-tested assistance and tax credits, (ii) means-tested assistance or tax credits, (iii) means-tested assistance and or tax credits, (iv) tax credits and (v) means-tested assistance in (A) 1979, (B) 1992, (C) 1997 and (D) 2007. [155094]

Caroline Flint *[holding answer 10 September 2007]*: The information is not available in the format requested.

Because of the changes to income-related benefits since 1979, and the different types of data and methods of collection employed over the years, it is not possible to provide directly comparable figures for each of the years sought.

The information provided in the previous reply of 17 May 2007, *Official Report*, column 895W, was derived from the Family Resources Survey (FRS). FRS information is not available for 1979 and 1992. Tax credits were introduced in 1999 and replaced family credit. The available information for family credit in 1997-98 and tax credits in 2005-06—the most recent year for which information is available—is in the following tables.

Households and individuals in Great Britain who are in receipt of various combinations of income-related benefits and family credit, 1997-98

	Individuals	*Households*
Both income-related benefits and Family Credit	310,000	320,000
Income-related benefits or Family Credit	6,360,000	6,130,000
Income-related benefits and/or Family Credit	6,670,000	6,450,000
Family Credit	580,000	580,000
Income-related benefits	6,390,000	6,180,000

Households and individuals in Great Britain who are in receipt of various combinations of income-related benefits and tax credits, 2005-06

	Individuals	Households
Both income-related benefits and tax credits	790,000	850,000
Income-related benefits or tax credits	8,420,600	8,030,000
Income-related benefits and/or tax credits	9,216,900	8,880,000
Tax credits	4,180,000	4,170,000
Income-related benefits	5,820,000	5,560,000

Notes
1. The Family Resources Survey is a nationally representative sample of approximately 26,000 households in 2005-06 and 23,000 households in 1997-98.
2. Data are shown for Great Britain only for both 1997-98 and 2005-06. (Northern Ireland joined the survey in 2002-03, so UK data is not available for 1997-98.)
3. Data for 2005-06 were collected between April 2005 and March 2006; 1997-98 were collected between April 1997 and March 1998.
4. The estimates are based on sample counts that have been adjusted for non-response using multi-purpose grossing factors which align the FRS to Government office region populations by age and sex. Estimates are subject to sampling error and remaining non-response error.
5. Tax credit and income-related benefits receipt is under-reported on the FRS. This will mean that the FRS estimates are likely to be under-estimates. However, there is no other reliable source for this information at a household level.
6. Figures for the number of households and persons have been rounded to the nearest 10,000.
7. Individuals and households in receipt of either tax credit, working tax credit or child tax credit have been counted.
8. There are more households than persons because different individuals within the household might receive the benefits and tax credits.
9. 'Income-related benefits' includes income support, income-based jobseeker's allowance, council tax benefit, housing benefit, and for 2005-06 only, pension credit.

Source
Family Resources Surveys 1997-98 and 2005-06.

Information on the number of claimants of the various income-related benefits for each of the four years is available from DWP Information. However, similar figures are not available for households. Supplementary benefit was the only income-related benefit availabie in 1979. Income support replaced supplementary benefit in 1988. Income-based jobseeker's allowance replaced income support for the unemployed in 1996. Pension credit replaced income support, and expanded the availability of income-related benefits, for pensioners in 2003. Housing benefit, in its current form, was introduced in 1988. Community charge benefit was introduced in 1990 and was replaced by council tax benefit in 1993.

The available information is in the following table

Claimants of income-related benefits in Great Britain

	SB	IS	JSA (IB)	HB/CCB	HB/CTB	PC
1979	2,855,000	[1]	[1]	[1]	[1]	[1]
1992	[1]	5,088,000	[1]	3,080,000	[1]	[1]
May 1997	[1]	3,977,100	1,219,000	[1]	2,330,000	[1]
February 2007	[1]	2,134,170	707,700	[1]	[1]	2,730,940

[1] Figures are not available.

Notes
1. 'SB' is supplemeptary benefit; 'IS' is income support; 'JSA (IB)' is income-based jobseeker's allowance; 'HB' is housing benefit; 'CCB' is community charge benefit; 'CTB' is council tax benefit; and 'PC' is pension credit.
2. Overlaps between benefits have been removed.
3. Due to the estimation procedure used to remove the overlaps between housing benefit and council tax benefit, HB/CTB figures have been rounded to the nearest 10,000.
4. JSA 5 per cent. figures have been uprated using 5 per cent. proportions against 100 per cent. totals of WPLS data.
5. HB data excludes any extended payment cases.
6. CTB data excludes second adult rebate cases.
7. Some income-based JSA claimants may also have entitlement to benefit via the contributory route.

Information Directorate, 5 per cent. and 1 per cent. samples; 100 per cent. Work and Pensions Longitudinal Study; Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample.

HMRC's snapshot publication estimates the number of out of work claimants who receive either child tax credit or the equivalent through benefits. It shows that as at April 2007, there were 1,398,000 out of work families with children of which 927,000 received child tax credit and the remaining 471,000 received the equivalent in benefits. The full HMRC publication is available online at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/ctc-wtc-snapshot-apr07.pdf

Welfare to Work

Mr. Clappison: To ask the Secretary of State for Work and Pensions what Government welfare to work programmes have been instituted since 1997; what the *(a)* duration and *(b)* cost of each programme has been; how many people were placed in full-time permanent employment as a result of each programme; and what the average duration of such employment was. [152705]

Caroline Flint: Information is available on the number of people placed into work through welfare to work programmes, but not on the average duration of jobs gained, or whether employment gained was full-time and permanent.

The available information is in the following table.

Cost and duration of welfare to work programmers instituted since 1997

	Cost (£ million)	Duration
New Deal for Young people	[1]1,895	1998-present
New Deal 25 Plus	[2]939	1998-present
New Deal for Young People and New Deal 25 Plus	[3]322	
New Deal for Lone Parents	166	1998-present
New Deal for Partners	6	1999-present
New Deal 50 Plus	255	2000-present
New Deal for Disabled People	276	2001 -present
Pathways (IB Reforms)	81	2003-present
Work Based Learning for Adults	811	2001-06
Short Intensive Basic Skills	16	2001-06
Action Teams	162	2000-06
Employment Zones	623	2000-present
Progress2work	89	2002-present
Link-Up	—	2002-present
Ethnic Minority Outreach	23	2002-06

[1] Represents costs for New Deal for Young People (NDYP) up to March 2006.
[2] Represents costs for New Deal 25 (ND25+) plus up to March 2006.
[3] Represents combined costs for NDYP and ND25 plus for 2006-07. There is no split currently available between NDYP and ND25+ for 2006-07. The expenditure has been presented as a combined figure until an apportionment is made

Notes:
1. All others costs are to March 2007 and include start-up costs.
2. New Deal costs exclude admin expenditure as this is only available by individual programme up to 2002-03.
3. Cost figures are from published accounts and working papers and are rounded to the nearest £ million.
4. Progress2work and Link-Up costs cannot be separated. The total of £89 million is for both programmes.
5. Table excludes pilot programmes.

DWP Departmental Report 2005-06; Jobcentre Plus Accounts 2006-07

CULTURE, MEDIA AND SPORT

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Culture, Media and Sport what legislative provisions introduced by his Department since 1997 have not yet been brought into force. [149566]

Margaret Hodge: I refer the hon. Member to the answer given to the hon. Member for Bath (Mr. Foster) on 3 September 2007, *Official Report*, column 1596W.

Flags

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport if he will place in the Library a copy of the direction issued on behalf of the Prime Minister on the flying of the Union Flag from Government buildings. [153345]

Margaret Hodge: Organisations and individuals may fly the Union Flag when they wish. However, guidance on the protocol of flying the flag from UK Government buildings is published on the Department's website at http://www.culture.gov.uk/flagflying, and restricted to various appointed days. The Green Paper "The Governance of Britain", which was announced by the Prime Minister in his Constitutional Reform statement to the House on 3 July 2007, *Official Report*, column 816, proposed consultation on whether the guidance should be altered to give Departments more flexibility over when they fly the Union Flag. The Department's consultation document, "Altering the current guidance on flying the Union Flag from UK Government buildings", was published on 25 July and is on the Department's website at http://www.culture.gov.uk/Reference_library/Consultations. In the meantime on 5 July the Secretary of State for Culture, Media and Sport relaxed the restrictions while the Department carries out the consultation so that all UK Government Departments have the option to fly the Union Flag when they wish. Copies of the consultation document have been placed in the Libraries of both Houses.

Football

Bob Russell: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with football authorities on the number of overseas players registered to play with English clubs; and if he will make a statement. [155479]

Mr. Sutcliffe *[holding answer 17 September 2007]:* My right hon. Friend the Secretary of State met recently with representatives of The Football Association to discuss, among other issues, the development of national talent and the recently published Review of Young Player Development in Professional Football. We look forward to seeing The FA's response in the near future.

While overseas players continue to make a valuable contribution to the English game and have helped the Premier League to become one of the best domestic leagues in the world, we recognise concerns that an over reliance on overseas players may impact upon the quality of players available for the national team. It is right that The FA should be considering this issue.

Gaming: Internet

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport how many prosecutions have been brought against online gaming companies for breaking existing legislation on advertising internet gambling. [155441]

Mr. Sutcliffe *[holding answer 17 September 2007]:* There have been no prosecutions brought against online gaming companies for breaching existing legislation on advertising internet gambling. The new gambling legislation came into effect on 1 September 2007.

Public Libraries: Closures

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport how many libraries were closed in the last 12 months in *(a)* each Government region and *(b)* each parliamentary constituency; and whether he (i) has used or (ii) plans to use the provisions of section 10 of the Public Libraries and Museums Act 1964. [155085]

Margaret Hodge *[holding answer 10 September 2007]:* DCMS officials wrote to library authorities in April 2007 requesting information about public library closures, openings and refurbishments. The returns established the following figures for the Government regions in 2006-07:

Government region	*Closures*	*Openings*	*Net position*
London	5	5	0
South East	9	3	-6
South West	7	0	-7
East Midlands	7	3	-4
West Midlands[1]	7	5	-2
East of England	1	0	-1
Yorkshire	8	5	-3
North East	10	3	-7
North West	17	7	-10
Total	71	31	-40

[1] Please note that a return was not received from Herefordshire county council.

These figures indicate 40 net public library closures in England in 2006-07 which represents around 1.1 per cent. of the total of 3,573 libraries. In addition almost 200 significant refurbishments took place last year. Library reorganisations can result in better and wider access—for example to take account of where population shifts from one area to another, or where two small, part-time libraries are closed and strategically replaced with a larger new library open for longer hours.

Data on the number of closures per parliamentary constituency are not collected centrally.

The formal powers of intervention established under section 10 of the Public Libraries and Museums Act 1964 have only been used on one occasion, when Ministers initiated a review of the public library provision in Derbyshire in 1991. This review did not result in the then Secretary of State making use of his full powers of intervention.

There are currently no plans to use the powers established in the 1964 Act to intervene in the management of any English library authority: such decisions are taken on a case-by-case basis as issues arise.

Tourism

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport if he will list the overseas offices of regional development agencies which deal with tourism. [155440]

Margaret Hodge *[holding answer 17 September 2007]:* Of the eight Regional Development Agencies outside London, only Advantage West Midlands (AWM) has offices which deal with tourism. The Benelux Inward Investment Office in Belgium and the Chicago office have had peripheral involvement in tourism. AWM wishes, in general, to establish greater synergies between its tourism promotion and more general marketing and inward investment activities, including through its overseas offices.

In London, the Mayor's Office has offices in Shanghai, Beijing, Mumbai and Delhi that include representation from the London Development Agency (LDA). The offices are multi-purpose, promoting cultural links, the sharing of best practice in city governance, inward investment, business liaison and educational promotion for London universities. These offices have only been peripherally involved in tourism, but the Mayor's Office is working with VisitLondon to consider an increase in such activity in the future.

COMMUNITIES AND LOCAL GOVERNMENT

Home Information Packs

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what responsibility Mr. Neil McDonald in her Department *(a)* has and *(b)* had for home information packs. [153688]

Yvette Cooper: Neil McDonald held the role of the Home Information Packs Programme Director from July 2006 to May 2007. He is currently Director, Planning Policy.

Non-domestic Rates

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the timetable is for the consultation on supplementary business rates. [153718]

John Healey: The review of sub-national economic development and regeneration published on 17 July 2007 explained that the Government had begun to consider options for a supplementary business rate, working with local government, business and other stakeholders, and that we will report back later this year.

Planning: Public Participation

Mr. Bone: To ask the Secretary of State for Communities and Local Government if she will bring forward proposals to ensure that local communities are involved in decisions about the spending of section 106 monies for developments affecting their area. [155518]

Mr. Dhanda *[holding answer 17 September 2007]:* Planning obligations (s06 agreements) are private agreements negotiated between local planning authorities and persons with an interest in a piece of land, usually in the context of planning applications. They are intended to make acceptable development which would otherwise be unacceptable in planning terms. They may be used to prescribe the nature of the development, or to secure a contribution from a developer to compensate for loss or damage created by a development or to mitigate a developments impact. Planning obligations should never be used purely as a means of securing for the local community a share in the profits of a development.

Local planning authorities should include in their development plan documents, policies about use of planning obligations. The process of setting planning

obligation policies and negotiating planning obligations should be conducted as openly, fairly and reasonably as possible. The Planning and Compulsory Purchase act 2004 requires regional planning bodies and local planning authorities to prepare a Statement of Community Involvement, in which they set out their policy on involving their community in preparing regional spatial strategies, local development documents and consulting on planning applications.

Regional Planning and Development

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what research her Department has *(a)* commissioned and *(b)* funded on the (i) South West Regional Spatial Strategy and (ii) East of England Regional Spatial Strategy. [153694]

Hazel Blears: The regional planning body (RPB) is responsible for preparing draft regional spatial strategy (RSS) revisions; including gathering any evidence and undertaking any studies to support that process.

In both regions, the Government offices were involved, with the RPB and other key partners, in work on sub-regional and other studies to inform the preparation of the draft RSSs. In the East of England, this involved an element of joint funding of some of these pieces of work by the Government office. In the South West, work was commissioned by the Government office to update transport modelling for the West of England area to help inform the examination in public.

In addition, to meet statutory requirements Government office for the east of England has commissioned work on sustainability appraisal and the habitats regulations assessment (appropriate assessment) as part of developing the proposed changes to the draft RSS. Similar work is also anticipated by Government office for the south-west.

CHILDREN, SCHOOLS AND FAMILIES

Children and Family Court Advisory and Support Service

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families whether he plans to outsource work undertaken by the Children and Family Court Advisory and Support Service. [151919]

Kevin Brennan: This is a matter for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the chief executive, will write to the Hon. Member with this information and a copy of his reply will be placed in the House Library.

Letter from Anthony Douglas, dated 25 July 2007:

I am writing to you in response to the Parliamentary Question that you tabled recently:

151919—To ask the Secretary of State for Children, Schools and Families, whether he plans to outsource work undertaken by CAFCASS.

Presently Cafcass outsources the following areas of work; IT, payroll and internal audit services, and approximately 15% of overall casework, which is allocated to self-employed contractors, all of whom are qualified and experienced social work practitioners.

Cafcass does not plan to outsource any further work, although the potential for shared services will continue to be considered with suitable partner organisations should the need and opportunity arise.

A copy of this reply will be placed in the House Library.

Education Maintenance Allowance: Somerset

Dan Norris: To ask the Secretary of State for Children, Schools and Families how many residents of Wansdyke constituency have been in receipt of educational maintenance allowance in each year since its introduction. [149899]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), who operate the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF) and hold the information about take-up and payments under the scheme. Mark Haysom, the Council's Chief Executive, has written to the hon. Member with the information requested and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 12 September 2007:

I am writing in response to your recent Parliamentary Question that asked: "How many residents of Wansdyke constituency were in receipt of educational maintenance allowance for each year since its introduction".

Information on the number of young people who have applied, enrolled and received education maintenance allowance (EMA) is available at local authority level, but not at constituency level. EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

The following table shows EMA take-up for Bath and North East Somerset local authority area and South Gloucestershire local authority area during each academic year since inception:

Take-up of EMA in each academic year

	2004/05	*2005/06*	*2006/07 to end June*
Bath and North East Somerset	561	1,060	1,356
South Gloucestershire	830	1,450	1,801

EMA Take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06 and to date in 2006/07 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

I hope you find this information useful.

Dan Norris: To ask the Secretary of State for Children, Schools and Families how many residents of Wansdyke constituency are *(a)* eligible for and *(b)* in receipt of education maintenance allowance. [149900]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), who operate the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF) and hold the information about take-up and payments under the scheme. Mark Haysom, the Council's Chief Executive, has written to the hon. Member with the information requested and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 12 September 2007:

I am writing in response to your Parliamentary Question 149900 that asked: "How many residents of Wansdyke constituency are *(a)* eligible for and *(b)* in receipt of the education maintenance allowance".

Information on the number of young people who have applied, enrolled and received education maintenance allowance (EMA) is available at local authority level, but not at constituency level. EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

We currently only have estimated number of 16 year olds expected to be eligible for EMA in 2006/07 (FE only). This figure is not available for 17 or 18 year olds.

The following table shows EMA take-up for Bath and North East Somerset Local Authority area and South Gloucestershire Local Authority area:

	Number of 16 year olds expected to be eligible for EMA in 2006/07	*EMA Take-up 16 year olds*	*EMA Take-up 17 year olds*	*EMA Take-up 18 year olds*	*Total Take-up to end June 07*
Bath and North East Somerset	720	687	523	146	1,356
South Gloucestershire	1,010	924	685	192	1,801

EMA Take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06 and to date in 2006/07 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

I hope you find this information useful.

Education Maintenance Allowance: York

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how many students at education institutions in York are receiving education maintenance allowances; and what the total expenditure on the allowances in York was in the last year for which figures are available. [152194]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), who operate the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF) and hold the information about take-up and payments under the scheme. Mark Haysom, the Council's chief executive, has written to my hon. Friend with the information requested and a copy of his reply has been placed in the House Library.

Letter from Rob Wye, dated 20 September 2007:

I am writing in response to your Parliamentary Question that asked - How many students at education institutions in York are receiving education maintenance allowances; and what the total expenditure on the allowances in York was in the last year for which figures are available.

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance (EMA) is available at Local Authority Level. EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

EMA take-up for York is 1,327.

Expenditure on EMA payments to learners are held at National level, but not broken down to local authority level. EMA payments to learners during academic year 2006/2007 totaled £483 million. The data is available at http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm.

I hope you find this information useful.

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how many students at education institutions in York were receiving education maintenance allowances in 2006-07; and what the total expenditure on the allowances in York was in the 2006-07 academic year. [154940]

Jim Knight *[holding answer 10 September 2007]:* This is a matter for the Learning and Skills Council, who operate the education maintenance allowance (EMA) on behalf of the Department for Children, Schools and Families (DCSF), and hold the information about take-up and payments under the scheme. Mark Haysom, the Council's chief executive, has written to my hon. Friend with the information requested and a copy of his reply has been placed in the House Library.

Letter from Rob Wye, dated 20 September 2007:

I hope you find this information useful.

Education: Gambling

Mr. Drew: To ask the Secretary of State for Children, Schools and Families if he will commission a study on whether teaching children bridge in school can lead to the start of a gambling addiction. [147210]

Jim Knight: The Department has no plans to commission a study on the links between teaching Bridge in school and gambling addiction.

All children and young people are given the opportunity to acquire the knowledge, understanding and skills to avoid some of the potential pitfalls of gambling through Personal, Social and Health Education in schools.

Primary Education: Class Sizes

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average primary school class size in English schools was in each year since 1990-91; and if he will make a statement. [150692]

Jim Knight: Figures can be found in the following table.

Maintained primary schools: classes as taught[1, 2]

	Average primary class size
2007[3]	26.2
2006	26.3
2005	26.2
2004	26.2
2003	26.3
2002	26.3
2001	26.7
2000	27.1
1999	27.5
1998	27.7
1997	27.5
1996	27.5
1995	27.3
1994	27.2
1993	27.0
1992	26.8
1991	26.8

[1] One teacher classes as taught in a single selected period in each school on the day of the census in January.
[2] Includes middle schools as deemed.
[3] Provisional.

Private Finance Initiative: Finance

Dr. Cable: To ask the Secretary of State for Children, Schools and Families what the value is of the unitary payments of each private finance initiative scheme overseen by his Department over the lifetime of the contract, expressed in constant 2007-08 prices; and discounted to present value. [155025]

Jim Knight: Information on all signed private finance initiative contracts, including balance sheet treatment and future unitary charges, is included in HM Treasury's PFI Signed Projects List, which is available through www.hm.treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats. The information covers the unitary charge payment projections up to 2033-34.

This is a working document containing information on current signed PFI projects. It is updated on a six-monthly basis to reflect the updates HM Treasury receives from Departments at Budget and pre-Budget report.

Pupils: Assessments

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what the *(a)* mean and *(b)* median total point score was in England at Key Stage (i) 2 and (ii) 3 in each year since 1997; [155425]

(2) how many and what proportion of 11-year-olds with special educational needs achieved level 4 at Key Stage 2 in *(a)* reading, *(b)* writing, *(c)* mathematics and *(d)* reading, writing and mathematics, broken down by special educational need; [155426]

(3) what proportion of *(a)* children in receipt of free school meals, *(b)* pupils with special educational needs and *(c)* all children aged 11 years at the end of each academic year since 1997-98 achieved level (i) 4 and (ii) 5 at Key Stage 2 in (A) reading, (B) writing, (C) mathematics and (D) reading, writing and mathematics, broken down by type of school attended; [155461]

(4) what proportion of children *(a)* in receipt of free school meals, *(b)* with special educational needs and *(c)* aged 14 years at the end of each academic year since 1997 achieved level (i) 5 and (ii) 6 at Key Stage 3 in (A) reading, (B) writing, (C) mathematics and (D) reading, writing and mathematics, broken down by type of school attended; [155462]

(5) how many and what proportion of pupils who attained level 4 or below in the 2007 Key Stage 3 tests in *(a)* English, *(b)* mathematics and *(c)* science in each year since 1997 had previously attained level 4 or above at Key Stage 2. [155463]

Jim Knight *[holding answer 17 September 2007]:* The information can be provided only at disproportionate cost.

Mr. Brady: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the percentage of children who did not improve their level of attainment between the end of Key Stage 2 and Key Stage 3 in education authorities that are *(a)* non-selective and *(b)* wholly or partially selective. [155442]

Jim Knight *[holding answer 17 September]:* I have not made such an estimate. Information on the progress made by pupils between Key Stage 2 and Key Stage 3 national tests are available at

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000711/index.shtml

Further breakdowns of this to local authority (LA) level by selection policy of LA are available only at disproportionate cost.

Pupils: Discipline

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of schools experienced persistent unsatisfactory behaviour in each reporting period from 1996-97 to 2007-08. [150685]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Library.

Letter from Christine Gilbert, dated 25 July 2007:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

You asked what proportion of schools experienced unsatisfactory behaviour for each reporting period from 1996/97 to 2007/08.

The table enclosed gives the percentage of schools found to have unsatisfactory behaviour judgements during each academic year from 1996/97 to 2005/06 and the first two terms of 2006/07. These judgements are taken as a proportion of all inspections in that year.

You should be aware that from 1996/97 to 2004/05 the proportion includes schools judged to have unsatisfactory, poor and very poor behaviour. Categorisation changed in September 2005 with the introduction of the Section 5 school inspection framework. From 2005/06 to 2006/7 the proportion therefore contains schools judged to have inadequate behaviour.

A copy of this reply has been sent to Jim Knight MP, Minister of State for Schools and Learners and will be placed in the library of both Houses.

Academic year	*Percentage of schools inspected with unsatisfactory behaviour*
2006/07[1]	0.7
2005/06	0.8
2004/05	2.0
2003/04	2.9
2002/03	2.3
2001/02	2.6
2000/01	2.9
1999/2000	3.0
1998/99	3.2
1997/98	3.1
1996/97	3.4

[1] Autumn and spring terms only.

Schools: Gloucestershire

Martin Horwood: To ask the Secretary of State for Children, Schools and Families how many spare school places in *(a)* primary and *(b)* secondary schools there are within (i) Cheltenham constituency and (ii) other Gloucestershire constituencies. [155496]

Jim Knight *[holding answer 17 September 2007]:* At January 2006 there were:

(i) 1,252 spare primary school places and 692 spare secondary school places in the Cheltenham constituency;

(ii) 4,532 spare primary school places and 1,841 spare secondary school places in the remaining Gloucestershire constituencies.

This is the latest available data. The January 2007 surplus places data will be published early in 2008.

Schools: Playing Fields

Mr. Evans: To ask the Secretary of State for Children, Schools and Families what the average area of playing fields per school in the state sector is in *(a)* England, *(b)* the North West and *(c)* Ribble Valley. [149063]

Jim Knight: In the last 10 years the Secretary of State has approved 187 applications that involve the sale of an area of land capable of forming a sports pitch of at least 0.2 hectares at schools in England. Of these, 89 were in respect of closed schools. The number of these at schools in the North West is 34 (16 of these at closed schools). There have not been any applications approved that involve the sale of a sports pitch at a school in Ribble Valley.

Data on school playing fields were supplied to the Department by local authorities in 2001 and 2003. However, because the data were incomplete, it is not possible to assess accurately the number and area of school playing fields.

Schools: Poole

Mr. Syms: To ask the Secretary of State for Children, Schools and Families how many schools in Poole use *(a)* streaming and *(b)* setting. [151578]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Library.

Letter from Christine Gilbert, dated 27 July 2007:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

You asked how many schools in Poole use a) streaming and b) setting.

In total, 19 primary schools in Poole parliamentary constituency were inspected between 1996/97 and 2005/06 (some have been inspected more than once during this period). Setting or streaming was observed in at least one lesson in 13 of these schools. In total, 2,684 lessons were observed in primary schools in Poole during this period. Of these lessons, 8% were either setted or streamed.

In total, 3 secondary schools in Poole parliamentary constituency were inspected between 1996/97 and 2005/06 (some have been inspected more than once during this period). Setting or streaming was observed in at least one lesson in all of these schools. In total, 1,015 lessons were observed in secondary schools in Poole during this period. Of these lessons 38% were either setted or streamed.

Some explanation of these figures may be helpful. Before September 2005, inspectors were usually informed about how classes were organised by means of pre-inspection documentation, discussion with headteachers or teachers' schemes of work or lesson plans. Under the inspection arrangements at that time, all full-time teachers were observed by inspectors. Since September 2005, the recording of class organisation has been based either on discussions with the headteacher or teacher by reference to the lesson plan at the time of observation. A much smaller number of lessons are observed than would have been seen under the previous inspection framework. Lessons seen may therefore not represent pupil grouping in the school as a whole.

Prior to 2003/2004 lessons were recorded as being setted, streamed, mixed ability or otherwise organised. For clarity, setting is the term used to describe the organisation of pupils in classes on the basis of their prior attainment in the particular subject being taught. The term banding, which is very similar to streaming, is used when the decision as to which pupils are included or not in a class is based on the prior attainment in a range of subjects.

From 2003/04 the distinction between streaming and setting was removed and instead data recorded on whether the class was mixed ability or setted/streamed.

A copy of this reply has been sent to Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Specialist Diplomas: Engineering

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what discussions he has had with representatives from universities on the content of the Level 3 Diploma in Engineering. [155069]

Jim Knight: Representatives from the higher education sector have been fully involved in the design and development of all 14-19 diplomas through the Diploma Development Partnerships, as well as through our Higher Education Engagement Project Board.

Students successfully completing a Level 3 Diploma in Engineering will be well prepared for entry into higher education. Representatives of HE, including the Royal Academy of Engineering, the Engineering Professors Council and Russell Group representatives have all been involved in developing Level 3 diploma content. In addition a group consisting of engineering and mathematics professors, higher education tutors and other education experts has developed an optional specialist module which will be appropriate for diploma students seeking entry onto undergraduate courses leading to Chartered Engineer status.

Teachers: Training

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what discussions he has had with the Minister for Women and Equality on the decision to require mature students born before 1 September 1979 to have a GCSE at grade C or above (or recognised equivalent) in science in order to begin initial teacher training; [148758]

(2) what estimate he has made of the number of applicants for initial teacher training courses since 2006 who have had applications voided as a result of the decision to require mature students born before 1 September 1979 to have a GCSE at grade C or above (or recognised equivalent) in science in order to begin initial teacher training. [148757]

Jim Knight: Prior to October 2006, teacher training providers were required to ensure that all candidates entering primary teacher training had achieved a standard equivalent to a grade C in the GCSE examination in a science subject. This was because primary trainees were normally required to teach the whole curriculum, including maths, English and science and would be better prepared to train to teach these subjects if they have demonstrated the GCSE equivalent in them. However, an exemption had been applied for those born before 1 September 1979 as this coincided with the date at which science became compulsory at key stage 4 of the National Curriculum for people born after that date.

I have had no meetings with the Minister for Women and Equality. Last year the Training and Development Agency for Schools (TDA) took advice from the DTI (the sponsors of the legislation) and from ACAS and both confirmed that the original requirement which referred to entrants born after 1 September 1979 would be discriminatory as defined by the new age discrimination legislation that came into force on 1 October 2006.

In order to comply with the new legislation, the TDA therefore removed the exemption for those born before 1 September 1979 and applied the requirement to all primary entrants recruited on or after 1 October 2006, and alerted training providers to the change in the entry requirement. Offers made prior to this date for places on courses beginning after it could stand as they were made prior to the legislation being introduced but any candidates offered places after 1 October 2007 would need to demonstrate the GCSE science standard.

The requirement is for a standard of science knowledge, rather than a requirement to hold a particular qualification, and applicants with no formal qualifications in science can demonstrate this standard via a variety of means. Some teacher training providers offer equivalency tests; others use subject knowledge audits to test this standard. Some providers have worked with further education colleges to offer extra GCSE science courses and the TDA has worked with both providers and their associations to ensure that effective practice in meeting the needs of applicants is shared.

No data are held on the number of unsuccessful applications to primary initial teacher training and it is not therefore possible to determine whether any applications have been voided as a result of removing the exemption for older applicants.

Teaching Methods: Gravesend

Mr. Holloway: To ask the Secretary of State for Children, Schools and Families how many schools in Gravesham use *(a)* streaming and *(b)* setting. [149304]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Library.

Letter from Christine Gilbert, dated 27 July 2007:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

You asked how many schools in Gravesham use *(a)* streaming and *(b)* setting.

In total, 30 primary schools in Gravesham were inspected between 1 September 1996 and 31 August 2006 (some have been inspected more than once during this period). Setting or streaming was observed in at least one lesson in 11 of these schools. In total, 3,892 lessons were observed in primary schools in Gravesham during this period. Of these lessons, 7 per cent. were either setted or streamed.

In total, eight secondary schools in Gravesham were inspected between 1 September 1996 and 31 August 2006 (some have been inspected more than once during this period). Setting or streaming was observed in at least one lesson in all eight of these schools. In total, 2,221 lessons were observed in secondary schools in Gravesham during this period. Of these lessons 28 per cent. were either setted or streamed.

Some explanation of these figures may be helpful. Before September 2005, inspectors were usually informed about how classes were organised by means of pre-inspection documentation, discussion with headteachers or teachers' schemes of work or lesson plans. Under the inspection arrangements at that time, all full-time teachers were observed by inspectors. Since September 2005, the recording of class organisation has been based either on discussions with the

headteacher or teacher by reference to the lesson plan at the time of observation. A much smaller number of lessons are observed than would have been seen under the previous inspection framework. Lessons seen may therefore not represent pupil grouping in the school as a whole.

Prior to 2003-04 lessons were recorded as being setted, streamed, mixed ability or otherwise organised. For clarity, setting is the term used to describe the organisation of pupils in classes on the basis of their prior attainment in the particular subject being taught. The term banding, which is very similar to streaming, is used when the decision as to which pupils are included or not in a class is based on the prior attainment in a range of subjects.

From 2003-04 the distinction between streaming and setting was removed and instead data recorded on whether the class was mixed ability or setted/streamed.

A copy of this reply has been sent to Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

INNOVATION, UNIVERSITIES AND SKILLS

Departments: European Union

Philip Davies: To ask the Secretary of State for Innovation, Universities and Skills how many officials in his Department are *(a)* involved in assisting European Council negotiations, *(b)* involved in assisting and advising the European Commission, *(c)* seconded to the European Commission, *(d)* involved in monitoring EU decisions, communications, regulations and directives, *(e)* involved in enforcing compliance with EU decisions, communications, regulations and directives and *(f)* involved in other work related to the European Council, Commission or Court of Justice. [146098]

Bill Rammell: Officials throughout the Department of Innovation, Universities and Skills (DIUS) are involved in a full range of EU business. Those working specifically on EU business in the Joint International Unit total five; their time is split between DIUS and Department for Children, Schools and Families (DCSF) EU business. Additionally, there are seven staff working specifically on EU business in the Office for Science and Innovation. A breakdown of the figures as requested would incur disproportionate cost.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was spent by his Department on flowers in the last 12 months. [153238]

Mr. Lammy: The Department did not commit to any expenditure on flowers in the last 12 months.

Departments: Manpower

Mrs. May: To ask the Secretary of State for Innovation, Universities and Skills whether he plans to increase the number of civil servants employed in his Department. [147882]

Mr. Lammy: DIUS is a new Department and, consequently, we are considering carefully the optimum number of civil servants needed to deliver our strategic objectives.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was spent by his Department on newspapers and magazines in the last 12 months. [153235]

Mr. Lammy: Newspaper and magazine purchase is recorded under the general heading of Books and Newspapers.

Details of expenditure on books, newspapers and magazines incurred by the Department over the last financial year are as follows:

2006-07—£166,000

The Department for Innovation, Universities and Skills (DIUS) was established under Machinery of Government changes on 28 June 2007. This response only relates to those areas of responsibility held by its predecessor the Department for Education and Skills.

Graduates: Debts

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills what the average level of debt is of a university graduate on graduation. [151221]

Bill Rammell: For students who entered higher education in the 2006/07 academic year, we expect their average level of debt on graduation to be around £15,000.

Student loans have very different features to most commercial loans. Graduates only repay once they are in work and only when their annual income reaches £15,000. Interest is charged at the rate of inflation, so students only pay back in real terms the amount they originally borrowed.

In July we announced plans to introduce greater flexibility in the repayment of student loans by allowing borrowers to take repayment breaks of up to five years.

A generous package of support is available to students, particularly those from low incomes, who receive maintenance grants of up to £2,700 per annum. From 2008/09 onwards, around two-thirds of new full-time entrants to higher education will be eligible for a full or partial grant—compared to just over a half now.

Graduates: Employment

Mr. Vara: To ask the Secretary of State for Innovation, Universities and Skills what the average time taken for a university graduate to find employment following graduation has been in each of the last 10 years; and what the average starting salary of a university graduate was in each such year. [155578]

Bill Rammell *[holding answer 17 September 2007]:* The latest available data are taken from the Destination of Leavers in Higher Education (DLHE) Survey which has been published annually by the Higher Education Statistics Agency (HESA) for the past four years.

The DLHE Survey captures the first destinations of graduates, six months after leaving university. The most recent information available is for those who graduated in 2005/06 who were surveyed in early 2007. Figures are given in the table.

UK and EU domiciled full time first degree graduates by first destination six months after qualifying, academic years 2002/03 to 2005/06

Academic year	*Percentage of leavers in employment*	*Percentage of leavers in employment and further study*	*Percentage of leavers in further study*	*Percentage of leavers assumed unemployed*	*Percentage of leaver in other[1] destinations*
2002/03	63	8	16	7	6
2003/04	63	9	16	7	5
2004/05	63	8	16	7	6
2005/06	63	8	16	6	7

[1] Includes those students who are not available for, or not looking for, employment.

Source:

HESA Destination of Leavers in Higher Education Survey

In the longer term, studies have shown that graduate unemployment decreases over time and that four years after graduating, unemployment rates have fallen to 2-3 per cent. (3 per cent. for men and 2 per cent. for women), and 90 per cent. are in employment.

The Labour Force Survey shows that holders of HE qualifications are more than half as likely to be unemployed as non-graduates, at 2.8 per cent. and 6.5 per cent. respectively.

The available information on average starting salaries, for those in employment six months after qualifying, are given in the table.

Average starting salaries of UK and EU domiciled first degree graduates[1] in full time employment, academic years 2002/03 to 2005/06

Academic year	*Average starting salary[2] (£)*
2002/03	17,000
2003/04	18,000
2004/05	19,000
2005/06	19,000

HESA Destination of Leavers in Higher Education Survey

Higher Education

Sarah Teather: To ask the Secretary of State for Innovation, Universities and Skills following the oral statement of 5 July 2007, *Official Report*, columns 1108-10, on Higher Education, what estimate his Department has made of the cost of providing more maintenance grants to students of higher education institutions. [155109]

Bill Rammell *[holding answer 10 September 2007]:* We estimated that the additional costs of providing more generous maintenance grants to students would be £330 million across the three years of the next spending review period. Our costs forecasts will be revised as we receive further data about numbers of students and the incomes of students and their parents.

Higher Education: Expenditure

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how much funding was given to *(a)* higher education institutions, *(b)* further education colleges for higher education activity and *(c)* further education colleges for further education activity from each relevant public sector budget, including European Union funding, in the last year for which figures are available. [149031]

Bill Rammell: For *(a)* funding for higher education institutions, the data from the HESA finance record for 2005-06 are at (Annex A) as follows.

Annex A: public income received by HEFCE funded HEIs 2005-06

	£ million
Funding council grants	6,121
Home and EC fees paid by SLC, LEAs, SAAS, DEL MI, DH +full-time fees paid from other sources	1,410
Research income: Research councils	893
Research income: UK cent Government	441
Research income: EU Government	173
Other income: UK cent Government	329
Other income: Grants from local authorities	2
Other income: Income from health and hospital authorities	256
Total public income	9,626

Source:
HESA finance record, Table 5a and 5b

As part of *(b)*, the HEFCE recurrent funding that we allocated to directly-funded further education colleges (FECs) in 2005-06 was £147 million (source. HEFCE 2005/43 'Recurrent grants for 2005-06: final allocations'). In addition to this, special funding and capital allocations to directly-funded FECs in 2005-06 totalled £24 million.

Funding for FECs that are indirectly funded is within that of the HEI funding and is not separately identifiable.

As for (c), the Learning and Skills Council (LSC) is responsible for funding of Further Education colleges. In 2006-07 financial year, total expenditure by the LSC on further education was £4,979 million; this figure excludes expenditure by LSC on further education colleges funded through the European Social Fund (ESF). Details of ESF expenditure is a matter for the LSC as they determine these matters. Mark Haysom, the Council's chief executive, will write to the hon. Gentleman with further information. A copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 18 September 2007:

I am responding to the second part of your question to the Secretary of State for Innovation, Universities and Skills on your question around funding for further education colleges for further education activity from each relevant public sector budget, including European Union funding, in the last year for which figures are available.

In addition to the £4,979m total expenditure by the LSC on further education in the 2006-07 financial year already provided in the written reply of 11th July, an additional £55m of European Social Fund was also spent in further education colleges.

Mature Students: Finance

Mrs. Maria Miller: To ask the Secretary of State for Innovation, Universities and Skills (1) which European legislation regulates the provision by local authorities of age-related subsidies for educational courses; and what assessment he has made of the effects of such legislation; [154843]

(2) whether local authorities may put in place age-related subsidies for educational courses at institutes of further and higher education; and if he will make a statement on lifelong learning. [154844]

Bill Rammell: The Government believe that learning should serve the needs of the whole community. That is why we are committed to reducing barriers to learning, sustaining equal opportunities and ensuring a wide range of suitable learning opportunities in every area, for learners of all ages, including older people within and outside the workforce.

The Employment Equality (Age) Regulations 2006 implement the age strand of the EU Equal Treatment Directive 2000/78. Comprehensive information on the impact of the new regulations is not available.

As I said in my written statement to the House on 16 May 2007, *Official Report*, column 35WS, the age regulations do not bar providers from giving fee discounts, but they do require that such positive action can be objectively justified. Guidance on the regulations is available on the Department for Business, Enterprise and Regulatory Reform website. It makes it clear that age-related practices, such as age-related fee concessions, may be objectively justified where they are a proportionate means of achieving a legitimate aim. That judgment can only be made by the individual provider in the light of local circumstances, the courses they offer and their own legal advice.

Those learners receiving a means-tested benefit, including those in receipt of Pension (Guarantee) Credit, will continue to benefit from free tuition on publicly-funded courses. Learners of any age will continue to have access to literacy and numeracy courses, as well as free tuition to undertake a first full level 2 qualification (ESOL provision is free only to learners who can prove they are on income related benefits).

Student Wastage: Teachers

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what the non-completion rates were for students enrolled in teacher training courses at UK universities in each year between 1997 and 2006. [154999]

Jim Knight: I have been asked to reply.

Information about failure to complete Initial Teacher Training (ITT) courses is only available for trainees in their final year of training. The Training

and Development Agency for Schools (TDA) only collect information relating to ITT courses in England. Prior to 1998/99 this data is not in a consistent format, so those gaining QTS in 1997/98 are not included in the response.

The tables show:

1. The number of final year Initial Teacher Training (ITT) trainees, who were completing their ITT courses in a university in England, for each academic year between 1998/99 and 2005/06 who did not gain Qualified Teacher Status (QTS) in their final year of training and of these the number who are known not to have completed their courses and the number where the outcome of QTS is unknown.

2. The percentage of final year ITT trainees in universities in England

A. Known not to have completed their ITT course for each academic year between 1998/99 and 2005/06

B. W ho have failed to gain QTS for each academic year between 1998/99 and 2005/06

Final year ITT trainees in universities in England gaining QTS

Number of final year trainees in Universities in England who have not gained QTS

	Total number of trainees in their final year in universities in England	*Known not to have completed course*	*Undefined outcome*	*Other outcome*	*Total*	*Number of trainees who are known not to have completed their ITT course as a proportion of all final year trainees*	*Number of trainees who have not gained QTS as a proportion of all final year trainees*
1998/99	26,120	1,260	440	1,280	2,980	5	11
1999/00	23,670	1,190	330	1,310	2,830	5	12
2000/01	24,490	1,250	460	1,200	2,910	5	12
2001/02	25,070	1,070	0	1,900	2,970	4	12
2002/03	27,030	960	0	2,060	3,020	4	11
2003/04	29,190	1,330	0	2,120	3,450	5	12
2004/05	29,430	1,290	0	2,730	4,020	4	14
2005/06	29,410	1,150	0	2,850	4,000	4	14

Notes:

1. Numbers are individually rounded to the nearest 10, therefore may not sum.
2. The table includes ITT trainees who trained in universities only. This excludes those trained through Employment Based Route (EBR), School Centred ITT (SCITT) and Open University courses.
3. 'Other outcome' includes final year trainees who are yet to complete their course, those with withheld QTS (including those where their skills test was not met, their standards were not met and where both their standards and skills test were not met) and those where the skill test has not been taken (including those whose standards were met and those whose standards were not met).
4. Non-completion rates presented are based on:

A. Those known not to have completed their ITT course.

B. Those who have failed to gain QTS because they are yet to complete their course, QTS has been withheld, the skills test has not been taken or the QTS outcome is undefined.

TDA performance profiles.

Students: Fees and Charges

Sarah Teather: To ask the Secretary of State for Innovation, Universities and Skills what percentage of higher education institutions are charging annual tuition fees in excess of £1,125; and how much extra income his Department estimates these institutions will receive from charging these fees compared with the 2005/06 academic year. [155090]

Bill Rammell *[holding answer 10 September 2007]:* In 2006/07, all Higher Education Institutions in England who were running undergraduate courses had an access agreement to charge Variable Tuition Fees, and were charging over the £1,200 fixed fee amount for that year.

Data are not yet available on the income to institutions from Tuition Fees in the 2006/07 academic year.

However, the Department's estimates for the expected receipts from university tuition fees were given in the November 2005 statement to the Commons. These were based on the income from UK and EU full-time undergraduate students studying at English Higher Education institutions; where we estimated that once all cohorts of students were paying variable fees, the total fee income would equate to £2,250 million in 2006-7 prices which compares to an estimated income of £900 million from standard fees of £1,200. Therefore, our estimate for the additional fee income from Variable Tuition Fees is £1,350 million.

Sarah Teather: To ask the Secretary of State for Innovation, Universities and Skills what estimate his Department has made of the cost of *(a)* providing fee deferral to students at HE institutions and *(b)* writing off any student debt still outstanding after 25 years. [155093]

Bill Rammell: Provision for the cost of fee loans for English domiciled HE students in FY07-08 is £349 million in resource accounting and budgeting (RAB) terms[1]. The current RAB charge for fee loans is 33 per cent. This shows the future cost to Government of subsidising and writing-off student loans issued in any given year.

The fee loan ensures that students are not forced to pay tuition fees before university and they only repay once in work and earning more than £15,000.

[1] The RAB charge is an estimate of the percentage of the face value of loans issued in that year which reflects the resource cost over the expected life of the loan to the Government of making the loans.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Companies House

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform, how much income Companies House received from the late filing of accounts in each of the last 10 years. [155589]

Mr. Timms: The amount generated from the penalties for the late filing of accounts was:

	£ million
1997-98	18.0
1998-99	19.3
1999-2000	21.8
2000-01	25.2
2001-02	23.7
2002-03	27.6
2003-04	28.0
2004-05	32.0
2005-06	30.2
2006-07	39.0

This income was not retained by Companies House, but was passed to the Consolidated Fund, HM Treasury.

Electronic Games: Epilepsy Warning

John Penrose: To ask the Secretary of State for Culture, Media and Sport, what estimate he has made of the percentage of electronic games publishers which include warnings on their products that they could trigger a photosensitive epileptic seizure. [153978]

Mr. Thomas: I have been asked to reply.

None. The use of warnings regarding photosensitive seizures is undertaken by publishers of electronic games on a voluntary basis.

Workers: Additional Training

Mr. Waterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform, how many workers in *(a)* Eastbourne and *(b)* East Sussex have received additional training under the Engineering Workforce Development scheme since inception. [151354]

Mr. Timms: Following extensive inquiries with a wide range of Regional partners including the South East England Development Agency (SEEDA), the Sussex Learning and Skills Council, the Engineering Employers Federation (EEF) South and after referring to the Government Grants and Support Directory, it has not been possible to identify the Engineering Workforce Development scheme. If the hon. Gentleman wishes to write to me separately with more detail about the scheme, I will endeavour to provide the information requested.

Private Consultancy

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform, which private consultancy firms *(a)* his Department and *(b)* agencies which report to his Department engaged in each of the last three years; which programmes or projects each firm worked on; and what the approximate cost to the Department or agency concerned was of each engagement. [155874]

Mr. Thomas: Central records indicate that the Department has spent the following on consultancy services:

Financial Year 2005-06: £53.6 million

Financial Year 2006-07: £40.2 million

Financial Year 2007-08: £16.3 million (to date)

I have placed in the Libraries of the House a list of companies that received payments for consultancy services in each of the last three financial years, together with details of the total amount paid to each.

I have asked Chief Executives of the Executive Agencies to respond directly to the hon. Member. Further information is not held centrally and could only be provided at disproportionate cost.
